**Atlas Air Worldwide Holdings, Inc.**

**Notes to Unaudited Consolidated Financial Statements**

**March 31, 2015**

**1. Basis of Presentation**

Our consolidated financial statements include the accounts of the holding company, Atlas Air Worldwide Holdings, Inc. ( AAWW ) and its consolidated subsidiaries. AAWW is the parent company of its principal operating subsidiary, Atlas Air, Inc. ( Atlas ), and of Polar Air Cargo LLC ( Old Polar ). AAWW is also the parent company of several subsidiaries related to our dry leasing services (collectively referred to as Titan ).

The terms we, us, our, and the Company mean AAWW and all entities included in its consolidated financial statements.

We provide outsourced aircraft and aviation operating services throughout the world, serving Africa, Asia, Australia, Europe, the Middle East, North America and South America through: (i) contractual service arrangements, including those through which we provide aircraft to customers and value-added services, including crew, maintenance and insurance ( ACMI ), as well as those through which we provide crew, maintenance and insurance, with the customer providing the aircraft ( CMI ); (ii) cargo and passenger charter services ( Charter ); and (iii) dry leasing aircraft and engines ( Dry Leasing or Dry Lease ).

The accompanying unaudited consolidated financial statements and related notes (the Financial Statements ) have been prepared in accordance with the U.S. Securities and Exchange Commission (the SEC ) requirements for quarterly reports on Form 10-Q, and consequently exclude certain disclosures normally included in audited consolidated financial statements prepared in conformity with accounting principles generally accepted in the United States of America ( GAAP ). All significant intercompany accounts and transactions have been eliminated. The Financial Statements should be read in conjunction with the audited consolidated financial statements and the notes included in the AAWW Annual Report on Form 10-K for the year ended December 31, 2014, which includes additional disclosures and a summary of our significant accounting policies. The December 31, 2014 balance sheet data was derived from that Annual Report. In our opinion, the Financial Statements contain all adjustments, consisting of normal recurring items, necessary to fairly state the financial position of AAWW and its consolidated subsidiaries as of March 31, 2015, the results of operations for the three months ended March 31, 2015 and 2014, comprehensive income for the three months ended March 31, 2015 and 2014, cash flows for the three months ended March 31, 2015 and 2014, and shareholders' equity as of and for the three months ended March 31, 2015 and 2014.

Our quarterly results are subject to seasonal and other fluctuations, and the operating results for any quarter are therefore not necessarily indicative of results that may be otherwise expected for the entire year.

Except for per share data, all dollar amounts are in thousands unless otherwise noted.

Certain reclassifications have been made to prior periods' consolidated financial statement amounts and related note disclosures to conform to the current year's presentation, including the presentation of segments.

**2. Recent Accounting Pronouncements**

In May 2014, the Financial Accounting Standards Board ( FASB ) amended its accounting guidance for revenue recognition. The fundamental principles of the new guidance are that companies should recognize revenue in a manner that reflects the timing of the transfer of services to customers and consideration that a company expects to receive for the services provided. It also requires additional disclosures necessary for the financial statement users to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. On April 1, 2015, the FASB proposed deferring the effective date by one year to the beginning of 2018. The FASB also proposed permitting early adoption of the standard, but not before the beginning of 2017. We are currently assessing the impact the amended guidance will have on our financial statements.

In April 2015, the FASB amended its guidance for presenting debt issuance costs. The new guidance requires debt issuance costs to be presented in the balance sheet as a reduction of the carrying amount of the related debt liability instead of as an asset. We early adopted this guidance retrospectively effective March 31, 2015 and its adoption did not have a material impact on our financial condition, results of operations or cash flows. The amount of debt issuance costs classified as a reduction of debt was \$52.8 million at March 31, 2015 and \$55.1 million at December 31, 2014.

**Table of Contents****3. Related Parties*****DHL Investment and Polar***

AAWW has a 51% equity interest and 75% voting interest in Polar Air Cargo Worldwide, Inc. ( Polar ). DHL Network Operations (USA), Inc. ( DHL ), a subsidiary of Deutsche Post AG ( DP ), holds a 49% equity interest and a 25% voting interest in Polar. Polar is a variable interest entity that we do not consolidate because we are not the primary beneficiary as the risks associated with the direct costs of operation are with DHL. We record our share of Polar's results under the equity method of accounting. Under a 20-year blocked space agreement (the BSA ), Polar provides air cargo capacity to DHL. Atlas has several agreements with Polar to provide ACMI, CMI, administrative, sales and ground support services to one another. We do not have any financial exposure to fund debt obligations or operating losses of Polar, except for any liquidated damages that we could incur under these agreements. The following table summarizes our transactions with Polar:

	<b>For the Three Months Ended</b>

***GATS***

We hold a 50% interest in Global Aviation Technical Solutions Co, Ltd. ( GATS ), a joint venture with an unrelated third party. The purpose of the joint venture is to purchase rotatable parts and provide repair services for those parts, primarily for our 747-8F aircraft. The joint venture is a variable interest entity that we do not consolidate because we are not the primary beneficiary as we do not exercise financial control. As of March 31, 2015 and December 31, 2014, our investment in GATS was \$16.8 million and \$16.4 million, respectively, and our maximum exposure to losses from the entity is limited to our investment, which is comprised primarily of rotatable inventory parts. GATS does not have any third-party debt obligations. We had Accounts payable to GATS of \$1.4 million as of March 31, 2015 and \$1.5 million as of December 31, 2014.

**4. Special Charge**

During the three months ended March 31, 2015 and March 31, 2014, we recorded adjustments of \$0.4 million and \$0.6 million, respectively, to the Special charge related to the early termination of operating leases for two 747-400BCF aircraft that we parked in December 2013. Substantially all remaining cash payments related to the lease termination costs are expected to be paid in 2015.

During the three months ended March 31, 2014, we recognized \$2.3 million of employee termination benefits related to British Airways Plc's (British Airways) return of three 747-8F aircraft in 2014. In addition, we recognized a reserve of \$5.1 million during the three months ended March 31, 2014 related to a loan from Global Supply Systems Limited (GSS), a consolidated subsidiary, to its 51% U.K. shareholder.

A summary of the Special charge liabilities is as follows:

	<b>Lease Termination Costs</b>	<b>GSS Employee Termination Benefits</b>	<b>Other</b>	<b>Total</b>

**Table of Contents****5. Accrued Liabilities**

Accrued liabilities consisted of the following as of:

	<b>March 31, 2015</b>	<b>December 31, 2014</b>
Maintenance	\$ 69,844	\$ 50,702
Customer maintenance reserves	62,227	64,756

Other	60,129	61,805
<b>Accrued liabilities</b>	<b>\$ 264,705</b>	<b>\$ 251,594</b>

**6. Income Taxes**

Our effective income tax rate was 19.4% for the three months ended March 31, 2015 and 38.7% for the three months ended March 31, 2014. The effective rate for the three months ended March 31, 2015 differed from the U.S. federal statutory rate primarily due to an income tax benefit of \$4.0 million, net of reserves, related to extraterritorial income ( ETI ) from leasing certain of our aircraft. The effective rate for the three months ended March 31, 2014 differed from the U.S. federal statutory rate primarily due to losses associated with GSS for which we have recognized a valuation allowance due to the uncertainty that the benefit of the losses will be realized. The effective rates also differed from the U.S. federal statutory rate due to the income tax impact of foreign operations taxed at different rates, our assertion to indefinitely reinvest the net earnings of certain foreign subsidiaries outside the U.S., U.S. state income taxes, the nondeductibility of certain expenses for tax purposes, adjustments to our liability for uncertain tax positions, and the relationship of these items to our projected operating results for the year. For interim accounting purposes, we recognize income taxes using an estimated annual effective tax rate.

As a result of current and expected future growth in our Dry Leasing business, we determined to indefinitely reinvest the net earnings of certain foreign subsidiaries engaged in this business outside of the U.S. Our effective income tax rates for the three months ended March 31, 2015 and 2014 were favorably impacted by this determination. As of March 31, 2015, our undistributed net earnings of foreign subsidiaries for which deferred taxes have not been provided were \$53.0 million, and the unrecognized deferred tax liability associated with these earnings was \$18.5 million.

**7. Financial Instruments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Inputs used to measure fair value are classified in the following hierarchy:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2

Other inputs that are observable directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, or inactive quoted prices for identical assets or liabilities in inactive markets;

Level 3 Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability. We endeavor to utilize the best available information to measure fair value.

The carrying value of Cash and cash equivalents, Short-term investments and Restricted cash is based on cost, which approximates fair value.

Long-term investments consist of debt securities for which we have both the ability and the intent to hold until maturity. These investments are classified as held-to-maturity and reported at amortized cost. The fair value of our Long-term investments is based on a discounted cash flow analysis using the contractual cash flows of the investments and a discount rate derived from unadjusted quoted interest rates for debt securities of comparable risk. Such debt securities represent investments in Pass-Through Trust Certificates related to enhanced equipment trust certificates ( EETCs ) issued by Atlas in 1998, 1999 and 2000.

