During the meeting, we will conduct the business described in the Notice of Annual Meeting of Stockholders and Proxy Statement. I hope you will be able to attend.

Stockholders of record will receive a notice with instructions on how to access those documents over the Internet and request a paper copy of our proxy materials, including this proxy statement, our 2009 Annual Report and a form of proxy card. Stockholders whose shares are held in a brokerage account will receive this information and voting instructions from their broker.

Whether or not you plan to attend the Annual Meeting, it is important that you vote by promptly completing, dating, signing and returning your proxy card by mail or fax or following the voting instructions provided by your broker. If you attend the Annual Meeting and decide to vote in person, you may revoke your proxy.

On behalf of the directors, officers and employees of American Electric Technologies, Inc., I thank you for your continued support.

The Corporate Governance and Nominating Committee has no reason to believe that any of the nominees will be unavailable to serve.

Vote Required

The seven nominees who receive the highest number of affirmative votes of the shares present in person or represented by proxy and entitled to vote, a quorum being present, shall be elected as directors. Only votes cast **FOR** a nominee will be counted, except that the accompanying proxy will be voted **FOR** all nominees in the absence of instructions to the contrary. Broker non-votes and proxies marked **withheld** as to one or more nominees will have no effect on the election since only votes for a nominee are counted in order to determine the seven nominees with the highest number of votes.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH OF THE NOMINEES NAMED BELOW.

Nominees of the Board of Directors

The following nominees have been recommended for election by the Corporate Governance and Nominating Committee and the Board of Directors. All of the nominees are currently members of the Board of Directors. Charles M. Dauber, who became President and CEO of the Company in September 2009, was elected by the Board in November 2009. All the other nominees were elected by the stockholders at the 2009 Annual Meeting.

The Board believes that Mr. Dauber provides essential insight and expertise concerning the business, operations and strategies of the Company that is needed for the Board's oversight and decision-making responsibilities.

Director Independence

The Board of Directors discussed and reviewed whether each nominee is independent within the Company's corporate governance guidelines which are consistent with the director independence standards established by the NASDAQ Stock Market. In determining independence, the Board reviews and seeks to determine whether directors have any material relationship with the Company, direct or indirect, which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board reviews business, professional, charitable and familial relationships of the independent directors in determining independence. The Board determined that Peter Menikoff, J. Hoke Peacock II, Howard W. Kelley and Thomas P. Callahan are independent. In determining the independence of Mr. Peacock, the Board considered that M&I utilized Mr. Peacock's law firm for matters which generated \$74,561 in fees and expenses to such firm in 2009. Such arrangement does not reflect on Mr. Peacock's independence under NASDAQ Stock Market listing standards.

Information about the Nominating Process

The Company's Board of Directors has a Corporate Governance and Nominating Committee that undertakes the activities of identifying, evaluating and recommending nominees to serve as Directors. The members of the Corporate Governance and Nominating Committee are J. Hoke Peacock, II (Chairman), Paul Menikoff,

Howard W. Kelley and Thomas P. Callahan. The Board of Directors determined that Messrs. Peacock (Chairman), Menikoff, Kelley and Callahan are considered independent as defined in the listing standards of the NASDAQ Stock Market.

Nomination of Director Candidates by Stockholders

The policy of the Corporate Governance and Nominating Committee is to consider nominations of candidates for membership on the Board of Directors that are submitted by stockholders. Any such recommendations should include the nominee's name and qualifications for Board membership and a consent signed by such candidate to serve as a director if elected and should be directed to Mr. John H. Untereker, Corporate Secretary, American Electric Technologies, Inc., 6410 Long Drive, Houston, TX 77087.

Stockholders who comply with the requirements of our Bylaws with respect to advance written notice of stockholder director nominations at the Annual Meeting, including certain information that must be provided concerning the stockholder and each nominee, may nominate candidates for election as directors at the Annual Meeting by attending the meeting and offering the candidates into nomination at the time of the election of Directors. Director Qualifications

The Corporate Governance and Nominating Committee has not established any minimum qualifications for nomination as a Director of the Company but has identified the following qualities and skills necessary for its Directors to possess:

Integrity

Ability to objectively analyze complex business problems and develop creative solutions

Pertinent expertise, experience and achievement in education, career and community

Familiarity with issues affecting the Company's business

Availability to fulfill time commitment

Ability to work well with other Directors

Commitment to enhancing stockholder value

Identifying and Evaluating Nominees for Directors

Candidates for director may come from a number of sources including, among others, recommendations from current directors, recommendations from management, third-party search organizations, and stockholders. Director candidates are evaluated to determine whether they have the qualities and skills set forth above. Such evaluation may be by personal interview, background investigation and other appropriate means. The Corporate Governance and Nominating Committee does not have a formal policy with regard to the consideration of diversity in identifying director nominees. However, in identifying nominees for director, the Committee does seek to have directors with a diversity of business experience and skills which allow for the expression of diverse viewpoints.

Director Attendance at the Annual Meeting

It is the Company's policy to require all of its Directors to attend the Annual Meeting of Stockholders. All of the Company's directors attended the 2009 Annual Meeting.

