Although we believe that the expectations reflected in these forward-looking statements are reasonable, we cannot assure you that the expectations reflected in these forward-looking statements will prove to be correct. Our actual results could differ materially from those anticipated in forward-looking statements as a result of certain factors, including matters described in the section titled “Risk Factors.” Forward-looking statements include those that use forward-looking terminology, such as the words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “project,” “plan,” “will,” “shall,” similar expressions, including when used in the negative. Although we believe that the expectations reflected in these forward-looking statements are reasonable and achievable, these statements involve risks and uncertainties and we cannot assure you that actual results will be consistent with these forward-looking statements. We undertake no obligation to update or revise these forward-looking statements, whether to reflect events or circumstances after the date initially filed or published, to reflect the occurrence of unanticipated events or otherwise.

PART I

ITEM 1. BUSINESS.

Our History

MamaMancini’s Holdings, Inc. (formerly Mascot Properties, Inc.) was incorporated in the State of Nevada on July 22, 2009. Mascot Properties, Inc.’s (“Mascot”) activities since its inception consisted of trying to locate real estate properties to manage, primarily related to student housing, and services which included general property management, maintenance and activities coordination for residents. Mascot did not have any significant development of such business and did not derive any revenue. Due to the lack of results in its attempt to implement its original business plan, management determined it was in the best interests of the shareholders to look for other potential business opportunities.

On February 22, 2010, MamaMancini’s LLC was formed as a limited liability company under the laws of the state of New Jersey in order to commercialize our initial products. On March 5, 2012, the members of MamaMancini’s, LLC, holders of 4,700 units (the “Units”) of MamaMancini’s LLC, exchanged the Units for 15,000,000 shares of common stock and those certain options to purchase an additional 223,404 shares of MamaMancini’s Inc. (the “Exchange”). Upon consummation of the Exchange, MamaMancini’s LLC ceased to exist and all further business has been and continues to be conducted by MamaMancini’s Inc.

On January 24, 2013, Mascot, Mascot Properties Acquisition Corp, a Delaware corporation and wholly-owned subsidiary of the Company (“Merger Sub”), MamaMancini’s Inc., a privately-held Delaware Corporation headquartered in New Jersey (“Mama’s”) and David Dreslin, an individual (the “Majority Shareholder”), entered into an Acquisition Agreement and Plan of Merger (the “Agreement”) pursuant to which the Merger Sub was merged with and into Mama’s, with Mama’s surviving as a wholly-owned subsidiary of the Company (the “Merger”). The transaction (the “Closing”) took place on January 24, 2013 (the “Closing Date”). Mascot acquired, through a reverse triangular merger, all of the outstanding capital stock of Mama’s in exchange for issuing Mama’s shareolders (the “Mama’s Shareholders”), pro-rata, a total of 20,054,000 shares of the Company’s common stock. As a result of the Merger, the Mama’s Shareholders became the majority shareholders of Mascot.

Immediately following the Closing of the Agreement, Mascot changed its business plan to that of Mama’s. On March 8, 2013, Mascot received notice from the Financial Industry Regulatory Authority (“FINRA”) that its application to change its name and symbol had been approved and effective Monday, March 11, 2013, Mascot began trading under its new name, “MamaMancini’s Holdings, Inc.” (“MamaMancini’s” or the “Company”) and under its new symbol, “MMMB”.

Our Company

MamaMancini's roots go back to our founder Dan Dougherty, whose grandmother Anna "Mama" Mancini emigrated from Bari, Italy to Bay Ridge, Brooklyn in 1921. Our products were developed using her old world Italian recipes that were handed down to her grandson, Dan Dougherty. Today we market a line of all natural specialty prepared, frozen and refrigerated foods for sale in retailers around the country. Our primary products include beef, turkey, chicken and pork meatballs, all with slow cooked Italian Sauce.

Our products are all natural, contain a minimum number of ingredients and are generally derived from the original recipes of Anna "Mama" Mancini. Our products appeal to health-conscious consumers who seek to avoid artificial flavors, synthetic colors and preservatives that are used in many conventional packaged foods.

The United States Department of Agriculture (the "USDA") defines all natural as a product that contains no artificial ingredients, coloring ingredients or chemical preservatives and is minimally processed. The Company's products were submitted to the USDA and approved as all natural. The Food and Safety and Inspection Service ("FSIS") Food Standards and Labeling Policy Book (2003) requires meat and poultry labels to include a brief statement directly beneath or beside the "natural" Label claim that "explains what is meant by the term natural i.e., that the product is a natural food because it contains no artificial ingredients and is only minimally processed". The term "natural" may be used on a meat label or poultry label if the product does not contain any artificial flavor or flavoring, coloring ingredient, chemical preservative, or any other artificial or synthetic ingredient. Additionally, the term "all natural" can be used if the FSIS approves your product and label claims. The Company's product and label claims have been approved by the FSIS to contain the all-natural label.

Our products are principally sold to supermarkets and mass-market retailers. Our products are sold in multiple sections of the supermarket, including: frozen food, fresh meat, prepared foods (meals), sandwich, hot bars and cold bars as well as cold deli and foods-to-go sections. Consumers can find our products at leading food retailers (supermarkets), including:

A&P	Kings	Shaws
BI-LO	Kroger	Shop Rite
BJ's	Lucky	Stew Leonards
Costco	Lunds and Byerly's	Stop & Shop
Foodtown	Marsh	The Food Emporium
Giant Eagle	Meatball Obsession	The Fresh Market
Giant	Price Chopper	Waldbaums
Gristedes	Publix	Wal-Mart
Harris Teeter	Rouses	Weis Markets
Jewel	Raleys	Whole Foods

Key Food Save Mart Winn-Dixie

We sell directly to both food retailers and food distributors. Some of the leading food distributors we sell to include:

Associated Wholesale Grocers	Gourmet Guru	Sysco
Bozzutos	Grocers Supply Stores	The Chef's Warehouse
Burriss Logistics	Monterrey Provision Co.	The Golub Corp
C&S Wholesale Grocers	Porky Products	Tony's Fine Foods
Central Grocers	SpartanNash	Unified Grocers
Clover Mountain Foods	Super Store Industries	URM Stores
DPI Mid Atlantic	Supervalu	Wakerfern

Our ten largest customers accounted for approximately 86% for the year ended December 31, 2013, approximately 82% for the one month ended January 31, 2014 and approximately 81% for the year ended January 31, 2015. More specifically, for the year ended December 31, 2013, the one month ended January 31, 2014 and the year ended January 31, 2015 our four largest customers represented approximately 51%, 50% and 64% of our sales, respectively. We depend heavily on these customers and more information regarding the possible effects of any loss of these customers is discussed in the section entitled "Risk Factors".

We have grown the number of food retailers (supermarkets) carrying our products from approximately 7,040 supermarkets in January 2014 to approximately 10,800 supermarkets in January 2015. In the supermarkets that carry our products, we sell an average of 3.3 of our stock keeping units ("SKUs"). The number of supermarkets carrying our products multiplied by the number of our SKUs carried at those supermarkets equals shelf placements for our products. We have grown the number of shelf placements from approximately 22,600 in January 2014 to approximately 35,800 in January 2015.

Industry Overview

Our products are considered specialty prepared foods, in that they are all natural, taste great, are authentic Italian and are made with high quality ingredients. The market for specialty and prepared foods spans several sections of the supermarket, including frozen, deli-prepared foods, and the specialty meat segment of the meat department. The overall size of the specialty prepared food business was calculated by the National Association for the Specialty Food Trade in association with Mintel Research at over \$80 billion in 2013 and has grown 18% since 2011.

Packaged Facts, a leading publisher of market research on the food, beverage, consumer packaged goods, and demographic sectors, projects the overall sales of Refrigerated Meats and Meals to be approximately \$31 billion by 2018, up from \$23 billion in 2013. According to Packaged Facts, this 5.5% implied CAGR is likely driven by trends including a focus on convenience and healthy and creative new products. In addition, Packaged Facts projects that retail sales of Natural/Organic Foods and Beverages will reach \$53.5 billion in 2014 and will grow to \$86.7 billion by 2019. This implied CAGR of 10.1% is likely driven by the growing social and environmental issues surrounding the interest in and health benefits of natural and organic foods.

Our Strengths

We believe that the following strengths differentiate our products and our brand:

Authentic recipes and great taste. Our products are founded upon Anna “Mama” Mancini’s old world Italian recipes. We believe the authenticity of our products has enabled us to build and maintain loyalty and trust among our current customers and will help us attract new customers. Additionally, we continuously receive positive customer testimonials regarding the great taste and quality of our products.

Healthy and convenient. Our products are made only from high quality natural ingredients, including domestic inspected beef, whole Italian tomatoes, genuine imported Pecorino Romano, real eggs, natural breadcrumbs, olive oil and other herbs and spices. Our products are also simple to prepare. Virtually every product we offer is ready-to-serve within 12 minutes, thereby providing quick and easy meal solutions for our customers. By including the sauce and utilizing a tray with our packaging, our meatballs can be prepared quickly and easily.

Great value. We strive to provide our customers with a great tasting product using all natural ingredients at an affordable price. Typical retail prices for 22 oz. packages ranges from \$5.99 to \$7.49, and \$5.99 to \$7.99 for bulk products sold in delis or hot bars. We believe the sizes of our product offerings represent a great value for the price.

New products and innovation. Since our inception, we have continued to introduce new and innovative products. While we pride on ourselves on our traditional beef, turkey, chicken and pork meatballs, we have continuously made efforts to grow and diversify our line of products while maintaining our high standards for all natural, healthy ingredients and great taste. We recently introduced Fusili Pasta with Bolognese Sauce and Mac N’ Mamas® (penne pasta, crushed meatballs, sauce and cheeses). Other recently introduced innovative products include:

Five Cheese Stuffed Beef Meatballs Antibiotic Free Beef and Turkey Meatballs
Chicken Parmigiana Stuffed Meatballs Gluten Free Beef and Turkey Meatballs
Chicken Florentine Stuffed Meatballs

Strong consumer loyalty. Many of our consumers are loyal and enthusiastic brand advocates. Our consumers trust us to deliver great-tasting products made with all natural ingredients. Consumers have actively communicated with us through our website and/or social media channels. We believe that this consumer interaction has generated interest in our products and has inspired enthusiasm for our brand. We also believe that enthusiasm for our products has led and will continue to lead to repeat purchases and new consumers trying our products.

Experienced leadership. We have a proven and experienced senior management team. Our Chief Executive Officer and Chairman, Carl Wolf, has been with us since inception and has over 35 years of experience in the management and operations of food companies. Mr. Wolf was the founder, majority shareholder, Chairman of the Board, and CEO of Alpine Lace Brands, Inc., a public company engaged in the development, marketing and distribution of cheese, deli meats and other specialty food products, which was sold to Land O'Lakes, Inc. In addition, the other members of our board of directors also have significant experience in the food industry.

Our Growth Strategy

We are actively trying to build our brand's reputation, grow sales and improve our product and operating margins by pursuing the following growth strategies:

Increase retail locations. We intend to increase sales by expanding the number of retail stores that sell our products in the mainstream grocery and mass merchandiser channels.

Increase product placements within retail locations. We strive for product placements in the frozen, fresh, and deli segments of food retailers. We believe adding shelf placements within the supermarkets that carry our products will increase customer awareness, leading to more consumers purchasing our products and expanding our market share.

Grow sales staff. We have an experienced sales staff and now employ two full time regional Vice Presidents of sales as well as our Co-Founder Dan Dougherty, Carl Wolf, our Chief Executive Officer and Chairman, and Matthew Brown, our President, each of whom is involved with selling to, and managing sales with, major supermarket chains. We intend to add additional sales personnel in 2015.

Expand food brokerage network. We currently work with approximately 25 retail food brokers. In July 2014 we expanded our broker sales representative network, adding 9 within various territories and with specific accounts of focus. We intend to add additional food brokers in 2015.

Enhance awareness through marketing. Starting in 2013 we began a national radio campaign on Sirius XM Satellite Radio and also have commercials running on political talk radio. We have increased our social media activity with Facebook, Twitter, Pinterest, and YouTube. We also engage with consumers through newsletter mailings, blogs, and special projects, including a bank of recipe videos and contests and giveaways. Targeted

consumer merchandising activity, including virtual couponing, on-pack couponing, mail-in rebates, product demonstrations, and co-op retail advertising will continue into the future in order to increase sales and generate new customers.

Adding new products. Our market research and consumer testing enable us to identify attractive new product opportunities. We intend to continue to introduce new products in both existing and new product lines that appeal to a wide range of consumers. We currently have approximately 17 product offerings.

Products

Our principal products are meatballs with slow cooked Italian Sauce. We currently offer meatballs using the following meats: beef, turkey, chicken and pork.

Our current beef meatball products include:

Our current turkey meatball products include:

Our current chicken meatball products include:

Our current pork meatball products include:

Recently, we expanded our product line to include certain meatball inspired Italian prepared meal products including:

Sauce Products:

Product Development

MamaMancini's continues to improve products and to develop new products. We also contract with third parties in order to develop new products. We recently introduced new products, including:

“Mac and Mamas®” (penne pasta, crushed meatballs, sauce and cheeses)	Antibiotic Free Turkey Meatballs and Sauce
Gluten Free Beef Meatballs and Slow Cooked Italian Sauce	Bolognese Sauce
Gluten Free Turkey Meatballs and Slow Cooked Italian Sauce	Fusili Pasta and Bolognese Sauce
Five Cheese Stuffed Beef Meatballs	Stuffed Chicken Parmigiana Style Meatballs and Slow Cooked Italian Sauce
Antibiotic Free Beef Meatballs and Sauce	Stuffed Chicken Florentine Style Meatballs and Slow Cooked Italian Sauce

Our new product development strategy is inspired by Anna “Mama” Mancini’s old world recipes and new recipes derived from those original recipes. All new products currently under development are included with a Development and License Agreement entered into on January 1, 2009 with Dan Dougherty, the grandson of Anna “Mama” Mancini, relating to the use of her recipes for the products to be created by MamaMancini’s.

We are currently developing new products, some of which may include:

Pasta and Slow Cooked Italian Sauce n’ Beef Meatballs	Turkey Meatloaf
Pasta and Slow Cooked Italian Sauce n’ Turkey Meatballs	Chicken Parmagiana
Pasta and Slow Cooked Italian Sauce n’ Sausage	Italian Meatball Soup
Chicken Marsala	Traditional Italian Meatballs (Beef, Pork and Veal) and Slow Cooked Italian Sauce
Beef Meatloaf	

We cannot predict if or when any of the foregoing products under development will ever be available to consumers.

Pricing

Our pricing strategy focuses on being competitively priced with other premium brands. Since our products are positioned in the authentic premium prepared food category, we maintain prices competitive with those of similar products and prices slightly higher than those in the commodity prepared foods section. This pricing strategy also provides greater long-term flexibility as we grow our product line through the growth curve of our products. Current typical retail prices for 22 oz. packages range from \$5.99 to \$7.49, and \$5.99 to \$7.99 for bulk products sold in delis or hot bars. Increases in raw materials costs, among other factors, may lead to us consider price increases in the future.

