Dear Shareholders:

You are cordially invited to attend the Annual Meeting of Shareholders of Callaway Golf Company, which will be held on Wednesday, May 23, 2012, at Callaway Golf Company's offices, located at 2180 Rutherford Road, Carlsbad, California 92008, commencing at 9:00 a.m. (PDT). A map is provided on the back page of these materials for your reference. Your Board of Directors and management look forward to greeting personally those shareholders who are able to attend.

At the meeting, your Board of Directors will ask shareholders to (i) elect nine directors; (ii) ratify, on an advisory basis, the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm; and (iii) approve, on an advisory basis, the compensation of the Company's named executive officers. These matters are described more fully in the accompanying Proxy Statement, which you are urged to read thoroughly. Your Board of Directors recommends a vote FOR each of the nominees, FOR ratification of the appointment of the Company's independent registered public accounting firm, and FOR the approval of the compensation of the named executive officers.

The Company has elected to take advantage of Securities and Exchange Commission rules that allow issuers to furnish proxy materials to their shareholders by providing access to these documents on the Internet instead of mailing printed copies. Those rules allow the Company to provide its shareholders with the information they need, while lowering the costs of delivery and reducing the environmental impact of the Annual Meeting. Most shareholders will not receive printed copies of the proxy materials unless requested. Instead, you will receive a notice with instructions as to how you may access and review the proxy materials on the Internet and how you may cast your vote via the Internet. If you would like to receive a printed or e-mail copy of our proxy materials, please follow the instructions for requesting the materials in the Notice of Internet Availability previously sent to you.

Your vote is important. Whether or not you plan to attend the Annual Meeting, please vote as soon as possible. If you received notice of how to access the proxy materials via the Internet, a proxy card was not sent to you and you may vote only via the Internet if you do not attend the Annual Meeting or request that a proxy card and proxy materials be mailed to you. If you have requested that a proxy card and proxy materials be mailed to you, and you have received those materials, then instead of voting via the Internet, you may vote by telephone or by mailing a completed proxy card. For specific voting instructions, please refer to the information provided in the following Proxy Statement and in the Notice of Internet Availability previously sent to you.

Thank you for your continued interest in and support of our Company.

Sincerely,

Oliver G. Brewer, III

President and Chief Executive Officer

PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS

Meeting Date: May 23, 2012

GENERAL INFORMATION

Purpose

This Proxy Statement and accompanying proxy card will first be made available to shareholders on the Internet on or about April 11, 2012 in connection with the solicitation of proxies by the Board of Directors of Callaway Golf Company, a Delaware corporation (the Company). The proxies are for use at the 2012 Annual Meeting of Shareholders of the Company, which is scheduled to be held on Wednesday, May 23, 2012, at Callaway Golf Company, located at 2180 Rutherford Road, Carlsbad, California 92008, commencing at 9:00 a.m. (PDT), and at any meetings held upon adjournment or postponement thereof (the Annual Meeting). The record date for the Annual Meeting is the close of business on March 26, 2012 (the Record Date). Only holders of record of the Company's common stock, \$.01 par value per share (the Common Stock), on the Record Date are entitled to notice of the Annual Meeting and to vote at the Annual Meeting.

Voting and Quorum

The Board of Directors is soliciting your proxy to vote on all matters scheduled to come before the Annual Meeting. By completing and returning the proxy card or voting instruction card, or by transmitting your voting instructions by telephone or via the Internet, you are authorizing the proxy holders to vote your shares at our annual meeting as you have instructed. Whether or not you plan to attend the Annual Meeting in person, please return a proxy indicating how you wish your shares to be voted as promptly as possible. If you received notice of how to access the proxy materials via the Internet, a proxy card was not sent to you and you may vote only via the Internet if you do not attend the Annual Meeting or request that a proxy card be mailed to you. If you have received a proxy card, you may return a proxy either by voting through the Internet or telephone or by signing, dating and returning a proxy card. Please follow the accompanying instructions. Any shareholder who returns a proxy has the power to revoke it at any time prior to its effective use either by filing with the corporate secretary of the Company a written instrument revoking it, or by returning (by mail, if applicable, telephone or Internet) another later-dated proxy, or by attending the Annual Meeting and voting in person. If you sign and return your proxy but do not indicate how you want to vote your shares for each proposal, then for any proposal for which you do not so indicate, your shares will be voted at the Annual Meeting in accordance with the recommendation of the Board of Directors.

The Board of Directors recommends a vote **FOR** each of the nominees for election as director as set forth in this Proxy Statement, **FOR** ratification, on an advisory basis, of the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2012, and **FOR** the approval, on an advisory basis, of the compensation of the named executive officers. By returning the proxy (either by mail, if applicable, telephone or Internet), unless you notify the corporate secretary of the Company in writing to the contrary, you are also authorizing the proxies to vote with regard to any other matter that may properly come before the Annual Meeting or any adjournment or postponement thereof. The Company does not currently know of any such other matter. If there are any such additional matters, the proxies will vote your shares in accordance with the recommendation of the Board of Directors.

As of the Record Date, there were 65,029,855 shares of the Company's Common Stock issued and outstanding and no other securities of the Company entitled to vote at the meeting were outstanding. Under Delaware law and the Company's Bylaws, the holders of a majority the Company's Common Stock issued and outstanding and entitled to vote at the Annual Meeting, present in person or represented by proxy, constitutes a quorum for the transaction of business at the Annual Meeting. The inspector of election will determine whether a quorum is present.

Holders of Common Stock have one vote for each share on any matter that may be presented for consideration and action by the shareholders at the Annual Meeting, except that shareholders have cumulative voting rights with respect to the election of directors. Cumulative voting rights entitle each shareholder to cast as many votes as are equal to the number of directors to be elected multiplied by the number of shares owned by such shareholder, which votes may be cast for one candidate or distributed among two or more candidates. A shareholder may exercise cumulative voting rights by indicating on the proxy card the manner in which such votes should be allocated (Internet and telephone voting cannot accommodate cumulative voting). The nine nominees for director receiving the highest number of votes at the Annual Meeting will be elected. Returning a proxy giving authority to vote for the nominees named in this Proxy Statement will also give discretion to the designated proxies to cumulate votes and cast such votes in favor of the election of some or all of the applicable director nominees in their sole discretion.

If your shares are registered directly in your name with our transfer agent, Computershare, you are the shareholder of record of those shares and our proxy materials have been made available to you by us. If your shares are held in a stock brokerage account, by a bank, broker, trustee, or other nominee, you are considered the beneficial owner of shares held in street name and our proxy materials are being forwarded to you by your bank, broker, trustee or nominee that is considered the owner of record of those shares. As the beneficial owner, you have the right to direct your bank, broker, trustee or nominee on how to vote your shares.

Under the rules of the New York Stock Exchange (NYSE), brokers who hold shares in street name for customers do not have the authority to vote on certain items when they have not received instructions from beneficial owners (broker non-votes). If you give your broker instructions, your shares will be voted as directed. If you do not give your broker instructions and the proposal is considered routine, brokers are generally permitted to vote your shares in their discretion. The ratification, on an advisory basis, of the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm will be considered routine. The election of directors and the approval, on an advisory basis, of the compensation of the named executive officers will not be considered routine and therefore brokers will not have discretionary authority to vote on these proposal.

Abstentions may be specified for all proposals except the election of directors. Abstentions and broker non-votes are counted for purposes of determining a quorum. Abstentions are counted in the tabulation of votes cast and have the same effect as voting against a proposal. Broker non-votes are not considered as having voted for purposes of determining the outcome of a vote.

Solicitation of Proxies

The cost of preparing, assembling, printing and mailing this Proxy Statement and the accompanying proxy card, the Notice of Internet Availability, and the cost of soliciting proxies relating to the Annual Meeting, will be borne by the Company. The Company may request banks and brokers to solicit their customers who beneficially own Common Stock listed of record in the name of such bank or broker or other third party, and the Company will reimburse such banks, brokers and third parties for their reasonable out-of-pocket expenses for such solicitations. The solicitation of proxies by mail may be supplemented by telephone, facsimile, Internet and personal solicitation by directors, officers and other employees of the Company, but no additional compensation will be paid to such individuals. The Company has retained the firm of Alliance Advisors LLC to assist in the solicitation of proxies for a base fee of approximately \$5,500, plus out-of-pocket expenses.

Householding

With regard to the delivery of annual reports and proxy statements, under certain circumstances the Securities and Exchange Commission (SEC) permits the Company to send a single set of such proxy materials or, where applicable, one Notice of Internet Availability, to any household at which two or more shareholders reside if they appear to be members of the same family (unless otherwise requested by one or more of such shareholders). Each shareholder, however, still receives a separate proxy card if they receive paper copies. This procedure, known as householding, reduces the amount of duplicate information received at a household and reduces mailing and printing costs as well. This year, the Company will be mailing primarily Notices of Internet Availability and only a small number of printed copies of the annual report and proxy statement to parties that have requested paper copies.

A number of banks, brokers and other firms have instituted householding and have previously sent a notice to that effect to certain of the Company's beneficial shareholders whose shares are registered in the name of the bank, broker or other firm. As a result, unless the shareholders receiving such notice gave contrary instructions, only one annual report and one annual proxy statement or one Notice will be mailed to an address at which two or more such shareholders reside. If any shareholder residing at such an address wishes to receive a separate annual report or annual proxy statement in the future, such shareholder should telephone the householding election system (toll-free) at 1-800-542-1061. In addition, (i) if any shareholder who previously consented to householding desires to receive a separate copy of the annual report or annual proxy statement for each shareholder at his or her same address, or (ii) if any shareholder shares an address with another shareholder and both shareholders of such address desire to receive only a single copy of the annual report or annual proxy statement, then such shareholder should contact his or her bank, broker or other firm in whose name the shares are registered or contact the Company as follows: Callaway Golf Company, ATTN: Investor Relations, 2180 Rutherford Road, Carlsbad, CA 92008, telephone (760) 931-1771.

Other Matters

The main purpose of the Annual Meeting of Shareholders is to conduct the business described in this Proxy Statement. On some occasions in the past, the Company has chosen to expand the scope of the meeting to include presentations on portions of the Company's business and to conduct a question and answer session with the Company's leadership. At the upcoming Annual Meeting, it is the Company's intention to have a brief presentation by the Chief Executive Officer after the completion of all business, followed by a short question and answer period. Due to legal and practical constraints, including regulations regarding the selective disclosure of material information, and consistent with the fact that the main purpose of the Annual Meeting is to conduct the necessary business of the Company, a significant, substantive presentation on the Company's current or expected performance is not planned.

BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Introduction

Corporate governance is the system by which corporations ensure that they are managed ethically and in the best interests of the Company's shareholders. The Company is committed to maintaining high standards of corporate governance. A copy of the Company's Corporate Governance Guidelines is available on the Company's website at www.callawaygolf.com under Investor Relations - Corporate Governance.

One of the most important aspects of corporate governance is the election of a Board of Directors to oversee the operation of the business and affairs of the Company. The Company's Bylaws provide that the Company's directors shall be elected at each annual meeting of shareholders. As a result, as discussed below, the first proposal the shareholders will be asked to vote upon at the Annual Meeting is the election of the nine nominees named in this Proxy Statement as directors to serve until the 2013 annual meeting of shareholders and until their successors are elected and qualified.

In today's business environment, the selection of a qualified independent auditor has become a key aspect of corporate governance. The Board of Directors has asked that shareholders ratify, on an advisory basis, the Audit Committee's selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2012.

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), the shareholders of the Company are entitled to approve, on an advisory basis, the compensation of the Company's named executive officers, as disclosed in this Proxy Statement. Pursuant to the Dodd-Frank Act, this shareholder vote is advisory only and is not binding on the Company, its Board of Directors or the Compensation and Management Succession Committee. Although the vote is non-binding, the Compensation and Management Succession Committee and the Board of Directors value your opinions and will consider the outcome of the vote in establishing our compensation philosophy and in making future compensation decisions.

Independence

The Company's Bylaws and Corporate Governance Guidelines provide that a substantial majority of the Company's directors must be independent. A director is independent only if the director is not an employee of the Company and the Board has determined that the director has no direct or indirect material relationship to the Company. To be independent, a director must also satisfy any other independence requirements under applicable law or regulation and the listing standards of the New York Stock Exchange (NYSE). In evaluating a particular relationship, the Board considers the materiality of the relationship to the Company, to the director and, if applicable, to an organization with which the director is affiliated. To assist in its independence evaluation, the Board adopted categorical independence standards, which are listed on Exhibit A attached to the Company's Corporate Governance Guidelines, which are available on the Company's website at www.callawaygolf.com under Investor Relations - Corporate Governance. Compliance with these internal and NYSE independence standards is reviewed at least annually. The Board has determined that each of the eight current non-management directors is independent. Oliver G. Brewer, III, the Company's President and Chief Executive Officer, is the only current director who is not independent. Therefore, a substantial majority of the members of the Board are independent.

Director Qualifications

The Nominating and Corporate Governance Committee is responsible, among other things, for developing and recommending to the Board criteria for Board membership and for identifying and recruiting potential Board candidates based on the identified criteria in the context of the Board as a whole and in light of the Board's needs at a particular time. The Nominating and Corporate Governance Committee has worked with the Board of Directors to identify certain minimum criteria that every director must meet: (1) a director must exhibit very high

personal and professional ethics, integrity and values; (2) a director must not have any conflicting interest that would materially impair his or her ability to discharge the fiduciary duties of a director; (3) a director must be committed to the best interests of the Company's shareholders and be able to represent fairly and equally all shareholders without favoring or advancing any particular shareholder or other constituency; and (iv) a director must be able to devote adequate time to his or her service as a director. A potential candidate will not be considered for a directorship unless he or she satisfies these threshold criteria.

In addition to these minimum threshold criteria, the Board of Directors believes that the Board, as a whole, should possess a combination of skills, professional experience, and diversity of backgrounds necessary to oversee the Company's business. In this regard, the Board of Directors has determined that one or more Board members, among other things, should (i) be currently serving as an active executive of another corporation, (ii) have prior experience as a Chief Executive Officer or an operating executive with significant responsibility for operating results, (iii) have public company executive experience, (iv) have public company Board experience, (v) have corporate governance experience, (vi) have executive compensation experience, and (vii) have consumer products experience. The Board also believes that at least one or more members should have functional expertise in each of finance, accounting, legal matters, investment banking, technology, manufacturing, international business, research and development, strategic planning, consumer sales and marketing experience, retail business experience, and mergers and acquisitions. Potential candidates are evaluated based upon the factors described above as well as their independence and relevant business and industry experience.

The Nominating and Corporate Governance Committee works with the Board of Directors to evaluate annually the composition of the Board to assess the skills and experience that are currently represented on the Board, as well as the skills and experience that the Board will find valuable in the future, given the Company's current situation and strategic plans. This annual evaluation of the Board's composition enables the Board to update the skills and experience it seeks in the Board as a whole, and in individual directors, as the Company's needs evolve and change over time. In identifying director candidates from time to time, the Board or Nominating and Corporate Governance Committee may establish specific skills and experience that it believes the Company should seek in order to constitute a balanced and effective board. In addition, although the Board of Directors does not have a formal policy regarding diversity, the Board of Directors believes that ethnic, gender, and cultural diversity among Board members can provide distinct value and is important. In considering potential new candidates, the Board does consider whether the potential Board member would increase the ethnic, gender, or cultural diversity of the Board members.

Identification of Potential Candidates

The Nominating and Corporate Governance Committee uses a variety of methods for identifying director candidates, including professional search firms and recommendations from the Company's officers, directors, shareholders or other persons. If a shareholder believes that he or she has identified an appropriate candidate who is willing to serve on the Company's Board of Directors, the shareholder may submit a written recommendation to the Chair of the Nominating and Corporate Governance Committee c/o the Company's Corporate Secretary at 2180 Rutherford Road, Carlsbad, California 92008. Such recommendation must include detailed biographical information concerning the recommended candidate, including a statement regarding the candidate's qualifications. The Nominating and Corporate Governance Committee may require such further information and obtain such further assurances concerning the recommended candidate as it deems reasonably necessary. The Nominating and Corporate Governance Committee will review properly submitted shareholder candidates in the same manner as it evaluates all other director candidates. In addition to bringing potential qualified candidates to the attention of the Nominating and Corporate Governance Committee as discussed above, a nomination of a person for election to the Board of Directors at an annual meeting of shareholders may be made by shareholders who meet the qualifications set forth in the Company's Bylaws and who make such nominations in accordance with the procedures set forth in the Company's Bylaws, including the procedures described under the heading "Shareholder Proposals" in this Proxy Statement.

Nomination Process

The Nominating and Corporate Governance Committee believes that the continuing service of qualified incumbents promotes stability and continuity among the Board of Directors and contributes to the Board's ability to function effectively. The continuing service of qualified incumbents also provides the Company with the benefit of the familiarity with and insight into the Company's affairs that its directors have accumulated during their tenure. As a result, in considering candidates for nomination for each annual meeting of shareholders, the Committee first considers the Company's incumbent directors who desire to continue their service on the Board. The Committee will generally recommend to the Board an incumbent director for re-election if the Committee has determined that (i) the incumbent director continues to satisfy the threshold criteria described above, (ii) the incumbent director has satisfactorily performed his or her duties as a director during the most recent term and (iii) there exists no reason why, in the Committee's view, the incumbent director should not be re-elected. If a vacancy becomes available on the Board of Directors as a result of the death, resignation or removal of an incumbent director or as a result of action taken by the Board to increase the size of the Board, the Committee proceeds to identify candidates who meet the required criteria and attributes.

Majority Vote Policy

The Company's Corporate Governance Guidelines set forth the Company's procedure regarding a director who is elected but receives a majority of withheld votes. In an uncontested election of directors, any nominee who has a greater number of votes withheld from his or her election than votes for such election (a Majority Withheld Vote) is required to submit in writing an offer to resign. The Nominating and Corporate Governance Committee would consider, among other things, the reasons for the Majority Withheld Vote and make a recommendation to the Board of Directors whether or not to accept the resignation offer. The Board of Directors would consider the recommendation of the Nominating and Corporate Governance Committee and would determine whether to accept the resignation. The Board of Directors would disclose the basis for its determination. Full details of this procedure are set forth in the Company's Corporate Governance Guidelines, posted on its website at www.callawaygolf.com under Investor Relations Corporate Governance.

Board Leadership Structure

The Board of Directors believes that strong, independent Board leadership is a critical aspect of effective corporate governance. As a result, the Board either appoints a Chairman of the Board who is an independent director or appoints a lead independent director if the Chairman of the Board is not independent (e.g. when the Chairman is also the Chief Executive Officer). The independent Chairman or the lead independent director, as the case may be, works with the CEO to set the Board's work program and meeting agendas, coordinates the activities of the independent directors, serves as a liaison between the Chief Executive Officer and the independent directors, and presides at the executive sessions (without management) of the independent directors.

The Company currently separates the positions of Chairman and Chief Executive Officer. Separating these positions and having the Chairman lead the Board in its oversight responsibilities enables the Company's Chief Executive Officer to focus on day-to-day business and his other responsibilities. Currently, Mr. Beard, who is an independent director, is serving as Chairman of the Board and the Company therefore does not have a director with the title of lead independent director. A copy of the Charter for the Chairman position is available at the corporate governance section of the Company's website at www.callawaygolf.com under Investor Relations Corporate Governance Board Membership.

Risk Oversight

The Company's Board of Directors oversees an enterprise-wide approach to risk management and works with the Audit Committee and management in executing its oversight responsibility for risk management. The Board generally oversees risks related to the Company's strategic and operational objectives and is responsible for overseeing the amounts and types of risks taken by management in executing those objectives. In addition,

the Board of Directors has delegated to the Audit Committee the responsibility for oversight of certain of the Company's risk oversight and compliance matters, including oversight of (i) material legal proceedings and material contingent liabilities, (ii) the Company's policies regarding risk assessment and management, (iii) the Company's compliance programs with respect to legal and regulatory requirements and the Company's Code of Conduct, (iv) related party transactions and conflicts of interest, and (v) the establishment of procedures for the receipt and handling of complaints regarding accounting, internal accounting controls and auditing matters.

On a day to day basis, it is management's responsibility to manage risk and bring to the attention of the Board the significant risks facing the Company and the controls in place to manage those risks. As part of this responsibility, each year management conducts an enterprise risk management assessment, which is led by the Company's corporate audit department. All members of management responsible for key business functions and operations participate in this assessment. The assessment includes an identification, and quantification of the potential impact, of the top risks facing the Company and the controls in place to mitigate such risks as well as possible opportunities to reduce such risks. This report is shared with the Audit Committee as well as the full Board of Directors.

Risk Assessment of Compensation Programs

The Company has determined that its compensation policies, plans and practices are consistent with the Company's strategic objectives, appropriately balanced and do not create risks that are reasonably likely to have a material adverse effect on the Company. In making this determination, the Company's human resources and legal departments reviewed the compensation policies, plans and practices for its executive officers, as well as for all other employees and then discussed their findings with the Company's Chief Executive Officer, Compensation Committee and outside compensation consultant. The Company identified its global policies, plans and practices that: covered its global employee population; were structured differently from those of other business units; or represented a significant portion of its compensation expense. The Company then assessed the risk-taking incentives inherent in the design and operation of these policies, plans and practices, including the following features of such policies, plans and practices: design, payment methodology, potential payment volatility, relationship to its financial results, length of performance period, risk-mitigating features, performance measures and goals, oversight and controls, and plan features and values compared to market practices. The Company also assessed the various controls that mitigate risks relating to compensation policies, plans and practices, such as executive stock ownership guidelines and forfeiture provisions, contained in the employment agreements of the named executive officers, that enable the recovery of certain incentive compensation payments in certain circumstances.

Based on this review, the Company believes that its compensation policies, plans and practices do not create risks that are reasonably likely to have a material adverse effect on the Company. This conclusion is based on, among other things, the approach employed by the Company in developing its compensation policies and practices. First, in setting these policies and practices, the Company was careful to ensure that they were consistent with the Company's strategic objectives and that none of the policies or practices varied significantly from the overall risk and reward structure of the Company. As a result, by design, no individual award is large enough such that its value could create material financial risk to the Company. Second, the Company employed a balanced approach to its policies and practices. More specifically, in setting these policies and practices, the Company balanced short-term and long-term incentives; cash and equity based compensation; service based and performance based compensation; and corporate and individual performance incentives. The Company believes that this overall balanced approach significantly reduces the risk that the Company's compensation policies or practices could have a significant adverse effect on the Company. Third, the Company's incentive plans could not be easily manipulated as they provide for a minimum level of overall corporate profitability before any payout occurs. Fourth, the Company believes that certain of its policies and programs, such as its stock ownership guidelines and compensation forfeiture provisions applicable to certain senior officers, also mitigate any risk taking incentive inherent in any compensation policies or practices. Lastly, the Compensation and Management Succession Committee of the Board of Directors, which is comprised solely of independent directors, has the authority in certain circumstances to consider factors outside of the incentive plans and to exercise discretion to adjust the funding of incentive awards.

Committees of the Board of Directors

The Board of Directors currently has three standing committees. They are the Audit Committee; the Compensation and Management Succession Committee and the Nominating and Corporate Governance Committee. The Board of Directors has adopted written charters for each of the three standing committees. A copy of each of the charters is available on the Company's website at www.callawaygolf.com under Investor Relations Corporate Governance Board Committees. Upon request, the Company will provide to any person without charge a copy of such charters. Any such requests may be made by contacting the Company's Investor Relations Department at the Company's principal executive offices by telephone at (760) 931-1771 or by mail at 2180 Rutherford Road, Carlsbad, CA 92008. More detailed information about each committee is set forth below.

Audit Committee. The Audit Committee currently consists of Messrs. Armacost (Chair), Beard, Lundgren, and Ogunlesi. Such initial and continuing service awards are made as of the date of appointment or re-election in the form and amount as determined by the Board of Directors on the recommendation of the Compensation Committee. The Company has a policy that the non-employee directors should promote the Company's products by using the Company's current products whenever they play golf. To assist the directors in complying with this policy, non-employee directors are entitled to receive a limited amount of golf club products of the Company, free of charge, for their own personal use and the use of immediate family members residing in their households. The Audit Committee actively engaged in a dialogue with Deloitte with respect to any disclosed relationships or services that might impact Deloitte's objectivity and independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, for filing with the Securities and Exchange Commission.

Fees of Independent Registered Public Accounting Firm

Audit Fees. Audit fees include fees for (i) the audit of the Company's annual financial statements, (ii) the review of the Company's interim financial statements, (iii) the audit of the Company's internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act of 2002 and (iv) statutory audits and related services for the Company's international subsidiaries. Audit fees also include other services that generally only the independent auditor can reasonably provide, including comfort letters, statutory audits, attest services, and consents and assistance with and review of documents filed with the SEC. The aggregate fees for audit services performed by Deloitte in 2011 were \$1,466,800, compared to fees of \$1,505,572 in 2010.

Audit-Related Fees. Audit-related fees include fees for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements. The aggregate fees for audit-related services performed by Deloitte for each of 2011 and 2010 were \$35,000 and \$32,860, respectively. The fees for both 2011 and 2010 were incurred in connection with the audit of the financial statements for the Company's 401(k) Retirement Investment Plan.

Tax Fees. Tax fees include fees for services performed by the professional staff in the tax department of the independent registered public accounting firm except for those tax services that could be classified as audit or audit-related services. For 2011 and 2010, the tax fees paid to Deloitte totaled \$35,760 and \$112,033, respectively, and were incurred in connection with routine domestic and foreign tax compliance and tax advice.

All Other Fees. All other fees include fees for all services except those described above. There were no such other non-audit fees in 2011 and 2010.

None of the fees listed above were approved by the Audit Committee in reliance on a waiver from pre-approval under Rule 2-01(c)(7)(i)(C) of Regulation S-X.

Policy for Preapproval of Auditor Fees and Services

The Audit Committee has adopted a policy that all audit, audit-related, tax and any other non-audit service to be performed by the Company's independent registered public accounting firm must be preapproved by the Audit Committee. It is the Company's policy that all such services be preapproved prior to the commencement of the engagement. The Audit Committee is also required to preapprove the estimated fees for such services, as well as any subsequent changes to the terms of the engagement. The Audit Committee has also delegated the authority (within specified limits) to the Chair of the Audit Committee to preapprove such services if it is not practical to wait until the next Audit Committee meeting to seek such approval. The Audit Committee Chair is required to report to the Audit Committee at the following Audit Committee meeting any such services approved by the Chair under such delegation.

The Audit Committee will only approve those services that would not impair the independence of the independent registered public accounting firm and which are consistent with the rules of the SEC and PCAOB. The Audit Committee policy specifically provides that the following non-audit services will not be preapproved: (i) bookkeeping or other services related to the Company's accounting records or financial statements, (ii) financial information systems design and implementation services, (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports, (iv) actuarial services, (v) internal audit outsourcing services, (vi) management functions, (vii) human resources, (viii) broker-dealer, investment adviser or investment banking services, (ix) legal services and (x) expert services unrelated to an audit for the purpose of advocating the Company's interests in litigation or in a regulatory or administrative proceeding or investigation.

Under this policy, the Audit Committee meets at least annually to review and where appropriate approve the audit and non-audit services to be performed by the Company's independent registered public accounting firm. Any subsequent requests to have the independent registered public accounting firm perform any additional services must be submitted to the Audit Committee by the Chief Financial Officer, together with the independent registered public accounting firm, which request must include an affirmation from each that the requested services are consistent with the SEC and PCAOB's rules on auditor independence.

PROPOSAL NO. 2

RATIFICATION OF THE APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee, which is comprised entirely of independent directors, has appointed Deloitte & Touche LLP to serve as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2012. Deloitte has served as the Company's independent registered public accounting firm since December 2002. Information concerning the services performed by Deloitte and the fees for such services for 2011 and 2010 are set forth below under Fees of Independent Registered Public Accounting Firm. Representatives of Deloitte are expected to attend the Annual Meeting, where they are expected to be available to respond to questions, and if they desire, to make a statement.

Our Audit Committee and Board of Directors seek shareholder ratification of the Audit Committee's appointment of Deloitte as the Company's independent registered public accounting firm to audit our and our subsidiaries' financial statements for the fiscal year ending December 31, 2012. Ratification of this appointment is not required to be submitted to shareholders. However, as a matter of good corporate governance, the Company is seeking ratification of the appointment of Deloitte. If the shareholders do not ratify the appointment of Deloitte as the Company's independent registered public accounting firm, the Audit Committee will reconsider its appointment of Deloitte. Because the Audit Committee is directly responsible for appointing the Company's independent registered public accounting firm, however, the ultimate decision to retain or appoint Deloitte in the future as the Company's independent registered public accounting firm will be made by the Audit Committee based upon the best interests of the Company at that time.

Vote Required

The affirmative vote of the holders of a majority of shares of Common Stock present in person or by proxy at the Annual Meeting is required to ratify the appointment of Deloitte as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2012. Abstentions will be treated as being present and entitled to vote on the matter and, therefore, will have the effect of votes against the proposal. This proposal is considered a routine matter and your broker has discretion to vote your shares even if you do not provide voting instructions to your broker.

YOUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR RATIFICATION OF THE APPOINTMENT OF DELOITTE AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2012.

COMPENSATION OF EXECUTIVE OFFICERS

Compensation Discussion and Analysis

Introduction

This Compensation Discussion and Analysis is designed to provide shareholders with an understanding of our compensation philosophy and objectives as well as the analysis that we performed in setting executive compensation. It discusses the Compensation and Management Succession Committee's (the Compensation Committee) determination of how and why, in addition to what, compensation actions were taken during the last fiscal year for each person serving as our chief executive officer during 2011, our chief financial officer, the three other most highly compensated executive officers who were serving as such at the end of 2011, as well as two former executive officers who were no longer serving as executive officers as of the end of 2011. The following is a list of the executive officers described in the preceding sentence:

Anthony S. Thornley, Former interim President and Chief Executive Officer;

Bradley J. Holiday, Senior Executive Vice President and Chief Financial Officer

Steven C. McCracken, Senior Executive Vice President and Chief Administrative Officer

Jeffrey M. Colton, Senior Vice President, Global Brand and Product

Joseph Urzetta, Senior Vice President, Americas

George Fellows, former President and Chief Executive Officer

Thomas T. Yang, former Senior Vice President, International

David A. Lavery, former Senior Vice President, Global Operations

These individuals are collectively referred to in this discussion as the named executive officers because they are named in the compensation tables included in this Proxy Statement. Investors are encouraged to read this discussion in conjunction with the compensation tables and related notes, which include more detailed information about the compensation of the named executive officers for 2011 as well as prior years.

Overview

The past fifteen months have been a period of significant transition for the Company, both organizationally and with regard to its compensation practices. The Company entered 2011 with the expectation that the Company would recover from the global economic recession and would return to profitability. Entering into 2011, the Compensation Committee was concerned about retaining and motivating management. There had been no payout under the Company's 2009 or 2010 annual incentive plans and no payout under the 2007-2009 or 2008-2010 long-term incentive performance plans. All of the stock options held by the named executive officers at the end of 2010 were at exercise prices above (and often significantly above) below the then current trading value of the Company's common stock. To address the retention and motivational concerns and so as not to undermine the expected recovery, the Compensation Committee granted modest base salary increases to certain of the executive officers for whom relevant market data and the officer's performance supported such increases.

Unfortunately, mid-way through 2011, it became clear that the expected recovery would not be realized. As a result, the Company implemented a major restructuring of its organization, that included cost reductions designed to achieve approximately \$50 million in annualized savings and plans to reinvest half of those savings into brand and demand creation initiatives. In connection with the restructuring, three named executive officers resigned, namely Messrs. Fellows (President and Chief Executive Officer), Lavery (Senior Vice President, Global Operations) and Yang (Senior Vice President, International). The Board of Directors appointed Tony Thornley, who was serving as a director of the Company, as interim President and Chief Executive Officer to implement the restructuring and to lead the search for a new President and Chief Executive Officer. The Company hired a new President and Chief Executive Officer, Oliver G. Chip Brewer, III, effective March 5, 2012.

In addition to the organizational changes, the Company has also changed or eliminated many of its compensation practices during the second half of 2011 and the first quarter of 2012 in light of evolving best practices, including the following:

The Compensation Committee determined that there would be no annual incentive plan payouts for 2011

The Compensation Committee determined that there would be no annual base salary increases for executive officers in 2012

Excise tax gross-ups were eliminated

The car allowance program was eliminated

Severance benefits related to the payout of a pro rata bonus in the year of termination were amended to provide that the pro rata bonus would be paid if and only to the extent that the underlying performance goals were achieved

The Compensation Committee reduced the maximum amount of severance payments unrelated to a change in control for senior officers from 18 months to 12 months, which will be implemented as contracts are renewed

The Compensation Committee reduced the maximum amount of severance payments for senior officers related to a change in control from 36 months to 24 months, which will be implemented as contracts are renewed

Paid time off benefits for officers were reduced by over 15%

The Company matching contributions under the 401(k) plan were reduced by 50%

The targeted annual cash compensation for the new Chief Executive Officer (Mr. Brewer) was 30% less than the prior non-interim Chief Executive Officer (Mr. Fellows).

