CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Consolidated Financial Information

The unaudited consolidated financial information for the third quarter and nine months ended September 30, 2011 and 2010 reflect, in the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of Ecolab Inc. (the company) for the interim periods presented. The financial results for any interim period are not necessarily indicative of results for the full year. The consolidated balance sheet data as of December 31, 2010 was derived from the audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The unaudited consolidated financial information should be read in conjunction with the consolidated financial statements and notes thereto incorporated in the company's Annual Report on Form 10-K for the year ended December 31, 2010.

With respect to the unaudited financial information of the company for the third quarter and nine months ended September 30, 2011 and 2010 included in this Form 10-Q, PricewaterhouseCoopers LLP reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report dated October 31, 2011 appearing herein states that they did not audit and they do not express an opinion on that unaudited financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended (the Act), for their report on the unaudited financial information because that report is not a report or a part of a registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Act.

2. Special (Gains) and Charges (Continued)

For segment reporting purposes, special gains and charges are included in the Corporate segment, which is consistent with the company's internal management reporting.

Restructuring Charges

Following the implementation of new business systems in Europe, in February 2011, the company commenced a comprehensive plan to substantially improve the efficiency and effectiveness of its European business, sharpen its competitiveness and accelerate its growth and profitability. Additionally, restructuring will be undertaken outside of Europe, the costs of which are not expected to be significant (collectively, the 2011 Restructuring Plan). Through the 2011 Restructuring Plan, approximately 900 positions are expected to be eliminated.

The company expects to incur pretax restructuring charges of approximately \$150 million (\$125 million after tax) through 2013, as the 2011 Restructuring Plan continues to roll out. Approximately \$60 million to \$70 million (\$50 million to \$60 million after tax) of those charges are expected to occur in 2011. The company anticipates that approximately \$125 million of the pre-tax charge will represent cash expenditures. The remaining \$25 million of the pre-tax charges represent estimated asset disposals. No decisions have been made for any remaining asset disposals and estimates could vary depending on the actual actions taken.

As a result of restructuring activities, the company recorded restructuring charges of \$17.1 million (\$14.8 million after tax) or \$0.06 per diluted share and \$58.1 million (\$49.0 million after tax) or \$0.21 per diluted share, during the third quarter and nine months ended September 30, 2011, respectively.

Restructuring charges and subsequent activity for the first nine months of 2011 related to the 2011 Restructuring Plan include the following:

(millions)	Employee Termination Costs	Asset Disposals	Other	Total
<u>2011 Restructuring Plan:</u>

2. Special (Gains) and Charges (Continued)

Restructuring charges have been included as a component of both cost of sales and special gains and charges on the Consolidated Statement of Income. Amounts included as a component of cost of sales include supply chain related severance. Restructuring liabilities have been classified as a component of other current liabilities on the Consolidated Balance Sheet.

Employee termination costs include personnel reductions and related costs for severance, benefits and outplacement services. Asset disposals include leasehold improvement write-downs. Other charges include lease terminations.

As previously disclosed, in 2009, the company completed restructuring and other cost-saving actions in order to streamline operations and improve efficiency and effectiveness (the 2009 Restructuring Plan). The 2009 Restructuring Plan was finalized and all actions, except for certain cash payments, were completed as of December 31, 2009. As of December 31, 2010, the remaining liability related to the 2009 Restructuring Plan was \$2.8 million. A minimal amount remains as a liability related to the 2009 Restructuring Plan as of September 30, 2011.

Non-restructuring Special (Gains) and Charges

In the third quarter of 2011, the company entered into an agreement and plan of merger with Nalco Holding Company (Nalco). Special gains and charges incurred during 2011 include \$10.3 million of charges related to the anticipated merger, including costs for advisory and legal fees and integration costs. Further details related to the anticipated Nalco merger are included in Note 7.

In the first quarter of 2011, the company completed the purchase of the assets of the Cleantec business of Campbell Brothers Ltd., Brisbane, Queensland, Australia (Cleantec). Special gains and charges in 2011 include acquisition integration costs incurred to optimize the Cleantec business structure. Further details related to the Cleantec acquisition are included in Note 7.

In the third quarter of 2010, the company sold an investment in a small U.S. business and recognized a gain on the sale. The investment was not material to the company's consolidated results of operations or financial position.

Beginning in 2010, Venezuela was designated hyper-inflationary and as such all foreign currency fluctuations are recorded in income. On January 8, 2010 the Venezuelan government devalued its currency, the Bolivar Fuerte. As a result of the devaluation, the company recorded a charge in the first quarter of 2010 due to the remeasurement of the local balance sheet using the official rate of exchange for the Bolivar Fuerte.

In September the company replaced its existing \$600 million multi-year credit facility with a \$1.5 billion multi-year credit facility, which expires in September 2016. The company also entered into a \$2.0 billion, 364 day credit facility. Both credit facilities have been established with a diverse portfolio of banks. The credit facilities will be used for general corporate purposes, including share repurchases, the repayment of other indebtedness and acquisitions. The credit facilities are also expected to be used in connection with the funding of the anticipated Nalco merger.

5. Financial Instruments and Hedging TransactionsFair Value of Financial Instruments

The company's financial instruments include cash and cash equivalents, accounts receivable, accounts payable, commercial paper, notes payable, foreign currency forward contracts, interest rate swap contracts and long-term debt. The carrying values of cash and cash equivalents, accounts receivable, accounts payable, commercial paper and notes payable approximate fair value because of their short maturities. The carrying values of foreign currency forward contracts and interest rate swap contracts are at fair value, which is determined based on foreign currency exchange rates and current interest rates, respectively, as of the balance sheet date (level 2 - significant other observable inputs).

The carrying amount and the estimated fair value of long-term debt, including current maturities, held by the company were:

(millions)	September 30, 2011				December 31, 2010			
	Carrying Amount		Fair Value		Carrying Amount		Fair Value	
Long-term debt (including current maturities)	\$	707.4	\$	772.6	\$	813.2	\$	850.6

The fair value of long-term debt is based on quoted market prices for the same or similar debt instruments. The company has concluded that it does not have any significant level 3 financial instruments (unobservable inputs) measured using the company's own assumptions of fair market value.

ECOLAB INC.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5. Financial Instruments and Hedging Transactions (Continued)

Derivative Instruments and Hedging

The company uses foreign currency forward contracts, interest rate swaps and foreign currency debt to manage risks associated with foreign currency exchange rates, interest rates and net investments in foreign operations. The company records all derivatives as assets and liabilities on the balance sheet at fair value. Changes in fair value are recognized immediately in earnings unless the derivative qualifies and is designated as a hedge. The effective portion of changes in fair value of hedges are initially recognized in accumulated other comprehensive income (AOCI) on the Consolidated Balance Sheet. Amounts recorded in AOCI are reclassified into earnings in the same period or periods during which the hedged transactions affect earnings. The company evaluates hedge effectiveness at inception and on an ongoing basis. If a derivative is no longer expected to be effective, hedge accounting is discontinued. Hedge ineffectiveness, if any, is recorded in earnings.

