(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 or 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarter ended March 31, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-05869

SUPERIOR UNIFORM GROUP, INC.

Incorporated - Florida

Employer
Identification No.
11-1385670

10055 Seminole Boulevard

Edgar Filing: SUPERIOR UNIFORM GROUP INC - Form 10-Q

Seminole, Florida 33772-2539
Telephone No.: 727-397-9611

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of April 20, 2015, the registrant had 13,665,050 common shares outstanding, which is the registrant's only class of common stock.

See accompanying notes to consolidated interim financial statements.

SUPERIOR UNIFORM GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

THREE MONTHS ENDED MARCH 31, 2015 AND 2014

(Unaudited)

NOTE 1 – Summary of Significant Interim Accounting Policies:

a) Basis of presentation

The consolidated interim financial statements include the accounts of Superior Uniform Group, Inc. and its wholly-owned subsidiaries, The Office Gurus, LLC, SUG Holding and Fashion Seal Corporation; The Office Gurus, LTDA, De C.V., The Office Masters, LTDA, De C.V. and The Office Gurus, Ltd., each a subsidiary of Fashion Seal Corporation and SUG Holding; and Power Three Web, Ltda. and Superior Sourcing, each a wholly-owned subsidiary of SUG Holding. All of these entities are referred to collectively as “the Company”. Intercompany items have been eliminated in consolidation. The accompanying unaudited interim financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014, and filed with the Securities and Exchange Commission. The interim financial information contained herein is not certified or audited; it reflects all adjustments (consisting of only normal recurring accruals) which are, in the opinion of management, necessary for a fair statement of the operating results for the periods presented, stated on a basis consistent with that of the audited financial statements. The results of operations for any interim period are not necessarily indicative of results to be expected for the full year.

b) Revenue recognition

The Company records revenue as products are shipped and title passes and as services are provided. A provision for estimated returns and allowances is recorded based on historical experience and current allowance programs.

c) Recognition of costs and expenses

Costs and expenses other than product costs are charged to income in interim periods as incurred, or allocated among interim periods based on an estimate of time expired, benefit received or activity associated with the periods.

Procedures adopted for assigning specific cost and expense items to an interim period are consistent with the basis followed by the registrant in reporting results of operations at annual reporting dates. However, when a specific cost or expense item charged to expense for annual reporting purposes benefits more than one interim period, the cost or expense item is allocated to the interim periods.

d) Amortization of other intangible assets

The Company amortizes identifiable intangible assets on a straight line basis over their expected useful lives.

Amortization expense for other intangible assets was \$517,000 for both of the three-month periods ended March 31, 2015 and 2014.

e) Advertising expenses

The Company expenses advertising costs as incurred. Advertising costs for the three-month periods ended March 31, 2015 and 2014, respectively, were \$26,000 and \$33,000.

f) Shipping and handling fees and costs

The Company includes shipping and handling fees billed to customers in net sales. Shipping and handling costs associated with in-bound and out-bound freight are generally recorded in cost of goods sold. Other shipping and handling costs such as labor and overhead are included in selling and administrative expenses and totaled \$2,397,000 and \$2,137,000 for the three months ended March 31, 2015 and 2014, respectively.

g) Inventories

Inventories at interim dates are determined by using both perpetual records on a first-in, first-out basis and gross profit calculations.

h) Accounting for income taxes

The provision for income taxes is calculated by using the effective tax rate anticipated for the full year.

i) Employee benefit plan settlements

The Company recognizes settlement gains and losses in its financial statements when the cost of all settlements in a year is greater than the sum of the service cost and interest cost components of net periodic pension cost for the plan for the year.

j) Earnings per share

Historical basic per share data is based on the weighted average number of shares outstanding. Historical diluted per share data is reconciled by adding to weighted average shares outstanding the dilutive impact of the exercise of outstanding stock options and stock appreciation rights.

	Three Months Ended March 31,	
	2015	2014
Net earnings used in the computation of basic and diluted earnings per share	\$2,043,000	\$1,218,000
Weighted average shares outstanding - basic	13,584,922	13,128,946
Common stock equivalents	963,162	424,794
Weighted average shares outstanding - diluted	14,548,084	13,553,740
Per Share Data:		
Basic		
Net earnings	\$0.15	\$0.09
Diluted		
Net earnings	\$0.14	\$0.09

Awards to purchase 145,600 and 10,000 shares of common stock with weighted average exercise prices of \$18.66 and \$16.00 per share were outstanding during the three-month periods ending March 31, 2015 and 2014, respectively, but were not included in the computation of diluted EPS because the awards' exercise prices were greater than the average market price of the common shares.

k) Derivative financial instruments

The Company uses certain financial derivatives to mitigate its exposure to volatility in interest rates. The Company records derivatives on the balance sheet at fair value and establishes criteria for designation and effectiveness of hedging relationships. On the date a derivative contract is entered into, the Company may elect to designate the derivative as a fair value hedge, a cash flow hedge, or the hedge of a net investment in a foreign operation. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivative that is used in the hedging transaction is highly effective. For those instruments that are designated as a cash flow hedge and meet certain documentary and analytical requirements to qualify for hedge accounting treatment, changes in the fair value for the effective portion are reported in other comprehensive income ("OCI"), net of related income tax effects, and are reclassified to the income statement when the effects of the item being hedged are recognized in the income statement. The Company discontinues hedge accounting prospectively when it is determined that the derivative is no longer effective in offsetting changes in the cash flows of the hedged item, the derivative expires or is sold, terminated, or exercised, or management determines that designation of the derivative as a hedging instrument is no longer appropriate. In situations in which the Company does not elect hedge accounting or hedge accounting is discontinued and the derivative is retained, the Company carries or continues to carry the derivative at its fair value on the balance sheet and recognizes any subsequent changes in its fair value through earnings.

