QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 001-00106

THE LGL GROUP, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware 38-1799862
(State or Other Jurisdiction of (I.R.S. Employer Identification No.)

Incorporation or Organization)

2525 Shader Rd., Orlando, Florida 32804
(Address of principal executive offices) (Zip Code)

(407) 298-2000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Edgar Filing: LGL GROUP INC - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer’s classes of common stock, as of the latest practicable date.

Class	Outstanding at May 8, 2018
Common Stock, \$0.01 par value per share	4,698,393

The LGL Group, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited)

A. Subsidiaries of the Registrant

The LGL Group, Inc. (the “Company”), incorporated in 1928 under the laws of the State of Indiana and reincorporated under the laws of the State of Delaware in 2007, is a holding company with subsidiaries engaged in the designing, manufacturing and marketing of highly-engineered, high reliability frequency and spectrum control products used to control the frequency or timing of signals in electronic circuits, and in the design of high performance Frequency and Time Reference Standards that form the basis for timing and synchronization in various applications.

As of March 31, 2018, the subsidiaries of the Company were as follows:

	Owned By The LGL Group, Inc.
M-tron Industries, Inc.	100.0 %
Piezo Technology, Inc.	100.0 %
Piezo Technology India Private Ltd.	99.0 %
M-tron Asia, LLC	100.0 %
M-tron Industries, Ltd.	100.0 %
GC Opportunities Ltd.	100.0 %
M-tron Services, Ltd.	100.0 %
Precise Time and Frequency, LLC	100.0 %
Lynch Systems, Inc.	100.0 %

The Company operates through its two principal subsidiaries, M-tron Industries, Inc. (“MtronPTI”), which includes the operations of Piezo Technology, Inc. (“PTI”) and M-tron Asia, LLC (“Mtron”), and Precise Time and Frequency, LLC (“PTF”). The Company operates in two identified segments. The first segment, the electronic components segment, is focused on the design and manufacture of highly-engineered, high reliability frequency and spectrum control products. These electronic components ensure reliability and security in aerospace and defense communications, low noise and base accuracy for laboratory instruments, and synchronous data transfers throughout the wireless and Internet infrastructure. The second segment, the electronic instruments segment, is focused on the design and manufacture of high performance Frequency and Time Reference Standards that form the basis for timing and synchronization in various applications. The Company has operations in Orlando, Florida, Yankton, South Dakota, Wakefield, Massachusetts and Noida, India and sales offices in Sacramento, California, Austin, Texas and Hong Kong.

B. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal

recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2018 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2018.

This interim information should be read in conjunction with the audited consolidated financial statements and related notes thereto set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission (the "SEC") on March 22, 2018. The accompanying unaudited condensed consolidated financial statements should also be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in this Quarterly Report on Form 10-Q.

Revenue Recognition

Effective January 1, 2018, the Company adopted Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers", also known as the "New Revenue Standard" ("ASU 2014-09"), on a modified retrospective basis, with no cumulative effect of adoption to any of the financial statement line items. The Company's revised policy is as follows:

The Company recognizes revenue from the sale of its products in accordance with the criteria in Accounting Standards Codification ("ASC") 606, Revenue From Contracts with Customers, which are:

Step 1: Identify the contract(s) with a customer.

Step 2: Identify the performance obligations in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligations in the contract.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

The Company meets these conditions upon the Company's satisfaction of the performance obligation, usually at the time of shipment to the customer, because title and control passes to the customer at that time. Our standard terms for customers are net due within 30 days, with a few exceptions, none regularly exceeding 60 days.

The Company provides disaggregated revenue details by segment in Note J – Segment Information, and geographic markets in Note K – Domestic and Foreign Revenues.

The Company offers a limited right of return and/or authorized price protection provisions in its agreements with certain electronic component distributors who resell the Company's products to original equipment manufacturers or electronic manufacturing services companies. As a result, the Company estimates and records a reserve for future returns and other charges against revenue at the time of shipment consistent with the terms of sale. The reserve is estimated based on historical experience with each respective distributor. These reserves and charges are immaterial as the Company does not have a history of significant price protection adjustments or returns.