The company does not hold derivative financial instruments of a speculative nature. The company is exposed to credit loss in the event of nonperformance of counterparties for foreign currency forward exchange contracts and interest rate swap agreements. The company monitors its exposure to credit risk by using credit approvals and credit limits and by selecting major international banks and financial institutions as counterparties. The company does not anticipate nonperformance by any of these counterparties.

Derivatives Designated as Cash Flow Hedges

The company utilizes foreign currency forward contracts to hedge the effect of foreign currency exchange rate fluctuations on forecasted foreign currency transactions, including: sales, inventory purchases, and intercompany royalty and management fee payments. These forward contracts are designated as cash flow hedges. The effective portions of the changes in fair value of these contracts are recorded in AOCI until the hedged items affect earnings, at which time the gain or loss is reclassified into the same line item in the Consolidated Statement of Income as the underlying exposure being hedged. All hedged transactions are forecasted to occur within the next twelve months.

The company occasionally enters into interest rate swap contracts to manage interest rate exposures. During the first nine months of 2011, the company entered into six forward starting swap agreements in anticipation of a long-term debt issuance. On October 27, 2011 the company entered into a Note Purchase Agreement, which is expected to be funded in November 2011. The interest rate swap agreements were designated and effective as cash flow hedges of the expected interest payments related to the anticipated debt issuance. In 2006, the company entered into and subsequently closed two forward starting swap contracts related to the issuance of its senior euro notes. The settlement payment was recorded in AOCI and is recognized in earnings as part of interest expense over the remaining life of the notes as the forecasted interest transactions occur.

Derivatives Not Designated as Hedging Instruments

The company also uses foreign currency forward contracts to offset its exposure to the change in value of certain foreign currency denominated assets and liabilities, primarily receivables and payables. Although the contracts are effective economic hedges, they are not designated as accounting hedges. Therefore, changes in the value of these derivatives are recognized immediately in earnings, thereby offsetting the current earnings effect of the related foreign currency denominated assets and liabilities.

Net Investment Hedge

The company designates its euro 300 million (\$431 million as of September 30, 2011) senior notes and related accrued interest as a hedge of existing foreign currency exposures related to net investments the company has in certain Euro functional subsidiaries. Accordingly, the transaction gains and losses on the euro notes which are designated and effective as hedges of the company's net investments have been included as a component of the cumulative translation adjustment account. Total transaction gains and losses related to the euro notes charged to shareholders' equity were as follows:

7. Business Acquisitions and Dispositions
2011 Activity

In July 2011, the company entered into an agreement and plan of merger with Nalco Holding Company, under which Nalco will be merged with a subsidiary of the company. Based in Naperville, Illinois, Nalco is the world's leading water treatment and process improvement company, offering water management sustainability services focused on industrial, energy and institutional market segments. Nalco sales were \$4.3 billion in 2010. Subject to the terms of the merger agreement entered into on July 19, 2011, the company will issue approximately 68.3 million shares of Ecolab stock and pay approximately \$1.6 billion in cash to Nalco shareholders. This represents a fully-diluted offer value for Nalco's equity of \$5.3 billion and, inclusive of \$2.7 billion in Nalco net debt, a total transaction value of \$8.0 billion, based on the company's closing stock price on August 29, 2011, which is consistent with the company's Form S-4 filing, as discussed below.

The company expects the transaction to close in the fourth quarter, subject to customary closing conditions, regulatory clearances, as well as approval of both the company's and Nalco's shareholders. The company filed with the SEC a registration statement on Form S-4 (commission file number 333-176601) that includes a joint proxy statement of the company and Nalco and that also constitutes a prospectus of the company with respect to the shares of Ecolab stock to be issued in the merger. The company established a record date of October 11, 2011 and a meeting date of November 30, 2011, for the special meeting of stockholders to approve the issuance of company stock in the merger. Nalco has set concurrent record and meeting dates for its special stockholder meeting to approve the merger.

7. Business Acquisitions and Dispositions (Continued)

The company and Nalco have submitted notifications with competition authorities in the U.S., European Union, Australia, Canada, China, Columbia, Mexico, Russia, South Korea and Turkey. The company has received clearances without imposed conditions from the U.S., Australia, Canada, Mexico, Russia, South Korea and Turkey. The company expects to obtain all required regulatory clearances to enable the transaction to close in the fourth quarter.

In March 2011, the company closed on the purchase of the assets of O.R. Solutions, Inc., a privately-held developer and marketer of surgical fluid warming and cooling systems in the U.S. The total purchase price was approximately \$260 million, of which \$26 million remains payable and was placed in an escrow for indemnification purposes related to general representations and warranties. The business, which has annual sales of approximately \$55 million, became part of the company's U.S. Cleaning & Sanitizing segment during the first quarter of 2011.

In December 2010, subsequent to the company's fiscal year end for international operations, the company completed the purchase of the assets of Cleantec located in Brisbane, Queensland, Australia. Cleantec is a developer, manufacturer and marketer of cleaning and hygiene products principally within the Australian food and beverage processing, foodservice, hospitality and textile care markets. The total purchase price was approximately \$43 million, of which \$2 million remains payable and was placed in an escrow for indemnification purposes. The business, which has annual sales of approximately \$55 million, became part of the company's International segment during the first quarter of 2011.

2010 Activity

In September 2010, the company acquired the commercial laundry division of Dober Chemical Corp. The acquisition strengthened the company's U.S. and Canada Textile Care business by adding customer relationships and business scale, as well as important customer technology.

During the third quarter of 2010, the company sold an investment in a small U.S. business and recognized a gain of \$5.9 million. The investment was not material to the company's consolidated results of operations or financial position.

During the second quarter of 2010, the company made an earnout payment related to a previous acquisition and sold a small joint venture in its international segment. The impact of this divestiture was not material.

Completed acquisitions in 2011 and 2010 were not material to the company's consolidated financial statements; therefore pro forma financial information is not presented. The aggregate purchase price of acquisitions has been reduced for any cash or cash equivalents acquired with the

acquisitions.

9. Pension and Postretirement Plans

The company is not required to make any contributions to its U.S. pension plan and postretirement health care benefits plan for 2011. However, the company made a \$100 million voluntary contribution to the U.S. pension plan in the first quarter of 2011.

Certain international pension benefit plans are required to be funded in accordance with local government requirements. The company contributed \$32 million to its international pension benefit plans during the first nine months of 2011. The company currently estimates that it will contribute approximately \$9 million more to the international pension benefit plans during the remainder of 2011.

