**HELP US SAVE OUR COMPANY**

In a recent letter to shareholders, the Current Board and Management team stated that the Concerned Shareholders may liquidate the Company to obtain quick cash from the sale.

**THIS IS FALSE!**

The Concerned Shareholders have no intentions of liquidating the Company. Millions of dollars are owed to creditors who would receive any cash proceeds well before a preferred or common stockholder would see a dime.

**Their story doesn't make sense!**

Why would we, the Concerned Shareholders, invest a substantial amount of money in the Company to fund operations and then replace the Current Board in order to liquidate and pay off creditors a short time later?

**Their story doesn't make sense!**

Let's see if management can fabricate another story to scare you away from effectuating a long overdue change NECESSARY to the future of the Company and all of our investments in it.

**Make no mistake**

**THIS COMPANY HAS NO FUTURE WITH THE CURRENT BOARD AND MANAGEMENT TEAM RUNNING IT STRAIGHT INTO THE GROUND.**

Even an Independent Advisory Firm agrees with the Concerned Shareholders. ISS (Institutional Shareholder Services) is known as the leading provider of proxy research to institutional investors. ISS's Voting Advice is an in-depth, objective risk analysis for high-profile mergers & acquisitions and proxy contests.

ISS states in their report: “The company’s operational problems and financial underperformance, when combined with the numerous legal problems and seeming inability to address the recurring material weaknesses in internal controls, all indicate that there is clearly a lack of sufficient board oversight. As such, **there is a compelling need for change in the composition of the board.**”

Remember why we are seeking a voice for all shareholders on a new board of directors:

- Steep Decline in Share Price!
- Disregard for Shareholder Rights!
- Former director resignations and lack of confidence in management!
- Auditors’ concerns for the current and future viability of the company!
