### Notes to portfolio of investments

Aggregate cost for federal income tax purposes was substantially the same for book purposes, and net unrealized appreciation consisted of:

| Gross unrealized appreciation Gross unrealized depreciation | \$ 25,074,567<br>(10,451,114) |
|---|-------------------------------|
| Net unrealized appreciation of investments                  | \$ 14,623,453                 |

- (1) Security exempt from registration pursuant to Regulation S under the Securities Act of 1933. Regulation S applies to securities offerings that are made outside of the United States and do not involve direct selling efforts in the United States. At July 31, 2010, the value of these securities amounted to \$45,905,594 or 14.75% of net assets.
- (2) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At July 31, 2010, the value of these securities amounted to \$31,440,435 or 10.81% of net assets.
- (3) Security held past stated maturity date due to defaulted status. Bond is being traded based on potential future claim.
- (4) Security is illiquid. At July 31, 2010, the value of these securities amounted to \$12,061,652 or 4.15% of net assets.
- (5) These securities, which represent 0.23% of net assets as of July 31, 2010, are considered restricted. (See restricted securities table below for more information.)

- (1) Amount represents less than 0.005%.
- (6) Floating rate security ☐ The interest rates shown are the current rates as of July 31, 2010.
- (7) Security linked to closed-end fund.
- (8) Security purchased after stated maturity date as defaulted debt. Bond is being traded based on potential future claim.
- (9) Step bond  $\square$  Coupon rate increases in increments to maturity. Rate disclosed is as of July 31, 2010. Maturity date disclosed is the ultimate maturity date.
- (10) Debt security whose principal and/or interest payments are adjusted for inflation, unlike debt securities that make fixed principal and interest payments. The interest rate paid by the securities is fixed, while the principal value rises or falls based on changes in an index. Thus, if inflation occurs, the principal and interest payments on the securities are adjusted accordingly to protect investors from inflationary loss. During a deflationary period, the principal and interest payments decrease, although the securities principal amounts will not drop below their face amounts at maturity. In exchange for the inflation protection, the securities generally pay lower interest rates than typical government securities from the issuers country. Only if inflation occurs will securities offer a higher real yield than a conventional security of the same maturity.

(11) Rate shown reflects annualized yield at July 31, 2010 on zero coupon bond.

(12) The table below details the Fund□s investments in a security issued by a fund that is advised by the same advisor as the Fund. The advisor does not earn a management fee from UBS Cash Management Prime Relationship Fund.

| Security description                           | Value<br>10/31/09 | Purchases<br>during the<br>nine months<br>ended<br>07/31/10 | Sales<br>during the<br>nine months<br>ended<br>07/31/10 | Value<br>07/31/10 | Income earned from affiliate for the nine months ended 07/31/10 |
|--|-------------------|---|---|-------------------|---|
| UBS Cash Management<br>Prime Relationship Fund | \$27,942,180      | \$92,854,307  | \$112,011,808   | \$8,784,679       | \$19,525  |

(13) The rate shown reflects the yield at July 31, 2010.

