Mr. Horwitz:

Karpus Management, Inc., d/b/a Karpus Investment Management ("Karpus") is the beneficial owner of 317 shares of common stock and one share of preferred stock of Putnam Municipal Opportunities Trust ("PMO" or the "Fund") and by this letter is notifying the Fund of its intention to submit the enclosed non 14a-8 shareholder proposal (the "Proposal") for consideration at the Fund's 2011 Annual Meeting anticipated to be held in April 2011 (as well as any postponement or adjournment thereof) (the "Meeting"). As the attached indicates, our proposal requests that the Board of Trustees of PMO take all steps necessary to cause PMO to redeem all outstanding auction rate preferred shares at par and utilize Municipal Term Preferred Securities (MTPS), Variable Rate Demand Preferred Securities (VRDPS) and/or Tender Option Bonds (TOBs) as alternate sources of leverage. Also attached is a letter from U. S. Bank N.A., as well as a written statement from the "record" holder of the referenced 317 common and one preferred share, confirming ownership of the PMO securities by Karpus. Karpus intends to hold the shares referenced in the enclosed attachments at least through the date of the Meeting. Please advise us immediately if this notice is deficient in any way or any additional information is required so that we may promptly provide that information or cure any deficiency. SHAREHOLDER PROPOSAL Submitted by Karpus Management, Inc., d/b/a Karpus Investment Management ("Karpus")

BE IT RESOLVED, that the Board of Trustees of Putnam Municipal Opportunities Trust ("PMO" or the "Fund") consider taking all steps necessary to cause PMO to redeem all outstanding auction rate preferred shares at par and to utilize Municipal Term Preferred Securities (MTPS), Variable Rate Demand Preferred Securities (VRDPS) and/or Tender Option Bonds (TOBs) as alternate sources of leverage.

SUPPORTING STATEMENT

When PMO holds its 2011 Annual Shareholder meeting, it will have been more than three years since the last auction process for PMO's auction rate preferred shares ("ARPS") took place. ARPS holders' investments are frozen, with no liquidity. The Fund has held ARPS shareholders' capital hostage long enough and we feel that it is time for the Fund to act in a proactive fashion by redeeming all remaining outstanding ARPS at par and replacing the leverage provided by the ARPS with MTPS, VRDPS and/or TOBs (should the Board deem it appropriate to maintain the current closed-end structure). In a presentation last year, the Fund stated that "the Independent Trustees have acted in shareholders' best interests since the auction rate-securities market collapsed." We disagree. If the Fund had truly wanted to act in the interests of both common and preferred shareholders, it would have either: (1) merged the Fund into the an open-end fund as previously announced; or (2) replaced all outstanding auction rate preferred shares at par with the above-stated alternate forms of leverage. To address the first action, if the Fund had followed through on its

own recommendation in a timely fashion (rather than delaying and then suspending), all shareholders would have benefitted by receiving full value for their shares. Additionally, we feel that it is important to note that in the current market environment, many closed-end fund municipal bond shareholders have been able to receive net asset value for their common shares and par value for their preferred shares. This has not been the case with our Fund, despite the fact that all four original reasons cited for merging PMO into an open-end fund are still valid to this day. Addressing the second action, if the Fund would have taken steps to complete the replacement of all outstanding ARPS, the Fund could benefit existing ARPS shareholders by providing liquidity at par and also could benefit common shareholders by taking advantage of low interest rate vehicles while simultaneously mitigating the risk of a significant increase in the cost of leverage should short-term interest rates rise. Shareholders deserve a definitive plan from their Fund and Trustees. To our knowledge, no solutions beyond the auction rate preferred redemptions completed in anticipation of the merger of PMO into the stated open-end fund have been announced. **This is not acceptable.** ARPS holders must be able to receive the intrinsic value of their shares and common shareholders must be protected from a potentially higher cost of leverage should short-term interest rates rise.
