Item 4.02 Non-reliance on Previously Issued Financial Statements

(a) On April 16, 2012, Tara Gold Resources Corp. (the “Company”) concluded that the Company’s financial statements for the three and nine months ending September 30, 2011 should no longer be relied upon. On June 20, 2012 the Company restated the financials statements to correct the error(s) described below.

The Company determined, during the preparation of its annual report on Form 10-K for the year ended December 31, 2011, that it failed to properly recognize exploration expenses and a stock liability totaling \$1,432,805 during 2011 pertaining to the purchase of technical data for the Centenario, La Palma and La Verde mining concessions. Tara Minerals Corp., the Company’s majority-owned subsidiary, issued shares of its common stock in payment of the technical data and guaranteed the price of Tara Minerals’ common stock at \$2.00 per share to the seller of the technical data. The purchase agreements were filed as exhibits to Tara Minerals’ March 31, 2011 Form 10-Q report. At the time of issuance, Tara Minerals’ common stock was valued at \$0.85 per share, which was the market price of Tara Minerals’ common stock at that time. This resulted in the understatement of exploration expenses of \$1,432,805 in the Company’s Statement of Operations for the nine months ended September 30, 2011.

The Company’s audited financial statements for the year ended December 31, 2011, filed as part of the Company’s annual report on Form 10-K on April 14, 2012, corrected this error.

The Company’s principal financial and accounting officer discussed the error with the Company’s former and current independent accountants.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
