Item 8.01. Other Events.

On June 6, 2012, a complaint for patent infringement was filed against the Company by Smartwater, Ltd. in the United States District Court for the District of Massachusetts in an action entitled Smartwater, Ltd. v. Applied DNA Sciences, Inc., No. 1:12-cv-11009-PBS. The complaint alleges that the Company infringed one or more claims under two of plaintiff’s patents by selling or offering for sale, manufacturing and using certain of the Company’s products, by inducing others to infringe and by contributing to infringement by others. The plaintiff seeks injunctive relief as well as awards of damages and attorneys’ fees. The Company has not yet been served with the complaint. The Company believes that none of its products infringed any claims under either of plaintiff’s patents and moreover notes that one of plaintiff’s patents has expired. The Company denies the allegations in the complaint, believes they are without merit and intends to defend the action vigorously.
