REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

# Edgar Filing: CHINA NATURAL RESOURCES INC - Form 6-K

The Board of Directors and Shareholders

Feishang Mining Holdings Limited

We have audited the accompanying consolidated balance sheet of Feishang Mining Holdings Limited and subsidiary as of December 31, 2005, and the related consolidated statements of operations, shareholder's equity, and cash flows for each of the two years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Feishang Mining Holdings Limited and subsidiary at December 31, 2005, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2004 AND 2005

(AMOUNTS IN THOUSANDS, EXCEPT SHARE AMOUNTS)

## 1. ORGANIZATION, PRINCIPAL ACTIVITIES AND INTERIM FINANCIAL STATEMENTS

Feishang Mining Holdings Limited ("FMH" or the "Company") is a British Virgin Islands company which was incorporated on September 3, 2004. The Company beneficially owns 100% Wuhu Feishang Mining Development Co. Ltd. ("WFM") (the Company and WFM, collectively, the "Group").

WFM was established as a Sino-foreign joint venture company in the PRC with the venturers being Wuhu Feishang Enterprise Development Limited ("WFE") ("50%") and FIH ("50%") on June 21, 2002 with a tenure of 20 years from the date of the business license. The tenure can be extended by agreement between the joint venture partners with the necessary approval from the relevant government agencies. The registered capital of WFM is RMB12,000 (US\$1,487), of which RMB6,000 (US\$743) was each contributed by WFE and FIH. WFM commenced operations in May 2003 upon its acquisition of Anhui Fanchang Zinc and Iron Mine ("Anhui"), a PRC state-owned entity.

In April 2005, WFE and FIH transferred their interests in WFM to the Company at cost (RMB12,000). WFE, FIH and FMH are all controlled by the same individual, Mr. Li Feilie. The Company has recorded the transfer of WFE's and FIH's interests in WFM at historical net book value and has accounted for the transfer as a transfer of assets between entities under common control in a manner similar to the pooling of interests; accordingly, all prior period consolidated financial statements of the Company have been restated to include the results of operations, financial position, and cash flows of WFM.

The Company's operations are conducted through WFM, a mining enterprise principally engaged in the mining of zinc, iron and other minerals for distribution in the People's Republic of China ("PRC"). WFM owns the mining rights to two mines: Yang-chong Mine contains iron and zinc minerals and Zao-yun Mine contains mainly iron minerals. The cash flows and profitability of WFM's current operations are significantly affected by the market price of zinc and iron. These commodity prices can fluctuate widely and are affected by factors beyond WFM's control.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Accounting principles and principles of consolidation -----

The consolidated financial statements of the Company are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"), and include the accounts of the Company and its subsidiary. Significant intercompany accounts and transactions have been eliminated on consolidation.

#### (b) Use of estimates -----

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### (c) Cash and cash equivalents -----

The Company considers all highly liquid investments and cash deposits with financial institutions with original maturities of three months or less to be cash equivalents.

#### (d) Inventories -----

Inventories are stated at the lower of average cost or net realizable value. For products, the Company determines net realizable value by estimating value based on current metals prices, less cost to convert stockpiled and in-process inventories to finished products. Major types of inventories include:

Raw materials consists of raw ore extracted and auxiliary material - costs are limited to those directly related to mining

Work in progress consists of semi-finished iron and zinc ore - valued at the cost of production through the point at which inventory has been processed

Finished goods - valued at the lower of full cost of production or net realizable value based on current metal prices

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (e) Property and equipment

-----

Property and equipment are stated at cost less accumulated depreciation. Expenditures for routine repairs and maintenance are expensed as incurred.

Depreciation is calculated on the straight-line basis to write off the cost less estimated residual value of each asset over its estimated useful life.

In April 2004, the FASB issued FASB Staff Position ("FSP") FAS 141-1 and FAS 142-1 "Interaction of FASB Statements No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets, and Emerging Issues Task Force ("EITF") Issue 04-2, "Whether Mineral Rights are Tangible or Intangible Assets". This FSP amends SFAS Nos. 141 and 142 and requires mineral rights to be accounted for as tangible assets based on the consensus reached in EITF 04-2.