Stockholder Communications with the Board

Stockholders may communicate with the Board in writing by addressing mail to Board of Directors c/o John H. Untereker, Corporate Secretary, American Electric Technologies, Inc., 6410 Long Drive, Houston, TX 77087. Any such communication will be distributed to each of the Company's Directors. A communication addressed to any individual Director at the same address will be distributed only to that Director.

The committee's functions include, among other things: (i) to select and replace the Company's independent registered public accounting firm; (ii) to review and approve in advance the scope and the fees of our annual audit and the scope and fees of non-audit services of the independent registered public accounting firm; (iii) to receive and consider a report from the independent registered public accounting firm concerning their conduct of the audit, including any comments or recommendations they might want to make in that connection, and (iv) to review compliance with and the adequacy of our major accounting and financial reporting policies and controls. The Audit Committee met four times during the fiscal year ended December 31, 2009. It currently consists of Messrs. Menikoff (Chairman), Kelley and Callahan. The Board has determined that Messrs. Menikoff, Kelley and Callahan are independent as defined in the listing standards of the NASDAQ Stock Market and that both Mr. Menikoff and Mr. Callahan qualify as an audit committee financial expert as defined in the regulations of the Securities and Exchange Commission. A copy of the Audit Committee charter is available at <http://www.aeti.com>.

Board's Role in Risk Management

The Board and management are in the process of establishing a formal risk management policy providing for the assessment and management of risk factors relating to the Company. The Board of Directors, initially through the Audit Committee, will provide oversight of the implementation and operation of the Company's risk management processes.

Code of Ethics

The Company has adopted a code of business conduct and ethics for its directors, officers and employees. A copy of the code of business conduct and ethics is available at <http://www.aeti.com>.

Attendance at Meetings

During the fiscal year ended December 31, 2009, the Board of Directors held four meetings. No member of the Board of Directors attended fewer than 75% of the meetings of the Board.

Director Compensation

Directors who are not employees of the Company or any of its subsidiaries and who do not have a compensatory agreement providing for service as a director of the Company or any of its subsidiaries receive the following compensation:

Annual retainer for each Director, paid quarterly in advance	\$ 23,000
Additional annual retainer for Committee Chairs of the Compensation Committee and Nominating and Governance Committee	\$ 2,500
Additional annual retainer for Chair of the Audit Committee	\$ 3,500

The Company pays each director's reasonable travel, lodging, meals and other expenses connected with their Board service. During 2009, the Board of Directors voluntarily reduced their retainer by \$1,000 per meeting effective July 1, 2009 in conjunction with the Company's productivity improvement measures.

The Non-Employee Directors' Deferred Compensation Plan provides that eligible directors may elect to defer 50% to 100% of their retainer fees. Each deferral election must be made prior to the year such retainer payment is due and will last for the entire year. Deferral elections may be terminated for the next year. Deferred amounts may be used to acquire our common stock at fair market value on the date each retainer payment would be otherwise paid to an eligible director, to acquire stock units equivalent to the fair market value of our common

stock on the date each retainer payment would be otherwise paid or may be paid in cash following termination of service as a director with interest accruing at the prime rate on such deferred fees.

Directors who are employees and non-employee directors who are not eligible for the foregoing non-employee director compensation receive no separate compensation for director service.

(1) Mr. Menikoff elected to defer payment of \$26,500 of the fees earned and such deferred amounts were credited towards stock units equivalent in value to Company common stock at market price at time that director fees are payable. Stock units are exchanged for equivalent number of shares of common stock six months after separation from service as a director. Mr. Menikoff was credited with 11,857 stock units for service in 2009.

(2) Mr. Schube is President of Acorn Ventures, Inc. Acorn has been engaged by M&I since November 2003 to provide Mr. Schube's services in the areas of corporate and strategic planning, including the services of Mr. Schube as a director of M&I. In November 2007 Mr. Schube, Acorn and the Company entered into an agreement to provide such services to the Company for a monthly retainer of \$5,100 of which \$750 was be subject to the Company's performance as determined by the CEO or the Board of Directors and Mr. Schube did not receive additional fees for service as a director of the Company. The engagement expired on April 30, 2009 at which time Acorn received a final payment of \$19,072. Since that time, Mr. Schube receives the same fee as other non-employee directors.

Certain Relationships and Related Transactions

All related party transactions are required to be reviewed and approved by an independent body of the Board of Directors composed solely of independent directors as defined in NASDAQ Rule 4350(d)(2)(A).

In 2008 we repaid the outstanding indebtedness of M&I to certain of its former stockholders in the amount of \$500,000 plus accrued interest. Arthur G. Dauber, our Chairman and a director, received \$200,000 in principal and approximately \$14,000 in accrued interest.

PROPOSAL NO. 2

TO APPROVE AMENDMENTS TO THE 2007 EMPLOYEE STOCK INCENTIVE PLAN

General

The Board of Directors is seeking approval to the following amendments to the 2007 Employee Stock Incentive Plan (the Plan) at the Annual Meeting:

Addition of 500,000 shares available for issuance under the Plan. The Board is recommending the approval of an additional 500,000 shares for issuance under the Plan for a total authorization of 800,000 shares. As of December 31, 2009 there were awards issued for 167,086 shares under the Plan and 132,914 shares were available for awards under the Plan, including shares which have become available as a result of termination of outstanding awards under the Plan. Upon approval of the Amendments to the Plan an additional 500,000 shares will be available for awards under the Plan.

