Dear Olin Shareholder:

We cordially invite you to attend our 2004 annual meeting of shareholders.

This booklet includes the notice and proxy statement, which describes the business we will conduct at the meeting and provides information about Olin that you should consider when you vote your shares. We have not planned a communications segment or any multimedia presentations for the 2004 annual meeting.

Mr. G. Jackson Ratcliffe, Jr., whose term as a Class II Director will expire in April 2005, has decided to retire from the Board of Directors effective April 29, 2004. The Board thanks him for his past contributions and extends its best wishes in his future endeavors. We are pleased to announce that Mr. Michael Coleman, Vice President, Alcoa Business System and Quality, and President Rigid Packaging, is a nominee for the first time to fill the vacancy created by the retirement of Mr. Ratcliffe.

Whether or not you plan to attend, it is important that your shares are represented and voted at the annual meeting. If you do not plan to attend the annual meeting, you may vote your shares on the Internet, by telephone or by completing and returning the proxy card in the enclosed envelope. If you plan to attend the annual meeting, please bring the lower half of your proxy card to use as your admission ticket for the meeting.

At last year's annual meeting more than 93% of our shares were represented in person or by proxy. We hope for the same high level of representation at this year's meeting and we urge you to vote as soon as possible.

Sincerely,

Randall W. Larrimore

Chairman of the Board

YOUR VOTE IS IMPORTANT

As of March 16, 2004, the election of five Directors and the ratification of KPMG LLP as Olin's independent auditors for 2004 are the only matters being considered. We know of no other matters to be considered at the annual meeting. If any other matters are properly presented for action, the persons named in the accompanying form of proxy will vote the proxy in accordance with their best judgment and opinion as to what is in the best interests of Olin.

How does the Board recommend I vote on the proposals?

The Board recommends a vote for each of the Director nominees identified in Item 1 and for Item 2.

Who can vote?

All shareholders of record at the close of business on March 4, 2004 are entitled to vote at the annual meeting.

Telephone and Internet voting ends at 11:59 p.m., Eastern Daylight time, on April 28, 2004. If you vote in a timely manner by the Internet or telephone, you do **not** have to return the proxy card for your vote to count. Please be aware that if you vote on the Internet, you may incur costs such as normal telephone and Internet access charges for which you will be responsible.

The Internet and telephone voting procedures appear on the bottom of the enclosed proxy card. You may also log on to change the vote or to confirm that the vote has been properly recorded.

If you want to vote in person at the annual meeting, and you own your Olin shares through a custodian, broker or other agent, you must obtain a proxy from that party in their capacity as owner of record for your shares and bring the proxy to the annual meeting.

How are votes counted?

If you specifically mark the proxy card (or vote by telephone or Internet) and indicate how you want your vote to be cast regarding any matter, your directions will be followed. If you submit the proxy card but do not specifically mark it with your instructions as to how you want to vote, the proxy will be voted for the election of the Directors and in favor of Item 2 listed in the proxy. Mellon Investor Services LLC tabulates the shareholder votes and provides independent inspectors of election as part of its services as our registrar and transfer agent.

If you submit a proxy card marked `abstain` or `withhold` on any item, your shares will not be voted on the item so marked and your vote will not be included in determining the number of votes cast for that matter.

Can I change my vote?

Yes. Even if you submit a proxy card with your voting instructions, you may revoke or change it in person at the meeting any time before it is exercised or in a timely manner before the expiration of the voting deadlines by:

- submitting another written proxy with a later date,
- casting a new vote on the Internet or by telephone,
- sending a written notice of the change in your voting instructions to the Secretary if received before the annual meeting, or
- revoking the grant of a previously submitted proxy and voting in person at the annual meeting.

Shares represented by proxies on the enclosed proxy card will be counted in the vote at the annual meeting if we receive your proxy card by April 28, 2004. Proxies submitted by the Internet or by telephone will be counted in the vote only if they are received by 11:59 p.m., Eastern Daylight time on April 28, 2004.

or telephone. JPMorgan Chase Bank will vote shares of common stock held in the CEOP for which it does **not** receive voting instructions, or which are not credited to participants' accounts, in the same manner proportionately as it votes the shares of common stock for which they **do** receive instructions.

How do I vote my shares held in the Automatic Dividend Reinvestment Plan?

Mellon Investor Services LLC is our registrar and transfer agent and administers the Automatic Dividend Reinvestment Plan. What is Olin's Director Nomination Process?

All members of the Directors and Corporate Governance Committee, which acts as our nominating committee meet the NYSE standard for independence.

Our Directors and Corporate Governance Committee as a policy considers any director candidates suggested by shareholders if we receive the appropriate information in a timely manner. Our Principles of Corporate Governance provide that the Board Chair, Chief Executive Officer, other directors, employees and shareholders, may recommend director nominees to the Committee. The Committee uses the same process to review and evaluate all potential director nominees, regardless of who recommends the candidate. The Committee reviews and evaluates each nominee and the Committee Chair, the Board Chair and the CEO interview the potential Board candidates selected by the Committee. The interview results, along with the Committee's recommended nominees, are submitted to the full Board.

