1. BASIS OF PRESENTATION

The information contained in the interim consolidated financial statements and notes is condensed from that which would appear in the annual consolidated financial statements. Accordingly, the interim condensed consolidated financial statements included herein should be read in conjunction with the consolidated financial statements as of and for the year ended December 31, 2004, filed by NovaMed, Inc. with the Securities and Exchange Commission on Form 10-K. The unaudited interim condensed consolidated financial statements as of June 30, 2005 and for the three and six months ended June 30, 2005 and 2004, include all normal recurring adjustments which management considers necessary for a fair presentation. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the entire fiscal year.

2. STATEMENT OF CASH FLOWS - SUPPLEMENTAL

*Supplemental cash information:*

	Six months ended June 30,	
	2005	2004
Interest paid	\$ 227	\$ 32
Income taxes paid	270	48
Income tax refunds received	(21)	(18)

During the first quarter of 2004, the Company received \$237 as a cash settlement from a physician for the early termination of a laser services agreement. The laser provided under this agreement was one of eight lasers whose procedures count toward our minimum annual procedure requirement under our supply agreement with Alcon Laboratories. Because the Company continues to have obligations to Alcon for all eight lasers, the Company established a reserve for \$237 which is evaluated quarterly and adjusted as necessary. During the first six months of 2005, approximately \$65 of the initial reserve was reversed and included in other income.

*Non cash investing and financing activities:*

During the first quarter of 2005, the Company received 31,200 shares of its common stock from a former affiliated physician as final settlement of a lawsuit. Treasury shares were recorded at \$197 and this amount was reported as income from discontinued operations. The Company also received 17,518 shares of its common stock to repay \$104 of outstanding notes receivable from one of its divestiture transactions.

The Company received 365,344 shares of its common stock from a former affiliated physician during the first quarter of 2004 to repay a \$1,533 note receivable against which the Company had established a \$958 valuation allowance. Treasury shares were recorded at \$1,703, additional paid-in-capital was increased by \$170 and the valuation allowance was reversed and reported as income from discontinued operations.

**4. ACQUISITIONS**

The Company generally acquires majority equity interests in ambulatory surgery centers (ASCs) through the purchase method of accounting. The results of operations are included in the consolidated financial statements of the Company from the date of acquisition.

On March 18, 2005, the Company acquired a 51% interest in The Cataract Specialty Surgical Center, an ASC located in Berkley, MI for approximately \$4,000, of which the Company allocated \$3,374 to goodwill. The acquisition was funded from the Company's credit facility.

Effective March 25, 2005, the Company entered into an Option Purchase Agreement with its two physician-partners in its Overland Park, KS ASC. These physician-partners had previously given notice of their intent to exercise an option to purchase all of the Company's interest in this ASC effective as of April 15, 2005. Under the terms of the Option Purchase Agreement, the Company purchased this option from these physician-partners for an aggregate sum of \$3,600, with \$1,800 payable to each physician-partner. As a result of this transaction, the option was terminated and the Company has retained its 51% interest in this ASC.

On May 16, 2005, the Company acquired a 51% interest in the Colorado Outpatient Eye Surgery Center, an ASC located in Denver, CO for approximately \$2,200, of which the Company allocated \$2,143 to goodwill. The acquisition was funded from the Company's credit facility.

**5. DISCONTINUED OPERATIONS**

During the first quarter of 2005 the Company received 31,200 shares of its common stock as settlement of a dispute related to liquidating damages due the Company from a former affiliated physician. The value of these shares as of the settlement date is reported as income from discontinued operations.

During the first quarter of 2004 a former affiliated physician repaid a note secured by shares of the Company's stock by tendering such shares to the Company. (For additional information regarding the note please refer to Note 2 above and the Company's 2004 Annual Report on Form 10K — Note 17 "Related Party Transactions.") When the Company

adopted its Plan of Discontinued Operations and Restructuring the market value of the shares with which the loan was secured was significantly below the value of the note. Included in the initial discontinued operations charge was the establishment of a valuation allowance against the note to adjust it to its secured value based on the then current market value of the collateral shares. When shares were tendered in repayment of the note, the market value of the shares

exceeded the original secured value. The Company reversed the valuation allowance established on the note and reported it as income from discontinued operations.