Increase the limitation on awards granted to an individual participant in any calendar year to 200,000. Section 162(m) of the Internal Revenue Code requires among other things that the maximum number of shares awarded to an individual must be approved by stockholders in order for the awards granted under the plan to be eligible for treatment as performance-based compensation that will not be subject to the \$1 million annual limitation on tax deductibility for compensation paid to specified senior executives. The Board believes it is important to have the ability to grant individual awards greater than the current annual limitation of 15,000 when appropriate to meet the goals of the Plan.

If the stockholders do not approve the amendments the Plan will remain in effect but the Company will not be able to make the additional 500,000 shares available for issuance under the Plan and the 15,000 share limitation on the number of shares which can be awarded to any participant in a calendar year will continue to be applicable to the Plan.

The Plan was originally approved by the stockholders on November 7, 2007. The Board of Directors believes that the Plan has proven to be an important long-term incentive that is critical to enable the Company to attract and retain of qualified personnel and will encourage participants to focus on the long-term growth of stockholder value as well as promoting a closer identity of interest between participants and stockholders of the Company.

Description of the 2007 Employee Stock Incentive Plan

The following is a description of the material features of the 2007 Employee Stock Incentive Plan, as amended.

Eligibility

Awards under the Plan may be granted to employees (including employees who may be directors and officers), independent contractors and consultants of the Company and its subsidiaries. Approximately 75% of our employees are eligible to participate in the Plan.

Shares Subject to the Plan

The Plan currently authorizes the issuance of up to 300,000 shares of the Company's common stock and this will increase to 800,000 shares upon approval of the amendments at the Annual Meeting. In the event of certain changes in the Company's common stock such as recapitalization, reclassification, stock split, combination or exchange of shares, stock dividends or the like, appropriate adjustment will be made in the number and kind of shares available for issuance under the Plan and the purchase price, if any, per share. The Board anticipates that

this authorization will cover stock incentive awards for the two years following the Annual Meeting. The closing price of our common stock on the NASDAQ Stock Market on February 16, 2010 was \$2.20 per share.

Administration

The Plan is administered by the Compensation Committee (the *Committee*) of the Board of Directors of the Company. The Committee has the full and exclusive power to construe, interpret and administer the Plan, including, but not limited to, the authority to designate which eligible participants are to be granted awards and to determine the type of award and the number of shares to be subject thereto and the terms and conditions thereof, consistent with the terms of the Plan. The Committee is also authorized to adopt, amend and revoke rules relating to the administration of the Plan.

Awards Under the Plan

The Plan provides that the Committee may grant or issue stock options, stock appreciation rights, restricted stock, restricted units, performance shares, performance units and stock-based awards pursuant to a written agreement and may contain such terms as the Committee determines. Subject to the provisions of the Plan, the Committee has the sole and complete authority to determine the eligible employees, consultants and advisors for each award. All awards shall be subject to such terms, conditions and restrictions determined by the Compensation Committee and included in the award agreement. Such terms, conditions and restrictions may include provisions related to vesting of awards, and the effect of a participant's termination of employment and change of control of the Company on outstanding awards under the Plan.

Stock Options

Stock Options provide for the right to purchase shares of Company common stock at a specified price as determined by the Committee, provided that the exercise price per share of common stock option may not be less than 100% of the fair market value of a share as of the date the option is granted. Stock options granted under the Plan may be incentive stock options (*ISOs*) that are designed to comply with the provisions of Section 422 of the Internal Revenue Code (the *Code*) and will be subject to restrictions contained in the Code or nonqualified stock options (*NQSOs*). The maximum number of shares of Company common stock that may be issued upon the exercise of ISOs may not exceed the total number of shares available for grant under the Plan as set forth above under *Shares Subject to the Plan*. Stock options may be granted for a term specified by the Committee, provided that no option may be exercisable after ten years from the date of grant. The Committee may accelerate the exercisability of any option or portion thereof at any time. The Committee may provide in the option agreement that all or a part of the shares received by an optionee upon the exercise of a NQSO shall be restricted shares subject to any or all of the restrictions or conditions described below.

Exercise Price. The exercise price for each Option will be determined by the Committee, but will not be less than 100% of the fair market value of a share of common stock on the date of grant. If an ISO is granted to a ten percent stockholder of the Company (as defined in the Plan), the exercise price will be at least 110% of the fair market value of a share on the date of grant.

Exercise of Options. The Committee determines when Options become exercisable and in its discretion may accelerate the vesting of any outstanding Option or extend the term of a NQSO option set to expire prior to ten years from the date of issuance. The means of payment for shares issued upon exercise of an Option are specified in each option agreement. The Plan permits payment to be made by cash, check, wire transfer, other shares of Company common stock and Options issued under the Plan. All payment methods other than payment of cash, check and wire transfer will be subject to such restrictions as may be established by the Committee or applicable law or the rules of any applicable stock exchange. The participant must pay any required tax withholding in cash at the time of exercise or the Company may make other arrangements for the payment of such withholding tax obligations, including withholding compensation otherwise due the participant or utilizing Company Stock due under the award.

