NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTSNote A Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. Except as disclosed herein, there has been no material change in the information disclosed in the notes to the consolidated financial statements included in the Annual Report on Form 10-K of Genuine Parts Company (the Company) for the year ended December 31, 2011. Accordingly, the unaudited interim condensed consolidated financial statements and related disclosures herein should be read in conjunction with the Company's 2011 Annual Report on Form 10-K.

The preparation of interim financial statements requires management to make estimates and assumptions for the amounts reported in the condensed consolidated financial statements. Specifically, the Company makes estimates and assumptions in its interim consolidated financial statements for inventory adjustments, the accrual of bad debts, and volume incentives earned, among others. Inventory adjustments (including adjustments for a majority of inventories that are valued under the last-in, first-out (LIFO) method) are accrued on an interim basis and adjusted in the fourth quarter based on the annual book to physical inventory adjustment and LIFO valuation, which can only be performed at year-end. Bad debts are accrued based on a percentage of sales. Volume incentives are estimated based upon cumulative and projected purchasing levels. The estimates and assumptions for interim reporting may change upon final determination at year-end, and such changes may be significant.

In the opinion of management, all adjustments necessary for a fair presentation of the Company's financial results for the interim periods have been made. These adjustments are of a normal recurring nature. The results of operations for the six month period ended June 30, 2012 are not necessarily indicative of results for the entire year. The Company has evaluated subsequent events through the date the financial statements covered by this quarterly report were issued.

Note B Segment Information

Interest expense, net	(5,019)	(6,236)	(9,734)	(12,736)
Other, net	(19,251)	(16,836)	(34,738)	(29,738)
<b>Income before income taxes</b>	<b>\$ 267,305</b>	<b>\$ 241,551</b>	<b>\$ 495,473</b>	<b>\$ 433,531</b>

Net sales by segment exclude the effect of certain discounts, incentives and freight billed to customers. The line item Other represents the net effect of the discounts, incentives and freight billed to customers, which is reported as a component of net sales in the Company's condensed consolidated statements of income and comprehensive income.

Note C Comprehensive Income

Comprehensive income was \$338.5 million and \$318.2 million for the six months ended June 30, 2012 and 2011, respectively. The difference between comprehensive income and net income was due to foreign currency translation adjustments and pension and other post-retirement benefit adjustments, as summarized below:

	Six months Ended June 30,	
	2012	2011
	(in thousands)	
Net income	\$ 314,873	\$ 278,327
Other comprehensive income:		
Foreign currency translation	3,925	26,363
Pension and other post-retirement benefit adjustments:		
Recognition of prior service credit, net of tax	(2,474)	(2,519)
Recognition of actuarial loss, net of tax	22,143	16,028
<b>Total other comprehensive income</b>	<b>23,594</b>	<b>39,872</b>
<b>Comprehensive income</b>	<b>\$ 338,467</b>	<b>\$ 318,199</b>

Comprehensive income for the three months ended June 30, 2012 and 2011 totaled \$163.7 million and \$163.4 million, respectively.

Note D Recently Adopted Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board issued Accounting Standards Update ( ASU ) 2011-05, *Presentation of Comprehensive Income*, which requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate, but consecutive statements for annual periods. Additionally, ASU 2011-05 eliminates the option to present comprehensive income and its components as part of the statement of stockholders' equity. For interim periods, an entity is only required to present a total for comprehensive income. ASU 2011-05 is effective for the Company's interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-05 only changed the manner of comprehensive income presentation in the condensed consolidated financial statements for the six months ended June 30, 2012 and 2011. The adoption of this ASU had no impact on the Company's reported financial position, cash flows, or results of operations in the interim condensed consolidated financial statements, and will have no impact on the annual consolidated financial statements.

