Bupp (Neoprobe's President and CEO). Biomedical Value Fund, L.P. and Biomedical Offshore Value Fund, Ltd. are funds managed by Great Point Partners, LLC. As part of this transaction, Neoprobe issued five-year warrants to investors to purchase 10,125,000 shares of the Company's common stock at an exercise price of \$0.46. The transaction documents executed with each investor were substantially identical. In connection with this financing, Neoprobe will also issue warrants to purchase 1,600,000 shares of the Company's common stock to placement agents, containing substantially identical terms to the warrants issued to the investors. Neoprobe has agreed to file a registration statement with the Securities and Exchange Commission registering shares underlying the notes and warrants no later than 30 days following the closing. Proceeds from the notes will be used primarily to fund late stage clinical development of Neoprobe's most advanced radiopharmaceutical agent, Lymphoseek(TM), for the assessment of the spread of breast cancer and melanoma to the lymphatic system and to complete the commercial launch of Neoprobe's blood flow measurement products, the Quantix/OR(TM) and the Quantix/ND(TM).