The components of net periodic pension and postretirement health care benefit costs for the third quarter ended September 30 are as follows:

11. Goodwill and Other Intangible Assets

The company tests goodwill for impairment on an annual basis during the second quarter. The company's reporting units are its operating segments. If circumstances change significantly, the company would also test a reporting unit's goodwill for impairment during interim periods between its annual tests. During the second quarter ended June 30, 2011, the company completed its annual test for goodwill impairment. Based on this testing, no adjustment to the carrying value of goodwill was necessary. There has been no impairment of goodwill since the adoption of FASB guidance for goodwill and other intangibles on January 1, 2002.

The changes in the carrying amount of goodwill for each of the company's reportable segments during the nine months ended September 30, 2011 were as follows:

(millions)	Cleaning & Sanitizing	United States Other Services	Total	Intl	Total
Beginning goodwill as of December 31, 2010	\$ 454.4	\$ 50.5	\$ 504.9	\$ 824.4	\$ 1,329.3

Ending goodwill as of as of September 30, 2011	\$ 543.6	\$ 50.5	\$ 594.1	\$ 909.9	\$ 1,504.0

(a) For 2011, goodwill related to businesses acquired of \$89.2 million is expected to be tax deductible.

The company's other intangible assets primarily include customer relationships, trademarks, patents and other technology. Other intangible assets are amortized on a straight-line basis over their estimated economic lives. Total amortization expense related to other intangible assets during the third quarter ended September 30, 2011 and 2010 was \$13.7 million and \$10.2 million, respectively. Total amortization expense related to other intangible assets during the first nine months ended September 30, 2011 and 2010 was \$39.0 million and \$30.4 million, respectively. As of September 30, 2011, future estimated amortization expense related to amortizable other identifiable intangible assets will be:

12. New Accounting Pronouncements

In May 2011, the FASB issued updated accounting guidance on fair value measurements. The updated guidance will result in common fair value measurement and disclosure requirements between U.S. GAAP and IFRS. This guidance is effective for fiscal years and interim periods beginning after December 15, 2011 and is not expected to have a material impact on the company's consolidated financial statements.

In June 2011, the FASB issued a final standard on the presentation of comprehensive income. Under the newly issued guidance, net income and comprehensive income may only be presented either as one continuous statement or in two separate, but consecutive statements. This guidance is effective for fiscal years and interim periods beginning after December 15, 2011. The company is currently evaluating the impact of adoption and will include the required disclosures upon adoption in the first quarter of 2012.

In September 2011, the FASB issued a final standard to enhance disclosures for multiemployer pension plans. Multiemployer pension plans allow for two or more unrelated employers to make contributions to one plan, and are commonly used by employers in unionized industries. The standard is intended to provide more information about an employer's financial obligations to a multiemployer plan. This guidance is effective for fiscal years ending after December 15, 2011. The company has identified one plan that falls within the provisions of this guidance and if determined to be significant, will include the required disclosures upon adoption in the fourth quarter of 2011.

Also in September 2011, the FASB amended its guidance on the testing of goodwill impairment to allow an entity the option to first assess qualitative factors to determine whether performing the current two-step process is necessary. Under the new option, the calculation of the reporting unit's fair value is not required unless as a result of the qualitative assessment, it is more likely than not that the fair value of the reporting unit is less than the unit's carrying amount. This guidance is effective for fiscal years and interim periods beginning after December 15, 2011, with early adoption permitted. Adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

No other new accounting pronouncements issued or effective has had or is expected to have a material impact on the company's consolidated financial statements.

13. Commitments and Contingencies

The company is subject to various claims and contingencies related to, among other things, workers' compensation, general liability, automobile claims, health insurance claims, lawsuits, environmental matters and income taxes. The company also has contractual obligations including lease commitments.

Edgar Filing: ECOLAB INC - Form 10-Q

The company records liabilities where a contingent loss is probable and can be reasonably estimated. If the reasonable estimate of a probable loss is a range, the company records the most probable estimate of the loss or the minimum amount when no amount within the range is a better estimate than any other amount. The company discloses a contingent liability even if the liability is not probable or the amount is not estimable, or both, if there is a reasonable possibility that a material loss may have been incurred.

ECOLAB INC.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

13. Commitments and Contingencies (Continued)

The company and certain subsidiaries are party to various lawsuits, claims and environmental actions that have arisen in the ordinary course of business. These include antitrust, patent infringement, product liability and wage hour lawsuits, as well as possible obligations to investigate and mitigate the effects on the environment of the disposal or release of certain chemical substances at various sites, such as Superfund sites and other operating or closed facilities. Because litigation is inherently uncertain, and unfavorable rulings or developments could occur, there can be no certainty that the company may not ultimately incur charges in excess of presently recorded liabilities. A future adverse ruling, settlement or unfavorable development could result in future charges that could have a material adverse effect on the company's results of operations or cash flows in the period in which they are recorded. The company currently believes that such future charges, if any, would not have a material adverse effect on the company's consolidated financial position.

The company is a defendant in five wage hour lawsuits claiming violations of the Fair Labor Standards Act or a similar state law. Four of the suits seek certification of a state class of certain Institutional, Pest Elimination or GCS/Ecolab Equipment Care division associates. The fifth suit seeks certification of a national class of certain independent contractors in the company's U.S. Other Services segment, as well as the granting of certain employment benefits. None of the suits have been certified for class-action status. The suits are still in their initial phases. The company believes that there is not a reasonably possible risk of material loss related to these lawsuits.

Following the announcement of the Nalco merger, four purported stockholders of Nalco filed putative class action lawsuits against the members of Nalco's board of directors and Ecolab, among other defendants, in the Circuit Court of the Eighteenth Judicial Circuit, DuPage County, State of Illinois. The court consolidated the four putative class action lawsuits into one action. The plaintiffs in the consolidated action filed a consolidated amended complaint. The consolidated amended complaint alleges, among other things, that the planned merger transaction is the result of an unfair and inadequate process, that the consideration to be received by Nalco stockholders in the merger is inadequate, that the preliminary joint proxy statement/prospectus (filed with the Securities and Exchange Commission in connection with the merger) contains misstatements and omissions and that the members of Nalco's board of directors breached their fiduciary duties to Nalco stockholders. The consolidated amended complaint additionally alleges that Nalco and Ecolab aided and abetted the Nalco board of directors in their alleged breach of fiduciary duties. The consolidated action seeks, among other things, injunctive relief enjoining Ecolab and Nalco from proceeding with the merger. On October 24, 2011, the parties to the consolidated action reached an agreement in principle regarding settlement of the consolidated action. Under the settlement, the consolidated action will be dismissed with prejudice on the merits and all defendants will be released from any and all claims relating to, among other things, the merger and any related disclosures. The settlement is subject to customary conditions, including consummation of the merger, completion of certain confirmatory discovery, class certification and final approval by the court. In exchange for the releases provided in the settlement, Ecolab and Nalco have provided additional disclosure in the joint proxy statement/prospectus requested by plaintiffs in the consolidated action. The parties have agreed that the lead plaintiff may apply to the court for an award of attorneys' fees and reimbursement of expenses, which, under certain circumstances, the defendants have agreed not to oppose.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Ecolab Inc.