Note E Share-Based Compensation

As more fully discussed in Note 5 of the Company's notes to the consolidated financial statements in its 2011 Annual Report on Form 10-K, the Company maintains various long-term incentive plans, which provide for the granting of stock options, stock appreciation rights ( SARs ), restricted stock, restricted stock units ( RSUs ), performance awards, dividend equivalents and other share-based awards. SARs represent a right to receive upon exercise an amount, payable in shares of common stock, equal to the excess, if any, of the fair market value of the Company's common stock on the date of exercise over the base value of the grant. The terms of such SARs require net settlement in shares of common stock and do not provide for cash settlement. RSUs represent a contingent right to receive one share of the Company's common stock at a future date. The majority of awards previously granted vest on a pro-rata basis for periods ranging from one to five years and are expensed accordingly on a straight-line basis. The Company issues new shares upon exercise or conversion of awards under these plans. Most awards may be exercised or converted to shares not earlier than twelve months nor later than ten years from the date of grant. At June 30, 2012, total compensation cost related to nonvested awards not yet recognized was approximately \$25.7 million, as compared to \$15.9 million at December 31, 2011. The weighted-average period over which this compensation cost is expected to be recognized is approximately three years. The aggregate intrinsic value for options, SARs and RSUs outstanding at June 30, 2012 was approximately \$89.1 million. At June 30, 2012, the aggregate intrinsic value for options, SARs and RSUs vested totaled approximately \$59.4 million, and the weighted-average contractual life for outstanding and exercisable options, SARs and RSUs was approximately six and five years, respectively. For the six months ended June 30, 2012, \$5.1 million of share-based compensation cost was recorded, as compared to \$4.0 million for the same period in the prior year. On April 2, 2012, the Company granted approximately 858,000 SARs and 145,000 RSUs.

Edgar Filing: GENUINE PARTS CO - Form 10-Q

Options to purchase approximately 0.8 million and 0.5 million shares of common stock were outstanding but excluded from the computation of diluted earnings per share for the three and six month periods ended June 30, 2012, as compared to approximately 1.0 million and 0.5 million shares in the three and six month periods of the prior year. These options were excluded from the computation of diluted net income per common share because the options' exercise price was greater than the average market price of the common stock.

Note F Employee Benefit Plans

Net periodic benefit cost included the following components for the three months ended June 30:

	Pension Benefits		Other Post-retirement Benefits	
	2012	2011	2012	2011
	(in thousands)			
Service cost	\$ 3,818	\$ 3,195	\$	\$
Interest cost	25,125	24,077	67	116
Expected return on plan assets	(32,068)	(31,073)		
Amortization of prior service credit	(1,744)	(1,753)	(233)	(265)
Amortization of actuarial loss	17,740	12,678	317	434
Net periodic benefit cost	\$ 12,871	\$ 7,124	\$ 151	\$ 285

Net periodic benefit cost included the following components for the six months ended June 30:

	Pension Benefits		Other Post-retirement Benefits	
	2012	2011	2012	2011
	(in thousands)			
Service cost	\$ 7,651	\$ 6,382	\$	\$
Interest cost	50,269	48,141	134	233
Expected return on plan assets	(64,162)	(62,126)		
Amortization of prior service credit	(3,492)	(3,503)	(466)	(530)
Amortization of actuarial loss	35,495	25,349	634	867
Net periodic benefit cost	\$ 25,761	\$ 14,243	\$ 302	\$ 570

Pension benefits also include amounts related to a supplemental retirement plan. During the six months ended June 30, 2012, the Company did not make a contribution to the pension plan.

Note G Guarantees

The Company guarantees the borrowings of certain independently controlled automotive parts stores ( independents ) and certain other affiliates in which the Company has a noncontrolling equity ownership interest ( affiliates ). Presently, the independents are generally consolidated by unaffiliated enterprises that have a controlling financial interest through ownership of a majority voting interest in the entity. The Company has no voting interest or direct or indirect equity ownership interest in any of the independents. The Company does not control the independents or the affiliates but receives a fee for the guarantee. The Company has concluded that the independents are variable interest entities but that the Company is not the primary beneficiary. Specifically, the equity holders of the independents have the power to direct the activities that most significantly impact the entity's economic performance including, but not limited to, decisions about hiring and terminating personnel, local marketing and promotional initiatives, pricing and selling activities, credit decisions, monitoring and maintaining appropriate inventories, and store hours. Separately, the Company concluded the affiliates are not variable interest entities. The Company's maximum exposure to loss as a result of its involvement with these independents and affiliates is equal to the total borrowings subject to the Company's guarantee. While such borrowings of the independents and affiliates are outstanding, the Company is required to maintain compliance with certain covenants, including a maximum debt to capitalization ratio and certain limitations on additional borrowings. At June 30, 2012, the Company was in compliance with all such covenants.