Suppliers/Manufacturers

None of our raw materials or ingredients are grown or purchased directly by us. We employ one company, JEFE to order all raw materials or ingredients, as well as manufacture approximately 95% of our products to date. JEFE is owned by both the CEO and President of the Company.

We are negotiating with several other manufacturers to supplement the services provided by JEFE. We currently purchase modest quantities from other manufacturers. All of the raw materials and ingredients in our products are readily available and are readily ascertainable by our suppliers. We have not experienced any material shortages of ingredients or other products necessary to our operations and do not anticipate such shortages in the foreseeable future.

Sales/Brokers

As of January 31, 2015, our products are carried by approximately 10,800 food retail locations with an average of 3.3 different items per retail location, thereby totaling approximately 35,800 product placements on shelves in such retail locations. Our products are sold in the frozen meat case, the frozen Italian specialty section, the fresh meat case, the deli (in bulk and grab n' go pre-packaged formats) as well as hot bars and sandwich shops in food retailers.

Our products are sold primarily through a commission broker network. We sell to large retail chains who direct our products to their own warehouses or to large food distributors. Such distributors include, but are not limited to: URM, a wholesaler to independent stores in Oregon and Washington State; Associated Wholesale Grocers, a wholesaler located in Louisiana; C&S Wholesale Grocers, an east coast distributor to A&P, Key Food, Waldbaums and other food retailers; SpartanNash; SuperValue, which distributes to Jewel, Lunds and Byerly's; and Wakefern, the merchandising and distribution arm of Shop Rite stores.

In January of 2014 the Company reorganized its sales management with the result that the Company is now actively soliciting business with almost every major retail supermarket chain in the country. Currently, all of our full-time employees and Dan Dougherty sell our products directly to supermarkets and mass retailers. MamaMancini's products are currently sold primarily in the Northeast and Southeast.

Marketing

The majority of our marketing activity has been generated through promotional discounts, consumer trial, consumer product tastings and demonstrations, in-store merchandising and signage, couponing, word of mouth, consumer public relations, social media, special merchandising events with retailers and consumer advertising.

The Company began a national radio campaign on Sirius radio in 2012 and added other national radio components such as political talk radio in 2013 that has continued through the present. The Company ran about 25,000 radio spots in 2014. The Company hopes to expand its radio campaign reach throughout 2015.

In August 2013, the Company began an active social media campaign with an emphasis on Facebook. Our Facebook campaign is being managed by a third party marketing firm and Dan Dougherty. We have gone from 800 “likes” to over 200,000 “likes” in April 2015, with 2,000 to 3,000 new “likes” being generated each week. We believe that this demonstrates that our products are resonating with consumers and that our brand awareness continues to grow.

The Company has also developed a brand ambassador program for consumer advocates of MamaMancini’s. Advocates receive coupons, hats, tote bags and other incentives to promote our brand. In addition, the Company has an active on-line and traditional paper couponing activity and employees outside services to deliver coupons to consumers such as Coupons.com, Ibotta, Facebook, newspaper free standing inserts, and on pack coupons as well as our web site. Dan Dougherty has been the principal spokesperson for MamaMancini’s, and has made appearances or had article features including the Martha Stewart Show, Entertainment Tonight, Today Cooking School, New York Times, Wall Street Journal, USA Today and People Magazine.

Additionally, in February 2015, the Company began a major initiative to merchandise its meatballs in a kettle program with 400 customers committed to the program. Potential customers include, food service distributors, supermarket and take out meal programs, kiosks at high volume public locations and mass market retailers.

Based on the Company’s metrics for determining brand awareness, which includes market studies and analysis of consumer recognition of the MamaMancini’s brand, the Company believes that brand awareness for MamaMancini’s has grown significantly in the past 12 months.

Investments - Meatball Obsession

In March of 2011, we invested \$27,032 for a 35% interest in Meatball Obsession. Meatball Obsession offers a fast service menu of single-serve, take-out meatball offerings. As of January 31, 2015, we owned 13% of Meatball Obsession. Meatball Obsession has expanded into 4 locations from the first kiosk that opened in March 2012 in New York City, and plans to open additional kiosks at universities, airports, food courts and other high pedestrian traffic areas around the United States. Meatball Obsession has signed an exclusive supply agreement with MamaMancini’s whereby Meatball Obsession will sell MamaMancini’s branded products as its primary menu selections. One of our directors, Steven Burns, serves as the Chairman of the Board of Directors of Meatball Obsession.

Competition

The gourmet and specialty pre-packaged and frozen food industry has many large competitors specializing in various types of cuisine from all over the world. Our product lines are currently concentrated on Italian specialty foods. While it is our contention that our competition is much more limited than the entire frozen and pre-packaged food industry based on our products' niche market, there can be no assurances that we do not compete with the entire frozen and pre-packaged food industry. We believe our principal competitors include Quaker Maid / Philly-Gourmet Meat Company, Hormel, Rosina Company, Inc., Casa Di Bertacchi, Inc., Farm Rich, Inc., Mama Lucia, and Buona Vita, Inc.

Intellectual Property

Our current intellectual property consists of trade secret recipes and cooking processes for our products and three trademarks for "MamaMancini's", "Mac N' Mamas" and "The Meatball Lovers Meatball". The recipes and use of the trademarks have been assigned in perpetuity to the Company.

We rely on a combination of trademark, copyright and trade secret laws to establish and protect our proprietary rights. We will also use technical measures to protect our proprietary rights.

Royalty Agreement

In accordance with a Development and License Agreement (the "Development and License Agreement") entered into on January 1, 2009 with Dan Dougherty relating to the use of his grandmother's recipes for the products to be created by MamaMancini's, Mr. Dougherty granted us a 50 year exclusive license (subject to certain minimum payments being made), with a 25 year extension option, to use and commercialize the licensed items. Under the terms of the Development and License Agreement, Mr. Dougherty shall develop a line of beef meatballs with sauce, turkey meatballs with sauce and other similar meats and sauces for commercial manufacture, distribution and sale (each a "Licensor Product" and collectively the "Licensor Products"). Mr. Dougherty shall work with us to develop Licensor Products that are acceptable to us. Upon acceptance of a Licensor Product by us, Mr. Dougherty's trade secret recipes, formulas methods and ingredients for the preparation and production of such Licensor Products shall be subject to the Development and License Agreement. In connection with the Development and License Agreement, we pay Mr. Dougherty a royalty fee on net sales.

Supply Agreement

On March 1, 2010, the Company entered into a five-year agreement with JEFE. JEFE is owned by both the CEO and President of the Company. Under the terms of the agreement, the Company granted to JEFE a revocable license to use the Company's recipes, formulas, methods and ingredients for the preparation and production of Company's products, for manufacturing the Company's product and all future improvements, modifications, substitutions and replacements developed by the Company. JEFE in turn granted to the Company the exclusive right to purchase the product. Under the terms of the agreement JEFE agreed to manufacture, package, and store the Company's products. The Company has the right to purchase products from one or more other manufacturers, distributors or suppliers. The agreement contains a perpetual automatic renewal clause for a period of one year after the expiration of the initial term. During the renewal period either party may cancel the contract with written notice nine months prior to the termination date. The agreement was automatically renewed in February 2015 and will continue to automatically renew unless notice of termination is provided in writing by either party nine months prior to expiration.

Under the terms of the agreement if the Company specifies any change in packaging or shipping materials which results in JEFE incurring increased expense for packaging and shipping materials or in JEFE being unable to utilize obsolete packaging or shipping materials in ordinary packaging or shipping, the Company agrees to pay as additional product cost the additional cost for packaging and shipping materials and to purchase at cost such obsolete packaging and shipping materials. If the Company requests any repackaging of the product, other than due to defects in the original packaging, the Company will reimburse JEFE for any labor costs incurred in repackaging. Per the agreement, all product delivery shipping costs are the expense of the Company.

USDA approval / Regulations

Our food products, which are manufactured in third-party facilities, are subject to various federal, state and local regulations and inspection, and to extensive regulations and inspections, regarding sanitation, quality, packaging and labeling. In order to distribute and sell our products outside the State of New Jersey, the third-party food processing facilities must meet the standards promulgated by the U.S. Department of Agriculture (the "USDA"). Our third party manufacturers processing facilities and products are subject to periodic inspection by federal, state, and local authorities. In January 2011, the FDA's Food Safety Modernization Act was signed into law. The law will increase the number of inspections at food facilities in the U.S. in an effort to enhance the detection of food borne illness outbreaks and order recalls of tainted food products. The facilities in which our products are manufactured are inspected regularly and comply with all the requirements of the FDA and USDA.

We are subject to the Food, Drug and Cosmetic Act and regulations promulgated thereunder by the FDA. This comprehensive regulatory program governs, among other things, the manufacturing, composition and ingredients, packaging, and safety of food. Under this program, the FDA regulates manufacturing practices for foods through, among other things, its current "good manufacturing practices" regulations, or GMP's, and specifies the recipes for certain foods. Specifically, the USDA defines "all natural" as a product that contains no artificial ingredients, coloring ingredients or chemical preservatives and is minimally processed. The Company's products were submitted to the USDA and approved as "all natural". However, should the USDA change their definition of "all natural" at some point in the future, or should MamaMancini's change their existing recipes to include ingredients that do not meet the USDA's definition of "all natural", our results of operations could be adversely affected.

The FTC and other authorities regulate how we market and advertise our products, and we are currently in compliance with all regulations related thereto, although we could be the target of claims relating to alleged false or deceptive advertising under federal and state laws and regulations. Changes in these laws or regulations or the introduction of new laws or regulations could increase the costs of doing business for us or our customers or suppliers or restrict our actions, causing our results of operations to be adversely affected.

Quality Assurance

We take precautions designed to ensure the quality and safety of our products. In addition to routine third-party inspections of our contract manufacturer, we have instituted regular audits to address topics such as allergen control, ingredient, packaging and product specifications and sanitation. Under the FDA Food Modernization Act, each of our contract manufacturers is required to have a hazard analysis critical control points plan that identifies critical pathways for contaminants and mandates control measures that must be used to prevent, eliminate or reduce relevant food-borne hazards.

Our current contract manufacturer, JEFE, is certified in the Safe Quality Food Program. These standards are integrated food safety and quality management protocols designed specifically for the food sector and offer a comprehensive methodology to manage food safety and quality simultaneously. Certification provides an independent and external validation that a product, process or service complies with applicable regulations and standards.

We work with suppliers who assure the quality and safety of their ingredients. These assurances are supported by our purchasing contracts or quality assurance specification packets, including affidavits, certificates of analysis and analytical testing, where required. The quality assurance staff of both our contract manufacturer and our own internal operations department conducts periodic on-site routine audits of critical ingredient suppliers.

Item 1A. Risk Factors.

RISKS RELATED TO OUR BUSINESS

We are not profitable and may never be profitable.

Since inception on February 22, 2010 and through January 31, 2015, MamaMancini's has raised approximately \$12,050,000 in capital. During this same period, we have recorded net accumulated losses totaling \$(10,603,761). As of January 31, 2015, we had working capital of \$2,964,121. MamaMancini's net losses for the two most recent fiscal years ended January 31, 2015 and December 31, 2013 have been \$4,060,476 and \$2,947,608, respectively (not inclusive of the one month period ended January 31, 2014). We expect to incur significant increasing operating losses over the next several years. Negative cash flow from operations is expected in the foreseeable future. MamaMancini's ability to achieve profitability depends upon many factors, including its ability to develop and commercialize products. There can be no assurance that MamaMancini's will ever achieve any significant revenues or profitable operations.

MamaMancini's has a limited operating history.

MamaMancini's has been in existence for approximately four years. Our limited operating history means that there is a high degree of uncertainty in our ability to: (i) develop and commercialize our products; (ii) achieve market acceptance of our products; or (iii) respond to competition. Additionally, even if we do implement our business plan, we may not be successful. No assurances can be given as to exactly when, if at all, we will be able to recognize profits high enough to sustain our business. We face all the risks inherent in a new business, including the expenses, difficulties, complications, and delays frequently encountered in connection with conducting operations, including capital requirements. Given our limited operating history, we may be unable to effectively implement our business plan which would result in a loss of your investment.

We will need additional capital, which may be difficult to raise as a result of our limited operating history or any number of other reasons.

Since inception in 2010 and through January 31, 2015, MamaMancini's has incurred net accumulated losses of \$(10,603,761). As of January 31, 2015 we had working capital of \$2,964,121 and stockholders' equity of \$2,162,616. The Company believes that it has adequate financing through the end of the current fiscal year to execute its current growth plan, however, in the case that the Company exceeds its expected growth, we would need to raise additional

capital and/or significantly cut expenses and overhead in order to operate the business through such date. Currently, we plan to raise additional capital, but we have no committed sources of additional capital and our access to capital funding is always uncertain. There is no assurance that additional equity or debt financing will be available to us when needed, on acceptable terms or even at all. In the event that we are not able to secure financing, we may have to scale back our development plans or cease operations.

The majority of our business depends on a limited number of principal customers.

Because we depend on a limited number of customers for a majority of our sales, a loss of one of these customers could materially adversely affect our business and financial condition. Our ten largest accounts represented approximately 86%, 82% and 81% for the year ended December 31, 2013, the one month period ended January 31, 2014 and the year ended January 31, 2015. For the year ended January 31, 2015 our three largest customers represented approximately 42% of our sales, respectively. Our principal customers only continue to purchase our products if they are able to sell them to their end consumers. We have no long-term contracts with our principal customers and thus our business would be negatively affected by the failure of our principal customers to purchase our products on a consistent basis. If these principal customers cease ordering products from us, our business could be materially adversely affected.

Competitive product and pricing pressures in the food industry and the financial condition of customers and suppliers could adversely affect our ability to gain or maintain market share and/or profitability.

We currently operate in the highly competitive food industry, competing with other companies that have varying abilities to withstand changing market conditions. Any significant change in our relationship with a major customer, including changes in product prices, sales volume, or contractual terms may impact financial results. Such changes may result because our competitors may have substantial financial, marketing, and other resources that may change the competitive environment. If we are unable to establish economies of scale, marketing expertise, product innovation, and category leadership positions to respond to changing market trends, or if we are unable to increase prices while maintaining a customer base, our profitability and volume growth could be impacted in a materially adverse way. The success of our business depends, in part, upon the financial strength and viability of our suppliers and customers. The financial condition of those suppliers and customers is affected in large part by conditions and events that are beyond our control. A significant deterioration of their financial condition would adversely affect our financial results.

We face competition from companies who produce similar frozen products and other prepared foods, many of whom have longer operating histories or who have substantially more financial resources.

Many of our competitors have been in business for a significantly longer period of time than we have and have learned manufacturing techniques which can aid in efficiently producing their products. Additionally, many of these companies have successfully acquired a loyal customer base that would be difficult for us to compete with. Such customers may be unwilling to purchase our products due to brand loyalty or uncertainty in the highly competitive market in which we compete. In addition, if we gain traction in our particular niche of creating gourmet Italian frozen foods, major food companies with substantial marketing and financial resources may attempt to compete more directly with us. In the event that such large companies do directly compete with us, our business may be adversely affected.

All of our manufacturing is outsourced to a related party manufacturer which we rely on for a significant amount of our manufacturing and supply.

Presently we do not own any manufacturing facilities. Approximately 95% of our manufacturing is outsourced to a food manufacturing facility in East Rutherford, New Jersey owned by Joseph Epstein Food Enterprises, Inc. ("JEFE"). JEFE is a related party entity owned by our Chief Executive Officer, Mr. Carl Wolf, and our President, Mr. Matthew Brown. We have a contract with JEFE that began on March 1, 2010 and is currently set to expire on February 28, 2016. Under a supply agreement with JEFE, we have granted JEFE a revocable license to use our recipes, formulas, methods and ingredients for the preparation and production of our products. JEFE in turn has granted us the exclusive right to purchase the product. Under the terms of the agreement, JEFE agrees to manufacture, package, and store our products and we have the right to purchase products from one or more other manufacturers, distributors or suppliers.

Although management believes that the contract will continue to be renewed on the same terms of the existing contract, there can be no assurances that this will occur. In the event that our contract with JEFE is not renewed, we would have to seek other suppliers for our products. However, we can make no assurance that we will be able to engage other suppliers on satisfactory terms or in a timely manner. In the event that JEFE ceases operations or stops manufacturing our products, our inability to secure an alternative supplier would materially adversely affect our business and financial condition.

Additionally, should we be forced to manufacture our own products, we cannot give any assurance that we will be able to develop internal manufacturing capabilities or procure third party suppliers. In the event we seek third party suppliers, they may require us to purchase a minimum amount of materials or could require other unfavorable terms. Any such event would materially adversely impact our prospects. Moreover, we cannot give any assurance that any alternate contract manufacturers or suppliers that we select will be able to supply our products in a timely or cost effective manner or in accordance with applicable regulatory requirements or our specifications. Anything that materially adversely impacts JEFE, including but not limited to labor stoppages, may have a materially adverse effect on our business.

We currently carry a large receivable from our related party manufacturer.

JEFE, owned by Matthew Brown and Karen Wolf and by Carl and Marion Wolf, is also contracted to produce and manufacture food products for the Company. Currently, JEFE serves as our principal food manufacturing company. For the year ended January 31, 2015 and December 31, 2013, we paid JEFE \$8,803,541 and \$6,190,595, respectively, for the manufacturing of products. At January 31, 2015 and 2014, we had a receivable in the amount of \$2,213,037 and \$1,373,036 from JEFE. Should JEFE default under its obligations to pay us our results of operations would be significantly impacted. The Company has taken measures to make certain that the receivable from JEFE does not increase. We believe that JEFE will continue to pay down the receivable throughout the current fiscal year.

Our operations are subject to regulation by the U.S. Food and Drug Administration (“FDA”), U.S. Department of Agriculture (“USDA”), Federal Trade Commission (“FTC”) and other governmental entities and such regulations are subject to change from time to time which could impact how we manage our production and sale of products. Federal budget cuts could result in furloughs for government employees, including inspectors and reviewers for our supplier’s plants and products which could materially impact our ability to manufacture regulated products.

Our food products which are manufactured in third-party facilities are subject to extensive regulation by the FDA, the USDA and other national, state, and local authorities. For example, we are subject to the Food, Drug and Cosmetic Act and regulations promulgated thereunder by the FDA. This comprehensive regulatory program governs, among other things, the manufacturing, composition and ingredients, packaging, and safety of food. Under this program, the FDA regulates manufacturing practices for foods through, among other things, its current “good manufacturing practices” regulations, or GMP’s, and specifies the recipes for certain foods. Specifically, the USDA defines “all natural” as a product that contains no artificial ingredients, coloring ingredients or chemical preservatives and is minimally processed. The Company’s products were submitted to the USDA and approved as “all natural”. However, should the USDA change their definition of “all natural” at some point in the future, or should MamaMancini’s change their existing recipes to include ingredients that do not meet the USDA’s definition/ of “all natural”, our results of operations could be adversely affected.

Our third party manufacturers processing facilities and products are subject to periodic inspection by federal, state, and local authorities. In January 2011, the FDA’s Food Safety Modernization Act was signed into law. The law will increase the number of inspections at food facilities in the U.S. in an effort to enhance the detection of food borne illness outbreaks and order recalls of tainted food products.

The FTC and other authorities regulate how we market and advertise our products, and we could be the target of claims relating to alleged false or deceptive advertising under federal and state laws and regulations. Changes in these laws or regulations or the introduction of new laws or regulations could increase the costs of doing business for us or our customers or suppliers or restrict our actions, causing our results of operations to be adversely affected.

The need for and effect of product recalls could have a material adverse impact on our business.

If any of our products become misbranded or adulterated, we may need to conduct a product recall. The scope of such a recall could result in significant costs incurred as a result of the recall, potential destruction of inventory, and lost sales. Should consumption of any product cause injury and/or illness, we also may be liable for monetary damages as a result of one or more product liability judgments against us. A significant product recall or product liability case could cause a loss of consumer confidence in our food products and could have a material adverse effect on the value of our brand, results of operations and prospects.

We may be subject to significant liability if the consumption of any of our products causes illness or physical harm.

The sale of food products for human consumption involves the risk of injury or illness to consumers. Such injuries or illness may result from inadvertent mislabeling, tampering or product contamination or spoilage. Under certain circumstances, we may be required to recall or withdraw products, which may have a material adverse effect on our business. Even if a situation does not necessitate a recall or market withdrawal, product liability claims may be asserted against us. If the consumption of any of our products causes, or is alleged to have caused, a health-related illness, we may become subject to claims or lawsuits relating to such matters. Even if a product liability claim is unsuccessful, the negative publicity surrounding any assertion that our products caused illness or physical harm could adversely affect our reputation with existing and potential distributors, retailers and consumers and our corporate image and brand equity. Moreover, claims or liabilities of this sort might not be covered by insurance or by any rights of indemnity or contribution that we may have against others. A product liability judgment against us or a product recall or market withdrawal could have a material adverse effect on our business, reputation and operating results.

The impact of various food safety issues, environmental, legal, tax, and other regulations and related developments could adversely affect our sales and profitability.

Our products are subject to numerous food safety and other laws and regulations regarding the manufacturing, marketing, and distribution of food products, particularly the USDA, and state and local agencies. These regulations govern matters such as ingredients, advertising, taxation, relations with distributors and retailers, health and safety matters, and environmental concerns. The ineffectiveness of our or our manufacturer's planning and policies with respect to these matters, and the need to comply with new or revised laws or regulations with regard to licensing requirements, trade and pricing practices, environmental permitting, or other food or safety matters, or new interpretations or enforcement of existing laws and regulations, as well as any related litigation, may have a material adverse effect on our sales and profitability.

Increases in the cost and restrictions on the availability of raw materials could adversely affect our financial results.

Our products include agricultural commodities such as tomatoes, onions, and meats and other items such as spices and flour, as well as packaging materials such as plastic, metal, paper, fiberboard, and other materials and inputs such as water, in order to manufacture products. The availability or cost of such commodities may fluctuate widely due to government policy and regulation, crop failures or shortages due to plant disease or insect and other pest infestation, weather conditions, potential impact of climate change, increased demand for biofuels, or other unforeseen circumstances. To the extent that any of the foregoing or other unknown factors increase the prices of such commodities or materials and we are unable to increase our prices or adequately hedge against such changes in a manner that offsets such changes, the results of its operations could be materially and adversely affected. Similarly, if supplier arrangements and relationships result in increased and unforeseen expenses, our financial results could be materially and adversely impacted.

Disruption of our supply chain could adversely affect our business.

Damage or disruption to our manufacturing or distribution capabilities due to weather, natural disaster, fire, terrorism, pandemic, strikes, the financial and/or operational instability of key suppliers, distributors, warehousing and transportation providers, or brokers, or other reasons could impair our ability to manufacture or sell our products. To the extent that we are unable to, or cannot financially mitigate the likelihood or potential impact of such events, or to effectively manage such events if they occur, particularly when a product is sourced from a single location, our business and results of operations may be materially adversely affected, and additional resources could be required to restore our supply chain.

Higher energy costs and other factors affecting the cost of producing, transporting, and distributing our products could adversely affect our financial results.

Rising fuel and energy costs may have a significant impact on our cost of operations, including the manufacture, transportation, and distribution of products. Fuel costs may fluctuate due to a number of factors outside of our control, including government policy and regulation and weather conditions. Additionally, we may be unable to maintain favorable arrangements with respect to the manufacturing costs of our products as a result of the rise in costs of procuring raw materials and transportation by our manufacturers. This may result in increased expenses and negatively affect operations.

If we fail to establish and maintain an effective system of internal control, we may not be able to report our financial results accurately or to prevent fraud. Any inability to report and file our financial results accurately and timely could harm our reputation and adversely impact the trading price of our common stock.

Effective internal control is necessary for us to provide reliable financial reports and prevent fraud. If we cannot provide reliable financial reports or prevent fraud, we may not be able to manage our business as effectively as we would if an effective control environment existed, and our business and reputation with investors may be harmed.

We currently have insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements. Additionally, there is a lack of formal process and timeline for closing the books and records at the end of each reporting period. Such a documented weakness could restrict our ability to timely gather, analyze and report information relative to our financial statements.

Because of our limited resources, there are limited controls over our information processing. There is inadequate segregation of duties consistent with control objectives. Our management is composed of a small number of individuals resulting in a situation where limitations on segregation of duties exist. In order to remedy this situation we would need to hire additional staff. Currently, we are unable to afford to hire additional staff to facilitate greater segregation of duties but will reassess our capabilities in the following year.

Management believes that the material weaknesses set forth above are the result of the lack of scale of our operations and are intrinsic to our small size. Nonetheless, our small size and our current internal control deficiencies may have a material adverse effect on our ability to accurately and timely report our financial information which, in turn, may have a material adverse effect on our financial condition.

As a result of our small size and our current internal control deficiencies, our financial condition, results of operation and access to capital may be materially adversely affected.

Global economic uncertainties continue to affect consumers' purchasing habits and customer financial stability, which may affect sales volume and profitability on some of our products and have other impacts that we cannot fully predict.

As a result of continuing global economic uncertainties, price-conscious consumers may replace their purchases of our premium and value-added products with lower-cost alternatives, which could affect the price and volume of some of these products. The volume or profitability of our products may be adversely affected if consumers are reluctant to pay a premium for higher quality frozen foods or if they replace purchases of our products with cheaper alternatives. Additionally, distributors and retailers may become more conservative in response to these conditions and seek to reduce their inventories. Our results of operations depend upon, among other things, our ability to maintain and increase sales volume with our existing distributors and retailers, to attract new consumers and to provide products that appeal to consumers at prices they are willing and able to pay. Prolonged unfavorable economic conditions may have an adverse effect on our sales and profitability.

We rely on key personnel and, if we are unable to retain or motivate key personnel or hire qualified personnel, we may not be able to grow effectively.

Our success depends in large part upon the abilities and continued service of our executive officers and other key employees, particularly Mr. Carl Wolf, our Chief Executive Officer and Chairman, and Mr. Matthew Brown, our President. There can be no assurance that we will be able to retain the services of such officers and employees. Our failure to retain the services of our key personnel could have a materially adverse effect on our business. In order to support our projected growth, we will be required to effectively recruit, hire, train and retain additional qualified management personnel. Our inability to attract and retain necessary personnel could have a materially adverse effect on our business.

Matthew Brown, our President, allocates his time between MamaMancini's and JEFE, thereby causing potential conflicts of interest in his determination as to how much time to devote to our affairs, which could materially adversely affect our business.

Our President, Matthew Brown, is not required to commit his full time to our affairs, which may result in a conflict of interest in allocating his time between our operations and those of JEFE. He currently devotes approximately 50% of his time to our Company and 50% to JEFE. Because Mr. Brown is required to devote such a significant amount of his time to other business affairs, even though it may indirectly benefit our Company, it could significantly impair his ability to devote sufficient time to our affairs, which would have a material adverse impact on our ability to execute our business plan.

The failure of new product or packaging introductions to gain trade and consumer acceptance and address changes in consumer preferences could adversely affect our sales.

Our success is dependent upon anticipating and reacting to changes in consumer preferences, including health and wellness. There are inherent marketplace risks associated with new product or packaging introductions, including uncertainties about trade and consumer acceptance. Moreover, success is dependent upon our ability to identify and respond to consumer trends through innovation. We may be required to increase expenditures for new product development and there is no guarantee that we will be successful in developing new products or improving upon products already in existence. Additionally, our new products may not achieve consumer acceptance and could materially negatively impact sales.

Changes in our promotional activities may impact, and may have a disproportionate effect on, our overall financial condition and results of operations.

We offer a variety of sales and promotion incentives to our customers and to consumers, such as price discounts, consumer coupons, volume rebates, cooperative marketing programs, slotting fees and in-store displays. Our net sales may periodically be influenced by the introduction and discontinuance of sales and promotion incentives. Reductions in overall sales and promotion incentives could impact our net sales and affect our results of operations in any particular fiscal quarter.

We may not be able to successfully implement our growth strategy on a timely basis or at all.

Our future success depends, in large part, on our ability to implement our growth strategy of expanding distribution and improving placement of our products, attracting new consumers to our brand and introducing new product lines and product extensions. Our ability to implement this growth strategy depends, among other things, on our ability to:

enter into distribution and other strategic arrangements with third-party retailers and other potential distributors of our products;

continue to compete in conventional grocery and mass merchandiser retail channels in addition to the natural and organic channel;

secure shelf space in key supermarket locations;

increase our brand awareness;

expand and maintain brand loyalty; and

develop new product lines and extensions.

We may not be able to successfully implement our growth strategy. Our sales and operating results will be adversely affected if we fail to implement our growth strategy or if we invest resources in a growth strategy that ultimately proves unsuccessful.

We are currently selling products in supermarkets in the United States. If we are unable to expand into mass-market retailers or sell products in a greater number of supermarkets we will fall short of our projections and our business and financial condition would be adversely affected.

As a smaller supplier, we may not sell in enough bulk in certain stores and as such our products may not be placed in the most ideal locations to catch the attention of end consumers. If we are unable to gain significant sales growth, our products may never be displayed in the most attractive locations in stores and our sales may suffer.

We may be unable to successfully execute our identified growth strategies or other growth strategies that we determine to pursue.

We currently have a limited corporate infrastructure. In order to pursue growth strategies, we will need to continue to build our infrastructure and operational capabilities. Our ability to do any of these successfully could be affected by any one or more of the following factors:

our ability to raise substantial amounts of additional capital if needed to fund the implementation of our business plan;

our ability to execute our business strategy;

the ability of our products to achieve market acceptance;

our ability to manage the expansion of our operations and any acquisitions we may make, which could result in increased costs, high employee turnover or damage to customer relationships;

our ability to attract and retain qualified personnel;

our ability to manage our third party relationships effectively; and

our ability to accurately predict and respond to the rapid market changes in our industry and the evolving demands of the markets we serve.

