CNET Networks, Inc.

0.75% Convertible Senior Notes Due 2024

Shares of Common Stock Issuable Upon Conversion of the Notes

This prospectus supplement supplements the prospectus dated June 21, 2004 and the prospectus supplement dated July 20, 2004 (collectively, the prospectus) of CNET Networks, Inc., relating to the resale by holders of our 0.75% Convertible Senior Notes Due 2024 and the shares of our common stock issuable upon conversion of the notes.

This prospectus supplement should be read in conjunction with the prospectus. This prospectus supplement is not complete without, and may not be delivered or utilized except in connection with, the prospectus.

The following table sets forth information with respect to the selling securityholders and the principal amounts of notes and shares of common stock issuable upon conversion of the notes beneficially owned by each selling securityholder that may be offered pursuant to this supplement and the accompanying prospectus. The information is based solely on information provided by or on behalf of the selling securityholders. Except as set forth in the notes to the table below, none of the selling securityholders nor any of their affiliates, officers, directors or principal equity holders has held any position or office or has had any material relationship with us within the past three years.

The selling securityholders may, pursuant to this prospectus, offer all, some or none of the notes or the common stock issuable upon conversion of the notes. As a result, we cannot estimate the amount of the notes or the common stock that will be held by the selling securityholders upon termination of any of these sales. In addition, the selling securityholders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes since the date on which they provided the information regarding their notes in transactions exempt from the registration requirements of the Securities Act of 1933, as amended.

The percentage of notes outstanding beneficially owned by each selling securityholder is based on \$125,000,000 aggregate principal amount of notes outstanding. The number of shares of common stock owned prior to the offering includes shares of common stock issuable upon conversion of the notes. The percentage of common stock outstanding beneficially owned by each selling securityholder is based on 143,241,314 shares of common stock outstanding on August 3, 2004. The number of shares of common stock issuable upon conversion of the notes offered for resale hereby is based on

a conversion rate of 66.6667 shares of common stock per \$1,000 principal amount of the notes and a cash payment in lieu of any fractional share. The conversion rate, and therefore the number of shares of common stock issuable upon conversion of the notes, is subject to adjustment in certain circumstances. Accordingly, the number of shares of common stock issuable upon conversion of the notes may increase or decrease.

The prospectus is hereby supplemented as follows to restate, in its entirety, the table of selling securityholders under the caption Selling Securityholders contained on pages 41-42 of the prospectus:
