Agenus to Join Russell 3000 Index, Global Index, and MicroCap Index

LEXINGTON, MA June 18, 2012 Agenus, Inc. (NASDAQ: AGEN), a biotechnology company working to develop treatments for cancers and infectious diseases, today announced that it is set to join the broad-market Russell 3000® Index, Russell Global Index, and Russell Microcap® Index when Russell Investments reconstitutes its comprehensive set of U.S. and global equity indexes on June 25, according to a preliminary list of additions on www.russell.com.

Annual reconstitution of Russell's U.S. indexes captures the 4,000 largest U.S. stocks as of the end of May, ranking them by total market capitalization. Russell determines membership for its equity indexes primarily by objective, market-capitalization rankings and style attributes. Membership in the Russell Indexes remains in place for one year.

We are pleased to be included in the 2012 reconstitution of the Russell Indexes, said Garo H. Armen, Ph.D., chairman and CEO of Agenus. We expect our new presence in three of the indexes will expose Agenus to a wider range of institutions and investors, allowing us to broaden our shareholder base.

Membership in the Russell 3000 means automatic inclusion in the large-cap Russell 1000® Index or small-cap Russell 2000® Index as well as the appropriate growth and value style indexes. The Russell 3000 also serves as the U.S. component to the Russell Global Index, which Russell launched in 2007.

Membership in the Russell Global Index means automatic inclusion in the appropriate large-cap, small-cap, all-cap indexes as well as the applicable style, sector and country indexes. The Russell Global Index, which captures approximately 98% of investable securities globally, is reconstituted annually and all sub-indexes are recalibrated simultaneously to accurately measure current market realities for each market segment.

Membership in the Russell Microcap Index means automatic inclusion in the appropriate growth and value style indexes.

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for both passive and active investment strategies. In the institutional marketplace, an industry-leading \$3.9 trillion in assets currently are benchmarked to them. Russell calculates more than 80,000 benchmarks daily covering approximately 98 percent of the investable market globally, 83 countries and more than 10,000 securities.

Total returns data for the Russell 3000 Index, Russell Global Index, Russell Microcap Index and other Russell Indexes is available at http://www.russell.com/indexes/data/US_Equity/Russell_US_Index_returns.asp.