The nature of the Company's business activities involves the management of various financial and market risks, including those related to changes in interest rates. The Company does not enter into derivative instruments for speculative purposes. The Company manages market and credit risks associated with its derivative instruments by establishing and monitoring limits as to the types and degree of risk that may be undertaken, and by entering into transactions with high-quality counterparties. As of March 31, 2015, the Company's derivative counterparty had investment grade credit ratings.

In July 2013, the Company entered into an interest rate swap agreement whereby the interest rate payable by the Company on a portion of the outstanding balance of the term loan was effectively converted to a fixed rate of 2.53% beginning July 1, 2014. The Company entered into this interest rate swap arrangement to mitigate future interest rate risk associated with its borrowings and has designated it as a cash flow hedge. (See Note 2.)

l) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

m) Comprehensive income

Total comprehensive income represents the change in equity during a period from sources other than transactions with shareholders and, as such, includes net earnings. For the Company, the only other components of total comprehensive income are the change in pension costs and change in fair value of qualifying hedges.

n) Operating segments

Accounting standards require disclosures of certain information about operating segments and about products and services, geographic areas in which the Company operates, and their major customers. The Company has evaluated its operations and has determined that it has two reportable segments - uniforms and related products and remote staffing solutions. (See Note 6.)

o) Share-Based Compensation

The Company awards share-based compensation as an incentive for employees to contribute to the Company's long-term success. Historically, the Company has granted options and stock settled stock appreciation rights. In 2014, the Company also granted restricted stock.

In 2003, the stockholders of the Company approved the 2003 Incentive Stock and Awards Plan (the "2003 Plan"), authorizing the granting of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, performance stock and other stock based compensation. This plan expired in May of 2013, at which time, the stockholders of the Company approved the 2013 Incentive Stock and Awards Plan (the "2013 Plan"), authorizing the granting of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, performance stock and other stock based compensation. A total of 5,000,000 shares of common stock (subject to

adjustment for expirations and cancellations of options outstanding from the 2003 Plan subsequent to its termination) have been reserved for issuance under the 2013 Plan. All options under both plans have been or will be granted with exercise prices at least equal to the fair market value of the shares on the date of grant. At March 31, 2015, the Company had 4,215,246 shares of common stock available for grant of share-based compensation under the 2013 Plan.

The Company grants stock options and stock settled stock appreciation rights (“SARS”) to employees that allow them to purchase shares of the Company’s common stock. Options are also granted to outside members of the Board of Directors of the Company. The Company determines the fair value of stock options and SARS at the date of grant using the Black-Scholes valuation model.

All options and SARS vest immediately at the date of grant. Awards generally expire five years after the date of grant with the exception of options granted to outside directors, which expire ten years after the date of grant. The Company issues new shares upon the exercise of stock options and SARS.

For the three months ended March 31, 2015 and 2014, respectively, the Company recognized \$757,000 and \$786,000 of pre-tax share-based compensation expense related to options and SARS, recorded in selling and administrative expense in the Consolidated Statements of Comprehensive Income. These expenses were partially offset by deferred tax benefits of \$97,000 and \$97,000 (excluding restricted stock) for the three months ended March 31, 2015 and 2014, respectively. As of March 31, 2015, the Company had \$512,000 of unrecognized compensation cost expected to be recognized in the future for prior share-based awards.

On February 7, 2014, the Compensation Committee of the Board of Directors approved a restricted stock grant under the terms of the 2013 Plan to four members of senior management for a total of 100,000 shares. The fair value of the stock on the date of grant was \$7.36 per share for a total value of \$736,000. These shares were unvested at the time of grant and will vest if the executives are still employed by the Company on February 7, 2017. The shares are subject to accelerated vesting under certain circumstances as outlined in the 2013 Plan. On November 7, 2014, the Board of Directors approved a restricted stock grant under the terms of the 2013 Plan to the four independent members of the Board of Directors for a total of 6,016 shares. The fair value of the stock on the date of grant was \$11.96 per share for a total value of \$72,000. These shares were unvested at the time of grant and will vest if the directors are still serving on the Company’s Board of Directors on November 7, 2017. The shares are subject to accelerated vesting under certain circumstances as outlined in the 2013 Plan.

Expense for each of these grants is being recognized on a straight-line basis over the respective service period. The Company recognized approximately \$67,000 and \$41,000 in expense associated with the grants for the three month periods ended March 31, 2015 and 2014, respectively. These expenses were offset by deferred tax benefits of \$24,000 and \$14,000 for the three month periods ended March 31, 2015 and 2014, respectively.

During the three-month periods ended March 31, 2015 and 2014, respectively, the Company received \$356,000 and \$236,000 in cash from stock option exercises. No tax benefit was recognized for these exercises, as the options exercised were qualified incentive stock options.

A summary of options transactions during the three months ended March 31, 2015 follows:

	No. of Shares	Weighted Average Exercise Price
Outstanding	1,118,058	\$ 6.63
Granted	92,308	18.66
Exercised	(54,590)	7.68
Lapsed	-	-
Cancelled	-	-
Outstanding	1,155,776	\$ 7.54

At March 31, 2015, options outstanding, all of which were fully vested and exercisable, had an aggregate intrinsic value of \$13,227,000.

Options exercised during the three-month period ended March 31, 2015 had an intrinsic value of \$585,000. Options exercised during the three-month period ended March 31, 2014 had an intrinsic value of \$113,000. The weighted average grant date fair value of the Company's options granted during the three month periods ended March 31, 2015 and 2014 was \$5.20 and \$4.04, respectively.

A summary of SARS transactions during the three months ended March 31, 2015 follows:

	No. of Shares	Weighted Average
--	------------------	---------------------

		Exercise Price
Outstanding	522,024	\$ 6.17
Granted	53,292	18.66
Exercised	(97,334)	5.83
Lapsed	-	-
Cancelled	-	-
Outstanding	477,982	\$ 7.63

At March 31, 2015, SARS outstanding, all of which were fully vested and exercisable, had an aggregate intrinsic value of \$5,405,000.

SARS exercised during the three-month period ended March 31, 2015 had an intrinsic value of \$1,231,000. SARS exercised during the three-month period ended March 31, 2014 had an intrinsic value of \$16,000. There were 53,292 and 68,691 SARS granted during the three-month periods ended March 31, 2015 and 2014, respectively. The weighted average grant date fair value of the Company's SARS granted during the three months ended March 31, 2015 and 2014 was \$5.20 and \$4.04, respectively.

The following table summarizes significant assumptions utilized to determine the fair value of share-based compensation awards.

Three months ended March 31,	SARS	Options
Exercise price		
2015	\$18.66	\$18.66
2014	\$7.36	\$7.36
Market price		
2015	\$18.66	\$18.66
2014	\$7.36	\$7.36
Risk free interest rate (1)		
2015	1.5%	1.5%
2014	1.5%	1.5%
Expected award life (years) (2)	5	5
Expected volatility (3)		
2015	34.9%	34.9%
2014	42.5%	42.5%
Expected dividend yield (4)		
2015	1.6%	1.6%
2014	3.7%	3.7%

(1) The risk-free interest rate is based on the yield of a U.S. treasury bond with a similar maturity as the expected life of the awards.

(2) The expected life in years for awards granted was based on the historical exercise patterns experienced by the Company when the award is made.

(3) The determination of expected stock price volatility for awards granted in each of the three-month periods ending March 31, was based on historical prices of Superior's common stock over a period commensurate with the expected life.

(4) The dividend yield assumption is based on the history and expectation of the Company's dividend payouts.

p) Stock Split

On December 29, 2014, the Board of Directors declared a 2-for-1 stock split of the Company's common stock. The record date of the split was January 12, 2015, and the stock split became effective February 4, 2015. All share and per share information in these consolidated interim financial statements have been restated for all periods presented, giving retroactive effect to the stock split. The Company revised certain historical amounts when it recorded the 2-for-1 stock split. The amounts were immaterial and reclassified within shareholders' equity between par value and additional paid in capital.

q) Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606) that will supersede most current revenue recognition guidance, including industry-specific guidance. The core principle of the new guidance is that an entity will recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard provides a five-step analysis of transactions to determine when and how revenue is recognized. Other major provisions include the capitalization and amortization of certain contract costs, ensuring the time value of money is considered in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. Additionally, the guidance requires disaggregated disclosures related to the nature, amount, timing, and uncertainty of revenue that is recognized. The amendments are required to be adopted by the Company on January 1, 2017. The FASB has proposed a one year delay in the effective date of Topic 606. Transition to the new guidance may be done using either a full or modified retrospective method. The Company is currently evaluating the full effect that the adoption of this standard will have on the Company's consolidated financial statements.

NOTE 2 - Long-Term Debt:

	March 31, 2015	December 31, 2014
Term loan payable to Fifth Third Bank, maturing July 1, 2018	\$24,000,000	\$24,375,000
Note payable to Fifth Third Bank, pursuant to revolving credit agreement, maturing July 1, 2016	4,000,000	440,000
Note payable to Fifth Third Bank, pursuant to revolving credit agreement, maturing July 1, 2018	-	220,000
	\$28,000,000	\$25,035,000
Less payments due within one year included in current liabilities	2,750,000	2,375,000
Long-term debt less current maturities	\$25,250,000	\$22,660,000

Effective July 1, 2013, the Company entered into an amended and restated 5-year credit agreement with Fifth Third Bank that made available to the Company up to \$15,000,000 on a revolving credit basis (the "Initial Credit Facility") in addition to a \$30,000,000 term loan utilized to finance the acquisition of substantially all of the assets of HPI Direct, Inc. Interest is payable on the term loan at LIBOR plus 0.95% (1.13% at March 31, 2015) and on the revolving credit facility at LIBOR (rounded up to the next 1/8th of 1%) plus 0.95% (1.20% at March 31, 2015). Both loans are based upon the one-month LIBOR rate for U.S. dollar based borrowings. The Company pays an annual commitment fee of 0.10% on the average unused portion of the commitment under the Initial Credit Facility. The available balance under the Initial Credit Facility is reduced by outstanding letters of credit. As of March 31, 2015, there were no outstanding balances under letters of credit.

On October 22, 2013, the Credit Agreement was amended to, among other things, increase the amount of permitted investments in subsidiaries that are not parties to the credit and related agreements, from \$1 million to \$5 million.

