**SÃO PAULO, OCTOBER 26, 2012 –GOL Linhas Aéreas Inteligentes S.A. (BM&FBovespa: GOLL4 and NYSE: GOL), (S&P: B, Fitch: B+, Moody`s: B3)**, the largest low-cost and low-fare airline in Latin America, hereby announces that it has begun selling airline tickets for regular flights to Miami and Orlando, in the United States, and Santo Domingo, in the Dominican Republic. The operations have already been approved by the National Civil Aviation Agency (ANAC) and other pertinent authorities and are due to begin on December 15.

"We observed strong demand from clients flying to the United States, and, with a focus on this market, operations exclusive to the SMILES clients have been very successful. Now, our proposal with these regular flights is to offer attractive fares, via Santo Domingo, in the Dominican Republic, where passengers can connect to both destinations, without compromising our low-cost model," declared Paulo Kakinoff, GOL's CEO.

The new flights, departing from São Paulo/Guarulhos to Orlando and from Rio de Janeiro/Galeão to Miami, will be offered on a daily basis and have one stop in Santo Domingo, where clients will change aircraft depending on their final destination. Both operations will offer comfort and economic class. Tickets can be purchased through GOL's website ([www.voegol.com.br](http://www.voegol.com.br)), Voe GOL stores and travel agencies. The operations are detailed in the table below:

|                              |       |       |                              |

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