We have reviewed the accompanying consolidated balance sheet of Ecolab Inc. and its subsidiaries as of September 30, 2011, and the related consolidated statement of income for the three-month and nine-month periods ended September 30, 2011 and 2010 and the consolidated statement of cash flows for the nine-month periods ended September 30, 2011 and 2010. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2010, and the related consolidated statements of income, comprehensive income and equity, and of cash flows for the year then ended (not presented herein), and in our report dated February 25, 2011, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2010, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information that we believe is useful in understanding our operating results, cash flows and financial condition. The discussion should be read in conjunction with both the unaudited consolidated financial information and related notes included in this Form 10-Q, and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2010. This discussion contains various Non-GAAP Financial Measures and also contains various Forward-Looking Statements within the meaning of the Private Securities Litigation Reform Act of 1995. We refer readers to the statements entitled Non-GAAP Financial Measures and Forward-Looking Statements located at the end of Part I of this report.

Overview of the Third Quarter Ended September 30, 2011

We continued to report strong adjusted earnings per share growth in the third quarter. Sales increased, led by strong growth from Latin America and Canada, along with solid performances from Asia Pacific and U.S. Food & Beverage. These strong performances, along with acquisitions, more than offset higher delivered product costs. We have begun integration planning work with Nalco and we expect to close on the merger transaction in the fourth quarter.

Both 2011 and 2010 results of operations included special gains and charges, as well as discrete tax items which impact the year over year comparisons.

Sales Performance

- Consolidated net sales increased 11% to \$1.7 billion. Excluding the impact of acquisitions, sales increased 9%. Net sales were favorably impacted by foreign currency exchange during the quarter. When measured in fixed rates of currency exchange, net sales grew 6%. Excluding the impact of acquisitions, fixed currency sales increased 3%.
- U.S. Cleaning & Sanitizing sales rose 6% to \$763 million. Excluding the impact of acquisitions, sales rose 3%. Results were led by 5% growth for Food & Beverage, 3% growth for Institutional, 2% growth for Kay, and 32% growth for Healthcare. Excluding acquisitions, Healthcare sales increased 4% compared to the prior year.
- U.S. Other Services sales increased 2% to \$120 million. GCS sales grew 6% while Pest Elimination sales were flat compared to the prior year.
- International sales, when measured in fixed rates of currency exchange, increased 6% to \$797 million in the third quarter. Excluding the impact of acquisitions, fixed currency sales increased 4% during the quarter. Latin America reported fixed currency sales growth of 16% for

Edgar Filing: ECOLAB INC - Form 10-Q

the quarter. Asia Pacific reported 15% fixed currency sales growth (5% growth excluding impact from acquisitions). Canada's fixed currency sales rose 7% for the quarter and Europe/Middle East/Africa (EMEA) fixed currency sales increased by 1%. When measured at public currency rates, International sales increased 18%.

Financial Performance

- Operating income decreased 2% to \$240 million. Excluding the impact of special gains and charges from both years, adjusted operating income increased 11% compared to the third quarter of 2010.
- Net income attributable to Ecolab decreased 11% to \$154 million. Excluding the impact of special gains and charges, and discrete tax items, adjusted net income attributable to Ecolab increased 13% compared to the prior year's third quarter.

Financial Performance (Continued)

- Reported diluted earnings per share attributable to Ecolab of \$0.65 decreased 12% compared to the third quarter of 2010. Excluding the impact of special gains and charges, and discrete tax items, adjusted diluted earnings per share attributable to Ecolab increased 14% to \$0.75 for the third quarter of 2011 compared to \$0.66 in the third quarter of 2010.
- Our reported effective income tax rate was 31.8% for the third quarter of 2011 compared to 24.3% for the third quarter of 2010. Excluding the tax rate impact of special gains and charges, and discrete tax items, our adjusted effective income tax rate was 30.2% and 30.3% for the third quarter of 2011 and 2010, respectively.

Results of Operations – Third quarter and Nine months Ended September 30, 2011

Net Sales

Consolidated net sales for the third quarter ended September 30, 2011 were \$1.7 billion, an increase of 11% compared to last year. For the first nine months of 2011, net sales increased 10% to \$5.0 billion. When measured in fixed rates of currency exchange, sales increased 6% for both the third quarter of 2011 and the first nine months of 2011. The components of the sales increase are shown below.

(percent)	Third Quarter Ended September 30, 2011	Nine Months Ended September 30, 2011
Volume	2%	3%
Price changes	1	1
Acquisitions & divestitures	2	2
Fixed currency sales increase	6	6
Foreign currency exchange	5	3
Total net sales increase	11%	10%

Note: Amounts in the table above do not necessarily sum due to rounding.

Gross Profit Margin

The gross profit margin (gross margin)(defined as the difference between net sales less cost of sales divided by net sales) was 49.4% and 51.1% for the third quarter of 2011 and 2010, respectively. Our third quarter 2011 gross margin was negatively impacted by restructuring special charges included in cost of sales of \$4.5 million which reduced our reported gross margin percentage by 0.3 percentage points. Our gross margin for the first nine months of 2011 and 2010 was 49.3% and 50.6%, respectively. The 2011 year to date gross margin was negatively impacted by restructuring special charges included in cost of sales of \$5.3 million which reduced our reported gross margin percentage by 0.2 percentage points.

The gross margin decrease for the third quarter and year to date period resulted as sales and pricing gains were unable to offset significantly increased delivered product costs and European restructuring costs.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONSSelling, General and Administrative Expense

Selling, general and administrative expense as a percentage of consolidated net sales were 34.3% for the third quarter of 2011 compared to 35.8% in 2010. For the nine month periods, selling, general and administrative expenses were 36.1% of sales in 2011 and 37.3% of sales in 2010. The decrease in expense ratio for the third quarter and year to date period was driven by leverage from sales gains which more than offset investments in the business and cost increases.

