NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying condensed consolidated financial statements include the accounts of CSB Bancorp, Inc. and its wholly-owned subsidiaries, The Commercial and Savings Bank (the Bank) and CSB Investment Services, LLC (together referred to as the Company or CSB). All significant intercompany transactions and balances have been eliminated in consolidation.

The condensed consolidated financial statements have been prepared without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the Company's financial position at September 30, 2011, and the results of operations and changes in cash flows for the periods presented have been made.

Certain information and footnote disclosures typically included in financial statements prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) have been omitted. The Annual Report for CSB for the year ended December 31, 2010, contains consolidated financial statements and related footnote disclosures, which should be read in conjunction with the accompanying consolidated financial statements. The results of operations for the periods ended September 30, 2011 are not necessarily indicative of the operating results for the full year or any future interim period.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-02, *Receivables (Topic 310): A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring*. The amendments in this Update provide additional guidance or clarification to help creditors in determining whether a creditor has granted a concession and whether a debtor is experiencing financial difficulties for purposes of determining whether a restructuring constitutes a troubled debt restructuring. The amendments in this Update are effective for the first interim or annual reporting period beginning on or after June 15, 2011, and should be applied retrospectively to the beginning annual period of adoption. As a result of applying these amendments, an entity may identify receivables that are newly considered impaired. For purposes of measuring impairment of those receivables, an entity should apply the amendments prospectively for the first interim or annual period beginning on or after June 15, 2011. The Company has provided the necessary disclosures in Note 3.

In April 2011, the FASB issued ASU 2011-03, *Reconsideration of Effective Control for Repurchase Agreements*. The main objective in developing this Update is to improve the accounting for repurchase agreements (repos) and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The amendments in this Update remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in this Update apply to all entities, both public and nonpublic. The amendments affect all entities that enter into agreements to transfer financial assets that both entitle and obligate the transferor to repurchase or redeem the financial assets before their maturity. The guidance in this Update is effective for the first interim or annual period beginning on or after December 15, 2011 and should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

CSB BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (CONTINUED)

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this Update result in common fair value measurement and disclosure requirements in U.S. GAAP and International Financial Reporting Standards (IFRS). Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The amendments in this Update are to be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011. For nonpublic entities, the amendments are effective for annual periods beginning after December 15, 2011. Early application by public entities is not permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*. The amendments in this Update improve the comparability, clarity, consistency, and transparency of financial reporting and increase the prominence of items reported in other comprehensive income. To increase the prominence of items reported in other comprehensive income and to facilitate convergence of U.S. GAAP and IFRS, the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity was eliminated. The amendments require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income, and the total of comprehensive income. All entities that report items of comprehensive income, in any period presented, will be affected by the changes in this Update. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. For nonpublic entities, the amendments are effective for fiscal years ending after December 15, 2012, and interim and annual periods thereafter. The amendments in this Update should be applied retrospectively, and early adoption is permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In September 2011, the FASB issued ASU 2011-08, *Intangibles - Goodwill and Other Topics (Topic 350), Testing Goodwill for Impairment*. The objective of this update is to simplify how entities, both public and nonpublic, test goodwill for impairment. The amendments in the Update permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. Under the amendments in this Update, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The amendments in this Update apply to all entities, both public and nonpublic, that have goodwill reported in their financial statements and are effective for interim and annual goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if an entity's financial statements for the most recent annual or interim period have not yet been issued or, for nonpublic entities, have not yet been made available for issuance. This ASU is not expected to have a significant impact on the Company's financial statements.

CSB BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 2 SECURITIES (CONTINUED)

The amortized cost and fair value of debt securities at September 30, 2011, by contractual maturity, are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

<i>(Dollars in thousands)</i>	Amortized cost	Fair value
Available-for-sale:		
Due in one year or less	\$ 1,540	\$ 1,543
Due after one through five years	8,009	8,179
Due after five through ten years	20,759	21,400
Due after ten years	52,583	54,078
Total debt securities available-for-sale	\$ 82,891	\$ 85,200

Realized Gains and Losses

The following table shows the proceeds from sales of available-for-sale securities and the gross realized gains and losses on the sales of those securities that have been included in earnings as a result of the sales. Gains or losses on the sales of available-for-sale securities are recognized upon sale and are determined by the specific identification method.

<i>(Dollars in thousands)</i>	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Proceeds	\$ 3,244	\$	\$ 3,244	\$ 3,359
Realized gains	\$ 237	\$	\$ 237	\$ 148
Realized losses				
Impairment losses				
Net securities (losses) gains	\$ 237	\$	\$ 237	\$ 148

At least quarterly, the Company conducts a comprehensive security-level impairment assessment. The assessments are based on the nature of the securities, the extent and duration of the securities, the extent and duration of the loss and management's intent to sell or if it is more likely than not that management will be required to sell a security before recovery of its amortized cost basis, which may be maturity. Management believes the Company will fully recover the cost of these securities and it does not intend to sell these securities and likely will not be required to sell them before the anticipated recovery of the remaining amortized cost basis, which may be maturity. As a result, management concluded that these securities were not other-than-temporarily impaired at September 30, 2011 and has recognized the total amount of the impairment in other comprehensive income, net of tax.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 3 LOANS

The Company grants commercial, commercial real estate, residential and consumer loans primarily to customers in Holmes, Tuscarawas, Wayne, Stark and contiguous counties in north central Ohio.

Loans consist of the following:

<i>(Dollars in thousands)</i>	September 30, 2011	December 31, 2010
Commercial	\$ 85,675	\$ 78,540
Commercial real estate	102,999	104,829
Residential real estate	102,244	108,832
Consumer	6,429	6,715
Construction & Land Development	16,416	16,515
Total loans before deferred costs	313,763	315,431
Deferred loan costs	217	216
Total Loans	\$ 313,980	\$ 315,647

Loan Origination/Risk Management

The Company has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews and approves these policies and procedures on a regular basis. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentrations of credit, loan delinquencies and non-performing and potential problem loans. Diversification in the loan portfolio is a means of managing risk associated with fluctuations in economic conditions.

Commercial and industrial loans are underwritten after evaluating and understanding the borrower's ability to operate profitably and prudently expand its business. Underwriting standards are designed to promote relationship banking rather than transactional banking. The Company's management examines current and occasionally projected cash flows to determine the ability of the borrower to repay their obligations. Commercial and industrial loans are primarily made based on the identified cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers, however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial and industrial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and usually incorporate the personal guarantees of business owners; however, some short-term loans may be made on an unsecured basis. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts due from its customers.

Commercial real estate loans are subject to underwriting standards and processes similar to commercial and industrial loans, in addition to those of real estate loans. These loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate lending typically involves higher loan principal amounts and the repayment of these loans is generally largely dependent on the successful operation of the property securing the loan or the business conducted on the property securing the loan. Commercial real estate loans may be more adversely affected by conditions in the real estate markets or in the general economy. The properties securing the Company's commercial real estate portfolio are diverse in terms of type which helps reduce the Company's exposure to adverse economic events that affect any single market or industry. Management monitors and evaluates commercial real estate loans based on collateral, geography and risk grade criteria. In addition, management tracks the level of owner-occupied commercial real estate loans versus non-owner occupied loans. At September 30, 2011

approximately 87% of the outstanding principal balances of the Company's commercial real estate loans were secured by owner-occupied properties.

NOTE 3 LOANS (CONTINUED)

With respect to loans to developers and builders that are secured by non-owner occupied properties, the Company generally requires the borrower to have had an existing relationship with the Company and have a proven financial record. Construction loans are underwritten utilizing independent appraisal reviews, sensitivity analysis of absorption and lease rates and financial analysis of the developers and property owners. Construction loans are generally based upon estimates of costs and value associated with the completed project. These estimates may be inaccurate. Construction loans often involve the disbursement of substantial funds with repayment substantially dependent on the success of the ultimate project. Sources of repayment for these types of loans may be pre-committed permanent loans from the Company or other approved long-term lenders, sales of developed property or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their ultimate repayment being sensitive to interest rate changes, governmental regulation of real property, general economic conditions and the availability of long-term financing.

The Company originates consumer loans utilizing a judgmental underwriting process. To monitor and manage consumer loan risk, policies and procedures are developed and modified, as needed, jointly by lenders and loan support personnel. This activity, coupled with relatively small loan amounts spread across many individual borrowers, minimizes risk.

The Company utilizes an independent loan review vendor that reviews and validates the credit risk program on a periodic basis. Results of these reviews are presented to management and the Audit Committee of the Board of Directors. The loan review process complements and reinforces the risk identification and assessment decisions made by lenders and credit personnel, as well as the Company's policies and procedures.

