Report of Independent Registered Public Accounting Firm

To the Retirement Plan Administrative Committee of

The Nielsen Company Savings Plan

We have audited the accompanying statements of net assets available for benefits of The Nielsen Company Savings Plan (the Plan) as of December 31, 2011 and 2010 and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010 and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. Plan Description

The following description of The Nielsen Company Savings Plan (the Plan), provides only general information. A more complete description of the Plan, including eligibility requirements and vesting provisions, is contained in the Plan document.

General

The Plan is a retirement savings plan which covers all eligible hourly paid employees of TNC (U.S.) Holdings, Inc. and its subsidiaries and affiliates (collectively, the Company or Nielsen). The Plan provides deferred compensation benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was established on January 1, 2006.

The Company is also the sponsor of The Nielsen Company 401(k) Savings Plan (the 401(k) Plan), a defined contribution plan established for salaried employees. When a participant s employment status changes from hourly paid to salaried, such participant will remain in the Plan for the balance of the Plan year. If the participant s status does not change again before the end of the Plan year, the participant s participation in the Plan will end and will begin in the 401(k) Plan on the first of January immediately following the change in status (see Note 9).

Effective January 1, 2010, employees of The Cambridge Group, Inc. (Cambridge), which was acquired by the Company, were eligible to participate in the Plan. The assets of participants who were employees of Cambridge were transferred into the Plan effective January 2010. The Cambridge employees were credited with their prior service in the Plan for vesting and eligibility purposes. The benefit plan of Cambridge was merged with the Plan in January 2010.

Fidelity Management Trust Company (the Trustee) manages several separate investment funds (the Trust) on behalf of the Plan. The Trustee has been granted custodial authority over the Trust, and serves as an independent investment advisor and has been appointed to work with the Retirement Plan Administrative Committee (the Committee) to determine which investment options are offered to participants. The Committee is responsible for the administration of the Plan. Each participant s account is invested in the investment funds in the proportion directed by the participant for both employer and employee contributions.

Effective October 4, 2011, participants were allowed to invest in the Nielsen Stock Fund, an investment fund that exclusively invests in the common stock of Nielsen Holdings N.V., the ultimate parent of the Company.

Eligibility

As described in the Plan document, full-time hourly employees can participate in the Plan on the date of their employment. Part-time hourly employees are eligible to participate upon completion of one year of service in which the employee earns at least 1,000 hours. A part-time employee who fails to earn 1,000 hours during the first 12 months of employment will become eligible to participate on January 1 following the first calendar year in which an employee works 1,000 hours.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Contributions

The Plan provides for contributions made by eligible employees and by the Company. The Plan allows for the following types of contributions:

Compensation reduction (before tax and after tax)

Catch-up contributions

Rollover contributions

Roth contributions (after tax)

Employer matching contributions

Employer discretionary contributions

Employer profit sharing contributions

Qualified employer profit sharing contributions

The compensation reduction contribution is a contribution of 1% to 50% of an employee s eligible compensation, subject to certain IRS limitations made to a participant s account through payroll deductions as elected by the employee. Employee contributions may be further limited as a result of various tests, required under ERISA, including those related to highly compensated employees. The per employee maximum dollar limit for the compensation reduction contribution was \$16,500 for the year ended December 31, 2011. Participants who are at least 50 years of age are eligible to make a catch-up contribution if the participant contributes at least 6% of eligible compensation and the statutory maximum before tax compensation reduction contribution. Catch-up contributions are limited by statute to \$5,500 for 2011. Employees may also make rollover contributions of vested benefits from other defined contribution plans.

The employer matching contributions are equal to 50% of a participant s before tax compensation reduction contribution, up to a maximum of 6% of the participant s eligible compensation.