On May 1, 2014, the Credit Agreement was further amended to provide for an additional \$10 million revolving credit facility with Fifth Third Bank (the "Add on Credit Facility"), pursuant to the Second Amendment to Second Amended and Restated Credit Agreement and Other Loan Documents, dated May 1, 2014. The Second Amended and Restated Credit Agreement and other Loan Documents, as so amended, is referred to herein as the "Credit Agreement." The Add on Credit Facility matures July 1, 2016. Interest is payable on the Add on Credit Facility at LIBOR (rounded up to the next 1/8th of 1%) plus 0.95% based upon the one-month LIBOR rate for U.S. dollar based borrowings (1.20% at March 31, 2015). The Company pays an annual commitment fee of 0.50% on the average unused portion of the commitment under the Add on Credit Facility.

In order to reduce interest rate risk on the term loan, the Company entered into an interest rate swap agreement with Fifth Third Bank, N.A. in July 2013 that was designed to effectively convert or hedge the variable interest rate on a portion of this borrowing to achieve a net fixed rate of 2.53% per annum, beginning July 1, 2014 with a notional amount of \$14,250,000 that is adjusted to match the outstanding principal on the related debt. The notional amount of the interest rate swap is reduced by the scheduled amortization of the principal balance of the term loan of \$187,500 per month through July 1, 2015 and \$250,000 per month through June 1, 2018. The remaining notional balance of \$3,250,000 will be eliminated at the maturity of the term loan on July 1, 2018.

Under the terms of the interest rate swap, the Company will receive variable interest rate payments and make fixed interest rate payments on an amount equal to the notional amount at that time. Changes in the fair value of the interest rate swap designated as the hedging instrument that effectively offset the variability of cash flows associated with the variable-rate, long-term debt obligation are reported in OCI, net of related income tax effects. At March 31, 2015, the interest rate swap had a negative fair value of \$207,000, which is presented within other current liabilities within the consolidated balance sheet. The aggregate change of \$207,000, net of tax benefit of \$74,000, since the inception of the hedge in July 2013 has been recorded within OCI through March 31, 2015. The Company does not currently expect any of those losses to be reclassified into earnings over the subsequent twelve-month period.

The remaining scheduled amortization for the term loan is as follows: 2015 \$2,000,000; 2016 \$3,000,000; 2017 \$3,000,000; 2018 \$16,000,000. The term loan does not include a prepayment penalty. In connection with the Credit Agreement, the Company incurred approximately \$68,000 of debt financing costs, which primarily consisted of legal fees. These costs are being amortized over the life of the Credit Agreement and are recorded as additional interest expense.

The Company's obligations under the Credit Agreement are secured by substantially all of the operating assets of Superior Uniform Group, Inc. and are guaranteed by all domestic subsidiaries of Superior Uniform Group, Inc. The agreement contains restrictive provisions concerning a maximum funded senior indebtedness to EBITDA ratio as defined in the agreement (3.5:1), a maximum funded indebtedness to EBITDA ratio as defined in the agreement (4.0:1) and a fixed charge coverage ratio (1.25:1). The Company is in full compliance with all terms, conditions and covenants of the Credit Agreement.

NOTE 3 – Periodic Pension Expense:

The following table presents the net periodic pension expense under our plans for the three month periods ended March 31:

	2015	2014
Service cost - benefits earned during the period	\$26,000	\$20,000
Interest cost on projected benefit obligation	238,000	250,000
Expected return on plan assets	(336,000)	(348,000)
Recognized actuarial loss	199,000	81,000
Net periodic pension cost	\$127,000	\$3,000

Effective June 30, 2013, the Company no longer accrues additional benefits for future service or for future increases in compensation levels for the Company's primary defined benefit pension plan.

NOTE 4 - Supplemental Cash Flow Information:

Cash paid for income taxes was \$18,000 and \$3,000, respectively, for the three-month periods ended March 31, 2015 and 2014. Cash paid for interest was \$95,000 and \$63,000, respectively for the three-month periods ended March 31, 2015 and 2014. During the three months ended March 31, 2015, the Company received 3,432 shares of its common stock as payment of the exercise price in the exercise of stock options for 9,640 shares.

NOTE 5 – Contingencies:

The Company is involved in various legal actions and claims arising from the normal course of business. In the opinion of management, the ultimate outcome of these matters will not have a material impact on the Company's results of operations, cash flows, or financial position.

NOTE 6 – Operating Segment Information:

The Company classifies its businesses into two operating segments based on the types of products and services provided. The Uniforms and Related Products segment consists of the sale of uniforms and related items. The Remote Staffing Solutions segment consists of sales of staffing solutions.

The Company evaluates the performance of each operating segment based on several factors of which the primary financial measures are operating segment net sales and income before income taxes. The accounting policies of the operating segments are the same as those described in Note 1 entitled Summary of Significant Interim Accounting Policies. Amounts for corporate expenses are included in the Uniforms and Related Products segment totals. Information related to the operations of the Company's operating segments is set forth below.

	Uniforms and Related Products	Remote Staffing Solutions	Intersegment Eliminations	Total
As of and For the Three Months Ended March 31, 2015				
Net sales	\$43,788,000	\$3,466,000	\$ (907,000)	\$46,347,000
Gross margin	\$14,415,000	\$1,996,000	\$ (615,000)	\$15,796,000
Selling and administrative expenses	11,933,000	1,119,000	(615,000)	12,437,000
Interest expense	136,000	-	-	136,000
Income before income taxes	\$2,346,000	877,000	\$ -	\$3,223,000
Depreciation and amortization	\$884,000	69,000	\$ -	\$953,000
Capital expenditures	\$693,000	213,000	\$ -	\$906,000
Total assets	\$135,061,000	\$10,746,000	\$ (2,143,000)	\$143,664,000

	Uniforms and Related Products	Remote Staffing Solutions	Intersegment Eliminations	Total
As of and For the Three Months Ended March 31, 2014				
Net sales	\$39,147,000	\$2,737,000	\$ (857,000)	\$41,027,000
Gross margin	\$13,029,000	\$1,572,000	\$ (545,000)	\$14,056,000
Selling and administrative expenses	11,656,000	972,000	(545,000)	12,083,000
Interest expense	95,000	-	-	95,000
Income before income taxes	\$1,278,000	\$600,000	\$ -	\$1,878,000
Depreciation and amortization	\$878,000	\$60,000	\$ -	\$938,000
Capital expenditures	\$638,000	\$171,000	\$ -	\$809,000
Total assets	\$125,373,000	\$7,896,000	\$ (1,032,000)	\$132,237,000

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain matters discussed in this Form 10-Q are "forward-looking statements" intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified by use of the words "may", "will", "should", "could", "expect", "anticipate", "estimate", "believe", "intend", "project", "potential", or "plan" or the negative of these words or other variations on these words or comparable terminology. Forward-looking statements in this Quarterly Report on Form 10-Q include, without limitation: (1) projections of revenue, income, and other items relating to our financial position and results of operations, (2) statements of our plans, objectives, strategies, goals and intentions, (3) statements regarding the capabilities, capacities, market position and expected development of our business operations, and (4) statements of expected industry and general economic trends. Such forward-looking statements are subject to certain risks and uncertainties that may materially adversely affect the anticipated results. Such risks and uncertainties include, but are not limited to, the following: general economic conditions, including employment levels, in the areas of the United States in which the Company's customers are located; changes in the healthcare, industrial, commercial, leisure and public safety industries where uniforms and service apparel are worn; the impact of competition; the price and availability of cotton and other manufacturing materials; our ability to successfully integrate operations following acquisitions; attracting and retaining senior management and key personnel and other factors described in the Company's filings with the Securities and Exchange Commission, including those described in the "Risk Factors" section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements made herein and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are only made as of the date of this Form 10-Q and we disclaim any obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

Unless otherwise indicated, all share and per share information in this Form 10-Q has been adjusted for all periods presented to give retroactive effect to the 2-for-1 stock split effective on February 4, 2015.

Critical Accounting Policies

Our significant accounting policies are described in Note 1 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Our discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of the financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate the estimates that we have made. These estimates are based upon our historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Our actual results may differ from these estimates under different assumptions or conditions.

Our critical accounting estimates are those that we believe require our most significant judgments about the effect of matters that are inherently uncertain. A discussion of our critical accounting estimates, the underlying judgments and uncertainties used to make them and the likelihood that materially different estimates would be reported under different conditions or using different assumptions is as follows:

Allowance for Losses on Accounts Receivable

These allowances are based on both recent trends of certain customers estimated to be a greater credit risk as well as general trends of the entire customer pool. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. An additional impairment in value of one percent of net accounts receivable would require an increase in the allowance for doubtful accounts and would result in additional expense of approximately \$271,000.

Inventories

Inventories are stated at the lower of cost or market value. Judgments and estimates are used in determining the likelihood that new goods on hand can be sold to customers. Historical inventory usage and current revenue trends are considered in estimating both excess and obsolete inventories. If actual product demand and market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the net assets acquired. The Company tests goodwill for impairment annually as of December 31st and/or when an event occurs or circumstances change such that it is more likely than not that impairment may exist. Examples of such events and circumstances that the Company would consider include the following:

- macroeconomic conditions such as deterioration in general economic conditions, limitations on accessing capital, or other developments in equity and credit markets;
- industry and market considerations such as a deterioration in the environment in which the Company operates, an increased competitive environment, a decline in market-dependent multiples or metrics (considered in both absolute terms and relative to peers), a change in the market for the Company's products or services, or a regulatory or political development;
- cost factors such as increases in raw materials, labor, or other costs that have a negative effect on earnings and cash flows;
- overall financial performance such as negative or declining cash flows or a decline in actual or planned revenue or earnings compared with actual and projected results of relevant prior periods;
- other relevant entity-specific events such as changes in management, key personnel, strategy, or customers;

Goodwill is tested at a level of reporting referred to as "the reporting unit." The Company's reporting units are defined as each of its two reporting segments with all of its goodwill included in the Uniforms and Related Products segment.

An entity has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not (that is, a likelihood of more than 50%) that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The Company completed its assessment of the qualitative factors as of December 31, 2014 and determined that it was not more likely than not that the fair value of the reporting unit was less than its carrying value.

Insurance

The Company self-insures for certain obligations related to health insurance programs. The Company also purchases stop-loss insurance policies to protect it from catastrophic losses. Judgments and estimates are used in determining the potential value associated with reported claims and for losses that have occurred, but have not been reported. The Company's estimates consider historical claim experience and other factors. The Company's liabilities are based on estimates, and, while the Company believes that the accrual for loss is adequate, the ultimate liability may be in excess

of or less than the amounts recorded. Changes in claim experience, the Company's ability to settle claims or other estimates and judgments used by management could have a material impact on the amount and timing of expense for any period.

Pensions

The Company's pension obligations are determined using estimates including those related to discount rates, asset values and changes in compensation. The discount rates used for the Company's pension plans were determined based on the Citigroup Pension Yield Curve. This rate was selected as the best estimate of the rate at which the benefit obligations could be effectively settled on the measurement date taking into account the nature and duration of the benefit obligations of the plans using high-quality fixed-income investments currently available (rated AA or better) and expected to be available during the period to maturity of the benefits. The 8% expected return on plan assets was determined based on historical long-term investment returns as well as future expectations given target investment asset allocations and current economic conditions.

Income Taxes

The Company is required to estimate and record income taxes payable for federal and state jurisdictions in which the Company operates. This process involves estimating actual current tax expense and assessing temporary differences resulting from differing accounting treatments between tax and book that result in deferred tax assets and liabilities. In addition, accruals are also estimated for federal and state tax matters for which deductibility is subject to interpretation. Taxes payable and the related deferred tax differences may be impacted by changes to tax laws, changes in tax rates and changes in taxable profits and losses. Federal income taxes are not provided on that portion of unremitted income of foreign subsidiaries that are expected to be reinvested indefinitely. Reserves are also estimated for uncertain tax positions that are currently unresolved. The Company routinely monitors the potential impact of such situations and believes that it is properly reserved. We accrue interest and penalties related to unrecognized tax benefits in income tax expense, and the related liability is included in the total liability for unrecognized tax benefits.

Share-based Compensation

The Company recognizes expense for all share-based payments to employees, including grants of employee stock options, in the financial statements based on their fair values. Share-based compensation expense that was recorded in the quarters ended March 31, 2015 and 2014 includes the compensation expense for the share-based payments granted in those quarters. In the Company's share-based compensation strategy we utilize (1) a combination of stock options and stock appreciation rights ("SARS") that fully vest on the date of grant and (2) restricted stock grants that vest over time. Therefore, the fair value of the options and SARS granted is recognized as expense on the date of grant and the fair value of restricted stock grants is recognized as expense over the vesting period. The Company used the Black-Scholes-Merton valuation model to value any share-based compensation. Option valuation methods, including Black-Scholes-Merton, require the input of assumptions including the risk free interest rate, dividend rate, expected term and volatility rate. The Company determines the assumptions to be used based upon current economic conditions. The impact of changing any of the individual assumptions by 10% would not be material.

Business Outlook

Uniforms and Related Products

Historically, we have manufactured and sold a wide range of uniforms, career apparel and accessories, which comprises our Uniforms and Related Products segment. Our primary products are provided to workers employed by our customers and, as a result, our business prospects are dependent upon levels of employment and overall economic conditions, among other factors. Our revenues are impacted by our customers' opening and closing of locations and reductions and increases in headcount. Additionally, between 2009 and 2013 voluntary employee turnover had declined significantly because fewer alternative jobs were available to employees of our customers. While the current economic environment in the United States remains somewhat sluggish, we are seeing an improvement in the employment environment and as such, voluntary employee turnover is beginning to increase. Capital is increasingly being freed up to fund business startups and expansions in the economy. We are also seeing an increase in the demand for employees in the healthcare sector as a result of the Affordable Care Act. All of these factors are expected to have positive impacts on our prospects for growth in net sales in 2015.

We are also beginning to gain traction in our penetration of the direct health care market. We have been awarded our first group purchasing organization contract effective February 1, 2015 that increases the number of healthcare facilities that we are able to pursue for direct sales by at least 3,000. We expect to be awarded additional agreements for other group purchasing organizations in the near term.

We have been and continue to actively pursue acquisitions to increase our market share in the Uniforms and Related Products segment.

Remote Staffing Solutions

We are pursuing a diversified business model to include growth of our Remote Staffing Solutions segment, operating in El Salvador, Belize, and the United States. This business segment was initially started to provide remote staffing services for the Company at a lower cost structure in order to improve our own operating results. It has in fact enabled us to reduce our operating expenses in our Uniforms and Related Products segment and to more effectively service our customers' needs in that segment. We began selling remote staffing services to other companies at the end of 2009. We have grown this business from approximately \$1 million in net sales to outside customers in 2010 to approximately \$8 million in net sales to outside customers in 2014. We have spent significant effort over the last several years improving the depth of our management infrastructure in this segment to support significant growth in this segment in 2015 and beyond. We increased net sales to outside customers in this segment by approximately 42% in 2014 as compared to 2013 and by approximately 63% in 2013 as compared to 2012. We are investing in a new call center building in El Salvador expected to be completed near the end of 2015 that will essentially double our existing capacity there. We spent approximately \$2 million on the El Salvador project in 2014 and expect to spend in excess of an additional \$5 million to complete the project. We have also invested in smaller renovations that have added additional capacity in our Belize and United States locations as well. We continue to receive a favorable response from the market for our services and we believe this sector will continue to grow significantly in 2015 and beyond.

Results of Operations

Net sales increased 13.0% from \$41,027,000 for the three months ended March 31, 2014 to \$46,347,000 for the three months ended March 31, 2015. The 13.0% aggregate increase in net sales is split between growth in our Uniforms and Related Products segment (contributing 11.3%) and increases in net sales after intersegment eliminations from our Remote Staffing Solutions segment (contributing 1.7%). Intersegment eliminations reduce total net sales for sales of remote staffing solutions to the Uniforms and Related Products segment by the Remote Staffing Solutions segment. See Note 6 to the consolidated interim financial statements for more information and a reconciliation of segment net sales to total net sales.

Uniforms and Related Products net sales increased 11.9% for the three months ended March 31, 2015, compared to the prior year quarter. The increase in net sales is attributed to continued market penetration as well as continued improvement in the economy including increases in voluntary employee turnover in the marketplace.

Remote Staffing Solutions net sales increased 26.6% before intersegment eliminations and 36.1% after intersegment eliminations for the three months ended March 31, 2015, compared to the prior year quarter. These increases are attributed to continued market penetration in 2015, both with respect to new and existing customers.

