SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K
ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For The Fiscal Year ended June 30, 2015
Commission File Number 001-36092
Premier, Inc.
(Exact name of registrant as specified in its charter)

Delaware	35-2477140
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

13034 Ballantyne Corporate Place	28277
Charlotte, North Carolina	
(Address of principal executive offices)	(Zip Code)
Registrant's telephone number, including area code: (704) 357-0022	

Securities Registered Pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Class A Common Stock, \$0.01 Par Value	NASDAQ Global Select Market
Securities Registered Pursuant to Section 12(g) of the Act: None	

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>
(Do not check if a smaller reporting company)			

Edgar Filing: Premier, Inc. - Form 10-K

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of the Class A common stock held by non-affiliates of the Registrant as of the last business day of the Registrant's most recently completed second fiscal quarter was approximately \$1,241.7 million. For purposes of the foregoing calculation only, executive officers and directors of the registrant have been deemed to be affiliates.

As of August 21, 2015, there were 37,762,718 shares of the Registrant's Class A common stock, par value \$0.01 per share, outstanding and 106,078,063 shares of the Registrant's Class B common stock, par value \$0.000001 per share, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

The Registrant's definitive proxy statement for its 2015 Annual Meeting of Stockholders to be held on or about December 4, 2015 are incorporated by reference into Part III hereof to the extent described herein.

EXPLANATORY NOTE

This report represents the annual report for the fiscal year ended June 30, 2015 for Premier, Inc. (this "Annual Report"). On October 1, 2013, Premier, Inc. completed the initial public offering ("IPO") of its Class A common stock (the "Class A common stock"). Premier, Inc. is a holding company that was incorporated as a Delaware corporation on May 14, 2013 which, prior to the IPO, had no substantial assets and conducted no substantial activity except in connection with the IPO. Premier, Inc.'s sole asset is a controlling equity interest in Premier Services, LLC, a Delaware limited liability company ("Premier GP"). Premier GP is the general partner of Premier Healthcare Alliance, L.P. ("Premier LP"), a California limited partnership, which historically conducted the group purchasing portion of our supply chain services business. Unless the context suggests otherwise, references in this Annual Report to "Premier," the "Company," "we," "us" and "our" refer (1) prior to the IPO and related transactions, to PHSI (as defined herein) and its consolidated subsidiaries and (2) after our IPO and related transactions, to Premier, Inc. and its consolidated subsidiaries.

Immediately following the consummation of the IPO, a series of transactions, which we refer to as the "Reorganization" (and, collectively with the IPO, the "Reorganization and IPO"), occurred by which Premier GP became the general partner of Premier LP. Premier Healthcare Solutions, Inc. ("PHSI"), a Delaware corporation, through which we historically conducted the majority of the performance services portion of our business under the name "Premier, Inc.", became our indirect subsidiary through Premier LP. PHSI, Premier LP and Premier Supply Chain Improvement, Inc., ("PSCI"), a Delaware corporation and our indirect subsidiary (through Premier LP) through which we historically conducted certain portions of our supply chain services business, historically conducted all of our business. Upon the consummation of the Reorganization and the IPO, our assets and business operations were substantially similar to those of PHSI, Premier LP and PSCI prior to the Reorganization and the IPO, and we conduct all of our business through Premier LP and its subsidiaries.

Because the Reorganization and the IPO had not yet been consummated and Premier, Inc. had no substantial assets and conducted no substantial activities until October 1, 2013, the financial statements and other information of PHSI and its consolidated subsidiaries are included in this Annual Report for periods prior to October 1, 2013. For more information about the Reorganization and the IPO, refer to Note 2 - Initial Public Offering and Reorganization to the audited consolidated financial statements of this Annual Report.

Throughout this Annual Report, references to "member owners" refer collectively to our past, present and future customers, or members, who have owned, or who currently own, limited partnership interests in Premier LP and/or common stock of PHSI, and, as the context relates to the completion of the Reorganization and the IPO, as described in Note 2 - Initial Public Offering and Reorganization to the audited consolidated financial statements of this Annual Report, beneficially own shares of Premier, Inc. Class B common stock, (the "Class B common stock"), and Class B common units of Premier LP (the "Class B common units") after giving effect to the Reorganization, provided, that, in the context of discussions of the group purchasing organization ("GPO") participation agreements throughout this Annual Report, the term "member owner" also includes any related entity or affiliate of a member owner that is approved by Premier LP to be the signatory of such GPO participation agreement in lieu of the member owner.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Statements made in this Annual Report that are not statements of historical or current facts, such as those under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations," are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from historical results or from any future results or projections expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to our beliefs and expectations regarding future events and trends affecting our business and are necessarily subject to uncertainties, many of which are outside our control. Factors that could cause actual results to differ materially from those indicated in any forward-looking statement include, but are not limited to:

- competition which could limit our ability to maintain or expand market share within our industry;
- consolidation in the healthcare industry;
- potential delays in generating or an inability to generate revenues if the sales cycle takes longer than expected;
- the terminability of member participation in our GPO programs with limited or no notice;
- the impact of our business strategy that involves reducing the prices for products and services in our supply chain services segment;
- the rate at which the markets for our non-GPO services and products develop;
- the dependency of our members on payments from third-party payers;
- our reliance on administrative fees which we receive from GPO suppliers;
- our ability to maintain third-party provider and strategic alliances or enter into new alliances;
- our ability to offer new and innovative products and services;
- the portion of revenues we receive from our largest members;
- risks and expenses related to future acquisition opportunities and integration of acquisitions;
- financial and operational risks associated with investments in, or partnerships or joint ventures with, other businesses, particularly those that we do not control;
- potential litigation;
- our reliance on Internet infrastructure, bandwidth providers, data center providers, other third parties and its own systems for providing services to its users;
- data loss or corruption due to failures or errors in our systems and service disruptions at our data centers, breaches or failures of our security measures;
- the financial and reputational consequences of cyber-attacks or other data security breaches that disrupt our operations or result in the dissemination of proprietary or confidential information about us or our members or other third parties;
- our ability to use, disclose, de-identify or license data and to integrate third-party technologies;
- our reliance on partners and other third parties;
- our use of "open source" software;
- changes in industry pricing benchmarks;
- any increase in the safety risk profiles of prescription drugs or the withdrawal of prescription drugs from the market;
- our ability to maintain and expand our existing base of drugs in our specialty pharmacy;

our dependency on contract manufacturing facilities located in various parts of the world;
 our ability to attract, hire, integrate and retain key personnel;
 adequate protection of our intellectual property;
 any alleged infringement, misappropriation or violation of third-party proprietary rights;
 potential sales and use tax liability in certain jurisdictions;
 our future indebtedness and our ability to obtain additional financing;
 fluctuation of our cash flows, quarterly revenues and results of operations;
 changes in the political, economic or regulatory healthcare environment;
 our compliance with federal and state laws governing financial relationships among healthcare providers and the submission of false or fraudulent healthcare claims;
 interpretation and enforcement of current or future antitrust laws and regulations;
 potential healthcare reform and new regulatory requirements placed on our software, services and content;
 compliance with federal and state privacy, security and breach notification laws;
 product safety concerns and regulation;
 our holding company structure and dependence on distributions from Premier LP;
 different interests among our member owners, or between us and our member owners;
 our ability to effectively deploy the net proceeds from future issuances of our equity or debt securities;
 the ability of our member owners to exercise significant control over us, including through the election of all of our directors;
 • exemption from certain corporate governance requirements due to our status as a "controlled company" within the meaning of the Nasdaq Global Select Market ("NASDAQ") rules;
 the terms of agreements between us and our member owners;
 payments made under the tax receivable agreements to Premier LP's limited partners;
 our ability to realize all or a portion of the tax benefits that are expected to result from the acquisition of Class B common units from the limited partners;
 changes to Premier LP's allocation methods that may increase a tax-exempt limited partner's risk that some allocated income is unrelated business taxable income;
 the dilutive effect of Premier LP's issuance of additional units or future issuances by us of common stock and/or preferred stock;
 provisions in our certificate of incorporation and bylaws and the Amended and Restated Limited Partnership Agreement of Premier LP (as amended, the "LP Agreement") and provisions of Delaware law that discourage or prevent strategic transactions, including a takeover of us;
 the requirements of being a public company and our inexperience and limited operating history as a publicly-traded company;
 failure to establish and maintain an effective system of internal controls;
 our relatively smaller public float in comparison to other public companies;
 any downgrade in securities or industry analysts' recommendations about our business or Class A common stock;
 the potential volatility of our Class A common stock price;

the number of shares of Class A common stock that will be eligible for sale or exchange in the near future and the dilutive effect of such issuances;

our intention not to pay cash dividends on our Class A common stock;

possible future issuances of debt securities; and

the risk factors discussed under the heading "Risk Factors" in Item 1A, herein.

More information on potential factors that could affect our financial results is included from time to time in the "Cautionary Note Regarding Forward-Looking Statements," "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" or similarly captioned sections of this Annual Report and our other periodic and current filings we make from time to time with the SEC, and which are available on our website at <http://investors.premierinc.com/>. You should not place undue reliance on any of our forward-looking statements which speak only as of the date they are made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Furthermore, we cannot guarantee future results, events, levels of activity, performance or achievements.

Market Data and Industry Forecasts and Projections

We use market data and industry forecasts and projections throughout this Annual Report and in particular, under Item 1, Business-Industry Overview. We have obtained the market data from certain publicly available sources of information, including publicly available industry publications. We believe the data others have compiled are reliable, but we have not independently verified the accuracy of this information. While we are not aware of any misstatements regarding the industry data presented herein, forecasts and projections involve risks and uncertainties and are subject to change based on various factors, including those discussed under Item 1A, Risk Factors of this Annual Report.

You should not place undue reliance on any such market data or industry forecasts and projections. We undertake no obligation to publicly update or revise any such market data or industry forecasts and projections, whether as a result of new information, future events or otherwise.

PART I

Item 1. Business

The following discussion should be read in conjunction with our audited consolidated financial statements and accompanying notes thereto included elsewhere in this Annual Report on Form 10-K. The following discussion includes certain forward-looking statements. For a discussion of important factors, including the continuing development of our business and other factors which could cause actual results to differ materially from the results referred to in the historical information and the forward-looking statements presented herein, see "Item 1A, Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements" contained in this Annual Report.

Our Company

Premier, Inc., incorporated in Delaware on May 14, 2013, is primarily owned by hospitals, health systems and other healthcare organizations (such owners are referred to herein as member owners) located in the United States, as well as public stockholders. Together with our subsidiaries and affiliates, we are a leading healthcare improvement company, uniting an alliance of approximately 3,600 U.S. hospitals and 120,000 other providers to transform healthcare. With integrated data and analytics, collaboratives, supply chain solutions, and advisory and other services, we enable better care and outcomes at a lower cost. We believe that we play a critical role in the rapidly evolving healthcare industry, collaborating with members to co-develop long-term innovations that reinvent and improve the way care is delivered to patients. We deliver value through a comprehensive technology-enabled platform that offers critical supply chain services, clinical, financial, operational and population health software-as-a-service (SaaS) informatics products, advisory services and performance improvement collaborative programs.

As of June 30, 2015, we were controlled by 176 U.S. hospitals, health systems and other healthcare organizations that represent approximately 1,300 owned, leased and managed acute care facilities and other non-acute care organizations. Our current membership base includes many of the country's most progressive and forward-thinking healthcare organizations and we continually seek to add new members that are at the forefront of innovation in the healthcare industry. Our Class A common stock is generally held by the public and our Class B common stock is held by the limited partners of Premier LP, referred to as our member owners.

As a member-owned healthcare alliance, our mission, products and services, and long-term strategy have been developed in partnership with our member hospitals, health systems and other healthcare organizations. We believe that this partnership-driven business model creates a relationship between our members and us that is characterized by aligned incentives and mutually beneficial collaboration. This relationship affords us access to critical proprietary data and encourages member participation in the development and introduction of new Premier products and services. Our interaction with our members provides us with a window into the latest challenges confronting the industry we serve and innovative best practices that we can share broadly within the healthcare industry, including throughout our membership. This model has enabled us to develop size and scale, data and analytics assets, expertise and customer engagement required to accelerate innovation, provide differentiated solutions and facilitate growth.

We seek to address challenges facing healthcare delivery organizations through our comprehensive suite of solutions that we believe:

- improve the efficiency and effectiveness of the healthcare supply chain;
- deliver improvement in cost and quality;
- innovate and enable success in emerging healthcare delivery and payment models to manage the health of populations; and,

- utilize data and analytics to drive increased connectivity, and clinical, financial and operational improvement.

Our business model and solutions are designed to provide our members access to scale efficiencies, spread the cost of their development, derive intelligence from our data warehouse, mitigate the risk of innovation and disseminate best practices that will help our member organizations succeed in their transformation to higher quality and more cost-effective healthcare.

We deliver our solutions and manage our business through two reportable business segments: supply chain services and performance services. The supply chain services segment includes our group purchasing organization or GPO, specialty pharmacy offerings and direct sourcing activities. The performance services segment includes our informatics, collaborative, advisory services and insurance services businesses.

Industry Overview

According to data from the Centers for Medicare & Medicaid Services, or CMS, healthcare expenditures are a large component of the U.S. economy expected to grow by an average of 5.8% per year for the period 2014-2024, reaching 19.6% of gross domestic product, or GDP, by 2024. According to data from the 2013 American Hospital Association's Annual Survey, published in the 2015 edition of the AHA Hospital Statistics™, there were approximately 5,000 U.S. community hospitals with approximately 795,600 staffed beds in the United States. Of these acute care facilities, approximately 3,100 were part of either multi-hospital or diversified single hospital systems, meaning they were owned, leased, sponsored or contract managed by a central organization. According to the May 2015 edition of IMS Health's Healthcare Market Index, in addition to U.S. hospitals, there were approximately 485,000 alternate site facilities and providers across the continuum of care in the United States. These alternate site facilities include primary/ambulatory care and post-acute care providers. Increasingly, these alternate site facilities are being acquired by, integrated into or aligned with acute care facilities creating integrated delivery networks.

Healthcare Supply Chain Services Industry

According to CMS data, total spending on hospital services in the United States is projected to be approximately \$1.0 trillion, or approximately 32% of total healthcare expenditures, in 2015. Expenses associated with the hospital supply chain, such as supplies and operational and capital expenditures, typically represent between 20% and 30% of a hospital's budget according to Booz & Company. With continued reimbursement rate pressure across government and managed care payers, a transitioning payment model from fee-for-service to value-based payment, and national health expenditures representing a significant portion of the economy, healthcare providers are examining all sources of cost savings, with supply chain spending a key area of focus. We believe opportunities to drive cost out of the healthcare supply chain include improved pricing for medical supplies and pharmaceuticals, appropriate resource utilization, and increased operational efficiency.

From origination at the supplier to final consumption by the provider or patient, healthcare products pass through an extensive supply chain incorporating manufacturers, distributors, GPOs, pharmacy benefit managers, and retail, long-term care and specialty pharmacies, among others. In response to the national focus on health spending and managing healthcare costs, supply chain participants are seeking more convenient and cost-efficient ways to deliver products to patients and providers. We believe that improvements to the healthcare supply chain to bring it on par with other industries that have more sophisticated supply chain management can drive out significant inefficiencies and cost.

Healthcare Performance Services Industry

Legislative reform, unsustainable cost trends, and the need for improved quality and outcomes have generated greater focus among healthcare providers on cost management, quality and safety, and population health management. In 2015, the Department of Health and Human Services (HHS) announced its goals for aligning future Medicare payments with quality and value, including tying 85 and 90 percent of Medicare fee-for-service payments to performance in 2016 and 2018, respectively and shifting up to 50 percent of Medicare fee-for-service payments to alternative payment models, such as accountable care organizations (ACOs) or bundled payment arrangements by the end of 2018. In order to meet these goals, health systems will need to continually monitor performance and manage costs, while maintaining high levels of quality and testing new care delivery models. In response to this changing environment, we expect the markets for performance services and solutions in the areas of cost management, quality and safety and population health management to grow significantly.

We expect information technology to continue to play a key enabling role in efficiency and cost reduction, performance improvement and care transformation across the healthcare industry. In particular, the trends toward

value-based purchasing and population-based healthcare are proving to require more sophisticated business intelligence and technology solutions. To achieve higher-quality outcomes and control costs, providers exhibit a strong and continuing need for data and data analytics to help them understand their current performance and identify opportunities for improvement. We expect demand for data management and data analytics products to complement the focus on electronic health record adoption. According to Frost and Sullivan, 50% of hospitals in the United States are expected to adopt data analytics capabilities by 2016, up from 10% in 2011. Similarly, the advisory services business is growing rapidly in the areas of business model redesign, process improvement, labor productivity, non-labor cost management, clinical integration and change management.

Our Membership

Our current membership base includes many of the country's most progressive and forward-thinking healthcare organizations. The participation of these organizations in our membership provides us with a window into the latest challenges confronting the industry we serve and innovative best practices that we can share broadly throughout our membership. Our members include approximately 3,600 U.S. hospitals and 120,000 other providers. Approximately 380 individuals, representing approximately 163

of our U.S. hospital members, sit on 25 of our strategic and sourcing committees and as part of these committees use their industry expertise to advise on ways to improve the development, quality and value of our products and services. In addition, a number of senior executives from our U.S. hospital member owner systems currently serve on our board of directors. Other than GNYHA Purchasing Alliance, LLC and its member organizations, which accounted for 9.3% of our net revenue in fiscal year 2015, no individual member or member owner systems accounted for more than 5% of our net revenue in any of fiscal years 2015, 2014 or 2013. Total GPO purchasing volume was approximately \$44 billion and \$41 billion for the calendar years 2014 and 2013, respectively.

The following table sets forth certain information with respect to retention rates for members participating in our GPO in the supply chain services segment and renewal rates for our SaaS informatics products subscriptions in the performance services segment for the fiscal years shown:

	Year Ended June 30,			3 Year Average
	2015	2014	2013	
GPO retention rate ⁽¹⁾	99%	99%	93%	97%
SaaS institutional renewal rate ⁽²⁾	94%	94%	96%	95%

(1) The retention rate is calculated based upon the aggregate purchasing volume among all members participating in our GPO for such fiscal year less the annualized GPO purchasing volume for departed members for such fiscal year, divided by the aggregate purchasing volume among all members participating in our GPO for such fiscal year.

(2) The renewal rate is calculated based upon the total number of members that have SaaS revenue in a given period that also have revenue in the corresponding prior year period divided by the total number of members that have SaaS revenue in the same period of the prior year.

Our Business Segments

We deliver our integrated platform of solutions that address the areas of total cost management, quality and safety improvement and population health management through two business segments: supply chain services and performance services, as addressed in Note 24 - Segments to the audited consolidated financial statements of the Annual Report. We have no significant foreign operations or revenues.

Supply Chain Services

Our supply chain services segment assists our members in managing their non-labor expense categories through a combination of products, services and technologies, including one of the largest national healthcare GPOs in the United States serving acute and alternate sites, specialty pharmacy offerings and direct sourcing activities. Membership in our GPO also provides access to certain SaaS informatics products related to the supply chain and the opportunity to participate in our ASCEND® collaborative. Our supply chain services segment consists of the following products and solutions:

Group Purchasing. Our national portfolio of approximately 2,000 contracts with approximately 1,100 suppliers provides our members with access to a wide range of products and services, including medical and surgical products, pharmaceuticals, laboratory supplies, capital equipment, information technology, facilities and construction, food and nutritional products and purchased services (such as clinical engineering and document shredding services). We use our members' aggregate purchasing power to negotiate pricing discounts and improved contract terms with suppliers. Contracted suppliers pay us administrative fees based on the purchase volume of goods and services sold to our

healthcare provider members under the contracts we have negotiated. We also partner with other organizations, including regional GPOs, to extend our network base to their members.

Our contract portfolio is designed to offer our healthcare provider members a flexible solution comprised of multi-sourced supplier contracts, as well as pre-commitment and/or single-sourced contracts that offer higher discounts. Our multi-sourced contracts offer pricing tiers based on purchasing volume and/or commitment and multiple suppliers for many products and services. Our pre-commitment contracts require that a certain amount of our members commit in advance to a specified amount or percentage of purchasing volume before we enter into a contract with a particular supplier. Our single-source contracts are entered into with a specified supplier, and through this exclusive relationship, allow us to contract for products that meet our members' specifications. In the case of pre-commitment contracts, we provide the

particular supplier with a list of members that have pre-committed to a specified amount or percentage of purchasing volume and the supplier directly handles the tracking and monitoring of fulfillment of such purchasing volume. In the case of single and multi-sourced contracts, we negotiate and execute the contracts on behalf of our members and make such contracts available to our members to access. The utilization of such single and multi-sourced contracts is determined by the particular member with assistance from our field force. Since there are no specific fulfillment requirements needed in our single and multi-source contracts, in order to obtain certain pricing levels, each particular member and supplier agree on the appropriate pricing tier based on expected purchasing volume with tracking and ongoing validation of such purchasing volume provided by the supplier. The flexibility provided by our expansive contract portfolio allows us to effectively address the varying needs of our members and the significant number of factors that influence and dictate these needs, including overall size, service mix, and the degree of integration between hospitals in a health system.

We continually innovate our GPO programs and supply chain platforms. For example, our EXPRESSbuy® program enables coordinated, limited-time, volume-driven purchasing opportunities that offer savings beyond regular contract pricing. Through a proprietary web-based application, we offer our members the opportunity to aggregate committed volumes and achieve additional price discounts while allowing our suppliers to sell targeted products, including time-sensitive or excess inventory, more efficiently and at reduced costs.

Our GPO programs target multiple markets, including acute care and alternate site settings. Our alternate site program, one of the largest in the United States, with approximately 120,000 members as of June 30, 2015, includes the following:

Continuum of Care. Alternate sites served by our Continuum of Care GPO program include long-term care and senior living, ambulatory care, first responders and emergency medical services, home health, imaging centers and surgery centers. Our Continuum of Care GPO members have access to nearly all of our GPO supplier contracts including medical and surgical products, pharmaceuticals, laboratory supplies, facilities and construction, capital equipment, information technology, food and nutritional products and purchased services, as well as additional GPO supplier contracts accessed through our 50% ownership interest in Innovatix, LLC, one of the largest alternate site GPOs.

ProviderSelect MD®. ProviderSelect MD® is one of the nation's largest group purchasing programs for physicians. Focused specifically on independent physician practices, the program offers members access to nearly all of our GPO supplier contracts.

Premier REACH®. Premier REACH® is a group purchasing program for non-healthcare entities, including education (e.g., K-12 schools, colleges and universities, and early childhood education), hospitality, recreation (e.g., stadiums, parks and fairgrounds) and employee food programs. Our Premier REACH® members have access to nearly all of our GPO supplier contracts including food service, facilities products and services, information technology and administrative services.

Specialty Pharmacy. Through our specialty pharmacy business, we developed a complete service offering for our members to improve access to medication and to better manage patient therapy for chronically ill patients with specialty drug needs and genetic disorders. Our specialty pharmacy business provides traditional pharmacy dispensing services (i.e., retail and mail order), as well as “specialty pharmacy” services, which fully integrate the administrative coordination, patient care management, and data management reporting functions that ultimately service the needs of patients, providers, payers, and pharmaceutical manufacturers. The business was specifically designed to serve as a scaled solution for our members and to provide a specialty pharmacy “care hub” to meet the unique specialty pharmacy needs of health systems across the continuum of care. We provide robust clinical management programs that are targeted toward those disease states where best-in-class care pathways and interventions by clinically-trained

pharmacists are essential for patient adherence and compliance. Our “care hub” capabilities enable members to more effectively care for complex patient populations, improve clinical quality and safety, and harness otherwise unavailable clinical data.

Direct Sourcing. Our direct sourcing business, SVS, LLC d/b/a S2S Global ("S2S Global"), was established to help our members access a diverse product portfolio and to provide transparency to manufacturing costs and competitive pricing to our members. Through our consolidated subsidiary, S2S Global, we facilitate the development of product specifications with our members, source or contract manufacture the products to member specifications and sell products directly to our members or suppliers. By engaging with our members at the beginning of the sourcing process to define product specifications and then sourcing, or contract manufacturing, products to meet the exact needs of our members, we eliminate the need for unnecessary product features and specifications that may typically be included by suppliers and result in higher prices for our members without providing incremental value. Therefore, our direct sourcing activities benefit our

members by providing them with an expanding portfolio of medical products through more efficient means, and with greater cost transparency, than if such products were purchased from other third-party suppliers. We market our direct sourcing activities under two distinct brands: PremierPro™, which is designated for our members, and Prime Plus™, which is designated for our other customers, primarily regional distributors with private-label product programs.

SaaS Informatics Products. Members of our GPO have access to utilize certain components of our PremierConnect Supply Chain offering and its associated applications and the ability to purchase additional elements that are discussed in more detail below.

ASCEND® Collaborative. Our ASCEND® Collaborative has developed a process to aggregate purchasing data for our members, enabling such members to determine whether to negotiate committed group purchases within the collaborative. Through our ASCEND® Collaborative, members receive group purchasing programs, tiers and prices specifically negotiated for them, as well as benchmarking metrics to assist them in identifying additional supply chain and operations cost savings opportunities and knowledge sharing with other member participants and industry experts. As of June 30, 2015, approximately 730 U.S. hospital members, which represent approximately 114,000 hospital beds, participated in our ASCEND® Collaborative. These hospital member participants have identified approximately \$290 million in additional savings as compared to their U.S. hospital peers not participating in ASCEND® since its inception in 2009. For calendar year 2014, these member participants had approximately \$13.55 billion in committed annual supply chain purchasing spend.

Performance Services

Our offerings in the performance services sector of the healthcare industry are primarily information technology analytics and workflow automation and advisory services. We believe we are one of the largest informatics and advisory services businesses in the United States focused exclusively on healthcare providers. Our SaaS informatics products utilize our comprehensive data set to provide actionable intelligence to our members, enabling them to benchmark, analyze and identify areas of improvement across three main categories: cost management, quality and safety, and population health management. This segment also includes our technology-enabled performance improvement collaboratives, through which we convene members, design programs and facilitate, foster and advance the exchange of clinical, financial and operational data among our members to measure patient outcomes and determine best practices that drive clinical, financial and operational improvements. Our performance services segment includes our PremierConnect® technology offerings, advisory services and collaboratives and insurance services, as follows:

PremierConnect®:

Premier has created a world-class integrated data warehouse and technology platform infrastructure for continuous performance improvement called PremierConnect®. Discrete applications within these domains allow members to analyze data through detailed standard and ad-hoc analyses, benchmarking, interactive dashboards, mobile access, and custom report services. This portfolio of performance improvement solutions is comprised of the following domains:

PremierConnect Quality & Regulatory: The PremierConnect Quality & Regulatory domain enables health systems and providers to identify and target high-value quality improvement areas that drive greater clinical effectiveness and efficiency across the health system.

PremierConnect Safety: The PremierConnect Safety domain enables health systems and providers to improve patient safety, including ongoing infection prevention, antimicrobial stewardship, reduction of hospital-acquired conditions and real-time clinical surveillance used to drive faster, more informed decisions.

PremierConnect Supply Chain: The PremierConnect Supply Chain domain enables health systems and providers to lower supply chain costs through leading supply chain management analytics, evidence-based purchasing and innovative supply chain and operations technology that drives efficiency and effectiveness throughout the entire procurement life cycle.

PremierConnect Operations: The PremierConnect Operations domain enables health systems and providers to build a sustainable infrastructure for labor management across the continuum of care utilizing a suite of labor management applications that integrate benchmarking and productivity data from acute, outpatient and ambulatory settings.

PremierConnect Population Health: The PremierConnect Population Health domain enables health systems and providers to transition to value-based care through actionable business intelligence and analytics that provide population and provider insights from measuring and benchmarking acute and ambulatory clinical performance.

PremierConnect® Enterprise: The PremierConnect Enterprise domain enables health systems and providers to generate business intelligence and self-service analytics through an integrated data warehouse and analytics platform that provides data acquisition, management and integration capabilities.

Performance Improvement Collaboratives:

QUEST® Collaborative. Through our QUEST® Collaborative (QUEST®), we work with our members to identify improvement opportunities and best practices and engage them to participate in performance improvement exercises using identified best practices, to collaborate to define performance goals and to use healthy competition to drive performance improvement. QUEST® builds on the past success of our partnership with CMS in the Premier Hospital Quality Incentive Demonstration, a value-based purchase program through which CMS awarded bonus payments to hospitals for high quality in several clinical areas and reported quality data on its website. The collaborative currently targets improvements in seven domains, including evidence-based care, cost and efficiency of care, patient and family engagement, safety, mortality and appropriate hospital use and community health. As of June 30, 2015, QUEST® had approximately 370 participating U.S. hospitals working together and utilizing our SaaS informatics products to develop highly standardized quality, safety and cost metrics. QUEST® seeks to develop next-generation quality, safety and cost metrics with a consistency and standardization we do not believe exists today. We believe that our members who participate in QUEST® are better prepared to deal with healthcare reform requirements and, by improving in the seven domains referenced above, can earn Medicare incentives, avoid Medicare penalties and better manage reimbursement cuts.

Bundled Payment Collaborative. Our Bundled Payment Collaborative assists our members in their participation in the CMS Bundled Payments for Care Improvement Initiative, an initiative by which organizations enter into payment arrangements that include financial and performance accountability for episodes of care. Our Bundled Payment Collaborative offers ongoing analysis of our members' Medicare Part A and Medicare Part B data, dashboards for managing bundled payment programs and gainsharing, in addition to providing knowledge, expertise, and best practices from experts and members.

PACT™-Partnership for Care Transformation Collaboratives. Our Partnership for Care Transformation Collaborative, or PACT™ Collaborative, is focused on helping members develop effective models of care for connected groups of providers who take responsibility for improving the health status, efficiency and experience of care for a defined population (i.e., accountable care organizations). Our PACT™ Collaborative provides members with the opportunity to share accountable care developmental strategies, programs, and other best practices. The collaborative provides valuable assistance to members in developing the tools necessary to manage the health of a population and to exchange knowledge with each other and with industry and government experts.

Partnership for Patients Collaborative. We participated in the CMS-established Partnership for Patients initiative, a public-private collaborative working to improve the quality, safety and affordability of healthcare. Physicians, nurses, hospitals, employers, patients and their advocates, and the federal and state governments have joined together to form Partnership for Patients to decrease preventable hospital-acquired conditions and readmissions. Our Hospital Engagement Network (HEN) serves as a mobile classroom with Clinical Improvement Advisors (CIAs). In December 2014, CMS terminated the Partnership for Patients initiative.

Data Alliance Collaborative. A group of the nation's leading health systems have launched the Data Alliance Collaborative to ensure that healthcare providers have the technology and analytics in place to improve quality and lower costs. These forward-thinking providers are working together with Premier to disrupt the way healthcare information technology is developed. Data Alliance Collaborative members are using integrated data (e.g., clinical, claims, labor, supply chain, administrative, financial, patient experience, genomics, etc.) to develop new insights and

answer the complex questions driven by the transformation to population-based care. They are innovating collaboratively to meet their current needs and are creating the conceptual and technical foundation that enables them to respond nimbly to an uncertain future.

Advisory Services. Our advisory services, provided through Premier Performance Partners, seek to drive change and improvement in cost reduction, quality of care and patient safety. Premier Performance Partners offers expertise and capabilities in the following areas: clinical, financial and operational performance, facilities and capital asset management, organizational transformation, physician preference items, reform readiness assessment, service line improvement, strategic and business planning and supply chain transformation.

Using various specialists and advisors, we provide wrap-around services for our major SaaS informatics products and our GPO to enhance the member value from these programs. Certain of these specialists, called performance partners,

drive clinical, financial and operational improvement through the use of our SaaS informatics products. For example, our clinical performance partners provide U.S. hospitals with access to performance improvement and operational specialists. Using our informatics tools and applications, these clinical performance partners mine data for improvement opportunities and then lead or assist with improvement projects in such areas as resource and operational assessments, process improvement, performance improvement monitoring, strategic planning and knowledge transfer for organizational change. U.S. hospitals contract for clinical, financial and/or operational performance partner support for a given number of days per month, with contracts lasting from one to five years in duration.

We provide a data-driven approach and expertise to deliver guaranteed results in reducing costs, increasing margin and improving quality. Our consultants offer consultative services in the following areas: care coordination and physician engagement, clinical and operational performance, facilities and capital asset management, organizational transformation, physician preference items (PPI), population health operations and analytics, purchased services assessment, reform readiness, revenue cycle management and RAC readiness, service line improvement, strategic and business planning and supply chain transformation. We use an income statement method to address every area affecting the member's bottom line, finding opportunities in both revenue enhancement and expense management.

Insurance Services. We provide insurance programs and services to assist U.S. hospital and healthcare system members with liability and benefits insurance services, along with risk management services. We design insurance programs and services for our members to improve their quality, patient safety and financial performance while lowering costs. We provide management services for American Excess Insurance Exchange, Risk Retention Group, a reciprocal risk retention group that provides excess hospital, professional, umbrella and general liability insurance to certain U.S. hospital and healthcare system members. We also negotiate the purchase of other insurance products from commercial insurance carriers on behalf of our members.

Pricing and Contracts

We generate revenue from our supply chain services segment through fees received from suppliers based on the total dollar volume of supplies purchased by our members in connection with our GPO programs and through product sales in connection with our specialty pharmacy and direct sourcing activities. Our performance services segment has three main sources of revenue: (i) three to five-year subscription agreements to our SaaS informatics products, (ii) annual subscriptions to our performance improvement collaboratives, and (iii) professional fees for our advisory services.

Supply Chain Services

In connection with the Reorganization and IPO, our member owners entered into GPO participation agreements with Premier LP which became effective upon the completion of the Reorganization and the IPO. Pursuant to the terms of its GPO participation agreement, each of these member owners receive revenue share from Premier LP equal to 30% of all gross administrative fees collected by Premier LP based upon purchasing by such member owner's member facilities through our GPO supplier contracts. In addition, our two largest regional GPO member owners, which represented approximately 16% of our gross administrative fees revenue for fiscal year 2015, each remit all gross administrative fees collected by such member owner based upon purchasing by such member owner's member facilities through the member owner's own GPO supplier contracts and receive revenue share from Premier LP equal to 30% of such gross administrative fees remitted to us. Subject to certain termination rights, these GPO participation agreements are for an initial five-year term, although our two largest regional GPO member owners have entered into agreements with seven-year terms. The terms of the GPO participation agreements vary as a result of provisions in our existing arrangements with member owners that conflict with the terms of the GPO participation agreement and which by the express terms of the GPO participation agreement are incorporated by reference and deemed controlling and will continue to remain in effect. In limited circumstances, Premier LP and certain member owners entered into GPO

participation agreements with certain terms that vary from the standard form, which were approved by the member agreement review committee of our board of directors, based upon regulatory constraints, pending merger and acquisition activity or other exigent circumstances affecting those member owners. Historically, certain non-owner members have operated under, and following the completion of the Reorganization and IPO, continue to operate under, contractual relationships that provide for a specific revenue share that differs from the 30% revenue share that we provide to our member owners under the current GPO participation agreements following the Reorganization.

In our specialty pharmacy, we earn revenue from product sales and other services. Revenues are earned through traditional pharmacy dispensing services (i.e., retail and mail order), as well as “specialty pharmacy” services, including administrative coordination, patient care management, and data management reporting functions. Our specialty pharmacy contracts generally range from one to three years in length and, except for exclusive networks, there are generally no guaranteed sales associated with a payer network contract.

In our direct sourcing activities, we earn revenue from product sales. Products are sold to our members through direct shipment and distributor and wholesale channels. Products are also sold to regional medical-surgical distributors and other non-healthcare industries (i.e., foodservice). We have contracts with our members that buy products through our direct shipment option. These contracts do not usually provide a guaranteed purchase or volume commitment requirement.

Performance Services

SaaS informatics products subscriptions include the right to use our proprietary hosted technology on a SaaS basis, training and member support to deliver improvements in cost management, quality and safety, population health management and provider analytics. Pricing varies by subscription and size of the subscriber. Informatics subscriptions are generally three to five-year agreements with automatic renewal clauses and annual price escalators that typically do not allow for early termination. These agreements do not allow for physical possession of the software. Subscription fees are typically billed on a monthly basis and revenue is recognized as a single deliverable on a straight-line basis over the remaining contractual period following implementation. Implementation involves the completion of data preparation services that are unique to each member's data set and, in certain cases, the installation of member site-specific software, in order to access and transfer member data into our hosted SaaS informatics products. Implementation is generally 100 to 170 days following contract execution before the SaaS informatics products can be fully utilized by the member.

Performance improvement collaborative and other service subscription revenue to support our offerings in cost management, quality and safety and population health management is recognized over the service period, which is generally one year.

Professional fees for advisory services are sold under contracts, the terms of which vary based on the nature of the engagement. Fees are billed as stipulated in the contract, and revenue is recognized on a proportional performance method as services are performed and deliverables are provided. In situations where the contracts have significant contract performance guarantees or member acceptance provisions, revenue recognition occurs when the fees are fixed and determinable and all contingencies, including any refund rights, have been satisfied. Fees are based either on time and materials or the savings that are delivered.

Sales

We conduct sales through our embedded field force, our dedicated national sales team and our Premier Performance Partners advisors, collectively comprised of approximately 550 employees as of June 30, 2015.

Our field force works closely with our U.S. hospital members and other members to target new opportunities by developing strategic and operational plans to drive cost management and quality and safety improvement initiatives. As of June 30, 2015, our field force was deployed to nine regions across the United States. This field force works at our member sites to identify and recommend best practices for both supply chain and clinical integration cost savings opportunities. The regionally deployed field force is augmented by a national team of subject matter specialists who focus on key areas such as lab, surgery, cardiology, orthopedics, imaging, pharmacy, information technology and construction. Our field force assists our members in growing and supporting their alternate site membership.

Our sales team provides national sales coverage for establishing initial member relationships and works with our field force to increase sales to existing members. Our regional sales teams are aligned with the nine regions in our field force model.

Our Premier Performance Partners team identifies and targets advisory engagements and wrap-around services for our major SaaS informatics products and our GPO to enhance the member value from these programs.

Intellectual Property

We offer our members a range of products to which we own intellectual property rights, including online services, best practices content, databases, electronic tools, web-based applications, performance metrics, business methodologies, proprietary algorithms, software products and advisory services deliverables. We own and control a variety of trade secrets, confidential information, trademarks, trade names, copyrights, domain names and other intellectual property rights that, in the aggregate, are of material importance to our business.

We protect our intellectual property by relying on federal, state and common law rights, as well as contractual arrangements. We are licensed to use certain technology and other intellectual property rights owned and controlled by others, and, similarly, other companies are licensed to use certain technology and other intellectual property rights owned and controlled by us.

Research and Development

Our research and development, or R&D, expenditures primarily consist of our strategic investment in internally developed software to further our initiatives, and new product development in the areas of cost management, quality and safety and population health management. We have also made significant investments in our SaaS informatics product offerings. We expensed \$2.9 million, \$3.4 million and \$9.4 million for R&D activities for fiscal years 2015, 2014 and 2013, respectively, and capitalized software development costs of \$57.9 million, \$41.1 million and \$31.3 million for fiscal years 2015, 2014 and 2013, respectively. We experience fluctuations in our research and development expenditures, including capitalized software development costs, across reportable periods due to the timing of our software development life cycles, with new product features and functionality, new technologies and upgrades to our service offerings.

Competition

The markets for our products and services in both our supply chain services segment and performance services segment are fragmented, intensely competitive and characterized by rapidly evolving technology and product standards, user needs and the frequent introduction of new products and services. We have experienced and expect to continue to experience intense competition from a number of companies.

The primary competitors to our supply chain services segment are other large GPOs such as HealthTrust Purchasing Group (a subsidiary of HCA Holdings, Inc.), Managed Health Care Associates, Inc., MedAssets, Inc. and Novation LLC. In addition, we compete against certain healthcare provider-owned GPOs in this segment. Our specialty pharmacy competes with Caremark Inc. (owned by CVS Caremark Corporation), Curascript, Inc./Accredo (owned by Express Scripts Holding Co.), Diplomat Specialty Pharmacy and many smaller local specialty pharmacies. Finally, our direct sourcing activities compete primarily with private label offerings/programs, product manufacturers and distributors, such as Cardinal Health, Inc., McKesson Corporation, Medline Industries, Inc. and Owens & Minor, Inc.

The competitors in our performance services segment range from smaller niche companies to large, well-financed and technologically-sophisticated entities. Our primary competitors in this segment include (i) information technology providers such as Allscripts Healthcare Solutions, Inc., Caradigm USA LLC, Cerner Corporation, Epic Systems Corporation, McKesson Corporation, Oracle Corporation and Truven Health Analytics Inc., and (ii) consulting and outsourcing firms such as The Advisory Board Company, Deloitte & Touche LLP, Evolent Health, Inc., Healthagen, LLC (a subsidiary of Aetna, Inc.), Huron Consulting, Inc., Navigant Consulting, Inc. and Optum, Inc. (a subsidiary of UnitedHealth Group, Inc.).

With respect to our products and services across both segments, we compete on the basis of several factors, including breadth, depth and quality of product and service offerings, ability to deliver clinical, financial and operational performance improvements through the use of products and services, quality and reliability of services, ease of use and convenience, brand recognition and the ability to integrate services with existing technology. With respect to our products and services across both of our business segments, we also compete on the basis of price.

Government Regulation

General

The healthcare industry is highly regulated by federal and state authorities and is subject to changing political, economic and regulatory influences. Factors such as changes in reimbursement policies for healthcare expenses, consolidation in the healthcare industry, regulation, litigation and general economic conditions affect the purchasing practices, operations and the financial health of healthcare organizations. In particular, changes in regulations

affecting the healthcare industry, such as increased regulation of the purchase and sale of medical products, or restrictions on permissible discounts and other financial arrangements, could require us to make unplanned modifications of our products and services, result in delays or cancellations of orders or reduce funds and demand for our products and services.

We are subject to numerous risks arising from governmental oversight and regulation. You should carefully review the following discussion and the risks discussed under “Item 1A - Risk Factors” for a more detailed discussion.

Affordable Care Act

In March 2010, President Obama signed into law the Patient Protection and Affordable Care Act, or PPACA, as amended by the Health Care and Education and Reconciliation Act of 2010, collectively referred to with the PPACA as the Affordable Care Act. The Affordable Care Act is a sweeping measure designed to expand access to affordable health insurance, control healthcare

spending, and improve healthcare quality. The law includes provisions to tie Medicare provider reimbursement to healthcare quality and incentives, mandatory compliance programs, enhanced transparency disclosure requirements, increased funding and initiatives to address fraud and abuse, and incentives to state Medicaid programs to promote community-based care as an alternative to institutional long-term care services. In addition, the law provides for the establishment of a national voluntary pilot program to bundle Medicare payments for hospital and post-acute services, which could lead to changes in the delivery of healthcare services. Likewise, many states have adopted or are considering changes in healthcare policies in part due to state budgetary shortfalls. The timetable for implementing many provisions of the Affordable Care Act remains unsettled, and we do not know what effect the federal Affordable Care Act or state law proposals may have on our business.

Civil and Criminal Fraud and Abuse Laws

We are subject to federal and state laws and regulations designed to protect patients, governmental healthcare programs and private health plans from fraudulent and abusive activities. These laws include anti-kickback restrictions and laws prohibiting the submission of false or fraudulent claims. These laws are complex and their application to our specific products, services and relationships may not be clear and may be applied to our business in ways that we do not anticipate. Federal and state regulatory and law enforcement authorities have over time increased enforcement activities with respect to Medicare and Medicaid fraud and abuse regulations and other reimbursement laws and rules. These laws and regulations include:

Anti-Kickback Laws. The federal Anti-Kickback Statute prohibits the knowing and willful offer, payment, solicitation or receipt of remuneration, directly or indirectly, in return for the referral of patients or arranging for the referral of patients, or in return for the recommendation, arrangement, purchase, lease or order of items or services that are covered, in whole or in part, by a federal healthcare program such as Medicare or Medicaid. The definition of "remuneration" has been broadly interpreted to include anything of value such as gifts, discounts, rebates, waiver of payments or providing anything at less than its fair market value. Many states have adopted similar prohibitions against kickbacks and other practices that are intended to influence the purchase, lease or ordering of healthcare items and services regardless of whether the item or service is covered under a governmental health program or private health plan. Certain statutory and regulatory safe harbors exist that protect specified business arrangements from prosecution under the Anti-Kickback Statute if all elements of an applicable safe harbor are met, however these safe harbors are narrow and often difficult to comply with. Congress has appropriated an increasing amount of funds in recent years to support enforcement activities aimed at reducing healthcare fraud and abuse.

The U.S. Department of Health and Human Services, or HHS, created certain safe harbor regulations which, if fully complied with, assure parties to a particular arrangement covered by a safe harbor that they will not be prosecuted under the Anti-Kickback Statute. We attempt to structure our group purchasing services, pricing discount arrangements with suppliers, and revenue share arrangements with applicable members to meet the terms of the safe harbor for GPOs set forth at 42 C.F.R. § 1001.952(j) and the discount safe harbor set forth at 42 C.F.R. § 1001.952(h). Although full compliance with the provisions of a safe harbor ensures against prosecution under the Anti-Kickback Statute, failure of a transaction or arrangement to fit within a safe harbor does not necessarily mean that the transaction or arrangement is illegal or that prosecution under the Anti-Kickback Statute will be pursued. From time to time, HHS, through its Office of Inspector General, makes formal and informal inquiries, conducts investigations and audits the business practices of GPOs, including our GPO, the result of which could be new rules, regulations or in some cases, a formal enforcement action.