Special (Gains) and Charges

Special gains and charges reported on the Consolidated Statement of Income included the following items:

(millions)	Third Quarter Ended September 30		Nine Months Ended September 30	
	2011	2010	2011	2010
Cost of sales				
Restructuring charges	\$ 4.5	\$	\$ 5.3	\$

Total	23.3	(5.1)	68.0	(1.0)
Total special (gains) and charges	\$ 27.8	\$ (5.1)	\$ 73.3	\$ (1.0)

Following the recent implementation of new business systems in Europe, in February 2011, we commenced a comprehensive plan to substantially improve the efficiency and effectiveness of our European business, sharpen its competitiveness and accelerate its growth and profitability. Additionally, restructuring will be undertaken outside of Europe, the costs of which are not expected to be significant. As a result of restructuring activities, we recorded restructuring charges of \$17.1 million (\$14.8 million after tax) or \$0.06 per diluted share and \$58.1 million (\$49.0 million after tax) or \$0.21 per diluted share, during the third quarter and nine months ended September 30, 2011, respectively. Restructuring charges have been included as a component of both cost of sales and special gains and charges on the Consolidated Statement of Income.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONSSpecial (Gains) and Charges (Continued)

We expect to incur pretax restructuring charges of approximately \$150 million (\$125 million after tax) through 2013, as the restructuring plan continues to roll out. These actions are expected to result in approximately \$120 million (\$100 million after tax) in annualized cost savings when fully realized, with approximately \$8 million to \$10 million (\$6 million to \$8 million after tax) realized in 2011. Approximately \$60 million to \$70 million (\$50 million to \$60 million after tax) of these charges are expected to occur in 2011. We anticipate that approximately \$125 million of the pre-tax charge will represent cash expenditures. The remaining \$25 million of the pre-tax charges represent estimated asset disposals. No decisions have been made for any remaining asset disposals and estimates could vary depending on the actual actions taken.

During the third quarter of 2011, we entered into an agreement and plan of merger with Nalco. Special gains and charges incurred in 2011 include \$10.3 million of charges related to the anticipated merger, including costs for advisory and legal fees and integration costs.

Further details related to our restructuring charges and non-restructuring special gains and charges are included in Note 2.

Operating Income

(millions)	Third Quarter Ended September 30			% Change	Nine Months Ended September 30			% Change
	2011	2010			2011	2010		
Reported GAAP operating income	\$ 239.6	\$ 245.1	(2)%		\$ 589.6	\$ 603.2	(2)%	
Adjustments:

Non-GAAP adjusted fixed currency operating income	\$ 261.1	\$ 244.1	7%		\$ 651.9	\$ 611.3	7%	

Our reported operating income decrease of 2% for both the third quarter and first nine months of 2011 was impacted by the year over year comparison of special gains and charges.

On an adjusted basis, excluding special gains and charges, operating income increased 11% and 10% in the third quarter and first nine months of 2011, respectively. Foreign currency had a favorable impact on both third quarter and year to date adjusted operating income. Adjusted fixed

currency operating income increased 7% for both the third quarter and first nine months of 2011. The adjusted operating income increase was driven by sales volume gains, pricing, strong acquisition performance, and efficiencies which were partially offset by increased delivered product costs and investments in the business.

Interest Expense, Net

Net interest expense totaled \$13.2 million in the third quarter of 2011, compared with \$14.9 million in the third quarter of 2010. Net interest expense for the first nine months of 2011 and 2010 was \$39.8 million and \$44.9 million, respectively. The decline in our net interest expense was due to repayment of our \$150 million 6.875% notes in February 2011 and higher interest income, partially offset by higher interest expense related to hedging activities.

Provision for Income Taxes

The following table provides a summary of our reported tax rate:

(percent)	Third Quarter Ended September 30		Nine Months Ended September 30	
	2011	2010	2011	2010
Reported GAAP tax rate	31.8%	24.3%	31.9%	28.4%
Tax rate impact of:				
Special (gains) and charges	(1.9)	0.8	(1.9)	0.0
Discrete tax items	0.3	5.2	0.2	2.0
Non-GAAP adjusted tax rate	30.2%	30.3%	30.2%	30.4%

The reported tax rate for the third quarter and first nine months of 2011 and 2010 included the tax impact of special gains and charges and discrete tax items which increased our reported tax rate for 2011 and decreased our reported tax rate for 2010. The decrease in the 2011 Non-GAAP adjusted effective tax rate compared to 2010 was due primarily to increased tax benefits from international operations and inclusion of the R&D credit, which was not extended for 2010 until the fourth quarter of 2010.

The third quarter 2011 reported tax rate was impacted by \$4.9 million of reduced tax expense, including \$4.1 million of net tax benefits on special gains and charges and \$0.8 million of discrete tax net benefits. For the first nine months of 2011, the reported tax rate was impacted by \$12.9 million of reduced tax expense, including \$11.7 million of net tax benefits on special gains and charges and \$1.2 million of discrete tax net benefits.

The discrete tax items for the third quarter of 2011 were made up of a number of small items and primarily include net benefits related to recognizing adjustments from filing our 2010 U.S. federal and other International income tax returns and recognizing settlements and adjustments related to our 1999 through 2001 U.S. income tax returns. The discrete tax benefits for the nine month period also include benefits

Edgar Filing: ECOLAB INC - Form 10-Q

from prior year state refund claims and benefits from recognizing settlements and adjustments related to our 2007 through 2008 U.S. income tax returns, partially offset by a charge due to the impact of a change in our blended state tax rate.

The third quarter 2010 reported tax rate was impacted by \$12.3 million of reduced tax expense, including \$0.2 million of net tax benefits on special gains and charges and \$12.1 million of discrete tax net benefits. For the first nine months of 2010, the reported tax rate was impacted by \$10.7 million of reduced tax expense, including \$0.1 million of net tax expense on special gains and charges and \$10.8 million of discrete tax net benefits.

The discrete tax items for the third quarter of 2010 primarily include recognizing favorable settlements related to our 2002 through 2004 IRS appeals case and adjustments related to our prior year tax reserves. The discrete tax benefit for the nine month period also includes a \$6 million tax benefit from the settlement of an international tax audit recorded in the first quarter, offset by a \$5 million charge also recorded in the first quarter due to the passage of the U.S. Patient Protection and Affordable Care Law, which changes the tax deductibility related to federal subsidies and resulted in a reduction of the value of our deferred tax assets related to the subsidies. The second quarter of 2010 includes a \$2 million charge for the impact of international tax costs from optimizing our business structure.

Consolidated	\$ 1,736.1	\$ 1,561.9	11%	\$ 4,953.2	\$ 4,514.2	10%

U.S. Cleaning & Sanitizing sales increased 6% in the third quarter and 8% for the first nine months of 2011. Excluding the impact of acquisitions, sales increased 3% for the third quarter and 5% for the first nine months of 2011. Sales for our larger U.S. Cleaning & Sanitizing businesses were as follows:

- Institutional - Sales grew 3% for the both the third quarter and first nine months of 2011. Sales initiatives, new account gains, pricing and effective product and service programs continued to lead our results. Demand from our lodging customers continued to show growth, while overall foot traffic at our foodservice customers remained soft.
- Food & Beverage - Sales in the third quarter of 2011 increased 5%, while sales for the first nine months of 2011 increased 7%. The dairy and food market segments continued to drive the increase, led by corporate account wins, pricing and product penetration. Sales for the year to date period also benefited from a large project sale through our Ecovation business during the second quarter of 2011.
- Kay - Sales increased 2% and 7% for the third quarter of 2011 and first nine months of 2011, respectively. The sales increase for both the third quarter and year to date period was led by our food retail business, which for the third quarter had a difficult comparison against 2010 due to new customer rollouts in the prior year.
- Healthcare - Sales increased 32% for the third quarter and 26% for the first nine months of 2011. Excluding the impact of acquisitions, sales increased 4% for the both the third quarter and first nine months of 2011. For the quarter, sales of hand hygiene and surgical instrument cleaning products were partially offset by slower growth in patient and equipment drapes.