The Company provides a standard assurance warranty that does not create a performance obligation.

The Company applies the practical expedient for shipping and handling as fulfillment costs.

C. Inventories

Inventories are valued at the lower of cost or net realizable value using the FIFO (first-in, first-out) method. The Company reduces the value of its inventories to net realizable value when the net realizable value is believed to be less than the cost of the item. The inventory reserve for obsolescence as of March 31, 2018 and December 31, 2017 was \$1,263,000 and \$1,213,000, respectively.

Inventories are comprised of the following (in thousands):

	March 31, December 31,	
	2018	2017
Raw materials	\$ 1,668	\$ 1,526
Work in process	1,585	1,337
Finished goods	755	1,012
Total Inventories, net	\$ 4,008	\$ 3,875

D. Intangible Assets

Intangible assets are recorded at cost less accumulated amortization which is included in engineering, selling and administrative expenses in the accompanying unaudited condensed consolidated statements of operations. Amortization is computed for financial reporting purposes using the straight-line method over the estimated useful lives of the assets, which range up to 10 years. The intangible assets consist of intellectual property and goodwill. The net carrying value of the amortizable intangible assets was \$492,000 and \$512,000 as of March 31, 2018 and December 31, 2017, respectively. Goodwill, which is not amortizable, was \$40,000 as of both March 31, 2018 and December 31, 2017.

E. CNB Loan

On September 30, 2016, MtronPTI renewed its Loan Agreement (the “CNB Loan Agreement”) with City National Bank of Florida (“City National”). The CNB Loan Agreement provides for a revolving line of credit in the amount of \$3.0 million (the “CNB Revolver”), which bears interest at a variable rate equal to the 30-day London Interbank Offered Rate (“LIBOR”) plus 200 basis points to be set on the first day of each month, and expires on September 30, 2018. The CNB Loan Agreement also provides that MtronPTI will pay City National a fee equal to 0.75% per year on the daily unused amount. The Company's obligations under the CNB Loan Agreement are secured only by cash collateral and do not require any other liens.

As of March 31, 2018 and December 31, 2017, there was no balance outstanding under the CNB Revolver and no associated restricted cash.

F. Stock-Based Compensation

The Company measures the cost of employee services in exchange for an award of equity instruments based on the grant-date fair value of the award and recognizes the cost over the requisite service period, typically the vesting period.

The Company estimates the fair value of stock options on the grant date using the Black-Scholes-Merton option-pricing model. The Black-Scholes-Merton option-pricing model requires subjective assumptions, including future stock price volatility and expected time to exercise, which greatly affect the calculated values. There is no expected dividend rate. Historical Company information was the basis for the expected volatility assumption as the Company believes that the historical volatility is indicative of expected volatility over the life of the option. The risk-free interest rate is based on the U.S. Treasury zero-coupon rates with a remaining term equal to the expected term of the option.

Compensation expense related to share-based compensation is recognized over the applicable vesting periods. As of March 31, 2018, there was approximately \$38,000 of total unrecognized compensation expense related to unvested share-based compensation arrangements that will be recognized over a weighted average period of 1.8 years.

G. Earnings Per Share

The Company computes earnings per share in accordance with ASC 260, Earnings Per Share. Basic earnings per share is computed by dividing net earnings by the weighted average number of common shares outstanding during the period. Diluted earnings per share adjusts basic earnings per share for the effects of stock options and other potentially dilutive financial instruments, only in the periods in which the effects are dilutive. The dilutive effect of share-based awards is reflected in earnings per share by application of the treasury stock method, which includes consideration of unamortized share-based compensation expense required under the Compensation – Stock Compensation Topic of the ASC.

For the three months ended March 31, 2018 and 2017, there were options to purchase 9,541 shares and 105,135 shares, respectively, of the Company's common stock and warrants to purchase 519,241 shares of common stock that were excluded from the diluted earnings per share computation because the impact of the assumed exercise of such stock options would have been anti-dilutive during the respective periods.