The Compensation Committee believes that these changes are in the best interest of the Company as they are consistent with the Company's cost-reduction goals, are consistent with best practices, and will be a good step toward aligning the Company's compensation practices with the Company's performance. The Company, however, will continue to take action in 2012 to improve its financial performance and under the supervision of the new Chief Executive Officer and the Compensation Committee will further review its compensation practices and philosophy. The following is a description of the Company's compensation practices and philosophy in 2011.

Purpose of Executive Compensation Programs

Callaway Golf Company is a public corporation engaged in the manufacture and sale of golf clubs, golf balls, and other golf equipment, as well as the sale of other golf-related products, including golf bags, apparel, footwear, and accessories. The sale of golf products is a highly competitive business that is becoming more competitive each year. The Company has operations in the United States, the United Kingdom, Japan, Canada, Korea, Australia, China, Thailand, Malaysia, India and other regions, and directly, or indirectly through third party distributors, sells its products in over 100 countries worldwide. In 2011, the Company had net sales of approximately \$887 million. Given the complexity and size of the Company's business, the Board of Directors must recruit and appoint highly qualified individuals to serve as the Company's executive officers to oversee and manage the Company's operations. The purpose of the Company's executive compensation programs is to attract, retain, motivate and appropriately reward these executive officers and to align the interests of the executive officers with those of the Company's shareholders by incentivizing the executive officers to operate the Company in a manner that creates shareholder value.

Role of the Compensation and Management Succession Committee

The Company's Board of Directors has delegated to the Compensation Committee the general responsibility for oversight of the Company's compensation philosophy, policies and programs, including those applicable to the Company's named executive officers. The Compensation Committee, in consultation with the other independent directors, sets the compensation of the Chief Executive Officer, and the Compensation Committee, in consultation with the Chief Executive Officer, sets the compensation of the other executive officers. The Compensation Committee consults with outside compensation advisors and legal counsel as appropriate.

The Compensation Committee has the responsibility for, among other things, approving and overseeing the Company's executive compensation programs, including the design and implementation of those programs to ensure that the programs are reasonable and not excessive, that they reward corporate and individual performance, and that they provide appropriate incentives for the executive officers and do not encourage excessive risk taking. This responsibility includes setting base salaries, developing appropriate short-term and long-term incentives, approving equity-based award plans and grants, approving employment agreements (including severance and change-in-control provisions), and approving other compensation or benefit plans, arrangements and agreements applicable to executive officers.

In addition, as soon as practical following the end of each fiscal year, the Compensation Committee reviews the performance of the executive officers. The review includes a detailed comparison of the Company's financial performance in absolute terms and against its annual operating plan, a review of performance against stipulated metrics and performance criteria in various compensation plans, a review of the respective executive's performance against agreed-upon objectives, and any other relevant factors pertinent to that year's results. In the case of the Chief Executive Officer, the review also includes a written evaluation of his performance by the independent directors based upon a review of the Chief Executive Officer's agreed-upon annual objectives and his self-appraisal of performance against such goals. Following this detailed review, all of the independent directors participate in executive session to review this information and act on the Compensation Committee's recommendation for any changes in compensation for the Chief Executive Officer that may result from such review and appraisal.

The Compensation Committee routinely reviews the Company's executive compensation programs and makes modifications as appropriate in light of current trends and best practices. The amounts paid to an individual executive in any given year reflect the Company's current compensation programs, continuing prior commitments under previous programs or contracts, and the current performance of that executive. As a result, in any given year there may be circumstances that result in an executive's compensation being different from the Company's current programs and practices but over time compensation should in the aggregate be consistent with the Company's compensation programs as they evolve in light of current trends and best practices.

Additional information concerning the responsibilities of the Compensation Committee is set forth in its charter which is available on the Company's website at www.callawaygolf.com under Investor Relations Corporate Governance Board Committees.

Guiding Principles for Executive Compensation

In developing appropriate executive compensation programs, the Compensation Committee is generally guided by the following principles:

Compensation levels should be sufficiently competitive to attract and retain the executive talent needed.

The Company's overall compensation levels are targeted to attract the management talent needed to achieve and maintain a leadership position in the businesses where the Company chooses to compete. In general, given the complexity and competitiveness of the Company's business, the Committee believes it is often necessary to pay above median compensation to attract the high quality management talent needed to run the Company's

business. In setting executive compensation, the Compensation Committee compares the total direct compensation (comprised of base salary, annual incentives, and long-term incentives) for the Company's named executive officers to the 50th - 75th percentile based upon the Company's Compensation Comparison Group (described below) and other appropriate market reference information.

A significant portion of total compensation should be related to performance.

Executive compensation should be linked to Company and individual performance. The annual incentive compensation element is tied directly to short-term corporate performance but the final payout may be affected by individual performance, and the long-term incentive compensation element is generally tied to long-term corporate performance. Under the Company's plans, performance above targeted goals generally results in compensation above targeted levels, and performance below targeted goals generally results in compensation below targeted levels.

Compensation should reflect position and responsibility, and incentive compensation should be a greater part of total compensation for more senior positions.

Total compensation should generally increase with position and responsibility. At the same time, a greater percentage of total compensation should be tied to corporate and individual performance, and therefore at risk, as position and responsibility increases. Accordingly, individuals with greater roles and responsibility for achieving the Company's performance targets should bear a greater proportion of the risk that those goals are not achieved and should receive a greater proportion of the reward if goals are met or surpassed.

Incentive compensation should strike a balance between short-term and long-term performance.

The Company's compensation plans focus management on achieving strong annual performance in a manner that supports the Company's long-term success and profitability. Accordingly, the Company uses both annual incentives and long-term incentives, with the proportion of long-term incentives increasing at higher levels of responsibility where individuals have the greatest influence over the Company's strategic direction and results over time.

A significant portion of executive compensation should be equity-based.

In order to further align the interests of the Company's executive officers with those of the Company's shareholders, the Compensation Committee believes that a significant portion of executive compensation should be equity-based compensation. As a result, the majority of the Company's long-term incentives for executive officers is equity-based in the form of stock options, restricted stock units, and phantom stock units. The executive officers are also subject to stock ownership guidelines (discussed in more detail below) which require the executive officers to hold a minimum amount of Company stock and hold a portion of the shares received from the long-term incentive awards until the executive satisfies the minimum holding requirements.

The tax deductibility of compensation should be maximized where appropriate.

To the extent consistent with the Company's compensation strategy, the Company seeks to maximize the deductibility for tax purposes of all elements of compensation. In designing and approving the Company's executive compensation plans, the Compensation Committee considers the effect of all applicable tax regulations, including Section 162(m) of the Internal Revenue Code which generally disallows a tax deduction to public corporations for non-qualifying compensation in excess of \$1.0 million paid to the chief executive officer or certain of the Company's other executive officers. Although maximizing the tax deductibility of compensation is an important consideration, the Compensation Committee may from time to time approve compensation that does not qualify for deductibility where it is appropriate to do so in light of other compelling interests or objectives.

The Compensation Committee Uses Various Resources to Guide Its Compensation Decisions

In setting compensation, the Compensation Committee works with the Company’s Chief Executive Officer and Senior Vice President of Global Human Resources. In addition, the Compensation Committee has engaged Mercer as its outside compensation consultant to provide independent advice and information on executive compensation matters. Mercer representatives report directly to the Compensation Committee (through the Chair of the Compensation Committee) and provide comparative market data, information on compensation trends, and an objective view of compensation matters. The Company does not use Mercer for any other purposes, except that the Company occasionally purchases from Mercer broad industry compensation survey data that Mercer makes available for third parties to purchase. The Compensation Committee requires that the Company obtain the committee’s approval prior to engaging Mercer for any other purpose. Representatives from Mercer generally interact with the Chair of the Compensation Committee, attend the meetings of the Compensation Committee, and meet in executive session with the members of the Compensation Committee and, for matters relating to the compensation of the Chief Executive Officer, with the other independent directors as well. The Compensation Committee also consults with legal counsel as appropriate.

In determining the reasonableness and competitiveness of the Company’s executive officer compensation, the Compensation Committee periodically reviews market data for comparisons to the Company’s programs. These comparisons are used as reference guides to aid the Compensation Committee in assessing the reasonableness of the Company’s proposed compensation levels and targets in any given year. None of the Company’s major competitors are stand-alone public golf corporations; rather, they are part of larger corporate conglomerates or are privately owned. Thus, it is difficult to obtain meaningful specific comparative data on their golf businesses. The Compensation Committee therefore compares executive compensation levels with those of a group of 13-14 other corporations (the Compensation Comparison Group) and with other relevant compensation information, including broad industry survey data and proxy statement data for other corporations as well. The Compensation Comparison Group consists of corporations that are in the consumer discretionary goods sector and which are similar in revenue size and have similar business characteristics as the Company. The median 2011 revenue for the corporations in this peer group was approximately \$1.05 billion compared to Callaway’s 2011 revenue of \$887 million and 2010 revenue of \$968 million. The Compensation Comparison Group is reviewed periodically as warranted and revised as appropriate to ensure that the corporations in the group continue to be a reasonable comparison for compensation purposes. The only change made in 2011 was the deletion of RC2 Corp. which was acquired in 2011. A full review of the peer group is planned for 2012. The corporations that currently comprise the Compensation Comparison Group are as follows:

Arctic Cat Inc.	Hasbro, Inc.	Nautilus, Inc	The Timberland
	Jakks Pacific, Inc.	Oxford Industries	Company
Coach, Inc	LeapFrog Enterprises, Inc.	Polaris Industries, Inc.	
Columbia Sportswear Company	Movado Group, Inc.	Quiksilver, Inc.	
Fossil, Inc.			

In addition to the Compensation Comparison Group, the Compensation Committee from time to time uses a broader peer group as a guide in setting performance targets under the short-term and long-term incentive programs. The performance comparison group generally consists of corporations in the S&P 400 and S&P 600 that are in the consumer durables and apparel industry, but the Company also uses other benchmarks as well.

Investors should understand that both the Compensation Comparison Group and, when applicable, the performance comparison group are used as a reference when useful to aid the Compensation Committee in setting executive compensation levels and incentive performance targets. In setting the performance goals under the 2011 annual incentive plan, the Compensation Committee did not use a performance comparison group. The Compensation Committee believes that such comparative data is more useful under more stable economic and business conditions. The Company incurred a loss in 2009 and 2010 and the Compensation Committee believed that the performance goals for 2011 should be set based upon significant year-over-year improvement rather than the relative performance of other corporations.

When making executive compensation decisions, the Compensation Committee also reviews a tally sheet for each executive officer for whom the decision is being made. The tally sheet for each executive officer summarizes the officer's total compensation, including each element of total direct compensation, as well as perquisites, and severance and change in control benefits. The Compensation Committee uses the tally sheet to understand the effect its decision will have upon the executive officer's total compensation and the overall impact to the Company.

Components of the 2011 Executive Compensation Program

The Compensation Committee developed a 2011 executive compensation program consisting of direct compensation as well as benefits and perquisites. The direct compensation is comprised of three elements: base salary, annual incentives and long-term incentives. Each element is intended to reward and motivate executives in different ways consistent with the Company's overall guiding principles for compensation. The amount of total direct compensation intended to come from each element varies with position and level of responsibility, reflecting the principles that total compensation should increase with position and responsibility and that a greater percentage of an executive's compensation should be tied to corporate and individual performance, and therefore at risk, as position and responsibility increase. The direct compensation for 2011 was set prior to the shareholder vote on executive compensation. Therefore, although shareholders approved the executive compensation with over 78% of the shares voting for approval, that vote did not affect the Company's direct compensation decisions in 2011.