Concentrations of Credit

Nearly all of the Company's lending activity occurs within the State of Ohio, including the four counties of Holmes, Stark, Tuscarawas and Wayne, as well as other markets. The majority of the Company's loan portfolio consists of owner occupied commercial real estate and commercial loans. As of September 30, 2011 and December 31, 2010, there were no concentrations of loans related to any single industry in excess of 6.7% and 6.2% respectively, of total loans.

The following table represents a summary of the activity in the allowance for loan losses for the three and nine months ended September 30, 2011 and 2010:

<i>(Dollars in thousands)</i>	Three Months Ended September 30,		Nine Months Ended September 30,

Note 3 Loans (CONTINUED)**Troubled Debt Restructurings**

The Company has troubled debt restructurings of \$8.6 million as of September 30, 2011, and \$4.1 million as of December 31, 2010, with \$525 thousand and \$22 thousand of specific reserves allocated as of September 30, 2011 and December 31, 2010 respectively to customers whose loan terms have been modified in troubled debt restructurings. At September 30, 2011 \$7.7 million of the loans classified as troubled debt restructurings were performing to modified terms. The remaining \$900 thousand were on nonaccrual status.

Loan modifications that are considered troubled debt restructurings completed during the three-month and nine-month periods ended September 30, 2011 were as follows:

For the Three Months Ended September 30, 2011

<i>(Dollars in thousands)</i>	Number of loans restructured	Pre-Modification Recorded Investment	Post- Modification Recorded Investment
Commercial		\$	\$
Commercial real estate	1	298	298
Residential			
Construction			
Total Restructured Loans	1	\$ 298	\$ 298

For the Nine Months Ended September 30, 2011

Commercial	2	\$ 4,440	\$ 4,445
Commercial real estate			
Residential			
Construction			
Total Restructured Loans	2	\$ 4,440	\$ 4,445

Credit Quality Indicators

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes commercial loans individually by classifying the loans as to credit risk. This analysis includes commercial loans with an outstanding balance greater than \$275 thousand and is performed on an annual basis.

The Company uses the following definitions for risk ratings:

Pass. Loans classified as pass (Acceptable, Low Acceptable or Pass Watch) may exhibit a wide array of characteristics but at minimum represent an acceptable risk to the Bank. Borrowers in this rating may have leveraged but acceptable balance sheet positions, satisfactory asset quality, and stable to favorable sales and earnings trends, acceptable liquidity and adequate cash flow. Loans are considered fully collectible and require an average amount of administration. While generally adhering to credit policy, these loans may exhibit occasional exceptions that do not result in undue risk to the Bank. Borrowers are generally capable of absorbing setbacks, financial and otherwise, without the threat of failure.

Table of Contents

CSB BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 3 Loans (CONTINUED)

Special Mention. Loans classified as special mention have material weaknesses that deserve management's close attention. If left uncorrected, these weaknesses may result in deterioration of the repayment prospects for the loan at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans that do not meet the criteria for special mention, substandard or doubtful classification, when analyzed individually as part of the above described process are considered to be pass rated loans. As of September 30, 2011 and December 31, 2010, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

<i>(Dollars in thousands)</i>	Pass	Special Mention	Substandard	Doubtful	Not Rated	Total
September 30, 2011						
Commercial	\$ 71,305	\$ 7,347	\$ 6,981	\$	\$ 42	\$ 85,675

Total	\$ 121,839	\$ 2,123	\$ 123,962

Loans serviced for others approximated \$49.6 million and \$45.1 million at September 30, 2011 and December 31, 2010, respectively.

NOTE 4 FAIR VALUE MEASUREMENTS

The Company provides disclosures about assets and liabilities carried at fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy are described below:

- Level I: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level II: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by corroborated or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset

or liability.