The employer profit sharing contribution is a discretionary contribution made by the Company and allocated to all employees regardless of whether the employee elected to make voluntary compensation reduction contributions to the Plan. These contributions would be allocated to each employee s account in the same proportion that each employee s eligible compensation, as limited by the Internal Revenue Code (\$245,000 for 2011) bears to the total compensation of all employees who qualify. The Trustee will open eligible accounts for those qualifying employees who have elected not to make voluntary compensation reduction contributions to the Plan. An employee who is not a participant will become partially or fully vested in his account in the same manner as in the vesting requirements described in Note 1. The Company did not make any employer profit sharing contribution in 2011.

Edgar Filing: Nielsen Holdings N.V. - Form 11-K

The qualified employer profit sharing contribution is a discretionary contribution made by the Company and allocated to all non-highly compensated employees regardless of whether or not the non-highly compensated employee elected to make voluntary compensation reduction contributions to the Plan. These contributions are allocated to such non-highly compensated employee s account in the same proportion that each non-highly compensated employee s eligible compensated to the total eligible compensation of all non-highly compensated employees who qualify. The Trustee will open accounts for those non-highly compensated employees who have elected not to make voluntary compensation reduction contributions to the Plan. A non-highly compensated employee who is not a participant will become partially or fully vested in his account in the same manner as in the vesting requirements documented in Note 1. No qualified employer profit sharing contribution was made in 2011.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Participant Accounts

Each participant s account is credited with the participant s compensation reduction contribution, catch-up contribution, Roth contribution, rollover contribution, employer matching contribution, employer discretionary contribution, an allocation of both employer profit sharing contribution and qualified employer profit sharing contribution, and Plan earnings, as defined in the Plan. The benefit to which a participant is entitled is that attributable to his or her vested balance.

Vesting

A participant is entitled to a 100% non-forfeitable interest in the value of his account attributable to compensation reduction contributions, catch-up contributions, rollovers, and qualified employer profit sharing contributions at all times, along with Plan earnings thereon.

A participant becomes fully vested in his account attributable to employer matching contributions, employer discretionary contributions, and employer profit sharing contributions, as follows:

Years of Service	Vesting Percentages
1	0%
2	0%
3	100%

Retirement

The normal retirement date is defined as the anniversary date nearest to the date the participant attains age 65. Early retirement is available at age 55. If a participant retires prior to the normal retirement date and has a vested account balance of greater than \$5,000, the participant must submit a request in writing in order to receive a distribution prior to the normal retirement age.

Distribution of Benefits

Upon separation from service, a participant can request a withdrawal of the vested portion of the amount credited to his or her account. In the case of death or disability, the participant is deemed to be 100% vested. If the participant is married, his or her spouse will automatically become the beneficiary, unless otherwise indicated by the participant. If the participant is single, his or her estate will automatically become the beneficiary, unless otherwise indicated by the participant. A lump sum distribution is the sole distribution option available under the Plan, except for certain grandfathered plan provisions from former plans related to Company acquisitions.

A participant who terminates employment with a vested balance greater than 5,000 may elect to receive a deferred lump sum distribution. As required by statute, no election may be made by a participant to postpone distribution beyond April 1st of the year following the year a participant reaches age 70¹/2.

If a participant terminates employment with a vested balance greater than \$1,000 but less than \$5,000, the participant may elect to receive a lump sum distribution or roll the distribution to a qualifying retirement account. However, if the participant fails to make an affirmative election, the participant s vested balance will automatically roll over to an individual retirement account.

If a participant terminates employment with a vested balance of \$1,000 or less, an automatic lump sum distribution will be made without the participant s consent. However, the participant may elect to roll over the distribution to another qualifying retirement account.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Withdrawals

A withdrawal cannot be made from the pre-tax compensation reduction contribution account, the catch-up contribution account, the employer matching contribution account, the employer discretionary contribution account, the employer profit sharing contribution account, or the qualified employer profit sharing contribution account by a participant or beneficiary prior to separation from service, death, disability, attainment of age 59 ¹/₂, or termination of the plan without establishment of a successor plan. No withdrawal can be in excess of the vested employee and employer contributions in these accounts. Hardship withdrawals are subject to the approval of the Company. Partial or total withdrawals from employee rollover and after tax contribution accounts can be made at any time.