Consistent with the Company's compensation philosophy, the 2011 executive compensation program incorporated a balance between guaranteed and at-risk compensation, a balance between cash and equity-based compensation, and a balance between short-term and long-term compensation. In 2011, approximately (i) 100% of the interim Chief Executive Officer's targeted total direct compensation, 81% of the former Chief Executive Officer's targeted total direct compensation, and approximately 54% to 62% of the targeted total direct compensation for each of the other named executive officers, was comprised of short-term and long-term incentives that were subject to corporate and individual performance and therefore at risk and (ii) 100% of the interim Chief Executive Officer's targeted total direct compensation, 62% of the former Chief Executive Officer's targeted total direct compensation, and approximately 29% to 41% of the targeted total direct compensation for the other named executive officers, was long-term, equity-based compensation. Mercer advised the Compensation Committee in connection with the 2011 executive compensation program and the changes to the Company's compensation practices described above in the *Overview* section. Mercer advised the Compensation Committee that the 2011 executive compensation program was generally consistent with the Compensation Committee's guiding principles and was reasonably based and not excessive under the circumstances. The Compensation Committee intends to continue working with Mercer to ensure the Company's compensation practices continue to be aligned with shareholder interests and are consistent with evolving best practices.

Set forth below is an analysis of each of the elements of the 2011 executive compensation program. More detailed information concerning the compensation paid to the named executive officers for 2011 is set forth in the compensation tables and related notes contained in other sections of this Proxy Statement.

Analysis of Base Salary

Base salaries serve as the guaranteed cash portion of executive compensation. Base salary is intended to compensate an executive for performing his or her job responsibilities on a day-to-day basis. An executive officer's base salary is generally established at the time the executive is first hired or is promoted to the executive officer level. The Compensation Committee sets the base salary at a level it believes is competitive based upon the executive officer's experience, position, and responsibility. In setting the base salary, the Compensation Committee reviews the complexity of the job requirements and performance expectations, relevant market data, including information from the Compensation Comparison Group, and consults with its independent compensation consultant. The Compensation Committee also considers how the base salary compares to the base salaries of the other

executive officers. The Compensation Committee reviews base salaries annually and adjustments may be made as appropriate based upon the executive officer's individual performance, expanded duties, changes in the competitive marketplace, and in limited circumstances for retention purposes.

As discussed above under the *Overview* section, the Compensation Committee approved base salary increases in the beginning of 2011 for certain of the executive officers for retention and motivational purposes and so as not to undermine the anticipated business recovery. These increases were approved for an officer only if supported by relevant comparative market data. As a result, during the first quarter of 2011, in connection with the annual review of base salaries and after consultation with Mercer, the Compensation Committee approved an increase in base salary for Messrs. Fellows, Holiday, Colton, Lavery and Yang. More specifically, Mr. Fellows received a base salary increase of \$25,000 (2.6%); Mr. Holiday received a base salary increase of \$15,000 (2.9%); Mr. Colton received a base salary increase of \$15,000 (4.0 %); Mr. Lavery received a lump-sum payment of \$15,000; and Mr. Yang received a base salary increase of \$15,000 (3.7%). The relevant market data did not support a base salary increase for Messrs. McCracken or Urzetta. In addition to the above, in August 2011, in connection with the elimination of the car allowance program and in light of the reduction in other benefits for these officers, the Company converted the car allowance of \$1,000 per month for Messrs. Holiday, McCracken, Colton, Lavery and Urzetta into their respective base salaries. When Mr. Thornley was appointed interim President and Chief Executive Officer, Mr. Thornley requested that the Board pay him a base salary of only \$1.00 per year. The annual base salary rate for each of the named executives following these actions was as follows (with the base salaries for Messrs. Fellows, Lavery, and Yang representing their respective annual base salary rate at the time they left the Company):

Name	Base Salary
Anthony S. Thornley	\$ 1
Bradley J. Holiday	\$ 542,000
Steven C. McCracken	\$ 562,000
Jeffrey M. Colton	\$ 402,000
Joseph Urzetta	\$ 327,000
George Fellows	\$ 1,000,000
David A. Lavery	\$ 392,000
Thomas T. Yang	\$ 420,000

Analysis of Annual Incentives

In addition to a base salary, the Company's executive compensation program includes the opportunity to earn an annual cash bonus. The bonus serves as the short-term incentive compensation element of the executive compensation program. The bonus is at-risk and subject to designated corporate and individual performance criteria. The bonus is intended to provide an incentive for an executive to drive a high level of corporate and individual performance without excessive risk taking. The payout of annual bonuses to executive officers is subject to the approval of the Compensation Committee following its review of each of the designated corporate and individual performance criteria.

Bonus Opportunity. For 2011, the Compensation Committee implemented a bonus program that was designed to reward the executive officers for achieving certain corporate performance goals as well as individual objectives. Under this program, the Compensation Committee set target bonuses for each of the named executive officers. The target bonus was set as a percentage of base salary and is the amount the executive officer could earn if the Company achieved its target corporate performance goals and the executive officer achieved his individual objectives. Bonus targets for 2011 were as follows:

Name	Target Bonus as a % of Base Salary
Anthony S. Thornley	*
Bradley J. Holiday	55%
Steven C. McCracken	55%
Jeffrey M. Colton	55%
Joseph Urzetta	55%
George Fellows	100%
David A. Laverty	55%
Thomas T. Yang	55%

* At Mr. Thornley's request, he did not participate in this plan and was not eligible for an annual bonus for 2011. The target bonus percentages were based on each executive officer's position and set consistent with the total direct compensation that was targeted for each officer. The target bonus percentage for each named executive officer for 2011 was unchanged from the 2010 target bonus percentage. Mr. Thornley requested that the Board not include him in the annual bonus plan and that any compensation paid to him as interim President and Chief Executive Officer be equity-based compensation tied to the creation of shareholder value.

Performance Goals. The amount of an officer's bonus is generally based upon the achievement of corporate performance goals, although the final amount paid to the executive is subject to reduction based upon an officer's performance with regard to his individual objectives (MBOs). In March 2011, the Compensation Committee set the corporate performance goals for 2011 based upon designated levels of net sales and pro forma pre-tax income (i.e. consolidated pre-tax income less charges for the Company's global operations strategy and other unforeseen one-time charges). In setting the performance goals for 2011, the Compensation Committee considered, among other things, the Company's performance in 2010, the Company's operational goals and budget for 2011, and the expectation that the golf industry and the Company's business would recover in 2011. Prior to setting the 2011 goals, the Compensation Committee discussed the goals with management and with the Company's outside compensation consultant. Following such discussion, the Compensation Committee set the 2011 performance goals as follows:

(In millions)	Threshold	Target	Maximum
Pro Forma Pre-tax Income	\$ 17.4	\$ 33.4	\$ 49.4
Corporate Net Sales	\$ 941.0	\$ 999.0	\$ 1,040.0

Subject to satisfactory performance of individual objectives, achievement of target performance generally results in a 100% of target bonus; achievement of threshold performance generally results in a 50% of target bonus; and achievement of maximum performance generally results in a 150% of target bonus. For example, Mr. Fellows' bonus opportunity equals 100% of his base salary. If only threshold performance is achieved, Mr. Fellows' bonus opportunity would be reduced to 50% of his base salary and if maximum performance is achieved his bonus opportunity would be increased to 150% of his base salary. Amounts between threshold and target and target and maximum are interpolated accordingly. Notwithstanding the foregoing, as set forth in the table above, the Compensation Committee set the minimum Pro Forma Corporate Operating Income threshold of \$22.4 million, which threshold had to be achieved before any bonus was paid under any performance criteria.

The Compensation Committee selected Pro Forma Corporate Operating Income (75%) and Corporate Net Sales (25%) as performance criteria and more heavily weighted Pro Forma Corporate Operating Income because the emphasis for 2011 was on maximizing profitability on modest sales growth. At the time the goals were set,

they were believed to be challenging, but achievable, provided the golf industry and the Company's business improved as anticipated.

With regard to the MBOs for the named executive officers, in January, 2011 the Compensation Committee approved the 2011 MBOs for the Chief Executive Officer, and reviewed and agreed with the 2011 MBOs recommended by the Chief Executive Officer for each of the other named executive officers. The approved MBOs consisted of specific initiatives for each executive officer that support and reinforce achievement of the Company's overall strategic goals and included (i) for Mr. Holiday, the implementation of initiatives relating to business development, information technology, tax, and treasury, (ii) for Mr. McCracken, the implementation of initiatives relating to the 2016 Olympic games and other growth in golf initiatives, (iii) for Mr. Urzetta, the implementation of initiatives relating to revenue and margin goals for the Americas, (iv) for Mr. Lavery, the implementation of initiatives relating to the Company's gross margin initiatives, inventory management, global distribution and manufacturing, and forecasting, and (v) for Mr. Yang, the implementation of initiatives relating to the development of existing international businesses as well as new markets, and operations capability. Mr. Fellows' MBOs were generally a compilation of selected MBOs of the other named executive officers, as well as strategic initiatives.

2011 Bonus Payout

The golf industry and the Company's business did not improve as the Company had anticipated at the beginning of 2011. The Company's Pro Forma Corporate Operating Income for 2011 was a loss of \$49.4 million and the Company's corporate sales in 2011 were \$887 million. As a result, the named executive officers were not eligible for and did not receive a bonus payout under the terms of the 2011 annual incentive plan.

Analysis of Long-Term Incentives

Value of Awards. The Company's long-term incentives are designed to drive long-term Company performance, provide a means for retaining executives through long-term vesting, and align the interests of the Company's executive officers with the interests of the Company's shareholders through equity based incentives. For each of the named executive officers, a targeted long-term incentive grant value is established. In setting the targeted value, the Compensation Committee consults with its outside compensation consultant, compares the targeted long-term incentive awards to data from the Compensation Comparison Group, and reviews other pertinent broad industry data. It also considers the effect the long-term incentive element would have upon the executive's total direct compensation. The targeted value for all officers at the Company generally varies by position and responsibility and is reviewed annually. The targeted grant value for each of the named executive officers for 2011 was as follows:

Name	2011 Long-term Incentive Award Target Value
Anthony S. Thornley	\$ *
Bradley J. Holiday	\$ 350,000
Steven C. McCracken	\$ 350,000
Jeffrey M. Colton	\$ 350,000
Joseph Urzetta	\$ 350,000
George Fellows	\$ 3,200,000
David A. Lavery	\$ 350,000
Thomas T. Yang	\$ 350,000

* Mr. Thornley did not have a targeted value as he did not participate in the 2011 long-term incentive plan. Mr. Thornley, however, was granted 500,000 stock appreciation rights in connection with his appointment as interim President and Chief Executive Officer.

The targeted value of the long-term incentive awards was consistent with the total direct compensation that was targeted for each officer. The disparity in targeted grant values for the former Chief Executive Officer (Mr. Fellows) compared to the other named executive officers reflected the flat nature of the organization reporting to the Chief Executive Officer as well as differences in comparative market data.