The discontinued operations reserve balance was \$134 and \$246 at June 30, 2005 and December 31, 2004, respectively. The reserve is for remaining lease commitments expiring July 2005 and other costs from exiting the physician practice management business. The operating results of discontinued operations are summarized below.

**7. REVOLVING CREDIT FACILITY**

At June 30, 2005, the Company had \$13,000 of borrowings outstanding under its revolving credit facility and was in compliance with all of its credit agreement covenants. The maximum commitment available under the Company's credit facility that expires June 30, 2008 is \$50,000. Maximum borrowing availability and applicable interest rates under the facility are calculated based on a ratio of total indebtedness to earnings before interest, taxes, depreciation and amortization. Interest on borrowings under the facility are payable at an annual rate equal to the Company's lender's published base rate plus the applicable borrowing margin ranging from 0% to .5% or LIBOR plus a range from 1.25% to 2.0%, varying depending upon the Company's ratios and ability to meet other financial covenants. The credit agreement contains covenants that include limitations on indebtedness, liens, capital expenditures, acquisitions, investments and share repurchases, as well as restrictions on the payment of dividends.

The Company has an outstanding letter of credit issued to one of its optical products buying group vendors in the amount of \$175 that expires on March 31, 2006.

**8. STOCK BASED COMPENSATION**

As discussed in Note 2 to the Company's 2004 financial statements on Form 10-K, the Company had planned to adopt a new accounting standard regarding its accounting for stock based compensation effective July 1, 2005. In April 2005 the Securities and Exchange Commission deferred the implementation date of this accounting standard. As a result, the Company now plans to adopt the new accounting standard effective January 1, 2006. Until that date the Company will continue to follow its current policy in accounting for its stock-based compensation, as discussed below.

The Company accounts for its stock-based employee compensation plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under those plans had an exercise price equal to or above the market value of the underlying common stock at the date of grant. During the first quarter of 2005, the Company granted its employees options to purchase 42,000 shares with an average exercise price of \$6.58 per share. During the second quarter of 2005, the Company granted its employees options to purchase 442,500 shares and granted its five outside directors options to purchase 75,000 shares, all with an exercise price of \$5.96 per share. Also during the second quarter, options to acquire 100,000 shares were granted to Robert J. Kelly as compensation for his role as Presiding Director. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation.

## 10. SUBSEQUENT EVENTS

On August 4, 2005, the estate of Stephen J. Winjum exercised options to acquire 383,749 shares, which included 240,000 options that were to expire on August 21, 2005. Per the terms of the stock option agreements and the Company's stock incentive plans, the estate tendered to the Company 129,180 shares of the Company's stock that the estate owns to fund the \$994,683 aggregate option exercise price. The Company will retire these shares into treasury. In addition, per the terms of the stock incentive plans, 3,692 of the exercised shares were retained by the Company to fund the applicable withholding taxes. These shares will remain available for future issuance under the Company's stock incentive plans.

**ITEM 2.****MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis presents our consolidated financial condition at June 30, 2005 and the results of operations for the three and six months ended June 30, 2005 and 2004. You should read the following discussion together with our consolidated financial statements and the related notes contained elsewhere in this quarterly report. In addition to the historical information provided below, we have made certain estimates and forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated or implied by these estimates and forward-looking statements as a result of certain factors, including those discussed in the CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS on page 19 of this quarterly report.

**Overview**

We consider our core business to be the ownership and operation of ambulatory surgery centers (ASCs). As of June 30, 2005, we owned and operated 27 ASCs of which 24 were jointly owned with physician-partners. We also own other businesses including an optical laboratory, an optical products purchasing organization, and a marketing products and services company. We also provide management services to two eye care practices.

**Year-to-Date Financial Highlights:**

- Consolidated revenue increased 31.8% to \$39.2 million. Surgical facilities revenue increased 41.2% to \$28.9 million (same-facility surgical revenue increased 5.2% to \$20.7 million).
  - Operating income increased 78.4% to \$7.7 million.
- Acquired a majority interest in two ASCs for \$6.2 million and purchased a buy-out option in our Overland Park, KS ASC for \$3.6 million. Also sold a 26% and 29% minority interest in our Columbus, GA and Richmond, VA ASCs, respectively, resulting in cash proceeds of \$0.7 million.

As previously announced, Stephen J. Winjum, our Chairman, President and Chief Executive Officer, died unexpectedly on March 30, 2005. We have retained an executive search firm to conduct a search for a new chief executive officer.