Criteria for new Board members include recognized achievement plus skills such as a special understanding or ability to contribute to some aspect of Olin's business. Racial and gender diversity are important but not at the expense of particular qualifications and experience that are required to meet the needs of the Board. The Committee also strives to include Board members with the personal qualities and experience that taken altogether will ensure a strong Board of Directors. The principal qualities of an effective corporate Director include strength of character, an inquiring and independent mind, practical wisdom, and mature judgment.

This year, we have two nominees who are not executive officers or directors standing for reelection, Michael Coleman and Philip J. Schulz. Mr. Coleman is a nominee for the first time and has been nominated to serve as a Class II Director. Mr. Schulz is currently a member of our Board, selected by the Board to fill a vacancy. Mr. Coleman and Mr. Schulz were each suggested by a non-management member of our board of directors.

Edgar Filing: OLIN CORP - Form DEF 14A

A shareholder can suggest a person for nomination as a director by providing the name and address of the candidate, and a detailed description of his or her experience and other qualifications for the position, in writing addressed to the Board of Directors in care of the General Counsel, Olin Corporation, 501 Merritt 7, Norwalk, CT 06856-4500. The notice may be sent at any time, but for a

candidate to be considered as a nominee for an annual shareholder meeting, we must receive the written information at least 150 days before the date of the prior year's proxy statement. For example, for candidates to be considered for nomination by the Board at the 2005 annual meeting, we must receive the information from shareholders on or before December 1, 2004.

In addition to shareholders proposing candidates for consideration by the Committee, Olin's By-Laws provide for shareholders to directly nominate individuals for election to the Board by delivering a written notice of the nomination to Olin's Secretary no later than the date printed in the Proxy Statement (90 days prior to our annual shareholders meeting). The written notice must include the information under the paragraph "How can I nominate a Director for election to the Board at the 2005 meeting?" under the heading "Miscellaneous" above.

Although the Directors and Corporate Governance Committee has from time to time engaged a third-party search firm to identify potential director candidates for the Committee's review and consideration, we have not done so during the past few years.

Who presides at Executive Sessions of the Board of Directors?

In accordance with our Principles of Corporate Governance, depending on the subjects to be discussed, the independent directors select a director to lead that executive session. The directors often select our independent Chairman of the Board to preside.

How are the Directors compensated?

During 2003, we compensated each non-employee Director on the Board with:

- an annual retainer of \$30,000, of which \$25,000 was paid or credited in the form of shares of common stock;
- shares of common stock with an aggregate fair market value equal to \$45,000, rounded to the nearest 100 shares;
- a fee of \$1,500 for each meeting of the Board and for each meeting of a committee of the Board attended by a committee member;
- a \$10,000 annual fee for committee chairs;
- reimbursement for expenses incurred in the performance of their duties as Directors;
- a 50% matching contribution to an eligible institution for gifts made by a Director to such institution, up to a maximum of \$5,000 per Director per year; and
- insurance coverage including: director's liability insurance, personal excess liability coverage of \$5 million per director, and coverage while on Company business under our business travel accident insurance policy.

Edgar Filing: OLIN CORP - Form DEF 14A

Directors may elect to receive common stock instead of cash for any portion of their cash compensation and to defer any stock or cash payments. Deferred cash is credited with interest quarterly and deferred shares are credited with dividend equivalents. Deferred shares are paid out in shares of common stock, or at the Director's election, in cash. If there is a Change in Control as defined in the 1997 Stock Plan for Non-employee Directors (which we refer to as the Directors Plan), the balance of any deferred account is paid to the Directors.

The Directors Plan also holds, as phantom shares, the shares of common stock of Arch Chemicals, Inc. issued to any Director as a dividend distribution on their shares of Olin common stock held in their Directors Plan accounts at the time of the spin-off of Arch Chemicals, Inc. Those Arch Chemicals, Inc. phantom shares are payable only in cash, unless a Director elects to transfer the Arch Chemicals, Inc. phantom shares into their Olin common stock accounts.

Directors who are also employees of Olin do not receive any extra compensation for their services as Directors.

Mr. Donald Griffin retired as an employee of Olin effective April 30, 2002, but continued to serve as Chairman of the Board until April 24, 2003. Upon becoming a non-employee director under the Directors Plan in April 2002, Mr. Griffin waived his pro rata portions of the non-employee director \$25,000 annual stock retainer and the \$5,000 excess retainer. Mr. Griffin received a pro rata portion of the \$24,000 annual stock grant in 2003 described above for the period he was a non-employee director in 2002. The Board awarded him a cash retainer of \$200,000 for the period May 2002 through April 2003 for his service as Chairman of the Board after his retirement as an employee. He also receives fees for Board meetings he attends. From January 1, 2003 through April 24, 2003, while he served as Chairman of the Board, he received \$15,040 for Company automobile expenses and less than \$3,000 in certain other incidental benefits. So long as he continues to serve on the Board, he continues to be provided with access to an office and secretarial support, and certain other incidental benefits, which in the aggregate do not exceed \$3,000 annually.

The Board awarded Mr. Randall Larrimore an annual cash retainer of \$50,000 for his service as Chairman of the Board. Mr. Larrimore began receiving this retainer after he started serving as our Chairman of the Board in late April 2003.