To help ensure regulatory compliance with HHS rules and regulations, our members that report their costs to Medicare are required under the terms of the Premier Group Purchasing Policy to appropriately reflect all elements of value received in connection with our Reorganization and IPO on their cost reports. We are required to furnish applicable reports to such members setting forth the amount of such value, to assist their compliance with such cost

reporting requirements. There can be no assurance that the HHS Office of Inspector General or the U.S. Department of Justice, or DOJ, will concur that these actions satisfy their applicable rules and regulations.

False Claims Act. Our business is also subject to numerous federal and state laws that forbid the submission or "causing the submission" of false or fraudulent information or the failure to disclose information in connection with the submission and payment of claims for reimbursement to Medicare, Medicaid, other federal healthcare programs or private health plans. In particular, the False Claims Act, or FCA, prohibits a person from knowingly presenting or causing to be presented a false or fraudulent claim for payment or approval by an officer, employee or agent of the United States. In addition, the FCA prohibits a person from knowingly making, using, or causing to be made or used a false record or statement material to such a claim. Violations of the FCA may result in treble damages, significant monetary penalties, and other collateral consequences including, potentially, exclusion from participation in federally funded healthcare programs. The scope and implications of the amendments to the FCA pursuant to the Fraud Enforcement and Recovery Act, or FERA, have yet to be fully determined or adjudicated and as a result it is difficult to predict how future enforcement initiatives may impact our business. Pursuant to the 2010 healthcare reform legislation,

a claim that includes items or services resulting from a violation of the Anti-Kickback Statute constitutes a false or fraudulent claim for purposes of the FCA.

Privacy and Security Laws. The Health Insurance Portability and Accountability Act, or HIPAA, contains substantial restrictions and requirements with respect to the use and disclosure of individually identifiable health information, referred to as "protected health information." The HIPAA Privacy Rule prohibits a covered entity or a business associate (essentially, a third party engaged to assist a covered entity with enumerated operational and/or compliance functions) from using or disclosing protected health information unless the use or disclosure is validly authorized by the individual or is specifically required or permitted under the Privacy Rule and only if certain complex requirements are met. In addition to establishing these complex requirements, covered entities and business associates must also meet additional compliance obligations set forth in the Privacy Rule. In addition, the HIPAA Security Rule establishes administrative, organization, physical and technical safeguards to protect the privacy, integrity and availability of electronic protected health information maintained or transmitted by covered entities and business associates. The HIPAA Security Rule requirements are intended to mandate that covered entities and business associates regularly re-assess the adequacy of their safeguards in light of changing and evolving security risks. Finally, the HIPAA Breach Notification Rule requires that covered entities and business associates, under certain circumstances, notify patients/beneficiaries and HHS when there has been an improper use or disclosure of protected health information.

Our specialty pharmacy, our self-funded health benefit plan and our healthcare provider members (provided that these members engage in HIPAA-defined standard electronic transactions with health plans, which will be all or the vast majority) are directly regulated by HIPAA as "covered entities." From time to time, as part of our specialty pharmacy business, certain of our affiliates act as business associates of retail and other pharmacies in connection with co-branding initiatives. As such, we are subject to HIPAA and other risks discussed herein associated with being a business associate. Additionally, because most of our U.S. hospital members disclose protected health information to us so that we may use that information to provide certain data analytics, benchmarking, advisory or other operational and compliance services to these members, we are a "business associate" of those members. In these cases, in order to provide members with services that involve the use or disclosure of protected health information, HIPAA require us to enter into "business associate agreements" with our covered entity members. Such agreements must, among other things, provide adequate written assurances:

- (i) as to how we will use and disclose the protected health information within certain allowable parameters established by HIPAA,
- (ii) that we will implement reasonable administrative, organizational, physical and technical safeguards to protect such information from misuse,
- (iii) that we will enter into similar agreements with our agents and subcontractors that have access to the information,
- (iv) that we will report security incidents and other inappropriate uses or disclosures of the information, and
- (v) that we will assist the covered entity with certain of its duties under HIPAA.

With the enactment of the Health Information Technology for Economic and Clinical Health, or HITECH Act, the privacy and security requirements of HIPAA were modified and expanded. The HITECH Act applies certain of the HIPAA privacy and security requirements directly to business associates of covered entities. Prior to this change, business associates had contractual obligations to covered entities but were not subject to direct enforcement by the federal government. On January 17, 2013, HHS released final rules implementing the HITECH Act changes to HIPAA. These amendments expand the protection of protected health information by, among other things, imposing additional requirements on business associates, further restricting the disclosure of protected health information in certain cases when the disclosure is part of a remunerated transaction, and modifying the HIPAA Breach Notification Rule, which has been in effect since September 2009, to create a rebuttable presumption that any improper use or disclosure of protected health information requires notice to affected patients/beneficiaries and HHS. The 2013 final

rule became effective on March 26, 2013 and the compliance date for most provisions was September 23, 2013. The modifications to the HIPAA Breach Notification Rule requirements are currently effective and being enforced.

Transaction Requirements. HIPAA also mandates format, data content and provider identifier standards that must be used in certain electronic transactions, such as claims, payment advice and eligibility inquiries. Although our systems are fully capable of transmitting transactions that comply with these requirements, some payers and healthcare clearinghouses with which we conduct business may interpret HIPAA transaction requirements differently than we do or may require us to use legacy formats or include legacy identifiers as they make the transition to full compliance. In cases where payers or healthcare clearinghouses require conformity with their interpretations or require us to accommodate legacy transactions or identifiers as a condition of successful transactions, we attempt to comply with their requirements, but may be subject to enforcement actions as a result. In January 2009, CMS published a final rule adopting updated standard code sets for diagnoses and procedures known as ICD-10 code sets. A separate final rule also published by CMS in January 2009 resulted in changes to the formats to be used for electronic transactions

subject to the ICD-10 code sets, known as Version 5010. As of March 31, 2012, healthcare providers are required to comply with Version 5010. Use of the ICD-10 code sets is not mandated until October 1, 2015. We are actively working to make the proper modifications in preparation for the implementation of ICD-10.

Other Federal and State Laws. In addition to our obligations under HIPAA there are other federal laws that impose specific privacy and security obligations, above and beyond HIPAA, for certain types of health information and impose additional sanctions and penalties. These rules are not preempted by HIPAA. Most states have enacted patient and/or beneficiary confidentiality laws that protect against the disclosure of confidential medical information, and many states have adopted or are considering adopting further legislation in this area, including privacy safeguards, security standards, data security breach notification requirements, and special rules for so-called "sensitive" health information, such as mental health, genetic testing results, or Human Immunodeficiency Virus, or HIV, status. These state laws, if more stringent than HIPAA requirements, are not preempted by the federal requirements, and we are required to comply with them as well.

We are unable to predict what changes to HIPAA or other federal or state laws or regulations might be made in the future or how those changes could affect our business or the associated costs of compliance. For example, the federal Office of the National Coordinator for Health Information Technology, or ONCHIT, is coordinating the development of national standards for creating an interoperable health information technology infrastructure based on the widespread adoption of electronic health records in the healthcare sector. We are yet unable to predict what, if any, impact the creation of such standards and the further developments at ONCHIT will have on the necessary specifications or demand for our products, services, or on associated compliance costs.

Antitrust Laws

The Sherman Antitrust Act and related federal and state antitrust laws prohibit contracts in restraint of trade or other activities that are designed to or that have the effect of reducing competition in the market. The federal antitrust laws promote fair competition in business and are intended to create a level playing field so that both small and large companies are able to compete in the market. The antitrust laws are complex laws that generally prohibit conspiracies and agreements between competitors that can unreasonably restrain trade. In their 1996 Statements of Antitrust Enforcement Policy in Health Care, first issued in 1993, or the Healthcare Statements, the DOJ and the Federal Trade Commission, or FTC, set forth guidelines specifically designed to help GPOs gauge whether a particular purchasing arrangement may raise antitrust concerns and established an antitrust safety zone for joint purchasing arrangements among healthcare providers. Under this antitrust safety zone, the DOJ and FTC will not challenge, except in extraordinary circumstances, joint purchasing arrangements among healthcare providers that meet two basic conditions: (i) the purchases made by the healthcare providers account for less than 35% of the total sales of the purchased product or service in the relevant market; and (ii) the cost of the products and services purchased jointly account for less than 20% of the total revenues from all products and services sold by each competing participant in the joint purchasing arrangement.

We have attempted to structure our contracts and pricing arrangements in accordance with the Healthcare Statements and believe that our GPO supplier contracts and pricing discount arrangements should not be found to violate the antitrust laws. However, no assurance can be given that enforcement authorities will agree with this assessment. From time to time, the group purchasing industry comes under review by congress and other governmental bodies with respect to antitrust laws. In connection with the 2002 hearing by the U.S. Senate Judiciary Subcommittee on Antitrust, Competition Policy and Consumer Rights, we and other operators of GPOs formed the Healthcare Supply Chain Association, or HSCA, which developed a code of conduct to assure compliance with ethical and legal standards, including the antitrust laws. In addition, in 2002 we adopted our own Code of Conduct in consultation with a leading ethicist.

On August 11, 2009, we and several other operators of GPOs received a letter from Senators Charles Grassley, Herb Kohl and Bill Nelson requesting information concerning the different relationships between and among us and our members, distributors, manufacturers and other suppliers, and requesting certain information about the services we perform and the payments we receive in connection with our GPO programs. On September 25, 2009, we and several other operators of GPOs received a request for information from the U.S. Government Accountability Office, or GAO, also concerning our services and relationships with our members in connection with our GPO programs. Subsequently, we and other operators of GPOs received follow-up requests for additional information. We fully complied with all of these requests. On September 27, 2010, the GAO released a report titled "Group Purchasing Organizations-Services Provided to Customers and Initiatives Regarding Their Business Practices." On that same day, the Minority Staff of the U.S. Senate Finance Committee released a report titled "Empirical Data Lacking to Support Claims of Savings with Group Purchasing Organizations." On March 30, 2012, the GAO released a report titled "Group Purchasing Organizations-Federal Oversight and Self-Regulation." On November 24, 2014, the GAO released a report titled "Funding Structure Has Potential Implications for Medicare Costs."

Congress, the DOJ, the FTC, the U.S. Senate or another state or federal entity could at any time open a new investigation of the group purchasing industry, or develop new rules, regulations or laws governing the industry, that could adversely impact our

ability to negotiate pricing arrangements with suppliers, increase reporting and documentation requirements, or otherwise require us to modify our arrangements in a manner that adversely impacts our business. We may also face private or government lawsuits alleging violations arising from the concerns articulated by these governmental actors.

During the past 15 years, we have been named as a defendant in lawsuits brought by suppliers of medical products. Typically, these lawsuits have alleged the existence of a conspiracy among manufacturers of competing products and operators of GPOs, including us, to deny the plaintiff access to a market for its products. No such litigation is currently pending.

Governmental Audits

Because we act as a GPO for healthcare providers that participate in governmental programs, our group purchasing services have in the past and may again in the future be subject to periodic surveys and audits by governmental entities or contractors for compliance with Medicare and Medicaid standards and requirements. We will continue to respond to these government reviews and audits but cannot predict what the outcome of any future audits may be or whether the results of any audits could significantly or negatively impact our business, our financial condition or results of operations.

Compliance Department

We have developed a compliance program that is designed to monitor that our operations are conducted in compliance with applicable laws and regulations and, if violations occur, to promote early detection and prompt resolution. These objectives are achieved through education, monitoring, disciplinary action and other remedial measures we believe to be appropriate. We provide all of our employees with a compliance manual that has been developed to communicate our code of conduct, standards of conduct, and compliance policies and procedures, as well as policies for monitoring, reporting and responding to compliance issues. We also provide all of our employees with a toll-free number and Internet website address in order to report any compliance or privacy concerns. In addition, our Chief Ethics and Compliance Officer individually, and along with the Audit and Compliance Committee of the Board of Directors, helps oversee compliance and ethics matters across our business operations.

Employees

As of June 30, 2015, we employed approximately 1,800 persons, approximately 51% of whom are based in our headquarters in Charlotte, North Carolina. None of our employees are working under a collective bargaining arrangement.

Available Information

We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange

Commission (the "SEC"). You may read and copy the documents that we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You may obtain further information about the operation of the SEC's Public Reference Room by calling the SEC at 1-800-SEC-0330. You may also inspect these reports and other information without charge at a website maintained by the SEC. The address of this site is <https://www.sec.gov>. In addition, our website address is www.premierinc.com. We make available through our website the documents identified above, free of charge, promptly after we electronically file such material with, or furnish it to, the SEC.

We also provide information about our company through: Twitter (<https://twitter.com/premierha>), Facebook (<https://www.facebook.com/premierhealthcarealliance>), LinkedIn (<https://www.linkedin.com/company/6766>),

YouTube (<https://www.youtube.com/user/premieralliance>), Instagram (<https://instagram.com/premierha>), Foursquare (<https://foursquare.com/premierha>) and Premier's blog (<https://actionforbetterhealthcare.com>).

Except as specifically indicated otherwise, the information available on our website, the SEC's website and the social media outlets identified above, is not and shall not be deemed a part of this Annual Report.

Item 1A. Risk Factors

Our business, operations, and financial position are subject to various risks. An investment in our Class A common stock involves a degree of risk. Before evaluating our Company or making an investment in our Class A common stock, you should carefully consider the following risks, as well as the other information contained in this annual report. Any of the risks described below could materially harm our business, financial condition, results of operations and prospects, and as a result, the trading price of our Class A common stock could decline, and you may lose part or all of your investment. This section does not describe all risks that are or may become applicable to us, our industry, or our business, and it is intended only as a summary of certain material risk factors. Some statements in this annual report, including such statements in the following risk factors, constitute forward looking statements. See the section entitled “Cautionary Note Regarding Forward Looking Statements.” More detailed information concerning other risk factors as well as those described below is contained in other sections of this annual report.

Risks Related to Our Business

We face intense competition, which could limit our ability to maintain or expand market share within our industry, and if we do not maintain or expand our market share our business and operating results will be harmed.

We deliver products and services through two business segments: supply chain services and performance services. The market for our products and services in each segment is fragmented, intensely competitive and characterized by rapidly evolving technology and product standards, user needs and the frequent introduction of new products and services.

The primary competitors to our supply chain services segment are other large GPOs such as HealthTrust Purchasing Group (a subsidiary of HCA Holdings, Inc.), Managed Health Care Associates, Inc., MedAssets, Inc. and Novation LLC. In addition, we compete against certain healthcare provider owned GPOs in this segment. Our specialty pharmacy competes with Caremark Inc. (owned by CVS Caremark Corporation), Curascript, Inc./Accredo (owned by Express Scripts Holding Co.), Diplomat Specialty Pharmacy and many smaller local specialty pharmacies. Finally, our direct sourcing activities compete primarily with private label offerings/programs, product manufacturers and distributors, such as Cardinal Health, Inc., McKesson Corporation, Medline Industries, Inc. and Owens & Minor, Inc.

The competitors in our performance services segment range from smaller niche companies to large, well-financed and technologically sophisticated entities. Our primary competitors in this segment include (i) information technology providers such as Allscripts Healthcare Solutions, Inc., Caradigm USA LLC, Cerner Corporation, Epic Systems Corporation, McKesson Corporation, Oracle Corporation and Truven Health Analytics Inc., and (ii) consulting and outsourcing firms such as The Advisory Board Company, Deloitte & Touche LLP, Evolent Health, Inc., Healthagen, LLC (a subsidiary of Aetna, Inc.), Huron Consulting, Inc., Navigant Consulting, Inc. and Optum, Inc. (a subsidiary of UnitedHealth Group, Inc.).

With respect to our products and services across both segments, we compete on the basis of several factors, including breadth, depth and quality of product and service offerings, ability to deliver clinical, financial and operational performance improvement through the use of products and services, quality and reliability of services, ease of use and convenience, brand recognition and the ability to integrate services with existing technology. Some of our competitors are more established, benefit from greater name recognition, have larger member bases and have substantially greater financial, technical and marketing resources. Other of our competitors have proprietary technology that differentiates their product and service offerings from ours. As a result of these competitive advantages, our competitors and potential competitors may be able to respond more quickly to market forces, undertake more extensive marketing campaigns for their brands, products and services, and make more attractive offers to our members.

With respect to our products and services across both of our segments, we also compete on the basis of price. We may be subject to pricing pressures as a result of, among other things, competition within the industry, consolidation of healthcare industry participants, practices of managed care organizations, government action affecting reimbursement and financial stress experienced by our members. If our pricing experiences significant downward pressure, our business will be less profitable and our results of operations will be adversely affected.

We cannot be certain that we will be able to retain our current members or expand our member base in this competitive environment. If we do not retain current members or expand our member base, our business, financial condition and results of operations will be harmed. Moreover, we expect that competition will continue to increase as a result of consolidation in both the healthcare information technology and healthcare industries. If one or more of our competitors or potential competitors were to merge or partner with another of our competitors, the change in the competitive landscape could also adversely affect our ability to compete effectively and could harm our business, financial condition and results of operations.

Consolidation in the healthcare industry could have a material adverse effect on our business, financial condition and results of operations.

Many healthcare industry participants are consolidating to create larger and more integrated healthcare delivery systems with greater market power. We expect regulatory and economic conditions to force additional consolidation in the healthcare industry in the future. As consolidation accelerates, the economies of scale of our members' organizations may grow. If a member experiences sizable growth following consolidation, it may determine that it no longer needs to rely on us and may reduce its demand for our products and services. Some of these large and growing healthcare systems may choose to contract directly with suppliers for certain supply categories, and some suppliers may seek to contract directly with the healthcare providers rather than with GPOs such as ours. In connection with any consolidation, certain of our members may also move their business to another GPO. In addition, as healthcare providers consolidate to create larger and more integrated healthcare delivery systems with greater market power, these providers may try to use their market power to negotiate fee reductions for our products and services across both of our business segments. Finally, consolidation may also result in the acquisition or future development by our members of products and services that compete with our products and services. Any of these potential results of consolidation could have a material adverse effect on our business, financial condition and results of operations.

We may experience significant delays in, or an inability to increase, revenue if the sales cycle with potential new members takes longer than anticipated.

A key element of our strategy is to market the various products and services in our supply chain services and performance services segments directly to healthcare providers, such as health systems and acute care hospitals, and to increase the number of our products and services utilized by existing members. The evaluation process is often lengthy and involves significant technical evaluation and commitment of personnel by these organizations. Further, the evaluation process depends on a number of factors, many of which we may not be able to control, including potential new members' internal approval processes, budgetary constraints for technology spending, member concerns about implementing new procurement methods and strategies and other timing effects. If we experience an extended or delayed sales cycle in connection with the sale of additional products and services to existing or new members, it could have a material adverse effect on our business, financial condition and results of operations.

Member participation in our GPO programs may be terminated with limited or no notice and/or without significant termination payments. If our members reduce activity levels or terminate or elect not to renew their contracts, our revenue and results of operations may decrease materially.

In connection with the Reorganization, we entered into new GPO participation agreements with all of our member owners existing immediately prior to the completion of the Reorganization. These GPO participation agreements are generally terminable at any time by either party, upon one year's prior written notice, in the event of a change of control of the member owner, and are also terminable for convenience upon one year's prior written notice, at any time after the second anniversary of the beginning of the applicable term, as well as terminable for cause under certain circumstances (including, due to a material breach of the terms of the GPO participation agreement). Also, in the event that a member owner ceases to be a party to a GPO participation agreement (except in certain limited circumstances), Premier LP will have the option to redeem all of such member owner's Class B common units pursuant to an exchange agreement (the "Exchange Agreement") at a purchase price set forth in the LP Agreement. Our success in retaining member participation in our GPO programs depends upon our reputation, strong relationships with such members and our ability to deliver consistent, reliable and high quality products and services. We believe that establishing and maintaining a good professional reputation and name recognition are critical for attracting and retaining member participation in our GPO programs. Promotion and enhancement of our name will depend largely on our success in continuing to provide high quality products and services. Therefore, our brand name and reputation will

suffer if members do not perceive our products and services to be effective or of high quality or if there are inaccuracies or defects in our solutions.

Members may also seek to reduce, cancel or elect not to renew their contracts due to factors that are beyond our control and are unrelated to our performance, including their business or financial condition, changes in their strategies or business plans or economic conditions in general.

When contracts are reduced, cancelled or not renewed for any reason, we lose the anticipated future revenue associated with such contracts and, consequently, our revenue and results of operations may decrease materially. Additionally, the loss of any of our members could negatively impact our membership driven business model strategy.

Our business strategy that involves reducing the prices for certain products and services in our supply chain services segment may not be successful, which could have a material adverse effect on our business, financial condition and results of operations.

In order to maintain and develop new relationships with members in our supply chain services segment, we look for ways to reduce the prices that they pay for products and services. However, success in serving the members by reducing the prices they pay suppliers for products and services will reduce the administrative fees we receive in respect of such transactions that correlate to such prices.

In order to maintain or increase our revenues and margins while implementing these strategies, we would have to increase sales volumes of existing products and services or introduce and sell new products and services in amounts sufficient to compensate for the reduced revenue effect of price reductions. If our competitors in these lines of business similarly reduce or obtain lower prices for their members, as applicable, this may create further financial, operational and strategic challenges. We cannot assure you that our business strategies will be successful, which could have a material adverse effect on our business, financial condition and results of operations.

The markets for our non-GPO services and products may develop more slowly than we expect, which could adversely affect our revenue and our ability to maintain or increase our profitability.

While the products and services in our non-GPO lines of business are becoming more accepted, the market for these products and services remains narrowly based, and it is uncertain whether these products and services will achieve and sustain the high levels of demand and market acceptance we anticipate. Our ability to materially grow our revenues and achieve and sustain profitability will be adversely affected if we are unable to generate sufficient revenue from strategic initiatives relating to businesses other than the GPO business, particularly if those businesses do not grow significantly. We are currently focusing on data analytics and other technology opportunities and our success will depend to a substantial extent on the willingness of existing and potential new members, large and small, to increase their use of our SaaS informatics products. Many companies have invested substantial personnel and financial resources to integrate established enterprise software into their businesses and therefore may be reluctant or unwilling to switch to our services. Furthermore, some companies may be reluctant or unwilling to use our services, because they have concerns regarding the risks associated with the security and reliability of, among other things, the technology delivery model associated with these services. If companies do not perceive the benefits of our services, then the market for these services may not expand as much or develop as quickly as we expect, either of which would significantly adversely affect our business, financial condition and results of operations.

Our members are highly dependent on payments from third party healthcare payers, including Medicare, Medicaid and other government sponsored programs, and reductions or changes in third party reimbursement could adversely affect these members and consequently our business.

Our members derive a substantial portion of their revenue from third party private and governmental payers, including Medicare, Medicaid and other government sponsored programs. Our sales and profitability depend, in part, on the extent to which coverage of and reimbursement for our products and services our members purchase or otherwise obtain through us is available to our members from governmental health programs, private health insurers, managed care plans and other third party payers. These third party payers are increasingly using their enhanced bargaining power to secure discounted reimbursement rates and may impose other requirements that adversely impact our members' ability to obtain adequate reimbursement for our products and services.

If third party payers do not approve products for reimbursement or fail to reimburse for them adequately, our members may suffer adverse financial consequences which, in turn, may reduce the demand for and ability to purchase our products or services. In addition, CMS, which administers the Medicare and federal aspects of state Medicaid

programs, has issued complex rules requiring pharmaceutical manufacturers to calculate and report drug pricing for multiple purposes, including the limiting of reimbursement for certain drugs. These rules generally exclude from the pricing calculation administrative fees paid by drug manufacturers to GPOs to the extent that such fees meet CMS's "bona fide service fee" definition. There can be no assurance that CMS will continue to allow exclusion of GPO administrative fees from the pricing calculation, which could negatively affect the willingness of pharmaceutical manufacturers to pay administrative fees to us. Any such changes, as well as other current and future efforts by payers to limit reimbursement for certain drugs may have an adverse impact on our business, financial condition and results of operations.

Government actions could also limit government spending generally for the Medicare and Medicaid programs, limit payments to healthcare providers, and increase emphasis on competition and other programs that could have an adverse effect on our members. Specifically, CMS may implement a competitive bidding program for selected items paid for by the Medicare program. We cannot predict which products and services we offer will ultimately be affected or whether or when the competitive bidding process will

be extended to our businesses. The implementation of the competitive bidding program could have an adverse impact on our business, financial condition and results of operations.

We rely on the administrative fees we receive from our GPO suppliers and the failure to maintain contracts with these GPO suppliers could adversely affect our business, financial condition and results of operations. A termination of any relationship or agreement with a GPO supplier could also negatively affect our relationships with our members.

Historically, we have derived a substantial amount of our revenue from the administrative fees that we receive from our GPO suppliers. We maintain contractual relationships with these suppliers who provide products and services to our members at reduced costs and who pay us administrative fees based on the dollars spent by our members for such products and services. Therefore, we rely heavily on our relationships with our GPO suppliers. Supplier commitment to our GPO has been, and will continue to be, a crucial element to our supply chain services business model. There can be no assurances that our relationships with our suppliers will continue on existing terms or at all. Our contracts with these GPO suppliers generally may be terminated upon 90 days' notice. A termination of any relationship or agreement with a GPO supplier would result in the loss of administrative fees pursuant to our arrangement with that supplier, which could adversely affect our business, financial condition and results of operations.

If we cannot demonstrate to our suppliers the value of our GPO or other products and services, we may lose contracts or favorable contract terms with our suppliers which may result in our inability to maintain our member agreements or win new business. In addition, if we lose a relationship with a GPO supplier we may not be able to negotiate similar arrangements for our members with other suppliers on the same terms and conditions or at all, which could damage our reputation with our members and, in turn, have a material adverse effect on our business, financial condition and results of operations.

If we are unable to maintain our relationships with third party providers or maintain or enter into new strategic alliances, we may be unable to grow our current base business.

Our business strategy includes entering into and maintaining strategic alliances and affiliations with leading service providers and other GPOs. We work closely with our members to penetrate new product markets and expand our current market capabilities. We may not achieve our objectives through these relationships or through our relationships with our third party providers or strategic alliances. Many of these companies have multiple relationships and they may not regard us as significant to their business. These companies may pursue relationships with our competitors, develop or acquire products and services that compete with our products and services, experience financial difficulties, be acquired by one of our competitors or other third party or exit the healthcare industry, any of which may adversely affect our relationship with them. In addition, in many cases, these companies may terminate their relationships with us for any reason with limited or no notice. If existing relationships with third party providers or strategic alliances are adversely impacted or are terminated or we are unable to enter into relationships with leading healthcare service providers and other GPOs, we may be unable to maintain or increase our industry presence.

If we are not able to offer new and innovative products and services, we may not remain competitive and our revenue and results of operations may suffer.

Our success depends on providing products and services within our supply chain services and performance services segments that healthcare providers use to improve clinical, financial and operational performance. Our competitors are constantly developing products and services that may become viewed as more efficient or appealing to our members. If we cannot adapt to rapidly evolving industry standards, technology and member needs, including changing regulations and provider reimbursement policies, we may be unable to anticipate changes in our current and potential new members' requirements that could make our existing technology, products or service offerings obsolete. Additionally, some healthcare information technology providers have begun to incorporate enhanced analytical tools

and functionality into their core product and service offerings used by healthcare providers. These developments may adversely impact the demand for our products and services. We must continue to invest significant resources in research and development in order to enhance our existing products and services, maintain or improve our product category rankings and introduce new high quality products and services that members and potential new members will want. Our operating results would also suffer if our innovations are not responsive to the needs of our members or potential new members, are not appropriately timed with market opportunity, or are not effectively brought to market. Many of our existing member relationships are nonexclusive or terminable on short notice, or otherwise terminable after a specified term. If our new or modified product and service innovations are not responsive to member preferences, emerging industry standards or regulatory changes, are not appropriately timed with market opportunity, or are not effectively brought to market, we may lose existing members and be unable to obtain new members and our results of operations may suffer. In addition, cancellation of any of our products and services after implementation has begun may involve loss to us of time, effort, and resources invested in the cancelled implementation as well as lost opportunity for acquiring other members over that same period of time.

We derive a significant portion of our revenues from our largest members.

Our top five members, who are all participants in our group purchasing programs, comprised approximately 19% of our consolidated net revenues for fiscal year 2015. Our largest member, GNYHA Purchasing Alliance, LLC and its member organizations, comprised approximately 9.3% of our consolidated net revenues for the same period. The sudden loss of any of our members that are participants in our group purchasing programs could materially and adversely affect our operating results. In addition, certain of our top five members are themselves GPOs with their own respective direct contracting relationships, including relationships with some of our other members. The sudden loss of any of these members may also result in increased competition for our supply chain services segment and the loss of any of these additional members could also materially and adversely affect our operating results.

Acquisitions could result in operating difficulties, dilution and other harmful consequences.

Our business strategy includes growth through acquisitions. Future acquisitions may not be completed on the most favorable terms and acquired assets or businesses may not be successfully integrated into our operations. Any acquisitions or investments will be accompanied by the risks commonly encountered in acquisitions of businesses. Such risks include, among other things:

- failing to integrate the operations and personnel of the acquired businesses in an efficient, timely manner;
- assuming potential liabilities of an acquired company, some of which may not become known until after the acquisition;
- the acquired company's lack of compliance with laws and governmental rules and regulations, and the related costs and expenses necessary to bring such entity into compliance;
- managing the potential disruption to our ongoing business;
- distracting management focus from our core businesses;
- having difficulties in identifying and acquiring products, technologies, or businesses that will help our business;
- entering new markets in which we have little to no experience;
- impairing relationships with employees, members, and strategic partners,
- failing to implement or remediate controls, procedures and policies appropriate for a larger public company at acquired companies that prior to the acquisition lacked such controls, procedures and policies;
- the amortization of purchased intangible assets;
- incurring expenses associated with an impairment of all or a portion of goodwill and other intangible assets due to changes in market conditions, weak economies in certain competitive markets, or the failure of certain acquisitions to realize expected benefits; and
- diluting the share value and voting power of existing stockholders.

The anticipated benefits of our previous acquisitions may not materialize. Future acquisitions or dispositions of under-performing businesses could result in the incurrence of debt, contingent liabilities or amortization expenses, or write-offs of goodwill and other intangible assets, any of which could harm our financial condition. We anticipate that acquisitions will play a larger role in our business strategy in the future, and there can be no assurances that any future acquisitions will be successful.

In addition, expenses associated with potential acquisitions, including among other things, due diligence costs, legal, accounting, technology and financial advisor fees, travel, and internal resources utilization can be significant. These expenses are required to be incurred regardless of the outcome on any potential acquisition opportunity. In instances where acquisitions are not ultimately completed these expenses typically cannot be recovered or offset by the anticipated financial benefits of a successful acquisition. As we pursue our business strategy and evaluate opportunities, these expenses may adversely impact our results of operations and earnings per share.

Our business and growth strategy also includes non-controlling investments in other businesses. In the event these investments do not perform as well as expected, we could experience a material adverse effect on the value of our investment that could adversely impact our financial condition, results of operations and our Class A common stock price.

Prior to investing in other businesses, we conduct accounting, financial, legal and business due diligence. However, notwithstanding such due diligence efforts, we cannot guarantee that we will discover all material issues that may affect a particular target business, or that factors outside the control of the target business and outside of our control will not later arise. In addition, to the extent we invest in a financially underperforming or unstable company or an entity in its development stage that does not successfully mature, we may lose the value of our investment. Generally, current and future investments are, and will be, made on a non-controlling

basis, so we have limited ability to influence the financial or business operations of the companies in which we invest. If our investment loses value, we may be required to write down or write off our investment, or recognize impairment or other charges that could adversely impact our financial condition or results of operations and our stock price. Even though these charges may be non-cash items and not have a material impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us, our business strategy or our common stock.

We are subject to litigation from time to time, which could have a material adverse effect on our business, financial condition and results of operations.

We participate in businesses that are subject to substantial litigation. We are periodically involved in litigation, which from time to time may include claims relating to commercial, product liability, employment, antitrust, intellectual property or other regulatory matters, among others. If current or future government regulations are interpreted or enforced in a manner adverse to us or our business, specifically those with respect to antitrust or healthcare laws, we may be subject to enforcement actions, penalties, and other material limitations on our business.

From time to time, we have been named as a defendant in lawsuits brought by suppliers of medical products. Typically, these lawsuits have alleged the existence of a conspiracy among manufacturers of competing products and operators of GPOs, including us, to deny the plaintiff access to a market for its products. No assurance can be given that we will not be subjected to similar actions in the future or that such matters will be resolved in a manner satisfactory to us or which will not harm our business, financial condition or results of operations.

We may become subject to additional litigation in the future. Some of these claims may result in significant defense costs and potentially significant judgments against us, some of which are not, or cannot be, insured against. We generally intend to defend ourselves vigorously; however, we cannot be certain of the ultimate outcomes of any claims that may arise in the future. Resolution of these types of matters against us may result in our having to pay significant fines, judgments or settlements, which, if uninsured, or if the fines, judgments and settlements exceed insured levels, could adversely impact our earnings and cash flows, thereby having a material adverse effect on our business, financial condition, results of operations, cash flow and per share trading price of the Class A common stock. Certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could adversely impact our results of operations and cash flows, expose us to increased risks that would be uninsured and adversely impact our ability to attract officers and directors. In addition, certain litigation matters could adversely impact our commercial reputation, which is critical for attracting and retaining member participation in our GPO programs and suppliers.

We rely on Internet infrastructure, bandwidth providers, data center providers, other third parties, and our own systems for providing services to our users, and any failure or interruption in the services provided by these third parties or our own systems could expose us to litigation and negatively impact our relationships with users, adversely affecting our brand and our business.

Our ability to deliver our performance services segment products is dependent on the development and maintenance of the infrastructure of the Internet and other telecommunications services by third parties. This includes maintenance of a reliable network backbone with the necessary speed, data capacity, and security for providing reliable Internet access and services and reliable telephone, facsimile, and pager systems. Our services are designed to operate without interruption in accordance with our service level commitments. However, we have experienced and expect that we will experience interruptions and delays in services and availability from time to time. We rely on internal systems as well as third party suppliers, including bandwidth and telecommunications equipment providers, to provide our services. We are also currently in the process of migrating some of our data center operations to third-party data-hosting facilities. We do not maintain redundant systems or facilities for some of these services. In the event of a

catastrophic event with respect to one or more of these systems or facilities, we may experience an extended period of system unavailability, which could negatively impact our relationship with users. To operate without interruption, both we and our service providers must guard against:

- damage from fire, power loss, and other natural disasters;
- communications failures;
- software and hardware errors, failures, and crashes;
- security breaches, computer viruses, and similar disruptive problems; and
- other potential interruptions.

Any disruption in the network access, telecommunications, or co-location services provided by these third party providers or any failure of or by these third party providers or our own systems to handle current or higher volume of use could significantly harm our business. We exercise limited control over these third party suppliers, which increases our vulnerability to problems

with services they provide. Any errors, failures, interruptions, or delays experienced in connection with these third party technologies and information services or our own systems could negatively impact our relationships with users and adversely affect our business and could expose us to third party liabilities. Although we maintain insurance for our business, the coverage under our policies may not be adequate to compensate us for all losses that may occur. In addition, we cannot provide assurance that we will continue to be able to obtain adequate insurance coverage at an acceptable cost.

The reliability and performance of the Internet may be harmed by increased usage or by denial-of-service attacks. The Internet has experienced a variety of outages and other delays as a result of damages to portions of its infrastructure, and it could face outages and delays in the future. These outages and delays could reduce the level of Internet usage as well as the availability of the Internet to us for delivery of our Internet based services.

Data loss or corruption due to failures or errors in our systems and service disruptions at our data centers may adversely affect our reputation and relationships with existing members, which could have a negative impact on our business, financial condition and results of operations.

Because of the large amount of data that we collect and manage, it is possible that hardware failures or errors in our systems could result in data loss or corruption or cause the information that we collect to be incomplete or contain inaccuracies that our members regard as significant. Complex software such as ours may contain errors or failures that are not detected until after the software is introduced or updates and new versions are released. We continually introduce new software and updates and enhancements to our software. Despite testing by us, from time to time we have discovered defects or errors in our software, and such defects or errors may be discovered in the future. Any defects or errors could expose us to risk of liability to members and the government and could cause delays in the introduction of new products and services, result in increased costs and diversion of development resources, require design modifications, decrease market acceptance or member satisfaction with our products and services or cause harm to our reputation.

Furthermore, our members might use our software together with products from other companies. As a result, when problems occur, it might be difficult to identify the source of the problem. Even when our software does not cause these problems, the existence of these errors might cause us to incur significant costs, divert the attention of our technical personnel from our product development efforts, impact our reputation and lead to significant member relations problems.

Moreover, our internal data centers and service provider locations store and transmit critical member data that is essential to our business. While these locations are chosen for their stability, failover capabilities, and system controls, we do not directly control the continued or uninterrupted availability of every location. In addition to the services we provide from our offices, we are currently in the process of migrating some of our data center operations to third-party data-hosting facilities. Data center facilities are vulnerable to damage or interruption from earthquakes, floods, fires, power loss, telecommunications failures, and similar events. They are also subject to break-ins, sabotage, intentional acts of vandalism, and similar misconduct. Despite precautions taken at these facilities, the occurrence of a natural disaster or an act of terrorism, a decision to close the facilities without adequate notice, or other unanticipated problems could result in lengthy interruptions in our service. These service interruption events could impair our ability to deliver services or deliverables or cause us to miss service level agreements in our agreements with our members, which could negatively affect our ability to retain existing members and attract new members.

If our security measures are breached or fail and unauthorized access is obtained to a member's data, or our members fail to obtain proper permissions for the use and disclosure of information, our services may be perceived as not being secure, members may curtail or stop using our services, and we may incur significant liabilities.

Our services involve the web-based storage and transmission of members' proprietary information and protected health information of patients. Because of the sensitivity of this information, security features of our software are very important. From time to time we may detect vulnerabilities in our systems, which, even if they do not result in a security breach, may reduce member confidence and require substantial resources to address. If our security measures are breached or fail as a result of third party action, employee error, malfeasance, insufficiency, defective design, or otherwise, someone may be able to obtain unauthorized access to member or patient data. As a result, our reputation could be damaged, our business may suffer, and we could face damages for contract breach, penalties for violation of applicable laws or regulations, and significant costs for remediation and efforts to prevent future occurrences.

We rely upon our members as users of our system for key activities to promote security of the system and the data within it, such as administration of member-side access credential verification and control of member-side display of data. On occasion, our members have failed to perform these activities. Failure of members to perform these activities may result in claims against us that this reliance was misplaced, which could expose us to significant expense and harm to our reputation. Because techniques used to obtain unauthorized access or to sabotage systems change frequently and generally are not recognized until launched

against a target, we may be unable to anticipate these techniques or to implement adequate preventive measures. If an actual or perceived breach of our security occurs, the market perception of the effectiveness of our security measures could be harmed and we could lose sales and members. In addition, our members may authorize or enable third parties to access their data or the data of their patients on our systems. Because we do not control such access, we cannot ensure the complete propriety of that access or integrity or security of such data in our systems. Any breach of our security could have a material adverse effect on our business, financial condition and results of operations.

Additionally, we require our members in both of our business segments to provide necessary notices and to obtain necessary permissions and waivers for use and disclosure of the information that we receive, and we require contractual assurances from them that they have done so and will do so. If they do not obtain necessary permissions and waivers, then our use and disclosure of information that we receive from them or on their behalf may be limited or prohibited by state or federal privacy laws or other laws. Any such failure to obtain proper permissions and waivers could impair our functions, processes, and databases that reflect, contain, or are based upon such data and may prevent use of such data. In addition, such a failure could interfere with or prevent creation or use of rules and analyses or limit other data-driven activities that benefit us. Moreover, we may be subject to claims or liability for use or disclosure of information by reason of our lack of a valid notice, permission, or waiver. These claims or liabilities could subject us to unexpected costs and adversely affect our business, financial condition and results of operations.

We could suffer a loss of revenue and increased costs, exposure to significant liability, reputational harm, and other serious negative consequences if we sustain cyber attacks or other data security breaches that disrupt our operations or result in the dissemination of proprietary or confidential information about us or our members or other third parties.

We manage and store various proprietary information and sensitive or confidential data relating to our operations. We may be subject to breaches of the information technology systems we use for these purposes. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of third parties, create system disruptions, or cause shutdowns. Computer programmers and hackers also may be able to develop and deploy viruses, worms, and other malicious software programs that attack our products or otherwise exploit any security vulnerabilities of our products. In addition, sophisticated hardware and operating system software and applications that we produce or procure from third parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the system.

The costs to us to eliminate or address the foregoing security problems and security vulnerabilities before or after a cyber incident could be significant. Our remediation efforts may not be successful and could result in interruptions, delays, or cessation of service, and loss of existing or potential members that may impede our critical functions. In addition, breaches of our security measures and the unapproved dissemination of proprietary information or sensitive or confidential data about us or our members or other third parties could expose us, our members, or other third parties affected to a risk of loss or misuse of this information, result in litigation, governmental inquiry and potential liability for us, damage our brand and reputation, or otherwise harm our business. In addition, we rely in certain limited capacities on third-party data management providers whose possible security problems and security.

Any restrictions on our use of, or ability to license, data, or our failure to license data and integrate third-party technologies, could have a material adverse effect on our business, financial condition and results of operations.

We depend upon licenses from third parties for some of the technology and data used in our applications, and for some of the technology platforms upon which these applications are built and operate, including IBM and 3M. We also obtain a portion of the data that we use from government entities, public records and from our members for specific member engagements. We believe that we have all rights necessary to use the data that is incorporated into our products and services. However, we cannot assure you that our licenses for information will allow us to use that

information for all potential or contemplated applications and products. In addition, certain of our informatics products depend on maintaining our data and analytics platform, which is populated with data disclosed to us by our members. If these members revoked their consent for us to maintain, use, de-identify and share this data, consistent with applicable law, our data assets could be degraded.

In the future, data providers could withdraw their data from us or restrict our usage for any reason, including if there is a competitive reason to do so, if legislation is passed restricting the use of the data, or if judicial interpretations are issued restricting use of the data that we currently use in our products and services. In addition, data providers could fail to adhere to our quality control standards in the future, causing us to incur additional expense to appropriately utilize the data. If a substantial number of data providers were to withdraw or restrict their data, or if they fail to adhere to our quality control standards, and if we are unable to identify and contract with suitable alternative data suppliers and integrate these data sources into our service offerings, our ability to provide products and services to our members would be materially adversely impacted and it would have a material adverse effect on our business, financial condition and results of operations.

We also integrate into our proprietary applications and use third-party software to maintain and enhance, among other things, content generation and delivery, and to support our technology infrastructure. Some of this software is proprietary and some is open source. Our use of third-party technologies exposes us to increased risks, including, but not limited to, risks associated with the integration of new technology into our solutions, the diversion of our resources from development of our own proprietary technology and our inability to generate revenue from licensed technology sufficient to offset associated acquisition and maintenance costs. These technologies may not be available to us in the future on commercially reasonable terms or at all and could be difficult to replace once integrated into our own proprietary applications (although we currently believe this risk is remote given the “off-the-shelf” nature of these licenses and that standard operating procedures and practices utilized by these third parties would generally afford us sufficient time to effectively transition to other readily available sources without significant long-term impact to our business). Most of these licenses can be renewed only by mutual consent and may be terminated if we breach the terms of the license and fail to cure the breach within a specified period of time. Our inability to obtain, maintain or comply with any of these licenses could delay development until equivalent technology can be identified, licensed and integrated, which would harm our business, financial condition and results of operations.

Most of our third-party licenses are non-exclusive and our competitors may obtain the right to use any of the technology covered by these licenses to compete directly with us. Our use of third-party technologies exposes us to increased risks, including, but not limited to, risks associated with the integration of new technology into our solutions, the diversion of our resources from development of our own proprietary technology and our inability to generate revenue from licensed technology sufficient to offset associated acquisition and maintenance costs. In addition, if our data suppliers choose to discontinue support of the licensed technology in the future, we might not be able to modify or adapt our own solutions.

We may rely on partners and other third parties to provide members with a single source solution.

From time to time, we may engage teaming partners or other third parties to provide our members with a single source solution. For example, through partnerships with suppliers we offer performance improvement collaboratives and clinical, financial and operational SaaS informatics products, such as PopulationFocus, CareFocus, NetworkFocus and QualityAdvisor. While we believe that we perform appropriate due diligence on our teaming partners and other third parties, we cannot guarantee that those parties will comply with the terms set forth in their agreements. We may have disputes with our teaming partners or other third parties arising from the quality and timeliness of their work, member concerns about them or other matters. Performance deficiencies or misconduct by our teaming partners or other third parties could result in a member terminating our contract for default and/or could adversely affect our member relationships. We may be exposed to liability and we and our members may be adversely affected if a teaming partner or other third party fails to meet its contractual obligations.

Our use of “open source” software could adversely affect our ability to sell our products and subject us to possible litigation.

The products or technologies acquired, licensed or developed by us may incorporate so-called “open source” software, and we may incorporate open source software into other products in the future. Such open source software is generally licensed by its authors or other third parties under open source licenses, including, for example, the GNU General Public License, the GNU Lesser General Public License, “Apache style” licenses, “Berkeley Software Distribution,” “BSD-style” licenses and other open source licenses. There is little or no legal precedent governing the interpretation of many of the terms of certain of these licenses, and therefore the potential impact of these terms on our business is unknown and may result in unanticipated obligations regarding our products and technologies. For example, we may be subjected to certain conditions, including requirements that we offer our products that use particular open source software at no cost to the user, that we make available the source code for modifications or derivative works we create

based upon, incorporating or using the open source software, and/or that we license such modifications or derivative works under the terms of the particular open source license.