The Company has determined that its mining rights are mineral rights, and accordingly they are classified as property and equipment.

Mining rights are stated at cost less accumulated amortization and any impairment losses. The mining rights are amortized based on actual units of production over the estimated reserves of the mines, not to exceed 20 years. The weighted average remaining amortization period for these reserves is 17 years as of December 31, 2005. The Company's rights to extract minerals are contractually limited by time. However, the Company believes that it will be able to extend licenses, as it has in the past, without incurring substantial costs, and therefore, believes that assigned lives are appropriate.

Estimated useful lives are as follows:

Buildings and mine development	15 - 35 years
Machinery and equipment	6 - 15 years
Motor vehicles	8 years
Mining rights	17 years

Management assesses the carrying values of its long-lived assets for impairment when circumstances warrant such a review. Generally, long-lived assets are considered impaired if the estimated fair value is less than the assets' carrying values. If an impairment is indicated, the loss is measured based on the amounts by which the carrying values of the assets exceed their fair values.

(f) Revenue recognition  
-----

Revenue from product sales is recognized when title passes to the customer in accordance with the sales agreement, generally upon product acceptance by the customer.

Freight and handling costs paid to third party carriers are recorded as cost of sales.

(g) Income taxes  
-----

Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

(h) Foreign currency translation  
-----

The functional currency of all the operations of the Company is the Renminbi ("RMB"), the national currency of the PRC.

Transactions denominated in currencies other than the RMB are translated into RMBs at the applicable rates of exchange prevailing at the dates of the transactions. Monetary assets and liabilities denominated in other currencies have been translated into RMBs at the rate of exchange at the balance sheet date. The resulting exchange gains or losses are credited or charged to the consolidated statements of operations.

The financial statements are stated in RMB. The translation of amounts from RMB into US\$ is included solely for the convenience of the reader and has been made at the rate of exchange quoted by the People's Bank of China on December 31, 2005 of US\$1.00 = RMB8.07. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate on December 31, 2005 or at any other date.

(i) Interest income

Interest on bank balances is recorded when earned.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (j) Recently issued accounting pronouncements

-----

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (R) "Share Based Payment" which addresses the accounting for share-based payment transactions. SFAS No. 123 (R) eliminates the ability to account for share-based compensation transactions using APB No. 25, and generally requires instead that such transactions be accounted and recognized in the statement of income based on their fair values. SFAS No. 123 (R) will be effective for public companies that file as small business issuers as of the first interim period in fiscal years that begin after December 15, 2005. The Company is evaluating the provisions of SFAS No. 123 (R). Depending upon the numbers and terms of options that may be granted in future periods, the implementation of this standard could have a material impact on the Company's financial position and results of operations.

In March 2005, the Emerging Issues Task Force ("EITF") issued EITF 04-6, "Accounting for Stripping Costs Incurred during Production in the Mining Industry". EITF 04-6 requires that stripping costs incurred during the production phase of a mine should be included in the cost of inventory produced during the period the stripping costs are incurred. EITF 04-6 is effective for the first reporting period in fiscal years beginning after December 15, 2005, with initial adoption being accounted for in a manner similar to a cumulative-effect adjustment. Management is assessing the impact that the adoption of EITF 04-6 will have on its financial statements.

#### (k) Reclassifications

-----

Certain 2004 balances have been reclassified to conform to the current presentation.

### 3. DISCONTINUED OPERATIONS

Pursuant to a January 1, 2004 agreement, WFM disposed of its interest in the mining of activated bleaching earth operations to a related party, Wuhu Feishang Non-Metal Material Co. Ltd. ("WFNM"), for total consideration of RMB8,050 (US\$998), which was paid in November 2005. Inventories of the bleaching earth segment with a carrying value of RMB796 (US\$99) were not sold to WFNM and were sold by WFM to unrelated third parties in 2004. The sale price of the bleaching earth segment equaled its carrying value and accordingly there was no gain or loss on the sale. As a result of the disposition, WFM has ceased its activated bleaching earth operations. The results of the activated bleaching earth segment have been retroactively restated as discontinued operations. Revenues from the discontinued activated bleaching earth segment were RMB808 (US\$100) and nil, respectively, for the years ended December 31, 2004 and 2005. Income before income taxes from the discontinued activated bleaching earth segment was RMB12 (US\$1) and

## Edgar Filing: CHINA NATURAL RESOURCES INC - Form 6-K

nil, respectively, for the years ended December 31, 2004 and 2005. Cash flows from discontinued operations of RMB886 (US\$110) are from operating activities. There were no cash flows from discontinued operations from investing or financing activities.