## 8. Segment Reporting

We currently have the following three reportable segments: ACMI, Charter and Dry Leasing. We use an economic performance metric ( Direct Contribution ) that shows the profitability of each segment after allocation of operating and ownership costs. The following table sets forth Operating Revenue and Direct Contribution for our reportable segments reconciled to Operating Income and Income before Income Taxes:

**Table of Contents**

	<b>For the Three Months Ended</b>

<b>Operating Income</b>	<b>\$ 56,970</b>	<b>\$ 28,130</b>

\* During the first quarter of 2015, we changed the methodology for allocating certain unallocated expenses to our segments. The prior period information has been adjusted to consistently reflect this change.

We are exposed to a concentration of revenue from the U.S. Military Air Mobility Command (the AMC) and Polar (see Note 3 for further discussion regarding Polar). No other customer accounted for more than 10.0% of our Total Operating Revenue. Revenue from the AMC was \$90.1 million for the three months ended March 31, 2015 and \$62.9 million for the three months ended March 31, 2014. Accounts receivable from the AMC were \$20.3 million and \$15.3 million as of March 31, 2015 and December 31, 2014, respectively. We have not experienced any credit issues with either of these customers.

**9. Legal Proceedings*****Matters Related to Alleged Pricing Practices***

The Company and Old Polar have been named defendants, along with a number of other cargo carriers, in several class actions in the United States arising from allegations about the pricing practices of Old Polar and a number of air

cargo carriers that have now been centralized for pretrial purposes in the United States District Court for the Eastern District of New York. The consolidated complaint alleges, among other things, that the defendants, including the Company and Old Polar, manipulated the market price for air cargo services sold domestically and abroad through the use of surcharges, in violation of United States, state, and European Union antitrust laws. The suit seeks treble damages and injunctive relief.

In 2007, the Company and Old Polar commenced an adversary proceeding in bankruptcy court against each of the plaintiffs in this class action litigation seeking to enjoin the plaintiffs from prosecuting claims against the Company and Old Polar that arose prior to July 28, 2004, the date on which the Company and Old Polar emerged from bankruptcy. In 2007, the plaintiffs consented to the injunctive relief requested and the bankruptcy court entered an order enjoining plaintiffs from prosecuting Company claims arising prior to July 28, 2004.

## **Table of Contents**

The court in the antitrust class actions has heard and decided a number of procedural motions. Among those was the plaintiffs' motion to join Polar Air Cargo Worldwide, Inc. as an additional defendant, which the court granted for discovery purposes on April 13, 2011. There was substantial pretrial written discovery and document production, and a number of depositions were taken. A court hearing on whether or not to certify the case as a class action was held in October 2013, and oral arguments and an evidentiary hearing were held in November 2013. On October 15, 2014, the magistrate judge issued a decision recommending that the court enter an order certifying the class for adjudicating the claims. We filed our opposition to that recommendation with the judge on December 1, 2014 and also intend to vigorously pursue a number of defenses. We are unable to reasonably predict the court's ruling on our opposition to class certification and our defenses, or the ultimate outcome of the litigation.

In the United Kingdom, several groups of named claimants have brought suit against British Airways in connection with the same alleged antitrust practices at issue in the proceedings described above and are seeking damages allegedly arising from that conduct. British Airways has filed claims in the lawsuit against Old Polar, the Company and a number of air cargo carriers for contribution should British Airways be found liable to claimants. Old Polar's formal statement of defense was filed on February 28, 2015. Old Polar intends to mount a vigorous defense.

If the Company or Old Polar were to incur an unfavorable outcome in connection with one or more of the matters described above, such outcome is not expected to materially affect our business, financial condition, results of operations or cash flows.

### ***Brazilian Customs Claim***

Old Polar was cited for two alleged customs violations in Sao Paulo, Brazil, relating to shipments of goods dating back to 1999 and 2000. Each claim asserts that goods listed on the flight manifest of two separate Old Polar scheduled service flights were not on board the aircraft upon arrival and therefore were improperly brought into Brazil. The two claims, which also seek unpaid customs duties, taxes and penalties from the date of the alleged infraction, are approximately \$6.1 million in aggregate based on March 31, 2015 exchange rates.

In both cases, we believe that the amounts claimed are substantially overstated due to a calculation error when considering the type and amount of goods allegedly missing, among other things. Furthermore, we may seek appropriate indemnity from the shipper in each claim as may be feasible. In the pending claim for one of the cases, we have received an administrative decision dismissing the claim in its entirety, which remains subject to a mandatory appeal by the Brazil customs authorities. As required to defend such claims, we have made deposits pending resolution of these matters. The balances were \$4.4 million as of March 31, 2015 and \$5.3 million as of December 31, 2014, and are included in Deposits and other assets.