If an author or other party that distributes such open source software were to allege that we had not complied with the conditions of one or more of these licenses, we could be required to incur significant legal costs defending ourselves against such allegations. If our defenses were not successful, we could be subject to significant damages, be enjoined from the distribution of our products that contained the open source software, and be required to comply with the foregoing conditions, which could disrupt the distribution and sale of some of our products. In addition, if we combine our proprietary software with open source software in a certain manner, under some open source licenses we could be required to release the source code of our proprietary software, which could substantially help our competitors develop products that are similar to or better than ours.

Changes in industry pricing benchmarks could materially impact our financial performance.

Contracts in the prescription drug industry, including our contracts with our specialty pharmacy members, generally use “average wholesale price,” or AWP, which is published by a third party, as a benchmark to establish pricing for prescription drugs.

Various federal and state government agencies and prosecutors, as well as legislators and private litigants, have challenged the use of AWP for prescription drug reimbursement, as well as the manner by which AWP is calculated. In 2011, First DataBank, a significant provider of AWP information, discontinued publishing such information. Other publishers, such as MediSpan, reduced their reported AWP prices. These events have raised uncertainties as to whether certain third parties will continue to publish AWP, which may result in the inability of payers, pharmacy providers and others in the prescription drug industry to continue to utilize AWP as it has previously been calculated, or whether other pricing benchmarks will be adopted for establishing pricing within the industry. Due to these uncertainties, we are unable to anticipate what, if any, future impact this will have on our member contracts or our business strategy generally. Therefore, we can give no assurance that the short or long-term impact of such changes to industry pricing benchmarks will not have a material adverse effect on our business, financial condition and results of operations in future periods.

Prescription volumes may decline, and our net revenues and profitability may be negatively impacted, if the safety risk profiles of drugs increase or if drugs are withdrawn from the market, including as a result of manufacturing issues, or if prescription drugs transition to over-the-counter products.

We dispense significant volumes of brand-name and generic drugs from our specialty pharmacies. When increased safety risk profiles or manufacturing issues of specific drugs or classes of drugs result in utilization decreases, physicians may cease writing or otherwise reduce the numbers of prescriptions for these drugs. Additionally, negative press regarding drugs with higher safety risk profiles may result in reduced global consumer demand for such drugs. On occasion, products are withdrawn by their manufacturers or transition to over-the-counter products. In cases where there are no acceptable prescription drug equivalents or alternatives for these prescription drugs, our volumes, net revenues, profitability and cash flows may decline.

Our ability to grow our specialty pharmacy could be limited if we do not maintain and expand our existing base of drugs, if we lose patients or if manufacturers limit or cease doing business with us.

Our specialty pharmacy focuses on complex and high-cost medications that serve a relatively small patient population. Due to this limited patient population, our future growth relies in part on maintaining and expanding our base of drugs or penetration in certain treatment categories. Sales volumes at our specialty pharmacy could also be negatively impacted due to increases in the safety risk profiles or manufacturing issues of specific drugs, product withdrawals by manufacturers or transitions to over-the-counter products. Any loss of patient base or reduction in demand for any reason for the medications we currently dispense could have a material adverse effect on our business, financial condition and results of operations.

In addition, industry trends may result in health plans contracting with a single provider for specialty pharmacy services and manufacturers limiting their business with regional providers of these services. If we are unable to obtain managed care contracts in the areas in which we provide specialty pharmacy services or are unable to obtain specialty pharmacy products at reasonable costs or at all, our business, financial condition and results of operations could be adversely affected.

Our direct sourcing activities depend on contract manufacturing facilities located in various parts of the world, and any physical, financial, regulatory, environmental, labor or operational disruption or product quality issues could result in a reduction in sales volumes and the incurrence of substantial expenditures.

As part of our direct sourcing activities, which are a part of our supply chain services segment, we contract with manufacturing facilities in various parts of the world, including facilities in China, which are subject to operating hazards and interruptions. Operations at these manufacturing facilities could be curtailed or partially or completely shut down, temporarily or permanently, as the result of a number of circumstances, most of which are outside of our

control, such as unscheduled maintenance, a major catastrophe such as an earthquake, hurricane, flood, tsunami or other natural disaster, or significant labor strikes, work stoppages, or political unrest. Any significant curtailment of production at these facilities, or production issue resulting in a substandard product, could result in litigation, governmental inquiry, or materially reduced revenues and cash flow in our direct sourcing activities. In addition our business practices in international markets are subject to the requirements of the U.S. Foreign Corrupt Practices Act of 1977, as amended, any violation of which could subject us to significant fines, criminal sanctions and other penalties.

A substantial portion of the manufacturing for our direct sourcing activities is conducted in China. As a result, our business, financial condition, results of operations and prospects are affected significantly by economic, political and legal developments in China. The Chinese economy differs from the economies of most developed countries in many respects, including the degree of government involvement, the level of development, the growth rate, the control of foreign exchange, access to financing and the allocation of resources. Additionally, the facilities in China with which we contract are particularly susceptible to rising labor costs and interruptions as a result of minimum wage laws, scheduling and overtime requirements, labor disputes and strikes.

If we lose key personnel or if we are unable to attract, hire, integrate and retain key personnel, our business would be harmed.

Our future success depends in part on our ability to attract, hire, integrate and retain key personnel. Our future success also depends on the continued contributions of our executive officers and other key personnel, each of whom may be difficult to replace. In particular, Susan D. DeVore, our President and Chief Executive Officer, Michael J. Alkire, our Chief Operating Officer, Craig S. McKasson, our Senior Vice President and Chief Financial Officer, Keith J. Figlioli, our Senior Vice President of Healthcare Informatics, and Durrall R. Gilbert, our President of Supply Chain Services are critical to the management of our business and operations and the development of our strategic direction. The loss of services of Ms. DeVore, Messrs. Alkire, McKasson, Figlioli, Gilbert or any of our other executive officers or key personnel could have a material adverse effect on our business, financial condition and results of operations. The replacement of any of these key individuals would involve significant time and expense and may significantly delay or prevent the achievement of our business objectives.

Our success also depends upon our ability to identify, hire and retain other highly skilled technical, managerial, editorial, sales, marketing and customer service professionals. Competition for such personnel is intense. We have from time to time in the past experienced, and we expect to continue to experience in the future, difficulty in hiring and retaining highly skilled employees with appropriate qualifications. Many of the companies with which we compete for experienced personnel have greater resources than we have. We cannot be certain of our ability to identify, hire and retain adequately qualified personnel. Failure to identify, hire and retain necessary key personnel could have a material adverse effect on our business, financial condition and results of operations.

If the protection of our intellectual property is inadequate, our competitors may gain access to our technology or confidential information and we may lose our competitive advantage.

Our success depends in part upon our ability to protect our core technology and intellectual property. To accomplish this, we rely on a combination of intellectual property rights, including trade secrets, copyrights and trademarks, as well as customary contractual protections.

We utilize a combination of internal and external measures to protect our proprietary software and confidential information. Such measures include contractual protections with employees, contractors, members, and partners, as well as U.S. copyright laws.

We protect the intellectual property in our software pursuant to customary contractual protections in our agreements that impose restrictions on our members' ability to use such software, such as prohibiting reverse engineering and limiting the use of copies. We also seek to avoid disclosure of our intellectual property by relying on internal policies applicable to our employees and consultants that acknowledge our ownership of all intellectual property developed by the individual during the course of his or her work with us. These member agreements and internal policies applicable to our employees and consultants also require each person to maintain the confidentiality of all proprietary information disclosed to them. Other parties may not comply with the terms of these agreements and policies, and we may not be able to enforce our rights adequately against these parties. The disclosure to, or independent development by, a competitor of any trade secret, know-how or other technology not protected by a patent could materially adversely affect any competitive advantage we may have over any such competitor.

These protections may not be adequate, and we cannot assure you that they will prevent misappropriation of our intellectual property. Other companies could independently develop similar or competing technology without violating our proprietary rights. The process of enforcing our intellectual property rights through legal proceedings would likely be burdensome and expensive, and our ultimate success cannot be assured. Our failure to adequately protect our intellectual property and proprietary rights could adversely affect our business, financial condition and

results of operations.

If we are deemed to infringe, misappropriate or violate the proprietary rights of third parties, we could incur unanticipated expense and be prevented from providing our products and services.

We could be subject to intellectual property infringement, misappropriation or other intellectual property violation claims as our applications' functionality overlaps with competitive products and third parties may claim that we do not own or have rights to use all intellectual property rights used in the conduct of our business. We do not believe that we have infringed or are infringing on any valid or enforceable proprietary rights of third parties. However, we cannot assure you that infringement, misappropriation or claims alleging intellectual property violations will not be asserted against us. Also, we cannot assure you that any such claims will be unsuccessful. We could incur substantial costs and diversion of management resources defending any such claims. Furthermore, a party making a claim against us could secure a judgment awarding substantial damages, as well as injunctive or other equitable relief that could effectively block our ability to provide products or services. In addition, we cannot assure you that licenses for any intellectual property of third parties that might be required for our products or services will be available on commercially reasonable terms, or at all. Such claims also might require indemnification of our members at significant expense.

In addition, a number of our contracts with our members contain indemnity provisions whereby we indemnify them against certain losses that may arise from third-party claims that are brought in connection with the use of our products.

Our exposure to risks associated with the use of intellectual property may be increased as a result of acquisitions, as we have limited visibility into the development process with respect to such technology or the care taken to safeguard against infringement risks. In addition, third parties may make infringement and similar or related claims after we have acquired technology that had not been asserted prior to our acquisition.

If we are required to collect sales and use taxes on the products and services we sell in certain jurisdictions or intend to sell online, we may be subject to tax liability for past sales, future sales may decrease and our financial condition may be materially and adversely affected.

Rules and regulations applicable to sales and use tax vary significantly by tax jurisdiction. In addition, the applicability of these rules given the nature of our products and services is subject to change.

We may lose sales or incur significant costs should various tax jurisdictions be successful in imposing sales and use taxes on a broader range of products and services than those currently so taxed, including products and services sold online. A successful assertion by one or more taxing authorities that we should collect sales or other taxes on the sale of our solutions could result in substantial tax liabilities for past and future sales, decrease our ability to compete and otherwise harm our business.

In addition, sales tax is currently not imposed on the administrative fees we collect in connection with our GPO programs. If sales tax were imposed in the future on such fees, the profitability of our GPO programs may be materially and adversely affected.

If one or more taxing authorities determines that taxes should have, but have not, been paid with respect to our products and services, including products and services sold online, we may be liable for past taxes in addition to taxes going forward. Liability for past taxes may also include very substantial interest and penalty charges. If we are required to collect and pay back taxes (and the associated interest and penalties) and if our members fail or refuse to reimburse us for all or a portion of these amounts, we will have incurred unplanned costs that may be substantial. Moreover, imposition of such taxes on our services going forward will effectively increase the cost of such services to our members and may adversely affect our ability to retain existing members or to gain new members in the areas in which such taxes are imposed.

We may need to obtain additional financing which may not be available or, if it is available, may result in dilution to our then-existing stockholders and decreased stock prices for our Class A common stock.

We may need to raise additional funds in order to:

- finance unanticipated working capital requirements;
- develop or enhance our technological infrastructure and our existing products and services;
- fund strategic relationships;
- respond to competitive pressures; and
- acquire complementary businesses, assets, technologies, products or services.

Additional financing may not be available on terms favorable to us, or at all. If adequate funds are not available or are not available on acceptable terms, our ability to fund our expansion strategy, take advantage of unanticipated

opportunities, develop or enhance technology or services or otherwise respond to competitive pressures would be significantly limited. If we raise additional funds by issuing equity or convertible debt securities, our then-existing stockholders may be diluted, and holders of these newly issued securities may have rights, preferences or privileges senior to those of our then-existing stockholders. In addition, the issuance of dilutive securities may have downward price pressures on the trading prices of our Class A common stock.

Our future indebtedness could adversely affect our business and our liquidity position.

On June 24, 2014, we entered into a five-year \$750 million unsecured revolving credit facility, which includes an accordion feature granting us the ability to increase the size of the facility by an additional \$250 million on terms and conditions mutually acceptable to the parties. As of June 30, 2015, we had no amounts outstanding under this credit facility.

Our indebtedness may increase from time to time in the future for various reasons, including fluctuations in operating results, capital expenditures and potential acquisitions. Any indebtedness we incur and restrictive covenants contained in the agreements related thereto could:

- make it difficult for us to satisfy our obligations, including making interest payments on our debt obligations;
- limit our ability to obtain additional financing to operate our business;
- require us to dedicate a substantial portion of our cash flow to payments on our debt, reducing our ability to use our cash flow to fund capital expenditures and working capital and other general operational requirements;
- limit our flexibility to plan for and react to changes in our business and the healthcare industry;
- place us at a competitive disadvantage relative to some of our competitors that have less debt than us;
- limit our ability to pursue acquisitions; and
- increase our vulnerability to general adverse economic and industry conditions, including changes in interest rates or a downturn in our business or the economy.

The occurrence of any one of these events could have a material adverse effect on our business, financial condition and results of operations or cause a significant decrease in our liquidity and impair our ability to pay amounts due on our indebtedness.

Our unsecured revolving credit facility contains, among other things, restrictive covenants that will limit our and our subsidiaries' ability to finance future operations or capital needs or to engage in other business activities. The credit facility restricts, among other things, our ability and the ability of our subsidiaries to incur additional indebtedness or issue guarantees, create liens on our assets, make distributions on or redeem equity interests, make investments, transfer or sell properties or other assets, and engage in mergers, consolidations or acquisitions. Furthermore, the credit facility requires us to meet specified financial ratios and tests. In addition, any debt securities we may issue in the future may have similar or more restrictive financial or operational covenants that may limit our ability to execute our business strategies or operate our Company.

Our cash flows, quarterly revenues and results of operations have fluctuated in the past and may continue to fluctuate in the future as a result of certain factors, some of which may be outside of our control.

Certain of our member contracts contain terms that result in revenue that is deferred and cannot be recognized until the occurrence of certain events. For example, accounting principles do not allow us to recognize revenue associated with the implementation of certain products and services in our performance services segment until the implementation has been completed, at which time we begin to recognize revenue over the life of the contract or the estimated remaining member relationship period, whichever is longer. As a result, the period of time between contract signing and recognition of associated revenue may be lengthy, and we are not able to predict with certainty the period in which implementation will be completed.

Certain of our member agreements provide for guaranteed levels of savings in which some portion or all of our fees are at risk and refundable if our products and services do not result in the achievement of these financial performance targets. The amount of guaranteed savings in the member agreements in place on June 30, 2015 represent less than 1% of our net revenue in the event that no savings are identified. These member agreements are reviewed and approved by the member agreement review committee of our board of directors, which is comprised of a subset of our independent directors and our president and chief executive officer, in order to manage and protect potential conflict of interest issues with member owners. If we are unable to meet or exceed savings guarantee levels, we may be required to pay any difference between savings that were guaranteed and the savings, if any, which were actually achieved. To the extent that any revenue is subject to contingency for the non-achievement of a performance target, we only recognize revenue upon member confirmation that the financial performance targets have been achieved. If a member fails to provide such confirmation in a timely manner, our ability to recognize revenue will be delayed. Additionally, certain

of our contracts include the potential for a payment based on a percentage achieved on certain financial performance targets, which we may or may not earn when expected or at all.

Our group purchasing services rely on participating suppliers to provide periodic reports of their sales volumes to our members and resulting administrative fees to us. If a supplier fails to provide such reporting in a timely and accurate manner, our ability to recognize administrative fees revenue will be delayed or prevented.

Certain of our fees are based on timing and volume of member invoices processed and payments received, which are often dependent upon factors outside of our control.

Other fluctuations in our quarterly results of operations may be due to a number of other factors, some of which are not within our control, including:

- our ability to offer new and innovative products and services;
- regulatory changes, including changes in the healthcare laws;
- unforeseen legal expenses, including litigation and settlement costs;
- the purchasing and budgeting cycles of our members;
- the lengthy sales cycles for our products and services, which may cause significant delays or an inability to generate revenues;
- pricing pressures with respect to our future sales;
- the timing and success of our or our competitors' new product and service offerings;
- member decisions, especially those involving our larger member relationships, regarding renewal or termination of their contracts;
- the amount and timing of operating costs related to the maintenance and expansion of our business, operations and infrastructure;
- the amount and timing of costs related to the development, adaptation, acquisition, or integration of acquired technologies or businesses;
- the financial condition of our current and potential new members; and
- general economic, industry and market conditions and those conditions specific to the healthcare industry.

We base our expense levels in part upon our expectations concerning future revenue, and these expense levels are relatively fixed in the short term. If we have lower revenue than expected, we may not be able to reduce our spending in the short term in response. Any significant shortfall in revenue would have a direct and material adverse impact on our business, financial condition and results of operations. We believe that our quarterly results of operations may vary significantly in the future and that period-to-period comparisons of our results of operations may not be meaningful. You should not rely on the results of one quarter as an indication of future performance. If our quarterly results of operations fall below the expectations of securities analysts or investors, the price of the Class A common stock could decline substantially. In addition, any adverse impacts on the Class A common stock may harm the overall reputation of our organization, cause us to lose members and impact our ability to raise additional capital in the future.

Risks Related to Healthcare Regulation

The healthcare industry is highly regulated. Any material changes in the political, economic or regulatory healthcare environment that affect the GPO business or the purchasing practices and operations of healthcare organizations, or that lead to consolidation in the healthcare industry, could require us to modify our services or reduce the funds available to providers to purchase our products and services.

Our business, financial condition and results of operations depend upon conditions affecting the healthcare industry generally and hospitals and health systems particularly. Our ability to grow will depend upon the economic environment of the healthcare industry generally as well as our ability to increase the number of programs and services that we sell to our members. The healthcare industry is highly regulated by federal and state authorities and is subject to changing political, economic and regulatory influences. Factors such as changes in reimbursement policies for healthcare expenses, consolidation in the healthcare industry, regulation, litigation and general economic conditions affect the purchasing practices, operations and the financial health of healthcare organizations. In particular, changes in regulations affecting the healthcare industry, such as increased regulation of the purchase and sale of medical products, or restrictions on permissible discounts and other financial arrangements, could require us to make unplanned modifications of our products and services, result in delays or cancellations of orders or reduce funds and demand for our products and services.

In March 2010, President Obama signed into law the Affordable Care Act. The Affordable Care Act is a sweeping measure designed to expand access to affordable health insurance, control healthcare spending, and improve

healthcare quality. The law includes provisions to tie Medicare provider reimbursement to healthcare quality and incentives, mandatory compliance programs, enhanced transparency disclosure requirements, increased funding and initiatives to address fraud and abuse, and incentives to state Medicaid programs to promote community based care as an alternative to institutional long-term care services. In addition, the law provides for the establishment of a national voluntary pilot program to bundle Medicare payments for hospital and post-acute services, which could lead to changes in the delivery of healthcare services. Likewise, many states have adopted or are considering changes in healthcare policies in part due to state budgetary shortfalls. Regulations for implementing many provisions of the Affordable Care Act are being released on an ongoing basis, and we do not know what effect the federal Affordable Care Act or any state law proposals may have on our business.

If we fail to comply with federal and state laws governing financial relationships among healthcare providers and submission of false or fraudulent claims to government healthcare programs, we may be subject to civil and criminal penalties or loss of eligibility to participate in government healthcare programs.

We are subject to federal and state laws and regulations designed to protect patients, governmental healthcare programs and private health plans from fraudulent and abusive activities. These laws include anti-kickback restrictions and laws prohibiting the submission of false or fraudulent claims. These laws are complex and their application to our specific products, services and relationships may not be clear and may be applied to our business in ways that we do not anticipate. Federal and state regulatory and law enforcement authorities have over time increased enforcement activities with respect to Medicare and Medicaid fraud and abuse regulations and other reimbursement laws and rules. From time to time we and others in the healthcare industry have received inquiries or requests to produce documents in connection with such activities. We could be required to expend significant time and resources to comply with these requests, and the attention of our management team could be diverted to these efforts. Furthermore, if we are found to be in violation of any federal or state fraud and abuse laws, we could be subject to civil and criminal penalties, and we could be excluded from participating in federal and state healthcare programs such as Medicare and Medicaid. The occurrence of any of these events could significantly harm our business and financial condition.

Provisions in Title XI of the Social Security Act, commonly referred to as the federal Anti-Kickback Statute, prohibit the knowing and willful offer, payment, solicitation or receipt of remuneration, directly or indirectly, in return for the referral of patients or arranging for the referral of patients, or in return for the recommendation, arrangement, purchase, lease or order of items or services that are covered, in whole or in part, by a federal healthcare program such as Medicare or Medicaid. The definition of "remuneration" has been broadly interpreted to include anything of value such as gifts, discounts, rebates, waiver of payments or providing anything at less than its fair market value. Many states have adopted similar prohibitions against kickbacks and other practices that are intended to influence the purchase, lease or ordering of healthcare items and services regardless of whether the item or service is covered under a governmental health program or private health plan. Certain statutory and regulatory safe harbors exist that protect specified business arrangements from prosecution under the Anti-Kickback Statute if all elements of an applicable safe harbor are met, however these safe harbors are narrow and often difficult to comply with. Congress has appropriated an increasing amount of funds in recent years to support enforcement activities aimed at reducing healthcare fraud and abuse. We cannot assure you that our arrangements will be protected by such safe harbors or that such increased enforcement activities will not directly or indirectly have an adverse effect on our business, financial condition or results of operations. Any determination by a state or federal agency that any of our activities or those of our suppliers or members, violate any of these laws could subject us to civil or criminal penalties, could require us to change or terminate some portions of our operations or business, or could disqualify us from providing services to healthcare providers doing business with government programs, and, thus could have a material adverse effect on our business, financial condition and results of operations.

In 2005, the Department of Health and Human Services, or HHS, Office of Inspector General conducted an extensive audit of the business practices of three GPOs, including us, and published a report indicating that of the \$1.8 billion in administrative fees that these GPOs collected over a four-year period, \$1.3 billion exceeded their operating expenses. Of this amount, \$898 million was returned to hospitals. The report found certain deficiencies in the manner in which the hospitals reflected these fees on their cost reports to Medicare. The HHS Office of Inspector General took no enforcement action against us or, to our knowledge, either of the other GPOs. The report did not identify any of our business practices, or relationships with suppliers or our members, which in its view violated the Anti-Kickback Statute. In response to these findings, the HHS Office of Inspector General recommended that CMS provide specific guidance on the proper treatment on Medicare cost reports of revenue distributions received from GPOs. CMS issued an update to its provider reimbursement manual in December 2011 specifying that these distributions must be properly accounted for on such cost reports. The 2005 report and subsequent CMS guidance suggest that the various

forms of value received by our U.S. hospital members and health system member owners in connection with or related to the Reorganization and our IPO (including, without limitation, increases in the fair market value of equity held by such member owners, proceeds from the purchase of Class B common units from such member owners immediately following our IPO and as a result of subsequent exchanges, Premier LP cash distributions, administrative fee revenue share paid by Premier LP to our members based upon their member facilities' purchases through GPO supplier contracts and payments under the tax receivable agreements) should be appropriately reflected in their cost reports to Medicare, and we have sought to structure those arrangements so that they can be appropriately reflected. Our members that report their costs to Medicare are required under the terms of the Premier Group Purchasing Policy to appropriately reflect all elements of value received in connection with the Reorganization and our IPO on their cost reports. We are required to furnish applicable reports to such members setting forth the amount of such value, to assist their compliance with such cost reporting requirements. We cannot assure you, however, that the HHS Office of Inspector General or the U.S. Department of Justice, or DOJ, would concur with such approach. Any determination by a state or federal agency that the provision of such forms of value violate any of these laws could subject us to civil or criminal penalties, could require us to change or terminate some portions of our operations or business, or could disqualify us from providing services to healthcare providers doing business

with government programs, and, thus could have a material adverse effect on our business, financial condition and results of operations.

In the lead-up to our IPO, we received correspondence from one of our major GPO competitors expressing concern that the manner in which our IPO was explained to our current and prospective member owners could violate the Anti-Kickback Statute. One letter attached a brief analysis prepared by the competitor's outside counsel, which concluded that the opportunity to participate in our IPO could constitute a form of remuneration for purposes of the Anti-Kickback Statute and that if the other requisite elements of an Anti-Kickback Statute violation were present, the extension by us of such opportunity could violate the Anti-Kickback Statute. We believe that our discussions with then-current and prospective member owners regarding our IPO were conducted in compliance with the Anti-Kickback Statute and other applicable laws. However, no assurance can be given that enforcement authorities will agree with our assessment. Although a process exists for requesting advisory opinions from the HHS Office of Inspector General regarding compliance of particular arrangements with the Anti-Kickback Statute, we have not sought such an opinion and do not believe that the issues raised in the competitor's correspondence are capable of being addressed in an advisory opinion since the content and specifics of each discussion would be at issue. Any determination by a state or federal agency that the manner in which the opportunity to participate in our IPO was presented to our member owners and prospective member owners, either in and of itself or when viewed in conjunction with the requirements for ownership in Premier LP and participation in our group purchasing program or the various forms of value received by our member owners in connection with or related to our IPO, violated any of these laws could subject us to civil or criminal penalties, could require us to change or terminate some portions of our operations or business, or could disqualify us from providing services to healthcare providers doing business with government programs, and, thus could have a material adverse effect on our business, financial condition and results of operations.

On July 23, 2013, the HHS Office of Inspector General published Advisory Opinion 13-09 addressing a transaction proposed to be undertaken by the competitor referred to in the preceding paragraph. Under this proposal, the competitor, which is a publicly traded company, would issue stock to certain of its current and prospective customers in exchange for the customers' agreement to extend or enter into a five to seven year contract that would require the customer to commit not to decrease its historical level of purchases through the competitor's GPO supplier contracts over the term of the contract and to agree to a reduction in the percentage of administrative fee revenue share paid by the competitor to such customer on an annual basis. The amount of stock given to each customer would be equal to the amount of the reduction in revenue share due to the customer over the term of the contract. The HHS Office of Inspector General concluded that the competitor's proposed transaction could potentially generate prohibited remuneration under the Anti-Kickback Statute and that the HHS Office of Inspector General could potentially impose administrative sanctions on the competitor in connection with the arrangement. The HHS Office of Inspector General first noted that the granting of stock to customers would not fit within the discount safe harbor and therefore must be assessed based on the totality of the facts and circumstances. The HHS Office of Inspector General then observed that when a GPO passes through administrative fees to its customers, such fees could be treated as discounts on the price of goods sold by the vendors and the GPO and its customers could meet the reporting and other requirements of the discount safe harbor. This in turn could reduce costs to federal healthcare programs. The HHS Office of Inspector General asserted that the competitor's proposed arrangement, to the contrary, would result in a portion of a customer's revenue share, which would otherwise be reflected as a reduction in expense on the customer's cost reports, being exchanged for stock which would have no potential to benefit payers, including federal healthcare programs. The HHS Office of Inspector General cited three additional factors which, in its view, increase the risk of fraud and abuse posed by the competitor's proposed transaction: (i) the customers receiving stock would be required to extend their contracts (or enter into new contracts) with the competitor's GPO for five to seven years; (ii) the stock granted by the competitor would be tied to the customers' past purchases; and (iii) customers would not be permitted to decrease their volume of purchases through the competitor's group purchasing contracts. In the HHS Office of Inspector General's view, the combination of these three factors would result in customers potentially being rewarded with stock based upon their

past referrals and being locked into long term contracts under which they would be forced to maintain historical purchasing levels for an extended period of time regardless of whether the competitor is getting them the best prices. We believe that the terms of the Reorganization are distinguishable from those described in Advisory Opinion 13-09 requested by our competitor. As discussed above, we periodically receive and respond to questions from government agencies on various matters and we responded to an informal request in July 2014 from the HHS Office of Inspector General to enumerate the factors that distinguish our Reorganization from the fact pattern in Advisory Opinion 13-09 and to discuss how the GPO Participation Agreements comply with the discount safe harbor to the Anti-Kickback Statute. We have had no further correspondence or interaction, oral or written, with the HHS Office of Inspector General since that time. There is no safe harbor to the Anti-Kickback Statute that is applicable to the Reorganization in its entirety across all of the agreements, and no assurance can be given that the HHS Office of Inspector General or other regulators or enforcement authorities will agree with our assessment. Any determination by a state or federal agency that the terms of our Reorganization or our relationship with our members violate the Anti Kickback Statute or any other federal or state laws could subject us to civil or criminal penalties, could require us to change or terminate some portions of our operations or business, or could disqualify us from providing services to healthcare providers doing business with government programs, and, thus could have a material adverse effect on our business, financial condition and results of operations.

Our business is also subject to numerous federal and state laws that forbid the submission or “causing the submission” of false or fraudulent information or the failure to disclose information in connection with the submission and payment of claims for reimbursement to Medicare, Medicaid, other federal healthcare programs or private health plans. In particular, the False Claims Act, or FCA, prohibits a person from knowingly presenting or causing to be presented a false or fraudulent claim for payment or approval by an officer, employee or agent of the United States. In addition, the FCA prohibits a person from knowingly making, using, or causing to be made or used a false record or statement material to such a claim. Violations of the FCA may result in treble damages, significant monetary penalties, and other collateral consequences including, potentially, exclusion from participation in federally funded healthcare programs. The scope and implications of the amendments to the FCA pursuant to the Fraud Enforcement and Recovery Act of 2009, or FERA, have yet to be fully determined or adjudicated and as a result it is difficult to predict how future enforcement initiatives may impact our business. If enforcement authorities find that we have violated the FCA, it could have a material adverse effect on our business, financial condition and results of operations. Pursuant to the 2010 healthcare reform legislation, a claim that includes items or services resulting from a violation of the Anti-Kickback Statute constitutes a false or fraudulent claim for purposes of the FCA.

These laws and regulations may change rapidly and it is frequently unclear how they apply to our business. Errors in claims submitted by our specialty pharmacies and pharmacy benefits management businesses, as well as errors created by our products or advisory services that relate to entry, formatting, preparation or transmission of claim or cost report information by our members may be determined or alleged to be in violation of these laws and regulations. Any failure of our businesses or our products or services to comply with these laws and regulations, or the assertion that any of our relationships with suppliers or members violated the Anti-Kickback Statute and therefore caused the submission of false or fraudulent claims, could (i) result in substantial civil or criminal liability, (ii) adversely affect demand for our services, (iii) invalidate all or portions of some of our member contracts, (iv) require us to change or terminate some portions of our business, (v) require us to refund portions of our services fees, (vi) cause us to be disqualified from serving members doing business with government payers, and (vii) have a material adverse effect on our business, financial condition and results of operations.

If current or future antitrust laws and regulations are interpreted or enforced in a manner adverse to us or our business, we may be subject to enforcement actions, penalties, and other material limitations on our business.

We are subject to federal and state laws and regulations designed to protect competition which, if enforced in a manner adverse to us or our business, could have a material adverse effect on our business, financial condition and results of operations. The group purchasing industry has previously been under review by members of the U.S. Senate with respect to antitrust laws. In 2002, the U.S. Senate Judiciary Subcommittee on Antitrust, Competition Policy and Consumer Rights conducted a series of hearings concerning the activities of GPOs, including us. As a response to the Senate Subcommittee inquiry, we and other operators of GPOs formed the Healthcare Supply Chain Association (formerly the Healthcare Industry Group Purchasing Association), or HSCA, which developed a code of conduct to assure compliance with ethical and legal standards, including the antitrust laws. In addition, in 2002 we adopted our own Code of Conduct in consultation with a leading ethicist. As part of these Senate investigations, the U.S. General Accounting Office, or GAO, published two reports. The first report included an examination of GPO pricing. The second report investigated contracting practices used by GPOs with regard to administrative fees, sole source contracts and bundling arrangements and discussed the various codes of conduct implemented by the GPOs to address these practices.

On August 11, 2009, we and several other operators of GPOs received a letter from Senators Charles Grassley, Herb Kohl and Bill Nelson requesting information concerning the different relationships between and among us and our members, distributors, manufacturers and other suppliers, and requesting certain information about the services we perform and the payments we receive in connection with our GPO programs. On September 25, 2009, we and several other operators of GPOs received a request for information from the GAO, also concerning our services and

relationships with our members in connection with our GPO programs. Subsequently, we and other operators of GPOs received follow-up requests for additional information. We fully complied with all of these requests. On September 27, 2010, the GAO released a report titled "Group Purchasing Organizations-Services Provided to Customers and Initiatives Regarding Their Business Practices." On that same day, the Minority Staff of the U.S. Senate Finance Committee released a report titled "Empirical Data Lacking to Support Claims of Savings with Group Purchasing Organizations." On March 30, 2012, the GAO released a report titled "Group Purchasing Organizations-Federal Oversight and Self-Regulation." In February, 2014, the GAO released a report examining the current situation regarding shortages of certain drugs and contributing factors to those shortages. Among the areas examined was the role of GPOs as a potential cause of the drug shortages. While the report cited some stakeholder perspectives and studies related to GPOs contributing to the cause of drug shortages, the report did not make any recommendations related to GPOs. In early 2014, we and four other GPOs received a survey from the GAO inquiring about purchasing volume, administrative fees and business activities. On November 24, 2014, the GAO released a report titled "Funding Structure Has Potential Implications for Medicare Costs." No assurance can be given regarding any further inquiries or actions arising or resulting from the report or otherwise, or any related impact on our business, financial condition or results of operations.

Congress, the DOJ, the Federal Trade Commission, or FTC, the U.S. Senate or another state or federal entity could at any time open a new investigation of the group purchasing industry, or develop new rules, regulations or laws governing the industry, that could adversely impact our ability to negotiate pricing arrangements with suppliers, increase reporting and documentation requirements, or otherwise require us to modify our arrangements in a manner that adversely impacts our business, financial condition and results of operations. We may also face private or government lawsuits alleging violations arising from the concerns articulated by these governmental actors.

During the past 15 years, we have been named as a defendant in lawsuits brought by suppliers of medical products. Typically, these lawsuits have alleged the existence of a conspiracy among manufacturers of competing products and operators of GPOs, including us, to deny the plaintiff access to a market for its products. No such litigation is currently pending. No assurance can be given that we will not be subjected to similar actions in the future or that such matters will be resolved in a manner satisfactory to us or which will not harm our business, financial condition or results of operations.

We cannot guarantee that the antitrust laws will ultimately be enforced in a manner consistent with our interpretation. If we are found to be in violation of the antitrust laws we could be subject to civil and criminal penalties. The occurrence of any of these events could significantly harm our business, financial condition and results of operations.

Potential healthcare reform and new regulatory requirements placed on our software, services and content could impose increased costs on us, delay or prevent our introduction of new services types and impair the function or value of our existing service offerings.

Our services may be significantly impacted by healthcare reform initiatives and could be subject to increasing regulatory requirements, either of which could affect our business in a multitude of ways. If additional substantive healthcare reform or applicable regulatory requirements are adopted, we may have to change or adapt our services and software to comply. Reform or changing regulatory requirements may also render our services obsolete or may block us from accomplishing our work or from developing new services. This may in turn impose additional costs upon us to adapt to the new operating environment or to further develop services or software. Such reforms may also make introduction of new service offerings more costly or more time-consuming than we currently anticipate. Such changes may even prevent introduction by us of new services or make the continuation of our existing services unprofitable or impossible.

Federal and state privacy, security and breach notification laws may increase the costs of operation and expose us to civil and criminal government sanctions and third party civil litigation.

We must comply with extensive federal and state requirements regarding the use, retention, security and re-disclosure of patient/beneficiary healthcare information. The Health Insurance Portability and Accountability Act of 1996, as amended, and the regulations that have been issued under it, which we refer to collectively as HIPAA, contain substantial restrictions and requirements with respect to the use and disclosure of individually identifiable health information, referred to as “protected health information.” The HIPAA Privacy Rule prohibits a covered entity or a business associate (essentially, a third party engaged to assist a covered entity with enumerated operational and/or compliance functions) from using or disclosing protected health information unless the use or disclosure is validly authorized by the individual or is specifically required or permitted under the Privacy Rule and only if certain complex requirements are met. In addition to establishing these complex requirements, covered entities and business associates must also meet additional compliance obligations set forth in the Privacy Rule. In addition, the HIPAA Security Rule establishes administrative, organization, physical and technical safeguards to protect the privacy, integrity and availability of electronic protected health information maintained or transmitted by covered entities and business associates. The HIPAA Security Rule requirements are intended to mandate that covered entities and business associates regularly reassess the adequacy of their safeguards in light of changing and evolving security risks.

Finally, the HIPAA Breach Notification Rule requires that covered entities and business associates, under certain circumstances, notify patients/beneficiaries and HHS when there has been an improper use or disclosure of protected health information.

Our specialty pharmacy, our self-funded health benefit plan, and our healthcare provider members (provided that these members engage in HIPAA-defined standard electronic transactions with health plans, which will be all or the vast majority) are directly regulated by HIPAA as “covered entities.” From time to time, as part of our specialty pharmacy business, certain of our affiliates act as business associates of retail and other pharmacies in connection with co-branding initiatives. As such, we are subject to HIPAA and other risks discussed herein associated with being a business associate. Additionally, because most of our U.S. hospital members disclose protected health information to us so that we may use that information to provide certain data analytics, benchmarking, advisory or other operational and compliance services to these members, we are a “business associate” of those members. In these cases, in order to provide members with services that involve the use or disclosure of protected health information, HIPAA require us to enter into “business associate agreements” with our covered entity members. Such agreements must, among other things, provide adequate written assurances:

as to how we will use and disclose the protected health information within certain allowable parameters established by HIPAA, that we will implement reasonable administrative, organizational, physical and technical safeguards to protect such information from misuse, that we will enter into similar agreements with our agents and subcontractors that have access to the information, that we will report security incidents and other inappropriate uses or disclosures of the information, and that we will assist the covered entity with certain of its duties under HIPAA.

With the enactment of the HITECH Act, the privacy and security requirements of HIPAA were modified and expanded. The HITECH Act applies certain of the HIPAA privacy and security requirements directly to business associates of covered entities. Prior to this change, business associates had contractual obligations to covered entities but were not subject to direct enforcement by the federal government. On January 17, 2013, HHS released final rules implementing the HITECH Act changes to HIPAA. These amendments expand the protection of protected health information by, among other things, imposing additional requirements on business associates, further restricting the disclosure of protected health information in certain cases when the disclosure is part of a remunerated transaction, and modifying the HIPAA Breach Notification Rule, which has been in effect since September 2009, to create a rebuttable presumption that any improper use or disclosure of protected health information requires notice to affected patients/beneficiaries and HHS. The 2013 final rule became effective on March 26, 2013 and the compliance date for most provisions is September 23, 2013. The modifications to the HIPAA Breach Notification Rule requirements are currently effective and being enforced.

Any failure or perceived failure of our products or services to meet HIPAA standards and related regulatory requirements could expose us to certain notification, penalty and/or enforcement risks, could adversely affect demand for our products and services, and force us to expend significant capital, research and development and other resources to modify our products or services to address the privacy and security requirements of our members and HIPAA.

In addition to our obligations under HIPAA there are other federal laws that impose specific privacy and security obligations, above and beyond HIPAA, for certain types of health information and impose additional sanctions and penalties. These rules are not preempted by HIPAA. Finally, most states have enacted patient and/or beneficiary confidentiality laws that protect against the disclosure of confidential medical information, and many states have adopted or are considering adopting further legislation in this area, including privacy safeguards, security standards, data security breach notification requirements, and special rules for so-called "sensitive" health information, such as mental health, genetic testing results, or HIV status. These state laws, if more stringent than HIPAA requirements, are not preempted by the federal requirements, and we are required to comply with them as well.

We are unable to predict what changes to HIPAA or other federal or state laws or regulations might be made in the future or how those changes could affect our business or the associated costs of compliance. For example, the federal Office of the National Coordinator for Health Information Technology, or ONCHIT, is coordinating the development of national standards for creating an interoperable health information technology infrastructure based on the widespread adoption of electronic health records in the healthcare sector. We are yet unable to predict what, if any, impact the creation of such standards and the further developments at ONCHIT will have on the necessary specifications or demand for our products, services, or on associated compliance costs.

Failure by us to comply with any of the federal and state standards regarding patient privacy, identity theft prevention and detection and data security may subject us to penalties, including civil monetary penalties and in some circumstances, criminal penalties. In addition, such failure may injure our reputation and adversely affect our ability to retain members and attract new members.

HIPAA also mandates format, data content and provider identifier standards that must be used in certain electronic transactions, such as claims, payment advice and eligibility inquiries. Although our systems are fully capable of transmitting transactions that comply with these requirements, some payers and healthcare clearinghouses with which we conduct business may interpret HIPAA transaction requirements differently than we do or may require us to use legacy formats or include legacy identifiers as they make the transition to full compliance. In cases where payers or healthcare clearinghouses require conformity with their interpretations or require us to accommodate legacy transactions or identifiers as a condition of successful transactions, we attempt to comply with their requirements, but may be subject to enforcement actions as a result. In January 2009, CMS published a final rule adopting updated standard code sets for diagnoses and procedures known as ICD-10 code sets. A separate final rule also published by CMS in January 2009 resulted in changes to the formats to be used for electronic transactions subject to the ICD-10 code sets, known as Version 5010. As of March 31, 2012, healthcare providers are required to comply with Version 5010. Use of the ICD-10 code sets is not mandated until October 1, 2015. We believe we have made the proper modifications in preparation for the implementation of ICD-10. However, we may not be successful in responding to these changes and any changes in response that we make to our

transactions and software may result in errors or otherwise negatively impact our service levels. We may also experience complications in supporting members that are not fully compliant with the revised requirements as of the applicable compliance date.

Our group purchasing, specialty pharmacy and direct sourcing activities can be adversely affected by product safety concerns and regulation.

Most of the products offered through our GPO supplier contracts, specialty pharmacies and direct sourcing activities are subject to direct regulation by federal and state governmental agencies. We rely upon suppliers who use our services to meet all safety and effectiveness, quality control, packaging, distribution, labeling, hazard and health information notice, record keeping and licensing requirements. In addition, we rely upon the carriers retained by our suppliers to comply with regulations regarding the shipment of any hazardous or perishable materials.

We cannot guarantee that the suppliers are in compliance with applicable laws and regulations. If suppliers or the providers with whom we do business have failed, or fail in the future, to adequately comply with relevant laws or regulations, we could become involved in governmental investigations or private lawsuits concerning these regulations. If we were found to be legally responsible in any way for such failure, we could be subject to injunctions, penalties or fines which could have an adverse effect on our business, financial condition and results of operations. Furthermore, any such investigation or lawsuit could cause us to expend significant resources and divert the attention of our management team, regardless of the outcome, and thus could have an adverse effect on our business, financial condition and results of operations.

Risks Related to Our Structure

Premier, Inc. is a holding company with no operations of its own, and it depends on distributions from Premier LP to pay taxes, make payments under the tax receivable agreements or pay any cash dividends, if declared, on our Class A common stock.

Premier, Inc. is a holding company with no operations of its own and it currently has no independent ability to generate revenue. Consequently, its ability to obtain operating funds currently depends upon distributions from Premier LP to Premier GP and from Premier GP to Premier, Inc. In accordance with the LP Agreement, subject to applicable law or regulation and the terms of Premier LP's financing agreements, Premier GP causes Premier LP to make quarterly distributions out of its estimated taxable net income to Premier GP and to the holders of Class B common units as a class in an aggregate amount equal to Premier LP's total taxable income for each such quarter multiplied by the effective combined federal, state and local income tax rate then payable by Premier, Inc. It is anticipated that these quarterly distributions will facilitate payment by each Premier LP partner of taxes, if required, on its share of taxable income of Premier LP. In addition, in accordance with the LP Agreement, Premier GP may cause Premier LP to make additional distributions to Premier GP and to the holders of Class B common units as a class in proportion to their respective number of units, subject to any applicable restrictions under Premier LP's financing agreements or applicable law. Premier GP distributes any amounts it receives from Premier LP to Premier, Inc., which Premier, Inc. uses to (i) pay applicable taxes, (ii) meet its obligations under the tax receivable agreements, and (iii) meet its obligations to the member owners under the Exchange Agreement if they elect to convert their Class B common units for shares of our Class A common stock and we elect to pay some or all of the consideration to such member owners in cash.

In addition, pursuant to the GPO participation agreements, Premier LP is contractually required to pay each member owner revenue share from Premier LP equal to 30% of all gross administrative fees collected by Premier LP based upon purchasing by such member owner's member facilities through our GPO supplier contracts. Additionally, our two largest regional GPO member owners, which represented approximately 16% of our gross administrative fee revenue

for fiscal year 2015, each remit all gross administrative fees collected by such member owner based upon purchasing by such member owner's member facilities through the member owner's own GPO supplier contracts and receive revenue share from Premier LP equal to 30% of such gross administrative fees remitted to us. Finally, certain non-owner members have historically operated under, and following the completion of the Reorganization and our IPO, continue to operate under, contractual relationships that provide for a specific revenue share that differs from the 30% revenue share that we have been providing to our member owners under our current GPO participation agreements.

To the extent that Premier, Inc. needs funds, and Premier LP is restricted from making such distributions under applicable law or regulation or under the terms of our unsecured revolving credit facility, or is otherwise unable to provide such funds, it could materially adversely affect our liquidity and financial condition. The declaration and payment of future dividends by us, if at all, will be at the discretion of our board of directors and will depend on, among other things, our operating results and cash flow from Premier LP's operations, our strategic plans and such other factors as our board of directors considers relevant. In addition, Premier LP is generally prohibited under Delaware law from making a distribution to a partner to the extent that, at the time of

the distribution, after giving effect to the distribution, liabilities of the limited partnership (with certain exceptions) exceed the fair value of its assets.

