PRELIMINARY PROSPECTUS

AMERICAN ACCESS TECHNOLOGIES, INC.

580,803 Shares of Common Stock

This prospectus relates to the public offering or distribution, which is not being underwritten, of up to 580,803 shares of common stock, par value \$0.001 per share, of American Access Technologies, Inc. by the selling stockholders described herein. The price at which the selling stockholders may sell the shares will be determined by the prevailing market price for the shares or in negotiated transactions. We will not receive any proceeds from the sale or distribution of the common stock by the selling stockholders.

Our common stock is quoted on the Nasdaq SmallCap Market under the trading symbol AATK. On December 19, 2003, the last price for our common stock, as reported by the Nasdaq SmallCap Market, was \$1.01.

The shares of common stock offered or sold under this prospectus involve a high degree of risk. You should carefully consider the risk factors beginning on page 4 of this prospectus before purchasing any of the shares of common stock offered under this prospectus.

The shares of common stock may be sold through broker-dealers or in privately negotiated transactions in which commissions and other fees may be charged. These fees, if any, will be paid by the selling stockholders. American Access Technologies, Inc. has no agreement with a broker-dealer with respect to these shares and is unable to estimate the commissions that may be paid in any given transaction.

Neither the Securities and Exchange Commission, any state securities commission, nor any other regulatory authority has approved or disapproved of these securities or passed upon the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2003.

SUMMARY

This summary does not contain all of the information you should consider before investing in our common stock. You should read the entire prospectus, including the risks discussed under the caption Risk Factors and the information incorporated by reference from our periodic reports, for important information regarding our company and our common stock before making the decision to invest.

AMERICAN ACCESS TECHNOLOGIES, INC.

American Access Technologies, Inc. develops and manufactures patented zone cabling and wireless enclosures that mount in ceilings, walls, raised floors, and in custom furniture, to facilitate the routing of telecommunications network cabling, fiber optics and wireless solutions to the workspace environment. We believe that Zone cabling is a superior approach for growing and open office configurations or wherever frequent moves, additions and changes of telecommunications services are a factor because zone cabling of the workspace reduces both labor and material costs

for initial network installation and facilitates moves, adds, changes and upgrades for the network installations of today and tomorrow.

Our wholly-owned subsidiary, Omega Metals, Inc., is a precision sheet metal fabrication and assembly operation which manufactures our zone cabling and wireless products and also serves a diverse client base of over 300, including engineering, technology and electronics companies, mostly in the Southeast. Omega Metals, Inc. operates from a 67,500 sq. ft. manufacturing facility situated on 8 1/2 acres of land that it owns. Manufacturing services include precision stamping, bending, assembling, painting, powder coating and silk screening.

On May 8, 2003 we entered into an agreement with Chatsworth Products, Inc., Westlake Village, CA establishing a five year strategic alliance for the manufacture and sales of Zone Cabling and Wireless products developed by American Access. These products, which are currently manufactured by American Access, are co-branded with the names of both American Access and Chatsworth Products, Inc. (CPI) and will be exclusively sold and distributed by CPI. Under the agreement, American Access will continue to manufacture the products but CPI will have manufacturing rights under certain circumstances. As of the date of this prospectus, American Access manufactures all of such products.

In connection with the alliance, CPI purchased 215,517 shares of American Access common stock in a private placement at \$1.16 per share.

Our principal executive offices are located at 6670 Spring Lake Road, Keystone Heights, FL 32656 and our telephone number is (352) 473-6673.

RISK FACTORS

Our business is subject to a number of risks, some of which are discussed below. Other risks are presented elsewhere in this prospectus and in the information incorporated by reference into this prospectus. Before deciding to invest in our company or to maintain or increase your investment, you should carefully consider the risks described below, in addition to the other information contained in this prospectus, our Annual Report on Form 10-KSB, our Quarterly Reports on 10-QSB; and in our other filings with the Commission, including any subsequent reports filed on Forms 10-KSB, 10-QSB and 8-K. The risks and uncertainties described below are not the only ones that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business and results of operations. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our common stock could decline and you may lose all or part of your investment.