The following table reconciles basic weighted average shares outstanding to diluted weighted average shares outstanding for the three months ended March 31, 2018 and 2017:

	Three Months Ended March 31,	
	2018	2017
Weighted average shares outstanding - basic	4,696,415	2,675,466
Effect of diluted securities	109,781	13,018
Weighted average shares outstanding - diluted	4,806,196	2,688,484

H. Stockholders' Equity Share Repurchase Program

On August 29, 2011, the Company's board of directors ("the Board") authorized the Company to repurchase up to 100,000 shares of its common stock in accordance with applicable securities laws. This authorization increased the

total number of shares authorized and available for repurchase under the Company's existing share repurchase program to 540,000 shares, at such times, amounts and prices as the Company shall deem appropriate. As of March 31, 2018, the Company had repurchased a total of 81,584 shares of common stock at a cost of \$580,000, which shares are currently held in treasury.

Warrants

On August 6, 2013, the Company distributed warrants to purchase shares of the Company's common stock as a dividend to holders of the Company's common stock as of July 29, 2013, the record date for the dividend. Stockholders received five warrants for each share of the Company's common stock owned on the record date. When exercisable, 25 warrants will entitle the holder to purchase one share of the Company's common stock at an exercise price of \$7.50 per share (subject to adjustment).

The warrants are "European style warrants" and will only become exercisable on the earlier of (i) their expiration date, August 6, 2018, and (ii) such date that the 30-day volume weighted average price per share, or VWAP, of the Company's common stock is greater than or equal to \$15.00 (subject to adjustment). Once the warrants become exercisable, they may be exercised in accordance with the terms of the warrant agreement between the Company and the warrant agent until their expiration at 5:00 p.m., Eastern Time, on the expiration date.

The warrants are quoted on the over-the-counter market under the symbol "LGLPW".

I. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value guidance identifies three primary valuation techniques: the market approach, the income approach and the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts such as cash flows or earnings, to a single present amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to observable inputs such as quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The maximization of observable inputs and the minimization of the use of unobservable inputs are required.

Classification within the fair value hierarchy is based upon the objectivity of the inputs that are significant to the valuation of an asset or liability as of the measurement date. The three levels within the fair value hierarchy are characterized as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs for the asset or liability for which there is little, if any, market activity for the asset or liability at the measurement date. Unobservable inputs reflect the Company's own assumptions about what market participants would use to price the asset or liability. These inputs may include internally developed pricing models, discounted cash flow methodologies, as well as instruments for which the fair value determination requires significant management judgment.

Assets

To estimate the market value of its marketable securities, the Company obtains current market pricing from quoted market sources or uses pricing for identical securities. Assets measured at fair value on a recurring basis are summarized below (in thousands).

	Level 1	Level 2	Level 3	Total at March 31, 2018
Equity Mutual Fund (Marketable securities)	\$3,797	\$—	\$	—\$ 3,797
U.S. Treasury Mutual Fund (Marketable securities)	\$—	\$11,793	\$	—\$ 11,793
	\$3,797	\$11,793	\$	—\$ 15,590

	Level 1	Level 2	Level 3	Total at December 31, 2017
Equity Mutual Fund (Marketable securities)	\$3,803	\$ —	\$ —	\$ 3,803
U.S. Treasury securities (Cash and cash equivalents)	\$11,866	\$ —	\$ —	\$ 11,866
	\$15,669	\$ —	\$ —	\$ 15,669

There were no transfers from level 2 to level 3 during the periods presented. There were no level 3 assets as of March 31, 2018 or December 31, 2017. The Company also has assets that may be subject to measurement at fair value on a non-recurring basis, including goodwill and intangible assets, and other long-lived assets. There were no liabilities subject to fair value on a non-recurring or recurring basis as of March 31, 2018 or December 31, 2017.