Report of the Audit Committee

The Audit Committee held five meetings during 2003. The purpose of the meetings was to monitor the integrity of the Corporation's financial reporting process and systems of internal control, evaluate the independence and performance of the Corporation's independent auditors, KPMG and internal audit functions and facilitate and encourage private communication between the Audit Committee and the internal auditors and our independent auditors.

In 2003, the composition of the Committee was changed and one Director was added for a total Committee membership of four Directors. The Directors on the Audit Committee are William W. Higgins, James G. Hascall, Randall W. Larrimore and Philip J. Schulz. All members of the Committee are independent Directors under New York Stock Exchange (NYSE) listing standards. In addition, all members of the Committee meet the financial literacy requirements outlined in the NYSE listing standards and Olin's Board of Directors has determined that Mr. Schulz meets the definition of an Audit Committee Financial Expert under SEC rules.

The Audit Committee reviewed and discussed the audited financial statements for fiscal year 2003 with management and the independent auditors. Specifically, the Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards (SAS) 61, Communication with Audit Committees, as amended.

In addition, the Audit Committee received the written disclosures and a letter from the independent auditors, required by Independence Standards Board Standard No. 1, INDEPENDENCE DISCUSSIONS WITH AUDIT COMMITTEES. The Audit Committee discussed with KPMG the issue of its independence from Olin. The Audit Committee also negotiated the hiring of KPMG for the 2003 audit and reviewed all fees paid to ensure that the work performed was permissible under applicable standards and would not impair KPMG's independence.

Based on the Audit Committee's discussions with management and the independent accountants and the Audit Committee's review of the report of the independent accountants and the other materials discussed above, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in Olin's Annual Report on Form 10-K for the year ended December 31, 2003 to be filed with the Securities and Exchange Commission.

EXECUTIVE COMPENSATION

Report of the Compensation Committee on Executive Compensation for 2003

Compensation Philosophy

Olin designs its executive compensation policies and programs based on specific objectives:

- attract, motivate and retain the highest quality executives,
- align executive interests with those of the Company's shareholders,
- provide an incentive to executives to achieve quantifiable financial and other strategic objectives in a manner consistent with the Company's values, and
- unite management as a team, emphasizing group results.

To accomplish these objectives, the Company emphasizes variable compensation, an emphasis consistent with competitive practice.

Executive Compensation Program as Administered in 2003

The compensation committee establishes total compensation opportunities listed below (and the three individual components) for the CEO and other named executive officers, based on a competitive analysis, targeted to the median of a group of companies provided by the independent consultant that represent general U.S. industry, referred to as the comparator group.

The committee engages independent executive compensation consultants who provide it with an annual assessment of the Company's relative position within the comparator group and advice and counsel with respect to the competitiveness of the design and administration of executive compensation programs. The independent consultants also advise the committee on regulatory changes and other matters related to executive compensation practices. The total target compensation opportunity for each executive includes the following components:

- annual base salary;
- annual incentive award opportunity, and

- long term incentive award.

Once the committee determines the total targeted compensation opportunity for the CEO and the other named executive officers, the committee determines the appropriate mix of these three components, again with the advice of outside executive compensation consultants, using the competitive analysis.

Base Salary

In June of 2003, the President and Chief Executive Officer's base salary was increased to \$550,000 per year. Factors utilized by the committee in determining the CEO's 2003 salary included analyses of the comparator group, the scope of his responsibilities, and his time in the position. The CEO's base salary was well below the median of the comparator group in 2003.

The Committee increased the base salaries of the other named executives effective April 1, 2003, except for T. M. Gura who had recently been promoted to Executive Vice President, Metals Group.

Annual Incentive Award

For 2003, the annual incentive program design was the same as originally implemented in 2002. Annual incentive awards are paid from a pool of available monies that is a function of Olin Corporation's Earnings Per Share performance for the year.

For the CEO and other named executives, during the first quarter of the year, the Committee establishes the pool generation formula that will be used to establish the total payout pool, the participants and the payout matrix (i.e. the portion of the total payout pool payable to each executive). Following the end of the performance year, the Committee reviews the financial results, computes the total payout pool and the portion payable to each executive. The Committee retains the discretion to reduce the bonus payable to each executive but any reduction in the amount of one executive's bonus cannot result in an increase in the bonus of another executive.

The Committee decided to use its discretion to make an award for improved financial performance and non-financial accomplishments to the CEO of \$175,000. This compares to his annual incentive payout for 2002, paid in 2003, of \$134,835. The actual awards for each of the other named executives were also based upon the improved financial performance and their individual performance against strategic objectives.

Long Term Incentive Award

The compensation committee determined the long-term incentive award opportunity for each named executive officer in early 2003, based on the competitive analysis described above. Under the current long-term incentive program, stock options represent one-half of the aggregate value of the long term incentive award opportunity, and performance share awards make up the other half.