Risks Related to our business.

We do not have a history of profitable operation and may not be profitable in the future.

We incurred net losses of approximately \$967,000 in 2002, \$1,441,000 in 2001 and \$2,034,000 in 2000. For the nine months ended September 30, 2003 we incurred a net loss of \$889,620 compared to a net loss of \$1,033,704 in the same period in 2002. Our expenses are currently greater than our revenues. Our ability to operate profitably depends on increasing our sales and achieving sufficient gross profit margins. We cannot assure you that we will achieve or maintain profitable operations in the future.

We have experienced fluctuations in our revenues and this may continue in the future.

In 2001 we experienced significant declines in sales in both our Zone cabling products and metal fabrication and assembly business. We believe this decline was the result of a significant decline in capital spending in the telecommunications industry, a reduction in technology related capital spending and a general overall economic recession that has negatively affected the markets we serve.

While we have seen a pick up in our revenues since 2001 from an economic recovery, there can be no assurance as to the duration and strength of such recovery and whether it will continue to positively effect our revenues.

We have a limited operating history with our zone cabling and wireless products which makes your evaluation of our business difficult.

We introduced our Zone cabling products into the commercial marketplace in January 1997 and since that date have introduced additional products including our first wireless enclosure in August 2001. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in relatively new and rapidly evolving markets. These risks include:

uncertain commercial acceptance of our products;

technological obsolescence; and

competition

We cannot assure you that we will succeed in addressing these risks. If we fail to do so, our revenue and operating results could be materially harmed.

Telecommunications networking products are subject to rapid technological change and to compete, we must offer products that achieve market acceptance.

The telecommunications networking industry is characterized by rapid technological change, short product life cycles and evolving industry standards. To remain competitive, we must continue to improve our existing products and offer products for new technologies which may emerge.

Our Zone cabling enclosures are designed to facilitate zone cabling of workspace environments. We believe that Zone cabling is a superior approach for growing and open office configurations or wherever frequent moves, additions and changes of telecommunications services are a factor. We can offer no assurance, however, that Zone cabling will be widely adopted by the telecommunications industry. Furthermore, the recent growth of wireless networking may adversely affect the demand for our zone cabling products.

Sales of our Zone cabling products depend upon the decision of prospective end users to undertake a network cabling or wireless networking projects which incorporate our products. Such projects are affected by a variety of factors, including the following:

acceptance of the benefits of zone cabling over traditional home run cabling

general economic conditions

potential technological changes such as the growth of wireless networking in the office

For these and other reasons, the sales cycle associated with the purchase of our zone cabling and wireless products can be quite lengthy and is subject to a number of significant risks, including customers' budgeting constraints and internal acceptance reviews, that are beyond our control. Because of the lengthy sales cycle, our sales of such products are variable and can fluctuate substantially.

We depend significantly on one distributor of our zone cabling and wireless products.

Until May 2003, our zone cabling and wireless product revenues were derived from our sales to a limited number of direct customers, most of which were OEM customers and stocking distributors. In May 2003 we established Chatsworth Products, Inc. (CPI) as our exclusive distributor for all of our zone cabling and wireless products to customers other than OEM customers. Accordingly we are dependent on the performance of CPI to maintain relationships with our existing customers, other than OEM customers, and establish new customers for our products. Our distribution agreement with CPI lasts until May 2008. If CPI is not successful in maintaining good relationships with our existing customers, other than OEM customers, and finding new customers for our products or experiences

significant reduction, delay or cancellation of orders from any of these customers our operating results could be materially and adversely affected.

Our failure to adequately protect our proprietary rights could adversely affect our ability to compete effectively.

