Exchange Offers

On September 7, 2016, Westlake Chemical Corporation (Westlake) settled its previously announced exchange offers (the Exchange Offers) pursuant to which it offered to issue new senior notes in exchange for any and all of the \$688 million aggregate principal amount of the outstanding 4.625% senior notes due February 15, 2021 (the Existing Axiall 2021 Notes) issued by Eagle Spinco Inc., a wholly-owned subsidiary of Axiall Corporation (together, Axiall), and of the \$450 million aggregate principal amount of the outstanding 4.875% senior notes due May 15, 2023 (the Existing Axiall 2023 Notes) and, together with the Existing Axiall 2021 Notes, the Existing Axiall Notes) issued by Axiall Corporation. In conjunction with the Exchange Offers, Axiall solicited and received the requisite consents (the Consent Solicitations) from holders of the Existing Axiall Notes to adopt certain proposed amendments to the indentures under which the Existing Axiall Notes were issued. Documents relating to the Exchange Offers and Consent Solicitations were only distributed to eligible holders of the Existing Axiall Notes who completed and returned an eligibility form confirming that they are either a qualified institutional buyer under Rule 144A under the Securities Act of 1933, as amended (the Securities Act), or not a U.S. person and outside the United States within the meaning of Regulation S under the Securities Act. The Exchange Offers and Consent Solicitations were made in connection with the acquisition of Axiall Corporation by Westlake, which closed on August 31, 2016.

Indenture and the New Westlake Notes

Pursuant to the Exchange Offers, Westlake issued \$624,793,000 aggregate principal amount of 4.625% senior unsecured notes due 2021 (the New Westlake 2021 Notes) and \$433,793,000 aggregate principal amount of 4.875% senior unsecured notes due 2023 (the New Westlake 2023 Notes, and together with the New Westlake 2021 Notes, the New Westlake Notes). The New Westlake Notes were issued pursuant to an indenture, dated as of January 1, 2006, by and among Westlake, the potential subsidiary guarantors listed therein and JPMorgan Chase Bank, National Association, as trustee (the Base Indenture), and a Ninth Supplemental Indenture, dated as of September 7, 2016, by and among Westlake, the subsidiary guarantors listed therein (the Guarantors) and The Bank of New York Mellon Trust Company, N.A., as trustee (the Supplemental Indenture and together with the Base Indenture, the Indenture).

The Indenture contains covenants that, among other things, restrict our and certain of our subsidiaries' ability to incur certain secured indebtedness, engage in certain sale and leaseback transactions and consolidate, merge or transfer all or substantially all of our assets. These covenants are subject to significant exceptions. The Indenture also contains customary events of default.

The above description of the Base Indenture and the Supplemental Indenture is qualified in its entirety by reference to the complete text of the Base Indenture, a copy of which is incorporated by reference as Exhibit 4.1 hereto and incorporated herein by reference, and to the complete text of the Supplemental Indenture, a copy of which is attached hereto as Exhibit 4.2 hereto and incorporated herein by reference.

Registration Rights Agreement

On September 7, 2016, Westlake, the Guarantors, and Deutsche Bank Securities Inc. and Goldman, Sachs & Co., as dealer managers, entered into a registration rights agreement related to the New Westlake Notes (the Registration Rights Agreement).

Pursuant to the Registration Rights Agreement, Westlake and the Guarantors will, among other obligations, use commercially reasonable efforts to file with the Securities and Exchange Commission (the SEC) a registration statement relating to an offer to exchange the New Westlake Notes for registered notes with substantially identical terms and consummate such offer within 365 days after the issuance of the New Westlake Notes. A Registration

Default will occur if, among other things, Westlake and the Guarantors fail to comply with this requirement. If a Registration Default occurs, the annual interest rate of the New Westlake Notes will be increased by 0.25% per annum and will increase by 0.25% per annum at the end of each subsequent 90-day period, but in no event will such increase exceed 0.50% per annum.

The above description of the Registration Rights Agreement is qualified in its entirety by reference to the complete text of the Registration Rights Agreement, a copy of which is attached hereto as Exhibit 4.3 and incorporated herein by reference.

Remaining Existing Axiall Notes

Following the consummation of the Exchange Offers, Axiall had outstanding \$63,207,000 aggregate principal amount of Existing Axiall 2021 Notes and \$16,207,000 aggregate principal amount of Existing Axiall 2023 Notes. The Existing Axiall 2021 Notes were issued under an indenture, dated as of January 28, 2013, as supplemented and amended, by and among Eagle Spinco Inc., the initial guarantors party thereto and U.S. Bank National Association, as trustee (the Axiall Trustee). The Existing Axiall 2023 Notes were issued under an indenture, dated as of February 1, 2013, as supplemented and amended, by and among Axiall Corporation, the initial guarantors party thereto and the Axiall Trustee. On August 22, 2016, following receipt of the requisite consents in the Consent Solicitations, supplemental indentures were entered into to implement amendments (the Proposed Amendments) to the indentures governing the Existing Axiall Notes to eliminate certain covenants, restrictive provisions and events of default. The Proposed Amendments became operative upon the consummation of the Exchange Offers and Consent Solicitations. The Existing Axiall Notes are the senior unsecured obligations of Axiall.