Limits on Exercisability. No Option will be exercisable after the expiration of ten years from the date an Option is granted (five years with respect to an ISO held by an Optionee who is a ten percent stockholder of the Company). Options will be exercisable at such times as determined by the Committee. Unless otherwise specified at the time of grant of the Option, an Option will become exercisable as to one-third of the shares in the first year after grant, an additional one-third on the first anniversary of the date of grant and fully exercisable on the second anniversary of the date of grant. An option granted under the Plan will generally expire on the first to occur of: (i) conviction of a felony against the Company (ii) three (3) months after the date of a termination of employment or retention for any reason other than death or (ii) six (6) months after death of the optionee; provided that the Committee may specify in the document governing the option that an Option may be exercisable during a longer period. ISOs held by a participant under the Plan and any other plans of the Company may not become exercisable for the first time during any calendar year in excess of \$100,000.

Stock Appreciation Rights

A stock appreciation right may be granted by the Compensation Committee in its discretion. The grant price for each stock appreciation right shall be determined by the Compensation Committee and shall be specified in the Award agreement, but in no event shall the grant price be less than the fair market value of the shares of common stock of the company on the date the stock appreciation right is granted. The term of the stock appreciation right shall be determined by the Compensation Committee and specified in the Award agreement, which relates to the stock appreciation right. No stock appreciation right will be exercised after the tenth anniversary from the date of its grant. Stock appreciation rights may be exercised subject to the terms and conditions the Compensation Committee imposes. Upon the exercise of a Stock Appreciation Right the participant is entitled to receive Company common stock valued at the time of exercise in the amount of the difference between the grant price of the exercised stock appreciation right and the fair market value of the shares at the time the stock appreciation right is exercised.

Restricted Stock

Shares of common stock may be granted by the Compensation Committee to an eligible employee and made subject to restrictions on sale, pledge or other transfer by the employee for a certain period (the restricted period). All shares of restricted stock will be subject to such restrictions as the Compensation Committee may provide in an Award agreement with the participant, including provisions obligating the participant to forfeit or resell the shares to us in the event of termination of employment. Participant's rights with respect to such shares shall be subject to the restrictions provided in the Award agreement and the Plan.

Restricted Stock Units

A restricted stock unit represents the right to receive from us, on the respective scheduled vesting or payment date for such restricted stock unit, one share of common stock. An award of restricted stock units may be subject to forfeiture provisions and such other terms and conditions as the Compensation Committee may determine, subject to the provisions of the Plan.

Performance Shares and Performance Units

Shares of common stock may be granted by the Compensation Committee to an eligible employee and made subject to the achievement of pre-established performance goals for a specified period following the grant which, depending on the extent to which such performance criteria are met in such performance period, will determine, in the manner set forth in the Award Agreement, the value and/or number of each Performance Share or Performance Unit that will be paid to the Participant. The pre-established performance goals will be based on any or a combination of the following business criteria applied to the Company as a whole, a Company division or a subsidiary: (i) the attainment of certain target levels of, or a specified percentage increase in, revenues, income before income taxes and extraordinary items, net income, earnings before income tax, earnings before interest,

taxes, depreciation and amortization, or a combination of any or all of the foregoing; (ii) the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax profits including, without limitation, that attributable to continuing and/or other operations; (iii) the attainment of certain target levels of, or a specified increase in, operational cash flow; (iv) the achievement of a certain level of, reduction of, or other specified objectives with regard to limiting the level of increase in, all or a portion of, the Company's bank debt or other long-term or short-term public or private debt or other similar financial obligations of the Company, which may be calculated net of such cash balances and/or other offsets and adjustments as may be established by the Committee; (v) the attainment of a specified percentage increase in earnings per share or earnings per share from continuing operations; (vi) the attainment of certain target levels of, or a specified increase in return on capital employed or return on invested capital; (vii) the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax return on stockholders' equity; (viii) the attainment of certain target levels of, or a specified increase in, economic value added targets based on a cash flow return on investment formula; (ix) the attainment of certain target levels in the fair market value of the shares of the Company's common stock; (x) the growth in the value of an investment in the Company's common stock assuming the reinvestment of dividends; and (xi) reducing costs of the Company, as evidenced by meeting or reducing budgeted expenses established by the Company. For purposes of item (i) above, extraordinary items shall mean all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to a corporate transaction (including, without limitation, a disposition or acquisition) or related to a change in accounting principle, all as determined in accordance with standards established by Opinion No. 30 of the Accounting Principles Board.

Stock Awards

Each stock award under the Plan will contain provisions regarding (1) the number of shares subject to such stock award or a formula for determining such number, (2) the purchase price of the shares, if any, and the means of payment for the shares, (3) the performance criteria, if any, and level of achievement versus these criteria that will determine the number of shares granted, issued, retainable and vested, as applicable, (4) such terms and conditions on the grant, issuance, vesting and forfeiture of the shares, as applicable, as may be determined from time to time by the Committee, (5) restrictions on the transferability of the stock award, and (6) such further terms and conditions, in each case not inconsistent with the Plan, as may be determined from time to time by the Committee. Such awards may be granted or sold in respect of past services and other valid consideration, or in lieu of, or in addition to, any cash compensation due to such participant.