Olin determines the grant size for stock options by indexing the grant size based on Olin's Total Shareholder Return (TSR) relative to the S&P MidCap 400 companies. The proposed option grant for each named executive is based on the individual long-term incentive award opportunity, and the sum of these proposed option grants determines the aggregate pool of options. This aggregate pool of options is increased or decreased based on Olin's trailing three-year TSR. TSR represents the increase in the fair market value of Olin common stock over the relevant period, including reinvestment of dividends, as calculated for the Performance Graph on page 25. The aggregate pool of options increases by 25% when Olin's TSR falls within the top third relative to the TSR for companies in the S&P MidCap 400. The aggregate pool of options shrinks by 25% when Olin's TSR falls within the bottom third relative to the TSR for companies in the S&P MidCap 400. Olin's 2003 stock option grant pool was at 100% of the aggregate pool of options, because Olin's trailing three-year TSR for the three years ended December 31, 2002 fell in the middle third of the companies in the S&P MidCap 400.

Individual target option grant sizes are fixed by competitive analyses. Actual grants made to individuals may be increased or decreased by up to 25% by this committee (or the CEO for non-officers). The total of all adjusted grants may not exceed the aggregate pool of available options for the year. The CEO and other named executive officers received stock option grants in 2003. The option price was set at the fair market value of common stock on the date of the grant, and the options have a ten-year term. These options vest one-third each year beginning in 2004.

The other half of the individual long term incentive requirement takes the form of performance shares. At the end of a three-year performance cycle, participants receive a performance share award, paid half in shares of Olin common stock and half in cash, based on Olin's average annual return on capital in relation to the average annual return on capital among the S&P MidCap 400 companies. The award may be increased by as much as 50% if Olin's average annual ROC falls in the top 20% of the S&P MidCap 400 performance and may fall to 25% if Olin's performance drops to the bottom 20% of the S&P MidCap 400 performance. The CEO and other named executive officers received grants of performance shares in 2003.

Edgar Filing: OLIN CORP - Form DEF 14A

Section 162(m) of the Internal Revenue Code, or the Code, denies Olin a deduction for compensation paid to a named executive officer in a taxable year, to the extent his compensation that

does not meet the definition of performance-based compensation exceeds \$1,000,000. Olin structures the stock options, and significant portions of the remaining long term incentive and of the annual incentive, to meet the criteria for performance-based compensation. It is possible, however, that the portions of these awards that do not qualify as performance-based compensation, when combined with salary and other forms of compensation Olin pays to a named executive officer, may exceed this limitation in any particular year.

Voluntary Employment Separation Program

In early 2004, the Committee, in connection with Board approval of an overall restructuring and cost reduction program for Olin's corporate headquarter operations, approved the Voluntary Employment Separation Program described on page 27.

In 2002, Mr. Rupp received \$110,811, comprised of \$96,891 for relocation expenses and \$13,920 for Company automobile expenses. In 2001, Mr. Ruggiero received \$51,797, comprised of \$27,000 for Company automobile expenses and \$24,797 for financial and estate planning expenses.

(b) Amounts reported in this column for 2003 are comprised of the following items:

(1) Olin employees may exercise their options for shares of Arch Chemicals, Inc. common stock (issued in the 1999 spin-off of Arch Chemicals) for either a cash payment or for Arch Chemicals common stock. Olin pays the difference between the option exercise price and the fair market value of Arch Chemicals common stock at the time of exercise to the employee if he or she elects to take cash, or to Arch, which then issues the appropriate number of shares to the employee, if the employee elects to take stock.

(2) The key executive life insurance program consists of three types of benefits: active employee life insurance, retiree life insurance and survivor income benefits. At the executive's option, the survivor income benefit may be exchanged for additional life insurance. The amounts shown represent the total premiums we paid in 2003 for these three benefits.

Stock Option Plans

We grant to key employees, selected by the compensation committee, options to purchase shares of common stock. The option price must be at least the fair market value of the common stock on the date of the grant and the options may not be exercised later than ten years from such date. The optionee may pay the exercise price of the options in cash or in common stock, valued at the market price on the date of exercise. Our option plans do not provide for repricing or, except for anti-dilution adjustments, other adjustments to the exercise price.

This table provides information about stock options we granted in 2003 to the individuals named in the Summary Compensation Table on page 22.

The dollar amounts under these columns are the result of calculations at the 5% and 10% assumption rates set by the SEC and therefore are not intended to forecast possible future appreciation of our stock price or to establish any present value of the options.
- (d) Realizable values are computed based on the number of options granted in 2003 and still outstanding at year-end.
- (e) The expiration dates of options granted during 2003 are February 12, 2013 and August 17, 2013.

Performance Graph

This graph compares the total shareholder return on our common stock with the total return on the S&P Midcap 400 and our Peer Group, as defined below, for the five-year period from December 31, 1998 through December 31, 2003. The cumulative return includes reinvestment of dividends.

Our Peer Group consists of Georgia Gulf Corporation, Brush Engineered Materials Inc., Mueller Industries, Inc. and Wolverine Tube, Inc. Our Peer Group is weighted in accordance with market capitalization (closing stock price multiplied by the number of shares outstanding) as of the beginning of each of the five years covered by the performance graph. We calculated the weighted return for each year by multiplying (a) the percentage that each corporation's market capitalization represented of the total market capitalization for all corporations in our Peer Group for such year by (b) the total shareholder return for that corporation for such year.