Level III: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table presents the assets reported on the consolidated statements of financial condition at their fair value as of September 30, 2011 and December 31, 2010, by level within the fair value hierarchy. No liabilities are carried at fair value. As required by the applicable accounting standards, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Equity securities and U.S. Treasury Notes are valued at the closing price reported on

Corporate bonds		992		992
Total debt securities	100	75,048		75,148
Equity securities in financial institutions	56			56
Total available-for-sale securities	\$ 156	\$ 75,048	\$	\$ 75,204

The following table presents the assets measured on a nonrecurring basis on the consolidated balance sheets at their fair value as of September 30, 2011, and December 31, 2010, by level within the fair value hierarchy. Impaired loans and other real estate that are collateral dependent are written down to fair value through the establishment of specific reserves. Premises include a building currently used for storage that has been written down to appraised value. The fair value of mortgage servicing rights is based on a valuation model that calculates the present value of estimated net servicing income. The valuation model incorporates assumptions based on management's best judgment that are significant inputs to the discounting calculations. As a result, these rights are measured at fair value on a nonrecurring basis and are classified within level III of the fair value hierarchy. Techniques used to value the collateral that secure the impaired loans include: quoted market prices for identical assets classified as Level I inputs; and observable inputs employed by certified appraisers for similar assets classified as Level II inputs. In cases where valuation techniques included inputs that are unobservable and are based on estimates and assumptions developed by

management based on the best information available under each circumstance, the asset valuation is classified as Level III inputs.

CSB BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 5 FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

For purposes of the above disclosures of estimated fair value, the following assumptions are used:

Cash and cash equivalents; Accrued interest receivable; Short term borrowings, Accrued interest payable

The fair value of the above instruments is considered to be carrying value.

Securities

The fair value of securities available-for-sale which are measured on a recurring basis are determined primarily by obtaining quoted prices on nationally recognized securities exchanges or matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on securities' relationship to other similar securities.

Loans, net

The fair value for loans is estimated by discounting future cash flows using current market inputs at which loans with similar terms and qualities would be made to borrowers of similar credit quality. Where quoted market prices were available, primarily for certain residential mortgage loans, such market rates were utilized as estimates for fair value. Fair value of non-accrual loans is based on carrying value.

Deposits and Other Borrowed Funds

The fair values of certificates of deposit and other borrowed funds are based on the discounted value of contractual cash flows. The discount rates are estimated using market rates currently offered for similar instruments with similar remaining maturities. Demand, savings, and money market deposit accounts are valued at the amount payable on demand as of quarter end.

The Company also has unrecognized financial instruments at September 30, 2011 and December 31, 2010. These financial instruments relate to commitments to extend credit and letters of credit. The aggregated contract amount of such financial instruments was approximately \$89 million at September 30, 2011 and \$76 million at December 31, 2010. Such amounts are also considered to be the estimated fair values.

The fair value estimates of financial instruments are made at a specific point in time based on relevant market information. These estimates do not reflect any premium or discount that could result from offering for sale at one time the entire holdings of a particular financial instrument over the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Since no ready market exists for a significant portion of the financial instruments, fair value estimates are largely based on judgments after considering such factors as future expected credit losses, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

NOTE 6 BRANCH ACQUISITION

Effective as of the close of business on October 14, 2011, the Bank completed the branch purchase and assumption of liabilities of two branches of Premier Bank & Trust, National Association, (Premier) located in Wooster, Ohio pursuant to the terms of the Office Purchase and Assumption Agreement dated as of June 23, 2011, (the Purchase Agreement). Under the terms and conditions of the Purchase Agreement, the Bank acquired the leasehold and owned real estate and fixed assets located at Premier s two Wooster branches, \$9 million in loans, and assumed total deposits of approximately \$74 million. The Bank paid a 5% premium on all deposit accounts. As a result of this purchase, the two full-service banking offices of Premier located at 305 West Liberty Street and 3562 Commerce Parkway in Wooster, Ohio, became full-service banking offices of the Bank.

The following table summarizes the book values of the assets acquired and liabilities assumed at the date of the branch acquisition. Fair market value adjustments will be made as additional information becomes available.

<i>(dollars in thousands)</i>	October 14, 2011 (Unaudited)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis focuses on the consolidated financial condition of the Company at September 30, 2011 as compared to December 31, 2010, and the consolidated results of operations for the three and nine month periods ended September 30, 2011 compared to the same periods in 2010. The purpose of this discussion is to provide the reader with a more thorough understanding of the consolidated financial statements. This discussion should be read in conjunction with the interim consolidated financial statements and related footnotes.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report are not historical facts but rather are forward-looking statements that are subject to certain risks and uncertainties. When used herein, the terms "anticipates", "plans", "expects", "believes", and similar expressions as they relate to the Company or its management are intended to identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The Company's actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. Risks and uncertainties that could cause or contribute to such material differences include, but are not limited to, general economic conditions, interest rate environment, competitive conditions in the financial services industry, changes in law, governmental policies and regulations, and rapidly changing technology affecting financial services. Other factors not currently anticipated may also materially and adversely affect the Company's results of operations, cash flows and financial position. There can be no assurance that future results will meet expectations. While the Company believes that the forward-looking statements in this report are reasonable, the reader should not place undue reliance on any forward-looking statement.

