**PROXY STATEMENT**

**for**

**SPECIAL MEETING OF STOCKHOLDERS**

**to be held October [ ], 2006**

The enclosed proxy is solicited by the Board of Directors of MediciNova, Inc., a Delaware corporation (the "Company") in connection with a Special Meeting of Stockholders to be held at the Northern Trust Tower, 4370 La Jolla Village Dr., Suite 210, San Diego, CA 92122, on [ ], October [ ], 2006, at [ ], Pacific Daylight Time, for the purposes set forth in the accompanying Notice. Unless instructed to the contrary on the proxy, it is the intention of the persons named in the proxy to vote the proxies in favor of an amendment to the Company's Certificate of Incorporation to give effect to a reverse stock split of the common stock of the Company of up to one-for-ten (1:10). The record date with respect to this solicitation is the close of business on August 15, 2006 and only stockholders of record at that time will be entitled to vote at the meeting. The principal executive office of the Company is 4350 La Jolla Village Dr., Suite 950, San Diego, CA 92122, and its telephone number is (858) 373-1500. The shares represented by all validly executed proxies received in time to be taken to the meeting and not previously revoked will be voted at the meeting. This proxy may be revoked by the stockholder at any time prior to its being voted by filing with the Secretary of the Company either a notice of revocation or a duly executed proxy bearing a later date. This proxy statement and the accompanying proxy were mailed to you on or about [ ], 2006.

**OUTSTANDING SHARES; QUORUM; REQUIRED VOTE**

The number of outstanding shares entitled to vote at the meeting is [ ] common shares, par value \$.001 per share, not including [ ] common shares held in treasury. Each common share is entitled to one vote. The presence in person or by proxy at the Special Meeting of the holders of a majority of such shares shall constitute a quorum. There is no cumulative voting. The affirmative vote of the holders of a majority of the total outstanding common shares is necessary to approve the amendment to the Certificate of Incorporation to give effect to a reverse stock split of the common stock of the Company.

Votes shall be counted by the person designated to serve as the inspector of elections. The inspector of elections will canvass the stockholders present in person at the meeting, count their votes and count the votes represented by proxies presented. Abstentions and broker nonvotes are counted for determining the number of shares represented at the meeting for purposes of a quorum, but are deemed not to have voted on the proposal, with the same effect as a vote against the proposal. Broker nonvotes occur when a nominee does not vote on one or more other matters at the meeting because it has not received instructions to so vote from the beneficial owner and does not have discretionary authority to so vote.

## SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information as of July 31, 2006 as to shares of common stock of the Company ( Common Stock ) beneficially owned by: (i) each person who is known by us to own beneficially more than 5% of our Common Stock, (ii) each of our directors, (iii) each of our named executive officers and (iv) all of our directors and executive officers as a group. Ownership information is based upon information furnished by the respective individuals or entities, as the case may be. The percentage of Common Stock beneficially owned is based on 100,764,856 shares outstanding as of July 31, 2006. In addition, shares issuable pursuant to options and warrants which may be exercised within 60 days of July 31, 2006, are deemed to be issued and outstanding and have been treated as outstanding in calculating the percentage ownership of those individuals possessing such interest, but not for any other individual.

Dr. Himawan has named Essex Woodlands Health Ventures as the designee to receive any options Dr. Himawan receives in his capacity as director. Dr. Himawan disclaims beneficial ownership of such shares except to the extent of his pecuniary interest therein.

