**UNITED STATES**

**SECURITIES AND EXCHANGE COMMISSION**

**Washington, D. C. 20549**

**FORM 10-Q**

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2018

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 0-15204

**NATIONAL BANKSHARES, INC.**

(Exact name of registrant as specified in its charter)

Virginia

54-1375874

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

101 Hubbard Street

P. O. Box 90002

Edgar Filing: NATIONAL BANKSHARES INC - Form 10-Q

Blacksburg, VA 24062-9002  
(Address of principal executive offices) (Zip Code)  
(540) 951-6300

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer  (Do not check if a smaller reporting company)

Smaller reporting company  Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange act.

Yes  No

Note: the text of Form 10-Q does not, and this amendment will not, appear in the Code of Federal Regulations.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

Edgar Filing: NATIONAL BANKSHARES INC - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

**National Bankshares, Inc. and Subsidiaries**

**Notes to Consolidated Financial Statements**

**September 30, 2018**

**(Unaudited)**

**\$ in thousands, except per share data**

**Note 1: General**

The consolidated financial statements of National Bankshares, Inc. (“NBI”) and its wholly-owned subsidiaries, The National Bank of Blacksburg (“NBB”) and National Bankshares Financial Services, Inc. (“NBFS”) (collectively, the “Company”), conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry. The accompanying interim period consolidated financial statements are unaudited; however, in the opinion of management, all adjustments consisting of normal recurring adjustments, which are necessary for a fair presentation of the consolidated financial statements, have been included. The results of operations for the nine month period ended September 30, 2018 are not necessarily indicative of results of operations for the full year or any other interim period. The interim period consolidated financial statements and financial information included in this Form 10-Q should be read in conjunction with the notes to consolidated financial statements included in the Company’s 2017 Form 10-K. The Company posts all reports required to be filed under the Securities and Exchange Act of 1934 on its web site at [www.nationalbankshares.com](http://www.nationalbankshares.com).

Accounting Standards Adopted in 2018

*ASU No. 2014-09, “Revenue from Contracts with Customers”*

In May 2014, the FASB issued ASU No. 2014-09, “*Revenue from Contracts with Customers*.” The standard’s core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, companies generally will be required to use more judgment and make more estimates than under current guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. Subsequent to the issuance of ASU 2014-09, the FASB issued targeted updates to clarify specific implementation issues including ASU No. 2016-08, “*Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*,” ASU No. 2016-10, “*Identifying Performance Obligations and Licensing*,” ASU No.

2016-12, “*Narrow-Scope Improvements and Practical Expedients*,” and ASU No. 2016-20 “*Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*.” For financial reporting purposes, the standard allows for either full retrospective adoption, meaning the standard is applied to all of the periods presented, or modified retrospective adoption, meaning the standard is applied only to the most current period presented in the financial statements with the cumulative effect of initially applying the standard recognized at the date of initial application.

Since the guidance does not apply to revenue associated with financial instruments, including loans and securities that are accounted for under other GAAP, the new guidance did not have a material impact on revenue most closely associated with financial instruments, including interest income and expense. The Company completed its overall assessment of revenue streams and review of related contracts potentially affected by the ASU, including trust and asset management fees, deposit related fees, interchange fees, merchant income, bank-financed sales of other real estate owned and annuity and insurance commissions. Based on this assessment, the Company concluded that ASU 2014-09 did not materially change the method in which the Company currently recognizes revenue for these revenue streams. The Company also completed its evaluation of certain costs related to these revenue streams to determine whether such costs should be presented as expenses or contra-revenue (i.e., gross vs. net). Based on its evaluation, the Company determined that the classification of certain debit and credit card related costs should change (i.e., cost previously recorded as expense is now recorded as contra-revenue). The Company identified \$2,093 previously presented as credit card processing expense for the nine months ended September 30, 2017 and \$715 for the three months ended September 30, 2017, and reclassified it to net against credit card fee income. The Company adopted ASU 2014-09 and its related amendments on its required effective date of January 1, 2018 utilizing the full retrospective approach. There was no impact to net income. Consistent with the full retrospective approach, the Company adjusted prior period amounts for the debit and credit card costs reclassifications noted above.