### Net Revenue

**Consolidated.** Total net revenue increased 33.4% from \$15.5 million to \$20.6 million. Net revenue by segment is discussed below.

**Surgical Facilities.** The table below summarizes surgical facilities net revenue and procedures performed for the second quarter of 2005 and 2004. Revenues generated from surgical facilities are derived from the fees charged for the procedures performed in our ASCs and through our laser services agreements. Our procedure volume is directly impacted by the number of ASCs we operate, the number of excimer lasers in service, and their respective utilization rates. Net surgical facilities revenue increased 37.3% from \$11.1 million to \$15.3 million. This increase was primarily the result of \$3.7 million of net revenue from ASCs acquired or developed after April 1, 2004 (“new ASCs”) and a \$0.5 million increase from ASCs that we owned for the entire comparable reporting periods (“same-facility”). The increase in same-facility revenue was primarily the result of a 1.6% increase in the number of same-facility procedures performed.

**Product Sales and Other.** The table below summarizes net product sales and other revenue by significant business component. Product sales and other revenue increased 23.4% from \$4.3 million to \$5.4 million. Net revenue at our marketing products and services business increased \$0.7 million. This increase is due to the addition of marketing consulting services associated with the acquisition of a complementary business in the first quarter of 2005 and increased services provided to medical device manufacturers. Net revenue from our ophthalmology practice increased \$0.2 million primarily due to an increase in the number of patient visits.

### *Salaries, Wages and Benefits*

**Consolidated.** Salaries, wages and benefits expense increased 17.3% from \$5.2 million to \$6.1 million. As a percentage of net revenue, salaries, wages and benefits expense decreased from 33.8% to 29.7% primarily due to minimal increases in corporate staffing necessary to service the new ASCs. Salaries, wages and benefits expense by segment is discussed below.

**Surgical Facilities.** Salaries, wages and benefits expense in our surgical facilities segment increased 36.6% from \$2.3 million to \$3.2 million. The increase was the result of staff costs associated with new ASCs and staffing required at same-facility ASCs due to increased procedure volume.

**Product Sales and Other.** Salaries, wages and benefits expense in our product sales and other segments increased 14.2% from \$1.7 million to \$1.9 million. The increase is primarily due to the addition of new marketing consulting services within our marketing products and services business.

**Corporate.** Salaries, wages and benefits expense decreased 14.9% from \$1.2 million to \$1.0 million. The decrease was primarily due to the vacancy of the CEO position and related incentive accrual reductions partially offset by additional employees required to service the new ASCs and annual salary increases.

### *Cost of Sales and Medical Supplies*

**Consolidated.** Cost of sales and medical supplies expense increased 34.6% from \$3.7 million to \$5.0 million. As a percentage of net revenue, cost of sales and medical supplies expense increased from 24.0% to 24.2%. Cost of sales and medical supplies expense by segment is discussed below.

**Surgical Facilities.** Cost of sales and medical supplies expense in our surgical facilities segment increased 34.9% from \$2.6 million to \$3.5 million. The expense increase was the result of costs associated with our new ASCs and an increase in procedures performed at same-facility ASCs.

**Product Sales and Other.** Cost of sales and medical supplies expense in our product sales and other segments increased 33.6% from \$1.2 million to \$1.5 million primarily due to costs associated with increased orders for marketing products within our marketing products and services business.

### *Selling, General and Administrative*

**Consolidated.** Selling, general and administrative expense increased 40.6% from \$3.4 million to \$4.7 million. As a percentage of net revenue, selling, general and administrative expense increased from 21.7% to 22.9% primarily due to incremental costs associated with the CEO. Selling, general and administrative expense by segment is discussed below.

**Surgical Facilities.** Selling, general and administrative expense in our surgical facilities segment increased 53.0% from \$2.3 million to \$3.5 million. The increase is due to costs associated with our new ASCs and increased professional fees which include management and billing/collections fees charged to the ASCs for services rendered by our corporate personnel.

**Product Sales and Other.** Selling, general and administrative expense in our product sales and other segments increased 3.9% from \$0.8 to \$0.9 million primarily due to the revenue increase within our marketing products and services business.