**PROPOSAL TO AMEND THE CERTIFICATE OF INCORPORATION**

**TO GIVE EFFECT TO A REVERSE STOCK SPLIT**

**OF THE COMMON STOCK OF THE COMPANY**

The Board of Directors is recommending that the stockholders approve an amendment to the Company's Certificate of Incorporation to give effect to a reverse stock split the shares of common stock of the Company of up to one-for-ten (the Reverse Stock Split), with the actual ratio to be determined by the Board of Directors. The shares of common stock of the Company have traded at varying levels of volume and at prices considerably lower than the initial public offering price for some time. For example, from January 1, 2006 through July 31, 2006, the Company's common stock has had an average closing price on the Osaka Securities Exchange of 140 yen per share. The Board of Directors has authorized the Reverse Stock Split to reduce the number of outstanding shares with the expectation that each share will trade at a higher price. The Board of Directors desires a higher trading price per share because it intends that the Company's common stock would meet the requirements for listing on the NASDAQ Global Market so that the Company may apply for listing of its common stock on the NASDAQ Global Market. The NASDAQ Global Market has an initial listing requirement that a Company's common stock must have a minimum bid price per share of \$5.00, as well as meeting certain other requirements. The Board of Directors believes that in order to meet the NASDAQ Global Market's initial listing standards, the Company must implement the Reverse Stock Split.

In asking the stockholders to approve the Reverse Stock Split, the Board is also asking the stockholders to grant to the Board of Directors the authority to set the ratio for the Reverse Stock Split (provided it is not greater than 1:10) immediately prior to the consummation of the Reverse Stock Split. Fluctuations in the market price of the Company's common stock prior to the time that the Company could effect the Reverse Stock Split require that the Board have the flexibility to set the exact ratio of the Reverse Stock Split (provided it is not greater than 1:10) immediately prior to the consummation of the Reverse Stock Split in order to attempt to achieve the objectives of the Reverse Stock Split. The Board will set the ratio for the Reverse Stock Split, delay or abandon the Reverse Stock Split as it determines is advisable considering relevant market conditions from time to time. If the Company is able to complete a significant placement of securities with one or more institutional investors in the foreseeable future, the Company anticipates that it will consult with those institutional investors at the time of the private placement with respect to the appropriate Reverse Stock Split ratio. The Board believes that approval of this discretion, rather than approval of a specific ratio, provides the Board with maximum flexibility to react to current market conditions and to the needs of prospective investors in the Company, and to therefore act in the best interests of the Company and its stockholders. In setting the ratio for the Reverse Stock Split, the intention of the Board is to increase the stock price to a price that will best accomplish the goals of the Reverse Stock Split as discussed above.

Stockholders should recognize that if the Reverse Stock Split is effectuated, they will own the resulting percentage of the number of shares of the Company's common stock they presently own and that there can be no assurance that the market price of the Company's common stock will, in fact, increase correspondingly by a proportional amount following consummation of the Reverse Stock Split or, even if such price does increase proportionately, such post-Reverse Stock Split market price will be sustained. Furthermore, the Company has not formally applied for listing on the NASDAQ Global Market and there is no assurance that any such application, if made, will result in the Company's common stock being listed on the NASDAQ Global Market. Also, the possibility does exist that liquidity could be materially and adversely affected by the reduced number of shares that would be outstanding after the Reverse Stock Split. Consequently, there can be no assurance that the Reverse Stock Split will achieve the desired results that have been outlined above.

Except as a result of the delivery of cash in lieu of any fractional shares that result from the Reverse Stock Split, the Reverse Stock Split, in itself, will not affect any stockholder's percentage holdings in the Company. The Reverse Stock Split is a transaction rather than the first step in a series of transactions and will not cause the Company's common stock to be held of record by fewer than 300 persons.

The authorized capital stock of the Company consists of 200,000,000 shares of common stock and 5,000,000 shares of preferred stock. There will be no change in the number of shares of authorized capital stock

as a result of the Reverse Stock Split. As of July 31, 2006, the Company had 100,764,856 shares issued and outstanding (not including treasury shares). The Reverse Stock Split will reduce this number proportionately based on the ratio of the Reverse Stock Split selected by the Board of Directors.