As a percentage of net sales, cost of goods sold for our Uniforms and Related Products segment was 67.1% for the three months ended March 31, 2015 and 66.7% for the comparable period in 2014. The increase as a percentage of net sales is primarily attributed to an increase in direct product costs as a percentage of net sales during 2015 (contributing 0.5%) partially offset by a reduction in overhead costs as a percentage of net sales as a result of higher volume in 2015 (contributing 0.1%).

As a percentage of net sales, cost of goods sold for our Remote Staffing Solutions Segment was 42.4% for the three months ended March 31, 2015, and 42.6% in the comparable period for 2014.

As a percentage of net sales, selling and administrative expenses for our Uniforms and Related Products segment was 27.3% for the three months ended March 31, 2015 and 29.8% for the comparable period in 2014. The decrease as a percentage of net sales is attributed primarily to higher net sales in 2015 to cover operating expenses (contributing 3.2%), partially offset by higher pension and retirement plan expense primarily as a result of lower discount rates in 2015 as compared to 2014 (contributing 0.3%), and other minor net increases (contributing 0.4%).

As a percentage of net sales, selling and administrative expenses for our Remote Staffing Solutions segment was 32.3% for the three months ended March 31, 2015 and 35.5% for the comparable period in 2014. The decrease as a percentage of net sales is attributed primarily to the impact in 2015 of higher net sales to cover operating expenses.

Interest expense increased from \$95,000 for the three months ended March 31, 2014 to \$136,000 for the three months ended March 31, 2015. This increase is attributed primarily to an increase in the rate paid on a portion of the Company's long-term debt as a result of the interest rate swap that became effective on July 1, 2014.

The Company's effective tax rate for the three months ended March 31, 2015 was 36.6% versus 35.1% for the three months ended March 31, 2014. The 1.5% increase in the effective tax rate is attributed primarily to a decrease in the benefit for income from foreign operations (contributing 1.3%), an increase in the amount of taxable income subject to the higher Federal rate for taxable earnings in excess of \$10,000,000 (contributing 0.6%), partially offset by a decrease in non-deductible share based compensation as a percentage of taxable earnings (contributing 0.2%), and a net decrease in the net accrual for uncertain tax positions (contributing 0.2%).

Liquidity and Capital Resources

Accounts receivable - trade decreased 3.1% from \$27,956,000 on December 31, 2014 to \$27,093,000 on March 31, 2015. This decrease is primarily attributed to lower net sales in the first quarter of 2015 as compared to the fourth quarter of 2014.

Prepaid expenses and other current assets increased 49.6% from \$4,497,000 on December 31, 2014 to \$6,727,000 as of March 31, 2015. This increase is primarily attributed to an increase in deposits with vendors of \$1,696,000 for upcoming purchases of finished goods as well as an increase in prepaid insurance of \$469,000 due to timing of payments of annual premiums.

Inventories increased 2.8% from \$58,282,000 on December 31, 2014 to \$59,921,000 as of March 31, 2015 due to higher inventory levels required to meet expected increases in net sales volumes.

Other intangible assets decreased 3.2% from \$16,288,000 on December 31, 2014 to \$15,771,000 on March 31, 2015. This decrease is attributed to scheduled amortization of existing intangible assets.

Accounts payable increased 11.8% from \$9,706,000 on December 31, 2014 to \$10,848,000 on March 31, 2015. This increase is primarily due to the timing of inventory purchases and higher inventory levels required to meet expected increases in net sales volumes.

Other current liabilities decreased 31.7% from \$8,995,000 on December 31, 2014 to \$6,143,000 on March 31, 2015. This decrease is primarily due to the payment of year-end annual incentive compensation during the first quarter of the year.

Cash and cash equivalents increased by \$433,000 from \$4,586,000 on December 31, 2014 to \$5,019,000 as of March 31, 2015. During the first quarter of 2015, the Company used cash of \$1,114,000 in operating activities, used cash of \$906,000 in investing activities for additions to property, plant and equipment, and generated \$2,453,000 from financing activities.

In the foreseeable future, the Company will continue its ongoing capital expenditure program designed to maintain and improve its facilities. We are investing in a new call center building in El Salvador expected to be completed near the end of 2015 that will essentially double our existing capacity there. We spent approximately \$2 million on the El Salvador project in 2014 and expect to spend in excess of an additional \$5 million to complete the project. The Company at all times evaluates its capital expenditure program in light of prevailing economic conditions.

During the three months ended March 31, 2015 and 2014, respectively, the Company paid cash dividends of \$1,000,000 and \$833,000.

Effective July 1, 2013, the Company entered into an amended and restated 5-year credit agreement with Fifth Third Bank that made available to the Company up to \$15,000,000 on a revolving credit basis (the "Initial Credit Facility") in addition to a \$30,000,000 term loan utilized to finance the acquisition of substantially all of the assets of HPI Direct, Inc. as discussed in Note 2. Interest is payable on the term loan at LIBOR plus 0.95% (1.13% at March 31, 2015) and on the revolving credit agreement at LIBOR (rounded up to the next 1/8th of 1%) plus 0.95% (1.20% at March 31, 2015). Both loans are based upon the one-month LIBOR rate for U.S. dollar based borrowings. The Company pays an annual commitment fee of 0.10% on the average unused portion of the commitment under the Initial Credit Facility. The available balance under the Initial Credit Facility is reduced by outstanding letters of credit. As of March 31, 2015, there were no outstanding balances under letters of credit.

On October 22, 2013, the Credit Agreement was amended to, among other things, increase the amount of permitted investments in subsidiaries that are not parties to the credit and related agreements, from \$1 million to \$5 million.