Segment Results (Continued)

U.S. Other Services sales increased 2% for the both the third quarter and first nine months of 2011. Sales for our U.S. Other Services businesses were as follows:

- Pest Elimination - Sales were flat to the prior year periods both for the third quarter and first nine months of 2011. Gains in the food & beverage plant, healthcare, hospitality and grocery segments were offset by slow conditions in other major segments. Contract sales continued to increase marginally, offset by a decrease in non-contract sales.
- GCS Service - Sales in the third quarter of 2011 increased 6%, while sales for the first nine months of 2011 increased 7%. Service and installed parts sales increased, benefiting from pricing gains and new accounts. Direct parts sales decreased slightly for the third quarter 2011 and were flat for the first nine months of 2011.

We evaluate the performance of our International operations based on fixed rates of foreign currency exchange. Fixed currency sales for our International operations increased 6% for both the third quarter and first nine months of 2011. Excluding the impact of acquisitions and divestitures, fixed currency sales increased 4% for both the third quarter and nine months ended 2011. When measured at public currency rates, International sales increased 18% for the third quarter of 2011 and 13% for the first nine months of 2011. Fixed currency sales changes for our International regions were as follows:

- EMEA - Sales increased 1% for the third quarter and 2% for the first nine months of 2011. For the third quarter, sales growth in MEA, Germany and the U.K. was partially offset by lower sales in France and Italy. From a divisional perspective, Europe's Healthcare sales showed a solid increase based on gains in the pharmaceutical and infection prevention markets. Institutional and Food & Beverage sales both increased modestly due to new accounts and market share gains through corporate accounts. Textile Care and Pest Elimination sales both declined slightly in third quarter.
- Asia Pacific - Sales increased 15% for the third quarter and 16% for the first nine months of 2011. Excluding the impact of acquisitions, sales increased 5% for both the third quarter and first nine months of 2011. Sales growth was driven primarily by increases in China and Australia. From a divisional perspective, Institutional sales remained strong driven by new programs and a focus on expansion in emerging Asian markets. Food & Beverage also continued to report strong sales growth, benefiting from improved product penetration and account gains.
- Latin America - Sales in the third quarter of 2011 increased 16%, while sales for the first nine months of 2011 increased 14%. At a country level, Brazil, Chile and Mexico all showed strong sales gains. Our Institutional, Food & Beverage and Pest Elimination businesses all reported double-digit increases in sales.
- Canada - Sales increased 7% for the third quarter and 4% for the first nine months of 2011. Strong growth in both Institutional and Food & Beverage continued to lead the sales increase.

U.S. Cleaning & Sanitizing operating income increased 6% for the third quarter of 2011 and 3% for the first nine months of 2011. Excluding the impact of acquisitions, operating income was flat for the third quarter of 2011 and decreased 2% for the first nine months of 2011. Increases in delivered product costs continued to offset volume and pricing gains.

U.S. Other Services operating income increased 6% for the third quarter of 2011 and decreased 3% for the first nine months of 2011. The increase in the third quarter is driven by cost savings and variable cost reductions, which more than offset higher service delivery costs. For the year to date period, higher service delivery costs continued to outpace sales gains and cost savings actions.

International segment operating income at fixed currency rates increased 9% for the third quarter of 2011 and 15% for the first nine months of 2011. Excluding the impact of acquisitions and divestitures, fixed currency operating income increased 8% and 14% for the third quarter of 2011 and first nine months of 2011, respectively. Operating income growth was driven by volume and pricing gains, and savings from our 2011 Restructuring Plan, which more than offset higher delivered product and other costs. When measured at public currency rates, International operating income increased 23% and 28% for the third quarter and first nine months of 2011, respectively.

Consistent with our internal management reporting, the Corporate segment includes special gains and charges reported on the Consolidated Statement of Income. Items included in special gains and charges are shown in the table on page 30. The Corporate segment also includes investments in the development of business systems and other corporate investments we are making as part of our ongoing efforts to improve efficiency and returns.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Position and Liquidity

Total assets were \$5.5 billion as of September 30, 2011, compared to total assets of \$4.9 billion at December 31, 2010. The increase is due partially to acquisitions, which added \$0.3 billion to total assets. Also driving the increase is the impact of foreign currency exchange rates which increased the value of international assets on our balance sheet when translated into U.S. dollars.

Total debt was \$1.0 billion as of September 30, 2011 and \$846 million as of December 31, 2010. The ratio of total debt to capitalization (total equity plus total debt) increased to 30% at September 30, 2011 compared to 28% at December 31, 2010. The increases in debt and the debt to capital ratio were due primarily to the O.R. Solutions, Inc. acquisition, the \$100 million voluntary contribution to our U.S. pension plan and share repurchases. We are in compliance with all of our debt covenants and believe we have sufficient borrowing capacity to meet our foreseeable operating needs.

Cash provided by operating activities totaled \$541 million for the first nine months of 2011 compared to \$638 million in 2010. Operating cash flow in 2011 decreased due to a \$100 million voluntary contribution to our U.S. pension plan. We continue to generate strong cash flow from operations which has allowed us to continue to fund our ongoing operations, investments in the business, acquisitions, pension obligations and return cash to shareholders through share repurchases and dividend payments.

Cash used for investing activities was \$552 million in 2011 compared to \$240 million in 2010. Cash paid for acquisitions increased in 2011 due primarily to the acquisitions of the Cleantec business of Campbell Brothers Ltd. and O.R. Solutions, Inc. in the first quarter. Cash paid for acquisitions in 2010 included the commercial laundry business of Dober Chemical in the third quarter. See Note 7 for further information on our business acquisition activity. Increases in capital expenditures compared to the prior year were partially offset by a decrease in software investments.

Cash used for financing activities in 2011 included a long-term debt repayment, dividend payments and share repurchases. 2011 included the repurchase of 2.4 million of our common shares for approximately \$120 million under our share repurchase program. During the first nine months of 2010 we repurchased 7.4 million of our common shares for approximately \$345 million. The long-term debt repayment, dividend payments and share repurchases were partially offset by an increase of \$297 million related to net issuances of commercial paper and notes payable, which was also used to fund acquisition activity and the voluntary U.S. pension contribution.