At June 30, 2012, the total borrowings of the independents and affiliates subject to guarantee by the Company were approximately \$224.0 million. These loans generally mature over periods from one to six years. In the event that the Company is required to make payments in connection with guaranteed obligations of the independents or the affiliates, the Company would obtain and liquidate certain collateral (e.g., accounts receivable and inventory) to recover all or a portion of the amounts paid under the guarantee. When it is deemed probable that the Company will incur a loss in connection with a guarantee, a liability is recorded equal to this estimated loss. To date, the Company has had no significant losses in connection with guarantees of independents and affiliates borrowings.

The Company has accrued for certain guarantees related to the independents and affiliates borrowings as of June 30, 2012. These liabilities are not material to the financial position of the Company and are included in Other long-term liabilities in the accompanying condensed consolidated balance sheets.

#### Note H Fair Value of Financial Instruments

The carrying amounts reflected in the condensed consolidated balance sheets for cash and cash equivalents, trade accounts receivable and trade accounts payable approximate their respective fair values based on the short-term nature of these instruments. At June 30, 2012, the fair value of fixed rate debt was approximately \$513.2 million. The fair value of fixed rate debt is designated as Level 2 in the fair value hierarchy (i.e., significant observable inputs) and is based primarily on the discounted value of future cash flows using current market interest rates offered for debt of similar credit risk and maturity.

#### Note I Equity Investment

Effective January 1, 2012, the Company acquired a 30% investment in the Exego Group for approximately \$165.6 million. The acquisition was funded with the Company's cash on hand. The Exego Group, which is headquartered in Melbourne, Australia, is a leading aftermarket distributor of automotive replacement parts and accessories in Australasia, with annual revenues of approximately \$1 billion and a company-owned store footprint of more than 430 locations across Australia and New Zealand. The Company has an option to acquire the remaining 70% of Exego at a later date contingent upon Exego achieving certain earnings thresholds. However, there can be no guarantee that such thresholds will be met or, if they are met, whether the Company would exercise its purchase option. The Company has accounted for the investment under the equity method of accounting.

#### Note J Acquisitions

On May 1, 2012 the Company acquired Quaker City Motor Parts Co. ( Quaker City ) for approximately \$330 million, net of cash acquired. Quaker City, headquartered in Middleton, Delaware, is a long-standing NAPA distributor with annual revenues of approximately \$300 million. Quaker City serves approximately 270 auto parts stores, of which approximately 140 are company-owned. The Company funded the acquisition with cash on hand and short-term borrowings under credit facilities. In connection with this acquisition, the Company entered into a \$200 million unsecured credit facility on April 23, 2012. The facility matures upon the earlier of September 15, 2012 or the date the Company's existing \$350 million credit facility is refinanced, which expires in December 2012. The credit facility bears interest at LIBOR plus 0.5%. No amounts were outstanding under this facility at June 30, 2012.

The results of operations for Quaker City were included in the Company's condensed consolidated statements of income beginning on the acquisition date. The Company recorded approximately \$210 million of goodwill and other intangible assets associated with the acquisition. The Company is in the process of analyzing the estimated values of assets and liabilities acquired as of the acquisition date and is obtaining third-party valuations of certain tangible and intangible assets. The acquisition accounting is therefore preliminary and subject to revision.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and accompanying notes contained herein and with the audited consolidated financial statements, accompanying notes, related information and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2011.