Our failure to adequately address any one or more of the above factors could have a significant impact on our ability to implement our business plan and our ability to pursue other opportunities that arise.

We may be unable to maintain quality control.

All of our manufacturing is outsourced. Although we have entered into supply agreements specifying certain minimum acceptable quality standards, there is no assurance that our current quality assurance procedures will be able to effectively monitor compliance. Additionally, in the event that we expand our operations and increase our output volume, including securing additional manufacturers, there is no assurance that we will be able to adequately maintain quality controls or that our current manufacturing process is scalable.

There may be products liability and other legal claims.

We are currently a named insured party through the products liability insurance policy of JEFE, our food manufacturer, and we also carry our own product liability insurance policy. Although we believe that the amount of insurance coverage is sufficient for our operations, there is no assurance that the coverage will be adequate.

Our brand and reputation may suffer from real or perceived issues involving the labeling and marketing of our products as “natural.”

Although the FDA and USDA have each issued statements regarding the appropriate use of the word “natural,” there is no single, U.S. government-regulated definition of the term “natural” for use in the food industry. The resulting uncertainty has led to consumer confusion, distrust and legal challenges. Plaintiffs have commenced legal actions against a number of food companies that market “natural” products, asserting false, misleading and deceptive advertising and labeling claims. Should we become subject to similar claims, consumers may avoid purchasing products from us or seek alternatives, even if the basis for the claim is unfounded. Adverse publicity about these matters may discourage consumers from buying our products. The cost of defending against any such claims could be significant. Any loss of confidence on the part of consumers in the truthfulness of our labeling or ingredient claims would be difficult and costly to overcome and may significantly reduce our brand value. Uncertainty as to the ingredients used in our products, regardless of the cause, may have a substantial and adverse effect on our brand and our business, results of operations and financial condition.

Virtually all of our finished goods inventory is located in a single third-party warehouse facility. Any damage or disruption at this facility would have an adverse effect on our business, results of operations and financial condition.

Virtually all of our finished goods inventory is located in one warehouse facility owned and operated by a third party. A natural disaster, fire, power interruption, work stoppage or other unanticipated catastrophic event at this facility would significantly disrupt our ability to deliver our products and operate our business. If any material amount of our inventory were damaged, we would be unable to meet our contractual obligations and, as a result, our business, results of operations and financial condition would suffer.

We may be unable to defend our intellectual property.

Our business could be adversely affected if we are unable to adequately protect our intellectual property. Our current intellectual property consists of trade secret recipes and cooking processes for our products and trademarks. We rely on a combination of trademark, copyright and trade secret laws to establish and protect our proprietary rights. We will also use technical measures to protect our proprietary rights. We may, however, not be able to secure significant protection for service marks or trademarks that we obtain. Our inability to protect our intellectual property from others may impede our brand identity and could lead to consumer confusion.

Our intellectual property rights are valuable, and any inability to protect them could reduce the value of our services and brand.

Our business is largely based upon our recipes which are trade secrets and are not patentable. We may be unable to keep other companies from copying our recipes, or we may be subject to legal actions alleging intellectual property infringement, unfair competition or similar claims against us. Companies may have intellectual property rights covering aspects of our technologies or businesses. Defending ourselves against intellectual property infringement or similar claims would be expensive and would divert management's attention. Additionally, there is no assurance that we would be successful in defending ourselves against such claims.

RISKS RELATED TO OUR SECURITIES

We currently have a limited trading volume, which results in higher price volatility for, and reduced liquidity of, our common stock.

Our shares of common stock have been listed for trading on the OTCQB since 2013. However, historically there has been limited daily volume of trading in our common stock on the OTCQB, which has limited the overall and perceived liquidity of our common stock on that market.

An active trading market for our shares may never develop or be sustained. Active trading markets generally result in lower price volatility and more efficient execution of buy and sell orders. The absence of an active trading market increases price volatility and reduces the liquidity of our common stock. As long as this condition continues, the sale of a significant number of shares of common stock at any particular time could be difficult to achieve at the market prices prevailing immediately before such shares are offered and, if an active market for our common stock does not develop, it may be difficult to sell shares without depressing the market price for the shares, or at all. In addition, in the event that an active trading market does not develop, the price of our common stock may not be a reliable indicator of the fair value of our common stock.

Furthermore, if our common stock ceases to be listed on the OTCQB, holders would find it more difficult to dispose of, or to obtain accurate quotations as to the market value of, our common stock, and the market value of our common stock would likely decline.

You will experience dilution of your ownership interest because of the future issuance of additional shares of our common stock and our preferred stock.

In the future, we may issue our authorized but previously unissued equity securities, resulting in the dilution of the ownership interests of our present stockholders. We are currently authorized to issue an aggregate of 270,000,000 shares of capital stock consisting of 20,000,000 shares of preferred stock, par value \$0.00001 per share and 250,000,000 shares of common stock, par value \$0.00001 per share.

We may also issue additional shares of our common stock or other securities that are convertible into or exercisable for common stock in connection with hiring or retaining employees or consultants, future acquisitions, future sales of our securities for capital raising purposes, or for other business purposes. The future issuance of any such additional shares of our common stock or other securities may create downward pressure on the trading price of our common

stock. There can be no assurance that we will not be required to issue additional shares, warrants or other convertible securities in the future in conjunction with hiring or retaining employees or consultants, future acquisitions, future sales of our securities for capital raising purposes or for other business purposes, including at a price (or exercise prices) below the price at which shares of our common stock are trading.

Our common stock is considered a penny stock, which may be subject to restrictions on marketability, so you may not be able to sell your shares.

We are currently listed on the OTCQB under the symbol “MMMB”, and are subject to the penny stock rules adopted by the SEC that require brokers to provide extensive disclosure to their customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our shareholders to sell their securities.

Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer’s account. The broker-dealer must also make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser’s written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security that becomes subject to the penny stock rules. The additional burdens imposed upon broker-dealers by such requirements may discourage broker-dealers from effecting transactions in our securities, which could severely limit the market price and liquidity of our securities. These requirements may restrict the ability of broker-dealers to sell our common stock and may affect your ability to resell our common stock.

The concentration of our capital stock ownership with insiders could limit your ability to influence the outcome of key transactions, including a change of control.

Our directors, executive officers and each of our stockholders who own greater than 5% of our outstanding common stock, in the aggregate, beneficially own approximately 50% of the outstanding shares of our common stock, based on the number of shares outstanding as of January 31, 2015. These stockholders are able to influence or control matters requiring approval by our stockholders, including the election of directors and the approval of mergers, acquisitions or other extraordinary transactions. They may have interests that differ from yours and may vote in a manner that is adverse to your interests. This concentration of ownership may have the effect of deterring, delaying or preventing a change of control of our company, could deprive our stockholders of an opportunity to receive a premium for their common stock as part of a sale of our company and might ultimately affect the market price of our common stock.

If and when a larger trading market for our common stock develops, the market price of our common stock is still likely to be highly volatile and subject to wide fluctuations, and you may be unable to resell your shares at or above the price at which you acquired them.

The market price of our common stock is likely to be highly volatile and could be subject to wide fluctuations in response to a number of factors that are beyond our control, including, but not limited to:

variations in our revenue and operating expenses;

market conditions in our industry and the economy as a whole;

actual or expected changes in our growth rates or our competitors' growth rates;

announcements of innovations or new products or services by us or our competitors;

announcements by the government relating to regulations that govern our industry;

sales of our common stock or other securities by us or in the open market; and

changes in the market valuations of other comparable companies.

In addition, if the market for food industry stocks or the stock market in general experiences loss of investor confidence, the trading price of our common stock could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our shares might also decline in reaction to events that affect other companies in our industry, even if these events do not directly affect us. Each of these factors, among others, could harm the value of your investment in our common stock. In the past, following periods of volatility in the market, securities class-action litigation has often been instituted against companies. Such litigation, if instituted against us, could result in substantial costs and diversion of management's attention and resources, which could materially and adversely affect our business, operating results and financial condition.

We do not expect to pay dividends.

We have never declared or paid any cash dividends or distributions on our capital stock. We currently intend to retain our future earnings, if any, to support operations and to finance expansion and therefore we do not anticipate paying any cash dividends on our common stock in the foreseeable future.

The declaration, payment and amount of any future dividends will be made at the discretion of the board of directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors as the board of directors considers relevant. There is no assurance that future dividends will be paid, and, if dividends are paid, there is no assurance with respect to the amount of any such dividend. If the Company does not pay dividends, the Company's common stock may be less valuable because a return on an investor's investment will only occur if the Company's stock price appreciates.

If securities or industry analysts do not publish research or reports about us, our business or our market, or if they change their recommendations regarding our stock adversely, our stock price and trading volume could decline.

The trading market for our common stock will be influenced by the research and reports that industry or securities analysts may publish about us, our business, our market or our competitors. If any of the analysts who may cover us change their recommendation regarding our stock adversely, or provide more favorable relative recommendations about our competitors, our stock price would likely decline. If any analyst who may cover us were to cease coverage of our company or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause our stock price or trading volume to decline.

Item 1B. Unresolved Staff Comments.

Not applicable.

Item 2. Properties.

Our principal executive office is located at 25 Branca Road East Rutherford, NJ 07073. We currently pay an administrative fee of \$4,000 per month to JEFE which includes use of office space and telephones, computers and photocopy and fax use. We utilize approximately 1,000 square feet of office space on a month to month basis. This space is utilized for office purposes and it is our belief that the space is adequate for our immediate needs. Additional space may be required as we expand our business activities. We do not foresee any significant difficulties in obtaining additional facilities if deemed necessary.

Item 3. Legal Proceedings.

We are not currently involved in any litigation that we believe could have a materially adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our Company or any of our subsidiaries, threatened against or affecting our Company, our common stock, any of our subsidiaries or of our Company's or our Company's subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

Item 4. Mine Safety Disclosures.

ITEM 6. SELECTED FINANCIAL DATA.

Pursuant to permissive authority under Regulation S-K, Rule 301, we have omitted Selected Financial Data.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

THE FOLLOWING DISCUSSION OF OUR PLAN OF OPERATION AND RESULTS OF OPERATIONS SHOULD BE READ IN CONJUNCTION WITH THE FINANCIAL STATEMENTS AND RELATED NOTES TO THE FINANCIAL STATEMENTS INCLUDED ELSEWHERE IN THIS REPORT. THIS DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT RELATE TO FUTURE EVENTS OR OUR FUTURE FINANCIAL PERFORMANCE. THESE STATEMENTS INVOLVE KNOWN AND UNKNOWN RISKS, UNCERTAINTIES AND OTHER FACTORS THAT MAY CAUSE OUR ACTUAL RESULTS, LEVELS OF ACTIVITY, PERFORMANCE OR ACHIEVEMENTS TO BE MATERIALLY DIFFERENT FROM ANY FUTURE RESULTS, LEVELS OF ACTIVITY, PERFORMANCE OR ACHIEVEMENTS EXPRESSED OR IMPLIED BY THESE FORWARD-LOOKING STATEMENTS. THESE RISKS AND OTHER FACTORS INCLUDE, AMONG OTHERS, THOSE LISTED UNDER "FORWARD-LOOKING STATEMENTS" AND "RISK FACTORS" AND THOSE INCLUDED ELSEWHERE IN THIS REPORT.

Plan of Operation

The Company plans to sell more of its products into new and existing food retail outlets. The Company has undertaken a national radio campaign on Sirius XM channels for a substantial portion of this year. Social media activity has increased with Facebook, Twitter, Pinterest, YouTube, newsletter mailings, blogs, and helpful consumer content and special projects including a recipe bank of videos and MamaMancini's contest and giveaways. Increased consumer merchandising activity, including virtual couponing, on-pack couponing, mail-in rebates, product demonstrations, and co-op retail advertising has commenced to increase sales to existing customers and new customers.

We believe that the ongoing introduction of the Company's new all natural brand Slow Cooked Italian Sauce and various meatball and entrée products show great promise for additional product placements and sales in 2015 and thereafter. These products include Five Cheese Stuffed Beef Meatballs, Chicken Parmigiana Style Stuffed Meatballs, Chicken Florentine Stuffed Meatballs, Gluten Free Beef and Turkey Meatballs, Antibiotic Free Beef and Turkey Meatballs and Mac N' Mamas®. This line is available in bulk food service pack, retail packages in fresh and frozen varieties, and club store pack in fresh varieties. Additionally, the Company plans to continue expansion into various new retailers with placement of its existing product line of Beef, Turkey, Pork and Chicken Meatballs and Sauce, as well as Marinara and Italian Sauce with beef flavors.

The Company has key sales personnel and a sales network of paid broker representatives. Management continues to solicit all major supermarket retailers, club stores and mass-market accounts. Additionally, the Company has begun an effort to develop presentations to major entities in the sandwich, burger, and Italian sub quick-serve industry through a branded kettle program which the Company launched in February 2015. The Company is also soliciting business in Canada and Mexico.

The Company owns 13% of the common equity of Meatball Obsession, LLC (“Meatball Obsession”) and is its exclusive supplier of meatballs. Meatball Obsession offers a fast service menu of single serve, take-out meatball offerings. At present, Meatball Obsession has 4 locations. However, there is no guarantee that Meatball Obsession will perform up to its expectations or be able to open any additional units in the future.

The Company currently has supply agreement with JEFE, a related party, which is set to expire on February 28, 2016. This agreement automatically renews for periods of one year unless otherwise terminated by nine months prior written notice. JEFE is owned by the CEO and President of the Company.

JEFE increased its manufacturing capacity in 2014 to meet the anticipated increased demand of the Company. Additions of high-speed equipment and new production order flow have occurred. As sales increase, the Company expects that its packaging costs will decrease as it purchases longer runs of material and supplies but cannot guarantee that such packaging costs will decrease with the purchase of such materials or at all. The Company also expects that the labor costs component of the cost of goods sold will decrease in the later part of the year with higher speed equipment and order flow but cannot guarantee any such decrease in the labor costs.

The Company expects to have an operating loss in fiscal year 2016 due to the investment in developing new and expanded existing business. These investments include slot fees to gain initial distribution, special marketing demo events to induce trial, major promotional campaigns for initial trial customers, short runs on new products, rising raw materials costs, sample expenses, market research, design and label costs, product development costs, and the cost of additional personnel or fee based marketing and sales support while this business is developing.

We believe that MamaMancini’s products have the ability to expand sales and deliver more products within several areas of consumption by consumers such as frozen Italian specialties, frozen meat, fresh meat, prepared foods, hot bars, cold bars in delis, and sandwich sections of supermarkets and other food retailers. In addition, we believe that MamaMancini’s products can be sold into food service channels, mass market, and exported or as a component of other products.