The schedule of contractual obligations included in the Financial Position and Liquidity section of our Form 10-K for the year ended December 31, 2010 disclosed total notes payable and long-term debt due within one year of \$189 million. As of September 30, 2011, the total notes payable and long-term debt due within one year has increased to \$337 million. The increase from year end is primarily due to an increase in our outstanding U.S. commercial paper. Our gross liability for uncertain tax positions was \$38 million as of September 30, 2011 and \$66 million as of December 31, 2010. The decrease in the liability balance was due primarily to the settlement of our 2007 through 2008 IRS audit and recognizing settlements and adjustments related to our 1999 through 2001 U.S. income tax returns, with corresponding adjustments to prior

year reserves. We are not able to reasonably estimate the amount by which the liability will increase or decrease over time; however, at this time, we do not expect significant payments related to these obligations within the next year.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Position and Liquidity (Continued)

Excluding the impact of the anticipated merger with Nalco, which will require the issuance of shares of the company's common stock as well as cash considerations, we currently expect to fund all of the cash requirements which are reasonably foreseeable for the next twelve months, including scheduled debt repayments, new investments in the business, dividend payments, possible business acquisitions and pension contributions with cash from operating activities, cash reserves and short-term or long-term borrowings. We expect to fund the cash portion of the consideration for the anticipated merger with Nalco by accessing the capital markets through a combination of short-term and long-term debt.

As of September 30, 2011, we had \$207 million of cash and cash equivalents on hand and expect our operating cash flow to remain strong.

In September we replaced our existing \$600 million multi-year credit facility with a \$1.5 billion multi-year credit facility, which expires in September 2016. We also entered into a \$2.0 billion, 364 day credit facility. Both credit facilities have been established with a diverse portfolio of banks. The credit facilities will be used for general corporate purposes, including share repurchases, the repayment of other indebtedness and acquisitions. The credit facilities are also expected to be used in connection with the funding of the anticipated Nalco merger.

In addition to the general corporate uses discussed above, the credit facilities support our \$3.5 billion U.S. commercial paper program, which has been increased from \$600 million, and our \$200 million European commercial paper program. Combined borrowing under these two commercial paper programs may not exceed \$3.5 billion. As of September 30, 2011, we had \$305 million in outstanding U.S. commercial paper, with an average annual interest rate of 0.2%, and no amounts outstanding under our European commercial paper program. As of September 30, 2011, both programs were rated A-1 by Standard & Poor's and P-1 by Moody's. On October 14, 2011, Standard & Poor's lowered our short-term rating to A-2 due to the increased size of the program and the anticipated Nalco merger. Moody's has indicated that it intends to lower our short-term rating to P-2 subject to completion of the anticipated Nalco merger. In addition, Standard & Poor's and Moody's have indicated that they intend to downgrade our long-term credit rating to BBB+ and Baa1, respectively, subject to the completion of the Nalco merger. None of the discussed downgrades impact our debt covenants.

On September 6, 2011, we announced a \$1.0 billion share repurchase program, contingent upon closing the merger with Nalco. The share repurchase program is expected to be completed by the end of 2012. The funds required to complete the share repurchase program are expected to come, in whole or in part, from debt financing to be arranged after the completion of the merger.

Subsequent Events

On October 27, 2011, we entered into a Note Purchase Agreement to issue and sell \$500 million private placement senior notes, split into two series: \$250 million of 7 year notes that mature in 2018 at a rate of 3.69% and \$250 million of 12 year notes that mature in 2023 at a rate of 4.32%. Both series are expected to be funded in November 2011. The proceeds are expected to be used for general corporate purposes, including partially funding the Nalco merger.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 2, contains financial measures that have not been calculated in accordance with accounting principles generally accepted in the U.S. (GAAP). These Non-GAAP measures include fixed currency sales and fixed currency operating income, adjusted operating income, adjusted fixed currency operating income, adjusted effective tax rate, adjusted net income attributable to Ecolab and adjusted diluted earnings per share attributable to Ecolab. We provide these measures as additional information regarding our operating results. We use these Non-GAAP measures internally to evaluate our performance and in making financial and operational decisions, including with respect to incentive compensation. We believe that our presentation of these measures provides investors with greater transparency with respect to our results of operations and that these measures are useful for period-to-period comparison of results.

We include in special gains and charges items that are unusual in nature, significant in amount and important to an understanding of underlying business performance. In order to better allow investors to compare underlying business performance period-to-period, we provide adjusted operating income, adjusted fixed currency operating income, adjusted net income attributable to Ecolab and adjusted diluted earnings per share attributable to Ecolab, which exclude special gains and charges and discrete tax items.

The adjusted effective tax rate measure promotes period-to-period comparability of the underlying effective tax rate because the amounts excluded do not necessarily reflect costs associated with historical trends or expected future costs.

We evaluate the performance of our international operations based on fixed currency rates of foreign exchange. Fixed currency sales, fixed currency operating income and adjusted fixed currency operating income measures eliminate the impact of exchange rate fluctuations on our international sales, operating income and adjusted operating income, respectively, and promote a better understanding of our underlying sales and operating income trends. Fixed currency amounts are based on translation into U.S. dollars at fixed foreign currency exchange rates established by management at the beginning of 2011.

These measures are not in accordance with, or an alternative to GAAP, and may be different from Non-GAAP measures used by other companies. Investors should not rely on any single financial measure when evaluating our business. We recommend that investors view these measures in conjunction with the GAAP measures included in this Financial Discussion and have provided reconciliations of reported GAAP amounts to the Non-GAAP amounts on pages 31-33.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 2, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include expectations concerning the timing, costs, cash expenditures, benefits and headcount impact of our 2011 Restructuring Plan initiatives, timing of the completion of the Nalco merger, the receipt of regulatory clearances for the Nalco merger, the form of and funding for consideration to be paid in the Nalco merger, timing of and uses for long-term debt issuances, contributions to pension and post-retirement health care benefit plans, tax deductibility of goodwill, amortization expense, the impact of new accounting pronouncements, the impact of potential lawsuits or claims, gross liability for unrecognized tax benefits or uncertain tax positions and payments related thereto, timing of hedged transactions, future cash flow and sources of funding and nonperformance of financial counterparties. Without limiting the foregoing, words or phrases such as "will likely result," "are expected to," "will continue," "is anticipated," "we believe," "estimate," "project" (including the negative or variations thereof) or similar terminology, generally identify forward-looking statements. Forward-looking statements may also represent challenging goals for us. These statements, which represent the company's expectations or beliefs concerning various future events, are based on current expectations that involve a number of risks and uncertainties that could cause actual results to differ materially from those of such forward-looking statements. We caution that undue reliance should not be placed on such forward-looking statements, which speak only as of the date made. Some of the factors which could cause results to differ from those expressed in any forward-looking statement are set forth under Part II, Item 1A of this Form 10-Q. Except as required under applicable law, we undertake no duty to update our Forward-Looking Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We primarily use foreign currency forward contracts, foreign currency debt and interest rate swaps to manage risks generally associated with interest rate and foreign exchange rate volatility and net investments in our foreign operations. We do not hold derivative financial instruments of a speculative nature. For a more detailed discussion of derivative instruments, refer to Note 5, entitled "Financial Instruments and Hedging Transactions," of the consolidated financial statements located under Part I, Item 1 of this quarterly report on Form 10-Q, beginning on page 13.