---

Forward-Looking Statements

Some statements in this report, as well as in other materials we file with the Securities and Exchange Commission (SEC) or otherwise release to the public and in materials that we make available on our website, constitute forward-looking statements that are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Senior officers may also make verbal statements to analysts, investors, the media and others that are forward-looking. Forward-looking statements may relate, for example, to future operations, prospects, strategies, financial condition, economic performance (including growth and earnings), industry conditions and demand for our products and services. The Company cautions that its forward-looking statements involve risks and uncertainties, and while we believe that our expectations for the future are reasonable in view of currently available information, you are cautioned not to place undue reliance on our forward-looking statements. Actual results or events may differ materially from those indicated as a result of various important factors. Such factors may include, among other things, slowing demand for the Company's products, changes in general economic conditions, including, unemployment, inflation or deflation, high energy costs, uncertain credit markets and other macro-economic conditions, the ability to maintain favorable vendor arrangements and relationships, disruptions in our vendors' operations, competitive product, service and pricing pressures, the Company's ability to successfully implement its business initiatives in each of its four business segments, the Company's ability to successfully integrate its acquired businesses, the uncertainties and costs of litigation, as well as other risks and uncertainties discussed in the Company's Annual Report on Form 10-K for 2011 and from time to time in the Company's subsequent filings with the SEC.

Forward-looking statements are only as of the date they are made, and the Company undertakes no duty to update its forward-looking statements except as required by law. You are advised, however, to review any further disclosures we make on related subjects in our subsequent Forms 10-K, 10-Q, 8-K and other reports to the SEC.

Overview

Genuine Parts Company is a service organization engaged in the distribution of automotive replacement parts, industrial replacement parts, office products and electrical/electronic materials. The Company has a long tradition of growth dating back to 1928, the year we were founded in Atlanta, Georgia. During the six months ended June 30, 2012, business was conducted throughout the United States, Canada, Mexico and Puerto Rico from approximately 1,900 locations.

For the three months ended June 30, 2012, we recorded consolidated net income of \$168.6 million compared to consolidated net income of \$151.8 million in the same period last year, an increase of 11%. For the six months ended June 30, 2012, we recorded consolidated net income of \$314.9 million compared to consolidated net income of \$278.3 million in the same period last year, an increase of 13%. The Company continues to focus on several initiatives, such as new and expanded product lines, the penetration of new markets (including by acquisitions), and a variety of gross margin and cost savings initiatives to facilitate consistent and steady growth.

Sales

Sales for the second quarter of 2012 were \$3.34 billion, an increase of 5% compared to \$3.18 billion for the same period in 2011. For the six months ended June 30, 2012, sales were \$6.52 billion, an increase of 6% compared to \$6.16 billion in the same period of the prior year.

Sales for the Automotive Parts Group increased 4% in the second quarter of 2012 and 5% for the six months ended June 30, 2012, as compared to the same periods in the previous year. The increase in this group's revenues was primarily due to the acquisition of Quaker City Motor Parts Co. (Quaker City). In addition, slight pricing deflation and unfavorable foreign exchange rates associated with our Canadian and Mexican businesses negatively impacted sales in the second quarter and six months ended June 30, 2012 by approximately 1%. We expect sales in the Automotive Parts Group to continue to increase at more modest growth rates due to a moderation in the economy coupled with recent declines in consumer confidence indices. The Industrial Products Group's sales increased by 8% and 10% for the three and six month periods ended June 30, 2012, as compared to the same period in 2011, respectively. Price inflation was not a material factor to sales in the second quarter and six month periods ended June 30, 2012. Industrial market indices, such as Industrial Production and Capacity Utilization, remained at healthy levels over the three and six month periods ended June 30, 2012, indicating ongoing improvement in the manufacturing sector of the economy served by the Industrial Parts Group. As a result, we expect sales in our Industrial Products Group will continue to grow. Sales for the Office Products Group decreased by approximately 1% for the three and six month periods ended June 30, 2012, as compared to the same periods in 2011. Sales volume for this group declined by approximately 2% and 3% in the second quarter and six month periods ended June 30, 2012, respectively, which was partially offset by price inflation of approximately 2%. With white-collar employment a leading indicator for this segment, the overall office products industry continues to experience soft market conditions. Sales for the Electrical/Electronic Materials Group increased 9% and 7% for the three and six month periods ended June 30, 2012, as compared to the same period of the previous year, respectively. Sales volume was down by approximately 2% in the second quarter and six month periods ended June 30, 2012. Price deflation, including the impact of copper pricing decreased sales by approximately 2% for the three and six month periods ended June 30, 2012. However, the decreased sales volume and price deflation were more than offset by acquisitions that contributed approximately 12% and 11% to sales for the three and six month periods of 2012, respectively, as compared to the same periods of the prior year. We expect continued growth for this group over the remainder of the year.