Different interests among our member owners or between our member owners and us, including with respect to related party transactions, could prevent us from achieving our business goals.

For the foreseeable future, we expect that a majority of our board of directors will include directors and executive officers of our member owners and other directors who may have commercial relationships with our member owners. Certain of our member owners could have business interests that may conflict with those of the other member owners, which may make it difficult for us to pursue strategic initiatives that require consensus among our member owners.

In addition, our relationship with our member owners, who are both our members and own a significant percentage of our common stock and the units of Premier LP, could create conflicts of interest among the member owners, or between the member owners and us, in a number of areas relating to our past and ongoing relationships. For example, certain of our products and services compete (or may compete in the future) with various products and services of our member owners. In addition, conflicts of interest may arise among the member owners based on certain allocations of net profits that the member owners may receive in proportion to their relative participation in our products and services. Except as set forth in the tax receivable agreements and the GPO participation agreements with the member owners and in the LP Agreement, there are not any formal dispute resolution procedures in place to resolve conflicts between us and a member owner or between member owners. We may not be able to resolve any potential conflicts between us and a member owner and, even if we do, the resolution may be less favorable to us than if we were negotiating with an unaffiliated party.

Our ability to use the net proceeds from future issuances of our Class A common stock is limited.

The LP Agreement requires that we contribute to Premier LP the net proceeds received by us from any issuance of additional shares of our Class A common stock (other than exchanges under the Exchange Agreement) in exchange for newly issued Class A common units in Premier LP based on the fair market value of our Class A common stock at the time of the transfer. As a result, such proceeds will not be immediately available to us for our working capital requirements or other general corporate purposes.

Our member owners are able to exercise significant control over us, including through the election of all of our directors.

Our member owners beneficially own, in the aggregate, 100% of our outstanding shares of Class B common stock, giving them control of approximately 74% of the combined voting power of our Class A common stock and Class B common stock as of June 30, 2015. Our member owners may also own, from time to time, shares of our Class A common stock, thereby further increasing their aggregate voting power. Pursuant to the terms of a voting trust agreement (the "Voting Trust Agreement"), the trustee will vote all of the member owners' Class B common stock as a block in the manner determined by the plurality of the votes received by the trustee from the member owners for the election of directors to serve on our board of directors, and by a majority of the votes received by the trustee from the member owners for all other matters. As a result, our member owners have the ability to elect all of the members of our board of directors and thereby control our management and affairs. In addition, our member owners will be able to determine the outcome of substantially all matters requiring action by our stockholders, including amendments to our certificate of incorporation and bylaws, any proposed merger, consolidation or sale of all or substantially all of our assets and other corporate transactions even if such actions are not favored by our other stockholders. This concentration of ownership may also prevent a change in the composition of our board of directors or a change in control of our company that could deprive other stockholders of an opportunity to receive a premium for their Class A common stock as part of a sale of our company and might ultimately affect the market price of our Class A common

stock.

In addition, at June 30, 2015 our member owners owned 100% of our outstanding Class B common units, representing approximately 74% of the units of Premier LP. Because they hold their economic ownership interest in our business through Premier LP, rather than through Premier, Inc., due to the fact that shares of Class B common stock are not entitled to any economic rights, these member owners may have conflicting interests with holders of shares of our Class A common stock. For example, many of our member owners are not-for-profit organizations which, as a result of their tax-exempt status, could influence their decisions regarding whether and when to dispose of assets, whether and when to incur new, or refinance existing, indebtedness, and whether and when Premier should terminate the tax receivable agreements and accelerate its obligations thereunder. In addition, the structuring of future transactions may be influenced by these member owners' tax or other considerations even where no similar benefit would accrue to us.

Our member owners are able to exercise a greater degree of influence in the operation of our business and that of Premier LP and the management of our affairs and those of Premier LP than is typically available to stockholders of a publicly traded company. Even if our member owners own a minority economic interest in Premier LP, they may be able to continue to exert significant

influence over us and Premier LP through their ownership of our Class B common stock and the Voting Trust Agreement among the member owners and the trustee of Premier Trust.

We are exempt from certain corporate governance requirements because we are a “controlled company” within the meaning of NASDAQ rules. As a result, our stockholders do not have the protections afforded by these corporate governance requirements, which may make our Class A common stock less attractive to investors.

Our member owners, acting as a group pursuant to the terms of the Voting Trust Agreement, own more than 50% of the total voting power of our outstanding common stock and we are a “controlled company” under NASDAQ corporate governance standards. As a controlled company, we are not required by NASDAQ for continued listing of Class A common stock to (i) have a majority of independent directors, (ii) maintain an independent compensation committee or (iii) maintain an independent nominating function. We are taking advantage of all of these exemptions from NASDAQ listing requirements. Accordingly, our stockholders do not have the same protection afforded to stockholders of companies that are subject to all of the NASDAQ corporate governance requirements and the ability of our independent directors to influence our business policies and affairs may be reduced. As a result, our status as a “controlled company” could make our Class A common stock less attractive to some investors or could otherwise harm our Class A common stock price. Additionally, if our member owners reduce their ownership of our outstanding voting stock such that we no longer qualify as a “controlled company,” we will incur costs to recruit qualified independent directors to our board and to establish and maintain independent compensation and nominating and governance committees, which may reduce the amount of cash otherwise available to Premier LP for distributions, working capital or general corporate purposes.

The agreements between us and our member owners were made in the context of an affiliated relationship and may contain different terms than comparable agreements with unaffiliated third parties.

The contractual agreements that we have with each of our member owners were negotiated in the context of an affiliated relationship in which representatives of our member owners and their affiliates comprised a significant portion of our board of directors. As a result, the financial provisions and the other terms of these agreements, such as covenants, contractual obligations on our part and on the part of our member owners, and termination and default provisions may be less favorable to us than terms that we might have obtained in negotiations with unaffiliated third parties in similar circumstances, which could have a material adverse effect on our business, financial condition and results of operations.

Any payments made under the tax receivable agreements with our member owners will reduce the amount of overall cash flow that would otherwise be available to us.

As a result of our acquisition of Class B common units of Premier LP from the member owners in connection with our IPO, and any subsequent exchanges of Class B common units with us for shares of Class A common stock, we expect to become entitled to special tax benefits attributable to tax basis adjustments involving amounts generally equal to the difference between our purchase price for the acquired Class B common units (or, in the case of an exchange, the value of the shares of Class A common stock issued by us) and our share of the historic tax basis in Premier LP’s tangible and intangible assets that is attributable to the acquired Class B common units. We entered into an agreement with each of our member owners in connection with our IPO, we must pay to the member owners 85% of the amount, if any, by which our tax payments to various tax authorities are reduced as a result of these special tax benefits. We are also obligated to make certain other payments on the occurrence of certain events that would terminate the agreement with respect to certain member owners. The tax basis adjustments, as well as the amount and timing of any payments under the tax receivable agreements, will vary depending upon a number of factors, including the timing of any exchanges between us and the member owners, the amount and timing of our income and the amount and timing of the amortization and depreciation deductions and other tax benefits attributable to the tax basis adjustments.

As a result of our use of proceeds from our IPO and assuming that Premier is able to timely benefit from the anticipated tax benefits, we anticipated that the future aggregate amount of payments to be made by us under the tax receivable agreements to the member owners would be approximately \$192.3 million, generally payable over the 15 years (under the current law) beginning in the year the income tax return is filed for the fiscal year ended June 30, 2015. As mentioned above, payments under the tax receivable agreements are made as Premier realizes tax benefits attributable to the initial purchase of Class B common units from the member owners in the Reorganization and subsequent quarterly exchanges between us and the member owners. The foregoing amount reflects payments with respect to the initial purchase of Class B common units. We paid \$11.5 million to the member owners during the year ended June 30, 2015 in connection with the initial exchanges and reduced the liability by \$2.0 million in connection with departed member owners. Additional amounts payable under the tax receivable agreements for subsequent exchanges of Class B common units made by the member owners during the year ended June 30, 2015 are \$57.1 million, which resulted in \$235.9 million in tax receivable agreement liabilities as of June 30, 2015. We expect to fund our payments under the tax receivable agreements from distributions we receive from Premier LP.

The tax receivable agreements provide that, in the event that we exercise our right to early termination of the tax receivable agreements, or in the event of a change in control or a material breach by us of our obligations under the tax receivable agreements, the tax receivable agreements will terminate, and we will be required to make a lump-sum payment equal to the present value of all forecasted future payments that would have otherwise been made under the tax receivable agreements, which lump-sum payment would be based on certain assumptions, including those relating to our future taxable income. The change of control payment and termination payments to the member owners could be substantial and could exceed the actual tax benefits that we receive as a result of acquiring Class B common units from the member owners because the amounts of such payments would be calculated assuming that we would have been able to use the potential tax benefits each year for the remainder of the amortization periods applicable to the basis increases, and that tax rates applicable to us would be the same as they were in the year of the termination.

The member owners will not reimburse us for any excess payments that may previously have been made under the tax receivable agreements, for example, due to adjustments resulting from examinations by taxing authorities. Rather, excess payments made to the member owners will be netted against payments otherwise to be made, if any, after our determination of such excess. As a result, in certain circumstances we could make payments under the tax receivable agreements in excess of our cash tax savings, which could materially impair our financial condition.

We may not be able to realize all or a portion of the tax benefits that are expected to result from the acquisition of Class B common units from the limited partners.

Under tax receivable agreements (the "Tax Receivable Agreements") entered into with our member owners in connection with the IPO, we are entitled to retain 15% of the total tax savings we realize as a result of increases in tax basis created by the purchase of Class B common units, as well as any future exchanges of Class B common units for our Class A common stock, and as a result of certain other tax benefits attributable to payments under the Tax Receivable Agreements. Our ability to realize, and benefit from, these tax savings depends on a number of assumptions, including that we will earn sufficient taxable income each year during the period over which the deductions arising from any such basis increases and payments are available and that there are no adverse changes in applicable law or regulations. If our actual taxable income were insufficient or there were adverse changes in applicable law or regulations, we may be unable to realize all or a portion of these expected benefits and our cash flows and stockholders' equity could be negatively affected.

Changes to Premier LP's allocation methods may increase a tax-exempt limited partner's risk that some allocated income is unrelated business taxable income.

The LP Agreement provides for the allocation of retained income to the limited partners of Premier LP, in part, according to the number of units owned rather than relative participation of the limited partners. A member owner that is a tax-exempt limited partner of Premier LP whose relative Class B common unit ownership is high compared to its relative participation may conclude, based on an analysis of its own facts and circumstances, that it has more unrelated business taxable income, or UBTI, subject to tax than it had reported in the past, or may be at increased risk that the Internal Revenue Service, or IRS, will seek to increase the amount of income reported by the tax-exempt limited partner as UBTI. Further, the LP Agreement provides for the allocation of distributed income to be adjusted based on facts and circumstances as are determined appropriate by Premier GP. Such adjustments may also increase the amount of income reported by certain tax-exempt limited partners as UBTI. Any increase in UBTI may cause a limited partner to leave Premier LP, which could have an adverse effect on our business, financial condition and results of operations.

Premier LP may issue additional limited partnership units without the consent of our Class A common stockholders, which could have a dilutive effect on our stockholders.

Premier LP may issue additional limited partnership units to third parties without the consent of our Class A common stockholders, which would reduce our ownership percentage in Premier LP and would have a dilutive effect on the amount of distributions made to us by Premier LP and, therefore, the amount of dividends, if any, we can make to our Class A common stockholders. Any newly admitted Premier LP limited partners will receive Class B common units in Premier LP and an equal amount of shares of our Class B common stock. They will also become parties to the Exchange Agreement, the Registration Rights Agreement, the Voting Trust Agreement and the Tax Receivable Agreements, on the same terms and conditions as the member owners. Any such issuances, or the perception of such issuances, could materially and adversely affect the market price of our Class A common stock.

Our certificate of incorporation and bylaws and the LP Agreement and provisions of Delaware law may discourage or prevent strategic transactions, including a takeover of our company, even if such a transaction would be beneficial to our stockholders.

Provisions contained in our certificate of incorporation and bylaws and the LP Agreement and provisions of the Delaware General Corporation Law, or DGCL, could delay or prevent a third party from entering into a strategic transaction with us, as applicable, even if such a transaction would benefit our stockholders. For example, our certificate of incorporation and bylaws:

- divide our board of directors into three classes with staggered three-year terms, which may delay or prevent a change of our management or a change in control,
- authorize the issuance of “blank check” preferred stock that could be issued by our board of directors to increase the number of outstanding shares of capital stock, making a takeover more difficult and expensive,
- do not permit cumulative voting in the election of directors, which would otherwise allow less than a majority of stockholders to elect director candidates,
- do not permit stockholders to take action by written consent other than during the period following our IPO in which we qualify as a “controlled company” within the meaning of NASDAQ rules,
- provide that special meetings of the stockholders may be called only by or at the direction of the board of directors, the chair of our board or the chief executive officer,
- require advance notice to be given by stockholders for any stockholder proposals or director nominees,
- require a super majority vote of the stockholders to amend our certificate of incorporation, and
- allow our board of directors to make, alter or repeal our bylaws but only allow stockholders to amend our bylaws upon the approval of 66²/₃% or more of the voting power of all of the outstanding shares of our capital stock entitled to vote.

In addition, we are subject to the provisions of Section 203 of the DGCL which limits, subject to certain exceptions, the right of a corporation to engage in a business combination with a holder of 15% or more of the corporation’s outstanding voting securities, or certain affiliated persons.

The Exchange Agreement contains rights of first refusal in favor of the other member owners and Premier LP in the event that a member owner desires to exchange its Class B common units for shares of our Class A common stock, cash or a combination of both. In addition, the Tax Receivable Agreements contain a change of control provision which, if triggered, would require us to make a one-time cash payment to the member owners equal to the present value of the payments that are forecasted to be made under the Tax Receivable Agreements based on certain assumptions.

These restrictions and provisions could keep us from pursuing relationships with strategic partners and from raising additional capital, which could impede our ability to expand our business and strengthen our competitive position. These restrictions could also limit stockholder value by impeding a sale of us or Premier LP.

Risks Related to Our Class A Common Stock

Our future issuance of common stock and/or preferred stock could dilute the voting power of our common stockholders and adversely affect the market value of our Class A common stock.

The future issuance of shares of preferred stock with voting rights may adversely affect the voting power of the holders of shares of our Class A common stock and holders of shares of our Class B common stock, either by diluting the voting power of our Class A common stock and Class B common stock if the preferred stock votes together with the common stock as a single class, or by giving the holders of any such preferred stock the right to block an action on

which they have a separate class vote, even if the action were approved by the holders of our shares of our Class A common stock and holders of shares of our Class B common stock.

The future issuance of shares of preferred stock with dividend or conversion rights, liquidation preferences or other economic terms favorable to the holders of preferred stock could adversely affect the market price for our Class A common stock by making an investment in the Class A common stock less attractive. For example, investors in the Class A common stock may not wish to purchase Class A common stock at a price above the conversion price of a series of convertible preferred stock because the holders of the preferred stock would effectively be entitled to purchase Class A common stock at the lower conversion price causing economic dilution to the holders of Class A common stock.

In addition, we could issue a significant number of shares of Class A common stock and/or Class B common stock in the future. Any of these issuances could dilute our existing stockholders, and such dilution could be significant. Moreover, such dilution could have a material adverse effect on the market price for the shares of our Class A common stock.

The requirements of being a public company may strain our resources, divert management's attention and affect our ability to attract and retain qualified board members.

As a public company, we are subject to the reporting requirements of the Securities Exchange Act of 1934, as amended, (the "Exchange Act"), the Sarbanes Oxley Act, NASDAQ rules, including those promulgated in response to the Sarbanes Oxley Act, and the Dodd-Frank Act. The requirements of these rules and regulations has and will continue to increase our legal and financial compliance costs, make some activities more difficult, time-consuming or costly and increase demand on our systems and resources. The Exchange Act requires, among other things, that we file annual, quarterly and current reports with respect to our business and financial condition. The Sarbanes Oxley Act requires, among other things, that we maintain effective disclosure controls and procedures and internal controls for financial reporting. To maintain and improve the effectiveness of our disclosure controls and procedures, we have and will continue to commit significant resources, hire additional staff and provide additional management oversight. We have and will be implementing additional procedures and processes for the purpose of addressing the standards and requirements applicable to public companies. In addition, sustaining our growth also will require us to commit additional management, operational and financial resources to identify new professionals to join our organization and to maintain appropriate operational and financial systems to adequately support expansion. These activities may divert management's attention from other business concerns, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We expect to incur significant additional annual expenses related to these steps associated with, among other things, director fees, reporting requirements, transfer agent fees, additional accounting, legal and administrative personnel, increased auditing and legal fees and similar expenses. We also expect that the rules and regulations to which we are subject as a result of being a public company will make it more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced coverage for such directors and officers. Any of these factors could make it more difficult for us to attract and retain qualified members of our board of directors. Finally, we expect to incur additional compliance costs now that we no longer qualify as an "emerging growth company" or receive the benefits of such status.

We have a limited operating history as a publicly traded company, and our relative inexperience could materially and adversely affect us and our stockholders.

Our IPO was completed in October 2013 and we have a limited operating history as a publicly traded company. Our board of directors and senior management team have overall responsibility for our management and only a limited number of our directors or members of our senior management team have prior experience in operating a public company. As a publicly traded company, we are required to develop, implement and maintain substantial control systems, policies and procedures in order to satisfy our periodic SEC reporting and NASDAQ obligations. We cannot assure you that management's past or limited current experience will be sufficient to successfully develop, implement and maintain these systems, policies and procedures and to operate our company. Failure to do so could jeopardize our status as a public company, and the loss of such status may materially and adversely affect us and our stockholders.

If we fail to establish and maintain an effective system of integrated internal controls, we may not be able to report our financial results accurately, which could have a material adverse effect on our business, financial condition and results of operations.

Ensuring that we have adequate internal financial and accounting controls and procedures in place so that we can produce accurate financial statements on a timely basis is a costly and time-consuming effort that will need to be evaluated frequently. Section 404 of the Sarbanes Oxley Act requires public companies to conduct an annual review and evaluation of their internal controls and attestations of the effectiveness of internal controls by independent auditors. We no longer qualify as an emerging growth company, and thus, we are now subject to the auditors' attestation requirement. We are also required to implement substantial control systems and procedures in order to satisfy the reporting requirements under the Exchange Act and applicable NASDAQ requirements, among other items. Establishing these internal controls have been and will continue to be costly and may divert management's attention.

Evaluation by us of our internal controls over financial reporting may identify material weaknesses that may cause us to be unable to report our financial information on a timely basis and thereby subject us to adverse regulatory consequences, including sanctions by the SEC or violations of NASDAQ listing rules. There also could be a negative reaction in the financial markets due to a loss of investor confidence in us and the reliability of our financial statements. Confidence in the reliability of our financial statements also could suffer if we or our independent registered public accounting firm were to report a material weakness in our

internal controls over financial reporting. This could materially adversely affect our business, financial condition and results of operations and could also lead to a decline in the price of our Class A common stock.

Our relatively small public float in relation to that of other public companies may adversely impact the liquidity of our Class A common stock.

Prior to our listing in October 2013, there was no public market for our Class A common stock. Our member owners control approximately 74% of the voting power of our common stock through their ownership of our Class B common stock, which is not publicly traded. As a result, our Class A common stock shares may be less liquid than the shares of other newly public companies or other public companies generally and there may be imbalances between supply and demand for our shares. As a result, our Class A common stock share price may experience significant volatility and may not necessarily reflect the value of our expected performance. We cannot assure you that a regular trading market of our Class A common stock on NASDAQ or elsewhere will be sustained. Accordingly, we cannot assure you of your ability to sell your Class A common stock when desired, or at all, or the prices that you may obtain for such Class A common stock.

If securities or industry analysts publish negative research or reports about us or our industry, or if any downgrade their recommendations regarding our Class A common stock, our Class A common stock price could decline.

The trading market for our Class A common stock is influenced by the research and reports that securities or industry analysts publish about us or our business. If any of the analysts who cover us downgrade our Class A common stock or publishes inaccurate or unfavorable research about us or our industry, our Class A common stock price may decline.

Our stock price may be volatile and may fluctuate or decline substantially.

The market price of our Class A common stock may be volatile and could be subject to wide fluctuations. Securities markets worldwide experience significant price and volume fluctuations. This market volatility, as well as general economic, market or political conditions, could reduce the market price of shares of our Class A common stock in spite of our operating performance. In addition, our operating results could be below the expectations of public market analysts and investors due to a number of potential factors, including variations in our quarterly operating results or dividends, if any, to holders of Class A common stock, additions or departures of key management personnel, failure to meet analysts' earnings estimates, publication of research reports about our industry, litigation and government investigations, changes or proposed changes in laws or regulations or differing interpretations or enforcement thereof affecting our business, adverse market reaction to any indebtedness we may incur or securities we may issue in the future, changes in market valuations of similar companies or speculation in the press or investment community, announcements by our competitors of significant contracts, acquisitions, dispositions, strategic partnerships, joint ventures or capital commitments, adverse publicity about the industries we participate in or individual scandals, and in response the market price of shares of our Class A common stock could decrease significantly.

In the past few years, stock markets have experienced extreme price and volume fluctuations. In the past, following periods of volatility in the overall market and the market price of a company's securities, securities class action litigation has often been instituted against these companies. This litigation, if instituted against us, could result in substantial costs and a diversion of our management's attention and resources.

The substantial number of shares of Class A common stock that will be eligible for sale or exchange in the near future could cause the market price for our Class A common stock to decline or make it difficult for us to raise financing through the sale of equity securities in the future.

We cannot predict the effect, if any, that market sales of shares of Class A common stock or the availability of shares of Class A common stock for sale will have on the market price of our Class A common stock from time to time. At June 30, 2015, we had 37,668,870 shares of our Class A common stock outstanding. Sales of substantial amounts of shares of our Class A common stock in the public market, or the perception that those sales will occur, could cause the market price of our Class A common stock to decline or make future offerings of our equity securities more difficult. If we are unable to sell equity securities at times and prices that we deem appropriate, we may be unable to fund our future growth.

At June 30, 2015, there were 106,382,552 Class B common units of Premier LP outstanding. In connection with the Reorganization and IPO, Premier, Inc., Premier LP and the member owners entered into an Exchange Agreement which became effective upon the completion of the Reorganization and IPO. Under this agreement, subject to certain restrictions, commencing on October 31, 2014, and during each year thereafter, each member owner has the cumulative right to exchange up to one-seventh of the Premier LP Class B common units initially allocated to such member owner (or subsequently purchased by such member owner pursuant to the related right of first refusal set forth in the Exchange Agreement), for shares of our Class A common stock,

cash or a combination of both, the form of consideration to be at the discretion of the audit committee of our board of directors, subject to certain restrictions. This exchange right can be exercised on a quarterly basis (subject to certain restrictions contained in the Registration Rights Agreement) and is subject to rights of first refusal in favor of the other holders of Class B common units and Premier LP. For each Class B common unit that is exchanged pursuant to the Exchange Agreement, the member owner will also surrender one corresponding share of Class B common stock, which will automatically be retired. Any shares of Class A common stock issued as part of this exchange would be "restricted securities," as defined in Rule 144 of the Securities Act, or Rule 144. In connection with the Reorganization and our IPO, we entered into a registration rights agreement (the "Registration Rights Agreement") with the member owners pursuant to which we registered under the Securities Act in November 2014 the resale of these shares of Class A common stock. On October 31, 2015, the second tranche of Class B common units, representing 15,901,130 units, become eligible for exchange. Including Class B common units eligible for exchange as of the date of this Annual Report, a cumulative amount of 26,572,413 Class B common units will be eligible for exchange on October 31, 2015.

In addition, we may issue and sell in the future additional shares of our Class A common stock, including the shares of Class A common stock issuable upon exchange of the Class B common units outstanding from time to time, subject to certain contractual restrictions, including those restrictions set forth in the Exchange Agreement and restrictions under the Securities Act.

We do not intend to pay any cash dividends on our Class A common stock in the foreseeable future.

We do not expect to pay any dividends on our Class A common stock in the foreseeable future. Payments of future dividends, if any, will be at the discretion of our board of directors after taking into account various factors, including our business, operating results and financial condition, current and anticipated cash needs, plans for expansion and any legal or contractual limitations on our ability to pay dividends. As a result, capital appreciation in the price of our Class A common stock, if any, may be your only source of gain on an investment in our Class A common stock.

Even if we decide in the future to pay any dividends, Premier, Inc. is a holding company with no independent operations of its own, and depends on distributions from Premier LP to pay taxes, make payments under the Tax Receivable Agreements or pay any cash dividends on our Class A common stock. Deterioration in the financial conditions, earnings or cash flow of Premier LP and its subsidiaries for any reason could limit or impair their ability to pay cash distributions or other distributions to Premier, Inc. (indirectly through Premier GP). Premier LP and its subsidiaries may be restricted from distributing cash to Premier GP by, among other things, applicable law or regulation or under the terms of our unsecured revolving credit facility.

Future issuances of debt securities, which would rank senior to shares of our Class A common stock upon our liquidation, and future issuances of equity securities (including units of Premier LP), which would dilute the holders of shares of our existing Class A common stock and may be senior to shares of our Class A common stock for the purposes of making distributions, periodically or upon liquidation, may materially and adversely affect the market price of shares of our Class A common stock.

In the future, we may issue debt or equity securities or incur other borrowings. Upon our liquidation, holders of our debt securities and other loans and preferred shares will receive a distribution of our available assets before holders of shares of our Class A common stock. We are not required to offer any such additional debt or equity securities to existing stockholders on a preemptive basis. Therefore, additional issuances of our Class A common stock, directly or through convertible or exchangeable securities (including Class B common units), warrants or options, will dilute the holders of shares of our existing Class A common stock and such issuances or the perception of such issuances may reduce the market price of shares of our Class A common stock. Our preferred shares, if issued, would likely have a preference on distribution payments, periodically or upon liquidation, which could limit our ability to make

distributions to holders of shares of our Class A common stock. Because our decision to issue debt or equity securities or otherwise incur debt in the future will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future capital raising efforts. Thus, holders of shares of our Class A common stock bear the risk that our future issuances of debt or equity securities or our other borrowings will reduce the market price of shares of our Class A common stock and dilute their ownership in us.

Item 1B. Unresolved Staff Comments

None

Item 2. Properties

We occupy our Charlotte, North Carolina headquarters under a long-term lease which expires in 2026 and includes options for us, at our discretion, to renew the lease for up to fifteen years in total beyond that date. We also lease our specialty pharmacy location in Fort Lauderdale, Florida, our advocacy public affairs office in Washington, DC, and several other smaller facilities.

46

Our headquarters and other properties are suitable for their respective uses and are, in all material respects, adequate for our present needs. As of June 30, 2015, we occupy and lease the following facilities:

	Location	Lease Expiration Date
Aperek, Inc.	Raleigh, NC	June 30, 2019
Commcare Pharmacy FTL, LLC	Ft. Lauderdale, FL	August 31, 2016
Commcare Pharmacy MIA, LLC	Miami, FL	January 31, 2018
Commcare Pharmacy WPB, LLC	West Palm Beach, FL	November 15, 2016
Meddius, LLC	Charlottesville, VA	November 1, 2017
MEMdata, LLC	College Station, TX	April 3, 2017
Premier, Inc.	Charlotte, NC	February 28, 2026
Premier, Inc.	Washington, DC	April 30, 2019
Premier Insurance Management Services, Inc.	San Diego, CA	November 30, 2019
SVS, LLC	Charlotte, NC	April 30, 2016
SVS, LLC	Rockville, MD	November 30, 2017
SYMMEDRx, LLC	Overland Park, KS	November 30, 2019
TheraDoc, Inc.	Salt Lake City, UT	March 31, 2017

Leases approaching their stated expiration dates are generally extended pursuant to their terms or renegotiated as required. We currently expect leases with stated expiration dates during the next year to be extended or renegotiated accordingly.

Item 3. Legal Proceedings

We participate in businesses that are subject to substantial litigation. We are periodically involved in litigation, arising in the ordinary course of business or otherwise, which from time to time may include claims relating to commercial, product liability, employment, antitrust, intellectual property or other regulatory matters, among others. If current or future government regulations are interpreted or enforced in a manner adverse to us or our business, specifically those with respect to antitrust or healthcare laws, we may be subject to enforcement actions, penalties and other material limitations on our business.

From time to time we have been named as a defendant in several lawsuits brought by suppliers of medical products. Typically, these lawsuits have alleged the existence of a conspiracy among manufacturers of competing products and operators of GPOs, including us, to deny the plaintiff access to a market for its products. We believe that we have at all times conducted our business affairs in an ethical and legally compliant manner and have successfully resolved all such actions. No assurance can be given that we will not be subjected to similar actions in the future or that such matters will be resolved in a manner satisfactory to us or which will not harm our business, financial condition or results of operations.

Additional information relating to certain legal proceedings in which we are involved is included in Note 23 - Commitments and Contingencies, to the accompanying consolidated financial statements, which is incorporated herein by reference.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our Class A common stock has been publicly traded on the NASDAQ Global Select Market under the ticker symbol "PINC" since September 26, 2013. Prior to that date, there was no public trading market for our Class A common stock. Our Class B common stock is not publicly traded. The following table sets forth, for the periods indicated, the high and low prices of our Class A common stock on the NASDAQ Global Select Market.

Price Range of Common Stock

	Price Range of Common Stock	
	High	Low
Fiscal Year ended June 30, 2015		
Fourth Quarter	\$39.81	\$36.04
Third Quarter	\$39.20	\$31.36
Second Quarter	\$35.27	\$29.29
First Quarter	\$32.98	\$27.95

	Price Range of Common Stock	
	High	Low
Fiscal Year ended June 30, 2014		
Fourth Quarter	\$35.00	\$26.52
Third Quarter	\$38.87	\$32.04
Second Quarter (from September 26, 2013)	\$38.51	\$29.30
Holders		

Based on the stock transfer records of our Class A common stock transfer agent, as of August 21, 2015, there were 37,762,718 shares of our Class A common stock issued and outstanding, held by one holder of record. Because substantially all of our Class A common stock is held by brokers and other institutions on behalf of shareholders, we are unable to estimate the total number of beneficial owners currently holding our Class A common stock. As of August 21, 2015, 106,078,063 shares of our Class B common stock are issued and outstanding, held by one holder of record, the trustee of the Premier Trust. However, our Class B common stock is beneficially owned by our 176 member owners.

Dividend Policy

We did not pay any dividends during the fiscal years ended June 30, 2015 and 2014. We do not anticipate paying any cash dividends for the foreseeable future. Furthermore, shares of our Class B common stock are not entitled to any dividend payments. The payment of dividends, if any, is subject to the discretion of our board of directors and will depend on many factors, including our results of operations, financial condition and capital requirements, earnings, general business conditions, restrictions imposed by our current and any future financing arrangements, legal restrictions on the payment of dividends and other factors our board of directors deems relevant. Our current credit facilities include restrictions on our ability to pay dividends.

Securities Authorized for Issuance Under Equity Compensation Plans

The information required by Item 201(d) of Regulation S-K is provided under Item 12, Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters incorporated herein by reference.

Purchases of Equity Securities

There were no repurchases of equity securities during the year ended June 30, 2015. We do not have any publicly announced or other repurchase plans regarding our Class A common stock.

Company Stock Performance

The performance graph below shows a 21-month comparison of the total cumulative return, assuming reinvestment of all dividends, had \$100 been invested at the close of business on September 26, 2013 (our first trading day), in each of:

- our Class A common stock;
- the Standard & Poor's S&P 500® stock index ("S&P 500 index");
- the NASDAQ Composite stock index ("NASDAQ Composite index");
- a customized peer group of fourteen companies selected by us that we believe is better aligned with our company (the "Peer Group"); and
- a customized peer group of twelve companies previously used by us (the "Prior Peer Group").

In our Form 10-K for the year ended June 30, 2014, we used the S&P 500 index as our broad equity market index for our performance graph comparison. However, we have determined that the NASDAQ Composite index is a more appropriate broad equity market index because it is a broader index and our stock is listed on NASDAQ. Our Class A common stock is not part of the S&P 500 index.

We have used the Peer Group, a group selected in good faith and used by our compensation committee for benchmarking purposes, for peer comparison purposes because we believe this group provides an accurate representation of our peers. The Peer Group consists of the following fourteen companies: Advisory Board Co, Allscripts Healthcare Solutions Inc., Athenahealth Inc., Cerner Corp, HMS Holdings Corp, Huron Consulting Group Inc., IHS Inc., IMS Health Holdings Inc., Magellan Health Inc., MedAssets Inc., Navigant Consulting Inc., Owens & Minor Inc., Patterson Companies Inc. and Quality Systems Inc. The Prior Peer Group consists of the following twelve companies: Advisory Board Co., Allscripts Healthcare Solutions, Inc., Athenahealth, Inc., Cardinal Health Inc., Cerner Corp, HMS Holdings Corp, Huron Consulting Group Inc., McKesson Corp, MedAssets Inc., Navigant Consulting Inc., Owens & Minor Inc. and Quality Systems Inc.

Compared to the Prior Peer Group, our current Peer Group includes: IHS Inc., IMS Health Holdings Inc, Magellan Health Inc. and Patterson Companies, Inc. and excludes: Cardinal Health, Inc. and McKesson Corp. Our compensation committee determined it appropriate to reconfigure our peer group to a more representative group of appropriately sized companies that reflect our diverse and growing business model. As we grow and develop as a public company, and as the companies in our Peer Group change, our Compensation Committee will continue to review and reconfigure our Peer Group as applicable.

The information contained in the performance graph below shall not be deemed "soliciting material" or to be "filed" with the SEC nor shall such information be deemed incorporated by reference into any future filing under the Securities Act or the Exchange Act except to the extent we specifically incorporate it by reference into such filing.

Value of Investment as of Stated Date:

Company/Index Name	9/26/2013	6/30/2014	6/30/2015
Premier, Inc. Class A Common Stock*	\$100.00	\$94.62	\$125.48
S&P 500	\$100.00	\$118.40	\$127.19
NASDAQ Composite	\$100.00	\$117.85	\$133.69
Peer Group	\$100.00	\$106.38	\$119.55
Prior Peer Group	\$100.00	\$125.47	\$149.64

* As noted above, we have not paid any cash dividends during the period covered by the graph.

We will neither make nor endorse any predictions as to future stock performance or whether the trends depicted in the graph above will continue or change in the future. The stock price performance included in this graph is not necessarily indicative of future stock price performance.

Item 6. Selected Financial Data

The Company, through its wholly-owned subsidiary, Premier GP, holds an approximately 26% controlling general partner interest in, and, as a result, consolidates the financial statements of, Premier LP. The limited partners' approximately 74% ownership of Premier LP is reflected as redeemable limited partners' capital in the Company's consolidated balance sheets, and their proportionate share of income in Premier LP is reflected within net income attributable to noncontrolling interest in Premier LP in the Company's consolidated statements of income and within comprehensive income attributable to noncontrolling interest in the consolidated statements of comprehensive income. After the completion of the Reorganization following the consummation of our IPO, PHSI became our consolidated subsidiary and is considered our predecessor for accounting purposes. Accordingly, PHSI's consolidated financial statements are our historical financial statements, for periods prior to October 1, 2013. The historical consolidated financial statements of PHSI are reflected herein based on PHSI's historical ownership interests of Premier LP and its consolidated subsidiaries. See Note 2 - Initial Public Offering and Reorganization to the audited consolidated financial statements of this Annual Report for further information related to the IPO and the Reorganization.

We derived the selected historical consolidated financial data presented below for the years ended June 30, 2015, 2014, 2013, 2012 and 2011 from the audited consolidated financial statements and related notes of Premier, Inc, and PHSI, as applicable, included elsewhere in this Annual Report. You should refer to Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, and the notes to the accompanying consolidated financial statements for additional information regarding the financial data presented below, including matters that might cause this data not to be indicative of our future financial position or results of operations.

We have reclassified certain prior period amounts to be consistent with the current period presentation.

The following tables set forth selected historical consolidated financial and operating data for the five-year period ended June 30, 2015 and should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, and our audited consolidated financial statements contained elsewhere herein.

Edgar Filing: Premier, Inc. - Form 10-K

(1) Amounts include the results of operations of TheraDoc, Inc. ("TheraDoc") and Aperek, Inc. ("Aperex"), both in our performance services segment, from September 1, 2014 and August 29, 2014, respectively, the dates of acquisition of all the outstanding shares of common stock of TheraDoc for \$108.6 million and Aperek for \$47.4 million. See Note 4 - Business Acquisitions to the audited consolidated financial statements of this Annual Report for further information related to acquisitions completed during the year ended June 30, 2015.

(2) Amounts include the results of operations of MEMdata, LLC ("MEMdata"), Meddius, L.L.C. ("Meddius") and SYMMEDRx, LLC ("SYMMEDRx"), all in our performance services segment, from April 7, 2014, October 31, 2013 and July 19, 2013, respectively, the dates of acquisition of all the outstanding shares of common stock of MEMdata for \$6.1 million, Meddius for \$7.7 million and SYMMEDRx for \$28.7 million. See Note 4 - Business Acquisitions to the audited consolidated financial statements of this Annual Report for further information related to acquisitions completed during the year ended June 30, 2014.

(3) Amounts include the results of operations of S2S Global in our supply chain services segment from December 6, 2011 the date of acquisition of 60% of the outstanding shares of common stock of S2S Global for \$500,000.

(4) Amounts include the results of operations of Commcare in our supply chain services segment from November 1, 2010, the date of acquisition of all the outstanding shares of common stock of Commcare for \$35.9 million.

(5) Following the completion of the Reorganization and IPO, we are contractually required under the GPO participation agreements to pay each member owner revenue share from Premier LP equal to 30% of all gross administrative fees collected by Premier LP based upon purchasing by such member owner's member facilities through our GPO supplier contracts. Prior to the Reorganization and IPO, we did not generally have a contractual requirement to pay revenue share to member owners participating in our GPO programs, but paid semi-annual distributions of partnership income. In addition, certain non-owner members have historically operated under, and, following the Reorganization and IPO, continue to operate under contractual relationships that provide for a specific revenue share that differs from the 30% revenue share that we provide to our member owners under the GPO participation agreements following the Reorganization and IPO. As a result, our revenue share expense as a percentage of gross administrative fees increased for the fiscal years ended June 30, 2015 and 2014 which resulted in a decrease in net administrative fees for the fiscal year ended June 30, 2015 and 2014 when compared to the actual net administrative fees for the prior fiscal years.

(6) Other income, net consists primarily of equity in net income of unconsolidated affiliates related to our 50% ownership interest in Innovatix, interest income, net and realized gains and losses on our marketable securities (which represent our interest and investment income, net) and gain or loss on disposal of assets.

(7) PSCI currently owns a 100% voting and economic interest in S2S Global as a result of its February 2, 2015 purchase of the remaining noncontrolling interest (40%) in S2S Global. Prior to February 2, 2015, PSCI owned a 60% voting and economic interest in S2S Global. Net loss attributable to noncontrolling interest in S2S Global represents the portion of net loss attributable to the noncontrolling equity holders of S2S Global (40%) prior to the February 2, 2015 purchase.

(8) PHSI, through Premier Plans, owned a 1% controlling general partnership interest in Premier LP prior to the Reorganization. Net income attributable to noncontrolling interest in Premier LP represents the portion of net income

attributable to the limited partners of Premier LP, which was 78% following the Reorganization and 99% prior to the Reorganization.

(9) Working capital represents the excess of total current assets over total current liabilities.

(10) Deferred revenue is primarily related to deferred subscription fees and deferred advisory fees in our performance services segment and consists of unrecognized revenue related to advanced member invoicing or member payments received prior to fulfillment of our revenue recognition criteria.

(11) Redeemable limited partners' capital consists of the limited partners' approximately 74% ownership of Premier LP after the Reorganization and IPO and subsequent quarterly exchanges pursuant to the Exchange Agreement and 99% ownership of Premier LP prior to the Reorganization and IPO. Pursuant to the terms of the existing limited partnership agreement of Premier LP, Premier LP is required to repurchase a limited partner's interest upon the withdrawal of such limited partner and therefore the interest in Premier LP is classified as temporary equity in the mezzanine section of the consolidated balance sheets. The Company records redeemable limited partners' capital at the greater of the book value or redemption amount per the LP Agreement at the reporting date, with the corresponding offset to additional paid-in-capital and retained earnings (accumulated deficit).

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our audited consolidated financial statements and the notes thereto included elsewhere in this Annual Report. This discussion is designed to provide the reader with information that will assist in understanding our consolidated financial statements, the changes in certain key items in those financial statements from year to year, and the primary factors that accounted for those changes, as well as how certain accounting principles affect our consolidated financial statements. In addition, the following discussion includes certain forward-looking statements. For a discussion of important factors, including the continuing development of our business and other factors which could cause actual results to differ materially from the results referred to in the forward-looking statements, see "Item 1A Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements" contained in this Annual Report.

Business Overview

Our Business

We are a leading healthcare performance improvement company, uniting an alliance of approximately 3,600 U.S. hospitals and 120,000 other providers to transform healthcare. We unite hospitals, health systems, physicians and other healthcare providers with the common goal of improving and innovating in the clinical, financial and operational areas of their business to meet the demands of a rapidly evolving healthcare industry. We deliver value through a comprehensive technology-enabled platform that offers critical supply chain services, clinical, financial, operational and population health SaaS informatics products, advisory services and performance improvement collaborative programs.

As of June 30, 2015, we were controlled by 176 U.S. hospitals, health systems and other healthcare organizations that represent approximately 1,300 owned, leased and managed acute care facilities and other non-acute care organizations, through the holdings of Class B common stock, which they received upon the consummation of the Reorganization and IPO on October 1, 2013. As of June 30, 2015, the Class A common stock and Class B common stock represented approximately 26% and 74% of our combined Class A and Class B common stock (the "common stock"). As of June 30, 2015, all of our Class A common stock was held by public investors, which may include member owners that have received shares of our Class A common stock in connection with previous quarterly exchanges pursuant to the Exchange Agreement discussed in Note 2 - Initial Public Offering and Reorganization to the audited consolidated financial statements.

We generated net revenue of \$1,007.0 million, \$910.5 million and \$869.3 million, net income of \$234.8 million, \$332.6 million, and \$375.1 million and Adjusted EBITDA of \$393.2 million, \$392.3 million, and \$419.0 million for the fiscal years ended June 30, 2015, 2014, and 2013, respectively. On a non-GAAP pro forma basis, after giving effect to the Reorganization and the IPO, we generated net revenue of \$1,007.0 million, \$869.3 million and \$764.3 million, net income of \$234.8 million, \$294.6 million and \$247.3 million, and Adjusted EBITDA of \$393.2 million,

\$351.0 million, and \$314.0 million for the fiscal years ended June 30, 2015, 2014 and 2013, respectively. Non-GAAP pro forma adjustments for the impact of the Reorganization and IPO do not impact operating results for the year ended June 30, 2015.

Our Business Segments

Our business model and solutions are designed to provide our members access to scale efficiencies, spread the cost of their development, provide actionable intelligence derived from anonymized data in our data warehouse provided by our members, mitigate the risk of innovation and disseminate best practices that will help our member organizations succeed in their transformation to higher quality and more cost-effective healthcare. We deliver our integrated platform of solutions that address the areas of total cost management, quality and safety improvement and population health management through two business segments: supply chain services and performance services.

Our supply chain services segment includes one of the largest healthcare GPOs in the United States, serving acute and alternate sites, a specialty pharmacy and our direct sourcing activities. Supply chain services net revenue grew from \$678.1 million for fiscal year 2014 to \$738.3 million for fiscal year 2015, representing net revenue growth of 9%, and accounted for 73% of our overall net revenue. Supply chain services segment net revenue grew from \$664.1 million in fiscal year 2013 to \$678.1 million in fiscal year 2014, representing net revenue growth of 2%, and in fiscal year 2014 accounted for 74% of our overall net revenue. We generate revenue in our supply chain services segment from fees received from suppliers based on the total dollar volume of supplies purchased by our members and through product sales in connection with our specialty pharmacy and direct sourcing activities.

Our performance services segment includes one of the largest informatics and advisory services businesses in the United States focused on healthcare providers. Performance services net revenue grew from \$232.4 million for fiscal year 2014 to \$268.8 million for fiscal year 2015, representing revenue growth of 16%, and in fiscal year 2015 accounted for 27% of our overall net revenue. Performance services net revenue grew from \$205.2 million in fiscal year 2013 to \$232.4 million in fiscal year 2014, representing net revenue growth of 13%, and in fiscal year 2014 accounted for 26% of our overall net revenue. Our SaaS informatics products utilize our comprehensive data set to provide actionable intelligence to our members, enabling them to benchmark, analyze and identify areas of improvement across three main categories: cost management, quality and safety and population health management. This segment also includes our technology-enabled performance improvement collaboratives.

Reorganization and IPO

On October 1, 2013, we completed our IPO by issuing 32,374,751 shares of our Class A common stock, at a price of \$27.00 per share, raising net proceeds of approximately \$821.7 million, after underwriting discounts and commissions, but before expenses. In addition, on October 1, 2013, upon the consummation of the IPO, we completed the Reorganization. See Note 2 - Initial Public Offering and Reorganization to the audited consolidated financial statements contained herein for more information.

We incurred strategic and financial restructuring expenses in connection with the Reorganization and IPO of approximately \$1.4 million, \$3.8 million and \$5.2 million during fiscal years ended June 30, 2015, 2014 and 2013, respectively. The strategic and financial restructuring expense incurred during fiscal year ended June 30, 2015 is primarily attributable to the company directed offering conducted pursuant to the Registration Rights Agreement discussed in Note 2 - Initial Public Offering and Reorganization to the audited consolidated financial statements.