The following is a summary of the long-term incentive awards granted to the named executive officers during 2011 as part of the 2011 executive compensation program:

Name	Date of Grant	No. Shares Underlying SARs	No. Shares Underlying PSUs	No. Shares Underlying Stock Options
Anthony S. Thornley	09/01/11	500,000		
Bradley J. Holiday	01/27/11		23,302	59,518
Steven C. McCracken	01/27/11		23,302	59,518
Jeffrey M. Colton	01/27/11		23,302	59,518
Joseph Urzetta	01/27/11		23,302	59,518
George Fellows	01/27/11		213,049	544,169
David A. Laverty	01/27/11		23,302	59,518
Thomas T. Yang	01/27/11		23,302	59,518

Types of Awards. Consistent with the Compensation Committee's balanced approach to long-term compensation in 2011 (as discussed above), the Compensation Committee determined that the targeted long-term incentive award value for each executive officer (excluding Mr. Thornley) would be allocated equally among two different types of awards, namely phantom stock units and stock options. Together these awards were designed to motivate an executive to remain with the Company, to achieve strong long-term operational performance, and to increase shareholder value. The phantom stock unit awards provide a retention incentive as they vest solely based upon continued service without regard to Company performance or stock price and upon vesting provide an ownership stake in the Company. They also further align the interests of the Company's executives with those of the Company's shareholders as the holders of phantom stock units generally have the same long-term economic benefits and risks as does a holder of the Company's stock. The stock option portion provides an incentive to achieve strong long-term operational performance and thereby increase shareholder value directly through stock appreciation as there is a very strong correlation between Company performance and stock price over the long-term. The stock options provide no realizable value in the absence of stock appreciation. These awards remain consistent with the Compensation Committee's guiding principles in that half of these long-term incentives are performance-based and all are equity-based.

Mr. Thornley was not appointed as interim President and Chief Executive Officer until June 2011 and therefore did not participate in the 2011 long-term incentive plan. For Mr. Thornley's compensation as interim President and Chief Executive Officer, Mr. Thornley requested that the Board pay him a base salary of \$1 per year and no bonus opportunity, and that any compensation paid to him should be equity-based and tied to the creation of shareholder value. As a result, in connection with his appointment as interim President and Chief Executive Officer, Mr. Thornley was granted 500,000 stock appreciation rights. These were designed to incentivize Mr. Thornley to implement the Company's restructuring in a manner that would create shareholder value.

Additional information concerning each of these awards follows:

Stock Options. A stock option award is the grant of a right to purchase the Company's Common Stock at a fixed purchase price per share and is designed to reward an executive for absolute stock appreciation. Stock options are performance based awards in that they have no realizable value unless there is stock appreciation. The stock options granted to the named executive officers in 2011 vest ratably over a three-year period (with 1/3 vesting in each of the first three years on the anniversary of the grant date) and are for a ten-year term, subject to earlier cancellation in connection with termination of employment. The number of shares subject to the stock option is determined based upon the targeted stock option value for the named executive officer divided by the

estimated value of a stock option for one share. The estimated value is based upon the same Black-Scholes option valuation model used by the Company for financial reporting purposes. The stock options were granted at exercise prices equal to the fair market value of the Company's stock on the date of grant (*i.e.*, the closing stock price as reported on the New York Stock Exchange).

Phantom Stock Units. A phantom stock unit is a contingent right to receive the cash equivalent of one share of Common Stock of the Company upon vesting of the award. Until settled, a phantom stock unit generally provides the same economic incentive as restricted stock, except that the holder of a phantom stock unit is not entitled to voting rights or cash dividends. The holders of the phantom stock units do not accrue dividend equivalent rights. The number of units granted to the named executive officers in 2011 was based upon the targeted phantom stock unit value divided by the closing price of the Company's Common Stock on the date of grant. The phantom stock units granted in 2011 vest and the restrictions lapse on the third anniversary of the date of grant. If a named executive officer voluntarily leaves the Company without good reason or is terminated for substantial cause prior to vesting, he forfeits the phantom stock units and his right to receive the cash equivalent of the Company's stock.

Stock Appreciation Rights. A stock appreciation right (SAR) entitles the holder to the appreciation in value of a specified number of shares of the Company's Common Stock over the exercise price over a specified period of time. The exercise price is equal to the fair market value of the Company's Common Stock on the date of grant. Mr. Thornley's SARs were for a term of five years and were scheduled to vest in full one year from the date of grant. The terms of the SAR, however, provided that if he ceased being interim President and Chief Executive Officer prior to the one year vesting date, then upon termination his SARs would vest on an accelerated basis equal to 1/12th of the SAR's for each month he served in such position. The SARs provided they would be settled in cash given the limited shares available for grant under the Company's equity award plans.

Approval and Timing of Grants. The Compensation Committee has adopted specific guidelines that govern the approval and timing of equity awards, including stock options, restricted stock units, phantom stock units and stock appreciation rights. The guidelines provide that (i) all equity award grants must be approved by the Compensation Committee, (ii) the annual equity awards will be approved at a regularly scheduled or special meeting of the Compensation Committee with the effective date of grant being the second trading day following the Company's announcement of actual full year financial results, (iii) promotion or other special event award grants will be approved at the first regularly scheduled meeting of the Compensation Committee following the applicable event with the effective date of grant being on the first trading day of the month following the month in which such approval is obtained, and (iv) new hire award grants will be approved at a regularly scheduled or special meeting of the Compensation Committee prior to the date the employee commences employment or the first regularly scheduled meeting of the Compensation Committee following the date of hire. The effective date of grant of the new hire awards will be the date the employee commences employment if the approval occurred prior to such date or the first trading day of the month following the month in which approval is obtained if the approval occurs subsequent to the date on which the employee commences employment. The Compensation Committee's approval includes the eligible participants, type of awards (*e.g.*, stock options, stock appreciation rights, restricted stock units, or phantom stock units), the size of award for each participant, the performance criteria where applicable, as well as the other terms of the awards and program. In accordance with these guidelines, the annual long-term incentive awards for 2011 were approved by the Compensation Committee on January 21, 2011 and the awards were granted on January 27, 2011. The closing price of the Company's Common Stock on the date of approval was \$7.74 and on the date of grant was \$7.51. Mr. Thornley's grant was approved by the Compensation Committee on August 29, 2011 and his award was granted on September 1, 2011 consistent with the Company's equity grant guidelines. The closing price of the Company's Common Stock on the date of approval of Mr. Thornley's award was \$5.62 and on the date of grant was \$5.50.

Benefits and Perquisites

Various benefits are established for the named executive officers to enhance productivity, provide for healthcare needs, and encourage work/life balance. The Company's primary benefits for executives include the Company's health, dental and vision plans, and various insurance plans, including life, long-term disability, and accidental death and dismemberment insurance, as well as paid time off. The Company covers the costs of an annual physical, the costs of tax and estate planning fees, and, consistent with the Company's position as a leader in the golf industry, many executives are provided subsidized country club memberships or a limited amount of green fee reimbursements and a limited amount of the Company's products. The Company from time to time provides other benefits to Company's employees or officers as a group or to an individual officer as warranted. For example, in connection with the hiring of a new executive officer, the Company may also provide relocation assistance when necessary. See the Summary Compensation Table and related notes in this Proxy Statement for additional information about the value of benefits and perquisites received in 2011.

Retirement Plans

The Company does not provide the executive officers with any defined benefit pension plans or supplemental executive retirement plans (SERPS), or other similar types of retirement benefits. The only retirement benefit the Company currently provides the named executive officers is the right to participate in the Company's 401(k) Retirement Investment Plan.

The Company's 401(k) plan allows participants to contribute a portion of their compensation into the Plan with the Company providing a matching contribution up to 6% of the participant's compensation (subject to a maximum matching contribution for the named executive officers of up to \$14,700 in 2011). The funds held in the 401(k) plan are invested through Vanguard in various funds selected by the participant.

Employment Agreements

The Company has entered into an employment agreement with each of the named executive officers except Mr. Thornley. The Company's employment contracts are generally based upon a form of agreement. The Company believes that employment agreements are beneficial to the Company as they provide, among other things, protections related to the Company's trade secrets and intellectual property. Each employment agreement generally requires the executive officer to devote his full productive time and best efforts to the Company, to hold in confidence all trade secrets and proprietary information he receives from the Company and to disclose and assign to the Company any inventions and innovations he develops during the course of employment with the Company. The employment agreements set forth the base salary, incentive compensation, and in general terms the benefits and perquisites that the executive officer is entitled to as described above. The employment agreements also set forth the benefits and rights the executive officer is entitled to upon termination of employment and upon a change-in-control of the Company. These rights are described below and tables quantifying the potential payments to the named executive officers upon the occurrence of such events are included with the other compensation tables included in this Proxy Statement. The employment agreements for the Company's named executive officers are on file with the Securities and Exchange Commission.

Forfeitures. Each of the employment agreements for the named executive officers also contains certain forfeiture provisions. If the Company is required to prepare an accounting restatement due to material noncompliance of the Company with any financial reporting requirements under the United States Securities laws as a result of the intentional misconduct or gross negligence of a named executive officer, or if the named executive officer is one of the persons subject to automatic forfeiture under Section 304 of the Sarbanes-Oxley Act of 2002, then, in addition to any penalty prescribed by Section 304, the named executive officer is required to forfeit (i) any bonus paid within the 12-month period following the filing of the misstated document, (ii) any gain on the sale of Company securities during the same period, (iii) the right to receive special severance and incentive payments, and (iv) any unvested and/or unexercised long-term incentive compensation awards.

Severance Arrangements

Whether an executive officer is entitled to any severance benefits upon termination of employment depends upon the reason for the termination of employment. If an executive officer voluntarily resigns without good reason or is terminated by the Company for substantial cause, then the executive officer is generally not entitled to any severance benefits. In this case, the term substantial cause means the executive officer's (i) failure to substantially perform his duties, (ii) material breach of the employment agreement, that is not cured within the specified time allowed, (iii) misconduct, including use or possession of illegal drugs during work and/or any other action that is damaging or detrimental in a significant manner to the Company, (iv) conviction of, or plea of guilty or *nolo contendere* to, a felony, or (v) failure to cooperate with, or any attempt to obstruct or improperly influence, any investigation authorized by the Board of Directors or any governmental or regulatory agency.