New Plan Benefits

No awards have been granted under the Plan as amended. The Company has agreed to issue a restricted stock grant of 35,600 shares to Charles M. Dauber upon approval of the amendments to the Plan at the Annual Meeting. All other future grants of awards, if any, that will be made to eligible participants are subject to the discretion of the Compensation Committee and, therefore, it is not possible to determine the awards under the Plan that will be received by our executive officers and other participants if the amendments to the Plan are approved by the stockholders.

The following table represents the currently determinable new plan benefits or amounts that will be received by or allocated to each of the following under the amended 2007 Employee Stock Incentive Plan and reflects that the restricted stock grant to be made to Charles M. Dauber upon approval of the amendments to the Plan is the only award that is currently determinable:

Amendment, Suspension and Termination

The Plan may be amended, suspended, or terminated at any time or from time to time by the Compensation Committee, provided that (i) no such amendment or modification may, without written consent of the participant, alter or impair any rights or obligations under any outstanding awards under the Plan; and (ii) no amendment will be effective unless approved by the affirmative vote of the holders of a majority of shares of the Company present, or represented, and entitled to vote at a meeting of stockholders of the Company duly held within twelve months of the date of adoption where such amendment will: (a) increase the total number of shares reserved for the issuance under the Plan; or (b) materially change the standards of eligibility under the Plan; (c) materially increase the benefits which may accrue to participants under the Plan; or (d) result in the adoption of a new plan or require the approval of the stockholders under any applicable tax, regulatory or stock market requirement.

Subject to the foregoing, the Compensation Committee may amend, extend, modify or terminate any outstanding award with the participant's written consent at any time prior to payment or exercise in any manner not inconsistent with the terms of the Plan.

Transfer Restrictions

Except as otherwise determined by the Compensation Committee, no award shall be assignable or transferable except by will or the laws of descent and distribution, and no right or interest of any participant shall be subject to any lien, obligation or liability of the participant.

Securities Law Compliance

In the event that the shares to be acquired pursuant to the Plan are not covered by a then current registration statement under the Securities Act of 1933 (the Securities Act), and is not otherwise exempt, such shares will be restricted against transfer to the extent required by the Securities Act and the Compensation Committee may require any participant to represent in writing an intention to invest, rather than distribute, the shares.

Miscellaneous Provisions

The adoption of the Plan will not affect any other compensation or incentive plans in effect for the Company or any subsidiary. Nothing in the Plan guarantees continued employment for any participating employee. The Company and its subsidiaries reserve the right to remove, terminate or discharge any employee at any time and for any reason.

Federal Income Tax Consequences of Stock Options

The following is a brief summary of certain of the federal income tax consequences of certain transactions under the Plan based on federal income tax laws in effect on the date hereof. This summary is not intended to be exhaustive and does not describe state, local or foreign tax consequences.

Tax Consequences to Participants

With respect to a non-qualified stock option (NQSO), in general: (i) no income will be recognized by an optionee at the time an NQSO is granted; (ii) at the time of exercise of an NQSO, ordinary income will be recognized by the optionee in an amount equal to the difference between the option price paid for the shares and the fair market value of the shares if they are nonrestricted on the date of exercise; and (iii) at the time of sale of shares acquired pursuant to the exercise of an NQSO, any appreciation (or depreciation) in the value of the shares after the date of exercise will be treated as either short-term or long-term capital gain (or loss) depending on how long the shares have been held.

With respect to an incentive stock option (ISO), no income generally will be recognized by an optionee upon the grant or exercise of an ISO. However, any excess of the fair market value of the shares at the time of exercise over the option price will be subject to the alternative minimum tax. If no disposition of shares issued to an optionee is made within two years after the date of grant or within one year after the transfer of the shares to the optionee, then upon the sale of the shares any amount realized in excess of the option price will be taxed to the optionee as long-term capital gain and any loss sustained will be a long-term capital loss.

If shares acquired upon the exercise of an ISO are disposed of prior to the expiration of either holding period described above, the optionee generally will recognize ordinary income in the year of disposition in an amount equal to any excess of the fair market value of the shares at the time of exercise (or, if less, the amount realized on the disposition of the shares if a sale or exchange) over the option price paid for the shares. Any further gain (or loss) realized by the optionee generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

Stock Awards

Stock awards will generally be taxed as ordinary income when the participant receives the unrestricted right to the shares in the award. In the event the shares in the award are subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code, the participant will not recognize ordinary income at the time of grant of the award. Instead, the participant will recognize ordinary income on the dates when the stock is no longer subject to a substantial risk of forfeiture, or when the stock becomes transferable, if earlier. The participant's ordinary income is measured as the difference between the amount paid for the stock, if any, and the

fair market value of the stock on the date the stock is no longer subject to forfeiture or becomes transferable. Upon a disposition of such shares by the participant, any difference between the sale price and the amount recognized as taxable income as provided above, is treated as long-term or short-term capital gain or loss, depending on the holding period.