The Company does not undertake, and specifically disclaims any obligation, to publicly revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events, except as may be required by applicable law.

FINANCIAL CONDITION

Total assets were \$457.8 million at September 30, 2011, compared to \$457.1 million at December 31, 2010, representing an increase of \$0.7 million, or 0.2%. Cash and cash equivalents decreased \$7.5 million, or 15.5%, during the nine-month period ended September 30, 2011, primarily as a result of increases in securities. Securities increased \$10.1 million, or 12.5%, during the first nine months of 2011 as purchases were made within the US government agency portfolio, mortgage-backed securities issued by government sponsored agencies and tax free political subdivisions. Net loans decreased \$1.8 million, or 0.6%, while deposits increased \$1.4 million, or 0.4%, during the nine-month period. Short-term borrowings of securities sold under repurchase agreement increased \$508 thousand and Federal Home Loan Bank (FHLB) advances decreased \$3.6 million, during the period as advances matured and required amortized payments were made on outstanding advances at the FHLB.

Net loans decreased \$1.8 million, or 0.6%, during the nine-month period ended September 30, 2011. Commercial loans including commercial real estate loans increased \$5.4 million, or 2.7%, and home equity lines increased \$2.4 million, or 7.0%, over December 31, 2010. Decreases were recognized in real estate mortgage loans of \$9.7 million, or 12.8% and consumer installment loans of \$328 thousand, or 4.7%. Consumers continued to refinance their mortgage loans for lower long-term rates offered in the secondary market.

Table of Contents

CSB BANCORP, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The allowance for loan losses as a percentage of total loans was 1.31% at September 30, 2011, an increase from 1.28% at December 31, 2010. Outstanding loan balances decreased 0.5% to \$314 million at September 30, 2011 while net charge-offs of \$625 thousand were offset by a provision of \$710 thousand to the allowance for loan losses for the nine-months ended September 30, 2011. Non-performing loans decreased \$1.1 million or 24% from December 31, 2010, with improvement in both the past-due 90 days and still accruing and the non accrual loan categories.

<i>(Dollars in thousands)</i>	September 30, 2011	December 31, 2010	September 30, 2010
Non-performing loans	\$ 3,495	\$ 4,589	\$ 5,246
Other real estate	505	36	163
Allowance for loan losses	4,116	4,031	4,407
Total loans	313,980	315,647	316,909
Allowance: loans	1.31%	1.28%	1.39%
Allowance: non-performing loans	1.2x	0.9x	0.8x

The ratio of gross loans to deposits was 88.5% at September 30, 2011, compared to 89.3% at December 31, 2010. The decrease in this ratio is the result of decreases in loan volume and increases in deposits during the nine-months ended September 30, 2011.

The Company had net unrealized gains of \$2.3 million within its securities portfolio at September 30, 2011, compared to net unrealized gains of \$1.3 million at December 31, 2010. The Company has no exposure to government-sponsored enterprise preferred stocks, collateralized debt obligations or trust preferred securities. The Company holds two issues of nonagency collateralized mortgage obligations that have paid down to \$782 thousand outstanding from an original face value of \$5.5 million. The Company has the ability and intent to hold the securities until the recovery of their cost and there is no significant evidence to support an adverse change in expected cash flows. Management has considered industry analyst reports, sector credit reports and the volatility within the bond market in concluding that the gross unrealized losses of \$86 thousand within the total portfolio as of September 30, 2011, were primarily the result of customary and expected fluctuations in the bond market and not necessarily the expected cash flows of the individual securities. As a result, all security impairments detailed above on September 30, 2011, are considered temporary and no impairment loss relating to these securities has been recognized.

Short-term borrowings increased \$509 thousand from December 31, 2010 and other borrowings decreased \$3.6 million as the Company used cash from interest-earning deposits in other banks to repay required maturities and monthly payments on advances from the FHLB.

Deposits increased \$1.4 million, or 0.4% from December 31, 2010 with non-interest bearing deposits increasing \$2.0 million and interest-bearing deposit accounts decreasing \$0.6 million. By deposit type, increases were recognized in statement savings and passbooks and money market savings accounts for the period ended September 30, 2011.

