Revenue Analysis:

Due to stronger than expected demand across our three major market segments (communication, computer, and consumer), third quarter revenue exceeded our guidance provided on July 26 to reach NT\$89 billion.

Businesses from all three major market segments had double-digit quarter-over-quarter growth in the third quarter. On a sequential basis, revenues from computer, consumer and communication applications increased by 29%, 15% and 12%, respectively.

Revenue from 65nm more than doubled during the quarter to account for 7% of total wafer sales, while revenue from 90nm accounted for 27% of total wafer sales. Revenues from advanced technologies (0.13-micron and below) accounted for 56% of total wafer sales, up three percentage points from the second quarter of 2007.

Revenues from IDM customers accounted for 34% of total wafer sales during the quarter, compared to 32% in the previous quarter.

From a geographic perspective, revenues from North America accounted for 74% of total wafer sales, flat from the previous quarter. Meanwhile, sales from Asia Pacific, Europe and Japan accounted for 13%, 10% and 3% of wafer sales, respectively.

Combined result from non-operating income and long-term investments was a gain of NT\$1.9 billion for third quarter of 2007.

Non operating income was NT\$1.1 billion, down from NT\$2.8 billion in the previous quarter, primarily due to an accrual of litigation loss related to the TSMC-UniRAM case, lawsuit settlement received from SMIC in the previous quarter, and a reduction in mark-to-market adjustment on certain marketable securities.

Net investment income increased by NT\$294 million in the quarter, reflecting improved operating performance at SSMC and increased ownership percentage in Vanguard.