The participant may accelerate his or her recognition of ordinary income, if any, and begin his or her capital gains holding period by timely filing (i.e., within thirty days of the award) an election pursuant to Section 83(b) of the Code. In such event, the ordinary income recognized, if any, is measured as the difference between the amount paid for the stock, if any, and the fair market value of the stock on the date of award, and the capital gain holding period commences on such date. The ordinary income recognized by an employee will be subject to tax withholding by the Company.

Payment of Withholding Taxes

We may withhold from any stock issuances under the Plan, or collect as a condition of payment, any taxes required by law to be withheld. With the Compensation Committee's approval a participant may be allowed to satisfy his or her withholding tax obligation by electing to deliver currently owned shares of common stock or to have us withhold, from the shares the participant would otherwise receive, shares of common stock, in each case having a value equal to the minimum amount required to be withheld.

Tax Consequences to the Company

To the extent that a participant recognizes ordinary income in the circumstances described above, the Company or the subsidiary for which the participant performs services will be entitled to a corresponding deduction provided that, among other things, the income meets the tests of reasonableness, is an ordinary and necessary business expense, is not an excess parachute payment under the Code and is not disallowed by Section 162(m) of the Code.

EQUITY COMPENSATION PLAN INFORMATION

The following table summarizes information about outstanding equity compensation plans as of December 31, 2009.

Equity compensation plans not approved by security holders

Audit Committee's Pre-Approval Policies

The Audit Committee's policy is to pre-approve all audit services and all permitted non-audit services (including the fees and terms thereof) to be provided by the Company's independent registered public accounting firm; provided, however, pre-approval requirements for non-audit services are not required if all such services (1) do not aggregate to more than five percent of total revenues paid by the Company to its independent registered public accounting firm in the fiscal year when services are provided; (2) were not recognized as non-audit services at the time of the engagement; and (3) are promptly brought to the attention of the Audit Committee and approved prior to the completion of the audit by the Audit Committee.

The Audit Committee pre-approved all of the fees described above.

The Audit Committee has considered whether the provision of the above services other than audit services is compatible with maintaining auditor independence.

AUDIT COMMITTEE REPORT

The Audit Committee has reviewed and discussed with the Company's management and Ham, Langston & Brezina, LLP the audited consolidated financial statements of the Company contained in the Company's Annual Report on Form 10-K for the Company's 2009 fiscal year. The Audit Committee has considered whether the provision of services other than audit services is compatible with maintaining auditor independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for its 2009 fiscal year for filing with the SEC.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The primary objectives of our executive compensation program are to:

recruit, retain and motivate skilled and knowledgeable executives;

ensure that executive compensation is aligned with our corporate strategies and business objectives;

promote the achievement of key strategic and financial performance measures by linking incentive compensation to the achievement of measurable corporate and individual performance goals; and

align executives' incentives with the creation of stockholder value.

To achieve these objectives, we expect to maintain our executive compensation at levels which are competitive with those of other companies with which we compete for executive talent. In addition, all our named executive officers will have an annual bonus compensation program providing a cash bonus for achieving corporate and individual goals. We provide our senior executive officers with compensation in the form of equity awards that vest over time in amounts related to achieving specific corporate financial goals, which we believe will help to retain our executives and align their interests with those of our stockholders by allowing the executives to participate in the longer term success of our Company as reflected in stock price appreciation.

Elements of Our Executive Compensation Program

The following elements comprise compensation currently paid to our executive officers:

Base salary. We fix the chief executive officer's base compensation and review his recommendations regarding the base compensation of the executive officers to provide assurance that we are able to hire and retain individuals in a competitive environment and rewards satisfactory individual performance and a satisfactory level of contribution to our overall business goals. At least annually, the Compensation Committee evaluates the base salaries for our executives, together with other components of compensation, and considers adjustments based on an assessment of each executive's performance, competitive compensation trends and their review and consideration of compensation surveys and other information provided by our human resources department or from independent sources. We expect our CEO, as manager of our other senior executives, to keep the Compensation Committee advised as to how our senior executives are performing.

Executive Performance Bonus Program. The performance bonus element of the cash compensation of our executive officers is based upon achievement of Company and individual performance goals recommended by our CEO and approved by our Compensation Committee. The 2010 performance bonus compensation program for our senior executives provides for cash bonus targets ranging from approximately 33% to 48% of base salary. Our CEO is primarily responsible for recommending to the Board of Directors the Company financial objectives and individual performance goals of our senior executives. Targeted Company financial performance must be achieved at the 75% level for that component of the bonus to be earned and must be achieved at the 100% level for the full bonus related to Company financial performance to be earned. Some of each officer's individual performance goals and objectives may require a subjective evaluation and judgment with respect to achievement of these goals. Company performance targets range from 50% to 75% of total bonus with individual goals encompassing the remainder. The Company financial performance element of each executive's bonus is designated in a business area where the executive contributes and may include such performance metrics as earnings of the entire Company or one or more business segments.