Total shareholders' equity amounted to \$49.2 million, or 10.7% of total assets, at September 30, 2011, compared to \$47.2 million, or 10.3% of total assets, at December 31, 2010. The increase in shareholders' equity during the nine-months ended September 30, 2011 was due to net income of \$2.9 million and an increase in other comprehensive income of \$646 thousand. Dividends declared of \$1.5 million partially offset the above increases. The Company and its subsidiary bank met all regulatory capital requirements at September 30, 2011.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**RESULTS OF OPERATIONS****Three months ended September 30, 2011 and 2010**

For the quarter ended September 30, 2011, the Company recorded net income of \$999 thousand or \$0.37 per share, as compared to net income of \$882 thousand, or \$0.32 per share for the quarter ended September 30, 2010. The \$116 thousand increase in net income for the quarter was a result of securities gains of \$237 thousand and net interest income increasing \$140 thousand. These gains were partially offset by an increase in noninterest expense of \$294 thousand and an increase in the federal income tax provision of \$43 thousand. Return on average assets and return on average equity were 0.87% and 8.04%, respectively, for the three-month period of 2011, compared to 0.78% and 7.41%, respectively for 2010.

Edgar Filing: CSB BANCORP INC /OH - Form 10-Q

Interest income for the quarter ended September 30, 2011, was \$5.0 million representing a \$201 thousand decrease, or a 3.9% decline, compared to the same period in 2010. This decrease was primarily due to average loan yields declining by 0.20% to 5.33% from 5.53% for the quarter ended September 30, 2011 as compared to the third quarter 2010. Additionally, taxable investment yield declined 0.67% to 3.20% for the quarter ended September 30, 2011 as compared to a taxable investment yield of 3.87% for the third quarter ended September 30, 2010. Interest expense for the quarter ended September 30, 2011 was \$861 thousand, a decrease of \$341 thousand or 28%, from the same period in 2010. The decrease in interest expense occurred primarily due to a decrease of 0.36% in interest rates paid on interest-bearing deposits which decreased from 1.28% in 2010 to 0.92% in 2011.

Table of Contents

CSB BANCORP, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The provision for loan losses for the quarter ended September 30, 2011 was \$240 thousand, compared to a \$238 thousand provision for the same quarter in 2010. The provision for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data, including past charge-offs and current economic trends.

Non-interest income for the quarter ended September 30, 2011, was \$1.0 million, an increase of \$264 thousand, or 33.8%, compared to the same quarter in 2010. Net securities gains increased \$237 thousand for third quarter 2011 as compared to the same quarter in 2010. Fees from trust and brokerage services increased \$19 thousand to \$154 thousand for third quarter 2011 as compared to the same quarter in 2010. Service charges on deposit accounts decreased \$10 thousand or 3.5%, as consumers decreased their usage of overdraft products and maintained higher average deposit balances. Debit card interchange income rose \$23 thousand, or 17.6%, as consumers increased their usage of the product. The gain on the sale of mortgage loans to the secondary market decreased to \$54 thousand for the three month period ended September 30, 2011, from \$62 thousand in the three-month period ended September 30, 2010. Refinancing activity increased during third quarter 2011, as fixed interest rates for loans sold on the secondary market reached new lows for the year.

Non-interest expenses for the quarter ended September 30, 2011 increased \$243 thousand, or 7.6%, compared to the third quarter of 2010. Salaries and employee benefits increased \$105 thousand, or 6.0%. Occupancy and equipment expenses increased \$14 thousand in 2011 over the third quarter of 2010. Other expenses rose \$163 thousand, or 11%, compared to the third quarter 2010. Included in other expense are branch acquisition costs of \$237 thousand that did not occur in 2010 and a reduction in FDIC deposit premium expense for the quarter of \$73 thousand to account for the reduction in bank assessments based on total assets less tangible capital.

Federal income tax expense increased \$42 thousand, or 10%, for the quarter ended September 30, 2011 as compared to the third quarter of 2010. The provision for income taxes was \$444 thousand (effective rate of 30.8%) for the quarter ended September 30, 2011, compared to \$402 thousand (effective rate of 31.3%) for the quarter ended September 30, 2010. The increase in the expense resulted from improved income.