The Company reviews goodwill and the carrying value of long-lived assets at least annually or whenever events and circumstances indicate that the carrying amounts of the assets may not be recoverable. If it is determined that the assets are impaired, the carrying value would be reduced to estimated fair value.

J. Segment Information

The Company has two reportable business segments from operations: electronic components, which includes all products manufactured and sold by MtronPTI, and electronic instruments, which includes all products manufactured and sold by PTF. The Company's foreign operations in Hong Kong and India are subsidiaries of MtronPTI. The following table sets forth activity broken down by reportable business segment (in thousands):

	Three Months Ended March 31, 2018 2017	
Revenues from Operations		
Electronic components	\$5,731	\$5,392
Electronic instruments	214	232
Total consolidated revenues	\$5,945	\$5,624
Operating Income from Operations		
Electronic components	\$550	\$326
Electronic instruments	2	36
Unallocated corporate expense	(394)	(254)
Consolidated operating income	158	108
Interest income (expense), net	12	(6)
Other income, net	24	12
Total other income	36	6
Income Before Income Taxes	\$194	\$114

Operating income is equal to revenues less cost of sales and operating expenses, excluding investment income, interest expense, and income taxes.

K. Domestic and Foreign Revenues

For the three months ended March 31, 2018 and 2017, domestic revenues were \$4,511,000 and \$3,982,000, respectively, and foreign revenues were \$1,434,000 and \$1,642,000, respectively. Significant foreign revenues from operations (10% or more of foreign sales) were as follows (in thousands):

	Three Months Ended March 31, 2018 2017	
Malaysia	\$695	\$823
All other foreign countries	739	819
Total foreign revenues	\$1,434	\$1,642
Total domestic revenue	\$4,511	\$3,982

The Company allocates its foreign revenue based on the customer's ship-to location.

L. Commitments and Contingencies

In the ordinary course of business, the Company and its subsidiaries may become defendants in certain product liability, patent infringement, worker claims and other litigation. The Company records a liability when it is probable that a loss has been incurred and the amount is reasonably estimable.

M. Related Party Transactions

Certain balances held and invested in various mutual funds are managed by a related entity (the "Fund Manager"), which is related through a common director who is also a 10% stockholder and currently serves as an executive officer

of the Fund Manager. The brokerage and fund transactions in 2018 and 2017 were directed solely at the discretion of the Company's management.

As of March 31, 2018, the balance with the Fund Manager totaled \$15,581,000 which is classified as marketable securities on the accompanying consolidated balance sheet. Amounts invested generated \$32,000 of investment income during 2018 that is included within other income, net on the accompanying consolidated statement of operations.

As of December 31, 2017, the balance with the Fund Manager totaled \$14,842,000, including \$11,050,000 which is classified as cash and cash equivalents on the accompanying consolidated balance sheet, and \$3,792,000 which is classified as marketable securities on the accompanying consolidated balance sheet.

N.Recently Issued Accounting Pronouncements

In March 2018, the Financial Accounting Standards Board (“FASB”) issued ASU 2018-05, “Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118” to provide guidance for companies that may not have completed their accounting for the income tax effects of the Tax Cut and Jobs Act (“Tax Act”) in the period of enactment, which is the period that includes December 22, 2017. ASU 2018-05 provides for a provisional one year measurement period for entities to finalize their accounting for certain income tax effects related to the Tax Act. ASU 2018-05 requires disclosure of the reasons for incomplete accounting, additional information or analysis needed, among other relevant information. The Company expects to finalize its provisional amounts by the fourth quarter of fiscal 2018.

In February 2016, the FASB issued ASU 2016-02, “Leases (Topic 842)”. The objective of this update is to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those annual periods and is to be applied utilizing a modified retrospective approach. The Company does not expect this standard to have a material impact on its consolidated financial statements because there are no material operating leases.