Table of Contents*ASU No. 2016-01, “Recognition and Measurement of Financial Assets and Financial Liabilities”*

In January 2016, the FASB issued ASU No. 2016-01, “*Recognition and Measurement of Financial Assets and Financial Liabilities.*” This ASU addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments by making targeted improvements to GAAP. The provisions of the ASU that apply to the Company are as follows: (1) require equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer; (2) simplify the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value; (3) eliminate the requirement to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; (4) require use of the exit price notion when measuring the fair value of financial instruments for disclosure purposes; (5) require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements; and (6) clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity’s other deferred tax assets. The adoption of ASU No. 2016-01 on January 1, 2018 did not have a material impact on the Company’s Consolidated Financial Statements. In accordance with (4) above, the Company measured the fair value of its loan portfolio and time deposit portfolio as of September 30, 2018 using an exit price notion (see Note 14 *Fair Value of Assets and Liabilities*).

*ASU No. 2017-07, “Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost”*

In March 2017, the FASB issued ASU No. 2017-07, “*Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost.*” Under the new guidance, employers are required to present the service cost component of the net periodic benefit cost in the same income statement line item (e.g., Salaries and Employee Benefits) as other employee compensation costs arising from services rendered during the period. In addition, only the service cost component will be eligible for capitalization in assets. Employers will present the other components of net periodic benefit cost separately (e.g., Other Noninterest Expense) from the line item that includes the service cost. ASU No. 2017-07 is effective for interim and annual reporting periods beginning after December 15, 2017. Employers will apply the guidance on the presentation of the components of net periodic benefit cost in the income statement retrospectively. The guidance limiting the capitalization of net periodic benefit cost in assets to the service cost component will be applied prospectively. The Company adopted ASU No. 2017-07 on January 1, 2018 and utilized the ASU’s practical expedient allowing entities to estimate amounts for comparative periods using the information previously disclosed in their pension and other postretirement benefit plan footnote and re-classified non-servicing components of net periodic pension cost from compensation expense to other noninterest expense. ASU No. 2017-07 did not have a material impact on the Company’s Consolidated Financial Statements.

**Note 2: Loan Portfolio**

The loan portfolio, excluding loans held for sale, was comprised of the following.

	<b>September 30,</b>	<b>December 31,</b>
	<b>2018</b>	<b>2017</b>
Real estate construction	<b>\$ 42,548</b>	\$ 34,694
Consumer real estate	<b>171,679</b>	166,965
Commercial real estate	<b>346,756</b>	340,414
Commercial non real estate	<b>44,497</b>	40,518
Public sector and IDA	<b>59,369</b>	51,443
Consumer non real estate	<b>37,587</b>	34,648
Gross loans	<b>702,436</b>	668,682
Less unearned income and deferred fees and costs	<b>(602 )</b>	(613 )
Loans, net of unearned income and deferred fees and costs	<b>\$ 701,834</b>	\$ 668,069

Table of Contents

**Note 3: Allowance for Loan Losses, Nonperforming Assets and Impaired Loans**

The allowance for loan losses methodology incorporates individual evaluation of impaired loans and collective evaluation of groups of non-impaired loans. The Company performs ongoing analysis of the loan portfolio to determine credit quality and to identify impaired loans. Credit quality is rated based on the loan's payment history, the borrower's current financial situation and value of the underlying collateral.

Impaired Loans

Loans are designated as impaired when, in the judgment of management based on current information and events, it is probable that all amounts due will not be collected when due according to the contractual terms of the loan agreement. Impaired loans are those loans that have been modified in a troubled debt restructure ("TDR" or "restructure") and larger, non-homogeneous loans that are in nonaccrual or exhibit payment history or financial status that indicate that collection probably will not occur when due according to the loan's terms. Generally, impaired loans are given risk ratings that indicate higher risk, such as "classified" or "other assets especially mentioned." Impaired loans are individually evaluated to determine appropriate reserves and are measured at the lower of the invested amount or the fair value. Impaired loans that are not troubled debt restructures and for which fair value measurement indicates an impairment loss are designated nonaccrual. A restructured loan that maintains current status for at least six months may be in accrual status. Please refer to Note 1: Summary of Significant Accounting Policies for additional information on evaluation of impaired loans and associated specific reserves, and policies regarding nonaccruals, past due status and charge-offs.