10. BANK LOAN

In December 2005, the Company entered into a bank loan agreement with a PRC bank. RMB10,000 was borrowed under the agreement bearing interest at 5.7% per annum. The loan was repaid in full as of December 31, 2005.

11. CONCENTRATION OF RISK

Concentration of credit risk:

Financial instruments that potentially subject the Group to significant concentration of credit risk consist principally of cash deposits, trade receivables and bills receivable.

(i) Cash and cash deposits

The Group maintains its cash and cash deposits primarily with

## Edgar Filing: CHINA NATURAL RESOURCES INC - Form 6-K

various PRC State-owned banks. The Group performs periodic evaluations of the relative credit standing of those financial institutions.

(ii) Trade receivables

The Group sells zinc and iron products to companies in the PRC. Management considers that the Group's current customers are generally creditworthy and credit is extended based on an evaluation of the customers' financial conditions and, therefore, generally collateral is not required. The Company maintains reserves for potential credit losses based on its loss history and aging analysis. Such losses have been within management's expectations. At December 31, 2005, the largest five customers accounted for 99% trade receivables. During the year ended December 31, 2004, three customers accounted 47%, 24% and 10%, respectively, of the Company's sales. During the year ended December 31, 2005, three customers accounted 65%, 12% and 8%, respectively, of the Company's sales.

(iii) Bills receivable

Bills receivable represent letters of credit obtained by the customers of the Group to finance purchases which have been presented to banks for payment after delivery of goods to customers. As of December 31, 2005, bills receivable amounted to RMB450 and their collectability was guaranteed by banks. The bills receivable have normal terms of maturity of six months.

#### 12. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Group in estimating the fair value of its financial instruments:

(i) Cash and cash equivalents

The carrying amounts reported in the consolidated balance sheet for cash and cash equivalents approximate their fair value.

(ii) Trade receivables, bills receivable, other receivables, accounts payable and other payables

The carrying amounts reported in the consolidated balance sheet for trade receivables, bills receivable, other receivables, accounts payable and other payables approximate their fair values due to their short maturities.

(iii) Amounts due from/to related parties

## Edgar Filing: CHINA NATURAL RESOURCES INC - Form 6-K

The fair values of amounts due from/to the related parties cannot be determined due to the related party nature of those balances.

### 13. REGISTERED CAPITAL, RESERVES AND DISTRIBUTION OF PROFITS

The authorized capital of FMH is US\$50,000 divided into 50,000 shares of US\$1 each, of which 1 share was issued and fully paid.

In accordance with the relevant PRC regulations and the Articles of Association of WFM (the "Articles of Association"), appropriations of net income as reflected in its PRC statutory financial statements are to be allocated to each of the general reserve and enterprise expansion reserve, respectively, as determined by the resolution of the Board of Directors annually.

On February 28, 2005, the Board of Directors approved appropriations of RMB1,956 and RMB1,956 to the general reserve and the enterprise expansion reserve, respectively. The Board of Directors also declared dividends of RMB44,005.

On January 27, 2006, the Board of Directors approved appropriations of RMB1,709 and RMB1,709 to the general reserve and the enterprise expansive reserve, respectively. The Board of Directors also declared dividends of RMB38,462.

### 14. FOREIGN CURRENCY EXCHANGE

The RMB is not freely convertible into foreign currencies.

From January 1, 1994 through July 2, 2005, a single rate of exchange was quoted daily by the People's Bank of China (the "Unified Exchange Rate"). Beginning July 23, 2005, the rate of exchange was revalued by 2.1% and the RMB is now to fluctuate according to the value of a group of currencies (the "managed float"). However, the unification or managed float of the exchange rates does not imply convertibility of RMB into US\$ or other foreign currencies. All foreign exchange

transactions continue to take place either through the People's Bank of China or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the People's Bank of China.