We are currently defending these and other Brazilian customs claims and the ultimate disposition of these claims, either individually or in the aggregate, is not expected to materially affect our financial condition, results of operations or cash flows.

### ***Other***

We have certain other contingencies incident to the ordinary course of business. Management believes that the ultimate disposition of such other contingencies is not expected to materially affect our financial condition, results of operations or cash flows.

## **10. Earnings Per Share**

Basic earnings per share ( EPS ) represent net income attributable to common shareholders divided by the weighted average number of common shares outstanding during the measurement period. Diluted EPS represent net income attributable to common shareholders divided by the weighted average number of common shares outstanding during the measurement period while also giving effect to all potentially dilutive common shares that were outstanding during the period. Anti-dilutive options that were out of the money for the three months ended March 31, 2015 and 2014 were de minimis and excluded.

**Table of Contents**

The calculations of basic and diluted EPS were as follows:

	<b>For the Three Months Ended</b>	
	<b>March 31, 2015</b>	<b>March 31, 2014</b>
<b>Numerator:</b>		
Net Income Attributable to Common Stockholders	\$ 29,232	\$ 7,944
<b>Denominator:</b>		
Basic EPS weighted average shares outstanding	24,876	25,096
Effect of dilutive stock options and restricted stock	194	55
Diluted EPS weighted average shares outstanding	25,070	25,151
<b>EPS:</b>		
Basic	\$ 1.18	\$ 0.32
Diluted	\$ 1.17	\$ 0.32

Diluted shares reflect the potential dilution that could occur from stock options and restricted share units using the treasury stock method. The calculation does not include restricted share units in which performance or market conditions were not satisfied of 0.3 million for the three months ended March 31, 2015 and 0.5 million for the three months ended March 31, 2014.

**11. Accumulated Other Comprehensive Income (Loss)**

The following table summarizes the components of Accumulated other comprehensive income (loss):

Tax effect		(248)				(248)
Balance as of March 31, 2015	\$	(9,522)	\$	294	\$	(9,228)

***Interest Rate Derivatives***

As of March 31, 2015, there was \$15.4 million of unamortized realized loss before taxes remaining in Accumulated other comprehensive income (loss) related to terminated forward-starting interest rate swaps, which had been designated as cash flow hedges to effectively fix the interest rates on two 747-8F financings in 2011 and three 777-200LRF financings in 2014. The net loss is amortized and reclassified into Interest expense over the remaining life of the related debt. Net realized losses reclassified into earnings were \$0.7 million for the three months ended March 31, 2015 and 2014. Net realized losses expected to be reclassified into earnings within the next 12 months are \$2.5 million as of March 31, 2015.

### **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis should be read in conjunction with our unaudited Financial Statements appearing in this report and our audited consolidated financial statements and related notes included in our 2014 Annual Report on Form 10-K.

#### **Background**

#### **Certain Terms - Glossary**

The following represents terms and statistics specific to our business and industry. They are used by management to evaluate and measure operations, results, productivity and efficiency.

Block Hour	The time interval between when an aircraft departs the terminal until it arrives at the destination terminal.
C Check	High-level or heavy airframe maintenance checks, which are more intensive in scope than Line Maintenance and are generally performed between 18 and 24 months depending on aircraft type.
D Check	High-level or heavy airframe maintenance checks, which are the most extensive in scope and are generally performed every six and eight years depending on aircraft type.
Heavy Maintenance	Scheduled maintenance activities, which are the most extensive in scope and are primarily based on time intervals, including, but not limited to, C Checks, D Checks and engine overhauls. In addition, unscheduled engine repairs involving the removal of the engine from the aircraft are considered to be heavy maintenance. Heavy maintenance can generally take from one to eight weeks to complete.
Line Maintenance	Unscheduled maintenance to rectify events occurring during normal day-to-day operations.
Non-heavy Maintenance	Discrete maintenance activities for the overhaul and repair of specific aircraft components, including landing gear, auxiliary power units and engine thrust reversers.
Yield	The average amount a customer pays to fly one tonne of cargo one mile.

#### **Business Overview**

We are a leading global provider of outsourced aircraft and aviation operating services, operating the world's largest fleet of 747 freighters, as well as operating 747 and 767 passenger aircraft and 767 freighters. We also own and dry lease a portfolio of aircraft, including six 777 freighters. We provide unique value to our customers by giving them access to highly reliable new production freighters that deliver the lowest unit cost in the marketplace combined with outsourced aircraft operating services that we believe lead the industry in terms of quality and global scale. Our customers include airlines, express delivery providers, freight forwarders, the U.S. military and charter brokers. We provide global services with operations in Africa, Asia, Australia, Europe, the Middle East, North America and South America.