RESULTS OF OPERATIONS

Nine-months ended September 30, 2011 and 2010

Net income for the nine-months ended September 30, 2011, was \$2.9 million or \$1.05 per share, as compared to \$2.5 million or \$0.93 per share during the same period in 2010. Return on average assets and return on average equity were 0.85% and 7.92%, respectively, for the nine-months ended September 30, 2011, compared to 0.77% and 7.25%, respectively for 2010.

Net interest income improved to \$12.1 million for the nine-months ended September 30, 2011, an increase of \$456 thousand or 4% from the same period last year. The provision for loan losses decreased \$286 thousand, or 29%, during the same comparative period. These improvements were partially offset by higher noninterest expenses for the nine-months ended September 30, 2011, as compared to 2010.

Interest income on loans decreased \$226 thousand, or 1.7%, for the nine-months ended September 30, 2011, as compared to the same period in 2010. This decrease was primarily due to an interest rate decrease of 20 basis points for the comparable nine-month periods. Interest income on securities decreased \$202 thousand, or 9%, as the yield on taxable securities decreased 76 basis points due to the sale of mortgage-backed securities at a gain in 2010, accelerated payments within the mortgage-backed

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

securities portfolio and calls within the agency portfolio. Average investment balances increased by \$7.7 million. Interest income on fed funds sold and interest bearing deposits decreased \$10 thousand for the nine-months ended September 30, 2011 as the average fed funds sold volume decreased \$4.9 million, compared to the same period in 2010.

Average Balance Sheet and Net Interest Margin Analysis

<i>(Dollars in thousands)</i>	For the nine-months ended September 30,			
	2011		2010	
	Average balance	Average rate	Average balance	Average rate
ASSETS				
Due from banks-interest bearing	\$ 23,531	0.24%	\$ 28,290	0.24%
Federal funds sold	93	0.06	240	0.13
Taxable securities	74,050	3.26	68,577	4.02
Tax-exempt securities	12,209	5.14	10,026	5.19
Loans	318,420	5.36	312,943	5.56
Total earning assets	428,303	4.71%	420,076	4.94%
Other assets	23,220		22,514	
TOTAL ASSETS	\$ 451,523		\$ 442,590	
LIABILITIES AND SHAREHOLDERS' EQUITY				
Interest bearing demand deposits	\$ 52,541	0.08%	\$ 51,819	0.08%
Savings deposits	84,014	0.25	73,061	0.39
Time deposits	146,661	1.79	149,504	2.16
Other borrowed funds	52,020	1.61	64,206	2.15
Total interest bearing liabilities	335,236	1.11%	338,590	1.45%
Non-interest bearing demand deposits	66,374		55,677	
Other liabilities	1,542		1,486	
Shareholders' Equity	48,371		46,837	
TOTAL LIABILITIES AND SHAREHOLDERS' EQUITY	\$ 451,523		\$ 442,590	
Taxable equivalent net interest spread		3.60%		3.49%
Taxable equivalent net interest margin		3.85%		3.77%

Interest expense decreased \$894 thousand to \$2.8 million for the nine-months ended September 30, 2011, compared to the nine-months ended September 30, 2010. Interest expense on deposits decreased \$487 thousand, or 18%, from the same period as last year, while interest expense on other borrowings decreased \$407 thousand, or 39%. The decrease in interest expense has been caused by lower interest rates being paid across the board on interest-bearing deposit accounts and borrowings. Additionally, during the comparable nine month periods, the Company grew non-interest bearing deposits in 2011. Time deposits continue to renew at lower interest rates, and some depositors have moved monies to savings instruments anticipating higher rate time deposits. Competition for deposits appears to be decreasing from a year ago with larger money center banks reducing the premium paid for term deposits. The net interest margin increased by 8 basis points for the nine-month period ended September 30, 2011, to 3.85%, from 3.77% for the same period in 2010.

Edgar Filing: CSB BANCORP INC /OH - Form 10-Q

The provision for loan losses was \$710 thousand during the first nine months of 2011, compared to \$996 thousand in the same nine-month period of 2010. The provision or credit for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data including past charge-offs and current economic trends.

CSB BANCORP, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Non-interest income increased \$212 thousand, or 8.9%, during the nine-months ended September 30, 2011, as compared to the same period in 2010. The increase in non-interest income was primarily due to increases in trust fees which reflected increases in market values of the custodial assets, as well as increases in brokerage fee commissions in 2011. Debit card interchange income increased \$79 thousand, or 22%, a result of increased card usage in 2011. Service charges on deposits decreased \$41 thousand from the same period in 2010 as deposit customers curtailed their use of overdraft privilege products in 2011, and have maintained higher average deposit balances offsetting monthly service fees.