* \$100 invested on 12/31/98 in stock or index, including reinvestment of dividends. The graph reflects a distribution received in connection with the spin-off of Arch Chemicals, Inc. as a dividend. Such dividend is assumed to have been reinvested in our common stock as of February 9, 1999.

EXECUTIVE AGREEMENTS

As of December 31, 2003, Olin had executive severance agreements with its executive officers named in the Summary Compensation Table on page 22 and four other officers. Each agreement has an initial three-year term that expires on November 1, 2005, which is automatically extended annually for an additional year unless Olin provides at least 90 days notice that the term will not be so extended. If a change in control or a potential change in control of Olin (each as defined in the agreement) occurs before the agreement expires, the agreement extends to the later of three years following the date of the potential change in control or three years following the date of the change in control.

The officer agrees that if a potential change in control occurs, he or she will remain in Olin's employ until the earlier of (1) the end of the six-month period following the potential change in control or (2) the occurrence of a change in control, so long as Olin continues to provide the officer with no less favorable office, title, duties and responsibilities.

If the officer's employment is terminated by Olin without cause or by the officer as a result of disability or adverse changes in the terms and conditions of the officer's employment, the officer will receive, in lieu of severance benefits under any other Olin severance plans or programs:

- (1) a lump sum cash payment (which we refer to as the executive severance amount) equal to (a) twelve months salary plus (b) the greater of the average annual incentive compensation award paid or payable by Olin in respect of the last three calendar years or the officer's then current standard annual incentive compensation award;
- (2) an additional twelve months of service credit for pension plan purposes;
- (3) continuation for twelve months of medical, dental and life insurance coverage for the officer and his or her dependents;
- (4) outplacement services; and
- (5) if termination of employment occurs after the first quarter of any calendar year, a prorated annual incentive compensation award.

If any such termination of employment (other than as a result of disability) occurs following a change in control of Olin, the officer also will receive (a) an additional cash severance payment in an amount equal to two times the executive severance amount and (b) an additional 24 months of pension plan service credit and insurance coverage. In addition, if the officer at the end of the 36-month period following termination of employment has satisfied the eligibility requirements to participate in Olin's post-retirement medical and dental plan, he or she will be entitled to continue in Olin's medical and dental coverage (including dependent coverage) until the officer reaches age 65, on terms and conditions no less favorable to him or her than those in effect prior to the change in control, provided that such coverage will be secondary coverage to any coverage provided to the officer by any new employer.

If, in connection with the sale or transfer of an Olin business or assets to a third party or to a joint venture, the officer becomes an employee of the buyer or joint venture, he or she receives the benefits listed in items (1) through (4) above if his or her employment terminates under circumstances described above within 12 months of becoming employed by such buyer or joint venture. Payments are reduced for any cash severance or similar benefits from such buyer or joint venture.

An active employee on the date on which a change in control occurs, who is less than 55 and participates in our Senior Executive Pension Plan, will be entitled to a lump sum payment under that plan in an amount that, when combined with the value of his or her accrued pension benefits from all

other Olin pension plans (assuming for such purpose that the officer had terminated employment upon the change in control), preserves the payment of such accrued benefits based on the subsidized early retirement factor that would be applicable if he or she had been 55 at the time of such termination of employment.

If any payments made under any Change in Control provision in Olin's benefit plan subject the executive to the excise tax under Section 4999 of the Code, the payment to him or her will be increased so that the executive will receive the same net payment as if such tax did not apply.

VOLUNTARY EMPLOYMENT SEPARATION PROGRAM (VSP)

In late 2003, Olin offered all of its officers (as defined in the SEC rules adopted under Section 16 of the Securities Exchange Act of 1934) except for Mr. Rupp the opportunity to participate in a Voluntary Employment Separation Program (VSP). The VSP was part of an overall plan by Olin to significantly reduce administrative overhead, as Olin considered relocation of its executive offices from Norwalk, Connecticut to the East Alton, Illinois area. Participation was conditioned upon Olin's acceptance of the individual into the VSP, Olin's establishment of a separation date and a potential limit on the number of officers participating. In early 2004, Olin announced that six individuals will separate from Olin under the VSP, including three of the named executive officers, with individual separation dates between August of 2004 and April of 2005. Mr. Anthony W. Ruggiero, Executive Vice President and Chief Financial Officer will separate from Olin on or about April 1, 2005. Mr. Thomas M. Gura, Executive Vice President, Metals Group and Mr. Peter C. Kosche, Senior Vice President, Corporate Affairs will each separate from Olin on or about December 31, 2004.

Each participating officer will receive the benefits he or she would receive under the Executive Agreements described above, plus reimbursement of various legal and financial planning expenses in an aggregate amount not to exceed \$15,000.

Receipt of benefits under the VSP is conditioned upon the officer: (i) assisting with the transition of his or her duties, (ii) complying with confidentiality provisions, (iii) agreeing to reasonable changes in authority, duties and responsibilities until the separation date, (iv) executing a consulting agreement to continue to provide services for some period after the date of separation, if Olin deems such services to be necessary, and (v) executing a waiver and release at the time of separation.