Our primary service offerings include the following:

ACMI, whereby we provide outsourced cargo and passenger aircraft operating solutions, including the provision of an aircraft, crew, maintenance and insurance, while customers assume fuel, demand and Yield risk. In addition, the customer is responsible for landing, navigation and most other operational fees and costs;

CMI, which is part of our ACMI business segment, whereby we provide outsourced cargo and passenger aircraft operating solutions, including the provision of crew, maintenance and insurance, while customers provide the aircraft and assume fuel, demand and Yield risk. In addition, the customer is responsible for landing, navigation and most other operational fees and costs;

Charter, whereby we provide cargo and passenger aircraft charter services to customers, including the AMC, brokers, freight forwarders, direct shippers, airlines, sports teams and fans, and private charter customers. The customer pays a fixed charter fee that includes fuel, insurance, landing fees, navigation fees and most other operational fees and costs; and

## **Table of Contents**

Dry Leasing, whereby we provide cargo and passenger aircraft and engine leasing solutions. The customer operates, and is responsible for insuring and maintaining, the flight equipment. We look to achieve our growth plans and enhance shareholder value by:

Delivering superior service quality to our valued customers;

Aggressively managing our fleet with a focus on leading-edge aircraft;

Focusing on securing long-term customer contracts;

Driving significant and ongoing productivity improvements;

Selectively pursuing and evaluating future acquisitions and alliances; while

Appropriately managing capital allocation and returning capital to shareholders.

See **Business Overview** and **Business Strategy** in our 2014 Annual Report on Form 10-K for additional information.

## **Business Developments**

Our ACMI results for 2015, compared with 2014, were impacted by the following events:

In February 2014, we began ACMI flying a 747-8F aircraft with BST Logistics (Hong Kong) Company Limited, a business partner of Navitrans International Freight Forwarding Co., Ltd. Service, which was the first 747-8F aircraft in its network.

In April and early May 2014, British Airways returned three 747-8F aircraft. In May and October 2014, the three 747-8F aircraft were placed in ACMI service for DHL, replacing one 747-400F aircraft.

In October 2014, we began ACMI flying one additional 747-400F aircraft for DHL, increasing the number of 747 freighter aircraft in ACMI service for DHL to twelve.

In November 2014, we began ACMI flying a 747-400F aircraft for Etihad Airways, which was the second 747-400F aircraft in its global network.

In March 2015, we began ACMI flying one additional 747-8F aircraft for DHL following its transition from Panalpina Air & Ocean Ltd. The aircraft is initially replacing a 747-400F aircraft.

In the first quarter of 2015, we began CMI flying three additional 767-200 freighters owned by DHL in its North American network. A fourth 767-200 freighter began CMI flying in April 2015.

Charter Block Hours increased during the first quarter of 2015, reflecting stronger commercial cargo demand, which was enhanced by the U.S. West Coast port disruption, and increased cargo and passenger demand from the AMC.

## **Results of Operations**

The following discussion should be read in conjunction with our Financial Statements and other financial information appearing and referred to elsewhere in this report.

**Table of Contents****Operating Revenue**

The following table compares our Operating Revenue for the three months ended March 31 (in thousands):

	2015	2014	Increase / (Decrease)	Percent Change
<b>Operating Revenue</b>				
ACMI	\$ 189,047	\$ 198,141	\$ (9,094)	(4.6)%
Charter	220,138	177,373	42,765	24.1%
Dry Leasing	31,919	24,676	7,243	29.4%
Other	3,741	3,173	568	17.9%
 Total Operating Revenue	 \$ 444,845	 \$ 403,363	 \$ 41,482	 10.3%

*ACMI revenue* decreased \$9.1 million, or 4.6%, primarily due to reduced Revenue per Block Hour, partially offset by increased flying. ACMI Revenue per Block Hour was \$6,417 for the first three months of 2015, compared to \$7,071 in 2014, a decrease of \$654 per Block Hour, or 9.2%. The decrease in Revenue per Block Hour reflects the impact of higher Revenue per Block Hour in 2014 resulting from customers that flew below their contractual minimums, payments received in 2014 related to a customer's return of aircraft, and increased CMI flying in 2015. ACMI Block Hours were 29,460 in the first three months of 2015, compared to 28,023 in 2014, an increase of 1,437 Block Hours, or 5.1%. The increase in Block Hours was primarily driven by the start-up of CMI flying three additional 767-200F aircraft and improvements in ACMI aircraft utilization.