Gains on mortgage loans sold in the secondary market remained steady for the first nine months of 2011, as compared to the same period in 2010 as refinance activity and new housing sales remained extremely slow in 2011.

Non-interest expenses increased \$478 thousand, or 5%, for the nine-months ended September 30, 2011, compared to the same period in 2010. The bank's FDIC deposit premium decreased \$163 thousand from \$417 thousand reflecting a decrease in rate and accrual for the nine-months ended September 30, 2011, as compared to 2010. Salaries and employee benefits increased \$312 thousand, or 6%, primarily the result of merit increases and benefit accruals. Professional fees increased \$79 thousand, or 17%. Occupancy and equipment expense increased slightly during the first nine-months of 2011, as compared with 2010 increasing \$17 thousand or under 2%. Increases were recognized in other expenses, primarily the result of branch acquisition costs of \$237 thousand that did not occur in 2010.

The provision for income taxes was \$1.3 million (effective rate of 30.8%) for the nine-months ended September 30, 2011, compared to \$1.1 million (effective rate of 30.8%) for the nine-months ended September 30, 2010. The increase in the tax rate resulted from improved income.

CAPITAL RESOURCES

The Board of Governors of the Federal Reserve System (the "Federal Reserve") has established risk-based capital guidelines that must be observed by financial holding companies and banks. Failure to meet specified minimum capital requirements could result in regulatory actions by the Federal Reserve or Ohio Division of Financial Institutions that could have a material effect on the Company's financial condition or results of operations. Management believes there were no material changes to capital resources as presented in the Company's annual report on Form 10-K for the year ended December 31, 2010, and as of September 30, 2011 the Company and the Bank meet all capital adequacy requirements to which they are subject.

LIQUIDITY

Liquidity refers to the Company's ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, pay operating expenses and meet other obligations. The Company's primary sources of liquidity are cash and cash equivalents, which totaled \$40.9 million at September 30, 2011, a decrease of \$7.5 million from \$48.4 million at December 31, 2010. Net income, securities available-for-sale, and loan repayments also serve as sources of liquidity. Cash and cash equivalents and estimated principal cash flow and maturities on investments maturing within one year represent 11.8% of total assets as of September 30, 2011 compared to 15.0% of total assets at year-end 2010. Other sources of liquidity include, but are not limited to, purchase of federal funds, advances from the FHLB, adjustments of interest rates to attract deposits, and borrowing at the Federal Reserve discount window. Management believes that its sources of liquidity are adequate to meet cash flow obligations for the foreseeable future.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements (as such term is defined in applicable Securities and Exchange Commission (the "Commission") rules) that are reasonably likely to have a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the quantitative and qualitative disclosures about market risks as of September 30, 2011, from that presented in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010. Management performs a quarterly analysis of the Company's interest rate risk. All positions are currently within the Company's board-approved policy.

The following table presents an analysis of the estimated sensitivity of the Company's annual net interest income to sudden and sustained 100 through 400 basis point changes, in 100 basis point changes, in market interest rates at September 30, 2011 and 100 and 200 basis point changes in market interest rates at December 31, 2010. Due to the current low interest rate environment, particularly for short-term rates, the decreasing change is not calculated.

ITEM 4T CONTROLS AND PROCEDURES

With the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that:

- (a) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and
- (c) the Company's disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure that material information relating to the Company and its consolidated subsidiary is made known to them, particularly during the period for which the Company's periodic reports, including this Quarterly Report on Form 10-Q, are being prepared.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes during the period covered by this Quarterly Report on Form 10-Q in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1 LEGAL PROCEEDINGS.

In the opinion of management there are no outstanding legal actions that will have a material adverse effect on the company's financial condition or results of operations.

ITEM 1A RISK FACTORS.

There have been no material changes to the Company's risk factors from those disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

ITEM 2 UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On July 7, 2005 CSB Bancorp, Inc. filed Form 8-k with the Securities and Exchange Commission announcing that its Board of Directors approved a Stock Repurchase Program authorizing the repurchase of up to 10% of the Company's common shares then outstanding. Repurchases will be made from time to time as market and business conditions warrant, in the open market, through block purchases and in negotiated private transactions.