If the executive officer's employment is terminated by the Company without substantial cause or by the employee because the Company materially breached the employment agreement or failed to renew the employment agreement upon expiration of its term, then the executive officer is generally entitled to severance benefits. These severance benefits are based upon an assessment of competitive market terms and a determination of what is needed to attract and retain the executive officers. Having negotiated these terms in advance allows for an orderly and amicable separation of an executive, including the obtainment for the Company's benefit of a release of claims and the provision of an incentive for the executive not to compete with the Company as discussed below. The severance benefits consist of (i) a payment equal to the executive officer's target bonus opportunity pro rated based upon the number of days worked that year (except that the Compensation Committee has determined that all officer contracts when renewed will provide that such payments will be made if and only to the extent that the underlying performance criteria have been satisfied), (ii) accelerated vesting of certain long-term incentive awards, (iii) special severance, provided the executive officer executes a release of claims in favor of the Company and provided the executive officer does not engage in any disparaging conduct or communications, and (iv) incentive payments, provided the executive officer chooses not to engage in any business that competes with the Company. Special severance consists of (a) the payment of COBRA and/or CalCOBRA premiums for the severance period, (b) the continuation of the tax and estate financial planning services benefit for the severance period, (c) outplacement services for one year, and (d) the payment of a portion of the executive officer's salary and target bonus for the severance period. Incentive payments consist of the payment of a portion of the executive officer's salary and target bonus for the severance period. Set forth below for each current named executive officer is the severance period, the equity awards that would be subject to accelerated vesting, and the amount of special severance and incentive payments to be paid during the severance period:

Name of Officer	Severance Period	Accelerated Vesting	Special Severance	Incentive Payments
Bradley J. Holiday	18 months	All outstanding unvested long-term incentive awards	.75 times annual base salary and target bonus payable over 18 months	.75 times annual base salary and target bonus payable over 18 months
Steven C. McCracken				
Jeffrey M. Colton	12 months	All outstanding unvested long-term incentive awards that would have vested within 12 months of the termination of employment	.50 times annual base salary and target bonus payable over 12 months	.50 times annual base salary and target bonus payable over 12 months
Joseph Urzetta				

The Compensation and Management Succession committee has determined that when Messrs. McCracken's and Holiday's employment agreements are renewed their termination benefits will be reduced to align with the other named executive officers referenced above. Mr. Thornley has no contractual right to any severance benefits upon termination of employment.

Change-in-Control Arrangements

To provide independent leadership consistent with the shareholders' best interests in the event of an actual or threatened change in control of the Company, the Company's employment agreements with its officers, including the named executive officers, provide certain protections in the event of a change in control. A change in control of the Company is defined, in general, as the acquisition by any person of beneficial ownership of 30% or more of the voting stock of the Company, the incumbent members of the Board of Directors cease to constitute a majority of the Board of Directors, certain business combinations of the Company, or any shareholder-approved or court-ordered plan of liquidation of the Company.

The Company's change-in-control benefits require a double trigger prior to payment. In other words, there must be both a change in control and a termination event (described below) within one year following a change in control. In the event there is such a change in control and termination event with respect to Messrs. McCracken, Holiday, Colton or Urzetta, then the affected executive officer is generally entitled to the benefits to which he is entitled for a termination by the Company without substantial cause as described above, except that the amount of special severance and incentive payments is increased. The special severance and incentive payments for each of the named executive officers upon a termination event following a change in control would be as follows:

Name of Officer	Change-in-Control Special Severance	Change-in-Control Incentive Payments
Bradley J. Holiday	1.495 times annual base salary and target bonus, payable over 36 months	1.495 times annual base salary and target bonus, payable over 36 months
Steven C. McCracken		
Jeffrey M. Colton	1.0 times annual base salary and target bonus, payable over 24 months	1.0 times annual base salary and target bonus, payable over 24 months
Joseph Urzetta		

The Compensation and Management Succession committee has determined that when Messrs. McCracken's and Holiday's employment agreements are renewed their change-in-control termination benefits will be reduced to align with the other named executive officers referenced above. Mr. Thornley has no contractual right to special severance or incentive payments upon a termination event following a change in control.

For this purpose, a termination event means the occurrence of any of the following within one year of the change in control: (i) the termination without substantial cause or material breach of the employment agreement by the Company, (ii) failure by the successor company to assume the employment agreement, (iii) any material diminishment in the position or duties of the executive officer, (iv) any reduction in compensation or benefits, or (v) any requirement that the executive officer relocate his principal residence.

In addition, the terms governing the long-term incentive awards granted to each of the named executive officers generally provide for the vesting of the awards immediately prior to a change in control, unless the Compensation Committee takes action to provide that they do not vest. The Company's 401(k) Retirement Investment Plan also provides for full vesting of all participant accounts immediately prior to a change in control (as defined in the plan).

Excise Taxes

Consistent with current trends in compensation practices, the Compensation Committee has discontinued its practice of providing indemnification for excise taxes for the Company's officers. As a result, the employment agreements for the named executive officers do not obligate the Company to provide indemnification for excise taxes. Furthermore, the employment agreements for the named executive officers provide that to the extent that any or all of the change in control payments and benefits provided to the executive under the employment agreement or any other agreement constitute parachute payments within the meaning of Section 280G of the Internal Revenue Code and would otherwise be subject to the excise tax imposed by Section 4999 of the Code,

then the aggregate amount of such change in control payments and benefits would be reduced by the minimum amounts necessary to equal one dollar less than the amount which would result in such payments and benefits being subject to such excise tax.

For additional information regarding the Company's severance and change in control arrangements with the named executive officers, see the Potential Payments Upon Termination or Change in Control section of this Proxy Statement.

Stock Ownership Requirements

In order to promote ownership of the Company's Common Stock by the Company's non-management directors and executive officers and thereby more closely align their interests with the interests of the Company's shareholders, the Board of Directors has adopted stock ownership guidelines requiring the Company's non-management directors and executive officers to hold the Company's Common Stock in at least the following minimum amounts:

Chief Executive Officer	3x Base Salary
Other Executive Officers	1x Base Salary
Non-Employee Directors	3x Annual Retainer

The minimum share ownership amounts are required to be achieved within five years of an individual first becoming subject to these guidelines. All shares for which an executive officer is deemed to be the beneficial owner under Section 16 of the Exchange Act, including shares held in a living trust for the executive's benefit, count towards this ownership requirement. Restricted stock and restricted stock unit awards held by the director or executive count towards the holding requirements whereas stock options, stock appreciation rights, phantom stock units and performance share units do not count toward this ownership requirement unless and until any underlying shares are issued. Unless a non-management director or executive officer is in compliance with these guidelines, he is required to retain and hold 50% of any net shares of Common Stock issued in connection with any equity-based awards granted under the Company's executive compensation plans after such non-management director or executive officer first becomes subject to these guidelines. Net shares are those shares that remain after shares are sold or withheld (i) to pay the exercise price and withholding taxes in the case of stock options or (ii) to pay withholding taxes in the case of restricted stock, restricted stock units or performance shares.

Compensation Committee Interlocks and Insider Participation

In 2011, the Company's executive officer compensation matters were handled by the Compensation and Management Succession Committee. The Compensation Committee is currently comprised of the following directors: Messrs. Armacost, Beard, Cushman, Lundgren and Rosenfield. During the times of their committee service during 2011, all of the members of the Compensation Committee were determined to be independent and there were no compensation committee interlocks.

REPORT OF THE COMPENSATION AND MANAGEMENT SUCCESSION COMMITTEE

During 2011, the responsibility for fixing the compensation of the Company's executives was generally delegated by the Board of Directors to the Compensation and Management Succession Committee. In accordance with its written charter, the committee has the following specific duties and responsibilities:

Oversee the Company's overall compensation structure, policies and programs, and assess whether the Company's compensation structure establishes appropriate incentives given the Company's strategic and operational objectives.

Oversee the Company's incentive compensation and equity-based compensation plans, including granting awards under any such plans, and approve, amend or modify the terms of management related compensation or benefit plans that do not require shareholder approval.

Review and approve corporate goals and objectives relevant to the compensation of the chief executive officer, evaluate his performance in light of those goals and objectives, and, together with the other independent members of the Board, set the chief executive officer's compensation level based on this evaluation.

Set the compensation of other executive officers after considering the recommendation of the chief executive officer.

Approve employment agreements and severance arrangements for executive officers, including change-in-control provisions, plans or agreements.

Review succession plans relating to positions held by executive officers and make recommendations to the Board regarding selections of individuals to fill these positions.

Annually evaluate the performance of the committee and the adequacy of its charter.

Perform such other duties and responsibilities as are consistent with the purpose of the committee as may be assigned from time to time by the Board.

Additional information concerning the Company's executive compensation programs can be found in "Compensation of Executive Officers and Directors" Compensation Discussion and Analysis and the narrative and tabular disclosure that follows it in this Proxy Statement.

The Compensation and Management Succession Committee reviewed and discussed with management the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K. Based on such review and discussion, the committee recommended to the Board of Directors that the "Compensation Discussion and Analysis" be included in this Proxy Statement for filing with the Securities and Exchange Commission.

- (1) Represents the aggregate grant date fair value of restricted stock units and phantom stock units calculated for financial reporting purposes for the year utilizing the provisions of Accounting Standards Codification Topic 718, Compensation - Stock Compensation (ASC 718). In connection with the resignation of Messrs. Fellows, Yang and Laverty in 2011, the Company accelerated the vesting period of certain restricted stock units and phantom stock units that were granted pursuant to their employment agreements. As a result of these accelerations, the incremental fair value of these awards immediately after the modification was zero, and as such, the amounts presented in column (e) above for these executive officers did not require a fair value adjustment. See Note 14, Share-Based Compensation, to the Company's Audited Consolidated Financial Statements set forth in the Company's Form 10-K for the year ended December 31, 2011 (the 10-K) for information concerning the ASC 718 values, which are based on the fair value of the Company's Common Stock on the date of grant.
- (2) Represents the aggregate grant date fair value of stock options and cash settled stock appreciation rights calculated for financial reporting purposes for the year utilizing the provisions of ASC 718. In connection with the resignation of Messrs. Fellows, Yang and Laverty in 2011, the Company accelerated the vesting period and modified the expected term of certain stock options that were granted pursuant to their employment agreements. As a result of these accelerations, the incremental fair value of these awards immediately after the modification was zero, and as such, the amounts presented in column (f) above for said executive officers did not require a fair value adjustment. See Note 14, Share-Based Compensation, to the Company's Audited Consolidated Financial Statements set forth in the Company's 10-K for the assumptions made in determining ASC 718 values.