Forfeitures

Forfeitures only apply to employer matching contribution accounts, employer discretionary contribution accounts, and the employer profit sharing contribution accounts. All forfeitures can be utilized to reduce the employer matching, discretionary and profit sharing contribution or to defray the expenses of the Plan. Total forfeitures of \$30,500 were used to reduce employer matching contributions for 2011. At December 31, 2011 and 2010, the Plan s forfeiture account balance of \$4,752 and \$14,997, respectively, were included in the statements of net assets available for benefits.

Rollovers

A participant may rollover all or part of his or her vested interest in another tax-qualified plan subject to the approval of the Trustee as the Plan s representative. The participant will be 100% vested in this account and the rollover account will not be subject to forfeiture for any reason.

Notes Receivable from Participants

A participant may request a loan of up to 50% of his or her vested account balance, not to exceed \$50,000. The note receivable shall bear interest at one percent (1%) over the prime rate as calculated by Reuters on the last business day of the month immediately preceding the date the loan is granted. The interest rate at the inception of the loan shall remain in effect for the duration of the loan. Interest on participant loans ranged from 4.25% to 9.25% at December 31, 2011 and 2010. Loans are repayable over a period not to exceed 60 months, except for mortgage loans for a primary residence, which may be for a period not to exceed the lesser of the remaining years to retirement or 30 years. Loans are collateralized by the participant s vested account balance. Principal and interest are paid ratably through monthly payroll deductions.

2. Summary of Significant Accounting Policies Basis of Accounting

The accompanying financial statements were prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Investments

The Plan s investment assets consist of an interest in a master trust, which are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan s gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by the Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Risks and Uncertainties

The Plan s investments are concentrated in funds that invest in marketable securities. Such securities are subject to various risks that determine the value of the securities. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants account balances and the amounts reported in the financial statements.

Payment of Benefits

Benefits are recorded when paid.

Administrative Fees and Expenses

Expenses of administering the Plan may be paid from either Plan forfeitures or by the Company. All expenses for the plan year ended December 31, 2011 were paid by the Company except for loan administrative expenses and short-term trading fees which were paid from the individual s Plan participant account.

Recent Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board issued Accounting Standard Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends Accounting Standard Codification Topic 820, *Fair Value Measurement*, to result in common fair value measurements and disclosures between accounting principles generally accepted in the United States of America and International Financial Reporting Standards. The amendments explain how to measure fair value. They do not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices outside of financial reporting. The amendments change the wording used to describe fair value measurement requirements and disclosures, but often do not result in a change in the application of current guidance. Certain amendments clarify the intent about the application of existing fair value measurement requirements, while certain other amendments change a principle or requirement for fair value measurement or disclosure. This guidance is effective for the Plan s financial statements for the year ended December 31, 2012. The Plan does not anticipate that the adoption of this guidance will have an impact on the Plan s financial statements.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

3. Investments

The following is a summary of the investment information regarding the Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included in the Plan s financial statements and supplemental schedule.

The investments and the investment results as of December 31, 2011 and 2010 and for the year ended December 31, 2011 were:

	2011	2010
The Nielsen Company Master Trust	\$ 19,788,578(*)	\$ 22,819,327(*)
		2011
Net appreciation/(depreciation) in fair value of investments		
Nielsen stock fund		\$ 1,809
Registered investment companies		(702,901)
Common/collective trusts		38,792
Total net depreciation in fair value of investments		\$ (662,300)
Interest and dividend income		\$ 489,305

(*) Represents 5% or more of total Plan assets.