We rely on a combination of patents, trademarks, non-disclosure agreements, invention assignment agreements and other security measures in order to establish and protect our proprietary rights. We have been issued four U.S. patents, which are important to our current business. We can offer no assurance that patents will issue from any of these pending applications or, if patents do issue, that the claims allowed will be sufficiently broad to protect our technology. In addition, we can offer no assurance that any patents issued to us will not be challenged, invalidated or circumvented, or that the rights granted thereunder will adequately protect us. There can be no assurance that the measures we have taken or may take in the future will prevent misappropriation of our technology or that others will not independently develop similar products, design around our proprietary or patented technology or duplicate our products.

Risks related to ownership of our common stock.

The exercise of our outstanding stock options could adversely affect our outstanding common stock.

Our stock option plans are an important component of our compensation program for our employees and directors. As of November 30, 2003, we have issued and outstanding options to purchase approximately 7,000,000 shares of common stock with exercise prices ranging from \$0.56 to \$25.00 per share. The existence of such rights to acquire common stock at fixed prices may prove a hindrance to our efforts to raise future funding by the sale of equity. The exercise of such options will dilute the percentage ownership interest of our existing stockholders and may dilute the value of their ownership. The possible future sale of shares issuable on the exercise of outstanding options could adversely affect the prevailing market price for our common stock. Further, the holders of the outstanding rights may exercise them at a time when we would otherwise be able to obtain additional equity capital on terms more favorable to us.

This offering may have an adverse impact on the market value of our stock.

This prospectus relates to the sale or distribution of up to 580,803 shares of common stock by the selling stockholders. We will not receive any proceeds from these sales and have prepared this prospectus in order to meet our contractual obligations to the selling stockholders. The shares subject to this prospectus represent approximately 9% percent of our issued and outstanding common stock as of the date of this prospectus. The sale of these shares, or even the possibility of their sale, may adversely affect the trading market for our common stock and reduce the price available in that market.

If the price of our stock goes below \$1.00 for 30 consecutive trading days, our stock could be delisted from the NASDAQ Stock Market.

Our stock is currently listed on the Nasdaq Small Cap Market. The Nasdaq Stock Market's Marketplace Rules impose a minimum stock price of \$1.00 per share for the continued listing of our stock. As of the date of this prospectus we are in compliance with all Nasdaq Stock Market listing requirements. If our stock price were to close below \$1.00 for 30 consecutive trading days in the future we could be out of compliance and our stock would be subject to delisting if we did not achieve compliance within the 180 cure period provided in the Nasdaq Marketplace Rules. If we are delisted our stock's liquidity would suffer, and we would likely experience reduced investor interest. Such factors may result in a decrease in

our stock's trading price. Delisting also make it more difficult for us from issuing additional shares in order to secure additional financing.

SPECIAL NOTE ABOUT FORWARD-LOOKING INFORMATION

This prospectus and the documents incorporated by reference in this prospectus contain forward-looking statements. These forward-looking statements are based on our current expectations, estimates and projections about our industry,

management's beliefs and certain assumptions made by us. Words such as anticipate, expect, intend, plan, believe, seek, estimate, continue, will and may and variations of these words or similar expressions are intended to identify forward-looking statements. These statements reflect the views of our management at the time they are made based on information currently available to management. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict.

Therefore, our actual results could differ materially from those expressed or forecasted in any forward-looking statements as a result of a variety of factors, including those set forth in Risk Factors above and elsewhere in, or incorporated by reference into, this prospectus. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

RECENT DEVELOPMENTS

On December 4, 2003 we agreed to sell 365,286 shares of our common stock to Around the Clock Partners, LP in a private placement for \$370,000. We will utilize the proceeds of this sale to expand our manufacturing capabilities, working capital and general corporate purposes.

USE OF PROCEEDS

The shares of common stock offered by this prospectus will be sold by the selling stockholders, and the selling stockholders will receive all of the proceeds from the sales of such shares. We will not receive any proceeds from the sale or distribution of the common stock by the selling stockholders.