Results of Operations for the years ended January 31, 2015 and December 31, 2013

The following table sets forth the summary statements of operations for the years ended January 31, 2015 and December 31, 2013:

	Years Ended *	
	January 31, 2015	December 31, 2013
Sales - Net of Slotting Fees and Discounts (1)	\$12,339,256	\$8,741,621
Gross Profit	\$3,535,716	\$2,551,026
Operating Expenses	\$(7,285,906)	\$(5,489,994)
Other Income (Expense)	\$(310,286)	\$(8,640)
Net Loss	\$(4,060,476)	\$(2,947,608)

*Does not include one month period ended January 31, 2014

Slotting fees are required in new placements with some, but not a majority of supermarket chains that the Company does business with. They are negotiated with each chain depending upon the expected return to the Company. We believe that we have successfully negotiated such slotting fees to a relatively low expense. We have taken into (1) account future fees currently being negotiated in preliminary negotiations for new placements. We do not believe our size or financial limitations are an impediment to being able to pay such slotting fees. Slotting fee costs are an expense in growing the business as are other marketing and sales costs and the Company has accounted for these fees in assessing its estimated working capital for the next 12 months.

For the year ended January 31, 2015 and December 31, 2013, the Company reported a net loss of \$(4,060,476) and \$(2,947,608), respectively. The change in net loss between the year ended January 31, 2015 and December 31, 2013 was primarily attributable to following significant events:

The Company commenced operations during 2010 and has experienced significant growth in sales for the comparable periods. The Company has sold into approximately 37,000 retail and grocery locations at January 31, 2015 as compared to approximately 22,600 at December 31, 2013. The Company has reinvested proceeds to further develop brand awareness.

Advertising, social media and promotional expense increased by \$664,000 which does not include marketing and social media costs as discussed below and in Note 2 to the consolidated financial statements.

Stock-based compensation expense increased by \$103,400.

Research and development costs increased by \$81,500.

Commission expenses increased by \$101,000.

Postage and freight increased by \$265,800.

Depreciation expense increased \$136,200.

Marketing research increased by \$80,000.

Royalty expenses increased by \$81,800.

Professional fees increased by \$489,400.

Insurance expense increased by \$17,300.

Trade show and travel expenses decreased by \$63,900.

Payroll and related expenses decreased by \$184,100.

Sales: Sales, net of slotting fees and discounts increased by approximately 41% to \$12,339,256 during the year ended January 31, 2015, from \$8,741,621 during the year ended December 31, 2013. The increase in sales is primarily related to the Company executing on their expansion strategy. The Company has sold into approximately 37,000 retail and grocery locations at January 31, 2015 as compared to approximately 22,600 at December 31, 2013.

Gross Profit: The gross profit margin was 29% for the years ended January 31, 2015 and December 31, 2013.

Operating Expenses: Operating expenses increased by 33% during the year ended January 31, 2015, as compared to the year ended December 31, 2013. The \$1,795,912 increase in operating expenses is primarily attributable to the following approximate increases in operating expenses:

Stock-based compensation of \$103,400 expensed during the period;

Advertising, social media and promotional expenses of \$664,000 related to an increase in spending on our new radio advertising campaign and special promotions which does not include marketing and social media costs as discussed below and in Note 2 to the condensed consolidated financial statements;

Commission expenses of \$101,000 related to increased sales;

Postage and freight of \$265,800 due to higher sales slightly offset by some customers picking up their product in lieu of having it shipped to them;

Depreciation expense of \$136,200 due to new fixed asset purchases during the period;

Marketing research increased by \$80,000 due to the Company electing to spend more on market research and social media, which primarily consisted of four marketing research projects to develop new products; and

Royalty expenses increased by \$81,800 due to the increase in sales;

Professional fees increased by \$489,400 due to fees to an investment banker and financial consultants related to equity raises;

Research and development costs increased by \$81,500 due to the Company expanding its line of products.

These expense increases were offset by decreases in the following expenses:

Trade show and travel expenses of \$63,900 related to the members of the Company traveling and attending less trade shows; and

Payroll and related expense of \$184,100 as compensation to a reduction in executive sales personnel.

Other Expense: Other expenses increased by \$301,646 to \$310,286 for the year ended January 31, 2015 as compared to \$8,640 during the year ended December 31, 2013. For the year ended January 31, 2015, other expenses consisted of \$163,136 in interest expense incurred on the Company's line of credit with FGI, the line of credit and term loan with EGC and the convertible note with Manatuck Hill. The Company also recorded \$46,197 of amortization expense of the debt discount for the Manatuck note. In addition, the Company recorded \$100,953 of amortization expense related to the closing costs incurred in conjunction with the finance arrangements during the year. For the year ended December 31, 2013, other expenses consisted of \$8,640 in interest expense incurred on the Company's previous line of credit. This line of credit was repaid and cancelled on September 9, 2013.

Liquidity and Capital Resources

The following table summarizes total current assets, liabilities and working capital at January 31, 2015 compared to January 31, 2014:

	Period Ended		Increase/
	January	January	(Decrease)
	31, 2015	31, 2014	
Current Assets	\$5,709,655	\$4,244,648	\$1,465,007
Current Liabilities	\$2,745,534	\$818,001	\$1,927,533
Working Capital	\$2,964,121	\$3,426,647	\$(462,526)

As of January 31, 2015, we had working capital of \$2,964,121 as compared to working capital of \$3,426,647 as of January 31, 2014, a decrease of \$462,526. The decrease in working capital is primarily attributable to an increase in accounts receivable, inventory and deposit with related party manufacturer in addition to increases in accounts payable and accrued expenses and in the outstanding line of credit balance. During the year ended January 31, 2015, the Company raised net proceeds of the \$1,180,003 from the sale of 1,620,001 shares of common stock and received proceeds of \$100,000 for common stock subscribed.

Net cash used in operating activities for the year ended January 31, 2015 and December 31, 2013 was \$5,007,364 and \$3,821,598, respectively. The net loss for the years ended January 31, 2015 and December 31, 2013 was \$4,060,476 and \$2,947,608 respectively.

Net cash used in all investing activities for the year ended January 31, 2015 was \$316,831 as compared to \$1,172,522 for the year ended December 31, 2013. During the year ended January 31, 2015, the Company paid approximately \$44,997 to acquire new machinery and equipment. In addition, the Company paid approximately \$271,834 for improvements to the JEFE facility which have been capitalized and depreciated over the estimated life of the supply agreement. During the year ended December 31, 2013, the Company paid \$877,522 for machinery and equipment, \$295,000 for the acquisition of a company and \$30,000 for a loan to a related party.

Net cash provided by all financing activities for the year ended January 31, 2015 was \$4,637,550 as compared to \$4,727,894 for the year ended December 31, 2013. During the year ended January 31, 2015, the Company raised net proceeds of \$1,180,003 from the sale of 1,620,001 shares of common stock and \$100,000 for common stock subscribed. During the year ended January 31, 2015, the Company had net borrowings of \$1,186,394, \$600,000 and \$2,000,000 for transactions pursuant to the line of credit, term loan and convertible note agreements, respectively. These increases were offset by \$174,211, \$214,636, and \$40,000 paid for stock issuance costs, debt issuance costs, and repayments on a term loan, respectively. During the year ended December 31, 2013 the Company raised net proceeds of the \$5,000,000 from the sale of common stock and \$800,000 for common stock subscribed. These increases were offset by \$872,106 and \$200,000 paid for stock issuance costs and repayments on a line of credit, respectively.

The Company believes that our existing available cash along with estimated net proceeds from the issuance of securities during January 2014 and the year ended January 31, 2015 in addition to the line of credit and convertible note entered into in October 2014 and December 2014, respectively, will enable the Company to meet the working capital requirements through the end of the current fiscal year, however, in the case that the Company exceeds its expected growth, we would need to raise additional capital and/or cut expenses and overhead in order to operate the business through such date. Currently, we plan to raise additional capital, but we have no committed sources of additional capital and our access to capital funding is always uncertain. There is no assurance that additional equity or debt financing will be available to us when needed, on acceptable terms or even at all. The estimated working capital requirement for the next 12 months is approximately \$2,000,000 which equates to an estimated burn rate of \$167,000 per month. The Company continues to explore potential expansion opportunities in the industry in order to boost sales while leveraging distribution systems to consolidate lower costs.

As reflected in the accompanying consolidated financial statements, the Company has a net loss and net cash used in operations of \$4,060,476 and \$5,007,364, respectively, for the year ended January 31, 2015.

The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets with some additional funding from other traditional financing sources, including term notes, until such time that funds provided by operations are sufficient to fund working capital requirements. The Company may need to incur additional liabilities with certain related parties to sustain the Company's existence.

The Company may require additional funding to finance the growth of its current and expected future operations as well as to achieve its strategic objectives. There can be no assurance that financing will be available in amounts or terms acceptable to the Company, if at all. In that event, the Company would be required to change its growth strategy and seek funding on that basis, though there is no guarantee it will be able to do so.

During the month ended January 31, 2014 and the year ended January 31, 2015, Management raised capital through debt and equity financings. The Company intends to utilize the capital in order to further advertise and market the Company's brand and to assist in penetrating additional distribution channels.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We do not hold any derivative instruments and do not engage in any hedging activities.

Item 8. Financial Statements.

Our consolidated financial statements are contained in pages F-1 through F-22 which appear at the end of this Annual Report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

There are no reportable events under this item for the year ended January 31, 2015.

Item 9A. Controls and Procedures.

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Based on their evaluation as of the end of the period covered by this Annual Report on Form 10-K, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(c) and 15d-15(e) under the Exchange Act) are not effective to ensure that information required to be disclosed by us in report that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms and to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

This Company's management is responsible for establishing and maintaining internal controls over financial reporting and disclosure controls. Internal Control Over Financial Reporting is a process designed by, or under the supervision of, the Company's principal executive and principal financial officers, or persons performing similar functions, and effected by the issuer's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial
- (2) statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the registrant; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material effect on the financial statements.

Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is appropriately recorded, processed, summarized and reported within the specified time periods.

Management has conducted an evaluation of the effectiveness of our internal control over financial reporting as of January 31, 2015, based on the framework established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

Based on this assessment, management concluded that as of the period covered by this Annual Report on Form 10-K, it had material weaknesses in its internal control procedures.

As of period covered by this Annual Report on Form 10-K, we have concluded that our internal control over financial reporting was ineffective. The Company's assessment identified certain material weaknesses which are set forth below:

Functional Controls and Segregation of Duties

Because of the Company's limited resources, there are limited controls over information processing.

There is an inadequate segregation of duties consistent with control objectives. Our Company's management is composed of a small number of individuals resulting in a situation where limitations on segregation of duties exist. In order to remedy this situation we would need to hire additional staff to provide greater segregation of duties. Currently, it is not feasible to hire additional staff to obtain optimal segregation of duties. Management will reassess this matter in the following year to determine whether improvement in segregation of duty is feasible.

Accordingly, as the result of identifying the above material weakness we have concluded that these control deficiencies resulted in a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis by the Company's internal controls.

Management believes that the material weaknesses set forth above were the result of the scale of our operations and are intrinsic to our small size. Management believes these weaknesses did not have a material effect on our financial results and intends to take remedial actions upon receiving funding for the Company's business operations.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report herein.

(c) CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

We are committed to improving our financial organization. As part of this commitment, we will create a position to segregate duties consistent with control objectives and will increase our personnel resources and technical accounting expertise within the accounting function when funds are available to us by preparing and implementing sufficient written policies and checklists which will set forth procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements.

Management believes that preparing and implementing sufficient written policies and checklists will remedy the material weaknesses pertaining to insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements.

We intend to take appropriate and reasonable steps to make the necessary improvements to remediate these deficiencies, including:

- (1) We will revise processes to provide for a greater role of independent board members in the oversight and review until such time that we are adequately capitalized to permit hiring additional personnel to address segregation of duties issues, ineffective controls over the revenue cycle and insufficient supervision and review by our corporate management.
- (2) We will update the documentation of our internal control processes, including formal risk assessment of our financial reporting processes.

We intend to consider the results of our remediation efforts and related testing as part of our year-end 2015 assessment of the effectiveness of our internal control over financial reporting.

Subsequent to January 31, 2015, we have undertaken the following steps to address the deficiencies stated above:

Continued the development and documentation of internal controls and procedures surrounding the financial reporting process, primarily through the use of account reconciliations, and supervision.

Added additional accounting staff to further segregate duties and help the Company maintain timely reporting of financial results.

Item 9B. Other Information.

None.

PART III**Item 10. Directors, Executive Officers and Corporate Governance.***Directors and Executive Officers*

The following table discloses our directors and executive officers as of September 18, 2014.

Name	Age	Position
Carl Wolf	71	Chief Executive Officer and Chairman of the Board of Directors
Matthew Brown	46	President and Director
Lewis Ochs	68	Chief Financial Officer
Steven Burns	54	Director
Alfred D'Agostino	61	Director
Thomas Toto	60	Director
Dan Altobello	74	Director
Dean Janeway	71	Director

Carl Wolf, age 71, has over 35 years of experience in the management and operations of companies in the food industry. Mr. Wolf has served as Chief Executive Officer and Chairman of the Board of MamaMancini's from February 2010 through the Present. Mr. Wolf was the founder, majority shareholder, Chairman of the Board, and CEO of Alpine Lace Brands, Inc., a public company with over \$125 million in wholesale sales. He also founded, managed, and sold MCT Dairies, Inc., a \$60 million international dairy component resource company. Other experience in the food industry includes his role as Co-chairman of Saratoga Beverage Company, a publicly traded (formerly NASDAQ: TOGA) bottled water and fresh juice company prior to its successful sale to a private equity firm. Mr. Wolf served an advisor to Mamma Sez Biscotti, a snack and bakery product company (which was sold in a later period to Nonnis, the largest biscotti company in the United States) from 2002 to 2004. Previously he served as Director and on the Audit and Development committees of American Home Food Products, Inc. a publically traded marketer Artisanal Brand Cheeses, from 2007 to 2009. Mr. Wolf also served as Chairman of the Board of Media Bay a publically traded direct seller of spoken word through its audio book club and old time radio classic activities and download spoken content, from 2002 to 2004.

Mr. Wolf received his B.A. in 1965 from Rutgers University and his M.B.A. in 1966 from the University of Pittsburgh.

In evaluating Mr. Wolf's specific experience, qualifications, attributes and skills in connection with his appointment to our board, we took into account his numerous years of experience in the food industry, as a serial entrepreneur in growing business, his knowledge of publicly traded companies, and his proven track record of success in such endeavors.

Matthew Brown, age 46, has over 19 years of experience in the sales and marketing of products in the food industry. Beginning in February 2010 through the present, he has served as President of MamaMancini's. From April 2001 until January of 2012, he served as the President of Hors D'oeuvres Unlimited, overseeing the day to day operations of their food manufacturing business. He previously worked as a marketing associate from September 1993 to December 1998 at Kraft Foods, Inc., where he dealt with numerous aspects of the company's marketing of their food products.

Mr. Brown received his B.A. from the University of Michigan in 1991 and his M.B.A. from the University of Illinois in 1993.

In evaluating Mr. Brown's specific experience, qualifications, attributes and skills in connection with his appointment to our board, we took into account his numerous years of experience in sales and marketing, and his proven track record of success in such endeavors.

Lewis Ochs, age 68, has over 40 years of experience in the financial and accounting industry. From February 2010 through the present he has served as the Executive Vice President of Finance for MamaMancini's. Effective September 5, 2014 Mr. Ochs was named our Chief Financial Officer. Additionally, beginning in January 2003 and still presently, he serves as the CFO of Hors D'oeuvres Unlimited, overseeing all of the financial aspects of the company. Review the Code of Ethics periodically and propose changes thereto to the Board, if appropriate.

Review requests from outside the Committee for any waiver or amendment of the Company's Code of Business Conduct and Ethics and recommend to the Board whether a particular waiver should be granted or whether a particular amendment should be adopted.

Oversee Committee membership and qualifications and the performance of members of the Board.

Review and recommend changes in (i) the structure and operations of Board Committees, and (ii) Committee reporting to the Board.

Make recommendations annually to the Board as to the independence of directors under the Corporate Governance Guidelines.

Review and make recommendations to the Board regarding the position the Company should take with respect to any proposals submitted by stockholders for approval at any annual or special meeting of stockholders.

Regularly report on Committee activities and recommendations to the Board.

Perform any other activities consistent with this Charter, the Company's Certificate of Incorporation and Bylaws, as amended from time to time, the NYSE MKT company guide, and any governing law, as the Board considers appropriate and delegates to the Committee.

Our Nominating/Corporate Governance Committee consists of Mr. Janeway and Mr. D'Agostino, with Mr. Janeway serving as the Chairman.

Code of Business Conduct and Ethics

Effective January 21, 2014, the Board of Directors (the "Board") of MamaMancini's Holdings, Inc. (the "Company") adopted a Code of Ethics (the "Code of Ethics") applicable to the Company and all subsidiaries and entities controlled by the Company and the Company's directors, officers and employees. Compliance with the Code of Ethics is required of all Company personnel at all times. The Company's senior management is charged with ensuring that the Code of Ethics and the Company's corporate policies will govern, without exception, all business activities of the Company. The Code of Ethics addresses, among other things, the use and protection of Company assets and information, avoiding conflicts of interest, corporate opportunities and transactions with business associates and document retention.

Involvement in Certain Legal Proceedings

During the past five years no director, person nominated to become a director, executive officer, promoter or control person of the Company has: (i) had any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time; (ii) been convicted in a criminal proceeding or been subject to a pending criminal proceeding (excluding traffic violations and other minor offenses); (iii) been subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; or (iv) been found by a court of competent jurisdiction (in a civil action), the Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated.

Compliance with Section 16(A) of the Exchange Act

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and persons who beneficially own 10% or more of a class of securities registered under Section 12 of the Exchange Act to file reports of beneficial ownership and changes in beneficial ownership with the SEC. Directors, executive officers and greater than 10% stockholders are required by the rules and regulations of the SEC to furnish the Company with copies of all reports filed by them in compliance with Section 16(a).

Based solely on our review of certain reports filed with the Securities and Exchange Commission pursuant to Section 16(a) of the Securities Exchange Act of 1934, as amended, the reports required to be filed with respect to transactions in our common stock during the period covered by this Annual Report on Form 10-K, were timely.

DIRECTOR COMPENSATION

Our executive officers who are members of our board of directors and the directors who are not considered independent under the corporate governance rules of the New York Stock Exchange do not receive compensation from us for their service on our board of directors. Accordingly, Mr. Wolf and Mr. Brown do not receive compensation from us for their service on our board of directors. Only those directors who are considered independent directors under the corporate governance rules of the New York Stock Exchange receive compensation from us for their service on our board of directors. Mr. Burns, Mr. D'Agostino, Mr. Toto, Mr. Janeway and Mr. Altobello are to be paid \$10,000 per annum for their service as members of the board.

In the last two years our directors have twice been granted stock options to purchase 10,000 shares of the Company's common stock at an exercise of \$1.00 ("Option Grant 1") and \$2.95 ("Option Grant 2"), respectively. All such options vested immediately and expire 5 years from the date of grant. There is no formal arrangement with our board of directors for the granting of options. There is no assurance that the Company will continue to issue options to the board of directors or on what terms such issuance would occur. Each director that was granted 10,000 options under Option Grant 2 subsequently cancelled such 10,000 options to purchase common stock on April 23, 2014 in exchange for 8,000 shares of the Company's common stock.

We also reimburse all of our directors for reasonable expenses incurred to attend board of director or committee meetings.

There was no director compensation for the one month period ended January 31, 2014.

The following Director Compensation Table sets forth the compensation of our directors for the fiscal year ending on January 31, 2015, the one month ended January 31, 2014 and the year ended December 31, 2013.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

There were the following transactions since the beginning of the Company's last fiscal year, in which the Company was a participant and the amount involved exceeded \$120,000, and in which any related person had or will have a direct or indirect material interest:

As of March 1, 2010, MamaMancini's is under a supply and management agreement with JEFE until February 28, 2015. JEFE is owned by Matthew Brown and Karen Wolf (55%) and by Carl and Marion Wolf (45%), all of whom are shareholders of MamaMancini's. Matthew Brown and Carl Wolf are also both officers and directors of MamaMancini's. For the years ended January 31, 2015 and December 31, 2013, the company had a total of \$48,000 and \$48,000, respectively, incurred as other general and administrative expenses between the Company and JEFE. These expenses included insurance, freight, travel and other general and overhead expenses. Such expenses are the result of an informal arrangement between the Company and JEFE and no written agreement exists relating to the obligations to pay the same.

JEFE, owned by Matthew Brown and Karen Wolf and by Carl and Marion Wolf, as discussed in the preceding paragraph, is also contracted to produce and manufacture food products for MamaMancini's. Currently, JEFE serves as our principal food manufacturing company. For the year ended January 31, 2015 and December 31, 2013, we paid JEFE \$8,803,541 and \$6,190,595, respectively, for the manufacturing of products. At January 31, 2015 and 2014, MamaMancini's had a receivable in the amount of \$2,213,037 and \$1,373,036 from this manufacturer.

Two of our directors, Thomas Toto and Alfred D'Agostino work for World Wide Sales, Inc. ("World Wide Sales"), a perishable food broker that services the New York / New Jersey Metropolitan and Philadelphia marketplace. Mr. D'Agostino is the President of World Wide Sales. Pursuant to an informal arrangement, the Company has agreed to pay World Wide Sales the greater of \$4,000 or 3% sales commission on net sales (sales less any promotions, credits, allowance, and short pay) to supermarket chains headquartered in the New York Metropolitan area per month. To date, World Wide Sales has never been paid in excess of \$4,000 in any month.

Director Independence

Our board of directors has determined that each of Mr. Burns, Mr. D'Agostino, Mr. Toto, Mr. Altobello and Mr. Janeway is an independent director within the meaning of the applicable rules of the SEC and the New York Stock Exchange, and that each of them is also an independent director under Rule 10A-3 of the Exchange Act for the purpose of audit committee membership. In addition, our board of directors has determined that Mr. Burns is an audit committee financial expert within the meaning of the applicable rules of the SEC and the New York Stock Exchange.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

Audit Fees

Audit Fees consist of assurance and related services that are reasonably related to the performance of the audit or review of our financial statements. This category includes fees related to the performance of audits and attest services not required by statute or regulations, and accounts consultations regarding the application of GAAP to proposed transactions. The aggregate Audit Fees billed for the fiscal year ended January 31, 2015, the one month period ended January 31, 2014 and the fiscal year ended December 31, 2013 were \$31,890, \$10,880, and \$43,000, respectively.

Audit Related Fees

The aggregate fees billed for assurance and related services by our principal accountant that are reasonably related to the performance of the audit or review of our financial statements, other than those previously reported in this Item 14, for the fiscal year ended January 31, 2015, the one month period ended January 31, 2014 and the fiscal year ended December 31, 2014 were \$3,500, \$0 and \$5,750, respectively.

Tax Fees

Tax Fees consist of the aggregate fees billed for professional services rendered by our principal accounts for tax compliance, tax advice, and tax planning. These services include preparation for federal and state income tax returns. The aggregate Tax Fees billed for the year ended January 31, 2015, the one month period ended January 31, 2014 and the fiscal year ended January 31, 2015 were \$10,000, \$0, and \$5,000, respectively.

Audit Committee Pre-Approval Policies and Procedures

Effective May 6, 2003, the SEC adopted rules that require that before our auditor is engaged by us to render any auditing or permitted non-audit related service, the engagement be:

approved by our audit committee; or

entered into pursuant to pre-approval policies and procedures established by the audit committee, provided the policies and procedures are detailed as to the particular service, the audit committee is informed of each service, and such policies and procedures do not include delegation of the audit committee's responsibilities to management.

Our Audit Committee pre-approved all services provided by our independent auditors for the period covered by this Annual Report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and

Stockholders of MamaMancini's Holdings, Inc.

We have audited the accompanying consolidated balance sheets of MamaMancini's Holdings, Inc. as of January 31, 2015 and 2014, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014. MamaMancini's Holdings, Inc.'s management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of MamaMancini's Holdings, Inc. as of January 31, 2015 and 2014, and the consolidated results of its operations and its cash flows for each of the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014 in conformity with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements

Note 1 - Nature of Operations and Basis of Presentation

Nature of Operations

MamaMancini's Holdings, Inc. (the "Company"), (formerly known as Mascot Properties, Inc.) was organized on July 22, 2009 as a Nevada corporation.

Current Business of the Company

The Company is a manufacturer and distributor of beef meatballs with sauce, turkey meatballs with sauce, and other similar meats and sauces. The Company's customers are located throughout the United States, with a large concentration in the Northeast and Southeast, and Canada.

Mergers

On January 24, 2013, the Company, Mascot Properties Acquisition Corp, a Delaware corporation and wholly-owned subsidiary of the Company ("Merger Sub"), MamaMancini's, Inc., a privately-held Delaware Corporation headquartered in New Jersey ("MamaMancini's") and an individual (the "Majority Shareholder"), entered into an Acquisition Agreement and Plan of Merger (the "Agreement") pursuant to which the Merger Sub was merged with and into MamaMancini's, with MamaMancini's surviving as a wholly-owned subsidiary of the Company (the "Merger"). The Company acquired, through a reverse triangular merger, all of the outstanding capital stock of MamaMancini's in exchange for issuing MamaMancini's shareolders (the "MamaMancini's Shareholders"), pro-rata, a total of 20,054,000 shares of the Company's common stock. Immediately after the Merger was consummated, and further to the Agreement, the majority shareholders and certain affiliates of the Company cancelled a total of 103,408,000 shares of the Company's common stock held by them (the "Cancellation"). In consideration of the Cancellation of such common stock, the Company paid the Majority Shareholder in aggregate of \$295,000 and 800,000 shares of common stock and released the other affiliates from certain liabilities. In addition, the Company has agreed to spinout to the Majority Shareholder all assets related to the Company's real estate management business within 30 days after the closing. As a result of the Merger and the Cancellation, the MamaMancini's Shareholders became the majority shareholders of the Company.

The consolidated financial statements presented for all periods through and including January 31, 2015 are those of MamaMancini's. As a result of this Merger, the equity sections of MamaMancini's for all prior periods presented reflect the recapitalization described above and are consistent with the January 31, 2015 balance sheet presented for the Company.

Since the transaction is considered a reverse acquisition and recapitalization, the presentation of pro-forma financial information was not required.

Basis of Presentation

The consolidated financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") and include the accounts of the Company and its wholly-owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation.

Notes to Consolidated Financial Statements

Note 2 - Summary of Significant Accounting Policies

Change of Year End

Effective January 13, 2014, MamaMancini's Holdings, Inc. (the "Company") changed its fiscal year end date to January 31. The Company's 2014 fiscal year commenced on February 1, 2014 and concludes on January 31, 2015. The Company changed its year end to be consistent with a significant number of its retail customers that have a fiscal year end on or near January 31. This allows the Company to more accurately account for accrued discounts and promotions to these retailers. The Company determined that recasting the prior year comparable period ended January 31, 2014 would not be material.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Such estimates and assumptions impact, among others, the following: allowance for doubtful accounts, inventory obsolescence, the fair value of share-based payments.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the consolidated financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

Risks and Uncertainties

The Company operates in an industry that is subject to intense competition and change in consumer demand. The Company's operations are subject to significant risk and uncertainties including financial and operational risks including the potential risk of business failure.

The Company has experienced, and in the future expects to continue to experience, variability in sales and earnings. The factors expected to contribute to this variability include, among others, (i) the cyclical nature of the grocery industry, (ii) general economic conditions in the various local markets in which the Company competes, including the general downturn in the economy, and (iii) the volatility of prices pertaining to food and beverages in connection with the Company's distribution of the product. These factors, among others, make it difficult to project the Company's operating results on a consistent basis.

Cash

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents. The Company held no cash equivalents at January 31, 2015 or 2014.

The Company minimizes its credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are stated at the amount management expects to collect from outstanding balances. The Company generally does not require collateral to support customer receivables. The Company provides an allowance for doubtful accounts based upon a review of the outstanding accounts receivable, historical collection information and existing economic conditions. The Company determines if receivables are past due based on days outstanding, and amounts are written off when determined to be uncollectible by management. The maximum accounting loss from the credit risk associated with accounts receivable is the amount of the receivable recorded, which is the face amount of the receivable net of the allowance for doubtful accounts. As of January 31, 2015 and 2014, the Company had reserves of \$2,000.

MamaMancini's Holdings, Inc.

Notes to Consolidated Financial Statements

Inventories

Inventories are stated at average cost using the first-in, first-out (FIFO) valuation method. Inventory was comprised of the following at January 31, 2015 and 2014:

	January 31, 2015	January 31, 2014
Finished goods	\$301,170	\$159,829

Property and Equipment

Property and equipment are recorded at cost. Depreciation expense is computed using straight-line methods over the estimated useful lives.

Asset lives for financial statement reporting of depreciation are:

Machinery and equipment	2-7 years
Furniture and fixtures	3-5 years
Leasehold improvements	3-10 years

Fair Value of Financial Instruments

For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amount of the Company's short term financial instruments approximates fair value due to the relatively short period to maturity for these instruments.

Stock Issuance Costs

Stock issuance costs are capitalized as incurred. Upon the completion of the offering, the stock issuance costs are reclassified to equity and netted against proceeds. In the event the costs are in excess of the proceeds, the costs are recorded to expense. In the case of an aborted offering, all costs are expensed. Offering costs recorded to equity for the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014 were \$346,192, \$1,604,000 and \$102,166, respectively. During the year ended January 31, 2015, the Company expensed \$330,538 of deferred issuance costs related to the aborted offering of the Company's common stock, which are included in general and administrative expenses in the consolidated statements of operations.

Research and Development

Research and development is expensed as incurred. Research and development expenses for the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014 were \$100,864, \$19,408 and \$8,477, respectively.

Shipping and Handling Costs

The Company classifies freight billed to customers as sales revenue and the related freight costs as cost of sales.

Revenue Recognition

The Company records revenue for products when all of the following have occurred: (1) persuasive evidence of an arrangement exists, (2) the product is delivered, (3) the sales price to the customer is fixed or determinable, and (4) collectability of the related customer receivable is reasonably assured. There is no stated right of return for products.

The Company meets these criteria upon shipment.

MamaMancini's Holdings, Inc.**Notes to Consolidated Financial Statements**

Expenses such as slotting fees, sales discounts, and allowances are accounted for as a direct reduction of revenues as follows:

	Year Ended January 31, 2015	Year Ended December 31, 2013	One Month Ended January 31, 2014
Gross Sales	\$ 12,725,100	\$ 9,282,562	\$ 796,177
Less: Slotting, Discounts, Allowances	385,844	540,941	20,925
Net Sales	\$ 12,339,256	\$ 8,741,621	\$ 775,252

Cost of Sales

Cost of sales represents costs directly related to the production and manufacturing of the Company's products. Costs include product development, freight, packaging, and print production costs.

Advertising

Costs incurred for producing and communicating advertising for the Company are charged to operations as incurred. Producing and communicating advertising expenses for the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014 were \$3,104,088, \$2,440,424 and \$232,481, respectively.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC Topic 718, "Accounting for Stock-Based Compensation" ("ASC 718") which establishes financial accounting and reporting standards for stock-based employee compensation. It defines a fair value based method of accounting for an employee stock option or similar equity instrument. The Company accounts for compensation cost for stock option plans in accordance with ASC 718.

The Company accounts for share-based payments to non-employees in accordance with ASC 505-50 "Accounting for Equity Instruments Issued to Non-Employees for Acquiring, or in Conjunction with Selling Goods or Services".

The Company recognizes all forms of share-based payments, including stock option grants, warrants and restricted stock grants, at their fair value on the grant date, which are based on the estimated number of awards that are ultimately expected to vest.

Share-based payments, excluding restricted stock, are valued using a Black-Scholes option pricing model. Grants of share-based payment awards issued to non-employees for services rendered have been recorded at the fair value of the share-based payment, which is the more readily determinable value. The grants are amortized on a straight-line basis over the requisite service periods, which is generally the vesting period. If an award is granted, but vesting does not occur, any previously recognized compensation cost is reversed in the period related to the termination of service. Stock-based compensation expenses are included in cost of goods sold or selling, general and administrative expenses, depending on the nature of the services provided, in the Consolidated Statement of Operations. Share-based payments issued to placement agents are classified as a direct cost of a stock offering and are recorded as a reduction in additional paid in capital.

For the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014 share-based compensation amounted to \$438,343, \$894,827 and \$45,681, respectively. Of the \$438,343, \$894,827 and \$45,681 recorded for the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014, \$171,981, \$731,894 and \$43,666 were direct costs of a stock offering and have been recorded as a reduction in additional paid in capital.

For the year ended January 31, 2015, when computing fair value of share-based payments, the Company has considered the following variables:

MamaMancini's Holdings, Inc.**Notes to Consolidated Financial Statements**

	January 31, 2015	December 31, 2013	January 31, 2014	
Risk-free interest rate	0.26% to 1.67%	0.61% to 1.01%	1.64	%
Expected life of grants	1 to 5 years	1 to 5 years	1 to 5 years	
Expected volatility of underlying stock	189% to 191%	144% to 193%	193	%
Dividends	\$0	\$0	\$0	

The expected option term is computed using the "simplified" method as permitted under the provisions of Staff Accounting Bulletin ("SAB") 110. The Company uses the simplified method to calculate expected term of share options and similar instruments as the Company does not have sufficient historical exercise data to provide a reasonable basis upon which to estimate expected term.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss), adjusted for changes in income or loss that resulted from the assumed conversion of convertible shares, by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

The Company had the following potential common stock equivalents at January 31, 2015:

Common stock subscribed	66,667
Common stock warrants, exercise price range of \$1.00-\$2.50	1,027,401
Common stock options, exercise price of \$1.00-\$2.97	496,404
Total common stock equivalents	1,683,472

The Company had the following potential common stock equivalents at December 31, 2013:

Common stock subscribed	533,333
Common stock warrants, exercise price of \$1.00-\$1.50	892,067
Common stock options, exercise price of \$1.00	428,845
Total common stock equivalents	1,854,245

The Company had the following potential common stock equivalents at January 31, 2014:

Common stock subscribed	833,333
Common stock warrants, exercise price of \$1.00-\$1.50	922,067
Common stock options, exercise price of \$1.00	434,177
Total common stock equivalents	2,189,577

Since the Company reflected a net loss during the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014, the effect of considering any common stock equivalents, would have been anti-dilutive. A separate computation of diluted earnings (loss) per share is not presented.

Income Taxes

Income taxes are provided in accordance with ASC No. 740, "Accounting for Income Taxes". A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the period of deferred tax assets and liabilities.

MamaMancini's Holdings, Inc.

Notes to Consolidated Financial Statements

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The Company is no longer subject to tax examinations by tax authorities for years prior to 2012.

Reclassification

Certain prior period amounts have been reclassified to conform to current period presentation.

Recent Accounting Pronouncements

The U.S. Financial Accounting Standards Board issued Accounting Standards Update 2014-09, *Revenue from Contracts with Customers*, in May 2014. The amendments in this Update supersede the revenue recognition requirements in Topic 605, *Revenue Recognition*, including most industry-specific revenue recognition guidance throughout the Industry Topics of the Codification. In addition, the amendments supersede the cost guidance in Subtopic 605-35, *Revenue Recognition—Construction-Type and Production-Type Contracts*, and create new Subtopic 340-40, *Other Assets and Deferred Costs—Contracts with Customers*. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This Accounting Standards Update is the final version of Proposed Accounting Standards Update 2011-230—*Revenue Recognition* (Topic 605) and Proposed Accounting Standards Update 2011-250—*Revenue Recognition* (Topic 605): Codification Amendments, both of which have been deleted. Accounting Standards Update 2014-09. The amendments in this Update are effectively for the Company for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently evaluating the effects of ASU 2014-09 on the consolidated financial statements.

In June 2014, the Financial Accounting Standards Board issued Accounting Standards Update 2014-12, *Compensation- Stock Compensation*. The amendments in this update apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target can be achieved

after the requisite service period. This Accounting Standards Update is the final version of Proposed Accounting Standards Update EITF-13D—Compensation—Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, which has been deleted. The proposed amendments would apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target could be achieved after the requisite service period. This Accounting Standards Update is the final version of Proposed Accounting Standards Update EITF-13D—Compensation—Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, which has been deleted. The amendments in this Update are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, and early adoption is permitted. The Company is currently evaluating the effects of ASU 2014-12 on the consolidated financial statements.

In August 2014, the Financial Accounting Standards Board issued Accounting Standards Update 2014–15, *Presentation of Financial Statements – Going Concern*. The Update provides U.S. GAAP guidance on management’s responsibility in evaluating whether there is substantial doubt about a company’s ability to continue as a going concern and about related footnote disclosures. For each reporting period, management will be required to evaluate whether there are conditions or events that raise substantial doubt about a company’s ability to continue as a going concern within one year from the date the financial statements are issued. This Accounting Standards Update is the final version of Proposed Accounting Standards Update 2013–300—Presentation of Financial Statements (Topic 205): Disclosure of Uncertainties about an Entity’s Going Concern Presumption, which has been deleted. The Company is currently evaluating the effects of ASU 2014–15 on the consolidated financial statements.

In November 2014, the FASB issued Accounting Standards Update No. 2014-16 (ASU 2014-16), *Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share Is More Akin to Debt or to Equity*. The amendments in this ASU do not change the current criteria in U.S. GAAP for determining when separation of certain embedded derivative features in a hybrid financial instrument is required. The amendments clarify that an entity should consider all relevant terms and features, including the embedded derivative feature being evaluated for bifurcation, in evaluating the nature of the host contract. The ASU applies to all entities that are issuers of, or investors in, hybrid financial instruments that are issued in the form of a share and is effective for public business entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. The Company is currently evaluating the effects of ASU 2014–16 on the consolidated financial statements.

In March 2015, the Financial Accounting Standards Board issued Accounting issued Accounting Standards Update (ASU) No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The amendments are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption of the amendments is permitted for financial statements that have not been previously issued. The amendments should be applied on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Upon transition, an entity is required to comply with the applicable disclosures for a change in an accounting principle. These disclosures include the nature of and reason for the change in accounting principle, the transition method, a description of the prior-period information that has been retrospectively adjusted,

and the effect of the change on the financial statement line items (i.e., debt issuance cost asset and the debt liability). The Company is currently evaluating the effects of ASU 2015-03 on the consolidated financial statements.

Notes to Consolidated Financial Statements

Note 3 - Property and Equipment:

Property and equipment on January 31, 2015 and 2014 are as follows:

	January 31, 2015	January 31, 2014
Machinery and Equipment	\$1,060,066	\$1,027,431
Furniture and Fixtures	16,887	4,525
Leasehold Improvements	274,567	2,733
	1,351,520	1,034,689
Less: Accumulated Depreciation	226,775	56,662
	\$1,124,745	\$978,027

At January 31, 2015 and 2014, fixed assets in the amount of \$0 and \$826,340, respectively, were not in service.

Depreciation expense charged to income for the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014 amounted to \$170,113, \$33,891 and \$4,141, respectively.

Note 4 - Investment in Meatball Obsession, LLC

During 2011 the Company acquired a 34.62% interest in Meatball Obsession, LLC ("MO") for a total investment of \$27,032. This investment is accounted for using the equity method of accounting. Accordingly, investments are recorded at acquisition cost plus the Company's equity in the undistributed earnings or losses of the entity.

At December 31, 2011 the investment was written down to \$0 due to losses incurred by MO.

The Company's ownership interest in MO has decreased due to dilution.

At January 31, 2015 and 2014, the Company's ownership interest in MO was 12.6% and 15.8%, respectively.

Note 5 - Related Party Transactions

Joseph Epstein Foods

On March 1, 2010, the Company entered into a five year agreement with Joseph Epstein Foods (the "Manufacturer") who is a related party. The Manufacturer is owned by the CEO and President of the Company. The Company analyzed the relationship with the Manufacturer to determine if the Manufacturer is a variable interest entity as defined by FASB ASC 810 "Consolidation". Based on this analysis, the Company has determined that the Manufacturer is a variable interest but the Company is not the primary beneficiary of the variable interest entity and therefore consolidation is not required. Under the terms of the agreement, the Company grants to the Manufacturer a revocable license to use the Company's recipes, formulas, methods and ingredients for the preparation and production of Company's products, for manufacturing the Company's product and all future improvements, modifications, substitutions and replacements developed by the Company. The Manufacturer in turn grants the Company the exclusive right to purchase the product. Under the terms of the agreement the Manufacturer agrees to manufacture, package, and store the Company's products and the Company has the right to purchase products from one or more other manufacturers, distributors or suppliers. The agreement contains a perpetual automatic renewal clause for a period of one year after the expiration of the initial term. During the renewal period either party may cancel the contract with written notice nine months prior to the termination date.

F-12

MamaMancini's Holdings, Inc.

Notes to Consolidated Financial Statements

Under the terms of the agreement if the Company specifies any change in packaging or shipping materials which results in the manufacturer incurring increased expense for packaging and shipping materials or in the Manufacturer being unable to utilize obsolete packaging or shipping materials in ordinary packaging or shipping, the Company agrees to pay as additional product cost the additional cost for packaging and shipping materials and to purchase at cost such obsolete packaging and shipping materials. If the Company requests any repackaging of the product, other than due to defects in the original packaging, the Company will reimburse the Manufacturer for any labor costs incurred in repackaging. Per the agreement, all product delivery shipping costs are the expense of the Company.

In addition, the Company made several unsecured loans to the Manufacturer during the year ended 2013, the one month period ended January 31, 2014, and the year ended January 31, 2015. The loan to the Manufacturer is unsecured, does not bear interest and is due on demand.

During the year ended January 31, 2015 and the one month ended January 31, 2014, the Company made improvements to the Manufacturer's facility. The improvements have been capitalized and are being depreciated over the estimated useful life of the supply agreement.

During the year ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014, the Company purchased substantially all of its inventory from the Manufacturer.

During the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014, the Manufacturer incurred expenses on behalf of the Company for shared administrative expenses and salary expenses.

At January 31, 2015 and 2014 the amount due from the Manufacturer is \$2,213,037 and \$1,373,036, respectively.

Meatball Obsession, LLC

A current director of the Company is the chairman of the board and shareholder of Meatball Obsession LLC.

For the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014, the Company generated approximately \$113,600, \$85,500 and \$0 in revenues from MO, respectively.

As of January 31, 2015 and 2014, the Company had a receivable of \$6,768 and \$1,457 due from MO, respectively.

Note 6 - Line of Credit

Effective January 3, 2014, the Company entered into a Sale and Security Agreement (the "Sale and Security Agreement") with Faunus Group International, Inc. ("FGI") to provide for a \$1.5 million secured demand credit facility backed by its receivables and inventory (the "FGI Facility"). The Sale and Security Agreement has an initial three year term (the "Original Term") and shall be extended automatically for an additional one year for each succeeding term unless written notice of termination is given by either party at least sixty days prior to the end of the Original Term or any extension thereof. The Company and certain of its affiliates also entered into guarantees to guarantee the performance of the obligations under the Sale and Security Agreement (the "Guaranty Agreements"). The Company also granted FGI a security interest in and lien upon all of the Company's right, title and interest in and to all of its assets (as defined in the Sale and Security Agreement).

Pursuant to the FGI Facility, FGI can elect to purchase eligible accounts receivables ("Purchased Accounts") up to 70% of the value of such receivables (retaining a 30% reserve). At FGI's election, FGI may advance the Company up to 70% of the value of any Purchased Accounts, subject to the FGI Facility. Reserves retained by FGI on any Purchased Accounts are expected to be refunded to the Company net of interest and fees on advances once the receivables are collected from customers. The interest rate on advances or borrowings under the FGI Facility will be the greater of (i) 6.75% per annum and (ii) 2.50% above the prime rate. Any advances or borrowings under the FGI Facility are due on demand.

MamaMancini's Holdings, Inc.

Notes to Consolidated Financial Statements

The Company also agreed to pay to FGI monthly collateral management fees of 0.42% of the average monthly balance of Purchased Accounts. The minimum monthly net funds employed during each contract year hereof shall be \$500,000. Additionally, the Company paid FGI a one-time facility fee equal to 1% of the FGI Facility upon entry into the Sale and Security Agreement.

During the year ended January 31, 2015, the Company terminated its agreement with FGI and paid off all obligations due at the payoff date. Upon termination, additional fees and accrued interest of approximately \$48,600 were paid and included in the interest expense.