---

Cost of Goods Sold/Expenses

Cost of goods sold for the second quarter of 2012 was \$2.37 billion, a 4% increase from \$2.27 billion for the second quarter of 2011. The increase in cost of goods sold for the second quarter was primarily related to the sales increase for the same period. As a percentage of net sales, cost of goods sold represented 70.9% of net sales for the three month period ended June 30, 2012, as compared to 71.2% for the same period of the prior year. For the six months ended June 30, 2012, cost of goods sold was \$4.63 billion, a 5% increase from \$4.39 billion for the same period last year, and as a percent of sales decreased to 71.0% compared to 71.4%. Our cost of sales includes the total cost of merchandise sold, including freight expenses associated with moving merchandise from our vendors to our distribution centers and retail stores, vendor income and inventory adjustments. Gross profit as a percentage of net sales may fluctuate based on (i) changes in merchandise costs and related vendor income or vendor pricing, (ii) variations in product and customer mix, (iii) price changes in response to competitive pressures and (iv) physical inventory adjustments.

Total operating expenses of \$705.0 million decreased slightly to 21.1% of net sales for the second quarter of 2012 compared to \$674.6 million, or 21.2% of sales for the same period of the prior year. For the six months ended June 30, 2012, these expenses totaled \$1.40 billion, or 21.4% of sales, an improvement from \$1.33 billion, or 21.6% of sales for the same period in the prior year. The decrease in operating expenses as a percentage of net sales for the second quarter ended June 30, 2012 is due to approximately \$4 million in cost savings initiatives recognized in the second quarter and \$14 million recognized in the six months ended June 30, 2012, as well as the benefit of greater expense leverage associated with our 5% and 6% sales growth for the three and six month periods ended June 30, 2012, respectively. Our operating expenses are substantially comprised of compensation and benefit costs for the Company's personnel. Other major expense categories include facility occupancy costs for headquarters, distribution center and store operations, insurance costs, accounting, legal and professional services, transportation and delivery costs, travel and advertising. Management's ongoing cost control measures in these areas have served to improve the Company's cost structure.

Operating Profit

Operating profit of \$291.6 million increased to 8.7% of net sales for the three months ended June 30, 2012, compared to 8.3% for the same period of the previous year. For the six months ended June 30, 2012, operating profit of \$539.9 million increased to 8.3% of net sales, compared to \$476.0 million or 7.7% of net sales in the same period in 2011. This improvement was driven by the increase in gross margin and decrease in operating expenses as a percentage of net sales for the three and six month periods ended June 30, 2012.