*Charter revenue* increased \$42.8 million, or 24.1%, primarily driven by an increase in both cargo and passenger flying, partially offset by a decrease in Revenue per Block Hour. Charter Block Hours were 11,489 in the first three months of 2015 compared with 8,614 in 2014, an increase of 2,875 Block Hours, or 33.4%. The increase in Charter Block Hours was primarily driven by increased commercial cargo demand, which was enhanced by the U.S. West Coast port disruption, and increased cargo and passenger demand from the AMC. Charter Revenue per Block Hour was \$19,161 for the first three months of 2015 compared with \$20,591 in 2014, a decrease of \$1,430 per Block Hour, or 6.9%. This decrease was primarily driven by the impact from lower fuel prices.

*Dry Leasing revenue* increased \$7.2 million, or 29.4%, primarily due to revenue from maintenance payments related to the scheduled return of a 737-800 passenger aircraft in February 2015.

**Operating Expenses**

The following table compares our Operating Expenses for the three months ended March 31 (in thousands):

	2015	2014	Increase / (Decrease)	Percent Change
<b>Operating Expenses</b>				
Salaries, wages and benefits	\$ 88,773	\$ 72,855	\$ 15,918	21.8%

<b>Total Operating Expenses</b>	<b>\$ 387,875</b>	<b>\$ 375,233</b>		

NM represents year-over-year changes are not meaningful.

*Salaries, wages and benefits* increased \$15.9 million, or 21.8%, primarily driven by increases to crewmember and ground staff costs due to higher Block Hours, key initiatives and increased profitability.

**Table of Contents**

*Aircraft fuel* decreased \$3.6 million, or 4.4%, primarily due to fuel price decreases, partially offset by increased fuel consumption. The average fuel price per gallon for the Charter business was \$2.34 for 2015, compared with \$3.23 in 2014, a decrease of 27.6%. Fuel consumption increased by 8.0 million gallons, or 31.7%, reflecting the increase in Charter Block Hours operated. We do not incur fuel expense in our ACMI or Dry Leasing businesses as the cost of fuel is borne by the customer.

*Maintenance, materials and repairs* were relatively unchanged, reflecting a decrease of \$4.9 million for 747-400 aircraft, partially offset by an increase of \$4.5 million for 747-8F aircraft. Heavy maintenance on 747-400 aircraft decreased \$10.0 million due to a decrease in the number of C and D Checks, and the number of engine overhauls, partially offset by an increase of \$4.5 million in Non-heavy maintenance. Heavy Maintenance expense on 747-8F aircraft increased \$3.9 million due to an increase in unscheduled engine repairs and an increase in the number of C Checks. Line Maintenance expense on 747-400 aircraft and 747-8F aircraft increased \$1.2 million primarily due to increased flying in 2015. Heavy airframe maintenance events and engine overhauls for the three months ended March 31 were:

<b>Heavy Maintenance Events</b>	<b>2015</b>	<b>2014</b>	<b>Increase / (Decrease)</b>
747-8F C Checks	1		1
747-400 C Checks	1	5	(4)
747-400 D Checks	2	3	(1)
CF6-80 engine overhauls	4	5	(1)

*Depreciation and amortization* increased \$3.9 million, or 13.8%, primarily due to increased scrapping of rotatable parts related to our engine and spare parts purchase program, which avoids more expensive repairs.

*Navigation fees, landing fees and other rent* decreased \$3.6 million, or 13.4%, primarily due to a reduction in purchased capacity from the subcontracting of certain Charter flights.

*Travel* increased \$3.5 million, or 20.4%, primarily due to increased flying and higher rates related to crewmember travel to higher cost locations.

*Loss on disposal of aircraft* in 2015 resulted from the sale of used unserviceable spare engine component parts and the sale of a 737-800 passenger aircraft.

*Special charge* in 2014 represents a \$5.1 million reserve related to a GSS receivable for a loan made to its 51% U.K. shareholder, a \$2.3 million expense recorded for termination benefits for certain GSS employees and a \$0.6 million adjustment related to the early termination of operating leases for two 747-400BCF aircraft (see Note 4 to our Financial Statements).

*Other* increased \$4.7 million, or 18.0%, primarily due to increased commission expense on higher revenue from the AMC and increased professional fees to support key initiatives.

**Non-operating Expenses (Income)**

The following table compares our Non-operating Expenses (Income) for the three months ended March 31 (in thousands):

	2015	2014	Increase / (Decrease)	Percent Change
<b>Non-operating Expenses (Income)</b>				
Interest income	\$ (4,488)	\$ (4,727)	\$ (239)	(5.1)%
Interest expense	24,548	26,452	(1,904)	(7.2)%
Capitalized interest	(26)	(312)	(286)	(91.7)%
Other expense (income), net	675	152	523	NM

*Interest expense* decreased \$1.9 million, or 7.2%, primarily due to a decrease in our average debt balances, reflecting payments of debt.