Troubled debt restructurings impact the estimation of the appropriate level of the allowance for loan losses. If the restructuring included forgiveness of a portion of principal or accrued interest, the charge-off is included in the historical charge-off rates applied to the collective evaluation methodology. Restructured loans are individually evaluated for impairment, and the amount of a restructured loan's book value in excess of its fair value is accrued as a specific allocation in the allowance for loan losses. If a TDR loan payment exceeds 90 days past due, it is examined to determine whether the late payment indicates collateral dependency or cash flows below those that were used in the fair value measurement. TDRs, as well as all impaired loans, that are determined to be collateral dependent are charged down to fair value. Deficiencies indicated by impairment measurements for TDRs that are not collateral dependent may be accrued in the allowance for loan losses or charged off if deemed uncollectible.

Collectively-Evaluated Loans

The Company evaluated characteristics in the loan portfolio and determined major segments and smaller classes within each segment. These characteristics include collateral type, repayment sources, and (if applicable) the borrower's business model. The methodology for calculating reserves for collectively-evaluated loans is applied at the class level.

*Portfolio Segments and Classes*

The segments and classes used in determining the allowance for loan losses are as follows.

Real Estate Construction

Construction, residential

Construction, other

Commercial Non Real Estate

Commercial and industrial

Consumer Real Estate

Equity lines

Public Sector and IDA

Residential closed-end first liens

Public sector and IDA

Residential closed-end junior liens

Investor-owned residential real estate

Consumer Non Real Estate

Credit cards

Commercial Real Estate

Automobile

Multifamily real estate

Other consumer loans

Commercial real estate, owner-occupied

Commercial real estate, other

*Historical Loss Rates*

The Company's allowance methodology for collectively-evaluated loans applies historical loss rates by class to current class balances as part of the process of determining required reserves. Class loss rates are calculated as the net charge-offs for the class as a percentage of average class balance. The Company averages loss rates for the most recent 8 quarters to determine the historical loss rate for each class.

Two loss rates for each class are calculated: total net charge-offs for the class as a percentage of average class loan balance ("class loss rate"), and total net charge-offs for the class as a percentage of average classified loans in the class ("classified loss rate"). Classified loans are those with risk ratings of "substandard" or lower. Net charge-offs in both calculations include charge-offs and recoveries of classified and non-classified loans as well as those associated with impaired loans. Class historical loss rates are applied to non-classified loan balances at the reporting date, and classified historical loss rates are applied to classified balances at the reporting date.

Table of Contents

*Risk Factors*

In addition to historical loss rates, risk factors pertinent to credit risk for each class are analyzed to estimate reserves for collectively-evaluated loans. Factors include changes in national and local economic and business conditions, the nature and volume of classes within the portfolio, loan quality, loan officers' experience, lending policies and the Company's loan review system.

The analysis of certain factors results in standard allocations to all segments and classes. These factors include the risk from changes in lending policies, loan officers' average years of experience, unemployment levels, bankruptcy rates, interest rate environment, and competition/legal/regulatory environments. Factors analyzed for each class, with resultant allocations based upon the level of risk assessed for each class, include the risk from changes in loan review, levels of past due loans, levels of nonaccrual loans, current class balance as a percentage of total loans, and the percentage of high risk loans within the class. Additionally, factors specific to each segment are analyzed and result in allocations to the segment. Please refer to Note 1: Summary of Significant Accounting Policies of Form 10-K for a discussion of risk factors pertinent to each class.

Real estate construction loans are subject to general risks from changing commercial building and housing market trends and economic conditions that may impact demand for completed properties and the costs of completion. These risks are measured by market-area unemployment rates, bankruptcy rates, building market trends, and interest rates.

The credit quality of consumer real estate is subject to risks associated with the borrower's repayment ability and collateral value, measured generally by analyzing local unemployment and bankruptcy trends, local housing market trends, and interest rates.

The commercial real estate segment includes loans secured by multifamily residential real estate, commercial real estate occupied by the owner/borrower, and commercial real estate leased to non-owners. Loans in the commercial real estate segment are impacted by economic risks from changing commercial real estate markets, rental markets for multi-family housing and commercial buildings, business bankruptcy rates, local unemployment and interest rate trends that would impact the businesses housed by the commercial real estate.

Commercial non real estate loans are secured by collateral other than real estate, or are unsecured. Credit risk for commercial non real estate loans is subject to economic conditions, generally monitored by local business bankruptcy trends, and interest rates.

Public sector and IDA loans are extended to municipalities and related entities. Credit risk is based upon the entity's ability to repay and interest rate trends.

Consumer non real estate includes credit cards, automobile and other consumer loans. Credit cards and certain other consumer loans are unsecured, while collateral is obtained for automobile loans and other consumer loans. Credit risk stems primarily from the borrower's ability to repay, measured by average unemployment, average personal bankruptcy rates and interest rates.

Factor allocations applied to each class are increased for loans rated special mention and increased to a greater extent for loans rated classified. The Company allocates additional reserves for "high risk" loans. High risk loans include junior liens, interest only and high loan to value loans.

A detailed analysis showing the allowance roll-forward by portfolio segment and related loan balance by segment follows.

	<b>Nine Months Ended</b>	<b>Year Ended</b>		
	<b>September, 2018</b>	<b>2017</b>	<b>December 31, 2017</b>	
Ratio of allowance for loan losses to the end of period loans, net of unearned income and deferred fees and costs	<b>1.10 %</b>	1.28 %	1.19	%
Ratio of net charge-offs to average loans, net of unearned income and deferred fees and costs <sup>(1)</sup>	<b>0.06 %</b>	0.11 %	0.08	%

(1) Net charge-offs are on an annualized basis.

A summary of nonperforming assets follows.

	<b>September 30,</b>		<b>December</b>	
	<b>2018</b>	<b>2017</b>	<b>31,</b>	<b>2017</b>
Nonperforming assets:				
Nonaccrual loans	<b>\$220</b>	\$7	\$6	
Restructured loans in nonaccrual	<b>2,856</b>	3,149	2,763	
Total nonperforming loans	<b>3,076</b>	3,156	2,769	
Other real estate owned, net	<b>2,214</b>	2,923	2,817	
Total nonperforming assets	<b>\$5,290</b>	\$6,079	\$5,586	
Ratio of nonperforming assets to loans, net of unearned income and deferred fees and costs, plus other real estate owned	<b>0.75 %</b>	0.92 %	0.83 %	
Ratio of allowance for loan losses to nonperforming loans <sup>(1)</sup>	<b>250.75 %</b>	268.47 %	286.20 %	

<sup>(1)</sup> The Company defines nonperforming loans as nonaccrual loans and restructured loans that are nonaccrual. Nonperforming loans do not include loans 90 days past due and still accruing or accruing restructured loans.

Table of Contents

A summary of loans past due 90 days or more and impaired loans follows.

	<b>September 30,</b>		<b>December</b>	
	<b>2018</b>	<b>2017</b>	<b>31,</b>	<b>2017</b>
Loans past due 90 days or more and still accruing	<b>\$63</b>	\$250	\$ 51	
Ratio of loans past due 90 days or more and still accruing to loans, net of unearned income and deferred fees and costs	<b>0.01</b>	% 0.04	% 0.01	%
Accruing restructured loans	<b>\$7,843</b>	\$4,815	\$ 5,134	
Impaired loans:				
Impaired loans with no valuation allowance	<b>\$10,530</b>	\$10,522	\$ 10,444	
Impaired loans with a valuation allowance	<b>1,404</b>	1,637	1,480	
Total impaired loans	<b>\$11,934</b>	\$12,159	\$ 11,924	
Valuation allowance	<b>(156 )</b>	(186 )	(177 )	
Impaired loans, net of allowance	<b>\$11,778</b>	\$11,973	\$ 11,747	
Average recorded investment in impaired loans <sup>(1)</sup>	<b>\$12,684</b>	\$12,541	\$ 13,344	
Interest income recognized on impaired loans, after designation as impaired	<b>\$414</b>	\$387	\$ 528	
Amount of income recognized on a cash basis	<b>\$---</b>	\$---	\$---	

<sup>(1)</sup> Recorded investment is net of charge-offs and interest paid while a loan is in nonaccrual status.

Nonaccrual loan relationships that meet the Company's balance threshold of \$250 and all TDRs are designated as impaired. The Company also designates as impaired other loan relationships that meet the Company's balance threshold of \$250 and for which the Company does not expect to collect according to the note's contractual terms. No interest income was recognized on nonaccrual loans for the nine months ended September 30, 2018 or September 30, 2017 or for the year ended December 31, 2017.

A detailed analysis of investment in impaired loans, associated reserves and interest income recognized, segregated by loan class follows.