SELLING STOCKHOLDERS

The following table sets forth the names of the selling stockholders, the number of shares of common stock known by us to be beneficially owned by each of the selling stockholders as of December 19, 2003 (based on the selling stockholders' representations regarding their ownership) and the number of shares of common stock being registered for sale. The term selling stockholder or selling stockholders includes the stockholders listed below and their transferees, assignees, pledgees, donees or other successors. We are unable to determine the exact number of shares that will actually be sold because the selling stockholders may sell all or some of the shares and because we are not aware of any agreements, arrangements or understandings with respect to the sale of any of the shares. The following table assumes that the selling stockholders will sell all of the shares being offered for their account by this prospectus. The shares offered by this prospectus may be offered from time to time by the selling stockholders. The selling stockholders are not making any representation that any shares covered by this prospectus will or will not be offered for sale. The selling stockholders reserve the right to accept or reject, in whole or in part, any proposed sale of shares. The selling stockholders also may offer and sell less than the number of shares indicated.

We agreed to sell 365,286 shares of our common stock to Around the Clock Partners, LP for \$370,000 pursuant to a private placement. The sale of 143,000 of such shares for \$130,000 was completed on December 4, 2003 and the sale of the balance of the shares will be completed no later than ten business days after the registration statement of which this prospectus is a part has been declared effective by the Securities and Exchange Commission. Around the Clock Partners, LP is not affiliated with a broker dealer and no broker dealer or finder was involved in the private placement.

Edgar Filing: AMERICAN ACCESS TECHNOLOGIES INC - Form S-3

We sold Chatsworth Products, Inc. (CPI) 215,517 shares of our common stock for \$250,000 in a private placement transaction in conjunction with our five year strategic alliance for the manufacture and sale of Zone Cabling and Wireless products. We have a ten day right of first refusal to purchase such shares that CPI proposes to sell other than on the NASDAQ Stock Market or on any other market or stock exchange where our common stock trades. Sales by CPI on the NASDAQ Stock Market or on any other market or stock exchange where our common stock trades are subject to restrictions on the time, price and amount of such sales in any day. We also entered into a Standstill Agreement with CPI which provides that CPI will generally refrain from acquiring more than 9.9% of our voting securities and conducting certain activities, such as soliciting proxies, joining groups of other stockholders and submitting stockholder proposals with respect to American Access. CPI is also required to vote their shares as

recommended by our Board of Directors except if such vote involves a change in control of American Access. The Standstill Agreement will generally terminate after CPI no longer holds 2% of our voting securities. However, the obligation to refrain from acquiring more than 9.9% of our voting securities terminates on May 8, 2008.

We are not a party to any other agreement, arrangement, or understanding regarding the sale of any of these shares. Except for our strategic alliance with Chatsworth Products, Inc. for sale and marketing of zone cabling and wireless products, we are not aware of any selling stockholder having any position, office or other material relationship with us or our affiliates within the past three years other than as a result of the selling stockholder's beneficial ownership of shares of our common stock.

⁽¹⁾ Assumes the sale of all shares offered in this prospectus and no other purchases or sales of our common stock by the selling stockholders.

PLAN OF DISTRIBUTION

The selling stockholders and any of their pledgees, assignees, transferees, donees and successors-in-interest may, from time to time, sell any or all of their shares on any stock exchange, market or trading facility on which our common stock is traded or in private transactions. Each selling stockholder will act independently in making decisions with respect to the timing, manner and size of each sale of the shares covered in this prospectus. The selling stockholders may use any one or more of the following methods when selling shares:

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers, which may include long sales and short sales effected after the effective date of the registration statement;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account pursuant to this prospectus;

at the market to or through market makers or into an existing market for the shares;

an exchange distribution in accordance with the rules of the applicable exchange;

in other ways not involving market makers or established trading markets, including direct sales to purchasers, sales effected through agents or other privately negotiated transactions;

settlement of short sales;

broker-dealers may agree with the selling stockholders to sell a specified number of shares at a stipulated price per share;

through transactions in options, swaps or other derivative securities (whether exchange-listed or otherwise);

a combination of any the foregoing methods of sale; or

any other method permitted by applicable law.