- (3) No amounts were paid under the 2009, 2010 and 2011 annual incentive program. For additional information regarding this program, see Compensation Discussion and Analysis Components of the 2011 Executive Compensation Program Analysis of Annual Incentives.
- (4) The Company does not have a nonqualified deferred compensation plan and therefore no amounts are reported in this column.
- (5) Includes perquisites and personal benefits. All named executive officers were eligible to elect any or all of the following perquisites during all or a portion of 2011, subject to certain cost and other limitations set forth in the Company's internal policies: (i) tax and estate planning services, (ii) annual physical, (iii) the reimbursement of country club dues and golfing fees, (iv) supplemental long-term disability insurance, (v) auto allowance (this program was terminated in August 2011), and (vi) certain of the Company's products (e.g. golf clubs and balls) for personal use. Additional types of perquisites and personal benefits granted to individual named executive officers are disclosed and quantified in additional footnotes to this table, in accordance with applicable Securities and Exchange Commission disclosure requirements.
- (6) The Company believes the dollar value of any dividends and other earnings paid or accrued on unvested restricted stock unit awards is factored into the grant date fair value calculated in accordance with ASC 718 and reported in column (i) of the table entitled Grants of Plan-Based Awards. Accordingly, the dollar values of dividend equivalent rights accrued with respect to the named executive officers' restricted stock units in 2011 are not reported as All Other Compensation in column (i) of this table. The aggregate dollar value of dividend equivalent rights accrued during 2011 for named executive officers with unvested and outstanding restricted stock units awards was less than \$10,000. The dividend equivalent rights that accrue on restricted stock unit awards vest only if the underlying award vests.
- (7) On June 29, 2011, George Fellows resigned from his positions as a director and as President and Chief Executive Officer of the Company, at which time the Board of Directors appointed Anthony S. Thornley as interim President and Chief Executive Officer. This table includes Mr. Thornley's compensation as interim President and Chief Executive Officer. It does not include the compensation he received as a Board member during the first half of 2011. For a discussion of his director compensation, please see the Director Compensation section of this proxy statement.
- (8) Includes \$33,348 of total perquisites and other personal benefits comprised of cancellation costs related to personal travel as a result of the timing of Mr. Thornley's appointment to interim President and Chief Executive Officer of the Company in June 2011, reimbursement of health insurance premiums, and reimbursement of travel expenses not otherwise reimbursable under Company policies.
- (9) Includes a \$14,700 Company matching contribution under its 401(k) Retirement Investment Plan and \$23,890 of total perquisites and other personal benefits comprised of items (i), (iii), (iv), (v) and (vi) described above in footnote 5.
- (10) Includes a \$14,700 Company matching contribution under its 401(k) Retirement Investment Plan and a \$10,808 cash payment for accrued but unused paid time off pursuant to the Company's Paid Time Off policy. Also includes \$35,004 of total perquisites and other personal benefits comprised of items (i), (ii), (iii), (iv), (v), and (vi) described above in footnote 5.
- (11) Includes a \$14,700 Company matching contribution under its 401(k) Retirement Investment Plan and a \$15,462 cash payment for accrued but unused paid time off pursuant to the Company's Paid Time Off policy. Also includes \$14,972 of total perquisites and other personal benefits comprised of items (iii), (v), and (vi) described above in footnote 5.
- (12) Includes a \$14,700 Company matching contribution under its 401(k) Retirement Investment Plan and a \$12,577 cash payment for accrued but unused paid time off pursuant to the Company's Paid Time Off policy. Also includes \$25,955 of total perquisites and other personal benefits comprised of items (i), (ii), (iii), (iv), (v), and (vi) described above in footnote 5.
- (13) Includes \$3,531,391 of severance benefits in connection with Mr. Fellows' resignation from the Company as President and Chief Executive Officer in June 2011, in addition to a \$126,121 cash payment for accrued but unused paid time off due to him as a result of his resignation. Prior to his resignation and while he was serving as President and Chief Executive Officer, Mr. Fellows received \$14,700 of Company matching contributions under its 401(k) Retirement Investment Plan, \$5,853 of term life insurance premiums, as well as \$38,555 of total perquisites and other personal benefits including items (i), (iii), (iv), (v) and (vi) described above in footnote 5.
- (14) Effective July 8, 2011, Thomas Yang resigned from his position as Senior Vice President, International, and effective October 1, 2011, David A. Lavery resigned from his position as Senior Vice President, Global Operations. Mr. Lavery agreed to remain with the Company through the balance of 2011 to assist with the transition of his responsibilities.
- (15) Includes a \$34,494 cash payment for accrued but unused paid time off pursuant to the Company's Paid Time Off policy and a \$14,700 Company matching contribution under its 401(k) Retirement Investment Plan. Also includes \$26,459 of total perquisites and other personal benefits comprised of items (i), (ii), (iii), (iv), (v) and (vi) described above in footnote 5. Mr. Lavery's separation benefits did not begin until 2012.
- (16) Includes \$653,847 of severance benefits and non-compete incentive payments in connection with Mr. Yang's resignation from the Company as Senior Vice President, International, in addition to a \$91,503 cash payment for accrued but unused paid time off due to him as a result of his resignation. Prior to his resignation and while he was serving as Senior Vice President, International, Mr. Yang received \$14,700 in Company matching contributions under its 401(k) Retirement Investment Plan, as well as \$11,796 of total perquisites and other personal benefits comprised of items (iii), (iv), (v) and (vi) described above in footnote 5.
- (17) The increase in total compensation for Messrs. Holiday McCracken and Lavery from 2010 to 2011 is primarily related to the reporting requirements for different types of long-term incentive awards. As discussed above, in each of 2011 and 2010, the targeted long-term incentive award value for Messrs. Holiday, McCracken and Lavery was \$350,000. In 2011 the long-term incentives were allocated equally between phantom units and stock options. In 2010, for each of Messrs. Holiday and McCracken, they were allocated equally among stock options, restricted stock units, and performance cash units, and for Mr. Lavery, among stock options, a cash retention incentive payment and performance cash units. Applicable rules require that stock options, phantom stock units, restricted stock units and cash retention incentive payments be reported in full as of the date of grant. Performance cash units, however, are reported only if and when ultimately paid. Consequently, 100% of the long-term incentives for these executives were reported in the summary compensation table in 2011 but only 66.67% of the long-term incentives were reported for 2010.
- For Messrs. Fellows and Yang, the increase in total compensation is primarily attributable to the payment of termination benefits pursuant to the terms of their previously negotiated employment contracts.

- (1) The amounts shown with a grant date value of January 27, 2011 reflect the grant of phantom stock units (PSUs). Each PSU represents the right to receive upon vesting a cash payment equal to the value of one share of the Company's common stock on the vesting date. The PSUs are scheduled to vest on January 27, 2014 provided that the recipient remains employed by the Company on the date of vesting. The PSUs do not have voting rights and do not accrue dividend equivalent rights.
- (2) The amounts shown reflect the number of shares underlying stock options granted pursuant to the 2004 Equity Incentive Plan. Stock options vest ratably over a three-year period and have a ten-year term.
- (3) The exercise price per share of all options granted in 2011 equals the closing market price per share of the Company's Common Stock on the grant date. As reported by the New York Stock Exchange, the closing price per share of the Company's Common Stock was \$7.51 on January 27, 2011.
- (4) The amount reflects 500,000 shares underlying stock appreciation rights granted pursuant to the 2004 Equity Incentive Plan to Mr. Thornley as interim President and Chief Executive Officer. Pursuant to the terms of the award, the stock appreciation rights were scheduled to vest 100% on June 29, 2012 but, in connection with his resignation as interim President and Chief Executive Officer, 325,000 of these stock appreciation rights vested and 125,000 were cancelled on March 5, 2012.
- (5) The amount reflects the number of units underlying restricted stock unit awards with a grant date of May 18, 2011 pursuant to the 2001 Non-Employee Directors Stock Incentive Plan granted to Mr. Thornley as part of his annual Director grant, which award was granted prior to Mr. Thornley's appointment as interim President and Chief Executive Officer. The restricted stock units are scheduled to vest 100% on May 18, 2014.
- (6) The amounts shown in this row reflect the estimated threshold, target and maximum amounts that could have been paid to the named executive officer under the 2011 annual cash incentive program, the material terms of which are described under Compensation Discussion and Analysis Components of the 2011 Executive Compensation Program Analysis of Annual Incentives. No amounts were or will be paid out under the 2011 program as the requisite performance criteria were not achieved.

Potential Payments Upon Termination or Change in Control

Each of the current named executive officers, except for Mr. Thornley, has an employment agreement with the Company that provides for potential payments to such executive officer or other benefits (*e.g.*, acceleration of vesting of long-term incentive awards) under certain circumstances following termination of employment or upon a change in control of the Company. The types and amounts of these potential payments vary depending on the following circumstances: (i) voluntary resignation by the executive officer or termination by the Company for substantial cause, (ii) termination by the Company without substantial cause, termination by the executive officer

following material breach by the Company of the employment agreement or the Company failing to renew the employment agreement within 45 days of expiration of its term, (iii) a termination event within one year following a change in control or (iv) permanent disability of the executive officer. In addition, the terms governing the long-term incentive awards granted to each of the named executive officers generally provide for the vesting of the awards immediately prior to a change in control, subject to the Compensation Committee taking action to provide they do not vest. The Company's 401(k) Retirement Investment Plan provides for full vesting of all Company matching contribution payments for all plan participants, including the named executive officers, immediately prior to a change in control and in the event of a termination due to permanent disability. The potential payments to be made under these varying circumstances, including the conditions and schedules for such payments, are described in this Proxy Statement under Compensation Discussion and Analysis Employment Agreements. That description also provides the relevant definitions of substantial cause, special severance, incentive payments, change in control, and termination event.

Payments Made Upon Any Termination

Regardless of the manner in which a named executive officer's employment terminates, he is entitled to receive amounts earned during his term of employment. These amounts include:

Accrued but unpaid base salary; and

Accrued but unused paid time off.

Basis of Presentation and Underlying Assumptions

The tables below quantify the potential payments and benefits that would be provided to each named executive officer under each termination or change in control circumstance listed. The amounts shown are based on the assumption that the triggering event took place on December 30, 2011, which was the last business day of 2011, and are based on the \$5.53 per share closing market price of the Company's Common Stock on such date. It also assumes the triggering event resulted in the immediate vesting of all unvested long-term incentives. For the purposes of the following tables, the values for stock options are the intrinsic values of the unvested portion of the stock options accelerated as a result of the applicable triggering event, calculated based on the spread (if any) between the closing market price of the Company's Common Stock on December 30, 2011, and the exercise prices of such accelerated option shares. Such incremental amounts are in addition to the value of the vested portion of these options, if any, and other options held by the named executive officer that were fully vested as of December 30, 2011, as reflected in the Outstanding Equity Awards at Fiscal Year-End 2011 table. A different valuation method for such accelerated options would be used for purposes of evaluating any excise tax liability pursuant to 280G of the Internal Revenue Code (IRC). The values for the performance cash unit awards reflect the cash values of the awards for target performance, the level at which the awards would have been paid out upon the triggering event. The values for restricted stock unit awards reflect the aggregate market value (based on the per share closing market price) at December 31, 2011 of the number of shares underlying the units for which vesting would have accelerated and restrictions would have lapsed upon the triggering event. The values of dividend equivalent rights accrued as of December 30, 2011, including fractional shares, are included in the values shown for restricted stock unit awards. Amounts shown for COBRA and CalCOBRA insurance benefits are calculated through the applicable severance period and are based on premiums for COBRA coverage for health, dental, vision and prescription for up to 18 months following termination and thereafter the premiums for CalCOBRA coverage for health and prescription. Such COBRA and CalCOBRA premiums are calculated based on the coverage selected by the executive officers as of December 30, 2011 and are based on premium rates in effect at that time, which coverage and rates may vary during a severance period. Amounts shown for special severance and incentive payments assume continuous compliance with the conditions for payment set forth in the applicable employment agreement. Special severance and incentive payments may be delayed for six months following a termination event pursuant to Section 409A of the IRC and the rules and regulations promulgated thereunder, and such amounts if delayed will be paid promptly after six months with interest calculated at the applicable one-year Treasury Bill rate. Amounts payable to each named executive officer with respect to a

change in control or a termination event within one year of a change in control, are subject to reduction in accordance with the officer's employment agreement to avoid imposition of excise tax for parachute payments within the meaning of Section 280G of the IRC. See above, Compensation Discussion and Analysis Employment Agreements Excise Taxes. On December 31, 2011, parachute payment valuations would not result in any 280G impact for any of the named executive officers. The following tables are based upon a theoretical triggering event. The actual amounts to be paid to any named executive officer in the event of his termination or a change in control, and the timing of such payments, and the value of any equity award acceleration benefits can only be determined at the time of, and under the circumstances of, an actual triggering event and in accordance with applicable law then in effect and reasonable interpretations thereof.