The Automotive Parts Group's operating profit increased 10% in the second quarter of 2012 and its operating profit margin increased to 9.3% for the three months ended June 30, 2012, compared to 8.8% in the same period of the prior year. For the six months ended June 30, 2012, operating profit increased 13% compared to the same period of the prior year, and the operating profit margin increased to 8.5% compared to 7.9% for the same period last year. For the three and six month periods ended June 30, 2012, operating profit margin for this group improved due to cost savings and improved expense leverage on increased revenues. The Industrial Products Group had an 11% increase in operating profit in the second quarter of 2012 compared to the second quarter of 2011, and the operating profit margin for this group in the second quarter of 2012 increased to 8.3% compared to 8.1% in the same period of the previous year. Operating profit for the Industrial Products Group increased by 19% for the six month period ended June 30, 2012, compared to the same period in 2011, and the operating profit margin increased to 7.9% compared to 7.4% for the same period in 2011. The improved operating profit margin for this group is due to the combination of increased volume incentives, cost savings and greater expense leverage on sales growth. The Office Products Group's operating profit decreased 2% in the second quarter of 2012 compared to the same three month period in 2011, and the operating profit margin for this group decreased to 7.4% compared to 7.5% in the same period of 2011. For the six months ended June 30, 2012, the Office Products Group's operating profit decreased 1% compared to the same period of the prior year and the operating profit margin remained unchanged at 8.1% for the same period in 2011. The decrease in operating profit margin for this group is a result of decreased expense leverage on sales in the three and six month periods ended June 30, 2012 that was partially offset by the positive impact of 2% price inflation and ongoing initiatives to reduce costs. The Electrical/Electronic Materials Group increased its operating profit by 41% in the second quarter, and its operating profit margin increased to 8.7% compared to 6.7% in the second quarter of the previous year. Operating profit increased by 29% for the six month period ended June 30, 2012, compared to the same period in 2011, and the operating profit margin increased to 8.4% compared to 7.0% for the same six month period in 2011. The improvement in operating profit and operating profit margin for this group is primarily due to the positive margin impact of decreases in copper pricing, as well as the result of cost savings initiatives for the three and six month periods ended June 30, 2012.

---

Income Taxes

The effective income tax rate decreased to 36.9% for the three month period ended June 30, 2012, compared to 37.2% for the same three month period ended June 30, 2011, due to decreased state taxes. The effective income tax rate was 36.5% for the six months ended June 30, 2012, compared to 35.8% for the same period in 2011. The rate increase for the six months ended June 30, 2012 is due to a favorable adjustment recorded in the first three months ended March 31, 2011 associated with the expiration of the statute of limitations related to certain international taxes.

Net Income

Net income for the three months ended June 30, 2012 was \$168.6 million, an increase of 11% as compared to \$151.8 million for the same three month period of 2011. On a per share diluted basis, net income was \$1.08, an increase of 12% as compared to \$.96 for the second quarter of last year. Net income for the six months ended June 30, 2012 was \$314.9 million, an increase of 13% from \$278.3 million recorded in the same period of the previous year. Net income on a per share diluted basis for the six months ended June 30, 2012, was \$2.01, up 14% compared to \$1.76 for the same six month period in 2011.

Financial Condition

The Company's cash balance at June 30, 2012 decreased \$353.5 million or 67% from December 31, 2011, due to \$526.0 million used for acquisitions and other investing activities, \$51.4 million invested in the Company via capital expenditures, and \$55.0 million for share repurchases; offset by a favorable reduction in working capital.

Accounts receivable increased \$144.7 million or 10% from December 31, 2011, which is due to the Company's overall sales increase and acquisitions. Inventory increased \$71.6 million or 3% compared to the inventory balance at December 31, 2011, due to acquisitions. Goodwill and other intangible assets increased \$218.5 million or 78% from December 31, 2011, in association with two acquisitions in the six month period ended June 30, 2012. Other assets increased \$183.9 million or 68% compared to December 31, 2011, which primarily reflects the Company's 30% investment in the Exego Group for approximately \$165.6 million. Accounts payable increased \$158.9 million or 11% from December 31, 2011. This change is primarily due to more favorable payment terms and other payables initiatives negotiated with our vendors in the six months ended June 30, 2012. The Company's debt is discussed below.

Liquidity and Capital Resources

Total debt is at fixed rates of interest and remains unchanged at \$500 million as of June 30, 2012, compared to December 31, 2011. Debt is comprised of two notes of \$250 million each, due in November 2013 and November 2016 carrying an interest rate of 4.67% and 3.35%, respectively.

The ratio of current assets to current liabilities was 2.2 to 1 at June 30, 2012, as compared to 2.5 to 1 at December 31, 2011.