*Income taxes.* Our effective income tax rates were 19.4% for the three months ended March 31, 2015 and 38.7% for the three months ended March 31, 2014. The effective income tax rate for the first quarter of 2015 differed from the U.S. federal statutory rate primarily due to an income tax benefit of \$4.0 million, net of reserves, related to ETI (see Note 6 to our Financial Statements).

**Table of Contents****Segments**

The following table compares the Direct Contribution of our reportable segments (see Note 8 to our Financial Statements for the reconciliation to Operating income) for the three months ended March 31 (in thousands):

	2015	2014	Increase / (Decrease)	Percent Change
<b>Direct Contribution:</b>				
ACMI	\$ 39,847	\$ 45,564	\$ (5,717)	(12.5)%
Charter	30,419	(4,117)	34,536	NM
Dry Leasing	15,525	8,171	7,354	90.0%
<b>Total Direct Contribution</b>	<b>\$ 85,791</b>	<b>\$ 49,618</b>	<b>\$ 36,173</b>	<b>72.9%</b>
Unallocated income and expenses, net	\$ 48,889	\$ 35,024	\$ 13,865	39.6%

***ACMI Segment***

ACMI Direct Contribution decreased \$5.7 million, or 12.5%, primarily due to the impact of customers that flew below their contractual minimums in 2014.

***Charter Segment***

Charter Direct Contribution increased \$34.5 million, primarily due to an increase in cargo and passenger revenue, as well as higher cargo aircraft utilization driven by increased demand. In addition, Charter Direct Contribution benefited from lower fuel costs and a reduction in Heavy maintenance expense.

***Dry Leasing Segment***

Dry Leasing Direct Contribution increased \$7.4 million, or 90.0%, primarily due to revenue from maintenance payments related to the scheduled return of a 737-800 passenger aircraft in February 2015.

***Unallocated income and expenses, net***

Unallocated income and expenses, net increased \$13.9 million, or 39.6%, primarily due to the timing of incentive compensation driven by higher anticipated earnings in 2015.

**Reconciliation of GAAP to non-GAAP Financial Measures**

To supplement our Financial Statements presented in accordance with GAAP, we present certain non-GAAP financial measures to assist in the evaluation of our business performance. These non-GAAP financial measures include Adjusted Net Income Attributable to Common Stockholders and adjusted diluted earnings per share ( Adjusted Diluted EPS ), which exclude certain items that impact year-over-year comparisons of our results. These non-GAAP financial measures may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

We use these non-GAAP financial measures in assessing the performance of our ongoing operations and in planning and forecasting future periods. We believe that these adjusted measures provide meaningful information to assist investors and analysts in understanding our business results and assessing our prospects for future performance.

**Table of Contents**

The following is a reconciliation of Net Income Attributable to Common Stockholders and Diluted EPS to the corresponding non-GAAP financial measures (in thousands, except per share data):

	<b>For the Three Months Ended</b>		
	<b>March 31, 2015</b>	<b>March 31, 2014</b>	<b>Percent Change</b>
<b>Net Income Attributable to Common Stockholders</b>	\$ 29,232	\$ 7,944	268.0%
After-tax impact from:			
ETI tax benefit	(4,008)		
Special charge (a)	(411)	3,382	
Loss on disposal of aircraft	884		
<b>Adjusted Net Income Attributable to Common Stockholders</b>	\$ 25,697	\$ 11,326	126.9%

	<b>For the Three Months Ended</b>		
	<b>March 31, 2015</b>	<b>March 31, 2014</b>	<b>Percent Change</b>
<b>Diluted EPS</b>	\$ 1.17	\$ 0.32	265.6%
After-tax impact from:			
ETI tax benefit	(0.16)		
Special charge (a)	(0.02)	0.13	
Loss on disposal of aircraft	0.04		
<b>Adjusted Diluted EPS</b>	\$ 1.03	\$ 0.45	128.9%

- a) Included in Special charge in 2014 were employee termination benefits, a loan reserve and tax adjustments related to GSS, and an adjustment to lease termination costs for two 747-400BCFs.

**Liquidity and Capital Resources**

*Operating Activities.* Net cash provided by operating activities for the first quarter of 2015 was \$90.6 million, compared with \$41.3 million for the first quarter of 2014. The increase primarily reflects higher earnings and changes in the timing of working capital.