Our CEO reviews each senior executive's performance against Company and individual performance goals set for that executive during the previous year. Based on this assessment, the CEO will then recommend to the Compensation Committee what percentage of each executive's target bonus the executive should receive. The Compensation Committee, without the CEO's participation, evaluates the CEO's performance to determine the

CEO's bonus by reviewing the CEO's success in achieving the Company and personal performance goals established by the committee in the prior year.

Equity Incentives. Our equity incentive program is the primary vehicle for offering long-term incentives to our employees, including our executive officers. Executives are eligible to receive grants of stock options, restricted stock awards, restricted stock unit awards, stock appreciation rights and other stock-based equity awards at the discretion of the compensation committee. Our 2007 Employee Stock Incentive Plan authorizes the issuance of up to 300,000 shares of our common stock. In 2009 and 2010 certain executives were awarded performance-based restricted stock units. The awards in each year are subject to achievement of performance targets in the year of grant and continued employment to become fully vested.

We believe equity awards provide our executive officers with an incentive to focus on our long-term performance, create an ownership culture among our management team and our employees, and align the interests of our executive officers with those of our stockholders. In addition, the vesting feature of our equity awards is designed to further our objective of executive retention by providing an incentive to our executive officers to remain employed with us during the vesting period. We believe the long-term performance of our business is improved through the grant of stock-based awards so that the interests of our executive officers are aligned with the creation of value for our stockholders. In determining the size of equity grants to our executive officers, our compensation committee will consider our overall performance, the applicable executive officer's performance, the achievement of certain strategic initiatives, the amount of equity previously awarded to the executive officer, and the vesting of such awards, as well as their own business judgment and experiences. The Compensation Committee may also make the receipt of equity incentives subject to the achievement of specific objective Company financial goals.

Grants of equity awards, including those to our named executive officers, are required to be approved by our Compensation Committee. We may grant equity awards to executive officers upon their initial hire and in connection with a promotion. In addition, grants of equity awards may be made from time to time in the discretion of our Compensation Committee and our Board of Directors consistent with our incentive compensation program objectives.

Other Compensation. Each of our executive officers is eligible to participate in our employee benefits programs on the same terms as non-executive employees, including our 401(k), medical, dental and vision care plans. In addition, employees, including executive officers, participate in our life and accidental death and dismemberment insurance policies, long-term and short-term disability plans, employee assistance program, and standard Company holidays.

Tax Considerations. Section 162(m) of the Internal Revenue Code generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our chief executive officer and our four other most highly paid executive officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We generally intend to structure the performance-based portion of our executive compensation, when feasible, to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. Our compensation committee and our board of directors may, in their judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes such payments are appropriate to attract and retain executive talent. To date we have made no compensation payments which did not comply with exemptions in Section 162(m).

Risk Considerations. The Compensation Committee considers whether the Company's compensation policies and practices for both executives and other employees encourage unnecessary or excessive risk taking. Base salaries are not believed to encourage excessive risk taking. The Company's Executive Performance Bonus Programs does focus on achievement of annual Company and/or individual performance goals, but both the Company and individual goals are considered appropriate for achievement without unnecessary and excess risk taking.

CEO Compensation. In connection with the CEO transition plan the Company entered into an employment agreement with Charles M. Dauber for his services as President and CEO of the Company. The Compensation Committee utilized an independent compensation consultant to assist it in setting Mr. Dauber's salary. Such consultant has provided no other services to the Company or the Compensation Committee and was paid a flat fee of \$1,000 for its services. The Compensation Committee believes the compensation package for Mr. Dauber is reasonable based upon Mr. Dauber's experience, duties and responsibilities and the contributions made and expected to be made by him to the Company.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the foregoing Compensation Discussion and Analysis. Based upon this review and discussion, the Compensation Committee recommended to the Board of Directors that such Compensation Discussion and Analysis be included in the Proxy Statement for the Company's 2010 Annual Meeting of Stockholders.

Respectfully submitted,

Howard W. Kelley (Chairman)

Employment agreements with named executive officers

With the approval of the Compensation Committee, the Company has entered into employment agreements with three of its named executive officers. These employment agreements are intended to provide each executive with job security for the term of the agreement by specifying the reasons pursuant to which their employment may be terminated by the Company and provide them with certain compensation and benefits upon termination of employment or a change in control of the Company. These employment agreements also protect the Company's interests following termination of employment by prohibiting the executives from engaging directly or indirectly in competition with the Company, from soliciting any employees, or from disclosing confidential Company information.

John H. Untereker has an employment agreement with the Company which provides for his employment to December 31, 2011 at an annual salary of \$167,500 and an expected annual bonus of \$80,000 which is dependent upon the Company meeting its annual budget and which may be greater or lesser as determined by the board of directors. The agreement also provides for a \$700 per month automobile allowance and participation in the other benefit programs available to the Company's executives. In the event Mr. Untereker's employment is terminated by the Company other than for cause or resignation, his base salary and medical plan participation will continue monthly for up to one year or commencement of other employment, whichever occurs earlier. In the event Mr. Untereker's employment is terminated after a change of control of the Company he will be entitled to payment of two years' salary and expected bonus, vesting of any unvested equity options and payment of COBRA health insurance premiums for eighteen (18) months after his employment ends.