RETIREMENT BENEFITS

Qualified Pension Plan for Employees

We provide fixed retirement benefits through a tax qualified pension plan and two non-qualified plans described below. The normal retirement age is 65, but early retirement is available after age 55 with at least 10 years of service. (If early retirement is before age 62, the employee receives reduced benefits.) The pension benefits are calculated based on the average cash compensation per year (salary and bonus shown in the Summary Compensation Table on page 22) for the highest three years during the ten years before and including the year in which an employee retires. The normal retirement allowance is 1.5% of the employee's average compensation multiplied by the number of years of service, less a percentage of the employee's primary Social Security benefit based on years of service (not to exceed 50% of such Social Security benefit).

When the employee qualifies and elects to retire, the benefits from the qualified plan will be paid in monthly installments, unless the present value of the benefit is less than \$5,000. The qualified pension plan, called the Olin Corporation Employees Pension Plan, provides that if within three years following a Change in Control of Olin, any corporate action is taken or filing made in contemplation of, among other things, a plan termination or merger, or other transfer of assets or liabilities of the plan, and such termination, merger or other event thereafter takes place, plan benefits would automatically increase for affected participants (and retired participants) to absorb any surplus plan assets.

Non-Qualified Pension Plans

Olin Supplementary and Deferral Benefit Pension Plan, or Supplemental Plan

Under this Supplemental Plan, we pay a supplemental pension based on the formula described above on deferred compensation, including deferred incentive compensation.

The Supplemental Plan also provides additional pension benefits to highly compensated employees, whose benefits from qualified plans are limited by the Code. This plan provides for the payment of supplemental pension benefits equal to the reduction in the qualified plan benefit resulting from the IRS limitations.

The non-qualified Supplemental Plan provides that executives whose benefits have an actuarial present value in excess of \$100,000 shall receive such benefits in the form of an accelerated distribution, unless the executive instead elects to receive monthly benefits. An accelerated distribution means that the executive will receive payment in the amount of the actuarial present value of the benefit due in one, two or three annual installments, as determined by the Company.

In the event of a Change in Control, we will pay each eligible employee a lump sum amount in cash sufficient to purchase an annuity which will provide the same monthly after tax benefit as the employee would have received under the Supplemental Plan based on benefits accrued as of the date of the Change in Control. The lump sum payment will be reduced to take into consideration monthly payments provided under trust arrangements or other annuities we establish or purchase in order to make payments under this plan.

Senior Executive Pension Plan, or Senior Plan

Our Senior Plan provides additional pension benefits for executives, as described in the Senior Plan. Under the Senior Plan, we pay pension benefits to executives when they retire after age 55. Benefits are reduced for executives who retire before age 62. The benefits are based on the average of the executive's annual compensation (salary and bonus shown in the Summary Compensation Table on page 22) for the highest three years out of the last ten years that the executive is employed

by the Company, including the year in which an executive retires. The benefits equal 3% of the executive's average compensation multiplied by the number of years of participation in the Senior Plan, reduced by pension benefits that accrued under our qualified and other non-qualified plan for the period of time credited under the Senior Plan, and further reduced by 50% of employee's primary Social Security benefit. The maximum benefit payable is 50% of the employee's average compensation reduced by amounts payable from our qualified and non-qualified plans and certain adjustments set forth in the plan documents, if applicable. The Senior Plan also provides benefits to an executive's surviving spouse equal to 50% of the executive's benefits.

To receive benefits under the Senior Plan, an executive must meet the service requirements and other plan provisions regarding suspension of benefit accruals and cessation of benefits. Even if the benefits have accrued, the compensation committee may remove a participant from the Senior Plan for cause.

The Senior Plan provides that executives whose benefits have an actuarial present value in excess of \$100,000 shall receive such benefits in the form of an accelerated distribution, unless the executive instead elects to receive monthly benefits. An accelerated distribution means that the executive will receive payment in the amount of the actuarial present value of the benefit due in one, two or three annual installments, as determined by the Company. However, in the event of a Change in Control, the Senior Plan will pay qualified executives a lump sum amount in cash sufficient to purchase an annuity, which will provide the same after-tax benefit. In addition, the agreements described above under Executive Agreements provide that an executive officer who is less than age 55 at the time of a Change in Control, will be treated as if he or she had retired at age 55, and the lump sum payment will be calculated based on the years of service at the date of a Change in Control.

The following table shows the maximum amount of retirement benefits annually payable in total under the qualified pension plan and the non-qualified pension plans. These amounts will be reduced by applicable offsets according to the plans' provisions.

Other

Under our compensation plans and arrangements, all participants, including Directors, may defer payment of salaries, Director compensation and incentive compensation to cash and phantom stock accounts.