Note 7 - Loan and Security Agreement

On September 3, 2014, the Company entered into a Loan and Security Agreement ("Loan and Security Agreement") with Entrepreneur Growth Capital, LLC ("EGC"). The total facility is for an aggregate principal amount of up to \$3,100,000. The facility consists of the following:

Accounts Revolving Line of Credit:	\$2,150,000
Inventory Revolving Line of Credit:	\$350,000
Term Loan:	\$600,000

EGC may from time to time make loans in an aggregate amount not to exceed the Accounts Revolving Line of Credit up to 85% of the net amount of Eligible Accounts (as defined in the Loan and Security Agreement). EGC may from time to time make loans in an aggregate amount not to exceed the Inventory Revolving Line of Credit against Eligible Inventory (as defined in the Loan and Security Agreement) in an amount up to 50% of finished goods and in an amount up to 20% of raw material.

The revolving interest rates is equal to the highest prime rate in effect during each month as generally reported by Citibank, N.A. plus (a) 2.5% on loans and advances made against eligible accounts and (b) 4.0% on loans made against eligible inventory. The term loan bears interest at a rate of the highest prime rate in effect during each month as generally reported by Citibank, N.A. plus 4.0%. The initial term of the facility is for a period of two years and will automatically renew for an additional one year period. The Company is required to pay a one-time facility fee equal to 2.25% of the total \$3,100,000 facility. In the event of default, the Company shall pay 10% above the stated rates of

interest per the Agreement. The drawdowns are secured by all of the assets of the Company.

On September 3, 2014, the Company also entered into a 5 year \$600,000 Secured Promissory Note (“EGC Note”) with EGC. The EGC Note is payable in 60 monthly installments of \$10,000. The EGC Note bears interest at the prime rate plus 4.0% and is payable monthly, in arrears. In the event of default, the Company shall pay 10% above the stated rates of interest per the Loan and Security Agreement. The EGC Note is secured by all of the assets of the Company. The outstanding balance on the note was \$560,000 as of January 31, 2015.

Additionally, in connection with the Loan and Security Agreement, Carl Wolf, the Company’s Chief Executive Officer entered into a Guarantee Agreement with EGC, personally guaranteeing all the amounts borrowed on behalf of the Company under the Loan and Security Agreement.

Note 8 – Convertible Note

On December 19, 2014, the Company entered into a securities purchase agreement (the “Manatuck Purchase Agreement”) with Manatuck Hill Partners, LLC (“Manatuck”) whereby the Company issued a convertible redeemable debenture (the “Manatuck Debenture”) in favor of Manatuck. The Manatuck Debenture is for \$2,000,000 bearing interest at a rate of 14% and matures in February 2016. Upon issuance of the Manatuck Debenture, the Company granted Manatuck 200,000 shares of the Company’s restricted common stock. Subsequent to January 31, 2015, the maturity date was extended to May 2016.

MamaMancini's Holdings, Inc.

Notes to Consolidated Financial Statements

Optional conversion to convertible preferred stock is available upon completion of a qualified offering (as defined in the Manatuck Purchase Agreement) while the Manatuck Debenture is outstanding. Upon conversion of the Manatuck Debenture, the Company shall issue Manatuck shares of common stock as defined in the Manatuck Purchase Agreement.

Upon issuance of the debenture, a debt discount of \$458,750 was recorded for the fees incurred by the buyer as well as the value of the common shares granted to Manatuck. The debt discount will be amortized over the earlier of (i) the term of the debt or (ii) conversion of the debt, using the straight-line method which approximates the interest method. The amortization of debt discount is included as a component of interest expense in the consolidated statements of operations. There was unamortized debt discount of \$412,553 as of January 31, 2015.

Note 9 - Concentrations

Revenues

During the year ended January 31, 2015, the Company earned revenues from three customers representing approximately 18%, 13% and 11% of gross sales. As of January 31, 2015, the customers represented approximately 23%, 12%, and 15% of total gross outstanding receivables, respectively.

Note 11 - Commitments and Contingencies

Litigations, Claims and Assessments

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. Litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm its business. The Company is currently not aware of any such legal proceedings or claims that they believe will have, individually or in the aggregate, a material adverse effect on its business, financial condition or operating results.

Licensing and Royalty Agreements

On March 1, 2010, the Company was assigned a Development and License agreement (the "Agreement"). Under the terms of the Agreement the Licensor shall develop for the Company a line of beef meatballs with sauce, turkey meatballs with sauce and other similar meats and sauces for commercial manufacture, distribution and sale (each a "Licensor Product" and collectively the "Licensor Products"). Licensor shall work with Licensee to develop Licensor Products that are acceptable to Licensee. Upon acceptance of a Licensor Product by Licensee, Licensor's trade secret recipes, formulas methods and ingredients for the preparation and production of such Licensor Products (the "Recipes") shall be subject to this Development and License Agreement.

The term of the Agreement (the "Term") shall consist of the Exclusive Term and the Non-Exclusive Term. The 12-month period beginning on each January 1 and ending on each December 31 is referred to herein as an "Agreement

Year.”

The Exclusive Term began on January 1, 2009 (the “Effective Date”) and ends on the 50th anniversary of the Effective Date, unless terminated or extended as provided herein. Licensor, at its option, may terminate the Exclusive Term by notice in writing to Licensee, delivered between the 60th and the 90th day following the end of any Agreement Year if, on or before the 60th day following the end of such Agreement Year, Licensee has not paid Licensor Royalties with respect to such Agreement Year at least equal to the minimum royalty (the “Minimum Royalty”) for such Agreement Year. Subject to the foregoing sentence, and provided Licensee has not breached this Agreement and failed to cure such breach in accordance herewith, Licensee may extend the Exclusive Term for an additional twenty five (25) years, by notice in writing to Licensor, delivered on or before the 50th anniversary of the Effective Date.

The Non-Exclusive Term begins upon expiration of the Exclusive Term and continues indefinitely thereafter, until terminated by Licensor due to a material breach hereof by Licensee that remains uncured after notice and opportunity to cure in accordance herewith, or until terminated by Licensee.

Either party may terminate this Agreement in the event that the other party materially breaches its obligations and fails to cure such material breach within sixty (60) days following written notice from the non-breaching party specifying the nature of the breach. The following termination rights are in addition to the termination rights provided elsewhere in the agreement

F-18

MamaMancini's Holdings, Inc.

Notes to Consolidated Financial Statements

Termination by Licensee - Licensee shall have the right to terminate this Agreement at any time on sixty (60) days written notice to Licensor. In such event, all moneys paid to Licensor shall be deemed non-refundable.

Under the terms of the Agreement the Company is required to pay quarterly royalty fees as follows:

During the Exclusive Term and the Non-Exclusive Term the Company will pay a royalty equal to the royalty rate (the "Royalty Rate"), multiplied by Company's "Net Sales". As used herein, "Net Sales" means gross invoiced sales of Products, directly or indirectly to unrelated third parties, less (a) discounts (including cash discounts), and retroactive price reductions or allowances actually allowed or granted from the billed amount (collectively "Discounts"); (b) credits, rebates, and allowances actually granted upon claims, rejections or returns, including recalls (voluntary or otherwise) (collectively, "Credits"); (c) freight, postage, shipping and insurance charges; (d) taxes, duties or other governmental charges levied on or measured by the billing amount, when included in billing, as adjusted for rebates and refunds; and (e) provisions for uncollectible accounts determined in accordance with reasonable accounting methods, consistently applied.

The Royalty Rate shall be: 6% of net sales up to \$500,000 of net sales for each Agreement year; 4% of Net Sales from \$500,000 up to \$2,500,000 of Net Sales for each Agreement year; 2% of Net Sales from \$2,500,000 up to \$20,000,000 of Net Sales for each Agreement year; and 1% of Net Sales in excess of \$20,000,000 of Net Sales for each Agreement year.

In order to continue the Exclusive term, the Company shall pay a minimum royalty with respect to the preceding Agreement year as follows:

Agreement Year	Minimum Royalty to be Paid with Respect to Such Agreement Year
1 st and 2 nd	\$ -
3 rd and 4 th	\$ 50,000

5 th , 6 th and 7 th	\$ 75,000
8 th and 9 th	\$ 100,000
10 th and thereafter	\$ 125,000

The Company incurred \$284,861, \$203,031 and \$35,551 of royalty expenses for the years ended January 31, 2015 and December 31, 2013 and the one month ended January 31, 2014. Royalty expenses are included in general and administrative expenses on the Consolidated Statement of Operations.

Agreements with Placement Agents and Finders

(A) December 1, 2011

The Company entered into a Financial Advisory and Investment Banking Agreement with Spartan Capital Securities, LLC (“Spartan”) effective December 1, 2011 (the “Spartan Advisory Agreement”). Pursuant to the Spartan Advisory Agreement, Spartan will act as the Company’s exclusive financial advisor and placement agent to assist the Company in connection with a best efforts private placement (the “Financing”) of up to \$6 million of the Company’s equity and/or debt securities and/or convertible instruments (the “Securities”).

F-19

MamaMancini's Holdings, Inc.

Notes to Consolidated Financial Statements

The Company upon closing of the Financing shall pay consideration to Spartan, in cash, a fee in an amount equal to 10% of the aggregate gross proceeds raised in the Financing. The Company shall grant and deliver to Spartan at the closing of the Financing, for nominal consideration, five year warrants (the "Warrants") to purchase a number of shares of the Company's Common Stock equal to 10% of the number of shares of Common Stock (and/or shares of Common Stock issuable upon exercise of securities or upon conversion or exchange of convertible or exchangeable securities) sold at such closing. The Warrants shall be exercisable at any time during the five year period commencing on the closing to which they relate at an exercise price equal to the purchase price per share of Common Stock paid by investors in the Financing or, in the case of exercisable, convertible, or exchangeable securities, the exercise, conversion or exchange price thereof. If the Financing is consummated by means of more than one closing, Spartan shall be entitled to the fees provided herein with respect to each such closing.

Along with the above fees, the Company shall pay up to \$40,000 for expenses incurred by Spartan in connection with this Financing, together with cost of background checks on the officers and directors of the Company.

During the year ended 2012 the Company paid to Spartan fees of \$505,400 and issued Spartan 505,400 five year warrants with an exercise price of \$1.00.

(B) May 2, 2013

The Company entered into a second Financial Advisory and Investment Banking Agreement with Spartan Capital Securities, LLC ("Spartan") effective May 2, 2013 (the "Spartan Advisory Agreement"). Pursuant to the Spartan Advisory Agreement, Spartan will act as the Company's exclusive financial advisor and placement agent to assist the Company in connection with a best efforts private placement (the "Financing") of up to \$5 million of the Company's equity and/or debt securities and/or convertible instruments (the "Securities").

The Company upon closing of the Financing shall pay consideration to Spartan, in cash, a fee in an amount equal to 10% of the aggregate gross proceeds raised in the Financing and up to 3% of the aggregate gross proceeds raised in the Financing for expenses incurred by Spartan. The Company shall grant and deliver to Spartan at the closing of the Financing, for nominal consideration, five year warrants (the "Warrants") to purchase a number of shares of the Company's Common Stock equal to 10% of the number of shares of Common Stock (and/or shares of Common Stock issuable upon exercise of securities or upon conversion or exchange of convertible or exchangeable securities) sold at such closing. The Warrants shall be exercisable at any time during the five year period commencing on the closing to

which they relate at an exercise price equal to the purchase price per share of Common Stock paid by investors in the Financing or, in the case of exercisable, convertible, or exchangeable securities, the exercise, conversion or exchange price thereof. If the Financing is consummated by means of more than one closing, Spartan shall be entitled to the fees provided herein with respect to each such closing.

The Company shall pay to Spartan a non-refundable monthly fee of \$10,000 over a twelve to twenty four month period upon Spartan's satisfaction of certain thresholds (raising of aggregate gross proceeds of \$4.0mil-\$5.0mil) outlined in the Spartan Advisory Agreement. On October 29, 2013 the Company entered into an amendment to the Agreement and the \$10,000 monthly fee was cancelled.

During the year ended December 31, 2013 the Company paid to Spartan fees of \$650,000 and issued Spartan 333,333 five year warrants with an exercise price of \$1.50.

(C) October 22, 2013

The Company entered into a third Financial Advisory and Investment Banking Agreement with Spartan Capital Securities, LLC ("Spartan") effective October 22, 2013 (the "Spartan Advisory Agreement"). Pursuant to the Spartan Advisory Agreement, Spartan will act, for a minimum of twenty-four months from the date of the agreement, as the Company's exclusive financial advisor and placement agent to assist the Company in connection with a best efforts private placement (the "Financing") of up to \$2.5 million of the Company's equity and/or debt securities and/or convertible instruments (the "Securities").

The Company has U.S. federal net operating loss carryovers (NOLs) of approximately \$8.8M and \$4.8M at January 31, 2015 and 2014, respectively, available to offset taxable income through 2034. If not used, these NOLs may be subject to limitation under Internal Revenue Code Section 382 should there be a greater than 50% ownership change as determined under the regulations. The Company plans on undertaking a detailed analysis of any historical and/or current Section 382 ownership changes that may limit the utilization of the net operating loss carryovers. The Company also has New Jersey State Net Operating Loss carry overs of \$8.8M and \$4.8M at January 31, 2015 and 2014, respectively, available to offset future taxable income through 2034.

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon future generation for taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. After consideration of all the information available, Management believes that significant uncertainty exists with respect to future realization of the deferred tax assets and has therefore established a full valuation allowance. For the year ended January 31, 2015 and the one month ended January 31, 2014, the change in the valuation allowance was \$1,745,469 and \$103,644.

MamaMancini's Holdings, Inc.**Notes to Consolidated Financial Statements**

The Company evaluated the provisions of ASC 740 related to the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. ASC 740 prescribes a comprehensive model for how a company should recognize, present, and disclose uncertain positions that the Company has taken or expects to take in its tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Differences between tax positions taken or expected to be taken in a tax return and the net benefit recognized and measured pursuant to the interpretation are referred to as "unrecognized benefits." A liability is recognized (or amount of net operating loss carry forward or amount of tax refundable is reduced) for unrecognized tax benefit because it represents an enterprise's potential future obligation to the taxing authority for a tax position that was not recognized as a result of applying the provisions of ASC 740.

If applicable, interest costs related to the unrecognized tax benefits are required to be calculated and would be classified as "Other expenses – Interest" in the statement of operations. Penalties would be recognized as a component of "General and administrative."

No interest or penalties on unpaid tax were recorded during the year ended January 31, 2015 and the one month ended January 31, 2014, respectively. As of January 31, 2015 and 2014, no liability for unrecognized tax benefits was required to be reported. The Company does not expect any significant changes in its unrecognized tax benefits in the next year.

The Company's deferred tax assets (liabilities) consisted of the effects of temporary differences attributable to the following:

Deferred Tax Assets	Year Ended January 31, 2015	One Month Ended January 31, 2014
Net operating loss carryovers	\$3,855,903	\$2,044,894
Total deferred tax assets	3,855,903	2,044,894