In January 2016, the FASB issued ASU 2016-01, “Financial Instruments – Recognition and Measurement of Financial Assets and Financial Liabilities (Topic 825)”. ASU 2016-01 revises the classification and measurement of investments in certain equity investments and the presentation of certain fair value changes for certain financial liabilities measured at fair value. ASU No. 2016-01 requires the change in fair value of many equity investments to be recognized in net income. ASU 2016-01 is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted. The Company adopted this guidance effective January 1, 2018 and made a cumulative effect adjustment to the Company's retained earnings of \$35,000.

In May 2014, the FASB issued ASU 2014-09. This update is the result of a collaborative effort by the FASB and the International Accounting Standards Board to simplify revenue recognition guidance, remove inconsistencies in the application of revenue recognition, and to improve comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to receive for those goods or services. ASU 2014-09 became effective for us on January 1, 2018 and was applied on a modified retrospective basis, with no cumulative effect of adoption to any of the financial statement line items.

No other new accounting pronouncements issued or effective during the three months ended March 31, 2018 have had or are expected to have a material impact on the Company's consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the accompanying condensed consolidated financial statements, the notes thereto and the other unaudited financial data included in this Quarterly Report on Form 10-Q. The following discussion should also be read in conjunction with the audited consolidated financial statements and the notes thereto, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017. The terms "we," "us," "our," and the "Company" refer to The LGL Group, Inc. and unless otherwise defined herein, capitalized terms used herein shall have the same meanings as set forth in our condensed consolidated financial statements and the notes thereto.

Forward-Looking Statements

Certain statements contained in this Quarterly Report on Form 10-Q of the Company and the Company's other communications and statements, other than historical facts, may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Company intends for all such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act and Section 21E of the Exchange Act, as applicable by law. Such statements include, in particular, statements about the Company's beliefs, plans, objectives, goals, expectations, estimates, projections and intentions. These statements are subject to significant risks and uncertainties and are subject to change based on various factors, many of which are beyond the Company's control. The words "may," "could," "should," "would," "believe," "anticipate," "estimate," "expect," "intend," "plan," "target," "goal," and similar expressions are intended to identify forward-looking statements. All forward-looking statements, by their nature, are subject to risks and uncertainties. Therefore, such statements are not intended to be a guarantee of the Company's performance in future periods. The Company's actual future results may differ materially from those set forth in the Company's forward-looking statements. For information concerning these factors and related matters, see "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, filed with the SEC on March 22, 2018, this Quarterly Report on Form 10-Q and our other filings with the SEC. However, other factors besides those referenced could adversely affect the Company's results, and you should not consider any such list of factors to be a complete set of all potential risks or uncertainties. Any forward-looking statements made by the Company herein speak as of the date of this Quarterly Report on Form 10-Q. The Company does not undertake to update any forward-looking statement, except as required by law. As a result, you should not place undue reliance on these forward-looking statements.

Results of Operations

Three months ended March 31, 2018 compared to three months ended March 31, 2017

Consolidated Revenues, Gross Margin and Backlog

Total revenues for the three months ended March 31, 2018 were \$5,945,000, an increase of \$321,000, or 5.7%, from revenues of \$5,624,000 for the three months ended March 31, 2017. Revenue growth was due primarily to increased filter sales of \$372,000 along with increased sales of \$217,000 from our time and frequency products, offset by reduced sales of purchased products of \$(268,000).

Consolidated gross margin, which is consolidated revenues less manufacturing cost of sales, as a percentage of revenues increased to 37.5% for the three months ended March 31, 2018, from 36.7% for the three months ended March 31, 2017. The increase reflects our strategy to move away from the low margin commodities business and focus on achieving revenue growth through the development of more complex, higher margin products, particularly in

the aerospace and defense product markets.

As of March 31, 2018, our order backlog was \$13,294,000, which is an increase of 22.2% compared to the backlog of \$10,877,000 as of March 31, 2017. The increase was due primarily to orders being received sooner than planned, and indicate a strong base for our revenues over the next few quarters. The backlog of unfilled orders includes amounts based on signed contracts as well as agreed letters of intent, which we have determined are firm orders likely to be fulfilled in the next 12 months.

