On July 12, 2006, registrant issued the following press release announcing its preliminary unaudited sales for the three and six months ended June 30, 2006 and 2005, respectively.

American Access Technologies Reports Sales of \$2.2 Million for Second Quarter 2006

Second Best Sales Quarter in Corporate History Leads to 9.2% Sales Growth for Six Months Ended June 30, 2006

Keystone Heights, FL - July 12, 2006 PRNewswire First Call - American Access Technologies, Inc. (NASDAQ: AATK) is pleased to announce that preliminary unaudited sales for the three months ended June 30, 2006 were approximately \$2,160,000, an increase of 2.3% over second quarter 2005 sales of \$2,111,000. For the six months ended June 30, 2006, preliminary unaudited sales were \$4,300,000, a 9.2% increase over the 2005 period.

Joe McGuire, Chief Financial Officer, commented, "Profitability continues to be at the forefront of our priorities for 2006 as we focus on manufacturing efficiencies, price increases and higher margin revenues. We are on track to reach our announced goal of achieving profitability in fiscal 2006.

Our performance this quarter and year-to-date gives us four years of consistent, steady sales growth. The second quarter 2006 marked the fifteenth quarter out of the last sixteen with year-over-year quarterly sales increases. Significant factors contributing to the increase in sales in second quarter 2006 include: continued solid execution of our overall internal sales and marketing plan, production from our new laser cutting machine which enables the Company to compete for new customers as well as to improve the efficiency of current manufacturing processes, strategic marketing campaigns by the Company's sales partners, the training and education of end users and the adoption of industry standards for zone cabling and wireless products. All indicators lead us to anticipate that this positive trend will continue for the balance of the year.

On July 6th, the Company announced a letter of intent to combine with M&I Electric Industries, Inc., a Houston-based provider of a wide range of switchgear, drives and other electrical products and services primarily to the energy industry. The proposed acquisition is subject to negotiation of a definitive share exchange agreement with the M&I shareholders, approval by American Access shareholders, and continued listing of American Access stock on the NASDAQ stock market.

Detailed information on financial results for the second quarter ended June 30, 2006 will be included in the Company's Quarterly Report on Form 10-QSB that will be filed with the Securities and Exchange Commission in approximately 25 to 30 days. The preliminary results noted above are subject to revision.

About American Access Technologies, Inc.

American Access Technologies, Inc. manufactures patented zone cabling and wireless enclosures that mount in ceilings, raised floors, and in custom furniture, for routing of telecommunications cabling, fiber optics and wireless solutions to the office desktop. The Company's concept of zone cabling reduces costs for initial network installation and facilitates moves, adds, changes and upgrades for the network installations of today and tomorrow. The Omega Metals division manufactures proprietary products, and also employs state-of-the-art metal fabrication and finishing techniques for public and private companies and U.S. government contractors.