If the Reverse Stock Split is approved by the Company's stockholders, and if the Board of Directors in its discretion still believes at that time the Reverse Stock Split is in the best interests of the Company and its stockholders, the Company will file an amendment to its Certificate of Incorporation with the Secretary of State of Delaware after the Board of Directors votes in favor of effecting the Reverse Stock Split. A vote in favor of this proposal is a vote to approve any amendment to the Certificate of Incorporation in order to effect the Reverse Stock Split in the form and on the terms to be determined in the sole discretion of the Board, provided such form and such terms are consistent with this Proxy Statement. Because an amendment to the Certificate of Incorporation must be approved under the Delaware General Corporation Law by a majority of the outstanding shares entitled to vote, the Company will only consider an amendment to the Delaware Certificate of Incorporation to have been approved by the stockholders if this proposal is also approved by a majority of the outstanding shares entitled to vote thereon.

The Reverse Stock Split will become effective on the opening of business on the day following the record date stated in the amended Certificate of Incorporation (the "Effective Date") and the stockholders who held shares of the Company's common stock as of the close of business on the record date ("Record Holders") will be notified as soon as practicable after the Effective Date that the Reverse Stock Split has been effected. The Company's transfer agent will act as its exchange agent (the "Exchange Agent") to act for the Record Holders owning shares represented by physical certificates in implementing the exchange of their certificates. Shares held through electronic book entry with Japan Securities Settlement & Custody, Inc. (JSSC) or The Depository Trust Company of New York (DTC) will be automatically adjusted to reflect the effects of the reverse stock split.

As soon as practicable after the Effective Date, Record Holders with physical certificates for shares will be notified and requested to surrender their certificates representing shares of pre-split common stock of the Company ("Old Common Stock") to the Exchange Agent in exchange for certificates representing post-split common stock of the Company ("New Common Stock"). One share of New Common Stock will be issued in exchange for the appropriate number of pre-split shares of Old Common Stock, based on the ratio of the Reverse Stock Split selected by the Board of Directors.

No fractional shares will be created as a result of the Reverse Stock Split. Instead, stockholders who otherwise would be entitled to receive a fractional share will be entitled to receive cash in lieu of the fractional share based upon the closing sales price of our common stock on the effective date of the Reverse Stock Split as reported on the Osaka Securities Exchange. The number of shares which will result in fractional interests cannot be precisely predicted as the Company cannot determine in advance the number of stockholders whose total holdings are not evenly divisible by the number of shares required to effect the Reverse Stock Split, based on the ratio of the Reverse Stock Split selected by the Board of Directors.

For Record Holders of multiple physical certificates, the Company will aggregate the shares. In the case of street name holders, the Company's transfer agent will convert the certificates in accordance with instructions from the street name holders. Any physical certificates for shares of Old Common Stock not so surrendered shall be deemed to represent one share of New Common Stock for the number of shares of Old Common Stock previously represented by such certificate, based on the ratio of the Reverse Stock Split selected by the Board of Directors.

The proposed Reverse Stock Split will also reduce the number of shares of common stock available for issuance under the Company's 2004 Stock Incentive Plan and issuable upon exercise of outstanding stock options and warrants in proportion to the Reverse Stock Split ratio and will effect a proportionate increase in the exercise price of such outstanding stock options and warrants.

Stockholders do not have appraisal rights under Delaware General Corporation Law or under the Company's Certificate of Incorporation in connection with the Reverse Stock Split.

**OTHER MATTERS**

The Board of Directors does not know of any matters other than those mentioned above to be presented to the meeting. If any other matters do come before the meeting, the persons named in the proxy will exercise their discretion in the voting thereof.

**EXPENSES**

All expenses in connection with solicitation of proxies will be borne by the Company. Officers and regular employees of the Company may solicit proxies by personal interview, telephone, facsimile or other means of electronic communication. Brokerage houses, banks and other custodians, nominees and fiduciaries will be reimbursed for out-of-pocket and reasonable expenses incurred in forwarding proxies and proxy statements.