Order backlog is adjusted quarterly to reflect project cancellations, deferrals, revised project scope and cost, and sales of subsidiaries, if any. We expect to fill our entire order backlog within the next twelve months, but cannot provide assurances as to what portion of the order backlog will be fulfilled in a given year.

Operating Income

Operating income of \$158,000 for the three months ended March 31, 2018 was an improvement of \$50,000 from operating income of \$108,000 for the three months ended March 31, 2017. This was primarily due to the increase in revenues and gross margin noted above.

Other Income, Net

For the three months ended March 31, 2018, other income, net was \$24,000 compared to \$12,000 for the three months ended March 31, 2017. The current period other income, net consists of a \$16,000 gain from marketable securities and \$4,000 from a

recovery on a previously written down note receivable, along with foreign currency transaction gains on settled transactions of \$4,000. The prior period other income, net consists primarily of \$12,000 in foreign currency transaction gains on settled transactions.

Income Tax Provision

We recorded a tax provision of \$1,000 and \$3,000 for the three months ended March 31, 2018 and 2017, respectively.

Based on our assessment of the uncertainty surrounding the realization of the favorable tax attributes in future tax returns in accordance with the provisions of ASC 740, Income Taxes, we have determined that it is more likely than not that certain deferred tax assets generated from foreign net operating losses (“NOLs”) can be utilized in the foreseeable future and a valuation allowance for these assets is not required. We also determined that a full valuation against the remaining U.S net deferred tax assets is required and have recorded a valuation allowance to reduce deferred tax assets to the amount that is more likely than not to be realized. Should a change in circumstances lead to a change in judgment about the ability to realize deferred tax assets in future years, we will adjust related valuation allowances in the period that the change in circumstances occurs, along with a corresponding increase or charge to income.

Net Income

Net income for the three months ended March 31, 2018, was \$193,000 compared to \$111,000 for the three months ended March 31, 2017. Basic and diluted net income per share for both the three months ended March 31, 2018 and 2017 was \$0.04.

Stock-Based Compensation

For both the three months ended March 31, 2018 and 2017, stock-based compensation expense was \$7,000. Compensation expense related to stock-based compensation is recognized over the applicable vesting periods. As of March 31, 2018, there was approximately \$38,000 of total unrecognized compensation expense related to unvested stock-based compensation arrangements.

Liquidity and Capital Resources

As of March 31, 2018 and December 31, 2017, cash and cash equivalents were \$1,483,000 and \$13,250,000, respectively. In the first quarter of 2018, we invested \$11,775,000 in a U.S. Treasury mutual fund, which is classified as marketable securities on our consolidated balance sheets.

Cash provided by operating activities was \$158,000 and \$219,000 for the three months ended March 31, 2018 and 2017, respectively. The \$61,000 decrease was due primarily to a year-over-year decrease in non-cash adjustments for depreciation and amortization of \$65,000, gain on marketable securities of \$12,000, and a year-over year change in working capital accounts of \$(62,000) offset by an improvement in net income of \$82,000.

Cash used in investing activities for the three months ended March 31, 2018 and 2017 was \$(11,947,000) and \$(1,008,000), respectively. The use of cash was primarily due to the purchase of \$11,775,000 in marketable securities in the first quarter, and \$172,000 in capital expenditures.

For the three months ended March 31, 2018, cash provided by financing activities represented \$22,000 received by the Company for the exercise of stock options. For the three months ended March 31, 2017, there were no financing activities.

As of March 31, 2018, our consolidated working capital was \$22,189,000 compared to \$21,923,000 as of December 31, 2017. As of March 31, 2018, we had current assets of \$24,995,000, current liabilities of \$2,806,000 and a ratio of current assets to current liabilities of 8.91 to 1.00. As of December 31, 2017, we had current assets of \$24,550,000, current liabilities of \$2,627,000 and a ratio of current assets to current liabilities of 9.35 to 1.00. Management continues to focus on efficiently managing working capital requirements to match operating activity levels, and will seek to deploy the Company's working capital where it will generate the greatest returns.

