Cautionary Statements
Some statements in this presentation contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may relate to, among other things, future performance generally, business development activities, future capital expenditures, financing

sources
and
availability
and
the
effects
of
regulation
and
competition.

In addition, this presentation contains certain financial measures, such as EBIT and EBITDA. As required by Securities and Exchange Commission Regulation G, reconciliations of these measures to amounts reported in CONSOL Energy's consolidated financial statements are provided in its quarterly earnings releases.

11

NAPP Pricing Has Converged with CAPP

Source: EIA

Why the convergence?

1. Sulfur disadvantage

no longer exists

2. Stockpiles low in NAPP

3. Met customers

shopping for NAPP coal

Source: EIA
