registrant in connection with Rule 12g3-2(b):

São Paulo, September 2, 2015 - GOL Linhas Aéreas Inteligentes S.A.

(BM&FBOVESPA: GOLL4 e NYSE: GOL), (S&P: B-, Fitch: B-, Moody's: B3), the largest low-cost and best-fare airline in Latin America, hereby informs its shareholders and the market that it has beaten one more Brazilian monthly airline industry record by achieving on-time performance of 98.24% with more than 22,500 takeoffs, according to data from Infraero. On August 6 and 29, only one flight on each day was late. GOL also maintained the year-to-date lead with a ratio of 95.43%.

“We are investing continuously in technology and service tools, with a focus on facility and agility in order to speed up every stage of the flight. In addition, we are always seeking intelligent and effective solutions to ensure the on-time performance of all our operations and minimize possible impacts caused by external factors, such as bad weather,” said Sergio Quito, the Company’s Operating Officer. GOL has been the on-time performance leader in Brazil for the last three years.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