We believe that existing cash and cash equivalents and cash generated from operations will be sufficient to meet our ongoing working capital and capital expenditure requirements for the next 12 months from the date of this filing.

Our Board has adhered to a practice of not paying cash dividends. This policy takes into account our long-term growth objectives, including our anticipated investments for organic growth, potential technology acquisitions or other strategic ventures, and stockholders' desire for capital appreciation of their holdings. No cash dividends have been paid to the Company's stockholders since January 30, 1989, and none are expected to be paid for the foreseeable future.

Critical Accounting Policies

Our accounting policies and unaudited condensed consolidated financial statements have been established to conform with GAAP. The preparation of financial statements in conformity with GAAP requires us to use judgment in the application of accounting policies, including making estimates and assumptions. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. We believe we have made these estimates and assumptions in an appropriate manner and in a way that

accurately reflects our financial condition. We continually test and evaluate these estimates and assumptions using historical knowledge of the business, as well as other factors, to ensure that they are reasonable for reporting purposes. However, actual results may differ from these estimates and assumptions. We believe that the accounting policies related to the following accounts or activities are those that are most critical to the portrayal of our financial condition and results of operations and require the more significant judgments and estimates:

- Revenue recognition;
- Accounts receivable allowance;
- Inventory valuation;
- Intangible assets;
- Income taxes; and
- Segment information.

With the exception of revenue recognition, there have been no significant changes to our critical accounting policies from those described in Note A – Accounting and Reporting Policies to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Effective January 1, 2018, the Company adopted ASU 2014-09, on a modified retrospective basis, with no cumulative effect of adoption to any of the financial statement line items. The Company has updated its revenue recognition policy and disclosure to conform to the new guidance.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms, and that such information is accumulated and communicated to us, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and we necessarily were required to apply our judgment in evaluating whether the benefits of the controls and procedures that we adopt outweigh their costs.

As required by Rules 13a-15(b) and 15d-15(b) of the Exchange Act, an evaluation as of March 31, 2018 was conducted under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures, as of March 31, 2018, were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal controls over financial reporting during the three months ended March 31, 2018, or in other factors that could significantly affect these controls, that materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings.

In the ordinary course of business, we may become subject to litigation or claims. We are not aware of any material pending legal proceedings, other than ordinary routine litigation incidental to our business, to which we are a party or to which our properties are subject.

Item 1A. Risk Factors.

Not applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On August 29, 2011, the Board authorized the Company to repurchase up to 100,000 shares of its common stock in accordance with applicable securities laws. This authorization increased the total number of shares authorized and available for repurchase under the Company's existing share repurchase program to 540,000 shares, at such times, amounts and prices as the Company shall deem appropriate. There is no expiration date for this program. As of March 31, 2018, the Company has repurchased a total of 81,584 shares of common stock under this program at a cost of \$580,000, which shares are currently held in treasury; however, no shares were repurchased by the Company during the three months ended March 31, 2018.

Item 6. Exhibits.

The following exhibits are included, or incorporated by reference, in this Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2018 (and are numbered in accordance with Item 601 of Regulation S-K):

Exhibit No.	Description
3.1	<u>Certificate of Incorporation of The LGL Group, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on August 31, 2007).</u>
3.2	<u>The LGL Group, Inc. By-Laws (incorporated by reference to Exhibit 3.2 to the Company's Current Report on Form 8-K filed with the SEC on August 31, 2007).</u>
3.3	<u>The LGL Group, Inc. Amendment No. 1 to By-Laws (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on June 17, 2014).</u>
4.1	<u>Warrant Agreement, dated as of July 30, 2013, by and among The LGL Group, Inc., Computershare Inc. and Computershare Trust Company, N.A. (incorporated by reference to Exhibit 4.1 to the Company's Quarterly Report on Form 10-Q filed with the SEC on August 14, 2013).</u>
31.1*	<u>Certification of the Principal Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
31.2*	<u>Certification of the Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
32.1**	<u>Certification of the Principal Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.</u>
32.2**	<u>Certification of the Principal Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.</u>