(14) The Fund calculates its net asset value based on the current market value, where available, for its portfolio securities. The Fund normally obtains market values for its securities and other instruments from independent pricing sources and broker-dealers. Independent pricing sources may use reported last sale prices, official market closing prices, current market quotations or valuations from computerized ∏matrix∏ systems that derive values based on comparable securities or instruments. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities. Securities traded in the over-the counter (\( \int OTC \int) \) market and listed on The NASDAQ Stock Market, Inc. (\( \int NASDAQ \int) \) normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Securities which are listed on US and foreign stock exchanges normally are valued at the market closing price, the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by UBS Global Asset Management (Americas) Inc. ( $\sqcap$ UBS Global AM $\sqcap$ ), the investment advisor of the Fund. If a market value is not available from an independent pricing source for a particular security, that security is valued at fair value as determined in good faith by or under the direction of the Fund\(\partial\) Board of Directors (the \(\partial\)Board\(\partial\)). Foreign currency exchange rates are generally determined as of the close of the New York Stock Exchange (\( \| \DMYSE\( \) ). Occasionally, events affecting the value of foreign investments occur between the time at which they are determined and the close of the NYSE, which will not be reflected in the computation of the Fund∏s net asset value. If events materially affecting the value of such securities occur during such time periods, the securities will be valued at their fair value as determined in good faith by or under the direction of the Board. The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty days or less remaining to maturity, unless the Board determines that this does not represent fair value. Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company as provided by such other entity. Pursuant to the Fund sadoption of use of the practical expedient within ASC Topic 820 that is effective for interim periods ending after December 15, 2009, investments in non-registered investment companies are also valued at the daily net asset value. All investments quoted in foreign currencies are valued daily in US dollars on the basis of the foreign currency exchange rates prevailing at the time such valuation is determined by the Fund\(\partial\) s custodian.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation.
- Credit spreads, where available, represented in absolute terms, utilized in determining the market value as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood of risk of default for the credit derivative. The credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity credit soundness and a greater likelihood of risk of default or other credit event occurring as defined under the terms of the agreement. A credit spread identified as Defaulted indicates a credit event has occurred for the referenced entity.
- Payment to the counterparty will be made upon the occurrence of bankruptcy and/or restructuring event with respect to the Republic of Bulgaria 8.250% bond, due 01/15/15.
- (4) Payments received are based on the notional amount.
- (5) Payment to the counterparty will be made upon the occurrence of bankruptcy and/or restructuring event with respect to the Republic of Argentina 8.280% bond, due 12/31/33.
- Payment to the counterparty will be made upon the occurrence of bankruptcy and/or restructuring event with respect to the Deutsche Bank Kazakhstan 7.375% bond, due 11/12/13.
- (7) Payment to the counterparty will be made upon the occurrence of bankruptcy and/or restructuring event with respect to the United Mexican States 7.500% bond, due 04/08/33.

US generally accepted accounting principles ([GAAP]) requires disclosure regarding the various inputs that are used in determining the value of the Fund[s investments. These inputs are summarized into the three broad levels listed below:

Level 1∏Unadjusted quoted prices in active markets for identical investments.

Level 2 Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risk.

Level 3∏Unobservable inputs inclusive of the Fund∏s own assumptions in determining the fair value of investments.

The following is a summary of the inputs used as of July 31, 2010 in valuing the Fund investments:

### Measurements at 07/31/10

| Description                             | price<br>mark | ljusted quoted es in active eets for tical investments el 1) | Other significant observable inputs (Level 2) | Unobservable<br>inputs<br>(Level 3) | Total          |

<sup>(1)</sup> Other financial instruments include forward foreign currency contracts, futures contracts and swap agreements.

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2010-06 [Improving Disclosures about Fair Value Measurements] ([ASU No. 2010-06]). ASU No. 2010-06 requires reporting entities to make new disclosures about amounts and reasons for significant transfers in and out of Level 1 and Level 2 fair value measurements as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair measurements that fell in either Level 2 or Level 3, including information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements. The new and revised disclosures are required to be implemented for annual and interim periods beginning after December 15, 2009 except for the disclosures surrounding purchases, sales issuances and settlements on a gross basis in the reconciliation of Level 3 fair value measurements, which are effective for annual and interim periods beginning after December 15, 2010.

#### Level 3 rollforward disclosure

The following is a rollforward of the Fund investments that were valued using unobservable inputs for the period:

# Measurements using unobservable inputs (Level 3)

|   | Со | rporate bonds                        | _  | Total                                |
|---|----|--------------------------------------|----|--------------------------------------|
| Assets Beginning balance Total gains or losses (realized/unrealized) included in earnings Purchases, sales, issuances, and settlements (net) Transfers in and/or out of Level 3 | \$ | 10,733,190<br>(200,549)<br>(575,000) | \$ | 10,733,190<br>(200,549)<br>(575,000) |
| Ending balance The amount of total gains or losses for the period included in earnings attributable to the change in unrealized gains or  | \$ | 9,957,641                            | \$ | 9,957,641                            |

#### **Restricted securities:**

The Fund may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included in the Fund□s Notes to portfolio of investments.

For more information regarding the Fund\[ \] s other significant accounting policies, please refer to Fund\[ \] s semiannual report to shareholders dated April 30, 2010.

### **Item 2. Controls and Procedures.**

- (a) The registrant s principal executive officer and principal financial officer have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended ( Investment Company Act )) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.
- (b) The registrant s principal executive officer and principal financial officer are aware of no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act) that occurred during the registrant s last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

### Item 3. Exhibits.

(a) Certifications of principal executive officer and principal financial officer of registrant pursuant to Rule 30a-2(a) under the Investment Company Act is attached hereto as Exhibit EX-99.CERT.

#### **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