On October 2, 2003, John L. McIntosh executed a five-year \$60,000 Promissory Note with Olin pursuant to a formal written commitment from Olin to Mr. McIntosh dated April 11, 2002 (prior to the enactment of the Sarbanes-Oxley Act of 2002). Olin provided the loan commitment to Mr. McIntosh and his lender as a relocation benefit, in connection with Mr. McIntosh's construction of a new home in Tennessee following his relocation from Connecticut. Principal is payable in annual installments, equal to the greater of \$12,000 or 50% of Mr. McIntosh's annual cash bonus, beginning twelve months after the date of the loan. Interest is payable only if the full principal balance is not repaid on or before October 2, 2008, and then will accrue on overdue principal at a fluctuating rate per annum equal to the sum of the borrowing rate (defined as the base rate announced by Citibank, N.A., New York, NY from time to time) plus 3% from the due date of such principal.

ITEM 2 PROPOSAL TO RATIFY APPOINTMENT OF INDEPENDENT AUDITORS

KPMG was our independent auditor for 2003 and 2002. A summary of the fees we paid to KPMG for 2002 and 2003 follows:

Nature of Service	Fees (\$ in thousands)			
	2003		2002	
	\$	%	\$	%
Audit Fees (1)	\$ 713	76%	\$ 807	68%
Tax Fees (2)	36	4%	44	4%
All Other Fees:

Consents/Comfort Letters/Environmental Letters	23	2%	62	5%
S-4/S-8 Assistance			73	6%
Environmental expense accounting/litigation support			11	1%
Assistance to Internal Audit (related to 2001 audits)			36	3%
	<u>\$ 936</u>	<u>100%</u>	<u>\$ 1,187</u>	<u>100%</u>

- (1) Includes costs associated with the annual audit including quarterly financial reviews and work associated with our adoption of FASB 143 and implementation of the requirements of Section 404 of the Sarbanes-Oxley Act.
- (2) Involves primarily international tax work including tax return preparation, tax advice on transfer pricing, foreign affiliate dividends, the liquidation/formation of two affiliates, and general tax compliance matters.

In late 2002, our Audit Committee adopted a policy requiring that all audit and permitted non-audit services (including fees) are subject to pre-approval by the Audit Committee at each scheduled meeting. Our Audit Committee procedures provide that in the event that a need arises in the intervening period between scheduled meetings, the Chair of the Audit Committee may pre-approve newly identified KPMG services and report back to the other members of the committee at the next scheduled meeting. In 2003,

Edgar Filing: OLIN CORP - Form DEF 14A

the committee pre-approved 97.5% of the audit fees and 100% of the tax and other fees incurred in 2003, and all audit and non-audit services contracted for with KPMG after adoption of the pre-approval policy.

Who has the Audit Committee selected as independent auditors for 2004?

Olin's Audit Committee is solely responsible for hiring and compensating the Company's independent auditor. After considering KPMG's 2003 performance and their proposed audit plan for 2004, the Committee has selected KPMG as our independent auditor for 2004.

Is a shareholder vote required to approve Olin's independent auditors?

The law and our By-laws do not require us to submit this matter to the shareholders at the annual meeting. However, the Board and Audit Committee chose to submit it to the shareholders to ascertain their views.

Will I have an opportunity to hear from KPMG and ask them questions?

We expect representatives of KPMG to be present at the annual meeting. They will have an opportunity to make a statement, if they desire to do so, and to respond to appropriate questions.

How many votes are required to ratify the appointment of KPMG as independent auditors for 2004?

To ratify the appointment of KPMG as independent auditors for 2004, the votes cast in favor of KPMG must exceed the votes cast in opposition to KPMG. Abstentions and shares held in street name that are not voted will not be included in determining the number of votes cast. If the shareholders' ratification vote does not support the Audit Committee's decision to appoint KPMG as independent auditors for 2004, the Audit Committee will consider the views of the shareholders during its selection of an auditor for 2005.

How does the Board recommend we vote?

The Board recommends that you vote FOR ratification of the appointment of KPMG as our independent auditors for 2004.

By Order of the Board of Directors:

George H. Pain

Secretary

Dated: March 16, 2004

OLIN CORPORATION
AUDIT COMMITTEE OF THE BOARD OF DIRECTORS
CHARTER

As amended December 11, 2003

Purpose

The Audit Committee (the "Committee") is appointed by the Board of Directors. The purpose of the Committee is to:

- Assist Board oversight of:
 1. the integrity of the Corporation's financial statements, including the financial reporting process and systems of internal control covering the areas of finance and accounting;
 2. the Corporation's compliance with the legal and regulatory requirements including environmental, health, safety and transportation (EHS&T) compliance;
 3. the independent auditor's qualifications and independence, and
 4. the performance of the Corporation's internal audit function (including monitoring the qualifications, independence and performance of the internal audit and EHS&T audit functions), and the Corporation's independent auditors.
- Prepare an Audit Committee report as required by the SEC to be included in the Corporation's annual proxy statement.
- Provide an avenue for communication between the Board of Directors and management, the independent auditors and the internal audit and EHS&T audit functions.
- Conduct an annual performance evaluation of the Committee.

Membership and Meetings

Edgar Filing: OLIN CORP - Form DEF 14A

The Committee will consist of no less than three Directors, all of whom are independent Directors, as defined in the Principles of Corporate Governance.