On May 1, 2014, the Credit Agreement was further amended to provide for an additional \$10 million revolving credit facility with Fifth Third Bank (the "Add on Credit Facility"), pursuant to the Second Amendment to Second Amended and Restated Credit Agreement and Other Loan Documents, dated May 1, 2014. We refer to the Second Amended and Restated Credit Agreement and Other Loan Documents, as so amended, as the "Credit Agreement." The Add on Credit Facility expires on July 1, 2016. Interest is payable on the Add on Credit Facility at LIBOR (rounded up to the next

1/8th of 1%) plus 0.95% based upon the one-month LIBOR rate for U.S. dollar based borrowings (1.20% at March 31, 2015). The Company pays an annual commitment fee of 0.50% on the average unused portion of the commitment under the Add on Credit Facility.

In order to reduce interest rate risk on the term loan, the Company entered into an interest rate swap agreement with Fifth Third Bank, N.A. in July 2013 that was designed to effectively convert or hedge the variable interest rate on a portion of this borrowing to achieve a net fixed rate of 2.53% per annum, beginning July 1, 2014 with a notional amount of \$14,250,000 that is adjusted to match the outstanding principal on the related debt. The notional amount of the interest rate swap is reduced by the scheduled amortization of the principal balance of the term loan of \$187,500 per month through July 1, 2015 and \$250,000 per month through June 1, 2018. The remaining notional balance of \$3,250,000 will be eliminated at the maturity of the term loan on July 1, 2018.

Under the terms of the interest rate swap, the Company will receive variable interest rate payments and make fixed interest rate payments on an amount equal to the notional amount at that time. Changes in the fair value of the interest rate swap designated as the hedging instrument that effectively offset the variability of cash flows associated with the variable-rate, long-term debt obligation are reported in OCI, net of related income tax effects. At March 31, 2015, the interest rate swap had a negative fair value of \$207,000, which is presented within other current liabilities within the consolidated balance sheet. The aggregate change of \$207,000, net of tax benefit of \$74,000, since the inception of the hedge in July 2013 has been recorded within OCI through March 31, 2015. The Company does not currently expect any of those losses to be reclassified into earnings over the subsequent twelve-month period.

The remaining scheduled amortization for the term loan is as follows: 2015 \$2,000,000; 2016 \$3,000,000; 2017 \$3,000,000; and 2018 \$16,000,000. The term loan does not include a prepayment penalty. In connection with the Credit Agreement, the Company incurred approximately \$68,000 of debt financing costs, which primarily consisted of legal fees. These costs are being amortized over the life of the credit agreement and are recorded as additional interest expense.

Our obligations under the Credit Agreement are secured by substantially all of the operating assets of Superior Uniform Group, Inc. and are guaranteed by all domestic subsidiaries of Superior Uniform Group, Inc. The agreement contains restrictive provisions concerning a maximum funded senior indebtedness to EBITDA ratio as defined in the agreement (3.5:1), a maximum funded indebtedness to EBITDA ratio as defined in the agreement (4.0:1) and a fixed charge coverage ratio (1.25:1). The Company is in full compliance with all terms, conditions and covenants of the Credit Agreement.

The Company believes that income generated from operations and outside sources of credit, both trade and institutional, will be adequate to fund its operations for the remainder of the year and for the foreseeable future.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

ITEM 4. Controls and Procedures

Disclosure Controls and Procedures

The Company conducted an evaluation, under supervision and with the participation of the Company's principal executive officer, Michael Benstock, and the Company's principal financial officer, Andrew D. Demott, Jr., of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report (the "Evaluation Date"). Based on such evaluation, the Company's principal executive officer and principal financial officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective to ensure that information the Company is required to disclose in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended March 31, 2015, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

None.

ITEM 1A. Risk Factors

We are exposed to certain risks and uncertainties that could have a material adverse impact on our business, financial condition and operating results. There have been no material changes to the Risk Factors described in Part I, Item 1A-Risk Factors in our annual report on Form 10-K for the year ended December 31, 2014.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered sales of equity securities during the quarter ended March 31, 2015, that were not previously reported in a current report on Form 8-K.

The table below sets forth the information with respect to purchases made by or on behalf of Superior Uniform Group, Inc. or any “affiliated purchaser” (as defined in Rule 10b-18(a)(3) under the Exchange Act) of our common shares during the three months ended March 31, 2015.

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
Month #1 (January 1, 2015 to January 31, 2015)	3,432 (2)	\$6.575	N/A	
Month #2 (February 1, 2015 to February 28, 2015)	-	-	-	
Month #3 (March 1, 2015 to March 31, 2015)	-	-	-	
TOTAL	3,432 (2)	\$6.575	N/A	261,675 (1)

(1) On August 1, 2008, the Company’s Board of Directors approved an increase to the outstanding authorization to allow for the repurchase of 1,000,000 shares of the Company’s outstanding shares of common stock. There is no expiration date or other restriction governing the period over which the Company can make share repurchases under the program. All such purchases were open market transactions.

(2) Represents shares surrendered by option holders as payment of the exercise price in the exercise of incentive stock options.

Under our Credit Agreement with Fifth Third Bank, if an event of default exists, we may not make distributions to our shareholders. The Company is in full compliance with all terms, conditions and covenants of the Credit Agreement.

ITEM 3. Defaults Upon Senior Securities

Not applicable.

ITEM 4. Mine Safety Disclosures

Not applicable.

ITEM 5. Other Information

None.

ITEM 6. Exhibits

See Exhibit Index.