**Corporate.** Corporate selling, general and administrative expense increased 51.7% from \$0.3 million to \$0.4 million. This increase was primarily due to incremental costs associated with the CEO search and increased costs associated with being a public company due to our efforts to comply with section 404 of the Sarbanes-Oxley Act. We expect to continue to incur costs associated with being a public company throughout 2005 and in future years. This increase was partially offset by increased management fees and billing/collections fees charged to the operating segments for services rendered by our corporate personnel.

**Depreciation and Amortization.** Depreciation and amortization expense remained flat at \$0.6 million. Increases in depreciation associated with our new ASCs and capital expenditures in our surgical facilities segment were offset by decreases within the product sales and corporate segments.

**Minority Interests and Other (Income) Expense.** Minority interests in the earnings of our ASCs increased from \$1.2 million to \$1.9 million. Of this increase, 89.8% is attributable to new ASCs.

**Provision for Income Taxes.** Our effective tax rate was unchanged at 40.0%. Our effective tax rate is affected by expenses that are deducted from operations in arriving at pre-tax income that are not allowed as a deduction on our federal income tax return.

*Six Months Ended June 30, 2005 Compared to the Six Months Ended June 30, 2004*

### **Net Revenue**

**Consolidated.** Total net revenue increased 31.8% from \$29.7 million to \$39.2 million. Net revenue by segment is discussed below.

**Surgical Facilities.** The table below summarizes surgical facilities net revenue and procedures performed for the first six months of 2005 and 2004. Revenues generated from surgical facilities are derived from the fees charged for the procedures performed in our ASCs and through our laser services agreements. Our procedure volume is directly impacted by the number of ASCs we operate, the number of excimer lasers in service, and their respective utilization rates. Net surgical facilities revenue increased 41.2% from \$20.5 million to \$28.9 million. This increase was primarily the result of \$7.4 million of net revenue from ASCs acquired or developed after January 1, 2004 (“new ASCs”) and a \$1.0 million increase from ASCs that we owned for the entire comparable reporting periods (“same-facility”). The increase in same-facility revenue was primarily the result of a 2.9% increase in the number of same-facility procedures performed.

#### *Salaries, Wages and Benefits*

**Consolidated.** Salaries, wages and benefits expense increased 18.4% from \$10.3 million to \$12.2 million. As a percentage of net revenue, salaries, wages and benefits expense decreased from 34.7% to 31.1% primarily due to minimal increases in corporate staffing necessary to service the new ASCs. Salaries, wages and benefits expense by segment is discussed below.

**Surgical Facilities.** Salaries, wages and benefits expense in our surgical facilities segment increased 39.8% from \$4.3 million to \$6.0 million. The increase was the result of staff costs associated with new ASCs and staffing required at same-facility ASCs due to increased procedure volume.

**Product Sales and Other.** Salaries, wages and benefits expense in our product sales and other segments increased 7.3% from \$3.6 million to \$3.9 million. The increase is primarily due to the addition of new marketing consulting services within our marketing products and services business.

**Corporate.** Salaries, wages and benefits expense decreased 3.8% from \$2.4 million to \$2.3 million. The decrease was primarily due to the vacancy of the CEO position and related incentive accrual reductions partially offset by additional employees required to service the new ASCs and annual salary increases.

#### *Cost of Sales and Medical Supplies*

**Consolidated.** Cost of sales and medical supplies expense increased 31.0% from \$7.2 million to \$9.5 million. As a percentage of net revenue, cost of sales and medical supplies expense decreased from 24.4% to 24.2%. Cost of sales and medical supplies expense by segment is discussed below.

**Surgical Facilities.** Cost of sales and medical supplies expense in our surgical facilities segment increased 37.5% from \$4.9 million to \$6.7 million. The expense increase was the result of costs associated with our new ASCs and an increase in procedures performed at same-facility ASCs.

**Product Sales and Other.** Cost of sales and medical supplies expense in our product sales and other segments increased 17.7% from \$2.4 million to \$2.8 million primarily due to costs associated with increased orders for marketing products within our marketing products and services business.

***Selling, General and Administrative***

**Consolidated.** Selling, general and administrative expense increased 32.1% from \$6.5 million to \$8.6 million. As a percentage of net revenue, selling, general and administrative expense increased from 21.9% to 22.0% primarily due to incremental costs associated with the CEO search. Selling, general and administrative expense by segment is discussed below.

