2.1.4 **Term of Agreement and Termination** – The Employment Agreement shall take effect from the date of approval at the Company's general meeting of shareholders, and will continue for a 3-year term as of that date. Notwithstanding the aforesaid, both the Company and Mr. Levine reserve the right to terminate the agreement, subject to each party giving the other party 3-months advance written notice during the first year of the agreement, and 4-months advance written notice thereafter.

2.1.5 **Options** – In consideration for his service as the Company's CEO, Mr. Levine will be entitled to an allotment of 1,500,000 non-marketable stock options, without charge, exercisable into 1,500,000 ordinary shares of the Company, NIS 0.1 par value each, subject to the adjustments specified in the Company's option plan (the "**Options**"), as set forth below:

2.1.5.1 Assuming that the full amount of options is exercised, the shares deriving from the said exercise will constitute 0.64% of the issued and paid up capital, and 0.58% on a fully diluted basis. It should be noted that Mr. Levine does not hold any securities of the Company. The ratio between Mr. Levine's annual compensation package as CEO, compared with the average annual compensation package of the other employees is 2.

2.1.5.2 The exercise price of 600,000 of the Options is NIS 0.60 each, non-linked, reflecting a price higher than the average share price in the 30 days preceding the date of the Board of Directors' resolution (the "**Primary Options**"). The exercise price of 900,000 of the Options is NIS 0.90 each (the "**Secondary Options**"), reflecting an exercise price 50% higher than that of the Primary Options.

2.1.5.3 Mr. Levine will be entitled to receive the Options and exercise them within a maximum period of 120 months from the date of allotment, subject to the terms and conditions contained herein, and based on a maturity period of 36 months, such that 1/12 of the Options granted to him will mature at the end of each consecutive calendar quarter following the grant date. Following the lapse of 36 months, all the Options may be exercised by him (the "**Vesting Period**"), subject to Mr. Levine continuing to serve in his position during the Vesting Period.

2.1.5.4 The allotment will be made in accordance with Section 102 of the Income Tax Ordinance (New Version) – 1961 (the "**Ordinance**").

2.1.5.5 Pursuant to the Tel-Aviv Stock Exchange directives, owing to the transition to clearing on day T+1 of unlisted shares and convertible securities, there will be no conversion of options on the determining day for a distribution of bonus shares, offering by way of rights, dividend distribution, capital consolidation, capital split or capital reduction (each of the above will hereinafter be referred to as "**Company Event**"). Furthermore, should the ex-date of the Company Event fall before its determining day, no conversion will be made on that date.

2.1.5.6 Shares deriving from the Options will grant Mr. Levine the right to receive invitations, attend Company meetings and vote therein. All of the Company's shares, including those deriving from the Options, have equal rights among them, pro rata to the amount of capital paid, or credited as paid, on their par value, in regard to dividend and any other distribution or participation in the distribution of surplus Company assets upon dissolution.

2.1.5.7 In accordance with the approved Company option plan, the exercise price and number of unexercised options allotted to Mr. Levine, will be adjusted in the following cases:

The number and class of shares that may be acquired in regard to the exercise of options granted under the Option Plan will be proportionally adjusted to an increase or decrease in the number of allotted shares deriving from the split (including bonus shares), consolidation, exchange of shares, change of classes of shares or a combination of all of the above.

It should be noted that, in each case, the exercise price shall be adjusted so as not to be below the share par value.

No adjustments shall be made where securities are issued by way of rights granted to the Company's shareholders.

The number of shares or the exercise price will not be adjusted where dividends are distributed in cash or deemed as distributed.

In any event of a merger or consolidation, in which the Company is not an "absorbing" company ("**Acquisition Event**"), the Options shall be replaced or considered as options granted by the absorbing company, in which case the following provisions shall apply: (1) the Options' maturity period will not change, apart from the fact that 25% of the number of options that have not yet matured on the date of the Acquisition Event, will immediately mature; (2) should the offeree's tenure end before the lapse of one year from the date of the Acquisition Event, a further 25% of the options that have not yet matured on the date of the Acquisition Event, will immediately mature.

In the event of the Company's dissolution, the Board of Directors or the Committee appointed by it shall notify the option holders to that effect, by giving 15 days prior notice at least, during which period the option holders may exercise the all options in their possession whose maturity period has not yet expired. In the event of failure to exercise their right during the said period, the options will expire.

Where the Company receives an offer to effect a transaction, whether by way of acquiring the shares of the Company or otherwise, the outcome of which will be a change in control, the option holders may exercise all options in their possession within a period of 6 months commencing on the date of effecting the transaction and/or the date of fulfillment of the conditions precedent.

2.1.6 The exercise shares will be listed under the name of the listing company through which the Company's shares will be listed at the time.

2.1.7 According to the Black and Scholes formula, the financial value of the shares granted to Mr. Levine as of the date of adopting the Board of Directors resolution, is approximately NIS 850 thousand, reflecting an average value of NIS 0.57 per option. The assumptions serving as a basis for calculating these values are as follows: a share price of NIS 0.60, exercise price of NIS 0.60 for the Primary Options and NIS 0.90 for the Secondary Options, option term of 10 years, annual standard deviation of 148.39%, capitalization coefficient of 2.76%

2.1.9 The options and shares derived from the exercise thereof are subject to a 6 month holding period, in accordance with the provisions of the U.S Securities Act of 1933, as amended and Rule 144 thereunder. Company shares issued on account of exercised options will bear legend as follows:
