Audit Committee of First Citizens National Bank  
Employee Stock Ownership Plan and Trust  
and Payroll Stock Ownership Plan

We have audited the accompanying statements of net assets available for benefits of First Citizens National Bank Employee Stock Ownership Plan and Trust and First Citizens National Bank Payroll Stock Ownership Plan as of December 31, 2010 and 2009 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of First Citizens National Bank Employee Stock Ownership Plan and Trust and First Citizens National Bank Payroll Stock Ownership Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of First Citizens National Bank Employee Stock Ownership Plan and Trust and First Citizens National Bank Payroll Stock Ownership Plan is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**FIRST CITIZENS NATIONAL BANK  
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST  
AND PAYROLL STOCK OWNERSHIP PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2010 and 2009**

**NOTE 1 PLAN DESCRIPTION AND BASIS OF PRESENTATION**

The First Citizens National Bank Employee Stock Ownership Plan and Trust (the Plan) was adopted by the Board of Directors of First Citizens National Bank effective January 1, 1985. The following brief description of the plan is provided for general information purposes only. Participants should refer to the plan Agreement for complete information.

***A. Eligibility***

The Plan provides for participation by all employees of First Citizens National Bank who have completed a year of service during their first twelve consecutive months of employment and who are at least twenty-one (21) years old. A year of service is defined as twelve consecutive months of employment in which the employee works 1,000 hours.

***B. Payment of Benefits***

Benefits are paid to a participant upon retirement at the normal retirement age of sixty five (65), or at such later date as the participant may elect to retire or upon total and permanent disability prior to age sixty five (65) to the extent of his or her entire interest in the Trust Fund. Benefits are payable to a participant's beneficiary in the event of a participant's death at any time to the extent of his or her entire interest in the Trust Fund. Benefits are paid to a participant upon permanent disability to the extent of his or her entire interest in the Trust Fund.

Benefits payable to a participant whose employment terminates prior to retirement are determined by a vesting schedule based on completed years of service with the employer. A year of service for vesting purposes is any plan year in which the participant works at least 1,000 hours. Effective January 1, 2007 the plan was amended to change the vesting schedule. The amendment provides for 100% vesting after completion of three (3) years of service.

***C. Plan Termination***

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts. The interest of each participant in the plan will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the Code.

***D. Plan Contributions***

The Plan is a defined contribution plan under which a separate individual account is established for each participant. The Plan provides for contributions equal to 7% of covered compensation. Participants who do not have at least 1,000 hours of service during the plan year or are not employed on the last working day of the plan year are generally not eligible for an allocation of Company contributions for such year. An additional contribution may be made as determined by the employer not to exceed that amount allowed as a deduction annually by the Internal Revenue Code. On May 22, 2009 the Plan was amended to remove the 7% required contribution. The employer will determine the amount of the contribution, if any, after that date.

***E. Diversification***

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a rollover distribution.

The First Citizens National Bank Payroll Stock Ownership Plan (PAYSOP) was enacted effective January 1, 1985. Contributions, based on payroll, were made to this plan for plan years December 31, 1985 and 1986. For plan years beginning after December 31, 1986, all contributions ceased. A wasting trust is maintained so distributions of benefits attributable to the PAYSOP may be made. Since January 1, 1987, separate accounts have been maintained for participants with a PAYSOP balance at December 31, 1986. No further contributions will be made to these accounts.

In addition, effective January 1, 2008, plan participants will be able to diversify 25% of the First Citizens National Bank stock held in their account if they are between the ages of 45 and 55, have at least ten years of participation in the ESOP and are actively employed at the time of the election to diversify. Such diversification election is meant to enhance the existing diversification provisions of the plan available at age 55 and is available only once between the ages 45 and 55.

***F. Put Option***

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is the right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

***G. Participant Accounts and Forfeitures***

The employer contribution and forfeitures for that plan year shall be allocated to the participants who are employed at the end of the plan year based on the proportion which a participant's compensation during such year bears to the total compensation for that year of all participants. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants beginning of the year account balances.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies of First Citizens National Bank Employee Stock Ownership Plan and Trust and Payroll Stock Ownership Plan are summarized as follows:

The financial statements of the ESOP are presented on the accrual basis of accounting. The financial statements of the PAYSOP are prepared on the liquidation basis of accounting.

***A. Investment Valuation and Income Recognition***

Investments are presented at estimated fair market value as of the balance sheet date. Fair market value of investments which have no quoted market price is determined by independent appraisal. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on the trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

***B. Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

***C. Plan Administration Expenses***

Except for some small transfer fees, all expenses of maintaining the Plan are paid by the Company.

***D. Payment of Benefits***

Benefits are recorded when paid.

***E. Subsequent Events***

Management has evaluated subsequent events through June 14, 2011, the date the financial statements were available to be issued.

**NOTE 3 TAX STATUS**

The Internal Revenue Service has determined and informed the Company by a letter dated August 29, 2002, that the Plans are qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter and the Company believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Company believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. The Plan was restated on January 31, 2011 as required by the Economic Growth and Tax Relief Reconciliation Act (EGTRRA). The Plan is currently awaiting IRS approval of the restatement.

**NOTE 4 CONCENTRATION OF CREDIT RISK**

A substantial portion of the assets of the First Citizens National Bank Employee Stock Ownership Plan and Trust and Payroll Stock Ownership Plan is invested in common stock of the Employer.

Although the Employer has a diversified loan portfolio a significant portion of its portfolio is real estate related. Their debtors' ability to honor their contracts, and therefore the welfare of the Employee Stock Ownership Plan's investment, is dependent upon the economy of the area.

NOTES TO FINANCIAL STATEMENTS  
December 31, 2010 and 2009**

At December 31, 2010, the common capital stock of First Citizens Bancshares, Inc. was appraised at \$33.00 per share by an independent appraisal firm. At December 31, 2009, the common capital stock of First Citizens Bancshares, Inc. was appraised at \$32.00 per share by an independent appraisal firm. The "unrealized appreciation in investments" reflects the adjustment to market value in the carrying value of these assets.

The Plan purchased more shares during the year than it could allocate to participants because the Plan only allows active participants to purchase stock and those participants did not have enough cash to make the purchases.

**NOTE 6 FAIR VALUE MEASUREMENTS**

The Plan's investments are reported at fair value in the accompanying statement of assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net reasonable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of corporate bonds and Federated Prime obligations are available based on quoted market prices.

Level 3 Fair Value Measurements

The fair value of the sponsor company common stock is determined by an annual independent appraisal.