Each member shall be financially literate, as such qualification is interpreted by the Board in its business judgment, or must become financially literate within a reasonable period of time after his or her appointment to the Committee. In addition, at least one member of the Committee must have accounting or related financial management expertise, as the Corporation's Board interprets such qualification in its business judgment. The Corporation's goal is that at least one member of the Committee, in the judgment of the Board, will be an audit committee financial expert as defined in SEC regulations under Section 407 of the Sarbanes-Oxley Act of 2002. The Corporation will comply with all applicable disclosure requirements under the SEC's rules related to audit committee financial experts.

If a Committee member simultaneously serves on the audit committees of more than three public companies (including the Corporation), the Board must determine that such service would not impair such member's ability to serve effectively on the Corporation's Committee. The Board must disclose that determination in the Corporation's annual proxy statement.

In addition to being an independent Director, each member of the Committee must not, other than in his or her capacity as a member of the Committee, the Board or any other Board committee: (1) accept, directly or indirectly, any consulting, advisory or other compensatory fee from the Corporation

or any subsidiary, other than fixed amounts of compensation under a retirement plan (including deferred compensation), for prior service with the Corporation (provided that such compensation is not contingent in any way on continued service); or (2) be an affiliated person of the Corporation or any subsidiary.

Committee members shall be appointed by the Board. The Board may remove any Committee member at any time. The Chair of the Committee will be rotated at three year intervals, unless the Board believes there are compelling reasons at a given point in time to maintain an individual Director's chairmanship for a longer time. When feasible, the immediate past Chair will continue serving as a member of the Committee for at least one year to ensure an orderly transition.

Meetings

The Committee shall meet no less than four times per year, and at such other times as may be necessary to fulfill its responsibilities. The Committee shall meet separately, periodically, with management, with the Corporation's internal auditors (or other personnel responsible for the internal audit functions) and with the Corporation's independent auditors.

Regular meetings of the Committee will be at times during the year as approved by the Committee. Special meetings of the Committee may also be called and held as may be appropriate, subject to the Corporation's By-laws. The Committee Chair shall prepare and/or approve an agenda in advance of each such meeting.

The Chair of the Committee will regularly report the Committee's findings, conclusions and recommendations to the Board of Directors at the next meeting.

Duties and Responsibilities

Review Procedures

The Audit Committee will:

- Review and reassess the adequacy of the Audit Committee Charter annually and submit it for formal approval to the Directors and Corporate Governance Committee and Board of Directors. - Review the Corporation's annual audited financial statements, including the Corporation's Management's Discussion and Analysis of Financial Condition and Operations (MD&A) prior to filing or distribution. This review of the financial statements is to include discussions with management and the independent auditor about the existence and disposition of significant issues involving accounting principles, practices, estimates and judgments, and a recommendation to the Board of Directors regarding inclusion of such financial statements in the Corporation's annual report on Form 10-K.
- Discuss the Corporation's quarterly unaudited financial statements and press release, including the Corporation's disclosures under MD&A, with management and the independent auditor.
- Review:

Edgar Filing: OLIN CORP - Form DEF 14A

 - the effect of regulatory and accounting initiatives, as well as off-balance sheet structures, on the Corporation's financial statements; and
 - alternative principles and practices that could have been followed; the reasons for selecting the principles and practices to be followed; the financial impacts of the principles and practices selected as compared to those of the other alternatives available; and the provisions of any pro forma or adjusted non-GAAP information.
- Review with the independent auditor any audit problems or difficulties and management's response, including:
 - Any restrictions on the scope of the independent auditor's work activities or on access to requested information;
 - Any accounting adjustments noted or proposed by the independent auditors but passed (as immaterial or otherwise);
 - Any communications between the audit team and the audit firm's national office regarding auditing or accounting issues presented by the engagement with respect to the Corporation's audit;

 - Discuss earnings press releases, as well as review any financial information and earnings guidance provided to analysts and rating agencies; may be done generally (i.e., discussion of the types of information to be disclosed and the type of presentation to be made).

Independent Auditors

- The Committee has sole authority to directly appoint, retain, compensate, evaluate and terminate the Corporation's independent auditors and will ensure that the independent auditors report directly to the Committee.
- The Committee has direct responsibility for oversight of the Corporation's independent auditors, including resolution of disagreements between management and the independent auditors.
- The Committee shall approve in advance the engagement of the independent auditor to render audit or non-audit services, or the engagement to render the service shall be entered into pursuant to pre-approval policies and procedures established by the Committee, provided the policies and procedures are detailed as to the particular service and the Committee is informed of each service, and such policies and procedures do not include delegation to management of the Committee's

responsibilities under the Securities Exchange Act of 1934. This requirement shall not apply to the provision of services other than audit, review or attest services if:

1. the aggregate amount of all such services provided constitutes no more than five percent of the total amount of revenues paid by the Corporation to the accountant during the fiscal year in which the services are provided; and
 2. such services were not recognized by the Corporation at the time of the engagement to be non-audit services; and
 3. such services are promptly brought to the attention of the Committee and approved prior to the completion of the audit by the Committee or by one or more members of the Committee who are members of the Board of Directors to whom authority to grant such approvals has been delegated by the Committee.
- The Committee shall evaluate the auditor's qualifications, performance and independence. This evaluation should include the review and evaluation of the lead partner of the independent auditor.