The Company currently believes existing lines of credit and cash generated from operations will be sufficient to fund anticipated operations, including share repurchases, if any, for the foreseeable future. The Company maintains a \$350 million unsecured revolving line of credit with a consortium of financial institutions, which matures in December 2012 and bears interest at LIBOR plus .30%. The Company entered into a \$200 million unsecured credit facility on April 23, 2012 in connection with its acquisition of Quaker City. The new facility matures upon the earlier of September 15, 2012 or the date the Company's existing \$350 million credit facility is refinanced, which expires in December 2012. The new credit facility bears interest at LIBOR plus 0.5%. At June 30, 2012, no amounts were outstanding under either the line of credit or new facility.

On May 1, 2012 the Company acquired Quaker City for approximately \$330 million. The Company funded the acquisition with cash on hand and short-term borrowings under credit facilities.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Although the Company does not face material risks related to interest rates and commodity prices, the Company is exposed to changes in foreign currency rates with respect to foreign currency denominated operating revenues and expenses. The Company has translation gains or losses that result from translation of the results of operations of an operating unit's foreign functional currency into U.S. dollars for consolidated financial statement purposes. The Company's principal foreign currency exchange exposure is the Canadian dollar, which is the functional currency of our Canadian operations. As previously noted under Sales, foreign currency exchange exposure, particularly in regard to the Canadian dollar and, to a lesser extent, the Mexican peso, negatively impacted our results for the three and six month periods ended June 30, 2012. There have been no other material changes in market risk from the information provided in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures. Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or furnishes under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 of the SEC that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The following table provides information about the Company's purchases of shares of the Company's common stock during the quarter:

**ISSUER PURCHASES OF EQUITY SECURITIES**

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
April 1, 2012 through				
April 30, 2012	82,531	\$63.96		13,543,461
May 1, 2012 through				
May 31, 2012	317,001	\$61.62	250,000	13,293,461
June 1, 2012 through				
June 30, 2012	709,359	\$59.50	664,700	12,628,761
Totals	1,108,891	\$60.43	914,700	12,628,761

- (1) Includes shares surrendered by employees to the Company to satisfy tax withholding obligations in connection with the vesting of shares of restricted stock, the exercise of stock options and/or tax withholding obligations.
- (2) On November 17, 2008, the Board of Directors announced that it had authorized the repurchase of 15 million shares. The authorization for this repurchase plan continues until all such shares have been repurchased or the repurchase plan is terminated by action of the Board of Directors. Approximately 12.6 million shares authorized in the 2008 plan remain available to be repurchased by the Company. There were no other publicly announced plans as of June 30, 2012.

Item 6. Exhibits

(a) The following exhibits are filed or furnished as part of this report:

- Exhibit 3.1 Amended and Restated Articles of Incorporation of the Company, dated April 23, 2007 (incorporated herein by reference from Exhibit 3.1 to the Company's Current Report on Form 8-K dated April 23, 2007)
- Exhibit 3.2 Bylaws of the Company, as amended and restated (incorporated herein by reference from Exhibit 3.2 to the Company's Current Report on Form 8-K dated August 20, 2007)
- Exhibit 31.1 Certification pursuant to SEC Rule 13a-14(a) signed by the Chief Executive Officer - filed herewith
- Exhibit 31.2 Certification pursuant to SEC Rule 13a-14(a) signed by the Chief Financial Officer - filed herewith
- Exhibit 32.1 Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, signed by the Chief Executive Officer furnished herewith
- Exhibit 32.2 Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, signed by the Chief Financial Officer furnished herewith

Exhibit 101 Interactive data files pursuant to Rule 405 of Regulation S-T:

(i) the Condensed Consolidated Balance Sheets at June 30, 2012 and December 31, 2011; (ii) the Condensed Consolidated Statements of Income and Comprehensive Income for the three month period ended June 30, 2012 and 2011; (iii) the Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2012 and 2011; and (iv) the Notes to the Condensed Consolidated Financial Statements submitted herewith pursuant to Rule 406T

SIGNATURES