Charles M. Dauber has an employment agreement with the Company which provides for his employment to December 31, 2011 at an annual salary of \$225,000 for the year ending December 31, 2010 and \$240,000 for the year ending December 31, 2011, a \$800 per month automobile allowance and participation in the other benefit programs available to the Company's executives. Mr. Dauber is also entitled to an expected annual bonus of \$100,000 for 2010 and 2011 which is dependent upon the Company meeting its annual budget and operating plan objectives and which may be greater if performance is above operating plan objectives at the discretion of the Board of Directors. The agreement provides for a restricted stock grant of 15,000 shares of the Company's common stock on January 1, 2010 and an additional 35,000 shares upon stockholder approval of an amendment to the Company's Employee Stock Incentive Plan plus an additional number of shares sufficient to compensate for the delay in the grant of the 35,000 shares of Company stock from January 1, 2010 until such shares are granted. All such restricted stock will vest over a four-year period in accordance with the Company's Employee Stock Incentive Plan. In the event Mr. Dauber's employment terminates other than for cause or resignation, his base salary and medical plan participation will continue monthly for up to twelve months or commencement of other employment, whichever occurs earlier. In the event Mr. Dauber's employment terminates after a change of control of the Company he will be entitled to payment of two years' salary and expected bonus, vesting of any unvested equity options and payment of COBRA health insurance premiums for eighteen (18) months after his employment ends.

Arthur G. Dauber has an employment agreement with the Company which provides for his employment to December 31, 2011 at an annual salary of \$180,000 for the year ending December 31, 2010 and \$120,000 for the year ending December 31, 2011, a \$700 per month automobile allowance and participation in the other benefit programs available to the Company's executives. In the event Mr. Dauber's employment terminates other than for cause or resignation, his base salary and medical plan participation will continue monthly for up to twelve months or commencement of other employment, whichever occurs earlier. In the event Mr. Dauber's employment terminates after a change of control of the Company he will be entitled to payment of salary and payment of COBRA health insurance premiums for up to twelve months or commencement of other employment, whichever occurs earlier.

Our other named executive officers are at will employees and are eligible to receive employee benefits generally available to all employees of the subsidiary by which they are employed and other benefits approved by the Compensation Committee.

In February 2010, the Compensation Committee of the Board of Directors established 2010 salary and target bonus applicable to the named executive officers as follows:

Named Executive	2010	2010
	Base Salary(\$)	Target Bonus(\$)
Arthur G. Dauber	180,000	---
John H. Untereker	168,400	61,875
Neal T. Hare	176,400	61,875
James J. Steffek	176,400	61,875
Charles M. Dauber	225,000	100,000
Timothy C. Adams	150,000	23,250

Actual bonus amounts payable to each executive will be based on the achievement of 2010 Company and individual performance goals established for each executive. Targeted performance must be achieved at the 75% level for that component of the bonus to be earned and must be achieved at the 100% level for the full bonus to be earned. Some of each executive's individual goals may require a subjective evaluation and judgment with respect to achievement of these goals. Company performance targets range from 50% to 75% of total bonus with individual goals encompassing the remainder.

In connection with the 2010 salary and target bonus established for the named executive officers, the following named executive officers were awarded restricted stock units under the 2007 Employee Stock Incentive Plan. Each restricted stock unit is issued one share of common stock upon vesting:

Named Executive	Restricted Stock Units
John H. Untereker	18,000
Charles M. Dauber	50,000
Timothy C. Adams	12,000

Vesting of a portion of such awards is subject to achievement of the 2010 Company and individual performance goals established for each executive, 9,600 for Mr. Adams, 14,400 for Messrs. Dauber and Untereker, and each award is subject to further vesting based on continued employment over a four year period from the date of grant.

Supplemental Senior Management Performance Bonus Program for Fiscal 2010. In February 2010 the Compensation Committee approved a Supplemental Senior Management Performance Bonus Program for Fiscal 2010. This program provides a bonus pool of 20% of the Company's 2010 Consolidated Net Income (net of bonus payments under this plan) in excess of \$2,900,000 (net of the bonus pool) but such bonus pool shall not be more than \$2,500,000. Any such bonus pool shall be payable 34% to Charles M. Dauber and 22% each to Messrs. Untereker, Steffek and Hare. Each participant may elect to receive such bonus in the form of restricted stock units (RSUs) or non-qualified stock options (NQSOs) issued under our 2007 Employee Stock Incentive Plan. Any such election must be made prior to June 30, 2010. The number of RSUs earned will be calculated at 1.33 of the bonus allocation divided by the closing price of our common stock on the last trading day prior to the election. The number of NQSOs earned will be calculated at 1.98 of the bonus allocation divided by the closing price of our common stock on the last trading day prior to the election and this closing price shall also be the exercise price of the NQSOs. The RSUs and NQSOs will require additional service with 25% additional vesting per year beginning one year from the date of election. Cash bonus payments will be made by March 15, 2011.

Under a supplemental cash incentive program adopted for six of our key operating managers, including Timothy C. Adams, for fiscal 2010 Mr. Adams may earn a bonus of 5% of the amount achieved over the 2010 budgeted profit goal of the American Access segment, net of the bonus payment, subject to the Company meeting its overall 2010 profit goal.