**Surgical Facilities.** Selling, general and administrative expense in our surgical facilities segment increased 50.3% from \$4.3 million to \$6.4 million. The increase is due to costs associated with our new ASCs and increased professional fees which include management and billing/collections fees charged to the ASCs for services rendered by our corporate personnel.

**Product Sales and Other.** Selling, general and administrative expense in our product sales and other segments remained flat at \$1.7 million.

**Corporate.** Corporate selling, general and administrative expense decreased 19.5% from \$0.5 million to \$0.4 million. The decrease was primarily due to increased management fees and billing/collections fees charged to the operating segments for services rendered by our corporate personnel partially offset by incremental costs associated with the CEO search and costs associated with being a public company due to our efforts to comply with section 404 of the Sarbanes-Oxley Act. We expect to continue to incur costs associated with being a public company throughout 2005 and in future years.

**Depreciation and Amortization.** Depreciation and amortization expense decreased 13.3% from \$1.3 million to \$1.1 million primarily due to assets becoming fully depreciated within our same-facility ASCs and corporate segment. This decrease was partially offset by depreciation associated with our new ASCs.

**Minority Interests and Other (Income) Expense.** Minority interests in the earnings of our ASCs increased from \$1.9 million to \$3.4 million. Of this increase, 85.3% is attributable to new ASCs.

**Provision for Income Taxes.** Our effective tax rate was unchanged at 40.0%. Our effective tax rate is affected by expenses that are deducted from operations in arriving at pre-tax income that are not allowed as a deduction on our federal income tax return.

**Liquidity and Capital Resources**

Operating activities in the first six months of 2005 generated \$4.5 million in cash flow from continuing operations compared to \$2.2 million in the comparable 2004 period. The increase in operating cash flow from continuing operations resulted primarily from an increase in earnings and working capital management, offset by increased cash distributions to our minority interest partners.

Investing activities in the first six months of 2005 resulted in negative cash flow of \$10.6 million. Investing activities included the acquisition of two ASCs for \$6.3 million, the buy-out of the Overland Park option for \$3.6 million and the purchase of property and equipment for \$1.4 million. These expenditures were partially offset by the receipt of \$0.7 million relating to the sale of minority interests in two ASCs during the second quarter of 2005.

Cash flows from financing activities in the first six months of 2005 included \$8.0 million of net borrowings under our credit facility and \$0.3 million from the exercise of stock options and issuance of stock to employees as part of our employee stock purchase plan. At June 30, 2005, we had \$13.0 million of borrowings outstanding under our revolving credit facility and were in compliance with all of our credit agreement covenants. The maximum commitment available under our credit facility that expires June 30, 2008 is \$50.0 million. Maximum borrowing availability and applicable interest rates under the facility are calculated based on a ratio of total indebtedness to earnings before interest, taxes, depreciation and amortization. Interest on borrowings under the facility are payable at an annual rate equal to our lender's published base rate plus the applicable borrowing margin ranging from 0% to .5% or LIBOR plus a range from 1.25% to 2.0%, varying depending upon our ratios and ability to meet other financial covenants. The credit agreement contains covenants that include limitations on indebtedness, liens, capital expenditures, acquisitions, investments and share repurchases, as well as restrictions on the payment of dividends.

As of June 30, 2005, we had cash and cash equivalents of \$2.5 million and working capital of \$8.4 million.

We expect our cash flow from operations and funds available under our existing credit facility to be sufficient to fund our operations for at least 12 months. Our future capital requirements and the adequacy of our available funds will depend on many factors, including the timing of our acquisition and expansion activities, capital requirements associated with our surgical facilities, and the future cost of surgical equipment.

We are a party to option agreements with physicians pursuant to which the physicians have the right to purchase or sell equity interests in four of our ASCs. These are summarized as follows:

- o One of our former affiliated physicians who owns a 5% interest in our River Forest, IL ASC has exercised an option to acquire an additional 5% interest in the facility. We completed this transaction effective August 8, 2005;
- o One of our existing physician-partners who owns a 30% interest in our Thibodaux, LA ASC has the right to sell us up to a 10% interest in the ASC in November 2006;
- o Two of our existing physician-partners who own a 64% interest in our New Albany, IN pain management ASC have the right to sell us a 15% interest in the ASC in November 2005; and
  - o We own a 25% interest in our Fort Lauderdale, FL ASC and have an option to acquire an additional 26% interest at anytime between November 16, 2005 and July 16, 2007. If we elect not to exercise this option during this period, then our physician-partner in the facility has the option to purchase our 25% interest in the facility.