We may incur additional financial and restructuring expenses in connection with future quarterly exchanges pursuant to the Exchange Agreement and company directed offerings pursuant to the Registration Rights Agreement.

Acquisitions

On February 2, 2015 we purchased the remaining 40% of the outstanding shares of common stock of S2S Global for approximately \$14.5 million. In connection with the purchase, we repaid the \$14.2 million balance outstanding under the S2S Global line of credit and terminated the line of credit. We utilized available funds on hand to complete the acquisition and pay-off the S2S Global line of credit.

On September 1, 2014, we completed the acquisition of TheraDoc, Inc. ("TheraDoc"), a leading provider of clinical surveillance software to healthcare organizations across the country that bring together disparate data from a hospital's source systems and helps alert clinicians to potential risks, for \$108.6 million. We utilized available funds on hand to complete the acquisition. The primary reason for our acquisition of TheraDoc was to augment our capabilities across our existing platform and associated applications in an effort to help our hospital and health system members to

improve clinical outcomes, lower costs, and strengthen regulatory compliance.

On August 29, 2014 we completed the acquisition of Aperek, Inc. ("Aperk"), (formerly Mediclick), a SaaS-based supply chain solutions company focused on purchasing workflow and analytics, for \$47.4 million. We utilized available funds on hand to complete the acquisition. The primary reason for our acquisition of Aperk, a business with a track record of analyzing and

reducing costs for health systems through the innovative use of data, was to continue to strengthen the Company's ability to drive improvement in member cost savings.

See Note 4 - Business Acquisitions and Note 25 - Subsequent Events to the audited consolidated financial statements contained herein for more information regarding our acquisition activities.

Market and Industry Trends and Outlook

We expect that certain trends and economic or industry-wide factors will continue to affect our business, both in the short-term and long-term. We have based our expectations described below on assumptions made by us and on information currently available to us. To the extent our underlying assumptions about, or interpretation of, available information prove to be incorrect, our actual results may vary materially from our expected results. See "Cautionary Note Regarding Forward-Looking Statements."

Trends in the U.S. healthcare market affect our revenues in the supply chain services and performance services segments. The trends we see affecting our current healthcare business include the implementation of healthcare reform legislation, expansion of insurance coverage, intense cost pressure, payment reform, provider consolidation, shift in care to the alternate site market and increased data availability and transparency. To meet the demands of this environment, there will be increased focus on scale and cost containment and healthcare providers will need to measure and report on, and bear financial risk for, outcomes. We believe these trends will result in increased demand for our supply chain services and performance services solutions in the areas of cost management, quality and safety, population health management and PremierConnect® Enterprise, a cloud-based data warehousing, collaboration and content management solution that allows our members to aggregate and share information on one common platform that is both payer and supplier neutral.

Key Components of Our Results of Operations

Net Revenue

Net revenue consists of (i) service revenue, which includes net administrative fees revenue and other services and support revenue and (ii) product revenue. Net administrative fees revenue consists of GPO administrative fees in our supply chain services segment. Other services and support revenue consists primarily of fees generated by our performance services segment in connection with our SaaS informatics products subscriptions, license fees, advisory services and performance improvement collaborative subscriptions. Product revenue consists of specialty pharmacy and direct sourcing product sales, which are included in the supply chain services segment.

Supply Chain Services

Supply chain services revenue consists of GPO net administrative fees (gross administrative fees received from suppliers, reduced by the amount of any revenue share paid to members), specialty pharmacy revenue and direct sourcing revenue.

The success of our supply chain services revenue streams are influenced by the number of members that utilize our GPO supplier contracts and the volume of their purchases, the number of members that utilize our specialty pharmacy, as well as the impact of changes in the defined allowable reimbursement amounts determined by Medicare, Medicaid and other managed care plans, and the number of members that purchase products through our direct sourcing activities and the impact of competitive pricing.

Performance Services

Performance services revenue consists of SaaS informatics products subscriptions, license fees, performance improvement collaborative and other service subscriptions, professional fees for advisory services, and insurance services management fees and commissions from endorsed commercial insurance programs.

Our performance services growth will depend upon the expansion of our SaaS informatics products, performance improvement collaboratives and advisory services to new and existing members, impact of applied research initiatives, renewal of existing subscriptions to our SaaS informatics products and expansion into new markets with potential future acquisitions.

Cost of Revenue

Cost of service revenue includes expenses related to employees (including compensation and benefits) and outside consultants who directly provide services related to revenue-generating activities, including advisory services to members and implementation services related to SaaS informatics products. Cost of service revenue also includes expenses related to hosting services, related data center capacity costs, third-party product license expenses and amortization of the cost of internal use software.

Cost of product revenue consists of purchase and shipment costs for specialty pharmaceuticals and direct sourced medical products. Our cost of product revenue will be influenced by the cost and availability of specialty pharmaceuticals and the manufacturing and transportation costs associated with direct sourced medical products.

Operating Expenses

Selling, general and administrative expenses consist of expenses directly associated with selling and administrative employees and indirect costs associated with employees that primarily support revenue-generating activities (including compensation and benefits) and travel-related expenses, as well as occupancy and other indirect costs, insurance costs, professional fees, and other general overhead expenses. General and administrative expenses have increased as a result of being a public company, including stock-based compensation expense related to the equity incentive plan established in connection with the Reorganization and IPO.

Research and development expenses consist of employee-related compensation and benefits expenses, and third-party consulting fees of technology professionals, incurred to develop, support and maintain our software-related products and services.

Amortization of purchased intangible assets includes the amortization of all identified intangible assets resulting from acquisitions.

Other Income, Net

Other income, net, consists primarily of equity in net income of unconsolidated affiliates that is generated from our 50% ownership interest in Innovatix. A change in the number of, and use by, members that participate in our GPO programs through Innovatix could have a significant effect on the amounts earned from this investment. Other income, net, also includes interest income, net, and realized gains and losses on our marketable securities as well as gains or losses on disposal of assets.

Income Tax Expense

Income tax expense includes the income tax expense attributable to Premier, PHSI and PSCI. For federal and state income tax purposes, income realized by Premier LP is taxable to its partners. As such, the low effective tax rate is attributable to the flow through of Premier LP income, which is not subject to federal and state income tax at Premier.

Net Income Attributable to Noncontrolling Interest

As of June 30, 2015, we owned an approximate 26% controlling general partner interest in Premier LP through Premier GP. We owned a 100% voting and economic interest in S2S Global, through our 100% interest in PSCI, as a result of the purchase of the remaining 40% noncontrolling interest on February 2, 2015. Net income attributable to noncontrolling interest represents the portion of net income attributable to the limited partners of Premier LP (approximately 74%) and the portion of net income or loss attributable to the noncontrolling equity holders of S2S Global (40%) prior to the February 2, 2015 purchase. Our noncontrolling interest attributable to limited partners of Premier LP was reduced from 99% to approximately 78% upon the Reorganization, and further reduced to approximately 74%, as of June 30, 2015, as a result of completed quarterly exchanges pursuant to the Exchange Agreement.

Other Key Business Metrics

The other key business metrics we consider are EBITDA, Adjusted EBITDA, Segment Adjusted EBITDA, Adjusted Fully Distributed Net Income, Adjusted Fully Distributed Earnings Per Share, and Free Cash Flow.

We define EBITDA as net income before interest and investment income, net, income tax expense, depreciation and amortization and amortization of purchased intangible assets. We define Adjusted EBITDA as EBITDA before merger and acquisition related expenses and non-recurring, non-cash or non-operating items, and including equity in net income of unconsolidated affiliates. For all non-GAAP financial measures, we consider non-recurring items to be expenses and other items that have not been incurred within the prior two years and are not expected to recur within the next two years. Such expenses include certain strategic and financial restructuring expenses. Non-operating items include gain or loss on disposal of assets.

We define Segment Adjusted EBITDA as the segment's net revenue less operating expenses directly attributable to the segment excluding depreciation and amortization, amortization of purchased intangible assets, merger and acquisition related expenses and non-recurring or non-cash items, and including equity in net income of unconsolidated affiliates.

Operating expenses directly attributable to the segment include expenses associated with sales and marketing, general and administrative and product development activities specific to the operation of each segment. General and administrative corporate expenses that are not specific to a particular segment are not included in the calculation of Segment Adjusted EBITDA.

We define Adjusted Fully Distributed Net Income as net income attributable to Premier (i) excluding income tax expense, (ii) excluding the effect of non-recurring and non-cash items, (iii) assuming the exchange of all the Class B common units into shares of Class A common stock, which results in the elimination of noncontrolling interest in Premier LP and (iv) reflecting an adjustment for income tax expense on non-GAAP pro forma fully distributed net income before income taxes at our estimated effective income tax rate. Adjusted Fully Distributed Net Income is a non-GAAP financial measure because it represents net income attributable to Premier before merger and acquisition related expenses and non-recurring or non-cash items and the effects of noncontrolling interests in Premier LP.

We define Adjusted Fully Distributed Earnings Per Share as earnings per share attributable to Premier (i) excluding income tax expense, (ii) excluding impact of adjustment of redeemable limited partners' capital to redemption amount, (iii) excluding the effect of non-recurring and non-cash items, (iv) assuming the exchange of all the Class B common units into shares of Class A common stock, which results in the elimination of noncontrolling interest in Premier LP and (v) reflecting an adjustment for income tax expense on non-GAAP pro forma fully distributed net income before income taxes at our estimated effective income tax rate. Adjusted Fully Distributed Earnings Per Share is a non-GAAP financial measure because it represents earnings per share attributable to Premier before merger and acquisition related expenses and non-recurring or non-cash items, the effects of noncontrolling interests in Premier LP, and the impact of the adjustment of redeemable limited partners' capital to redemption amount.

We define Free Cash Flow as net cash provided by operating activities less distributions to limited partners and purchases of property and equipment. Free Cash Flow is a non-GAAP financial measure because it does not represent net cash provided by operating activities alone but takes into consideration the ongoing distributions to limited partners and purchase of property and equipment that are necessary for ongoing business operations and long-term value creation. We believe Free Cash Flow is an important measure because it represents the cash that we generate after payment of tax distributions to limited partners and capital investment to maintain existing products and services as well as development of new and upgraded products and services to support future growth. Free Cash Flow is important because it allows us to enhance shareholder value through acquisitions, partnerships, joint ventures, investments in related business and/or debt reduction. Also, Free Cash Flow does not represent discretionary cash available for spending as it excludes certain contractual obligations such as debt repayment.

Adjusted EBITDA and Free Cash Flow are supplemental financial measures used by us and by external users of our financial statements. We consider Adjusted EBITDA and Free Cash Flow to be indicators of the operational strength and performance of our business. Adjusted EBITDA and Free Cash Flow measures allow us to assess our performance without regard to financing methods and capital structure and without the impact of other matters that we do not consider indicative of the operating performance of our business. Segment Adjusted EBITDA is the primary earnings measure we use to evaluate the performance of our business segments.

We use Adjusted EBITDA, Segment Adjusted EBITDA, Adjusted Fully Distributed Net Income and Adjusted Fully Distributed Earnings Per Share to facilitate a comparison of our operating performance on a consistent basis from period to period that, when viewed in combination with our results prepared in accordance with GAAP, provides a more complete understanding of factors and trends affecting our business than GAAP measures alone. We believe Adjusted EBITDA and Segment Adjusted EBITDA assist our board of directors, management and investors in comparing our operating performance on a consistent basis from period to period because they remove the impact of our asset base (primarily depreciation and amortization) and items outside the control of our management team (taxes), as well as other non-cash (impairment of intangible assets, purchase accounting adjustments and stock-based compensation) and non-recurring items (strategic and financial restructuring expenses), from our operations. We believe Adjusted Fully Distributed Net Income and Adjusted Fully Distributed Earnings Per Share assist our board of directors, management and investors in comparing our net income and earnings per share on a consistent basis from period to period because it removes non-cash (impairment of intangible assets, purchase accounting adjustments and stock-based compensation) and non-recurring items (strategic and financial restructuring expenses), and eliminates the variability of noncontrolling interest as a result of member owner exchanges of Class B common units into shares of Class A common stock (which exchanges are a member owner's cumulative right, but not obligation, which began on October 31, 2014, and occur each year thereafter, and are limited to one-seventh of the member owner's initial allocation of Class B common units).

Despite the importance of these non-GAAP financial measures in analyzing our business, determining compliance with certain financial covenants in our new revolving facility, measuring and determining incentive compensation and evaluating our operating performance relative to our competitors, EBITDA, Adjusted EBITDA, Segment Adjusted EBITDA, Adjusted Fully Distributed Net Income, Adjusted Fully Distributed Earnings Per Share and Free Cash Flow are not measurements of financial performance under GAAP, may have limitations as analytical tools and should not be considered in isolation from, or as an alternative to, net income, net cash provided by operating activities, or any other measure of our performance derived in accordance with GAAP. Some of the limitations of EBITDA, Adjusted EBITDA and Segment Adjusted EBITDA include that they do not reflect: our capital expenditures or our future requirements for capital expenditures or contractual commitments; changes in, or cash requirements for, our working capital needs; the interest expense or the cash requirements to service interest or principal payments under our revolving credit facility; income tax payments we are required to make; and any cash requirements for replacements of assets

being depreciated or amortized. In addition, EBITDA, Adjusted EBITDA, Segment Adjusted EBITDA and Free Cash Flow are not measures of liquidity under GAAP, or otherwise, and are not alternatives to cash flows from continuing operating activities.

Some of the limitations of Adjusted Fully Distributed Net Income and Adjusted Fully Distributed Earnings Per Share are that they do not reflect income tax expense or income tax payments we are required to make. In addition, Adjusted Fully Distributed Net Income and Adjusted Fully Distributed Earnings Per Share are not measures of profitability under GAAP.

We also urge you to review the reconciliation of these non-GAAP measures included elsewhere in this Annual Report. To properly and prudently evaluate our business, we encourage you to review the audited consolidated financial statements and related notes included elsewhere in this Annual Report, and to not rely on any single financial measure to evaluate our business. In addition, because EBITDA, Adjusted EBITDA, Segment Adjusted EBITDA, Adjusted Fully Distributed Net Income, Adjusted Fully Distributed Earnings Per Share and Free Cash Flow are susceptible to varying calculations, the EBITDA, Adjusted EBITDA, Segment Adjusted EBITDA, Adjusted Fully Distributed Net Income, Adjusted Fully Distributed Earnings Per Share and Free Cash Flow measures, as presented in this Annual Report, may differ from, and may therefore not be comparable to, similarly titled measures used by other companies.

As discussed in more detail below under "Results of Operations," we also use a non-GAAP pro forma presentation in this Annual Report for consolidated operating results prior to October 1, 2013, the effective date of the Reorganization and IPO. We believe this presentation is useful because our consolidated operating results prior to the Reorganization and IPO are not indicative of our results for periods after the Reorganization and IPO. This non-GAAP pro forma presentation is for informational purposes only and does not purport to reflect our historical results or operations or financial position. This non-GAAP pro forma presentation should not be relied upon as being indicative of our financial condition or results of operations had the Reorganization and IPO occurred on the dates assumed. Further, this presentation does not project our results of operations or financial position for any future period or date. You should carefully review our historical actual results presented herein.

Results of Operations

Our consolidated operating results prior to October 1, 2013 do not reflect (i) the Reorganization, (ii) the IPO and the use of the proceeds from the IPO or (iii) additional expenses we incur as a public company. As a result, our consolidated operating results prior to the Reorganization and IPO are not indicative of what our results of operations are for periods after the Reorganization and IPO. In addition to presenting the historical actual results, we have presented non-GAAP pro forma results reflecting the following for all applicable periods presented, to provide a more indicative comparison between current and prior periods. The non-GAAP pro forma consolidated financial information is included for informational purposes only and does not purport to reflect our results of operations or financial position that would have occurred had we operated as a public company during the applicable periods presented. The non-GAAP pro forma consolidated financial information should not be relied upon as being indicative of our financial condition or results of operations had the Reorganization and IPO occurred on the dates assumed. The non-GAAP pro forma consolidated financial information also does not project our results of operations or financial position for any future period or date. The non-GAAP pro forma results reflect the following for the periods indicated: The contractual requirement under the GPO participation agreements to pay each member owner revenue share from Premier LP equal to 30% of all gross administrative fees collected by Premier LP based upon purchasing by such member owner's member facilities through Premier LP's GPO supplier contracts. Historically, Premier LP did not generally have a contractual requirement to pay revenue share to member owners participating in its GPO programs, but paid semi-annual distributions of partnership income.

Additional U.S. federal, state and local income taxes with respect to its additional allocable share of any taxable income of Premier LP.

A decrease in noncontrolling interest in Premier LP from 99% to approximately 78%.

Edgar Filing: Premier, Inc. - Form 10-K

Years Ended June 30, 2015 and 2014

The following table summarizes our actual consolidated results of operations for the fiscal years ended June 30, 2015 and 2014 and non-GAAP pro forma consolidated results of operations for the fiscal year ended June 30, 2014 (in thousands, except per share data):

	Year Ended June 30, 2015			2014			Adjustments ⁽¹⁾			Non-GAAP Pro Forma

(a) Represents the adjustments related to the Reorganization and IPO described above.

61

- (b) Represents interest income and realized gains and losses on our marketable securities.
- (c) Represents legal, accounting and other expenses related to acquisition activities.
Represents legal, accounting and other expenses directly related to strategic and financial restructuring expenses. During the fiscal year ended June 30, 2015, strategic and financial restructuring expenses were incurred in connection with the company directed offering conducted pursuant to the Registration Rights Agreement. During the fiscal year ended June 30, 2014, strategic and financial restructuring expenses were incurred in connection with the Reorganization and IPO.
- (d) Represents the loss on investment for the fiscal year ended June 30, 2015 and the gain on sale of investment in GHX for the fiscal year ended June 30, 2014.
- (e) Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.
- (f) Represents gains and losses on investments and other assets.
Represents non-cash adjustment to deferred revenue of acquired entities. Business combination accounting rules require us to account for the fair values of software license updates and product support contracts and hardware systems support contracts assumed in connection with our acquisitions. Because these support contracts are typically one year in duration, our GAAP revenues for the one year period subsequent to our acquisition of a business do not reflect the full amount of support revenues on these assumed support contracts that would have otherwise been recorded by the acquired entity. The non-GAAP adjustment to our software license updates and product support revenues is intended to include, and thus reflect, the full amount of such revenues.
- (g) Corporate consists of general and administrative corporate expenses that are not specific to either of our segments.
- (h) The table that follows shows the reconciliation of net income attributable to stockholders to non-GAAP pro forma Adjusted Fully Distributed Net Income for the periods presented (in thousands):

	Year Ended June 30,	
	2015	2014
Net income attributable to stockholders	\$38,743	\$28,332
Non-GAAP pro forma adjustment for revenue share post-IPO	—	(41,263)
Income tax expense	36,342	27,709
Stock-based compensation expense	28,498	19,476
Acquisition related expenses ^(a)	9,037	2,014
Strategic and financial restructuring expenses ^(b)	1,373	3,760
Loss (gain) on investment ^(c)	1,000	(38,372)
Adjustment to tax receivable agreement liability ^(d)	—	6,215
Loss on disposal of long-lived assets	15,243	—
Acquisition related adjustment - deferred revenue ^(e)	13,371	—
Amortization of purchased intangible assets	9,136	3,062
Net income attributable to noncontrolling interest in Premier LP ^(f)	194,206	303,336
Non-GAAP pro forma fully distributed income before income taxes	346,949	314,269
Income tax expense on fully distributed income before income taxes ^(g)	138,780	125,708
Non-GAAP pro forma Adjusted Fully Distributed Net Income	\$208,169	\$188,561

- (a) Represents legal, accounting and other expenses related to acquisition activities.
Represents legal, accounting and other expenses directly related to the Reorganization and IPO. During the fiscal year ended June 30, 2015, strategic and financial restructuring expenses were incurred in connection with the company directed offering conducted pursuant to the Registration Rights Agreement. During the fiscal year ended June 30, 2014, strategic and financial restructuring expenses were incurred in connection with the Reorganization and IPO.
- (b) Represents the loss on investment for the fiscal year ended June 30, 2015 and the gain on sale of investment in GHX for the fiscal year ended June 30, 2014.
- (c)
- (d)

Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.

Represents non-cash adjustment to deferred revenue of acquired entities. Business combination accounting rules require us to account for the fair values of software license updates and product support contracts and hardware systems support contracts assumed in connection with our acquisitions. Because these support contracts are

(e) typically one year in duration, our GAAP revenues for the one year period subsequent to our acquisition of a business do not reflect the full amount of support revenues on these assumed support contracts that would have otherwise been recorded by the acquired entity. The non-GAAP adjustment to our software license updates and product support revenues is intended to include, and thus reflect, the full amount of such revenues.

(f) Reflects the elimination of the noncontrolling interest in Premier LP as if all member owners of Premier LP had fully exchanged their Class B common units for shares of Class A common stock.

Reflects income tax expense at an estimated effective income tax rate of 40% of income before income taxes (g) assuming the conversion of all Class B common units into shares of Class A common stock and the tax impact of excluding strategic and financial restructuring expenses.

The table that follows shows the reconciliation of (loss) earnings per share attributable to stockholders after (7) adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:

	Year Ended June 30,	
	2015	2014
Reconciliation of numerator for loss per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:		
Net loss attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount	\$(865,292) \$(2,713,256)
Adjustment of redeemable limited partners' capital to redemption amount	904,035	2,741,588
Net income attributable to stockholders	38,743	28,332
Reconciliation of denominator for loss per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:		
Weighted Average:		
Common shares used for basic and diluted loss per share	35,681	25,633
Potentially dilutive shares	1,048	124
Weighted average fully distributed shares outstanding - diluted	36,729	25,757
Reconciliation of loss per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:		
Loss per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount	\$(24.25) \$(105.85)
Impact of adjustment of redeemable limited partners' capital to redemption amount	25.34	106.96
Impact of potentially dilutive shares	(0.04) (0.01)
Non-GAAP earnings per share on net income attributable to stockholders - diluted	\$1.05	\$1.10

The table that follows shows the reconciliation of the numerator and denominator for (loss) earnings per share (8) attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP pro forma Adjusted Fully Distributed Earnings Per Share for the periods presented (in thousands):

	Year Ended June 30,	
	2015	2014
Reconciliation of numerator for loss per share to non-GAAP Adjusted Fully Distributed Earnings Per Share:		
Net loss attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount	\$(865,292	\$(2,713,256)
Adjustment of redeemable limited partners' capital to redemption amount	904,035	2,741,588
Net income attributable to stockholders	38,743	28,332
Non-GAAP pro forma adjustment for revenue share post-IPO	—	(41,263)
Income tax expense	36,342	27,709
Stock-based compensation expense	28,498	19,476
Acquisition related expenses ^(a)	9,037	2,014
Strategic and financial restructuring expenses ^(b)	1,373	3,760
Loss (gain) on investment ^(c)	1,000	(38,372)
Adjustment to tax receivable agreement liability ^(d)	—	6,215
Loss on disposal of long-lived assets	15,243	—
Acquisition related adjustment - deferred revenue ^(e)	13,371	—
Amortization of purchased intangible assets	9,136	3,062
Net income attributable to noncontrolling interest in Premier LP ^(f)	194,206	303,336
Non-GAAP pro forma fully distributed income before income taxes	346,949	314,269
Income tax expense on fully distributed income before income taxes ^(g)	138,780	125,708
Non-GAAP pro forma Adjusted Fully Distributed Net Income	\$208,169	\$188,561

Reconciliation of denominator for (loss) earnings per share to non-GAAP Adjusted Fully Distributed Earnings Per Share:

Weighted Average:		
Common shares used for basic and diluted loss per share	35,681	25,633
Potentially dilutive shares	1,048	124
Class A common stock outstanding	—	6,742
Conversion of Class B common units	108,518	112,584
Weighted average fully distributed shares outstanding - diluted	145,247	145,083

(a) Represents legal, accounting and other expenses related to acquisition activities.

Represents legal, accounting and other expenses directly related to the Reorganization and IPO. During the fiscal year ended June 30, 2015, strategic and financial restructuring expenses were incurred in connection with the (b) company directed offering conducted pursuant to the Registration Rights Agreement. During the fiscal year ended June 30, 2014, strategic and financial restructuring expenses were incurred in connection with the Reorganization and IPO.

(c) Represents the loss on investment for the fiscal year ended June 30, 2015 and the gain on sale of investment in GHX for the fiscal year ended June 30, 2014.

Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method (d) approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.

(e) Represents non-cash adjustment to deferred revenue of acquired entities. Business combination accounting rules require us to account for the fair values of software license updates and product support contracts and hardware systems support contracts assumed in connection with our acquisitions. Because these support contracts are typically one year in duration, our GAAP revenues for the one year period subsequent to our acquisition of a

business do not reflect the full amount of support revenues on these assumed support contracts that would have otherwise been recorded by the acquired entity. The non-GAAP adjustment to our software license updates and product support revenues is intended to include, and thus reflect, the full amount of such revenues.

(f) Reflects the elimination of the noncontrolling interest in Premier LP as if all member owners of Premier LP had fully exchanged their Class B common units for shares of Class A common stock.

Reflects income tax expense at an estimated effective income tax rate of 40% of income before income taxes

(g) assuming the conversion of all Class B common units into shares of Class A common stock and the tax impact of excluding strategic and financial restructuring expenses.

The table that follows shows the reconciliation of (loss) earnings per share attributable to stockholders to non-GAAP pro forma Adjusted Fully Distributed Earnings Per Share for the periods presented:

	Year Ended June 30,	
	2015	2014
Loss per share attributable to stockholders after adjustment to redeemable limited partners' capital to redemption amount	\$(24.25	\$(105.85)
Adjustment to redeemable limited partners' capital to redemption amount	25.34	106.96
Non-GAAP pro forma adjustment for revenue share post-IPO	—	(1.61)
Impact of additions:		
Income tax expense	1.02	1.08
Stock-based compensation expense	0.80	0.76
Acquisition related expenses ^(a)	0.25	0.08
Strategic and financial restructuring expenses ^(b)	0.04	0.15
Loss (gain) on investment ^(c)	0.03	(1.50)
Adjustment to tax receivable agreement liability ^(d)	—	0.24
Loss on disposal of long-lived assets	0.43	—
Acquisition related adjustment - deferred revenue ^(e)	0.37	—
Amortization of purchased intangible assets	0.26	0.12
Net income attributable to noncontrolling interest in Premier LP ^(f)	5.44	11.83
Impact of corporation income tax ^(g)	(3.90)(4.90)
Impact of increased share count ^(h)	(4.40)(6.06)
Non-GAAP pro forma Adjusted Fully Distributed Earnings Per Share	\$1.43	\$1.30

(a) Represents legal, accounting and other expenses related to acquisition activities.

Represents legal, accounting and other expenses directly related to the Reorganization and IPO. During the fiscal year ended June 30, 2015, strategic and financial restructuring expenses were incurred in connection with the

(b) company directed offering conducted pursuant to the Registration Rights Agreement. During the fiscal year ended June 30, 2014, strategic and financial restructuring expenses were incurred in connection with the Reorganization and IPO.

(c) Represents the loss on investment for the fiscal year ended June 30, 2015 and the gain on sale of investment in GHX for the fiscal year ended June 30, 2014.

(d) Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.

(e) Represents non-cash adjustment to deferred revenue of acquired entities. Business combination accounting rules require us to account for the fair values of software license updates and product support contracts and hardware systems support contracts assumed in connection with our acquisitions. Because these support contracts are typically one year in duration, our GAAP revenues for the one year period subsequent to our acquisition of a business do not reflect the full amount of support revenues on these assumed support contracts that would have otherwise been recorded by the acquired entity. The non-GAAP adjustment to our software license updates and product support revenues is intended to include, and thus reflect, the full amount of such revenues.

(f) Reflects the elimination of the noncontrolling interest in Premier LP as if all member owners of Premier LP had fully exchanged their Class B common units for shares of Class A common stock.

(g) Reflects income tax expense at an estimated effective income tax rate of 40% of income before income taxes assuming the conversion of all Class B common units into shares of Class A common stock and the tax impact of excluding strategic and financial restructuring expenses.

(h) Reflects impact of increased share count assuming the conversion of all Class B common units into shares of Class A common stock.

Net Revenue

The following table summarizes our actual net revenue for the year ended June 30, 2015 and 2014, respectively, and our non-GAAP pro forma net revenue for the year ended June 30, 2014, indicated both in dollars (in thousands) and as a percentage of net revenue:

	Year Ended June 30,		2014						Non-GAAP Pro	
	2015						Adjustments		Forma	
	Actual		Actual				Amount		Amount	
	Amount	% of Net Revenue	Amount	% of Net Revenue			Amount		Amount	% of Net Revenue
Supply Chain Services:										
Net administrative fees	\$457,020	45 %	\$464,837	51 %	\$ (41,263)	(a)	\$423,574	49 %		
Other services and support	1,977	— %	778	— %	—		778	— %		
Services	458,997	45 %	465,615	51 %	(41,263)		424,352	49 %		
Products	279,261	28 %	212,526	23 %	—		212,526	24 %		
Total Supply Chain Services	738,258	73 %	678,141	74 %	(41,263)		636,878	73 %		
Performance Services:										
Other services and support	268,771	27 %	232,408	26 %	—		232,408	27 %		
Total net revenue	\$1,007,029	100 %	\$910,549	100 %	\$ (41,263)		\$869,286	100 %		

(a) Represents the impact related to the change in revenue share.

Total net revenue for the year ended June 30, 2015 was \$1,007.0 million, an increase of \$96.5 million, or 11%, from total net revenue of \$910.5 million for the year ended June 30, 2014 and an increase of \$137.7 million, or 16%, from non-GAAP pro forma net revenue of \$869.3 million for the year ended June 30, 2014.

Supply Chain Services

Our supply chain services segment net revenue for the year ended June 30, 2015 was \$738.3 million, an increase of \$60.2 million, or 9%, from supply chain services segment net revenue of \$678.1 million for the year ended June 30, 2014 and an increase of \$101.4 million, or 16%, from non-GAAP pro forma supply chain services segment net revenue of \$636.9 million for the year ended June 30, 2014.

Net administrative fees revenue in our supply chain services segment for the year ended June 30, 2015 was \$457.0 million, a decrease of \$7.8 million, or 2%, from \$464.8 million for the year ended June 30, 2014. The decrease in net administrative fees revenue is primarily due to the increase in revenue share of \$43.4 million reflecting the 30% revenue share payable to member owners after the Reorganization on October 1, 2013, offset by further contract penetration of existing members, continuing impact of newer member conversion to our contract portfolio, as well as the impact of increased utilization trends. We may experience quarterly fluctuations in net administrative fees revenue due to periodic variability associated with the receipts of supplier member purchasing reports and administrative fee payments at quarter-end.

Net administrative fees revenue for the year ended June 30, 2015 was \$457.0 million, an increase of \$33.4 million, or 8%, from non-GAAP pro forma net administrative fees revenue of \$423.6 million for the year ended June 30, 2014. The increase in net administrative fees revenue was primarily attributable to the impact of further contract penetration of existing members, continuing impact of newer member conversion to our contract portfolio, as well as the impact of increased utilization trends.

Product revenue in our supply chain services segment for the year ended June 30, 2015, was \$279.3 million, an increase of \$66.8 million, or 31%, from \$212.5 million for the year ended June 30, 2014. Product revenue in our supply chain services segment increased for the year ended June 30, 2015, due to \$37.4 million of increased specialty pharmacy revenue and \$30.9 million of increased direct sourcing revenue, as a result of growth in our specialty pharmacy, including member growth as well as access to additional drug therapies entering the market, and ongoing expansion of member support for our direct sourcing offering. We expect our specialty pharmacy and direct sourcing program revenue to continue to grow to the extent we are able to expand our product sales to existing members and additional members begin to utilize our products.

Performance Services

Other services and support revenue in our performance services segment for the year ended June 30, 2015 was \$268.8 million, an increase of \$36.4 million, or 16%, from \$232.4 million for the year ended June 30, 2014. The increase was primarily the result

of growth in our SaaS subscription and license revenue of \$31.7 million, primarily related to the acquisitions of TheraDoc and Aperek, growth in advisory services of \$12.5 million, primarily from cost management and population health management, offset by decline in performance improvement collaboratives of \$8.0 million, primarily related to the termination of Partnership for Patients (PfP) contract in December 2014. We expect to experience quarterly variability in revenues generated from our performance services segment due to the timing of revenue recognition from certain advisory services and performance-based engagements in which our revenue is based on a percentage of identified member savings and recognition occurs upon approval and documentation of savings. Non-GAAP pro forma adjustments do not impact financial results for our performance services segment.

Cost of Revenue

The following table summarizes our cost of revenue for the periods indicated (in thousands):

	Year Ended June 30,	
	2015	2014
Cost of revenue:		
Products	\$253,620	\$191,885
Services	143,290	115,740
Total cost of revenue	\$396,910	\$307,625
Cost of revenue by segment:		
Supply Chain Services	\$255,794	\$194,689
Performance Services	141,116	112,936
Total cost of revenue	\$396,910	\$307,625

Cost of revenue for the year ended June 30, 2015 was \$396.9 million, an increase of \$89.3 million, or 29%, from \$307.6 million for the year ended June 30, 2014. Cost of product revenue increased by \$61.7 million, which was primarily attributable to the increases in specialty pharmacy and direct sourcing revenue. We expect our cost of product revenue to increase as we enroll additional members into our specialty pharmacy program and sell additional direct-sourced medical products to new and existing members. The increase in specialty pharmacy is also driven by increased cost of revenue related to sales of new hepatitis-C therapies, whose drug acquisition costs are generally higher than traditionally seen across other specialty therapies. Cost of service revenue increased by \$27.6 million primarily due to an increase in amortization of internally-developed software applications, expenses related to population health management SaaS informatics products under reseller agreements, and increased salary costs related to advisory services. We expect cost of service revenue to increase to the extent we expand our performance improvement collaboratives and advisory services to members, increase sales of our population health management SaaS informatics products under reseller agreements, and continue to develop new and existing internally-developed software applications.

Cost of revenue for the supply chain services segment for the year ended June 30, 2015 was \$255.8 million, an increase of \$61.1 million, or 31%, from \$194.7 million for the year ended June 30, 2014. The increase is primarily attributable to the growth in specialty pharmacy and direct sourcing, which have higher associated cost of revenue as compared to group purchasing. As a result, there is a higher increase in cost of revenue relative to net revenue because product revenue is growing at a higher rate than net administrative fees.

Cost of revenue for the performance services segment for the year ended June 30, 2015 was \$141.1 million, an increase of \$28.2 million, or 25%, from \$112.9 million for the year ended June 30, 2014. The increase is primarily attributable to the increase in amortization of internally-developed software applications and expenses related to population health management SaaS informatics products under reseller agreements, as well as increased salary costs related to advisory services.

Operating Expenses

The following table summarizes our operating expenses for the periods indicated (in thousands):

	Year Ended June 30,	
	2015	2014
Operating expenses:		
Selling, general and administrative	\$ 332,004	\$ 294,421
Research and development	2,937	3,389
Amortization of purchased intangible assets	9,136	3,062
Total operating expenses	344,077	300,872
Operating expenses by segment:		
Supply Chain Services	\$ 116,240	\$ 105,544
Performance Services	105,252	80,808
Total segment operating expenses	221,492	186,352
Corporate	122,585	114,520
Total operating expenses	\$ 344,077	\$ 300,872
Selling, General and Administrative		

Selling, general and administrative expenses for the year ended June 30, 2015 were \$332.0 million, an increase of \$37.6 million, or 13%, from \$294.4 million for the year ended June 30, 2014. The increase was attributable to increased salaries and benefits, rent and utilities, and insurance expense due to the acquisitions of TheraDoc and Aperek as well as increased business development expenses related to member meetings and increased hardware and software maintenance costs related to the expansion and growth of SaaS informatics products. The increase is also the result of \$9.0 million of increased stock-based compensation expense, as a result of twelve months of stock-based compensation expense for the year ended June 30, 2015 as compared to only nine months of stock-based compensation expense for the year ended June 30, 2014. In addition, increased acquisition-related expenses of \$7.0 million were recognized during the year ended June 30, 2015 as compared to the year ended June 30, 2014.

Research and Development

Research and development expenses for the year ended June 30, 2015 were \$2.9 million, a decrease of \$0.5 million, or 15%, from \$3.4 million for the year ended June 30, 2014. The decrease was primarily a result of a higher level of capitalized expenses in the current fiscal year from software in the development stages of production. We experience fluctuations in our research and development expenditures across reportable periods due to the timing of our software development lifecycles that result in new product features and functionality, new technologies and upgrades to our service offerings.

Amortization of Purchased Intangible Assets

Amortization of purchased intangible assets for the year ended June 30, 2015 was \$9.1 million, an increase of \$6.0 million, or 194%, from \$3.1 million for the year ended June 30, 2014. The increase was as a result of the additional amortization of purchased intangible assets obtained in the acquisitions of TheraDoc and Aperek. As we execute on our growth strategy and further deploy our available capital, we expect increases in amortization of purchased intangible assets in connection with recent and future potential acquisitions.

Other Non-operating Income and Expense

Other Income, Net

Other income, net, for the year ended June 30, 2015 was \$5.1 million, a decrease of \$53.2 million from \$58.3 million for the year ended June 30, 2014. This decrease is primarily attributable to the \$15.2 million loss on disposal of long-lived assets recognized during the year ended June 30, 2015 in connection with our operations integration as a result of the TheraDoc acquisition and the \$38.4 million gain recognized in connection with the sale of our 13% equity interest in GHX during the year ended June 30, 2014.

Income Tax Expense

Income tax expense for the year ended June 30, 2015 was \$36.3 million, an increase of \$8.6 million from \$27.7 million for the year ended June 30, 2014, which is primarily attributable to the establishment of a valuation allowance on the majority of PHSI deferred tax assets due to uncertainties surrounding PHSI's ability to utilize these assets,

offset by a reduction in book income in

68

the current year and the recognition of a one-time tax expense of \$11.9 million on the sale of the general partner interest during the year ended June 30, 2014. Our effective tax rate was 13.4% and 7.7% for the year ended June 30, 2015 and 2014, respectively. The low effective tax rate compared to the statutory rate for both periods is attributable to the flow through of partnership income which is not subject to federal and state income tax at the Company. Income tax expense for the year ended June 30, 2015 was \$36.3 million, an increase of \$11.8 million, from \$24.5 million of income tax expense on a non-GAAP basis, which reflects the impact of the Reorganization and IPO for the year ended June 30, 2014. The increase in tax expense is primarily due to the establishment of a valuation allowance on the majority of PHSI deferred tax assets offset by lower taxable income within our taxable corporations. Our effective tax rate was 13.4% for the year ended June 30, 2015 and 7.7% on a non-GAAP pro forma basis for the year ended June 30, 2014. The low effective tax rate for both periods is attributable to the flow through of partnership income which is not subject to federal and state income tax at the Company.

Net Income Attributable to Noncontrolling Interest

Net income attributable to noncontrolling interest for the year ended June 30, 2015 was \$196.0 million, a decrease of \$108.3 million, or 36%, from \$304.3 million for the year ended June 30, 2014, primarily as a result of the gain on sale of investment in GHX of \$38.4 million recognized during the year ended June 30, 2014, change in ownership of the limited partners of Premier LP from 99% to approximately 74% in connection with the Reorganization and IPO and subsequent quarterly exchanges pursuant to the Exchange Agreement, and increased revenue share in connection with the Reorganization and IPO. Net income attributable to noncontrolling interest was \$196.0 million for the year ended June 30, 2015, a decrease of \$50.6 million, or 21%, from \$246.6 million on a non-GAAP pro forma basis for the year ended June 30, 2014, primarily due to increased net administrative fee revenue, offset by increased revenue share as a result of the Reorganization and IPO and the gain on sale of investment in GHX of \$38.4 million recognized during the year ended June 30, 2014.

Non-GAAP Adjusted EBITDA

	Year Ended June 30,											
	2015						2014					
	Actual			Actual			Adjustments			Non-GAAP Pro Forma		
	Amount	% of Net Revenue		Amount	% of Net Revenue		Amount			Amount	% of Net Revenue	
Adjusted EBITDA by segment:												
Supply Chain Services	391,180	39	%	396,470	44	%	(41,263)(a)	355,207	41	%	
Performance Services	90,235	9	%	73,898	8	%	—		73,898	9	%

Corporate	(88,240)(9)%	(78,080)(9)%	—		(78,080)(9)%	
Total Adjusted EBITDA	\$393,175	39	%	\$392,288	43	%	\$(41,263)	\$351,025	40	%	

(a) Represents the impact related to the change in revenue share.

Adjusted EBITDA for the year ended June 30, 2015 was \$393.2 million, an increase of \$0.9 million, from \$392.3 million for the year ended June 30, 2014. Adjusted EBITDA for the year ended June 30, 2015 was \$393.2 million an increase of \$42.2 million, or 12%, from non-GAAP pro forma Adjusted EBITDA of \$351.0 million for the year ended June 30, 2014.

Segment Adjusted EBITDA for the supply chain services segment of \$391.2 million for the year ended June 30, 2015 reflects a decrease of \$5.3 million, or 1%, compared to \$396.5 million for the year ended June 30, 2014, primarily driven by the 30% revenue share payable to member owners after the Reorganization on October 1, 2013. Segment Adjusted EBITDA for the supply chain services segment of \$391.2 million for the year ended June 30, 2015 reflects an increase of \$36.0 million, or 10%, compared to non-GAAP pro forma Segment Adjusted EBITDA of \$355.2 million for the year ended June 30, 2014, primarily as a result of the increased net administrative fees revenue and growth in direct sourcing.

Segment Adjusted EBITDA for the performance services segment of \$90.2 million for the year ended June 30, 2015 reflects an increase of \$16.3 million, or 22%, compared to \$73.9 million for the year ended June 30, 2014, as a result

of the sale of new SaaS informatics products, effective management of operating expenses, and increased subscription and license revenue, partially offset by increased operating expenses, related to our acquisitions of Aperek and TheraDoc.

(a) Represents the adjustments related to the Reorganization and IPO described above.

- (b) Represents interest income and realized gains and losses on our marketable securities.
- (c) Represents legal, accounting and other expenses related to acquisition activities.
- (d) Represents legal, accounting and other expenses directly related to the Reorganization and IPO.
- (e) Represents the gain on sale of investment in GHX.
- Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method
- (f) approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.
- (g) Represents gains and losses on investments and other assets.
- (h) Corporate consists of general and administrative corporate expenses that are not specific to either of our segments.

- (6) The table that follows shows the reconciliation of net income attributable to stockholders to Non-GAAP pro forma Adjusted Fully Distributed Net Income for the periods presented (in thousands):

	Year Ended June 30,	
	2014	2013
Net income attributable to stockholders	\$28,332	\$7,376
Non-GAAP pro forma adjustment for revenue share post-IPO	(41,263)(105,012)
Income tax expense	27,709	9,726
Stock-based compensation expense	19,476	—
Acquisition related expenses ^(a)	2,014	—
Strategic and financial restructuring expenses ^(b)	3,760	5,170
Gain on sale of investment ^(c)	(38,372)—
Adjustment to tax receivable agreement liability ^(d)	6,215	—
Amortization of purchased intangible assets	3,062	1,539
Net income attributable to noncontrolling interest in Premier LP ^(e)	303,336	369,189
Non-GAAP pro forma fully distributed income before income taxes	314,269	287,988
Income tax expense on fully distributed income before income taxes ^(f)	125,708	115,195
Non-GAAP pro forma Adjusted Fully Distributed Net Income	\$188,561	\$172,793

(a) Represents legal, accounting and other expenses related to acquisition activities.

(b) Represents legal, accounting and other expenses directly related to the Reorganization and IPO.

(c) Represents the gain on sale of investment in GHX.

Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method
(d) approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.

Reflects the elimination of the noncontrolling interest in Premier LP as if all member owners of Premier LP had
(e) fully exchanged their Class B common units for shares of Class A common stock.

Reflects income tax expense at an estimated effective income tax rate of 40% of income before income taxes

(f) assuming the conversion of all Class B common units into shares of Class A common stock and the tax impact of excluding strategic and financial restructuring expenses.

The table that follows shows the reconciliation of (loss) earnings per share attributable to stockholders after (7) adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:

	Year Ended June 30,	
	2014	2013
Reconciliation of numerator for (loss) earnings per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:		
Net (loss) income attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount	\$(2,713,256) \$7,376
Adjustment of redeemable limited partners' capital to redemption amount	2,741,588	—
Net income attributable to stockholders	28,332	7,376

Reconciliation of denominator for (loss) earnings per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:

Weighted Average:

Common shares used for basic and diluted (loss) earnings per share	25,633	5,858
Potentially dilutive shares	124	—
Weighted average fully distributed shares outstanding - diluted	25,757	5,858

Reconciliation of (loss) earnings per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP earnings per share attributable to stockholders:

(Loss) earnings per share attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount	\$(105.85) \$1.26
Impact of adjustment of redeemable limited partners' capital to redemption amount	106.96	—
Impact of potentially dilutive shares	(0.01) —
Non-GAAP earnings per share on net income attributable to stockholders - diluted	\$1.10	\$1.26

The table that follows shows the reconciliation of the numerator and denominator for (loss) earnings per share (8) attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount to non-GAAP pro forma Adjusted Fully Distributed Earnings Per Share for the periods presented (in thousands):

	Year Ended June 30,	
	2014	2013
Reconciliation of numerator for (loss) earnings per share to non-GAAP Adjusted Fully Distributed Earnings Per Share:		
Net (loss) income attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount	\$(2,713,256) \$7,376
Adjustment of redeemable limited partners' capital to redemption amount	2,741,588	—
Net income attributable to stockholders	28,332	7,376
Non-GAAP pro forma adjustment for revenue share post-IPO	(41,263)(105,012)
Income tax expense	27,709	9,726
Stock-based compensation expense	19,476	—
Acquisition related expenses ^(a)	2,014	—
Strategic and financial restructuring expenses ^(b)	3,760	5,170
Gain on investment ^(c)	(38,372) —
Adjustment to tax receivable agreement liability ^(d)	6,215	—
Amortization of purchased intangible assets	3,062	1,539
Net income attributable to noncontrolling interest in Premier LP ^(e)	303,336	369,189
Non-GAAP pro forma fully distributed income before income taxes	314,269	287,988
Income tax expense on fully distributed income before income taxes ^(f)	125,708	115,195
Non-GAAP pro forma Adjusted Fully Distributed Net Income	\$188,561	\$172,793

Reconciliation of denominator for (loss) earnings per share to non-GAAP Adjusted Fully Distributed Earnings Per Share:

Weighted Average:

Common shares used for basic and diluted (loss) earnings per share	25,633	5,858
Potentially dilutive shares	124	—
Class A common stock outstanding	6,742	26,517
Conversion of Class B common units	112,584	112,608
Weighted average fully distributed shares outstanding - diluted	145,083	144,983

(a) Represents legal, accounting and other expenses related to acquisition activities.