### 15. SUBSEQUENT EVENT

On February 3, 2006, China Natural Resources, Inc. ("CNRI"), a British Virgin Islands company listed on the Nasdaq Capital Market in the United States, consummated the acquisition of all of the issued and outstanding capital stock of the Company. Under the terms of the

## Edgar Filing: CHINA NATURAL RESOURCES INC - Form 6-K

agreement governing the acquisition, CNRI issued 9,980,593 of CNRI's common shares, representing 86.4% of CNRI's issued and outstanding common shares, as well as warrants to purchase an additional 4,500,000 of CNRI's common shares in exchange for the Company's one issued share.

### CHINA NATURAL RESOURCES, INC. PRO FORMA CONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

On February 3, 2006 ("the Acquisition Date"), China Natural Resources, Inc. ("CNRI"), a British Virgin Islands ("BVI") corporation, acquired all of the outstanding capital stock of Feishang Mining Holdings Limited ("FMH"), a BVI corporation. The transaction was structured as a reorganization of FMH with and into CNRI. The acquisition of FMH by CNRI has been accounted for as a reverse acquisition because on a post-merger basis, the former FMH shareholder holds 86.4% of the outstanding common shares of CNRI. As a result, FMH is deemed to be the acquirer for accounting purposes. As consideration for the acquisition, CNRI issued to the former FMH shareholder 9,980,593 restricted common shares and warrants (the "Warrants") to purchase an additional 4,500,000 common shares. In connection with the acquisition, CNRI converted 320,000 series B preferred shares into 320,000 common shares. The Warrants entitle the holder to purchase: 2,000,000 common shares of CNRI at an exercise price of \$4.00 per share for a period of two years from the Acquisition Date; 1,500,000 common shares at an exercise price of \$4.50 per share for a period of three years from the Acquisition Date; and 1,000,000 common shares at an exercise price of \$5.00 per share for a period of four years from the Acquisition Date. Other than the exercise price and exercise period, all other terms and conditions of the Warrants are identical.

The pro forma consolidated statements of operations for the year ended December 31, 2005 are based on the historical financial statements of CNRI and FMH. The acquisition of CNRI has been accounted for using the purchase method of accounting. The pro forma consolidated statements of operations for the year ended December 31, 2005 have been prepared assuming the transaction was completed on January 1, 2005. The pro forma consolidated balance sheet as of December 31, 2005 assumes the transaction was completed on December 31, 2005. The unaudited pro forma financial information is presented for informational purposes only. The pro forma balance sheet and statements of operations do not purport to represent what CNRI's actual financial position or results of operations would have been had the acquisition of FMH occurred as of such dates, or to project CNRI's financial position or results of operations for any period or date, nor does it give effect to any matters other than those described in the notes thereto. The unaudited pro forma financial information should be read in conjunction with CNRI's consolidated financial statements and notes thereto for the year ended December 31, 2005 included with CNRI's Annual Report on Form 20-F, filed with the Securities and Exchange Commission on June 12, 2006, and the historical financial statements of FMH for the year ended December 31, 2005 which are included with this report on Form 6K.

Certain assumptions, estimates and adjustments are preliminary and have been made solely for purposes of developing the pro forma information. The pro forma adjustments are based on preliminary estimates and certain assumptions that the Company believes are reasonable under the circumstances. The purchase price allocation is preliminary and subject to change.

The functional currency of all the operations of the Company is the

Renminbi ("RMB"), the national currency of the PRC. Transactions denominated in currencies other than the RMB are translated into RMBs at the applicable rates of exchange prevailing at the dates of the transactions. Monetary assets and liabilities denominated in other currencies have been translated into RMBs at the rate of exchange at the balance sheet date. The resulting exchange gains or losses are credited or charged to the consolidated statements of operations. The financial statements are stated in RMB. The translation of amounts from RMB into US\$ is included solely for the convenience of the reader and has been made at the rate of exchange quoted by the People's Bank of China on December 31, 2005 of US\$1.00 = RMB8.07. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate on December 31, 2005 or at any other date.