In the event that a sale is to be made pursuant to this registration statement by a pledgee or other transferee, we will provide appropriate information regarding such pledgee or transferee by a prospectus supplement or a post-effective amendment, if necessary, naming such pledgee or transferee as a selling stockholder.

Any sale or distribution of common stock by the selling stockholders must be accompanied by, or follow the delivery of, this prospectus, unless the selling stockholders elect to rely on Rule 144 or another exemption from the registration requirements in connection with a particular transaction. The selling stockholders may sell shares at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices. The selling stockholders may sell directly to broker-dealers as principals, in routine transactions through broker-dealers that will be compensated in the form of discounts, concessions, or commissions, or in block transactions in which a broker-dealer may act as a principal or an agent. The broker-dealers will either receive discounts or commissions from the selling stockholders, or they will receive commissions from purchasers of shares. We have not and do not intend to enter into any arrangement with any securities dealer concerning such discounts, concessions or commissions for the solicitation of offers to purchase the common stock or the sale of such stock.

Under certain circumstances any broker-dealers that participate in the distribution may be deemed to be underwriters within the meaning of the Securities Act of 1933, as amended. Any commissions received by these broker-dealers and any profits realized on the resale of shares by them may be considered underwriting discounts and commissions under the Securities Act of 1933, as amended. In addition, we have agreed to indemnify the selling stockholders against liabilities, including certain liabilities under the Securities Act of 1933, as amended, arising out of the information provided by us and contained in the registration statement of which this prospectus forms a part.

Under the rules and regulations of the Securities Exchange Act of 1934, as amended, any person engaged in the distribution or the resale of shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of such distribution. The selling stockholders will also be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and regulations under the Securities Exchange Act of 1934, as amended, which may limit the timing of purchases and sales of our shares of common stock by the selling stockholders.

The selling stockholders will pay all commissions, transfer taxes, and other expenses associated with the sale of securities by the selling stockholders. The shares offered hereby are being registered pursuant to contractual obligations to which we are subject, and we have paid the expenses of the preparation of this prospectus.

We estimate that we will incur costs of approximately \$10,549.00 in connection with this offering for legal, accounting, printing, and other costs related to the registration and sale of the shares of common stock. The selling stockholders will not bear any portion of the foregoing expenses, but will bear any fees incurred in connection with any sale of the common stock as described herein.

LEGALITY OF SECURITIES

The Florida Business Corporation Act provides that a person who is successful on the merits or otherwise in defense of an action because of service as an officer or director of a corporation is entitled to indemnification of expenses actually and reasonably incurred in such defense. F.S. 607.0850(3)

Such act also provides that the corporation may indemnify an officer or director, and advance expenses, if such person acted in good faith and in a manner the person reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to a criminal action, had no reasonable cause to believe such conduct was unlawful. F.S. 607.0850(1) (2).

A court may order indemnification of an officer or director if it determines that such person is fairly and reasonably entitled to such indemnification in view of all the relevant circumstances. F.S. 607.0850(9).

Under the registrant's Articles of Incorporation and By-laws the registrant is required to indemnify its officers and directors to the fullest extent such indemnification may be made under the provisions of the Florida Business Corporation Act. The registrant maintains a policy of liability insurance for its officers and directors.

ITEM 17. UNDERTAKINGS

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i) and (a)(1)(ii) of this section do not apply if the registration statement is on Form S-3, Form S-8 or Form F-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Edgar Filing: AMERICAN ACCESS TECHNOLOGIES INC - Form S-3

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the question has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