(b) Represents legal, accounting and other expenses directly related to the Reorganization and IPO.

(c) Represents the gain on sale of investment in GHX.

Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method (d) approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.

(e) Reflects the elimination of the noncontrolling interest in Premier LP as if all member owners of Premier LP had fully exchanged their Class B common units for shares of Class A common stock.

Reflects income tax expense at an estimated effective income tax rate of 40% of income before income taxes

(f) assuming the conversion of all Class B common units into shares of Class A common stock and the tax impact of excluding strategic and financial restructuring expenses.

The table that follows shows the reconciliation of (loss) earnings per share attributable to stockholders to non-GAAP pro forma Adjusted Fully Distributed Earnings Per Share for the periods presented:

	Year Ended June 30,	
	2014	2013
(Loss) earnings per share attributable to stockholders after adjustment to redeemable limited partners' capital to redemption amount	\$(105.85) \$1.26
Adjustment to redeemable limited partners' capital to redemption amount	106.96	—
Non-GAAP pro forma adjustment for revenue share post-IPO	(1.61) (17.93)
Impact of additions:		
Income tax expense	1.08	1.66
Stock-based compensation expense	0.76	—
Acquisition related expenses ^(a)	0.08	—
Strategic and financial restructuring expenses ^(b)	0.15	0.88
Gain on investment ^(c)	(1.50) —
Adjustment to tax receivable agreement liability ^(d)	0.24	—
Amortization of purchased intangible assets	0.12	0.26
Net income attributable to noncontrolling interest in Premier LP ^(e)	11.83	63.02
Impact of corporation income tax ^(f)	(4.90) (19.66)
Impact of increased share count ^(g)	(6.06) (28.31)
Non-GAAP pro forma Adjusted Fully Distributed Earnings Per Share	\$1.30	\$1.18

(a) Represents legal, accounting and other expenses related to acquisition activities.

Represents legal, accounting and other expenses directly related to the Reorganization and IPO. During the fiscal year ended June 30, 2015, strategic and financial restructuring expenses were incurred in connection with the

(b) company directed offering conducted pursuant to the Registration Rights Agreement. During the fiscal year ended June 30, 2014, strategic and financial restructuring expenses were incurred in connection with the Reorganization and IPO.

(c) Represents the gain on sale of investment in GHX.

Represents adjustment to tax receivable agreement liability for the Premier LP change in tax accounting method

(d) approved by the Internal Revenue Service subsequent to the original recording of the tax receivable agreement liability.

(e) Reflects the elimination of the noncontrolling interest in Premier LP as if all member owners of Premier LP had fully exchanged their Class B common units for shares of Class A common stock.

Reflects income tax expense at an estimated effective income tax rate of 40% of income before income taxes

(f) assuming the conversion of all Class B common units into shares of Class A common stock and the tax impact of excluding strategic and financial restructuring expenses.

(g) Reflects impact of increased share count assuming the conversion of all Class B common units into shares of Class A common stock.

Net Revenue

The following table summarizes our net revenue for the years ended June 30, 2014, indicated both in dollars (in thousands) and as a percentage of net revenue:

	Year Ended June 30, 2014					
	Actual		Adjustments		Non-GAAP Pro Forma	
	Amount	% of Net Revenue	Amount		Amount	% of Net Revenue
Supply Chain Services:						
Net administrative fees	\$464,837	51 %	\$ (41,263) (a)		\$423,574	49 %
Other services and support	778	— %	—		778	— %
Services	465,615	51 %	(41,263)		424,352	49 %
Products	212,526	23 %	—		212,526	24 %
Total Supply Chain Services	678,141	74 %	(41,263)		636,878	73 %
Performance Services:						
Other services and support	232,408	26 %	—		232,408	27 %
Total net revenue	\$910,549	100 %	\$ (41,263)		\$869,286	100 %

(a) Represents the impact related to the change in revenue share.

The following table summarizes our net revenue for the year ended June 30, 2013, indicated both in dollars (in thousands) and as a percentage of net revenue:

	Year Ended June 30, 2013					
	Actual		Adjustments		Non-GAAP Pro Forma	
	Amount	% of Net Revenue	Amount		Amount	% of Net Revenue
Supply Chain Services:						
Net administrative fees	\$519,219	60 %	\$ (105,012) (a)		\$414,207	54 %
Other services and support	471	— %	—		471	— %
Services	519,690	60 %	(105,012)		414,678	54 %
Products	144,386	16 %	—		144,386	19 %
Total Supply Chain Services	664,076	76 %	(105,012)		559,064	73 %
Performance Services:						
Other services and support	205,214	24 %	—		205,214	27 %
Total net revenue	\$869,290	100 %	\$ (105,012)		\$764,278	100 %

(a) Represents the impact related to the change in revenue share.

Total net revenue for the year ended June 30, 2014 was \$910.5 million, an increase of \$41.2 million, or 5%, from \$869.3 million for the year ended June 30, 2013. Total non-GAAP pro forma net revenue for the year ended June 30, 2014 was \$869.3 million, and increase of \$105.0 million, or 14%, from non-GAAP pro forma net revenue of \$764.3 million for the year ended June 30, 2013.

Supply Chain Services

Our supply chain services segment net revenue for the year ended June 30, 2014 was \$678.1 million, an increase of \$14.0 million, or 2%, from \$664.1 million for the year ended June 30, 2013. Our supply chain services segment non-GAAP pro forma net revenue for the year ended June 30, 2014 was \$636.9 million, an increase of \$77.8 million, or 14%, from non-GAAP pro forma supply chain services segment net revenue of \$559.1 million for the year ended June 30, 2013.

Net administrative fees revenue in our supply chain services segment for the year ended June 30, 2014 was \$464.8 million, a decrease of \$54.4 million, or 10%, from \$519.2 million for the year ended June 30, 2013. Revenue share

increased \$64.5 million, primarily as a result of \$128.3 million, which represents the impact of the 30% revenue share to member owners following the

Reorganization and IPO on October 1, 2013, offset by a decrease in revenue share of \$59.3 million, as a result of the conversion of certain members with higher contractual revenue share agreements to member owners during fiscal year 2013.

Non-GAAP pro forma net administrative fees revenue for the year ended June 30, 2014 was \$423.6 million, an increase of \$9.4 million, or 2%, from non-GAAP pro forma net administrative fees revenue of \$414.2 million for the year ended June 30, 2013.

Product revenue in our supply chain services segment for the year ended June 30, 2014 was \$212.5 million, an increase of \$68.1 million, or 47%, from \$144.4 million for the year ended June 30, 2013. Product revenue in our supply chain services segment increased for the year ended June 30, 2014, due to increased specialty pharmacy revenue as a result of growth of historical patient prescriptions, the expansion of specialty pharmacy product sales to our members and the availability and associated sales of additional limited-distribution drugs available in the portfolio and increased direct sourcing revenue as a result of growth in our members purchasing our products through our direct sourcing program.

Performance Services

Other services and support revenue in our performance services segment for the year ended June 30, 2014 was \$232.4 million, an increase of \$27.2 million, or 13%, from \$205.2 million for the year ended June 30, 2013. The increase was primarily attributable to \$12.1 million of new SaaS informatics products, including population health management tools, \$8.0 million of advisory services, and revenue generated from our performance improvement collaboratives. Pro forma adjustments do not impact financial results for our performance services segment.

Cost of Revenue

The following table summarizes our cost of revenue for the periods indicated (in thousands):

	Year Ended June 30, 2014	2013
Cost of revenue:		
Products	\$ 191,885	\$ 133,618
Services	115,740	103,795
Total cost of revenue	\$ 307,625	\$ 237,413
Cost of revenue by segment:		
Supply Chain Services	\$ 194,689	\$ 138,781
Performance Services	112,936	98,632
Total cost of revenue	\$ 307,625	\$ 237,413

Cost of revenue for the year ended June 30, 2014 was \$307.6 million, an increase of \$70.2 million, or 30%, from \$237.4 million for the year ended June 30, 2013. Cost of product revenue increased by \$58.3 million, which was primarily attributable to the increases in specialty pharmacy and direct sourcing revenue. Cost of service revenue increased by \$11.9 million primarily due to an increase in amortization of internally-developed software applications and expenses related to population health management SaaS informatics products under reseller agreements.

Cost of revenue for the supply chain services segment for the year ended June 30, 2014 was \$194.7 million, an increase of \$55.9 million, or 40%, from \$138.8 million for the year ended June 30, 2013. The increase is primarily attributable to the growth in specialty pharmacy and direct sourcing, which have a higher associated cost of revenue as compared to group purchasing. As a result, there is a higher increase in cost of revenue relative to net revenue because net administrative fees represents the majority of supply chain services net revenue and product revenue from specialty pharmacy and direct sourcing is growing at a higher rate than net administrative fees.

Cost of revenue for the performance services segment for the year ended June 30, 2014 was \$112.9 million, an increase of \$14.3 million, or 15%, from \$98.6 million for the year ended June 30, 2013. The increase is primarily attributable to the increase in amortization of internally-developed software applications and expenses related to population health management SaaS informatics products under reseller agreements.

Operating Expenses

The following table summarizes our operating expenses for the periods indicated (in thousands):

	Year Ended June 30,	
	2014	2013
Operating expenses:		
Selling, general and administrative	\$294,421	\$248,301
Research and development	3,389	9,370
Amortization of purchased intangible assets	3,062	1,539
Total operating expenses	300,872	259,210
Operating expenses by segment:		
Supply Chain Services	105,544	106,889
Performance Services	80,808	74,133
Total segment operating expenses	186,352	181,022
Corporate	114,520	78,188
Total operating expenses	\$300,872	\$259,210
Selling, General and Administrative		

Selling, general and administrative expenses for the year ended June 30, 2014 were \$294.4 million, an increase of \$46.1 million, or 19%, from \$248.3 million for the year ended June 30, 2013. The increase was primarily attributable to \$19.5 million of stock-based compensation expense in fiscal year 2014, a \$6.2 million adjustment to the tax receivable agreement liability related to a change in tax accounting method approved by the IRS in the fourth quarter of 2014 and \$2.0 million of acquisition-related expenses recognized during the year ended June 30, 2014, as well as higher employee-related expenses due to increased selling and service personnel headcount and other general and administrative expenses attributable to operating as a public company.

Research and Development

Research and development expenses for the year ended June 30, 2014 were \$3.4 million, a decrease of \$6.0 million, or 64%, from \$9.4 million for the year ended June 30, 2013. The decrease was primarily a result of higher level of capitalized expense in the current fiscal year from software in the development stages of production and higher non-capitalizable outside contractor expenses in the prior fiscal year related to the development and testing activities associated with our PremierConnect™ platform and associated applications. We experience fluctuations in our research and development expenditures across reportable periods due to the timing of our software development lifecycles, with new product features and functionality, new technologies and upgrades to our service offerings.

Amortization of Purchased Intangible Assets

Amortization of purchased intangible assets for the year ended June 30, 2014 was \$3.0 million, an increase of \$1.5 million, or 100%, from \$1.5 million for the year ended June 30, 2013. The increase was as a result of the additional amortization of purchased intangible assets obtained in the acquisition of SYMMDRx in July 2013, Meddius in October 2013 and MEMdata in April 2014.

Other Non-operating Income and Expense

Other Income, Net

Other income, net, for the year ended June 30, 2014 was \$58.3 million, an increase of \$46.2 million from \$12.1 million for the year ended June 30, 2013. This increase is primarily attributable to the \$38.4 million gain recognized in connection with the sale of our 13% equity interest in GHX, as well as \$5.0 million increase in equity in net income of unconsolidated affiliates that is generated from our 50% ownership interest in Innovatix.

Income Tax Expense

Income tax expense for the year ended June 30, 2014 was \$27.7 million, an increase of \$18.0 million from \$9.7 million for the year ended June 30, 2013, which is primarily attributable to additional taxable income from the increase in net income attributable to stockholders as a result of the Reorganization and IPO to approximately 22% to 1% for the periods prior to the Reorganization

and IPO and a one-time tax expense of \$11.9 million on the sale of the general partner interest during the year ended June 30, 2014. Our effective tax rate was 7.7% and 2.5% for the year ended June 30, 2014 and 2013, respectively. The low effective tax rate compared to the statutory rate for both periods is attributable to the flow through of partnership income which is not subject to federal and state income tax at the Company.

On a pro forma basis, income tax expense of \$24.5 million for the year ended June 30, 2014 reflects the effect of the Reorganization and IPO for the first three months of the year ended June 30, 2014 and represents a decrease of \$8.0 million from income tax expense of \$32.5 million for the year ended June 30, 2013 which reflects the effect of the Reorganization and IPO for the entire year. The decrease in tax expense is primarily attributable to a one-time tax benefit of \$2.4 million recorded in the year ended June 30, 2014, in connection with a Premier LP change in tax accounting method as well as decreases in taxable income in the Company, PHSI and PSCI compared to the prior year. The pro forma effective tax rate was 7.7% and 11.6% for the year ended June 30, 2014 and 2013, respectively. The low effective tax rate compared to the statutory rate for both periods is attributable to the flow through of partnership income which is not subject to federal and state income tax at the Company.

Net Income Attributable to Noncontrolling Interest

Net income attributable to noncontrolling interest for the year ended June 30, 2014 was \$304.3 million, a decrease of \$63.4 million, or 17%, from \$367.7 million for the year ended June 30, 2013, primarily as a result of the change in ownership of the limited partners of Premier LP from approximately 99% to 78% in connection with the Reorganization. On a non-GAAP pro forma basis, net income attributable to noncontrolling interest was \$246.6 million for the year ended June 30, 2014, an increase of \$29.6 million, or 14%, from \$217.0 million for the year ended June 30, 2013. This increase was attributable to higher income of Premier LP, driven by the \$38.4 million gain recognized on the sale of our investment in GHX for the year ended June 30, 2014, of which 78% was allocated to the limited partners of Premier LP.

Adjusted EBITDA

	Year Ended June 30, 2014							
	Actual			Adjustments	Non-GAAP Pro Forma			
	Amount	% of Net Revenue		Amount		Amount	% of Net Revenue	
Adjusted EBITDA by segment:								
Supply Chain Services	\$396,470	44	%	\$ (41,263)	(a)	\$355,207	41	%
Performance Services	73,898	8	%	—		73,898	9	%
Total Segment Adjusted EBITDA	470,368	52	%	(41,263)		429,105	49	%
Corporate	(78,080)	(9)	%	—		(78,080)	(9)	%
Total Adjusted EBITDA	\$392,288	43	%	\$ (41,263)		\$351,025	40	%

(a) Represents the impact related to the change in revenue share.

	Year Ended June 30, 2013							
	Actual			Adjustments	Non-GAAP Pro Forma			
	Amount	% of Net Revenue		Amount	Amount	% of Net Revenue		
Adjusted EBITDA by segment:								
Supply Chain Services	\$431,628	50	%	\$(105,012)	(a) \$326,616	43	%	
Performance Services	56,456	6	%	—	56,456	7	%	
Total Segment Adjusted EBITDA	488,084	56	%	(105,012)	383,072	50	%	
Corporate	(69,059)	(8)	%	—	(69,059)	(9)	%	
Total Adjusted EBITDA	\$419,025	48	%	\$(105,012)	\$314,013	41	%	

(a) Represents the impact related to the change in revenue share.

Adjusted EBITDA for the year ended June 30, 2014 was \$392.3 million, a decrease of \$26.7 million, or 6%, from \$419.0 million for the year ended June 30, 2013. Non-GAAP pro forma Adjusted EBITDA for the year ended June 30, 2014 was \$351.0

million, an increase of \$37.0 million, or 12%, from non-GAAP pro forma Adjusted EBITDA of \$314.0 million for the year ended June 30, 2013.

Segment Adjusted EBITDA for the supply chain services segment of \$396.5 million for the year ended June 30, 2014 reflects a decrease of \$35.1 million, or 8%, compared to \$431.6 million for the year ended June 30, 2013, primarily driven by the 30% revenue share payable to member owners after the Reorganization on October 1, 2013. Non-GAAP pro forma Adjusted EBITDA for the supply chain services segment of \$355.2 million for the year ended June 30, 2014 reflects an increase of \$28.6 million, or 9%, compared to non-GAAP pro forma Adjusted EBITDA of \$326.6 million for the year ended June 30, 2013, primarily as a result of the growth in direct sourcing, increased net administrative fees revenue and lower operating expenses due to ongoing efforts to control costs.

Segment Adjusted EBITDA for the performance services segment of \$73.9 million for the year ended June 30, 2014 reflects an increase of \$17.4 million, or 31%, compared to \$56.5 million for the year ended June 30, 2013, as a result of growth from advisory services engagements, the sale of new SaaS informatics products and performance improvement collaboratives.

Off-Balance Sheet Arrangements

As of June 30, 2015, we did not have any off-balance sheet arrangements.

Emerging Growth Company

As of June 30, 2015, we no longer qualify as an "emerging growth company" as defined in Section 2(a)(19) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"). Accordingly, we will no longer receive the benefits of such status and expect to incur increased costs of compliance with various additional reporting requirements generally applicable to public companies.

Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of our consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Estimates are evaluated on an ongoing basis, including those related to reserves for bad debts, useful lives of property and equipment, value of investments not publicly traded, the valuation allowance on deferred tax assets and the fair value of purchased intangible assets and goodwill. These estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. We believe that our most critical accounting policies are the following:

Business Combinations

We account for acquisitions using the acquisition method. All of the assets acquired, liabilities assumed, contractual contingencies, and contingent consideration are recognized at their fair value on the acquisition date. Any excess of the purchase price over the estimated fair values of the net assets acquired is recorded as goodwill. Acquisition-related costs are recorded as expenses in the consolidated financial statements.

Several valuation methods may be used to determine the fair value of assets acquired and liabilities assumed. For intangible assets, we typically use the income method. This method starts with a forecast of all of the expected future net cash flows for each asset. These cash flows are then adjusted to present value by applying an appropriate discount rate that reflects the risk factors associated with the cash flow streams. Some of the more significant estimates and assumptions inherent in the income method or other methods include the amount and timing of projected future cash flows, the discount rate selected to measure the risks inherent in the future cash flows and the assessment of the asset's life cycle and the competitive trends impacting the asset, including consideration of any technical, legal, regulatory, or economic barriers to entry. Determining the useful life of an intangible asset also requires judgment as different types of intangible assets will have different useful lives and certain assets may even be considered to have indefinite useful lives.

Marketable Securities

We invest our excess cash in commercial paper, U.S. government securities, corporate debt securities and other securities with maturities generally ranging from three months to five years from the date of purchase. Marketable securities, classified as available-for-sale, are carried at fair market value, with the unrealized gains and losses on such investments reported in comprehensive income as a separate component of stockholders' (deficit) equity or redeemable limited partners' capital as appropriate. Realized gains and losses, and other-than-temporary declines in investments, are included in other income, net in the accompanying consolidated statements of income. We use the specific-identification method to determine the cost of securities sold. We do not hold publicly traded equity investments.

Goodwill

Goodwill represents costs in excess of fair values assigned to the underlying net assets of acquired businesses. Goodwill is not amortized, but we evaluate for impairment annually on the first day of the last fiscal quarter of the fiscal year or whenever there is an impairment indicator.

Under accounting rules, we can elect to perform a qualitative assessment to determine if an impairment is more likely than not to have occurred. This qualitative assessment requires an evaluation of any excess of fair value over the carrying value for a reporting unit and significant judgment regarding potential changes in valuation inputs, including a review of our most recent long-range projections, analysis of operating results versus the prior year, changes in market values, changes in discount rates and changes in terminal growth rate assumptions. If it is determined that an impairment is more likely than not to exist, then we are required to perform a quantitative assessment to determine whether or not goodwill is impaired and to measure the amount of goodwill impairment, if any.

Goodwill impairment is determined using a two-step process. The first step involves a comparison of the estimated fair value of each of our reporting units to its carrying amount, including goodwill. In performing the first step, we determine the fair value of a reporting unit using a discounted cash flow analysis that is corroborated by a market-based approach. Determining fair value requires the exercise of significant judgment, including judgment about appropriate discount rates, perpetual growth rates and the amount and timing of expected future cash flows. The cash flows employed in the discounted cash flow analyses are based on our most recent budget and long-term forecast. The discount rates used in the discounted cash flow analyses are intended to reflect the risks inherent in the future cash flows of the respective reporting units. If the estimated fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is not impaired and the second step of the impairment test is not necessary.

If the carrying amount of a reporting unit exceeds its estimated fair value, then the second step of the goodwill impairment test must be performed. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with its goodwill carrying amount to measure the amount of impairment, if any. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. In other words, the estimated fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment charge is recognized in an amount equal to that excess.

Our most recent annual impairment testing, which consisted of a quantitative assessment, did not result in any goodwill impairment charges during the fourth quarter of the fiscal year ended June 30, 2015. Further, the results of our quantitative assessment indicated that the estimated fair value of each reporting unit evaluated substantially exceeded its respective carrying amount.

Tax Receivable Agreements

We record a liability related to the Tax Receivable Agreements based on 85% of the estimated amount of tax savings we expect to receive, generally over a 15-year period, in connection with the additional tax benefits created in connection with the Reorganization and IPO. Tax payments under the Tax Receivable Agreements will be made to our member owners as we realize tax benefits attributable to the initial purchase of Class B common units from the member owners in the Reorganization and subsequent exchanges of Class B common units into Class A common stock or cash between us and the member owners. Determining the estimated amount of tax savings we expect to receive requires judgment as deductibility of goodwill amortization expense is not assured and the estimate of tax savings is dependent upon the actual realization of the tax benefit and the tax rates in effect at that time.

Changes in the estimated tax receivable agreement liability that are the result of a change in tax accounting method are recorded in selling, general and administrative expense in the consolidated statements of income. Changes in the estimated tax receivable agreement liability that are related to new basis changes as a result of the exchange of Class B common units into shares of our Class A common stock or related to departed member owners are recorded as an increase to additional paid-in capital in the consolidated statements of stockholders' (deficit) equity.

Revenue Recognition

Net Revenue

Net revenue consists of (i) service revenue which includes net administrative fees revenue and other services and support revenue and (ii) product revenue. Net administrative fees revenue consists of GPO administrative fees in our supply chain services segment. Other services and support revenue consists primarily of fees generated in our performance services segment in connection with our SaaS informatics products subscriptions, advisory services and performance improvement collaborative subscriptions. Product revenue consists of specialty pharmacy and direct sourcing product sales, which are included in the supply chain segment. We recognize revenue when (i) there is persuasive evidence of an arrangement, (ii) the fee is fixed or determinable, (iii) services have been rendered and payment has been contractually earned, and (iv) collectability is reasonably assured.

Net Administrative Fees Revenue

Net administrative fees revenue is generated through administrative fees received from suppliers based on the total dollar volume of supplies purchased by our members.

Through our group purchasing program, we aggregate the purchasing power of our members to negotiate pricing discounts and improve contract terms with suppliers. Contracted suppliers pay administrative fees to us which generally represent 1% to 3% of the purchase price of goods and services sold to members under the contracts we have negotiated. Administrative fees are recognized as revenue in the period in which the respective supplier reports member purchasing data, usually a month or a quarter in arrears of actual member purchase activity. The supplier report proves that the delivery of product or service has occurred, the administrative fees are fixed and determinable based on reported purchasing volume, and collectability is reasonably assured. Member and supplier contracts substantiate persuasive evidence of an arrangement. We do not take title to the underlying equipment or products purchased by members through our GPO supplier contracts.

We partner with certain members, including regional GPOs, to extend our network base to their members and pay a revenue share equal to a percentage of gross administrative fees that we collect based upon purchasing by such members and their member facilities through our GPO supplier contracts. Revenue share is recognized according to the members' contractual agreements with us as the related administrative fees revenue is recognized. Considering GAAP relating to principal agent considerations under revenue recognition, revenue share is recorded as a reduction to gross administrative fees revenue to arrive at net administrative fees revenue in the accompanying consolidated statements of income.

Other Services and Support Revenue

Other services and support revenue consists of SaaS informatics products subscriptions, performance improvement collaborative and other service subscriptions, professional fees for advisory services, and insurance services management fees and commissions from group-sponsored insurance programs.

SaaS informatics products subscriptions include the right to use our proprietary hosted technology on a SaaS basis, training and member support to deliver improvements in cost management, quality and safety, population health management and provider analytics. Pricing varies by subscription and size of the subscriber. Informatics subscriptions are generally three to five year agreements with automatic renewal clauses and annual price escalators that typically do not allow for early termination. These agreements do not allow for physical possession of the software. Subscription fees are typically billed on a monthly basis and revenue is recognized as a single deliverable on a straight-line basis over the remaining contractual period following implementation. Implementation involves the completion of data preparation services that are unique to each member's data set and, in certain cases, the installation of member site-specific software, in order to access and transfer member data into our hosted SaaS informatics products. Implementation is generally 100 to 170 days following contract execution before the SaaS informatics products can be fully utilized by the member.

The Company sells certain perpetual and term licenses that include mandatory post-contract customer support in the form of maintenance and support services. Pricing varies by application and size of healthcare system. Fees for the initial period include the license fees, implementation fees and the initial bundled maintenance and support services fees. The fees for the

initial period are recognized straight-line over the remaining initial period following implementation. Subsequent renewal maintenance and support services fees are recognized on a straight-line basis over the contractually stated renewal periods. Implementation services are provided to the customer prior to the use of the software and do not involve significant customization or modification. Implementation is generally 300 to 350 days following contract execution before the licensed software products can be fully utilized by the member.

Revenue from performance improvement collaboratives and other service subscriptions that support our offerings in cost management, quality and safety and population health management is recognized over the service period, which is generally one year.

Professional fees for advisory services are sold under contracts, the terms of which vary based on the nature of the engagement. Fees are billed as stipulated in the contract, and revenue is recognized on a proportional performance method as services are performed and deliverables are provided. In situations where the contracts have significant contract performance guarantees or member acceptance provisions, revenue recognition occurs when the fees are fixed and determinable and all contingencies, including any refund rights, have been satisfied.

Our other services and support revenue growth will be dependent upon the expansion of our SaaS informatics products, performance improvement collaboratives and advisory services to new and existing members and the renewal of existing subscriptions to our SaaS informatics products and performance improvement collaboratives.

Certain administrative and/or patient management specialty pharmacy services are provided in situations where prescriptions are sent back to member health systems for dispensing. Additionally, we derive revenue from pharmaceutical manufacturers for providing patient education and utilization data. Revenue is recognized as these services are provided.

Product Revenue

Specialty pharmacy revenue is recognized when a product is accepted and is recorded net of the estimated contractual adjustments under agreements with Medicare, Medicaid and other managed care plans. Payments for the products provided under such agreements are based on defined allowable reimbursements rather than on the basis of standard billing rates. The difference between the standard billing rate and allowable reimbursement rate results in contractual adjustments which are recorded as deductions from net revenue.

Direct sourcing revenue is recognized upon delivery of medical products to members once the title and risk of loss have been transferred.

Multiple Deliverable Arrangements

We occasionally enter into agreements where the individual deliverables discussed above, such as SaaS subscriptions and advisory services, are bundled into a single service arrangement. These agreements are generally provided over a time period ranging from approximately three months to five years after the applicable contract execution date. Revenue is allocated to the individual elements within the arrangement based on their relative selling price using vendor specific objective evidence, or VSOE, third-party evidence, or TPE, or the estimated selling price, or ESP, provided that the total arrangement consideration is fixed and determinable at the inception of the arrangement. We establish VSOE, TPE, or ESP for each element of a service arrangement based on the price charged for a particular element when it is sold separately in a stand-alone arrangement. All deliverables which are fixed and determinable are recognized according to the revenue recognition methodology described above.

Certain arrangements include performance targets or other contingent fees that are not fixed and determinable at the inception of the arrangement. If the total arrangement consideration is not fixed and determinable at the inception of the arrangement, we allocate only that portion of the arrangement that is fixed and determinable to each element. As additional consideration becomes fixed, it is similarly allocated based on VSOE, TPE or ESP to each element in the arrangement and recognized in accordance with each element's revenue recognition policy.

Performance Guarantees

On limited occasions, we may enter into an agreement which provides for guaranteed performance levels to be achieved by the member over the term of the agreement. In situations with significant performance guarantees, we defer revenue recognition until the amount is fixed and determinable and all contingencies, including any refund rights, have been satisfied. In the event that guaranteed savings levels are not achieved, we may have to pay the difference between the savings that were guaranteed and the actual achieved savings.

Deferred Revenue

Deferred revenue consists of unrecognized revenue related to advanced member invoicing or member payments received prior to fulfillment of the Company's revenue recognition criteria. Substantially all deferred revenue consists of deferred subscription fees and deferred advisory fees. Subscription fees for company-hosted SaaS applications are deferred until the member's unique data records have been incorporated into the underlying software database, or until member site-specific software has been implemented and the member has access to the software. Deferred advisory fees arise when cash is received from members prior to delivery of service. When the fees are contingent upon meeting a performance target that has not yet been achieved, the advisory fees are deferred until the performance target is met.

Software Development Costs

Costs to develop internal use computer software that are incurred in the preliminary project stage are expensed as incurred. During the development stage, direct consulting costs and payroll and payroll-related costs for employees that are directly associated with each project are capitalized and amortized over the estimated useful life of the software, once it is placed into operation. Capitalized costs are amortized on a straight-line basis over the estimated useful lives of the related software applications of up to five years and amortization is included in depreciation and amortization expense. Replacements and major improvements are capitalized, while maintenance and repairs are expensed as incurred. Some of the more significant estimates and assumptions inherent in this process involve determining the stages of the software development project, the direct costs to capitalize and the estimated useful life of the capitalized software.

Income Taxes

We account for income taxes under the asset and liability approach. Deferred tax assets or liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities as measured by the enacted tax rates which will be in effect when these differences reverse. We provide a valuation allowance against net deferred tax assets unless, based upon the available evidence, it is more likely than not that the deferred tax assets will be realized.

We prepare and file tax returns based on interpretations of tax laws and regulations. In the normal course of business our tax returns are subject to examination by various taxing authorities. Such examinations may result in future tax and interest assessments by these taxing authorities. In determining our tax provision for financial reporting purposes we establish a reserve for uncertain income tax positions unless it is determined to be "more likely than not" that such tax positions would be sustained upon examination, based on their technical merits. That is, for financial reporting purposes, we only recognize tax benefits taken on the tax return if we believe it is "more likely than not" that such tax position would be sustained. There is considerable judgment involved in determining whether it is "more likely than not" that such tax positions would be sustained.

We adjust our tax reserve estimates periodically because of ongoing examinations by, and settlements with, varying taxing authorities, as well as changes in tax laws, regulations and interpretations. The consolidated tax provision of any given year includes adjustments to prior year income tax accruals and related estimated interest charges that are considered appropriate. Our policy is to recognize, when applicable, interest and penalties on uncertain income tax positions as part of income tax expense.

New Accounting Standards

In May 2014, the Financial Accounting Standards Board (the "FASB") issued ASU 2014-09, Revenue from Contracts with Customers, which will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The new standard requires revenue to be recognized when promised goods or services are transferred to customers in an

amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new standard also requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The new standard allows for either full retrospective or modified retrospective adoption.

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, to defer the effective date of the new standard for all entities by one year. The new standard will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2017 and early adoption as of the original effective date for public entities will be permitted. The new standard will be effective for the Company for the fiscal year ending June 30, 2019.

The Company is currently evaluating the transition method that will be elected as well as the impact of the adoption of the new standard on its consolidated financial statements and related disclosures.

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis, which effectively eliminates the presumption that a general partner should consolidate a limited partnership, modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities (VIEs) or voting interest entities, and affects the consolidation analysis of reporting entities that are involved with VIEs (particularly those that have fee arrangements and related party relationships). In some cases, consolidation conclusions will change under the new guidance and, in other cases, a reporting entity will need to provide additional disclosures if an entity that currently is not considered a VIE is considered a VIE under the new guidance. The new standard will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2015 and early adoption is permitted. The new standard allows for either full retrospective or modified retrospective adoption. The new standard will be effective for the Company for the fiscal year ending June 30, 2017. The Company is currently evaluating the impact of the adoption of the new standard on its consolidated financial statements and related disclosures.

Liquidity and Capital Resources

Our principal source of cash has historically been cash provided by operating activities. From time-to-time we have used, and expect to use in the future, borrowings under our long-term credit facility as a source of liquidity. Our primary cash requirements involve operating expenses, working capital fluctuations, capital expenditures, acquisitions and related business investments. Our capital expenditures typically consist of internally-developed software costs, software purchases and computer hardware purchases. Prior to the Reorganization and IPO, the vast majority of our excess cash has been distributed to our member owners.

As of June 30, 2015 and June 30, 2014, we had cash and cash equivalents totaling \$146.5 million and \$131.8 million, respectively, and marketable securities with maturities ranging from three months to two years totaling \$415.4 million and \$408.6 million, respectively. For the years ended June 30, 2015 and 2014, we financed our operations primarily through internally generated cash flows.

As of June 30, 2015, there were no outstanding borrowings under the Credit Agreement. We funded a portion of the recently announced acquisition of CECity.com, Inc. with \$150 million of borrowings under our Credit Agreement. See Note 13 - Lines of Credit and Note 25 - Subsequent Events to the audited consolidated financial statements contained herein for more information regarding our credit facilities.

It is our intent to retain a significantly greater portion of our earnings following the Reorganization to provide additional liquidity to fund operations and future growth, including through acquisitions. We expect earnings, remaining proceeds from our IPO and occasional borrowings under our credit facility to provide us with liquidity to fund our working capital requirements, revenue share obligations, tax payments, capital expenditures and growth for the foreseeable future. Our capital requirements depend on numerous factors, including funding requirements for our product and service development and commercialization efforts, our information technology requirements and the amount of cash generated by our operations. We currently believe that we have adequate capital resources at our disposal to fund currently anticipated capital expenditures, business growth and expansion, and current and projected debt service requirements; however, strategic growth initiatives will likely require the use of available cash on hand, cash generated from operations, borrowings under our credit facility and/or potentially, proceeds from the issuance of additional equity or debt securities.

Discussion of Cash Flow

A summary of net cash flows follows (in thousands):

	Year ended June 30,	
	2015	2014
Net cash provided by (used in):		
Operating activities	\$364,058	\$368,122
Investing activities	(231,873)	(397,103)
Financing activities	(117,449)	(37,529)
Net increase (decrease) in cash	\$14,736	\$(66,510)

Discussion of cash flows for the years ended June 30, 2015 and 2014

Net cash provided by operating activities was \$364.1 million for the year ended June 30, 2015, a decrease of \$4.0 million compared to \$368.1 million for the year ended June 30, 2014 due primarily to the impact of changes to adjustments to reconcile net income to net cash provided by operating activities and changes in working capital needs, offset by increase in net revenue.

Net cash used in investing activities was \$231.9 million for the year ended June 30, 2015 compared to net cash used in investing activities of \$397.1 million for the year ended June 30, 2014. Our investing activities for the year ended June 30, 2015 primarily consisted of (i) the acquisitions of Aperek and TheraDoc, net of cash acquired, for a total of \$156.0 million, (ii) capital expenditures of \$70.7 million, (iii) purchase of noncontrolling interest in S2S Global of \$14.5 million, (iv) net purchases of marketable securities of \$9.5 million, and (v) investment in PharmaPoint, LLC of \$5.0 million, partially offset by (i) distributions from Innovatix of \$18.9 million and (ii) decrease in restricted cash of \$5.0 million. Our investing activities for the year ended June 30, 2014 primarily consisted of (i) the net purchases of marketable securities of \$352.8 million due to a decision to invest the proceeds from the IPO in longer term marketable securities, (ii) the acquisitions of SYMMEDRx, Meddius and Memdata, net of cash acquired, for a total of \$42.6 million and (iii) capital expenditures of \$55.7 million for property and equipment, partially offset by proceeds from the sale of our investment in GHX of \$38.4 million and distributions from Innovatix of \$15.7 million.

Net cash used in financing activities was \$117.4 million for the year ended June 30, 2015, compared to \$37.5 million for the year ended June 30, 2014. Our financing activities for the year ended June 30, 2015 primarily included (i) net cash payments to Premier LP limited partners of \$92.2 million, (ii) payoff of S2S Global's revolving line of credit of \$14.7 million, (iii) payments to Premier LP limited partners of \$11.5 million under tax receivable agreements, and (iv) payments made on notes payable of \$1.4 million, partially offset by proceeds from the exercise of stock options of \$1.5 million. Our financing activities for the year ended June 30, 2014 primarily included (i) net proceeds of \$277.8 million in connection with the IPO, (ii) proceeds of \$66.0 million from withdrawals on our lines of credit and (iii) proceeds from notes receivable from partners of \$12.7 million, offset by (i) net cash payments to Premier LP limited partners of \$319.7 million, (ii) payments on the line of credit of \$60.0 million and (iii) payments made on notes payable of \$9.3 million.

Discussion of Free Cash Flow

A summary of Free Cash Flow and reconciliation to net cash provided by operating activities for the periods presented follows (in thousands):

	Three Months Ended June 30,	
	2015	2014
Net cash provided by operating activities	\$108,483	\$79,431
Purchases of property and equipment	(19,670)	(15,898)
Distributions to limited partners of Premier LP	(23,412)	(21,299)
Payments to limited partners related to tax receivable agreements	(11,499)	—
Non-GAAP Free Cash Flow	\$53,902	\$42,234

Due to the lack of comparability of Free Cash Flow for the years ended June 30, 2015 and 2014 due to the impact (a) of the Reorganization and IPO, only Free Cash Flow for the three months ended June 30, 2015 and 2014 are reflected above.

Free Cash Flow for the three months ended June 30, 2015 was \$53.9 million, compared with \$42.2 million for the three months ended June 30, 2014. The increase in Free Cash Flow is primarily the result of strong performance in our Supply Chain Services segment, partially offset by an increase in distributions to limited partners and purchases of property and equipment.

Contractual Obligations

At June 30, 2015, we had material commitments for obligations under notes payable, our non-cancellable office space lease agreements, and estimated payments due to limited partners under Tax Receivable Agreements. Future payments for notes payable, operating lease obligations due under long-term contractual obligations, and estimated payments to limited partners under Tax Receivable Agreements as of June 30, 2015 are as follows:

Description of Contractual Obligations (In Thousands)	Total	Payments Due by Period			
		Less than 1 year	1-3 years	3-5 years	Greater than 5 years
Notes payable ⁽¹⁾	\$17,935	\$2,256	\$13,373	\$2,306	\$—
Operating lease obligations ⁽²⁾	98,208	9,268	17,739	18,096	53,105
Tax receivable agreement liability ⁽³⁾	235,877	11,123	24,795	26,303	173,656
Total	\$352,020	\$22,647	\$55,907	\$46,705	\$226,761

(1) Notes payable represent an aggregate principal amount of \$17.9 million owed to departed member owners, payable over five years.

(2) Future contractual obligations for leases represent future minimum payments under non-cancellable operating leases primarily for office space.

(3) Estimated payments due to limited partners under Tax Receivable Agreements are based on 85% of the estimated amount of tax savings we expect to receive, generally over a 15-year period, in connection with the additional tax benefits created in connection with the Reorganization and IPO.

2014 Credit Agreement

On June 24, 2014, we entered into our new Credit Agreement, which was amended on June 4, 2015. The Credit Agreement has a maturity date of June 24, 2019. The Credit Agreement provides for borrowings of up to \$750.0 million with (i) a \$25.0 million subfacility for standby letters of credit and (ii) a \$75.0 million subfacility for swingline loans. At our request, the credit facility may be increased from time to time up to an additional aggregate of \$250.0 million, subject to lender approval. The Credit Agreement includes an unconditional and irrevocable guaranty of all obligations under the credit facility by Premier GP, certain domestic subsidiaries of Premier GP and future guarantors, if any. Premier, Inc. is not a guarantor under the Credit Agreement.

The Credit Agreement permits us to prepay amounts outstanding without premium or penalty provided, however, we are required to compensate the lenders for losses and expenses incurred as a result of the prepayment of any Eurodollar Rate Loan, as defined in the Credit Agreement. Committed loans may be in the form of Eurodollar Rate Loans or Base Rate Loans, as defined in the Credit Agreement, at our option. Eurodollar Rate Loans bear interest at the Eurodollar Rate (defined as the London Interbank Offer Rate, or LIBOR, plus the Applicable Rate (defined as a margin based on the Consolidated Total Leverage Ratio (as defined in the Credit Agreement))). Base Rate Loans bear interest at the Base Rate (defined as the highest of the prime rate announced by the Administrative Agent, the federal funds effective rate plus 0.50% or the one-month LIBOR plus 1.0%) plus the Applicable Rate. The Applicable Rate ranges from 1.125% to 1.75% for Eurodollar Rate Loans and 0.125% to 0.750% for Base Rate Loans. At June 30, 2015, the interest rate for three-month Eurodollar Rate Loans was 1.41% and the interest rate for Base Rate Loans was 3.375%. We are required to pay a commitment fee ranging from 0.125% to 0.250% per annum on the actual daily unused amount of commitments under the credit facility. At June 30, 2015, the commitment fee was 0.125%.

The Credit Agreement contains customary representations and warranties as well as customary affirmative and negative covenants, including, among others, limitations on liens, indebtedness, fundamental changes, dispositions, restricted payments and investments. Under the terms of the Credit Agreement, Premier GP is not permitted to allow its Consolidated Total Leverage Ratio (as defined in the Credit Agreement) to exceed 3.00 to 1.00 for any period of four consecutive fiscal quarters. In addition, Premier GP must maintain a minimum Consolidated Interest Coverage Ratio (as defined in the Credit Agreement) of 3.00 to 1.00 at the end of every fiscal quarter. We were compliance with all such covenants at June 30, 2015. The Credit Agreement also contains customary events of default including, among others, payment defaults, breaches of representations and warranties, covenant defaults, cross-defaults of any indebtedness or guarantees in excess of \$30.0 million, bankruptcy and other insolvency events, judgment defaults in excess of \$30.0 million, and the occurrence of a change of control (as defined in the Credit Agreement). If any event of default occurs and is continuing, the Administrative Agent under the credit facility may, with the consent, or shall,

at the request, of the required lenders, terminate the commitments and declare all of the amounts owed under the credit facility to be immediately due and payable.

Proceeds from borrowings under the Credit Agreement may generally be used to finance ongoing working capital requirements, including permitted acquisitions and other general corporate purposes. As of June 30, 2015, we had no outstanding borrowings under the Credit Agreement. The above summary does not purport to be complete, and is subject to, and qualified in its entirety by reference to, the complete text of the Credit Agreement which is filed as an exhibit to this Annual Report. See also, Note 13 - Lines of Credit to our audited consolidated financial statement contained in this Annual Report.

S2S Global Revolving Line of Credit

On February 2, 2015, we purchased the remaining 40% of the outstanding shares of common stock of S2S Global. In connection with the purchase, we repaid the \$14.2 million balance outstanding under the S2S Global line of credit and terminated the S2S Global line of credit prior to its February 16, 2015 maturity date.

At June 30, 2014, S2S Global had \$13.7 million outstanding on the revolving line of credit.

Member-Owner Tax Receivable Agreement

In connection with the Reorganization and IPO, we entered into a tax receivable agreement with each of our member owners, pursuant to which we agreed to pay to the member owners, generally over a 15-year period (under current law), 85% of the amount of cash savings, if any, in U.S. federal, foreign, state and local income and franchise tax that we actually realize (or are deemed to realize, in the case of payments required to be made upon certain occurrences under such Tax Receivable Agreements) as a result of the increases in tax basis resulting from the initial sale of Class B common units by the member owners in connection with the Reorganization, as well as subsequent exchanges by such member owners pursuant to the Exchange Agreement, and of certain other tax benefits related to our entering into the Tax Receivable Agreements, including tax benefits attributable to payments under the Tax Receivable Agreements.

During the year ended June 30, 2015, we paid \$11.5 million to the member owners during the year ended June 30, 2015 in connection with the initial exchanges and reduced the liability by \$2.0 million in connection with departed member owners. Additional amounts payable under the tax receivable agreements for subsequent exchanges of Class B common units made by the member owners during the year ended June 30, 2015 are \$57.1 million, which resulted in \$235.9 million in tax receivable agreement liabilities as of June 30, 2015. We expect to fund our payments under the tax receivable agreements from distributions we receive from Premier LP.