Item 4. Controls and Procedures

As of September 30, 2011, we carried out an evaluation, under the supervision and with the participation of our management, including the Chairman of the Board, President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chairman of the Board, President and Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures are effective.

During the period July 1 through September 30, 2011, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Note 13, entitled "Commitments and Contingencies" located under Part I, Item 1 of this Form 10-Q beginning on page 25, is incorporated herein by reference.

Item 1A. Risk Factors

In our report on Form 10-K for the year ended December 31, 2010, filed with the Securities and Exchange Commission on February 25, 2011, we identify under Item 1A important factors which could affect our financial performance and could cause our actual results for future periods to differ materially from our anticipated results or other expectations, including those expressed in any forward-looking statements made in this Form 10-Q. See the section entitled Forward-Looking Statements located on page 40 of this Form 10-Q. We may also refer to such disclosure to identify factors that may cause results to differ from those expressed in other forward-looking statements made in oral presentations, including telephone conferences and/or webcasts open to the public.

The discussion below includes updates to our risk factors disclosure.

The proposed merger between Ecolab and Nalco Holding Company may present certain risks to the business and operations of Ecolab and to the combined company following the merger.

On July 19, 2011, Ecolab entered into an Agreement and Plan of Merger (the "Merger Agreement") among Ecolab, Sustainability Partners Corporation, a wholly-owned subsidiary of Ecolab ("Merger Sub"), and Nalco Holding Company ("Nalco"). The Merger Agreement, which has been unanimously approved by the Boards of Directors of each of Ecolab and Nalco, provides for the merger of Nalco with and into Merger Sub (the "Merger"), with Merger Sub continuing as the surviving corporation in the Merger. The consummation of the Merger is subject to the satisfaction or waiver of closing conditions applicable to both Ecolab and Nalco including, among others, the receipt of required regulatory approvals, the adoption of the Merger Agreement by the Nalco stockholders and the approval of the issuance of Ecolab common stock to Nalco's stockholders by the stockholders of Ecolab.

We expect to incur significant expenses in connection with our proposed merger with Nalco, including significant debt refinancing costs, professional fees and other fees, costs and expenses. If the merger agreement is terminated under certain circumstances, we may be required under the terms of the merger agreement to pay Nalco a termination fee of \$275 million and may be obligated to reimburse Nalco for up to \$8 million in transaction-related expenses. We also expect to incur significant integration and restructuring fees and costs following completion of the merger.

Edgar Filing: ECOLAB INC - Form 10-Q

The proposed merger presents certain risks to Ecolab's business and operations prior to the closing of the merger, including, among other things, risks that:

- the merger and related transactions are subject to approval by the stockholders of both Ecolab and Nalco;

Risk Factors (continued)

- the merger is subject to the expiration or termination of waiting periods and receipt of clearances or approvals from various regulatory authorities, which may impose conditions that could have an adverse effect on Ecolab, Nalco or the combined company or, if not obtained, could prevent completion of the merger;
- any delay in completing the merger may reduce or eliminate the benefits expected to be achieved thereunder;
- the pendency of the merger could adversely affect the future business and operations of Ecolab and Nalco;
- uncertainties associated with the merger may cause a loss of management personnel and other key employees which could adversely affect the future business and operations of the combined company;
- if the merger does not qualify as a reorganization under Section 368(a) of the Internal Revenue Code, the stockholders of Nalco may be required to pay substantial U.S. federal income taxes and Nalco may be required to pay substantial corporate-level U.S. federal income taxes;
- failure to complete the merger could negatively impact the stock price and the future business and financial results of Ecolab;
- the merger agreement contains provisions that could discourage potential acquirers of Ecolab;
- if the merger is not completed by March 1, 2012, either Ecolab or Nalco may choose not to proceed with the merger; and
- we may encounter difficulty or high costs associated with securing financing.

In addition, certain risks will continue to exist after the closing of the merger, including, among other things, risks that:

- the markets served and business operations of Nalco differ from Ecolab, and the combined business will have a different business mix than Ecolab's business prior to the merger, presenting different operational risks and challenges;

Edgar Filing: ECOLAB INC - Form 10-Q

- the combined company may be unable to integrate successfully the business of Ecolab and Nalco and realize the anticipated benefits of the merger;
- the combined company will have substantial indebtedness following the merger and the credit ratings of the combined company or its subsidiaries may be different from what the companies currently expect;
- the merger may involve unexpected costs, unexpected liabilities or unexpected delays;
- the businesses of the companies may suffer as a result of uncertainty surrounding the merger and disruptions from the transaction may harm relationships with customers, suppliers and employees;

Risk Factors (continued)

- the future results of the combined company will suffer if the combined company does not effectively manage its expanded operations following the merger;
- evaluation of, and estimation of potential losses arising from, lawsuits, claims, contingencies and legal proceedings could prove to be inaccurate;
- our actual financial position and results of operations may differ materially from the unaudited pro forma condensed combined financial information included in the joint proxy statement/prospectus referred to below;
- future events may impact the combined company's deferred tax position, including the utilization of foreign tax credits and undistributed earnings of international affiliates that are considered to be reinvested indefinitely;
- we will likely have to make additional contributions following completion of the merger to fund the combined company's pension and other post-retirement benefit plans, including Nalco plans; contributions will negatively impact our cash flow; and
- we may incur significant expenses related to the amortization of intangible assets and may be required to report losses resulting from the impairment of goodwill or other assets recorded, each in connection with the merger or other completed or future acquisitions.

Certain of the above risks, as they relate to Ecolab as part of the combined company and additional risks associated with the merger, are described in more detail under the heading "Risk Factors" in the joint proxy statement/prospectus contained in our Registration Statement on Form S-4 (Registration No. 333-176601), which was declared effective by the Securities and Exchange Commission on October 28, 2011. Other unknown or unpredictable factors could also have material adverse effects on future results, performance or achievements of Ecolab, Nalco and the combined company.

(2) The average price paid per share includes brokerage commissions associated with publicly announced plan purchases plus the value of such other reacquired shares.

(3) As announced on February 26, 2010, our Board of Directors authorized the repurchase of up to 10,000,000 additional shares of Common Stock, including shares to be repurchased under Rule 10b5-1. As announced on May 5, 2011, our Board of Directors authorized the repurchase up to 15,000,000 additional shares of Common Stock, including shares to be repurchased under Rule 10b5-1. As announced on September 6, 2011, our Board of Directors authorized a \$1.0 billion share repurchase program, contingent upon consummation of the previously announced merger with Nalco Holding Company, expected to be completed by the end of 2012. At the same time, they authorized an additional 10 million shares also contingent upon the merger with Nalco. We intend to repurchase all shares under these authorizations, for which no expiration date has been established, in open market or privately negotiated transactions, subject to market conditions.