*Investing Activities.* Net cash used for investing activities was \$0.5 million for the first quarter of 2015, consisting primarily of \$14.9 million of purchase deposits and delivery payments for flight equipment, and \$10.4 million of core capital expenditures, excluding flight equipment. Partially offsetting these investing activities was \$24.3 million of proceeds from disposal of aircraft. All capital expenditures for the first quarter of 2015 were funded through working capital. Net cash used for investing activities was \$488.1 million for the first quarter of 2014, consisting primarily of \$478.7 million of purchase deposits and delivery payments for flight equipment, a \$6.0 million increase in restricted cash and \$4.1 million of core capital expenditures, excluding flight equipment. Purchase deposits and delivery payments for flight equipment in 2014 were primarily related to the purchase of three 777-200LRF aircraft.

*Financing Activities.* Net cash used for financing activities was \$52.3 million for the first quarter of 2015, which primarily reflected \$50.8 million of payments on debt obligations and \$6.1 million related to the purchase of treasury stock, partially offset by \$4.1 million of customer maintenance reserves received. Net cash provided by financing activities was \$404.7 million for the first quarter of 2014, which primarily reflected the proceeds from debt issuance of \$572.6 million and \$4.2 million of customer maintenance reserves received, partially offset by \$151.7 million of payments on debt obligations, \$17.0 million of debt issuance costs and \$2.4 million related to the purchase of treasury stock. The proceeds from debt issuance and payments of debt obligations reflect the refinancing of a \$103.6 million bridge loan with a long-term note.

We consider Cash and cash equivalents, Short-term investments, Restricted cash and Net cash provided by operating activities to be sufficient to meet our debt and lease obligations, to fund capital expenditures for the remainder of 2015 and to repurchase shares of our stock. Core capital expenditures for the remainder of 2015 are expected to be between \$30.0 to \$35.0 million, which excludes flight equipment and capitalized interest.

We may access external sources of capital from time to time depending on our cash requirements, assessments of current and anticipated market conditions, and the after-tax cost of capital. To that end, we filed a shelf registration statement with the SEC in 2012 that enables us to sell a yet to be determined amount of debt and/or equity securities over the subsequent three years, depending on market conditions, our capital needs and other factors. Our access to capital markets can be adversely impacted by prevailing economic conditions and by financial, business and other factors, some of which are beyond our control. Additionally, our borrowing costs are affected by market conditions and may be adversely impacted by a tightening in credit markets.

## **Table of Contents**

We do not expect to pay any significant U.S. federal income tax until 2020 or later. Our business operations are subject to income tax in several foreign jurisdictions. We do not expect to pay any significant cash income taxes in foreign jurisdictions for at least several years. We currently do not intend to repatriate cash from certain foreign subsidiaries that is indefinitely reinvested outside the U.S. Any repatriation of cash from these subsidiaries or certain changes in U.S. tax laws could result in additional tax expense.

## ***Contractual Obligations and Debt Agreements***

There were no new debt obligations during the three months ended March 31, 2015. See our 2014 Annual Report on Form 10-K for a tabular disclosure of our contractual obligations as of December 31, 2014 and a description of our debt obligations and amendments thereto.

## **Off-Balance Sheet Arrangements**

There were no material changes in our off-balance sheet arrangements during the three months ended March 31, 2015.

## **Recent Accounting Pronouncements**

See Note 2 to our Financial Statements for a discussion of recent accounting pronouncements.

## **Forward-Looking Statements**

This Quarterly Report on Form 10-Q (this Report), as well as other reports, releases and written and oral communications issued or made from time to time by or on behalf of AAWW, contain statements that may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Those statements are based on management's beliefs, plans, expectations and assumptions, and on information currently available to management. Generally, the words will, may, should, expect, anticipate, intend, plan, continue, seek, project, estimate and similar expressions used in this Report that do not relate to historical facts are intended to identify forward-looking statements.

The forward-looking statements in this Report are not representations or guarantees of future performance and involve certain risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include, but are not limited to, those described in our Annual Report on Form 10-K for the year ended December 31, 2014. Many of such factors are beyond AAWW's control and are difficult to predict. As a result, AAWW's future actions, financial position, results of operations and the market price for shares of AAWW's common stock could differ materially from those expressed in any forward-looking statements. Readers are therefore cautioned not to place undue reliance on forward-looking statements. AAWW does not intend to publicly update any forward-looking statements that may be made from time to time by, or on behalf of, AAWW, whether as a result of new information, future events or otherwise, except as required by law.

## **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

For additional discussion of our exposure to market risk, refer to Part II, Item 7A Quantitative and Qualitative Disclosures About Market Risk included in our 2014 Annual Report on Form 10-K.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of March 31, 2015. Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to our management, including our CEO and CFO, to allow timely decisions regarding required disclosure.