Certain Contractual Arrangements with Our Member Owners

In connection with the Reorganization, we entered into several agreements to define and regulate the governance and control relationships among us, Premier LP and the member owners. Note 2 - Initial Public Offering and Reorganization to our audited consolidated financial statements contained herein provides a summary of the material provisions of these agreements. These summaries do not purport to be complete, and they are subject to, and qualified in their entirety by reference to, the complete text of the agreements which are filed as exhibits to this Annual Report. These agreements should be carefully read before making any investment decisions regarding our Class A common stock.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk relates primarily to the increase or decrease in the amount of interest income we can earn on our investment portfolio and on the increase or decrease in the amount of any interest expense we must pay with respect to outstanding debt instruments. At June 30, 2015, we had no variable rate debt outstanding. We invest our excess cash in a portfolio of individual cash equivalents and marketable securities. We do not currently hold, and we have never held, any derivative financial instruments. As a result, we do not expect changes in interest rates to have a material impact on our results of operations or financial position. We plan to ensure the safety and preservation of our invested principal funds by limiting default, market and investment risks. We plan to mitigate default risk by investing in low-risk securities. Substantially all of our financial transactions are conducted in U.S. dollars. We do not have

significant foreign operations and, accordingly, do not have market risk associated with foreign currencies.

Item 8. Financial Statements and Supplementary Data

Our consolidated financial statements and related notes are filed together with this Annual Report. See the index to financial statements under Item 15(a) on page 141 for a list of financial statements filed with this report, and under this item.

Report of Independent Registered Public Accounting Firm on Internal Controls Over Financial Reporting

Consolidated balance sheets as of June 30, 2015 and June 30, 2014

Consolidated statements of income for the years ended June 30, 2015, June 30, 2014, and June 30, 2013

Consolidated statements of comprehensive income for the years ended June 30, 2015, June 30, 2014, and June 30, 2013

Consolidated statements of stockholders' (deficit) equity for the years ended June 30, 2015, June 30, 2014, and June 30, 2013

Consolidated statements of cash flows for the years ended June 30, 2015, June 30, 2014, and June 30, 2013

Notes to Consolidated Financial Statements

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of Premier, Inc.

We have audited the accompanying consolidated balance sheets of Premier, Inc. as of June 30, 2015 and 2014, and the related consolidated statements of income, comprehensive income, stockholders' (deficit) equity and cash flows for each of the three years in the period ended June 30, 2015. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Premier, Inc. at June 30, 2015 and 2014, and the consolidated results of its operations and its cash flows for each of the three years in the period ended June 30, 2015, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Premier, Inc.'s internal control over financial reporting as of June 30, 2015, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated August 26, 2015 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm on Internal Controls Over Financial Reporting

The Board of Directors and Shareholders of Premier, Inc.

We have audited Premier, Inc.'s internal control over financial reporting as of June 30, 2015, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). Premier, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Premier, Inc. maintained, in all material respects, effective internal control over financial reporting as of June 30, 2015, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Premier, Inc. as of June 30, 2015 and 2014, and the related consolidated statements of income, comprehensive income, stockholders' (deficit) equity and cash flows for each of the three years in the period ended June 30, 2015 and our report dated August 26, 2015 expressed an unqualified opinion thereon.

As indicated in the accompanying Management's Report on Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Aperek, Inc. and TheraDoc, Inc., which are included in the 2015 consolidated financial statements of Premier, Inc. and represented approximately 3% and 8%, respectively, of total assets as of June 30, 2015, and less

than 1% and 2%, respectively, of net revenue for the year then ended. Our audit of internal control over financial reporting of Premier, Inc. also did not include an evaluation of the internal control over financial reporting of Aperek Inc. and TheraDoc, Inc.

PREMIER, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) ORGANIZATION AND BASIS OF PRESENTATION

Organization

Premier, Inc. ("Premier" or the "Company") is a publicly-held, for-profit Delaware corporation primarily owned by hospitals, health systems and other healthcare organizations (such owners of Premier are referred to herein as "member owners") located in the United States, and public stockholders. The Company, together with its subsidiaries and affiliates, is a leading healthcare improvement company that unites hospitals, health systems, physicians and other healthcare providers to improve and innovate in the clinical, financial and operational areas of their business to meet the demands of a rapidly evolving healthcare industry.

The Company's business model and solutions are designed to provide its members access to scale efficiencies, spread the cost of their development, provide actionable intelligence derived from anonymized data in the Company's data warehouse, mitigate the risk of innovation and disseminate best practices that will assist its member organizations succeed in their transformation to higher quality and more cost-effective healthcare.

The Company, together with its subsidiaries and affiliates, delivers its integrated platform of solutions through two business segments: supply chain services and performance services. See Note 24 - Segments for further information related to the Company's reportable business segments. The supply chain services segment includes one of the largest healthcare group purchasing organizations ("GPOs") in the United States, a specialty pharmacy and direct sourcing activities. The performance services segment includes one of the largest informatics and advisory services businesses in the United States focused on healthcare providers. The Company's software as a service ("SaaS") informatics products utilize the Company's comprehensive data set to provide actionable intelligence to its members, enabling them to benchmark, analyze and identify areas of improvement across three main categories: cost management, quality and safety, and population health management. This segment also includes the Company's technology-enabled performance improvement collaboratives, advisory services and insurance management services.

Basis of Presentation and Consolidation

The Company, through its wholly-owned subsidiary, Premier Services, LLC ("Premier GP"), holds a 26% controlling general partner interest in, and, as a result, consolidates the financial statements of, Premier Healthcare Alliance, L.P. ("Premier LP"). The limited partners' 74% ownership of Premier LP is reflected as redeemable limited partners' capital in the Company's consolidated balance sheets, and their proportionate share of income in Premier LP is reflected within net income attributable to noncontrolling interest in Premier LP in the Company's consolidated statements of income and within comprehensive income attributable to noncontrolling interest in the consolidated statements of comprehensive income.

The member owners owned approximately 74% and 78% of the Company's combined Class A and Class B common stock (the "common stock") through their ownership of Class B common stock at June 30, 2015 and 2014, respectively. During the year ended June 30, 2015, the member owners exchanged approximately 4% of their Class B common units and associated Class B common stock for Class A common stock in accordance with their quarterly exchange rights under an exchange agreement (the "Exchange Agreement") entered into by the member owners in connection with the Reorganization and IPO. See Note 2 - Initial Public Offering and Reorganization for further information on the Exchange Agreement. As a result, at June 30, 2015, the member owners owned approximately 74% of the Company's combined common stock through their ownership of Class B common stock, and the public investors, which may include member owners that have received shares of Class A common stock in connection with the previous exchanges, owned approximately 26% of the Company's outstanding common stock.

After the completion of a series of transactions following the consummation of the initial public offering ("IPO"), referred to as the "Reorganization" (and, collectively with the IPO, the "Reorganization and IPO"), Premier Healthcare Solutions, Inc. ("PHSI") became a consolidated subsidiary of the Company. PHSI is considered the predecessor of the Company for accounting purposes and accordingly, PHSI's consolidated financial statements are the Company's historical financial statements for periods prior to October 1, 2013. The historical consolidated financial statements of PHSI are reflected herein based on PHSI's historical ownership interests of Premier LP and its consolidated

subsidiaries. See Note 2 - Initial Public Offering and Reorganization for further information related to the IPO and the Reorganization.

The accompanying consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") and in accordance with U.S. generally accepted accounting principles ("GAAP") and include the assets, liabilities, revenues and expenses of all majority-owned subsidiaries over which the Company exercised control and when applicable, entities for which the Company has a controlling financial interest or is the primary beneficiary. All

intercompany transactions have been eliminated upon consolidation. Accordingly, the consolidated financial statements reflect all adjustments that, in the opinion of management, are necessary for a fair presentation of results of operations and financial condition for the periods shown, including normal recurring adjustments.

The Company has reclassified certain prior-period amounts to be consistent with the current period presentation in the accompanying consolidated financial statements.

Use of Estimates in the Preparation of Financial Statements

The preparation of the Company's consolidated financial statements in accordance with GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Significant estimates are evaluated on an ongoing basis, including allowances for doubtful accounts, useful lives of property and equipment, stock-based compensation, payables under tax receivable agreements, values of investments not publicly traded, the valuation allowance on deferred tax assets, uncertain income taxes, deferred revenue, estimates of future cash flows associated with asset impairments, and the allocation of purchase price. These estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

(2) INITIAL PUBLIC OFFERING AND REORGANIZATION

Initial Public Offering

On October 1, 2013, Premier consummated its IPO of 32,374,751 shares of its Class A common stock, at a price of \$27.00 per share, raising net proceeds of approximately \$821.7 million after underwriting discounts and commissions, but before expenses.

Premier used approximately (i) \$543.9 million of the net proceeds from the IPO to acquire 21,428,571 Class B common units from the member owners, (ii) \$30.1 million of the net proceeds to acquire 1,184,882 Class B common units from PHSI and (iii) \$247.7 million of the net proceeds to acquire 9,761,298 newly issued Class A common units of Premier LP, or the Class A common units, from Premier LP, in each case for a price per unit equal to the price paid per share of Class A common stock by the underwriters to Premier in connection with the IPO. All Class B common units purchased by Premier with the net proceeds from the IPO automatically converted to Class A common units, pursuant to the terms of the the LP Agreement, and were contributed by Premier to Premier GP.

Reorganization

On October 1, 2013 (the "Effective Date"), Premier consummated the Reorganization. In connection with the Reorganization and IPO, immediately following the Effective Date, all of Premier LP's limited partners that approved the Reorganization received an amount of Class B common units and capital account balances in Premier LP equal to their percentage interests and capital account balances in Premier LP immediately preceding the Reorganization. Additionally, immediately following the Effective Date, all of the stockholders (consisting of member owners) of PHSI that approved the Reorganization contributed their PHSI common stock to Premier LP in exchange for additional Class B common units based on such stockholder's percentage interest in the fair market valuation of PHSI and Premier LP prior to the Reorganization. As a result of the foregoing contributions, PHSI became a wholly-owned subsidiary of Premier LP.

In connection with the Reorganization, the member owners purchased from Premier 112,607,832 shares of Class B common stock, for par value, \$0.000001 per share, which number of shares of Class B common stock equaled the number of Class B units held by the member owners immediately following the IPO, pursuant to a stock purchase agreement.

Below is a summary of the principal documents that effected the Reorganization and define and regulate the governance and control relationships among Premier, Premier LP and the member owners after the completion of the Reorganization and IPO.

LP Agreement

In connection with the Reorganization and IPO, pursuant to the LP Agreement, Premier GP became the general partner of Premier LP. As the general partner of Premier LP, Premier GP generally controls the day-to-day business affairs and decision-making of Premier LP without the approval of any other partner, subject to certain limited partner

approval rights. As the sole member of Premier GP, Premier is responsible for all operational and administrative decisions of Premier LP. In accordance with the LP Agreement, subject to applicable law or regulation and the terms of Premier LP's financing agreements, Premier GP will cause Premier LP to make quarterly distributions out of its estimated taxable net income to Premier GP and to the holders of Class B common units as a class in an aggregate amount equal to Premier LP's total taxable income other than net profit attributable to

dispositions not in the ordinary course of business for each such quarter multiplied by the effective combined federal, state and local income tax rate then payable by Premier to facilitate payment by each Premier LP partner of taxes, if required, on its share of taxable income of Premier LP. In addition, in accordance with the LP Agreement, Premier GP may cause Premier LP to make additional distributions to Premier GP and to all limited partners holding of Class B common units as a class in proportion to their respective number of units, subject to any applicable restrictions under Premier LP's financing agreements or applicable law. Premier GP will distribute any amounts it receives from Premier LP to Premier, which Premier will use to (i) pay applicable taxes, (ii) meet its obligations under the tax receivable agreements and (iii) meet its obligations to the member owners under the Exchange Agreement if they elect to convert their Class B common units for shares of its Class A common stock and Premier elects to pay some or all of the consideration to such member owners in cash.

In the event that a limited partner of Premier LP holding Class B common units not yet eligible to be exchanged for shares of Premier's Class A common stock pursuant to the terms of the Exchange Agreement (i) ceases to participate in Premier's GPO programs, (ii) ceases to be a limited partner of Premier LP (except as a result of a permitted transfer of its Class B common units), (iii) ceases to be a party to a GPO participation agreement (subject to certain limited exceptions) or (iv) becomes a related entity of, or affiliated with, a competing business of Premier LP, in each case, Premier LP will have the option to redeem all of such limited partner's Class B common units not yet eligible to be exchanged at a purchase price set forth in the LP Agreement. In addition, the limited partner will be required to exchange all Class B common units eligible to be exchanged on the next exchange date following the date of the applicable termination event described above.

Voting Trust Agreement

Additionally, in connection with the Reorganization and IPO, Premier's member owners entered into a voting trust agreement (the "Voting Trust Agreement") which became effective upon the completion of the Reorganization and IPO and pursuant to which the member owners contributed their Class B common stock into Premier Trust, under which Wells Fargo Delaware Trust Company, N.A., as trustee, acts on behalf of the member owners for purposes of voting their shares of Class B common stock. As a result of the Voting Trust Agreement, the member owners retain beneficial ownership of the Class B common stock, while the trustee is the legal owner of such equity. Pursuant to the Voting Trust Agreement, the trustee must vote all of the member owners' Class B common stock as a block in the manner determined by the plurality of the votes received by the trustee from the member owners for the election of directors to serve on our board of directors and by a majority of the votes received by the trustee from the member owners for all other matters.

Exchange Agreement

In connection with the Reorganization and IPO, Premier, Premier LP and the member owners entered into the Exchange Agreement which became effective upon the completion of the Reorganization and IPO. Pursuant to the terms of the Exchange Agreement, subject to certain restrictions, commencing on October 31, 2014 and during each year thereafter, each member owner has the cumulative right to exchange up to one-seventh of its initial allocation of Class B common units, as well as any additional Class B common units purchased by such member owner pursuant to certain rights of first refusal (discussed below), for shares of Class A common stock (on a one-for-one basis subject to customary adjustments for subdivisions or combinations by split, reverse split, distribution, reclassification, recapitalization or otherwise), cash or a combination of both, the form of consideration to be at the discretion of Premier's audit committee (or another committee of independent directors). This exchange right can be exercised on a quarterly basis (subject to certain restrictions contained in the registration rights agreement described below) and is subject to rights of first refusal in favor of the other holders of Class B common units and Premier LP. For each Class B common unit that is exchanged pursuant to the Exchange Agreement, the member owner will also surrender one corresponding share of our Class B common stock, which will automatically be retired.

Registration Rights Agreement

In connection with the Reorganization and IPO, Premier and the member owners entered into a registration rights agreement (the "Registration Rights Agreement") which became effective upon the completion of the Reorganization and IPO. Pursuant to the terms of the Registration Rights Agreement, Premier filed with the SEC a resale shelf registration statement for resales from time to time of its Class A common stock issued to the member owners in

exchange for their Class B common units pursuant to the Exchange Agreement, subject to various restrictions. The registration statement was declared effective by the SEC in November, 2104. Subject to certain exceptions, Premier will use reasonable efforts to keep the resale shelf registration statement effective for seven years. In addition, Premier will undertake to conduct an annual company-directed underwritten public offering to allow the member owners to resell Class A common stock and, at Premier's election, to permit it to sell primary shares, following the first quarterly exchange date of each of the first three years during which the member owners have the right to exchange their Class B common units for shares of Class A common stock. Premier will not be required to conduct a company-directed underwritten public offering unless the number of shares of Class A common stock requested by the member owners (and any third parties) to be registered in the applicable company-directed underwritten public offering constitutes the equivalent of at least 3.5% of the aggregate number of Class A common units and Class B common units, or, collectively, the common units, outstanding. If the

offering minimum has not been met, Premier will either proceed with the company-directed underwritten public offering (such decision being in Premier's sole discretion) or notify the member owners that Premier will abandon the offering. After the third year during which member owners have the right to exchange their Class B common units for shares of Premier's Class A common stock, Premier may elect to conduct a company-directed underwritten public offering in any subsequent year. Premier, as well as the member owners, and third parties, will be subject to customary prohibitions on sale prior to and for 60 days following any company-directed underwritten public offering. The Registration Rights Agreement also grants the member owners certain "piggyback" registration rights with respect to other registrations of Class A common stock.

Tax Receivable Agreements

In connection with the Reorganization and IPO, Premier entered into a tax receivable agreement with the member owners which became effective upon the completion of the Reorganization and IPO. Pursuant to the terms of the tax receivable agreement, Premier has agreed to pay to the member owners for as long as the member owner remains a limited partner, generally over a 15-year period (under current law), 85% of the amount of cash savings, if any, in U.S. federal, foreign, state and local income and franchise tax that Premier actually realizes (or is deemed to realize, in the case of payments required to be made upon certain occurrences under such tax receivable agreement) as a result of the increases in tax basis resulting from the initial sale of Class B common units by the member owners in connection with the Reorganization, as well as subsequent exchanges by such member owners pursuant to the Exchange Agreement, and of certain other tax benefits related to Premier entering into the tax receivable agreements, including tax benefits attributable to payments under the tax receivable agreements.

GPO Participation Agreement

In connection with the Reorganization and IPO, Premier's member owners entered into GPO participation agreements with Premier LP which became effective upon the completion of the Reorganization and IPO. Pursuant to the terms of its GPO participation agreement, each member owner will receive cash sharebacks, or revenue share, from Premier LP equal to 30% of all gross administrative fees collected by Premier LP based upon purchasing by such member owner's acute and alternate site providers and other eligible non-healthcare organizations that are owned, leased or managed by, or affiliated with, each such member owner, or member facilities, through Premier's GPO supplier contracts. In addition, Premier's two largest regional GPO member owners, which represented, in the aggregate, approximately 16% of Premier LP's gross administrative fees revenue for fiscal year 2014, will each remit all gross administrative fees collected by such member owner based upon purchasing by such member owner's member facilities through the member owner's own GPO supplier contracts and receive revenue share from Premier LP equal to 30% of such gross administrative fees remitted to Premier LP. Subject to certain termination rights, these GPO participation agreements will be for an initial five-year term, although Premier LP's two largest regional GPO member owners have entered into agreements with seven-year terms.

The terms of the GPO participation agreements vary as a result of provisions in Premier's existing arrangements with member owners that conflict with the terms of the GPO participation agreement and which by the express terms of the GPO participation agreement are incorporated by reference and deemed controlling and will continue to remain in effect. In certain other instances, Premier LP and member owners have entered into GPO participation agreements with certain terms that vary from the standard form, which were approved by the member agreement review committee of Premier's board of directors, based upon regulatory constraints, pending merger and acquisition activity or other circumstances affecting those member owners.

Effects of the Reorganization

Immediately following the consummation of the Reorganization and IPO:

• Premier became the sole member of Premier GP and Premier GP became the general partner of Premier LP. Through Premier GP, Premier exercises indirect control over the business operated by Premier LP, subject to certain limited partner approval rights. Premier GP has no employees and acts solely through its board of managers and appointed officers in directing the affairs of Premier LP;

• the member owners held 112,607,832 shares of Class B common stock and 112,607,832 Class B common units;

• Premier GP held 32,374,751 Class A common units;

•

through their holdings of Class B common stock, the member owners had approximately 78% of the voting power in Premier;
the investors in the IPO collectively owned all of Premier's outstanding shares of Class A common stock and collectively had approximately 22% of the voting power in Premier; and

Premier LP was the operating partnership and parent company to all of Premier's other operating subsidiaries, including Premier Supply Chain Improvement, Inc. ("PSCI") and PHSI.

Any newly admitted Premier LP limited partners will also become parties to the Exchange Agreement, the Registration Rights Agreement, the Voting Trust Agreement and the tax receivable agreements, in each case on the same terms and conditions as the then existing member owners (except that any Class B common units acquired by such newly admitted Premier LP limited partners will not be subject to the seven-year vesting schedule set forth in the LP Agreement and the Exchange Agreement). Any newly admitted Premier LP limited partner will also enter into a GPO participation agreement with Premier LP.

Impact of the Reorganization

The impact of the Reorganization gave effect to:

(i) the issuance of 32,374,751 shares of Class A common stock in the IPO, or approximately 22% of the Class A common stock and Class B common stock, collectively, outstanding after the Reorganization and IPO, at an IPO price of \$27.00 per share and the use of the net proceeds therefrom to purchase (A) Class A common units from Premier LP, (B) Class B common units from PHSI and (C) Class B common units from Premier's member owners, (ii) the entry by Premier LP, Premier GP and the member owners into the LP Agreement and (iii) the issuance of 112,607,832 shares of Class B common stock to the member owners;

the change from the 99% noncontrolling interest held by the limited partners of Premier LP prior to the Reorganization to the approximately 78% noncontrolling interest held by the limited partners of Premier LP subsequent to the Reorganization and IPO;

the change in the allocation of Premier LP's income from 1% of operating income and 5% of investment income to PHSI prior to the Reorganization and IPO to approximately 22% of Premier LP's income to Premier (indirectly through Premier GP) subsequent to the Reorganization and IPO as the result of the modified income allocation provisions of the LP Agreement and Premier's purchase of approximately 22% of the common units;

adjustments to reflect redeemable limited partners' capital at the redemption amount, which is the greater of the book value or redemption amount per the LP Agreement;

adjustments that give effect to the tax receivable agreement, including the effects of the increase in the tax basis of Premier LP's assets resulting from Premier's purchase of Class B common units from the member owners; and estimated payments due to member owners pursuant to the tax receivable agreement equal to 85% of the amount of cash savings, if any, in U.S. federal, foreign, state and local income and franchise tax that Premier actually realizes (or is deemed to realize in the case of certain payments required to be made upon certain occurrences under such tax receivable agreements as a result of the increases in the tax basis of Premier LP's assets resulting from Premier's purchase of Class B common units from the member owners and of certain other tax benefits related to Premier entering into the tax receivable agreement.

Premier accounted for the Reorganization as a non-substantive transaction in a manner similar to a transaction between entities under common control pursuant to Accounting Standards Codification Topic 805, Business Combinations. Accordingly, after the Reorganization, the assets and liabilities of Premier are reflected at their carryover basis.

The following table presents the adjustments to the balance sheet upon the consummation of the Reorganization and IPO at October 1, 2013 (in thousands):

Assets		
Cash and cash equivalents	\$277,814	(1)
Prepaid expenses and other current assets	(5,911)	(2)
Total current assets	271,903	
Deferred tax assets	282,972	(3)
Total assets	\$554,875	
Liabilities, redeemable limited partners' capital and stockholders' deficit		
Payable pursuant to tax receivable agreements	\$6,966	(3)
Total current liabilities	6,966	
Payable pursuant to tax receivable agreements, less current portion	179,111	(3)
Total liabilities	186,077	
Redeemable limited partners' capital	2,799,121	(4)
Stockholders' deficit:		
Common stock, par value \$0.01, 12,250,000 shares authorized; no shares outstanding	(56)	(5)
Class A common stock, par value \$0.01, 500,000,000 shares authorized; 32,374,751 shares issued and outstanding	324	(5)
Class B common stock, par value \$0.000001, 600,000,000 shares authorized; 112,607,832 shares issued and outstanding	—	(5)
Additional paid-in capital	(28,828)	(6)
Accumulated deficit	(2,401,766)	(7)
Accumulated other comprehensive income	3	(4)
Total stockholders' deficit	(2,430,323)	
Total liabilities, redeemable limited partners' capital and stockholders' deficit	\$554,875	

Reflects net effect on cash and cash equivalents of the receipt of gross proceeds from the IPO of \$874.1 million (1)(with an IPO price of \$27.00 per share of Class A common stock) and the purchase of units from the member owners described above, as follows (in thousands):

Gross proceeds from the IPO	\$874,118
Underwriting discounts, commissions and other expenses	(52,447)
Purchases of Class B common units from the member owners	(543,857)
Net cash proceeds from IPO	\$277,814

(2) Reflects the reduction of prepaid expenses related to the IPO, with an offset to the proceeds of the IPO in additional paid-in capital.

Premier LP has made an election under Section 754 of the Internal Revenue Code of 1986, as amended, or the Code, and comparable elections under state and local tax law, such that the initial sale of Class B common units by PHSI and the member owners resulted in adjustments to the tax basis of the assets of Premier LP. These increases in tax basis increase (for tax purposes) the depreciation and amortization deductions by Premier LP, and therefore, reduce the amount of income tax that Premier would otherwise be required to pay in the future. In connection with the Reorganization and IPO, Premier has entered into the tax receivable agreement with the member owners which (3) became effective upon the completion of the Reorganization and IPO, pursuant to which Premier agreed to pay to the member owners, generally over a 15-year period (under current law), 85% of the amount of cash savings, if any, in U.S. federal, foreign, state and local and franchise income tax that Premier actually realizes (or is deemed to realize, in the case of payments required to be made upon certain occurrences under such tax receivable agreements) as a result of the increases in tax basis resulting from the sale or exchange of Class B common units by the member owners. The unaudited adjustments give effect to the Section 754 election and the tax receivable agreements based on the following assumptions:

The increase in deferred tax assets representing the income tax effects of the increases in the tax basis as a result of Premier LP's election under Section 754 of the Code in connection with the initial sale of Class B common units described above. This adjustment is calculated based on an effective income tax rate for Premier of approximately 39%, which includes a provision for U.S. federal income taxes and assumes (i) Premier's statutory rates apportioned to each state and local tax jurisdiction, (ii) that there are no material changes in the relevant tax law, and (iii) that Premier earns sufficient taxable income in each year to realize the full tax benefit of the amortization of its assets. Premier determined the adjustments in connection with the Section 754 election by first calculating the excess of each selling member owner's and PHSI's selling price over such person's share of Premier LP's tax basis in its assets attributable to the Class B common units sold to Premier. Premier then allocated the aggregate excess among Premier LP's assets following applicable tax regulations governing adjustments that result from the Section 754 election. Premier determined

each selling member owner's share of the tax basis in Premier LP's assets attributable to the Class B common units sold to Premier by multiplying the member owner's tax capital account balance as of the date of sale as maintained in Premier LP's books and records by a fraction, the numerator of which was the number of Class B common units sold to Premier, and the denominator of which was the number of Class B common units held by the selling member owner immediately prior to the sale. For purposes of the calculation, the selling price per Class B common unit was equal to the net price paid per share of the Class A common stock by the underwriters to Premier in the IPO. The adjustments increased Premier LP's basis in its assets (for tax purposes), and Premier calculates the amount of depreciation, amortization and other deductions to which it is entitled as a result of these adjustments. Premier then calculates Premier's tax liability with and without the deductions attributable to these adjustments, assuming that Premier earns sufficient taxable income in each year to realize the full benefit of the deductions. Premier computed the estimated tax benefit attributable to the election as the excess of Premier's tax liability as so computed without the deductions over Premier's tax liability as so computed with the deductions. Additionally, the tax receivable agreements payments give rise to adjustments that result in Premier LP becoming entitled to additional deductions, and the calculation of Premier's liability under the tax receivable agreement take these adjustments and additional resulting deductions into account.

Premier LP's election under Section 754 of the Code is at the discretion of Premier LP and is not subject to review or approval by the IRS or other tax authorities. The computation of the adjustments resulting from the Section 754 election and Premier's tax liability is subject to audit by the IRS and other tax authorities in the same manner as all other items reported on income tax returns.

Upon the Reorganization and IPO, the cumulative adjustments of \$186.1 million, of which \$7.0 million was expected to be paid over the next 12 months, and was reflected as a current liability with the remaining balance classified as a long-term liability, to reflect a liability equal to 85% of the estimated realizable tax benefit resulting from the increase in tax basis due to Premier LP's Section 754 election in connection with the initial sale by the member owners of the Class B common units described above as an increase to payable pursuant to the tax receivable agreement.

Deferred tax assets are measured based on the difference in tax basis of Premier's investment in Premier LP as compared to its GAAP carrying value and include the change in allocations in connection with the Reorganization. The adjustments related to Premier LP's Section 754 election described above are a component of Premier's tax basis in Premier LP.

Pursuant to the terms of the Exchange Agreement, the member owners and new limited partners admitted to Premier LP following the completion of the IPO may subsequently exchange Class B common units in Premier LP for shares of Premier's Class A common stock, cash or a combination of both. Any subsequent exchanges of Class B common units for shares of Premier's Class A common stock pursuant to the Exchange Agreement may result in increases in the tax basis of the tangible and intangible assets of Premier LP (85% of the realized tax benefits from which will be due to the limited partners and recorded as an additional payable pursuant to the tax receivable agreement) that otherwise would not have been available. These subsequent exchanges have not been reflected in the consolidated financial statements.

Reflects the increase in the noncontrolling interest held by the limited partners in Premier LP resulting from the net proceeds from the IPO used to purchase Class A common units from Premier LP of \$247.7 million and Class B common units from PHSI of \$30.1 million, and the contribution of the common stock of PHSI in connection with the Reorganization of \$76.9 million. This is offset by an adjustment of \$131.0 million to reflect the approximately 78% controlling interest held by the redeemable limited partners of Premier LP subsequent to the Reorganization and IPO, which is reflected in redeemable limited partners' capital on the unaudited consolidated balance sheets.

(4) Immediately following the effective date of the LP Agreement, all of Premier LP's limited partners that approved the Reorganization received Class B common units and capital account balances in Premier LP equal to their percentage interests and capital account balances in Premier LP immediately preceding the Reorganization. Premier used a portion of the net proceeds from the IPO to purchase (i) Class A common units, (ii) Class B common units from PHSI and (iii) Class B common units from the member owners, resulting in a reduction in the noncontrolling interest attributable to the limited partners from 99% to approximately 78%.

Reflects the increase in redeemable limited partners' capital of \$2,575.5 million to record the balance at the redemption amount, which represents the greater of the book value or redemption amount per the LP Agreement, at the date of the Reorganization. This results in an offsetting decrease in retained earnings of \$50.1 million, followed by an offsetting decrease in additional paid-in-capital of \$173.7 million and with a final offsetting increase in accumulated deficit of \$2,351.7 million.

Reflects (i) the exchange of the existing PHSI shares of common stock, common stock subscribed and related (5) subscriptions receivable for Class B common units, (ii) the issuance of Class B common stock in connection with the Reorganization and (iii) the issuance of Class A common stock in connection with the IPO.

(6) Reflects the impact of the adjustments in notes (1), (2), (3), (4) and (5) above to additional paid-in capital:
• an increase of \$96.9 million due to an increase in deferred tax assets described in note (3) of \$283.0 million offset by an increase in payables pursuant to the tax receivable agreements of \$186.1 million;
• an increase of \$821.7 million from the net proceeds from the IPO less the par value of the shares of Class A common stock sold in the IPO of \$0.3 million and less prepaid offering expenses of \$5.9 million;

a decrease of \$767.5 million to reflect the difference between the consideration paid to acquire the Class A common units and B common units and the adjustment to the carrying value of the noncontrolling interest described in note (4) above; and

a decrease in the remaining balance of additional paid-in-capital related to the increase in redeemable limited partners' capital to its redemption value, as described in note (4) above.

(7) Reflects the decrease in retained earnings and increase in accumulated deficit related to the increase in redeemable limited partners' capital to its redemption value, as described in note (4) above.

In addition, following the completion of the Reorganization and the IPO:

Premier LP became contractually required under the GPO participation agreements to pay each member owner revenue share from Premier LP equal to 30% of all gross administrative fees collected by Premier LP based upon purchasing by such member owner's member facilities through Premier LP's GPO supplier contracts. Historically, Premier LP did not generally have a contractual requirement to pay revenue share to member owners participating in its GPO programs, but paid semi-annual distributions of partnership income.

Premier records redeemable limited partners' capital at redemption value, which represents the greater of the book value or redemption amount per the LP Agreement, at the reporting date.

Premier became subject to additional U.S. federal, state and local income taxes with respect to its additional allocable share of any taxable income of Premier LP.

Noncontrolling interest in Premier LP decreased from 99% to approximately 78%.

(3) SIGNIFICANT ACCOUNTING POLICIES

Business Combinations

We account for acquisitions using the acquisition method. All of the assets acquired, liabilities assumed, contractual contingencies, and contingent consideration are recognized at their fair value on the acquisition date. Any excess of the purchase price over the estimated fair values of the net assets acquired is recorded as goodwill. Acquisition-related costs are recorded as expenses in the consolidated financial statements.

Several valuation methods may be used to determine the fair value of assets acquired and liabilities assumed. For intangible assets, we typically use the income method. This method starts with a forecast of all of the expected future net cash flows for each asset. These cash flows are then adjusted to present value by applying an appropriate discount rate that reflects the risk factors associated with the cash flow streams. Some of the more significant estimates and assumptions inherent in the income method or other methods include the amount and timing of projected future cash flows, the discount rate selected to measure the risks inherent in the future cash flows and the assessment of the asset's life cycle and the competitive trends impacting the asset, including consideration of any technical, legal, regulatory, or economic barriers to entry. Determining the useful life of an intangible asset also requires judgment as different types of intangible assets will have different useful lives and certain assets may even be considered to have indefinite useful lives.

Cash and Cash Equivalents

Cash and cash equivalents include cash and highly liquid investments with remaining maturities of three months or less at the time of acquisition.

Marketable Securities

The Company invests its excess cash in commercial paper, U.S. government securities, corporate debt securities and other securities with maturities generally ranging from three months to five years from the date of purchase.

Marketable securities, classified as available-for-sale, are carried at fair market value, with the unrealized gains and losses on such investments reported in comprehensive income as a separate component of stockholders' (deficit) equity or redeemable limited partners' capital as appropriate. Realized gains and losses, and other-than-temporary declines in investments, are included in other income, net in the accompanying consolidated statements of income.

The Company uses the specific-identification method to determine the cost of securities sold. The Company does not hold publicly traded equity investments.

Fair Value of Financial Instruments

The fair value of an asset or liability is based on the assumptions that market participants would use in pricing the asset or liability. Valuation techniques consistent with the market approach, income approach and/or cost approach are used to measure fair value. The Company follows a three-tiered fair value hierarchy when determining the inputs to valuation techniques. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels in order to maximize the use of observable inputs and minimize the use of unobservable inputs. The levels of the fair value hierarchy are as follows:

Level 1: consists of financial instruments whose values are based on quoted market prices for identical financial instruments in an active market;

Level 2: consists of financial instruments whose values are determined using models or other valuation methodologies that utilize inputs that are observable either directly or indirectly, including (i) quoted prices for similar assets or liabilities in active markets, (ii) quoted prices for identical or similar assets or liabilities in markets that are not active, (iii) pricing models whose inputs are observable for substantially the full term of the financial instrument and (iv) pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the financial instrument;

Level 3: consists of financial instruments whose values are determined using pricing models that utilize significant inputs that are primarily unobservable, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Accounts Receivable

Financial instruments, other than marketable securities, that subject the Company to potential concentrations of credit risk consist primarily of the Company's receivables. Receivables consist primarily of amounts due from hospital and healthcare system members for services and products. The Company maintains an allowance for doubtful accounts. This allowance is an estimate and is regularly evaluated by the Company for adequacy by taking into consideration factors such as past experience, credit quality of the member base, age of the receivable balances, both individually and in the aggregate, and current economic conditions that may affect a member's ability to pay. Provisions for the allowance for doubtful accounts attributable to bad debt are recorded in selling, general and administrative expenses in the accompanying consolidated statements of income. Accounts deemed uncollectible are written off, net of actual recoveries. If circumstances related to specific customers change, the Company's estimate of the recoverability of receivables could be further adjusted.

Inventory

Inventory consisting of finished goods, primarily medical products and other non-pharmaceutical products, are stated at the lower of cost or market on an average cost basis. Inventories consisting of pharmaceuticals and pharmaceutical-related products are stated at the lower of cost or market on a first-in, first-out basis. The Company performs periodic assessments to determine the existence of obsolete, slow-moving and unusable inventory and records necessary provisions to reduce such inventory to net realizable value.

Restricted Cash

Restricted cash of \$5.0 million at June 30, 2014 represents cash equivalents held in a trust by Wells Fargo Bank, National Association in favor of the Vermont Department of Financial Regulation (the "Department") on behalf of Premier Insurance Exchange, Risk Retention Group ("PRx"), an entity in which the Company has an equity investment. In April 2015, the funds in the trust were determined to be in excess of regulatory requirements and the trust was terminated. As such, \$5.0 million was released from restriction and is included in cash and cash equivalents in the accompanying consolidated balance sheets as of June 30, 2015.

Property and Equipment, Net

Property and equipment are recorded at cost, net of accumulated depreciation. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance and repairs are charged to expense as incurred.

When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives (“EUL”) of the related assets using the straight-line method. Capitalized modifications to leased properties are amortized using the straight-line method over the shorter of the lease term or the assets' EUL. See Note 8 - Property and Equipment, Net.

Costs to develop internal use computer software during the application development stage are capitalized. Internal use capitalized software costs are included in property and equipment, net in the accompanying consolidated balance sheets. Capitalized costs are amortized on a straight-line basis over the estimated useful lives of the related software applications of up to five years and amortization is included in cost of revenue in the accompanying consolidated statements of income. The Company capitalized costs related to software developed for internal use of \$57.9 million and \$41.1 million during the years ended June 30, 2015 and 2014, respectively.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset or asset group may not be recoverable from the estimated cash flows expected to result from its use and eventual disposition. In cases where the undiscounted cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of the asset or asset group. The factors considered by the Company in performing this assessment include current and projected operating results, trends and prospects, the manner in which the asset or asset group is used, and the effects of obsolescence, demand, competition and other economic factors.

Intangible Assets

Intangible assets consist primarily of acquired technology, customer relationships and trade names, and are amortized over their EUL. See Note 9 - Intangible Assets, Net.

The Company reviews the carrying value of intangible assets subject to amortization for impairment whenever events and circumstances indicate that the carrying value of the intangible asset subject to amortization may not be recoverable from the estimated cash flows expected to result from its use and eventual disposition. In cases where the undiscounted cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of the intangible asset subject to amortization. The factors considered by the Company in performing this assessment include current and projected operating results, trends and prospects, the manner in which the intangible asset is used, and the effects of obsolescence, demand and competition, as well as other economic factors.

An impairment loss is recognized if the carrying amount of a definite-lived intangible asset exceeds the estimated fair value on the measurement date.

Goodwill

Goodwill represents costs in excess of fair values assigned to the underlying net assets of acquired businesses.

Goodwill is not amortized. The Company performs its annual goodwill impairment testing on the first day of the last fiscal quarter of its fiscal year unless impairment indicators are present which could require an interim impairment test.

Under accounting rules, the Company may elect to perform a qualitative assessment to determine if an impairment is more likely than not to have occurred. This qualitative assessment requires an evaluation of any excess of fair value over the carrying value for a reporting unit and significant judgment regarding potential changes in valuation inputs, including a review of the Company's most recent long-range projections, analysis of operating results versus the prior year, changes in market values, changes in discount rates and changes in terminal growth rate assumptions. If it is determined that an impairment is more likely than not to exist, then we are required to perform a quantitative assessment to determine whether or not goodwill is impaired and to measure the amount of goodwill impairment, if any.

Goodwill impairment is determined using a two-step process. The first step involves a comparison of the estimated fair value of each of our reporting units to its carrying amount, including goodwill. In performing the first step, we determine the fair value of a reporting unit using a discounted cash flow analysis that is corroborated by a market-based approach. Determining fair value requires the exercise of significant judgment, including judgment about appropriate discount rates, perpetual growth rates and the amount and timing of expected future cash flows. The cash flows employed in the discounted cash flow analyses are based on the most recent budget and long-term forecast.

The discount rates used in the discounted cash flow analyses are intended to reflect the risks inherent in the future cash flows of the respective reporting units. If the estimated fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is not impaired and the second step of the impairment test is not necessary.

If the carrying amount of a reporting unit exceeds its estimated fair value, then the second step of the goodwill impairment test must be performed. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with its goodwill carrying amount to measure the amount of impairment, if any. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. In other words, the estimated fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible

assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment charge is recognized in an amount equal to that excess.

The Company's most recent annual impairment testing, which consisted of a quantitative assessment, did not result in any goodwill impairment charges during the fourth quarter of the fiscal year ended June 30, 2015.

Deferred Compensation Plan Assets and Related Liabilities

The Company maintains a non-qualified deferred compensation plan for the benefit of eligible employees. This plan is designed to permit employee deferrals in excess of certain tax limits and provides for discretionary employer contributions in excess of the tax limits applicable to the Company's 401(k) plan. The amounts deferred are invested in assets at the direction of the employee.

Company assets designated to pay benefits under the plan are held by a rabbi trust and are subject to the general creditors of the Company.

The assets, classified as trading securities, and liabilities of the rabbi trust are recorded at fair value and are accounted for as assets and liabilities of the Company. The assets of the rabbi trust are used to fund the deferred compensation liabilities owed to current and former employees. The deferred compensation plan contains both current and non-current assets. The current portion of the deferred compensation plan assets is comprised of estimated amounts to be paid within one year to departed participants following separation from the Company. The estimated current portion, totaling \$2.6 million and \$0.3 million at June 30, 2015 and 2014, respectively, is included in prepaid expenses and other current assets in the accompanying consolidated balance sheets. The corresponding current portion of deferred compensation plan liabilities is included in other current liabilities in the accompanying consolidated balance sheets at June 30, 2015 and 2014. The non-current portion of the deferred compensation plan assets, totaling \$37.5 million and \$32.9 million at June 30, 2015 and 2014, respectively, is included in long-term assets in the accompanying consolidated balance sheets. The corresponding non-current portion of deferred compensation plan liabilities is included in long-term liabilities in the accompanying consolidated balance sheets at June 30, 2015 and 2014. Unrealized loss and unrealized gain of \$0.8 million and \$2.0 million, respectively, on plan assets as of June 30, 2015 and 2014, respectively, are included in other (expense) income, net in the accompanying consolidated statements of income. The corresponding income and expense of \$0.8 million and \$2.0 million, respectively, are included in selling, general and administrative expense in the accompanying consolidated statements of income for years ended June 30, 2015 and 2014, respectively. Unrealized gains and losses on plan assets for the year ended June 30, 2013 were insignificant.

Investments

The Company uses the cost method to account for investments in businesses that are not publicly traded and for which the Company does not control or have the ability to exercise significant influence over operating and financial policies. In accordance with the cost method, these investments are recorded at lower of cost or fair value, as appropriate, and are classified as long-term and included in other assets.

Investments held by the Company in businesses that are not publicly traded and for which the Company has the ability to exercise significant influence over operating and financial management are accounted for under the equity method. In accordance with the equity method, these investments are originally recorded at cost and are adjusted for the Company's proportionate share of earnings, losses and distributions. These investments are classified as long-term and included in other assets. See Note 12 - Investments.

The Company assesses and records impairment losses when events and circumstances indicate the investments might be impaired. Gains and losses are recognized when realized and recorded in other income (expense), net in the accompanying consolidated statements of income.

Tax Receivable Agreements

The Company records a liability related to the tax receivable agreements based on 85% of the estimated amount of tax savings the Company expects to receive, generally over a 15-year period, in connection with the additional tax benefits created in connection with the Reorganization and IPO. Tax payments under the tax receivable agreements will be made to the member owners as the Company realizes tax benefits attributable to the initial purchase of Class B common units from the member owners in the Reorganization and IPO and any subsequent exchanges of Class B common units into Class A common stock or cash between the Company and the member owners. Determining the estimated amount of tax savings the Company expects to receive requires judgment as deductibility of goodwill amortization expense is not assured and the estimate of tax savings is dependent upon the actual realization of the tax benefit and the tax rates in effect at that time.

Changes in the estimated tax receivable agreement liability that are the result of a change in tax accounting method are recorded in selling, general and administrative expense in the consolidated statements of income. Changes in the estimated tax receivable agreement liability that are related to new basis changes as a result of the exchange of Class B common units for a like number of shares of Class A common stock or as a result of departed member owners are recorded as an increase to additional paid-in capital in the consolidated statements of stockholders' (deficit) equity.

Redeemable Limited Partner's Capital

The LP agreement includes a provision that provides for redemption of a limited partner's interest upon termination as follows: For Class B common units not yet eligible for exchange, those will be redeemed at a purchase price which is the lower of the limited partner's capital account balance in Premier LP immediately prior to the IPO after considering any IPO proceeds received and the fair market value of the Class A common stock of the Company on the date of the termination with either (a) a five-year, unsecured, non-interest bearing term promissory note, (b) a cashier's check or wire transfer of immediately available funds in an amount equal to the present value of the Class B unit redemption amount, or (c) payment on such other terms mutually agreed upon with Premier GP. For Class B common units that are eligible for exchange, the limited partner is also required to exchange all eligible Class B common units on the next exchange date following the date of the termination.

A limited partner cannot redeem all or any part of its interest in Premier LP without the approval of Premier GP, which is controlled by the board of directors. Given the limited partners hold the majority of the votes of the board of directors, limited partners' capital has a redemption feature that is not solely within the control of the Company. As a result, the Company reflects limited partners' capital on the consolidated balance sheets as redeemable limited partners' capital in temporary equity. In addition, the limited partners have the ability to exchange their Class B common units for cash or Class A common shares on a one-for-one basis. Accordingly, the Company records redeemable limited partners' capital at the redemption amount, which represents the greater of the book value or redemption amount per the LP Agreement at the reporting date, with the corresponding offset to additional paid-in-capital and retained earnings (accumulated deficit).

Distributions to Limited Partners under the LP Agreement

Premier LP makes quarterly distributions to Premier, Inc. as the general partner and to the limited partners in the form of a legal partnership income distribution governed by the terms of the LP Agreement. The general partner distribution is based on the general partner's ownership in Premier LP. The limited partner distributions are based on the limited partners' ownership in Premier LP and relative participation across Premier service offerings. While the limited partner distributions are partially based on relative participation across Premier service offerings, the actual distribution is not solely based on revenue generated from an individual partner's participation as distributions are based on the net income or loss of the partnership which encompass the operating expenses of the partnership as well

as income or loss generated by non-owner members' participation in Premier's service offerings. To the extent Premier LP incurred a net loss, the partners would not receive a quarterly distribution.