4. Fully Benefit-Responsive Investment Contracts

Common/collective trusts include Fidelity s Managed Income Portfolio II Fund, one of the Plan s investment options, that invests in fixed-income securities or bond funds and enters into wrap contracts issued by third parties, and invests in cash equivalents represented by shares in money market funds. These investment contracts are fully benefit-responsive and are measured at contract value as described in Note 2. Contract value, as reported in the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investments at contract value. The fair value amounted to approximately \$6.0 million and \$6.9 million as of December 31, 2011 and 2010, respectively. The contract value amounted to \$5.9 million and \$6.8 million as of December 31, 2011 and 2010, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include premature termination of the contracts by the plan, layoffs, plan termination, bankruptcy, mergers and early retirement incentives. The Plan administrator does not believe that the occurrence of any of these events, which would also limit the Plan s ability to transact at contract value with participants, is probable.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield earned by the Plan was approximately 1.57% for 2011 and 1.68% for 2010. The average yield earned by the Plan based on the actual interest rates credited to participants was approximately 1.49% and 1.62% for the year ended December 31, 2011 and 2010, respectively.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

5. The Nielsen Company Master Trust

On January 1, 2006, the Company established The Nielsen Company Master Trust (Master Trust) in order to hold and invest the assets of the Plan and the 401(k) Plan. The undivided interest of the Plan is adjusted (i) for the entire amount of every contribution received on behalf of the Plan, every benefit payment or other expense attributable solely to the Plan, and every other transaction relating only to the Plan; and (ii) for the Plan s proportionate share of every item of collected or accrued income, gain or loss, and general expense, and of any other transactions attributable to the Master Trust or investment option as a whole.

Assets of the Master Trust were as follows as of December 31, 2011 and 2010:

	2011	2010
Assets		
Cash, interest bearing	\$ 10,305,793	\$ 7,516,947
Nielsen stock fund	608,513	
Registered investment companies	597,380,677	620,773,697
Common/collective trusts	182,753,683(*)	196,427,841(*)
Total assets	\$ 791,048,666(*)	\$ 824,718,485(*)

Investments results of the Master Trust were as follows for the year ended December 31, 2011:

Net appreciation/(depreciation) in fair value of investments	
Nielsen stock fund	\$ 39,729
Registered investment companies	(33,581,409)
Common/collective trusts	1,370,789
Total net depreciation in fair value of investments	(32,170,891)
Interest and dividends	20,130,156
Administrative expenses	(66,138)
Net transfers out of the Master Trust	(21,562,946)
Decrease in net assets of the Master Trust	\$ (33,669,819)

Allocations of the net assets of the Master Trust to the participating plans as of December 31, 2011 and 2010 are as follows:

	2011	
	Amount	Percent
The Nielsen Company 401(k) Savings Plan	\$ 771,260,088(*)	97.5%
The Nielsen Company Savings Plan	19,788,578(*)	2.5
	\$ 791,048,666	100.0%

Edgar Filing: Nielsen Holdings N.V. - Form 11-K

	2010	
	Amount	Percent
The Nielsen Company 401(k) Savings Plan	\$ 801,899,158(*)	97.2%
The Nielsen Company Savings Plan	22,819,327(*)	2.8
	¢ 004 710 405	100.00
	\$ 824,718,485	100.0%

(*) at fair value with the exception of fully benefit-responsive investment contracts that were reported at contract value

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

6. Fair Value Measurements

The Master Trust complies with the accounting standard which defines fair value, prescribes methods for measuring fair value, establishes a fair value hierarchy based on the input levels to measure fair value and expands financial statement disclosures. The three input levels of the fair value hierarchy are described as follows:

Level 1 Quoted prices for identical assets or liabilities in active markets.

<u>Level 2</u> Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; model derived valuations whose inputs are observable.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Cash, interest bearing: Valued at cost which approximates fair value.

Nielsen stock fund: Valued at the quoted market price of Nielsen Holdings N.V. at the daily close of the New York Stock Exchange.

Registered investment companies: Valued at quoted prices in active markets based on net asset value of the shares determined by the underlying securities held by the Master Trust at year-end.

Common/collective trusts: Valued at net asset value of the shares determined by the underlying securities held by the Master Trust at year-end.

THE NIELSEN COMPANY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Assets of the Master Trust at fair value measured on a recurring basis as of December 31, 2011 are as follows:

		Level	
	Level 1	2	Total
Cash, interest-bearing	\$ 10,305,793	\$	\$ 10,305,793