Effective March 25, 2005, we entered into an Option Purchase Agreement with our two physician-partners in our Overland Park, KS ASC. These physician-partners had previously given us notice of their intent to exercise an option to purchase all of our interests in this ASC effective as of April 15, 2005. Under the terms of the Option Purchase Agreement, we purchased this option from our physician-partners for an aggregate sum of \$3.6 million, with \$1.8 million payable to each physician-partner. As of result of this transaction, the option was terminated and we have retained our 51% interest in this ASC.

We have a nonexclusive supply agreement with Alcon Laboratories, Inc. pursuant to which we can procure and utilize excimer lasers and other equipment manufactured by Alcon. Through the termination date of December 31, 2006, we will pay Alcon monthly based on the number of procedures performed on each of our LADARVision Systems. We are required to pay for a minimum number of annual procedures on each LADARVision System during the remaining term, whether or not these procedures are performed. Assuming we do not procure additional LADARVision Systems under the agreement, the annual minimum commitment for each of 2005 and 2006 would be approximately \$1.2 million and \$0.8 million, respectively.

**CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS.** This Form 10-Q contains certain "forward-looking statements" that reflect our current expectations regarding our future results of operations, performance and achievements. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. We have tried, wherever possible, to identify these forward-looking statements by using words such as "anticipates," "believes," "estimates," "expects," "plans," "intends" and similar expressions. These statements reflect our current beliefs and are based on information currently available to us. Accordingly, these statements are subject to certain risks, uncertainties and contingencies that could cause our actual results, performance or achievements in 2005 and beyond to differ materially from those expressed in, or implied by, such statements. These risks and uncertainties include: our ability to acquire, develop or manage a sufficient number of profitable surgical facilities, including facilities that are not exclusively dedicated to eye-related procedures; our ability to replace Stephen J. Winjum, our President, Chief Executive Officer and Chairman of the Board, who died unexpectedly on March 30, 2005; reduced prices and reimbursement rates for surgical procedures; our ability to maintain successful relationships with the physicians who use our surgical facilities; the application of existing or proposed government regulations, or the adoption of new laws and regulations, that could limit our business operations, require us to incur significant expenditures or limit our ability to relocate our facilities if necessary; the continued acceptance of laser vision correction and other refractive surgical procedures; and demand for elective surgical procedures generally. See "Management's Discussion and Analysis of Financial Conditions and Results of Operations - Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2004 for further discussion. You should not place undue reliance on any forward-looking statements. We undertake no obligation to update or revise any such forward-looking statements that may be made to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Our exposure to interest rate risk relates primarily to our debt obligations and temporary cash investments. Interest rate risk is managed through variable rate and term borrowings under our credit facility. On June 30, 2005, we had \$13 million outstanding under our credit facility. Our revolving line of credit bears interest at an annual rate equal to our lender's published base rate plus applicable borrowing margin ranging from 0% to 0.50% or LIBOR plus a range from 1.25% to 2.00%, varying upon our ability to meet financial covenants.

We do not use any derivative financial instruments relating to the risk associated with changes in interest rates.

### **Item 4. Disclosure Controls and Procedures**

We maintain a system of disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, that are designed to provide reasonable assurance that information required to be disclosed by us in the reports that we file under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Executive Vice President and Chief Financial Officer, who is currently performing similar functions to a principal executive officer and who is our principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

We have carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on his evaluation, and subject to the foregoing, our Executive Vice President and Chief Financial Officer concluded that such controls and procedures were effective as of the end of the period covered by this report, in all material respects, to ensure that required information will be disclosed on a timely basis in our reports filed under the Exchange Act.

In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply their judgment in evaluating the cost-benefit relationship of possible controls and procedures. We believe our disclosure controls and procedures provide such reasonable assurance.

## PART II. OTHER INFORMATION

**Item 4. Submission of Matters to a Vote of Security Holders**

We held our 2005 Annual Meeting of Stockholders on June 15, 2005 at which the stockholders voted to elect two Class III directors for a term of three years expiring at our 2008 Annual Meeting of Stockholders and to approve the Company's 2005 Stock Incentive Plan.
