Item 8.01. Other Events

BioTelemetry, Inc. (the Company) today announces that its President and Chief Executive Officer, Joseph H. Capper, and other members of senior management (Executives) have adopted pre-arranged stock trading plans in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934 (Rule10b5-1) covering up to approximately twenty (20) percent of each of the Company Executive s holdings.

Despite lengthy tenures with the Company, the Executive team has not effectuated any open market sales of Company stock prior to August 2016. The Company Executives adopted the plans for the purpose of selling limited amounts of Company equity holdings to support prudent tax and estate planning, seeking to minimize market impact, and avoiding any concerns about the timing of the transactions.

The Company Executive s current equity position substantially exceeds the Company s Share Ownership Guidelines, which requires each executive to hold a level of equity based on his/her annual base salary. Assuming the sale of all the shares in the plans, the Company Executives would continue to hold equity in excess of the required Ownership Guidelines.

The trading plans were adopted during an authorized trading period and will expire in August 2017.

Any stock sales that occur under the trading plan will be publicly disclosed in accordance with U.S. securities laws.