Revenue Recognition

Net Revenue

Net revenue consists of (i) service revenue which includes net administrative fees revenue and other services and support revenue and (ii) product revenue. Net administrative fees revenue consists of net GPO administrative fees in the supply chain segment. Other services and support revenue consists primarily of fees generated by the performance services segment in connection with the Company's SaaS informatics products subscriptions, advisory services and performance improvement collaborative subscriptions. Product revenue consists of specialty pharmacy and direct sourcing product sales, which are included in the supply chain segment. The Company recognizes revenue when (i) there is persuasive evidence of an arrangement, (ii) the fee is fixed or

determinable, (iii) services have been rendered and payment has been contractually earned, and (iv) collectability is reasonably assured.

Net Administrative Fees Revenue

Net administrative fees revenue is generated through administrative fees received from suppliers based on the total dollar volume of supplies purchased by the Company's members in connection with its GPO programs.

The Company, through its group purchasing program, aggregates member purchasing power to negotiate pricing discounts and improve contract terms with suppliers. Contracted suppliers pay the Company administrative fees which generally represent 1% to 3% of the purchase price of goods and services sold to members under the contracts the Company has negotiated. Administrative fees are recognized as revenue in the period in which the respective supplier reports member purchasing data, usually a month or a quarter in arrears of actual member purchase activity. The supplier report proves that the delivery of product or service has occurred, the administrative fees are fixed and determinable based on reported purchasing volume, and collectability is reasonably assured. Member and supplier contracts substantiate persuasive evidence of an arrangement. The Company does not take title to the underlying equipment or products purchased by members through its GPO supplier contracts.

The Company pays a revenue share equal to a percentage of gross administrative fees that the Company collects based upon purchasing by such members and their owned, leased, managed or affiliated facilities through its GPO supplier contracts. Revenue share is recognized according to the members' contractual agreements with the Company as the related administrative fees revenue is recognized. Considering GAAP relating to principal/agent considerations under revenue recognition, revenue share is recorded as a reduction to gross administrative fees revenue to arrive at a net administrative fees revenue amount, which amount is included in service revenue in the accompanying consolidated statements of income.

Other Services and Support Revenue

Performance services revenue consists of SaaS informatics products subscriptions, performance improvement collaborative and other service subscriptions, professional fees for advisory services, and insurance services management fees and commissions from group-sponsored insurance programs.

SaaS informatics subscriptions include the right to use the Company's proprietary hosted technology on a SaaS basis, training and member support to deliver improvements in cost management, quality and safety, population health management and provider analytics. Pricing varies by application and size of healthcare system. Informatics subscriptions are generally three to five year agreements with automatic renewal clauses and annual price escalators that typically do not allow for early termination. These agreements do not allow for physical possession of the software. Subscription fees are typically billed on a monthly basis and revenue is recognized as a single deliverable on a straight-line basis over the remaining contractual period following implementation. Implementation involves the completion of data preparation services that are unique to each member's data set and, in certain cases, the installation of member site-specific software, in order to access and transfer member data into the Company's hosted SaaS informatics products. Implementation is generally 100 to 170 days following contract execution before the SaaS informatics products can be fully utilized by the member.

The Company sells certain perpetual and term licenses that include mandatory post-contract customer support in the form of maintenance and support services. Pricing varies by application and size of healthcare system. Fees for the initial period include the license fees, implementation fees and the initial bundled maintenance and support services fees. The fees for the initial period are recognized straight-line over the remaining initial period following implementation. Subsequent renewal maintenance and support services fees are recognized on a straight-line basis over the contractually stated renewal periods. Implementation services are provided to the customer prior to the use of the software and do not involve significant customization or modification. Implementation is generally 300 to 350 days following contract execution before the licensed software products can be fully utilized by the member.

Revenue from performance improvement collaboratives and other service subscriptions that support the Company's offerings in cost management, quality and safety and population health management is recognized over the service period, which is generally one year.

Professional fees for advisory services are sold under contracts, the terms of which vary based on the nature of the engagement. Fees are billed as stipulated in the contract, and revenue is recognized on a proportional performance method as services are performed and deliverables are provided. In situations where the contracts have significant contract performance guarantees or member acceptance provisions, revenue recognition occurs when the fees are fixed and determinable and all contingencies, including any refund rights, have been satisfied.

Insurance services management fees are recognized in the period in which such services are provided. Commissions from group sponsored insurance programs are recognized over the term of the insurance policies, generally one year. Certain administrative and/or patient management specialty pharmacy services are provided in situations where prescriptions are sent back to member health systems for dispensing. Additionally, the Company derives revenue from pharmaceutical manufacturers for providing patient education and utilization data. Revenue is recognized as these services are provided.

Product Revenue

Specialty pharmacy revenue is recognized when a product is accepted and is recorded net of the estimated contractual adjustments under agreements with Medicare, Medicaid and other managed care plans. Payments for the products provided under such agreements are based on defined allowable reimbursements rather than on the basis of standard billing rates. The difference between the standard billing rate and allowable reimbursement rate results in contractual adjustments which are recorded as deductions from net revenue.

Direct sourcing revenue is recognized once the title and risk of loss of medical products have been transferred to members.

Multiple Deliverable Arrangements

The Company occasionally enters into agreements where the individual deliverables discussed above, such as SaaS subscriptions and advisory services, are bundled into a single service arrangement. These agreements are generally provided over a time period ranging from approximately three months to five years after the applicable contract execution date. Revenue is allocated to the individual elements within the arrangement based on their relative selling price using vendor specific objective evidence ("VSOE"), third-party evidence ("TPE") or the estimated selling price ("ESP"), provided that the total arrangement consideration is fixed and determinable at the inception of the arrangement. The Company establishes VSOE, TPE, or ESP for each element of a service arrangement based on the price charged for a particular element when it is sold separately in a stand-alone arrangement. All deliverables which are fixed and determinable are recognized according to the revenue recognition methodology described above.

Certain arrangements include performance targets or other contingent fees that are not fixed and determinable at the inception of the arrangement. If the total arrangement consideration is not fixed and determinable at the inception of the arrangement, the Company allocates only that portion of the arrangement that is fixed and determinable to each element. As additional consideration becomes fixed, it is similarly allocated based on VSOE, TPE or ESP to each element in the arrangement and recognized in accordance with each element's revenue recognition policy.

Performance Guarantees

On limited occasions, the Company may enter into an agreement which provides for guaranteed performance levels to be achieved by the member over the term of the agreement. In situations with significant performance guarantees, the Company defers revenue recognition until the amount is fixed and determinable and all contingencies, including any refund rights, have been satisfied. In the event that guaranteed savings levels are not achieved, the Company may have to pay the difference between the savings that were guaranteed and the actual achieved savings.

Deferred Revenue

Deferred revenue consists of unrecognized revenue related to advanced member invoicing or member payments received prior to fulfillment of the Company's revenue recognition criteria. Substantially all deferred revenue consists of deferred subscription fees and deferred advisory fees. Subscription fees for company-hosted SaaS applications are deferred until the member's unique data records have been incorporated into the underlying software database, or until member site-specific software has been implemented and the member has access to the software. Deferred advisory fees arise when cash is received from members prior to delivery of service. When the fees are contingent upon meeting a performance target that has not yet been achieved, the advisory fees are deferred until the performance target is met.

Cost of Revenue and Operating Expenses

Cost of Revenue

Cost of service revenue includes expenses related to employees (including compensation and benefits) and outside consultants who directly provide services related to revenue-generating activities, including advisory services to members and implementation

services related to SaaS informatics products. Cost of service revenue also includes expenses related to hosting services, related data center capacity costs, third-party product license expenses and amortization of the cost of internal use software.

Cost of product revenue consists of purchase and shipment costs for specialty pharmaceuticals and direct sourced medical products.

Operating Expenses

Selling, general and administrative expenses consist of expenses directly associated with selling and administrative employees and indirect expenses associated with employees that primarily support revenue generating activities (including compensation and benefits) and travel-related expenses, as well as occupancy and other indirect expenses, insurance expenses, professional fees, and other general overhead expenses.

Research and development expenses consist of employee-related compensation and benefits expenses, and third-party consulting fees of technology professionals, incurred to develop, support and maintain the Company's software-related products and services.

Amortization of purchased intangible assets includes the amortization of all identified intangible assets resulting from acquisitions.

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs are reflected in selling, general and administrative expenses in the accompanying consolidated statements of income and were \$2.2 million, \$1.7 million and \$1.4 million for the years ended June 30, 2015, 2014 and 2013, respectively.

Income Taxes

The Company accounts for income taxes under the asset and liability approach. Deferred tax assets or liabilities are determined based on the differences between the financial statement and tax basis of assets and liabilities as measured by the enacted tax rates which will be in effect when these differences reverse. The Company provides a valuation allowance against net deferred tax assets when, based upon the available evidence, it is more likely than not that the deferred tax assets will not be realized.

The Company prepares and files tax returns based on interpretations of tax laws and regulations. The Company's tax returns are subject to examination by various taxing authorities in the normal course of business. Such examinations may result in future tax and interest assessments by these taxing authorities.

In determining the Company's tax expense for financial reporting purposes, the Company establishes a reserve for uncertain income tax positions unless it is determined to be "more likely than not" that such tax positions would be sustained upon examination, based on their technical merits. That is, for financial reporting purposes, the Company only recognizes tax benefits taken on the tax return if it believes it is "more likely than not" that such tax positions would be sustained. There is considerable judgment involved in determining whether it is "more likely than not" that positions taken on the tax returns would be sustained.

The Company adjusts its tax reserve estimates periodically because of ongoing examinations by, and settlements with, varying taxing authorities, as well as changes in tax laws, regulations and interpretations. The consolidated tax expense of any given year includes adjustments to prior year income tax accruals and related estimated interest charges that are considered appropriate. The Company's policy is to recognize, when applicable, interest and penalties on uncertain income tax positions as part of income tax expense.

Comprehensive Income

Comprehensive income includes all changes in stockholders' equity during a period from non-owner sources. Net income and other comprehensive income, including unrealized gains and losses on investments, are reported, net of their related tax effect, to arrive at comprehensive income.

Basic and Diluted Earnings per Share

Basic earnings per share ("EPS") is calculated by dividing net income by the number of weighted average common shares outstanding during the period. Diluted EPS assumes the conversion, exercise or issuance of all potential common stock equivalents, unless the effect of inclusion would result in the reduction of a loss or the increase in income per share. Diluted EPS is computed

by dividing net income by the number of weighted average common shares increased by the dilutive effects of potential common shares outstanding during the period. The number of potential common shares outstanding is determined in accordance with the treasury stock method. Common stock subscribed is included in the calculation of basic EPS, since the subscribed shares have full voting and dividend participation rights on the day of subscription.

Recently Issued Accounting Standards

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The new standard requires revenue to be recognized when promised goods or services are transferred to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new standard also requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The new standard allows for either full retrospective or modified retrospective adoption.

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, to defer the effective date of the new standard for all entities by one year. The new standard will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2017 and early adoption as of the original effective date for public entities will be permitted. The new standard will be effective for the Company for the fiscal year ending June 30, 2019.

The Company is currently evaluating the transition method that will be elected as well as the impact of the adoption of the new standard on its consolidated financial statements and related disclosures. The Company is also evaluating the impact of the deferral of the effective date on its plans for adopting the new standard.

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis, which effectively eliminates the presumption that a general partner should consolidate a limited partnership, modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities (VIEs) or voting interest entities, and affects the consolidation analysis of reporting entities that are involved with VIEs (particularly those that have fee arrangements and related party relationships). In some cases, consolidation conclusions will change under the new guidance and, in other cases, a reporting entity will need to provide additional disclosures if an entity that currently is not considered a VIE is considered a VIE under the new guidance. The new standard will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2015 and early adoption is permitted. The new standard allows for either full retrospective or modified retrospective adoption. The new standard will be effective for the Company for the fiscal year ending June 30, 2017. The Company is currently evaluating the impact of the adoption of the new standard on its consolidated financial statements and related disclosures.

(4) BUSINESS ACQUISITIONS

None of the following acquisitions were considered significant to the accompanying consolidated financial statements.

Acquisition of Noncontrolling Interest in S2S Global

On February 2, 2015, the Company purchased the remaining 40% of the outstanding shares of common stock of S2S Global for approximately \$14.5 million. In connection with the purchase, the Company repaid the \$14.2 million balance outstanding under the S2S Global line of credit and terminated the S2S Global line of credit prior to its maturity date. The Company utilized available funds on hand to complete the acquisition and pay-off the S2S Global line of credit.

Acquisition of TheraDoc, Inc.

On September 1, 2014, the Company completed the acquisition of 100% of the outstanding shares of TheraDoc, Inc. ("TheraDoc") for approximately \$108.6 million, subject to potential purchase price adjustments. TheraDoc is a leading provider of clinical surveillance software to healthcare organizations across the country that brings together disparate data from a hospital's source systems and helps alert clinicians to potential risks. The Company utilized

available funds on hand to complete the acquisition. Assets acquired and liabilities assumed were recorded at their estimated fair values as of September 1, 2014, with the remaining unallocated purchase price recorded as goodwill. Management's estimates and assumptions are subject to change within the measurement period (not to exceed one year).

Acquisition of Aperek, Inc.

On August 29, 2014, the Company completed the acquisition of 100% of the outstanding shares of Aperek, Inc. ("Aperék"), (formerly Mediclick), for approximately \$47.4 million, subject to potential purchase price adjustments. Aperek is a SaaS-based

supply chain solutions company focused on purchasing workflow and analytics. The Company utilized available funds on hand to complete the acquisition. Assets acquired and liabilities assumed were recorded at their estimated fair values as of August 29, 2014, with the remaining unallocated purchase price recorded as goodwill. Management's estimates and assumptions are subject to change within the measurement period (not to exceed one year).

Acquisition of MEMdata, LLC

On April 7, 2014, the Company completed the acquisition of MEMdata, LLC ("MEMdata"), an equipment planning, sourcing and analytics business focused on capital equipment needs for existing medical facilities, as well as those under construction, for \$6.1 million. The Company funded the acquisition with available cash on hand. Assets acquired and liabilities assumed were recorded at their estimated fair values as of April 7, 2014, with the remaining unallocated purchase price recorded as goodwill.

Acquisition of Meddius, L.L.C.

On October 31, 2013, the Company completed the acquisition of Meddius, L.L.C. ("Meddius"), a data acquisition and integration-as-a-service company that spans multiple hospital transaction systems including enterprise resource planning, materials management, enterprise health records and patient accounting, for \$7.7 million. The Company funded the acquisition with available cash on hand. Assets acquired and liabilities assumed were recorded at their estimated fair values as of October 31, 2013, with the remaining unallocated purchase price recorded as goodwill.

Acquisition of SYMMEDRx, LLC

On July 19, 2013, the Company purchased all the issued and outstanding units of SYMMEDRx, LLC ("SYMMEDRx") for \$28.7 million. The Company funded the acquisition by drawing on its then existing senior secured revolving credit facility. See Note 13 - Lines of Credit for further information. Assets acquired and liabilities assumed were recorded at their estimated fair values as of July 19, 2013, with the remaining unallocated purchase price recorded as goodwill.

(5) MARKETABLE SECURITIES

The Company invests its excess cash in commercial paper, U.S. government securities, corporate debt securities and other securities with maturities generally ranging from three months to five years from the date of purchase. The Company uses the specific-identification method to determine the cost of securities sold. Marketable securities, classified as available-for-sale, consist of the following (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
June 30, 2015				
Commercial paper	\$43,067	\$12	\$—	\$43,079
U.S. government debt securities	101,597	66	(8) 101,655
Corporate debt securities	211,079	34	(129) 210,984
Asset-backed securities	59,692	12	(10) 59,694
	\$415,435	\$124	\$(147) \$415,412
June 30, 2014				
Commercial paper	\$33,561	\$12	\$(1) \$33,572
U.S. government debt securities	116,620	124	—	116,744
Corporate debt securities	166,424	69	(41) 166,452
Asset-backed securities	91,824	34	(7) 91,851
	\$408,429	\$239	\$(49) \$408,619

Commercial paper, U.S. government securities, corporate debt securities and asset-backed securities are included in current portion of marketable securities and long-term portion of marketable securities in the accompanying consolidated balance sheets.

At June 30, 2015, the Company had marketable securities with the following maturities (in thousands):

	Cost	Fair Market Value
Due in one year or less	\$240,672	\$240,667
Due after one year through five years	174,763	174,745
	\$415,435	\$415,412

See Note 6 - Fair Value Measurements for further discussion related to the Company's measurement of fair market value for its marketable securities.

(6) FAIR VALUE MEASUREMENTS

The Company measures the following assets at fair value on a recurring basis (in thousands):

Description	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
June 30, 2015			
Cash equivalents	\$33,434	\$33,434	\$—
Commercial paper	43,079	—	43,079
U.S. government debt securities	101,655	34,145	67,510
Corporate debt securities	210,984	—	210,984
Asset-backed securities	59,694	—	59,694
Deferred compensation plan assets ^(a)	40,057	40,057	—
Total assets	\$488,903	\$107,636	\$381,267
June 30, 2014			
Cash equivalents	\$64,207	\$64,207	\$—
Commercial paper	33,572	—	33,572
U.S. government debt securities	116,744	—	116,744
Corporate debt securities	166,452	—	166,452
Asset-backed securities	91,851	—	91,851
Deferred compensation plan assets ^(a)	33,256	33,256	—
Total assets	\$506,082	\$97,463	\$408,619

(a) Deferred compensation plan assets consist of highly liquid mutual fund investments.

Cash equivalents are included in cash and cash equivalents; commercial paper, U.S. government debt securities, corporate debt securities and asset-backed securities are included in current portion and long-term portion of marketable securities; and deferred compensation plan assets are included in prepaid expenses and other current assets (\$2.6 million and \$0.3 million at June 30, 2015 and June 30, 2014, respectively) and other assets (\$37.5 million and \$32.9 million at June 30, 2015 and June 30, 2014, respectively) in the accompanying consolidated balance sheets. The fair value of the Company's commercial paper, U.S. government debt securities, corporate debt securities and asset-backed securities, classified as Level 2, are valued using quoted prices for similar securities in active markets or quoted prices for identical or similar securities in markets that are not active. The Company had no assets for which fair value is measured on a recurring basis at June 30, 2015 and 2014 that would be classified as Level 3. The fair value of cash, accounts receivable, accounts payable, accrued liabilities and lines of credit approximate carrying value because of the short term nature of these financial instruments. The fair value of non-interest bearing notes payable, classified as Level 2, is less than their carrying value by approximately \$0.6 million and \$0.7 million at June 30, 2015 and June 30, 2014,

respectively, based on an assumed market interest rate of 1.6% and 1.5%, respectively, at June 30, 2015 and June 30, 2014. See Note 14 - Notes Payable for more information.

(7) ACCOUNTS RECEIVABLE, NET

Accounts receivable, net consists of the following (in thousands):

	June 30, 2015	2014
Accounts receivable	\$99,019	\$67,549
Other	1,254	1,082
	100,273	68,631
Allowance for doubtful accounts	(1,153)	(1,054)
Accounts receivable, net	\$99,120	\$67,577

(8) PROPERTY AND EQUIPMENT, NET

Property and equipment, net consists of the following (in thousands):

	Useful life	June 30, 2015	2014
Capitalized software	3-5 years	\$298,106	\$258,305
Computer hardware	3-5 years	46,806	40,003
Furniture and other equipment	5 years	7,630	7,624
Leasehold improvements	Lesser of EUL or term of lease	15,768	15,201
		368,310	321,133
Accumulated depreciation and amortization		(220,685)	(186,582)
Property and equipment, net		\$147,625	\$134,551

Depreciation and amortization expense related to property and equipment for the years ended June 30, 2015, 2014, and 2013 was \$45.2 million, \$36.8 million and \$27.7 million, respectively. Unamortized capitalized software costs at June 30, 2015 and 2014 were \$120.4 million and \$106.7 million, respectively.

During the year ended June 30, 2015, the Company recognized a loss on disposal of long-lived assets of approximately \$15.2 million primarily comprised of \$13.3 million in capitalized software costs, which were included in the performance services segment. The Company specifically identified these capitalized software assets as having no future economic benefit in conjunction with the on-going integration of the TheraDoc acquisition during its annual inventory process in May 2015. See Note 4 - Business Acquisitions. The Company did not incur a material loss on disposal of long-lived assets during the years ended June 30, 2014 and 2013.

(9) INTANGIBLE ASSETS, NET

Intangible assets, net consist of the following (in thousands):

	Estimated Useful Life	June 30, 2015	June 30, 2014
Technology	5.0 years	\$34,524	\$20,257
Customer relationships	8.3 years	16,120	6,830
Non-compete agreements	3.0 years	80	80
Trade names	4.9 years	5,760	3,990
		56,484	31,157
Accumulated amortization		(17,815)	(20,302)
Total intangible assets, net		\$38,669	\$10,855

Amortization expense of intangible assets was \$9.1 million, \$3.1 million and \$1.5 million for the years ended June 30, 2015, 2014 and 2013, respectively. Amortization expense related to technology was \$6.1 million, \$1.5 million and \$0.2 million for the years ended June 30, 2015, 2014 and 2013, respectively. During the year ended June 30, 2015, the Company wrote-off approximately \$11.6 million in fully amortized intangible assets.

The estimated aggregate amortization expense for each of the next five fiscal years and thereafter is as follows (in thousands):

2016	\$9,448
2017	8,940
2018	8,416
2019	6,977
2020	2,193
Thereafter	2,695
Total amortization expense	\$38,669

The net carrying value of intangible assets by segment is as follows (in thousands):

	June 30, 2015	June 30, 2014
Supply Chain Services	\$347	\$1,392
Performance Services	38,322	9,463
Total	\$38,669	\$10,855

(10) GOODWILL

Goodwill consists of the following (in thousands):

	Supply Chain Services	Performance Services	Total
Balance at June 30, 2014	\$31,765	\$62,686	\$94,451
TheraDoc acquisition	—	81,555	81,555
Aperek acquisition	—	39,639	39,639
Balance at June 30, 2015	\$31,765	\$183,880	\$215,645

(11) OTHER LONG-TERM ASSETS

Other long-term assets consist of the following (in thousands):

	June 30, 2015	2014
Investments	\$14,283	\$7,895
Deferred loan costs, net	2,095	2,511
Other	759	730
	\$17,137	\$11,136

The Company recorded \$0.3 million and \$0.2 million in amortization expense on deferred loan costs during the years ended June 30, 2015 and 2014, respectively. There was no amortization expense on deferred loan costs during the year ended June 30, 2013. Amortization expense on deferred loan costs is recognized based on the straight-line method, which approximates the effective interest method, and is included in interest and investment income, net in the consolidated statements of income.

(12) INVESTMENTS

Innovatix, LLC ("Innovatix") is a privately held limited liability company that provides group purchasing services to alternate site providers in specific classes of trade. The Company held 50% of the membership units in Innovatix at June 30, 2015 and 2014. The Company accounts for its investment in Innovatix using the equity method of accounting. The carrying value of the Company's investment in Innovatix was \$9.3 million and \$6.9 million at June 30, 2015 and 2014, respectively, and is included in other assets in the accompanying consolidated balance sheets. The Company's 50% ownership share of Innovatix's net income included in equity in net income from unconsolidated affiliates in the accompanying consolidated statements of income is \$21.3 million, \$17.0 million and \$12.0 million for the year ended June 30, 2015, 2014, and 2013, respectively, all of which is included in the supply chain services segment.

On May 1, 2015, Premier, through its subsidiary, PSCI, purchased 5,000,000 units of Class B Membership Interests in PharmaPoint, LLC ("PharmaPoint") for \$5.0 million, which provided PSCI with a 28% ownership interest in PharmaPoint. The remaining 72% ownership interest is held by Nations Pharmaceuticals, LLC through its 13,000,000 units of Class A Membership Interests. The Company accounts for its investment in PharmaPoint using the equity method of accounting. The carrying value of the Company's investment in PharmaPoint is approximately \$5.0 million at June 30, 2015 and is included in other assets in the accompanying consolidated balance sheet at June 30, 2015. The Company's 28% ownership share of PharmaPoint's net loss included in equity in net income from unconsolidated affiliates in the accompanying consolidated statements of income is \$0.05 million for the year ended June 30, 2015 all of which is included in the supply chain services segment.

(13) LINES OF CREDIT

On June 24, 2014, Premier LP, along with its wholly-owned subsidiaries, PSCI and PHSI, as Co-Borrowers, Premier GP, and certain domestic subsidiaries of Premier GP, as Guarantors, entered into an unsecured credit agreement, dated as of June 24, 2014, and amended on June 4, 2015 (the "Credit Agreement"). The Credit Agreement has a maturity date of June 24, 2019.

The Credit Agreement provides for borrowings of up to \$750.0 million with (i) a \$25.0 million subfacility for standby letters of credit and (ii) a \$75.0 million subfacility for swingline loans. The Credit Agreement also provides that the maximum principal amount of the credit facility may be increased from time to time at the Company's request up to an aggregate additional amount of \$250.0 million, subject to lender approval. The Credit Agreement includes an unconditional and irrevocable guaranty of all obligations under the Credit Agreement by Premier GP, certain domestic subsidiaries of Premier GP and future guarantors, if any. Premier is not a guarantor under the Credit Agreement.

The Credit Agreement permits the Company to prepay amounts outstanding without premium or penalty provided that Co-Borrowers are required to compensate the lenders for losses and expenses incurred as a result of the prepayment of any Eurodollar Rate Loan, as defined in the Credit Agreement. Committed loans may be in the form of Eurodollar Rate Loans or Base Rate Loans, as defined in the Credit Agreement, at the Company's option. Eurodollar Rate Loans bear interest at the Eurodollar Rate (defined as the London Interbank Offer Rate, or LIBOR, plus the Applicable Rate (defined as a margin based on the Consolidated Total Leverage Ratio (as defined in the credit facility))). Base Rate Loans bear interest at the Base Rate (defined as the highest of the

prime rate announced by the Administrative Agent, the federal funds effective rate plus 0.50% or the one-month LIBOR plus 1.0%) plus the Applicable Rate. The Applicable Rate ranges from 1.125% to 1.75% for Eurodollar Rate Loans and 0.125% to 0.750% for Base Rate Loans. At June 30, 2015, the interest rate for three-month Eurodollar Rate Loans was 1.41% and the interest rate for Base Rate Loans was 3.375%. The Co-Borrowers are required to pay a commitment fee ranging from 0.125% to 0.250% per annum on the actual daily unused amount of commitments under the credit facility. At June 30, 2015, the commitment fee was 0.125%.

The Credit Agreement contains customary representations and warranties as well as customary affirmative and negative covenants, including, among others, limitations on liens, indebtedness, fundamental changes, dispositions, restricted payments and investments. Under the terms of the Credit Agreement, Premier GP is not permitted to allow its Consolidated Total Leverage Ratio (as defined in the Credit Agreement) to exceed 3.00 to 1.00 for any period of four consecutive fiscal quarters. In addition, Premier GP must maintain a minimum Consolidated Interest Coverage Ratio (as defined in the Credit Agreement) of 3.00 to 1.00 at the end of every fiscal quarter. The Company was in compliance with all such covenants at June 30, 2015. The Credit Agreement also contains customary events of default including, among others, payment defaults, breaches of representations and warranties, covenant defaults, cross-defaults of any indebtedness or guarantees in excess of \$30.0 million, bankruptcy and other insolvency events, judgment defaults in excess of \$30.0 million, and the occurrence of a change of control (as defined in the Credit Agreement). If any event of default occurs and is continuing, the Administrative Agent under the Credit Agreement may, with the consent, or shall, at the request, of the required lenders, terminate the commitments and declare all of the amounts owed under the Credit Agreement to be immediately due and payable.

Proceeds from borrowings under the Credit Agreement may generally be used to finance ongoing working capital requirements, including permitted acquisitions and other general corporate purposes. As of June 30, 2015 and 2014, there were no outstanding borrowings under the Credit Agreement. As of June 30, 2015, the Company had approximately \$25.0 million available under the letter of credit commitments.

On February 2, 2015, the Company purchased the remaining 40% of the outstanding shares of common stock of S2S Global. In connection with the purchase, the Company repaid the \$14.2 million balance outstanding under the S2S Global line of credit and terminated the S2S Global line of credit prior to its maturity date.

At June 30, 2014, S2S Global had \$13.7 million outstanding on the revolving line of credit, which is included within the current portion of notes payable and line of credit in the accompanying consolidated balance sheets.

Cash paid for interest during the year ended June 30, 2015 was \$0.1 million.

(14) NOTES PAYABLE

At June 30, 2015 and 2014, the Company had \$17.9 million and \$20.0 million, respectively, in notes payable consisting primarily of non-interest bearing notes payable outstanding to departed member owners, of which \$2.2 million and \$4.0 million, respectively, are included in current portion of notes payable and line of credit and \$15.7 million and \$15.8 million, respectively, are included in notes payable, less current portion, in the accompanying consolidated balance sheets.

Future minimum principal payments as of June 30, 2015 are as follows (in thousands):

2016	\$2,256
2017	5,378
2018	7,995
2019	260
2020	2,046
Thereafter	—
Total principal payments	\$17,935

(15) OTHER LONG-TERM LIABILITIES

Other long-term liabilities consist of the following (in thousands):

	June 30,	
	2015	2014
Deferred rent	\$15,996	\$15,960
Reserve for uncertain tax positions	3,436	1,438
Accrued compensation	1,482	834
Other long-term liabilities	\$20,914	\$18,232

(16) REDEEMABLE LIMITED PARTNERS' CAPITAL

At June 30, 2013, redeemable limited partners' capital represents the limited partners' 99% ownership of Premier LP. Pursuant to the terms of the historical limited partnership agreement, Premier LP was required to repurchase a limited partner's interest in Premier LP upon the sale of such limited partner's shares of PHSI common stock, such limited partner's withdrawal from Premier LP or such limited partner's failure to comply with the applicable purchase commitments under the existing limited partnership agreement of Premier LP. As a result, the redeemable limited partners' capital is classified as temporary equity in the mezzanine section of the consolidated balance sheets since (i) the withdrawal is at the option of each limited partner and (ii) the conditions of the repurchase are not solely within the Company's control.

Upon the consummation of the Reorganization and IPO, each limited partner's shares of PHSI were contributed for Class B common units of Premier LP. Commencing on October 31, 2014, and during each year thereafter, each limited partner has the cumulative right to exchange up to one-seventh of its initial allocation of Class B common units for shares of Class A common stock, cash or a combination of both, the form of consideration to be at the discretion of the Company's independent audit committee of the board of directors.

Redeemable limited partners' capital represents the member owners' 74% ownership of Premier LP at June 30, 2015. The limited partners hold the majority of the votes of the board of directors and any redemption or transfer or choice of consideration cannot be assumed to be within the control of the Company. As such, classification outside of permanent equity is still required and the redeemable limited partners' capital is recorded at the redemption amount, which represents the greater of the book value or redemption amount per the LP Agreement, and is classified as temporary equity in the mezzanine section of the consolidated balance sheet at June 30, 2015. As previously discussed, the Company records redeemable limited partners' capital at the greater of the book value or redemption amount per the LP Agreement that the Company calculates as the fair value of all Class B common units, as if immediately exchangeable into Class A common shares. For the years ended June 30, 2015 and 2014 the Company recorded an adjustment to fair value for the redemption amount to redeemable limited partners' capital of \$904.0 million and \$2,741.6 million, respectively.

During the year ended June 30, 2015, the Company recorded a reduction of \$175.1 million to redeemable limited partners' capital to reflect the exchange of Class B common units and associated shares of Class B common stock by the member owners for a like number of shares of the Company's Class A common stock pursuant to the terms of the Exchange Agreement. The following table summarizes the number of Class B common units and associated shares of Class B common stock exchanged by member owners for a like number of shares of the Company's Class A common stock during the year ended June 30, 2015:

Date of Quarterly Exchange	Number of Class B Common Units Exchanged	Reduction in Redeemable Limited Partners' Capital
October 31, 2014	4,685,267	\$156,394
February 2, 2015	257,027	8,261
April 30, 2015	275,983	10,460
	5,218,277	\$175,115

The table below shows the changes in redeemable limited partners' capital classified as temporary equity from June 30, 2012 to June 30, 2015 (in thousands):

	Receivables From Limited Partners	Redeemable Limited Partners' Capital	Accumulated Other Comprehensive Income (Loss)	Total Redeemable Limited Partners' Capital
June 30, 2012	\$ (4,958) \$ 284,534	\$ (63) \$ 279,513
Issuance of redeemable limited partnership interest for notes receivable	(61,859) 61,859	—	—

June 30, 2015	\$ (11,633) \$ 4,091,473	\$ (8) \$ 4,079,832

Receivables from limited partners represent amounts due from limited partners for their required capital in Premier LP. These receivables are either interest bearing notes issued to new limited partners or non-interest bearing loans (contribution loans) provided to existing limited partners and are reflected as a reduction in redeemable limited partners' capital so that amounts due from limited partners for capital are not reflected as redeemable limited partnership capital until paid. No interest bearing notes receivable were executed by limited partners of Premier LP

during the year ended June 30, 2015.

124

During the year ended June 30, 2015, four limited partners withdrew from Premier LP. The limited partnership agreement provides for the redemption of the former limited partner's Class B common units that are not eligible for exchange in the form of a five-year, unsecured, non-interest bearing term promissory note, a cash payment equal to the present value of the redemption amount, or other mutually agreed upon terms. Partnership interest obligations to the former limited partners are reflected in notes payable in the accompanying consolidated balance sheets. Prior to the consummation of the Reorganization and IPO, Premier LP maintained a discretionary distribution policy in which semi-annual cash distributions were made each February attributable to the recently completed six months ended December 31 and each September attributable to the recently completed six months ended June 30. As provided in the then existing limited partnership agreement, the amount of actual cash distributed may have been reduced by the amount of such distributions used by limited partners to offset contribution loans or other amounts payable to the Company.

Premier LP distributed \$214.5 million to its limited partners during the three months ended September 30, 2013 attributable to income generated through June 30, 2013, of which \$2.8 million was retained to reduce limited partner notes payable and related interest obligations and an additional \$3.4 million was retained to reduce other amounts payable by limited partners to the Company, resulting in a cash distribution of \$208.3 million. During the three months ended December 31, 2013, Premier LP distributed cash of \$72.6 million to its limited partners attributable to income generated through September 30, 2013.

Upon the consummation of the Reorganization and IPO, Premier LP amended its distribution policy in which cash distributions will be required, as long as taxable income is generated and cash is available to distribute, on a quarterly basis prior to the 60th day after the end of each calendar quarter instead of a semi-annual basis. The Company makes quarterly distributions to its limited partners in the form of a legal partnership income distribution governed by the terms of the LP Agreement. These partner distributions are based on the limited partner's ownership in Premier LP and relative participation across Premier service offerings. While these distributions are based on relative participation across Premier service offerings, it is not based directly on revenue generated from an individual partner's participation as the distributions are based on the net income or loss of the Partnership which encompass the operating expenses of the Partnership as well as participation by non-owner members in Premier's service offerings. To the extent Premier LP incurred a net loss, the partners would not receive a quarterly distribution. As provided in the limited partnership agreement, the amount of actual cash distributed may be reduced by the amount of such distributions used by limited partners to offset contribution loans or other amounts payable to the Company.

Premier LP made a quarterly distribution on February 27, 2014 to its limited partners of \$17.4 million and a quarterly distribution on May 29, 2014 to its limited partners of \$21.4 million. Each distribution was equal to the previous fiscal quarter's total taxable income for Premier LP multiplied by the Company's standalone effective combined federal, state and local income tax rate.

Premier LP made a quarterly distribution on August 28, 2014 to its limited partners of \$22.4 million, which is equal to the total taxable income for Premier LP for the three months ended June 30, 2014 multiplied by the Company's stand-alone effective combined federal, state and local income tax rate. At June 30, 2014, the quarterly distribution payable to the limited partners of \$22.4 million is reflected in limited partners' distribution payable in the accompanying consolidated balance sheets.

Premier LP made a quarterly distribution on November 26, 2014 to its limited partners of \$22.7 million, which is equal to Premier LP's total taxable income for the three months ended September 30, 2014 multiplied by the Company's stand-alone effective combined federal, state and local income tax rate.

Premier LP made a quarterly distribution on February 26, 2015 to its limited partners of \$23.7 million, which is equal to Premier LP's total taxable income for the three months ended December 31, 2014 multiplied by the Company's stand-alone effective combined federal, state and local income tax rate.

Premier LP made a quarterly distribution on May 29, 2015 to its limited partners of \$23.4 million, which is equal to Premier LP's total taxable income for the three months ended March 31, 2015 multiplied by the Company's stand-alone effective combined federal, state and local income tax rate.

Premier LP will make a quarterly distribution, payable before August 28, 2015 (or prior to the 60th day after the end of the calendar quarter ended June 30, 2015), equal to Premier LP's total taxable income for the three months ended

June 30, 2015 multiplied by the Company's stand-alone effective combined federal, state and local income tax rate. The distribution payable attributable to the limited partners of approximately \$22.4 million at June 30, 2015 is reflected in limited partners' distribution payable in the accompanying consolidated balance sheets.

(17) STOCKHOLDERS' (DEFICIT) EQUITY

As of June 30, 2015, there were 37,668,870 shares of its Class A common stock, par value \$0.01 per share and 106,382,552 shares of its Class B common stock, par value \$0.000001 per share, outstanding.

Holders of Class A common stock are entitled to (i) one vote for each share held of record on all matters submitted to a vote of stockholders, (ii) receive dividends, when and if declared by the board of directors out of funds legally available therefore, subject to any statutory or contractual restrictions on the payment of dividends and to any restrictions on the payment of dividends imposed by the terms of any outstanding preferred stock or any class of series of stock having a preference over or the right to participate with the Class A common stock with respect to the payment of dividends or other distributions and (iii) receive pro rata, based on the number of shares of Class A common stock held, the remaining assets available for distribution upon the dissolution or liquidation of Premier, after payment in full of all amounts required to be paid to creditors and to the holders of preferred stock having liquidation preferences, if any.

Holders of Class B common stock are (i) entitled to one vote for each share held of record on all matters submitted to a vote of stockholders and (ii) not entitled to receive dividends or to receive a distribution upon the dissolution or a liquidation of Premier, other than dividends payable in shares of Premier's common stock. Pursuant to the Voting Trust Agreement, the trustee will vote all of the Class B common stock as a block in the manner determined by the plurality of the votes received by the trustee from the member owners for the election of directors to serve on our board of directors, and by a majority of the votes received by the trustee from the member owners for all other matters. Class B common stock will not be listed on any exchange and, except in connection with any permitted sale or transfer of Class B common units, cannot be sold or transferred.

(18) EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share of Premier is computed by dividing net income (loss) attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount by the weighted average number of shares of common stock outstanding for the period. Net income (loss) attributable to stockholders after adjustment of redeemable limited partners' capital to redemption amount reflects the adjustment recorded in the period to reflect redeemable limited partners' capital at the redemption amount, as a result of the benefit obtained by limited partners through the ownership of Class B common units. Except when the effect would be anti-dilutive, the diluted earnings per share calculation, which is calculated using the treasury stock method, includes the impact of non-vested restricted stock units, shares of non-vested performance share awards and shares that could be issued under the outstanding stock options.

The following table provides a reconciliation of common shares used for basic earnings (loss) per share and diluted earnings (loss) per share (in thousands, except per share amounts):

	Year Ended June 30,		
	2015 ^(c)	2014 ^(d)	2013 ^(e)
Numerator for basic and diluted (loss) income per share:			
Net (loss) income attributable to stockholders after adjustment of redeemable partners' capital to redemption amount	\$(865,292)	\$(2,713,256)	\$7,376
Denominator for basic (loss) income per share weighted average shares ^(a)	35,681	25,633	5,858
Effect of dilutive securities: ^(b)			
Stock options	—	—	—
Restricted stock units	—	—	—
Performance share awards	—	—	—
Denominator for diluted (loss) income per share-adjusted:			
Weighted average shares and assumed conversions	35,681	25,633	5,858
Basic net (loss) income per share from assumed conversions	\$(24.25)	\$(105.85)	\$1.26
Diluted net (loss) income per share from continuing operations	\$(24.25)	\$(105.85)	\$1.26

(a) Weighted average number of common shares used for basic earnings per share excludes weighted average shares of non-vested restricted stock units and non-vested performance share awards for the twelve months ended June 30, 2015 and 2014.

- For the year ended June 30, 2015, the effect of 60 stock options, 354 restricted stock units and 634 performance share awards were excluded from the diluted weighted average shares outstanding due to the net loss sustained for the respective periods. Additionally, the effect of 124 restricted stock units were also excluded from the diluted weighted average shares outstanding for the fiscal year ended June 30, 2014 due to the net loss sustained for the period. Further, the 106,383 Class B common units exchangeable for Class A common shares was excluded from the diluted weighted average shares outstanding for all periods presented because inclusion thereof would have been anti-dilutive for all such periods.
- (b) The weighted average shares calculation is based on the Premier, Inc. common shares outstanding for the year ended June 30, 2015.
- (c) The weighted average shares calculation is based on a combination of the PHSI historical common shares outstanding for the three months ended September 30, 2013 and the Premier, Inc. common shares outstanding for the period from September 25, 2013 to June 30, 2014.
- (e) The weighted average shares calculation is based on the PHSI common shares outstanding for the year ended June 30, 2013.
- As a result of the consummation of the Reorganization and IPO, effective October 1, 2013, earnings per share is not comparable for all periods presented. See Note 2 - Initial Public Offering and Reorganization for further information.

Pursuant to the terms of the Exchange Agreement, Premier has issued, on a quarterly basis, shares of Class A common stock to member owners in exchange for a like number of Class B common units of Premier LP. In connection with the exchange of Class B common units by member owners, shares of Premier's Class B common stock are surrendered by member owners and retired. The following table presents certain information regarding the exchange of Class B common units and associated Class B common stock for Premier's Class A common stock in connection with the quarterly exchanges pursuant to the terms of the Exchange Agreement:

Date of Quarterly Exchange	Number of Class B Common Units Exchanged	Number of Class B Common Shares Retired Upon Exchange	Number of Class B Common Units Outstanding After Exchange	Number of Class B Common Shares Outstanding After Exchange	Number of Class A Common Shares Outstanding After Exchange	Percentage of Combined Voting Power Class B/Class A Common Stock
October 31, 2014	4,685,267	4,685,267	107,181,272	107,181,272	37,075,734	74%/26%
February 2, 2015	257,027	257,027	106,658,535	106,658,535	37,353,364	74%/26%
April 30, 2015	275,983	275,983	106,382,552	106,382,552	37,662,059	74%/26%
July 31, 2015 ^(a)	91,374	91,374	106,078,063	106,078,063	37,762,544	74%/26%

(a) As the quarterly exchange occurred on July 31, 2015, the impact of the exchange is not reflected in the consolidated financial statements for the year ended June 30, 2015.

(19) STOCK-BASED COMPENSATION

Stock-based compensation expense is recognized over the requisite service period, which generally equals the stated vesting period. Pre-tax stock-based compensation expense was \$28.5 million and \$19.5 million for the year ended June 30, 2015 and 2014, respectively, with a resulting deferred tax benefit of \$10.8 million and \$7.4 million, respectively, calculated at a rate of 38%, which represents the expected effective income tax rate at the time of the compensation expense deduction and differs from the Company's current effective income tax rate due to enacted state income tax rate changes. There was no stock-based compensation expense for the year ended June 30, 2013.

At June 30, 2015, there was \$38.4 million of unrecognized stock-based compensation expense related to non-vested awards that will be amortized over 1.48 years.

Premier 2013 Equity Incentive Plan

The Premier 2013 Equity Incentive Plan (the "2013 Equity Incentive Plan") provides for grants of up to 11,260,783 shares of Class A common stock, all of which are eligible to be issued as non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock, restricted stock units or performance awards. As of June 30, 2015, there were 6,710,054 shares available for grant under the 2013 Equity Incentive Plan.

Restricted Stock Units. Restricted stock unit awards issued and outstanding generally vest over a three-year period. The following table includes information related to restricted stock unit awards for the year ended June 30, 2015:

	Number of Shares	Weighted Average Fair Value at Grant Date
Outstanding at June 30, 2014	717,304	\$27.29
Granted	160,425	\$31.86
Vested	(23,151)) \$28.14
Forfeited	(35,487)) \$27.67
Outstanding at June 30, 2015	819,091	\$28.15

At June 30, 2015, there was \$10.2 million of unrecognized stock-based compensation expense related to restricted stock units that will be amortized over 1.40 years.

Performance Share Awards. Performance share awards issued and outstanding generally vest over three years if performance targets are met. The following table includes information related to performance share awards for the year ended June 30, 2015:

	Number of Shares	Weighted Average Fair Value at Grant Date
Outstanding at June 30, 2014	827,174	\$27.00
Granted	278,123	\$31.75
Vested	—	\$—
Forfeited	(13,429)) \$28.65
Outstanding at June 30, 2015	1,091,868	\$28.19

At June 30, 2015, there was \$14.2 million of unrecognized stock-based compensation expense related to performance share awards that will be amortized over 1.47 years.

Stock Options. Stock options have a term of 10 years from the date of grant; however, vested stock options will expire either after 12 months of an employee's termination with Premier or immediately upon an employee's termination with Premier, depending on the termination circumstances. Stock options generally vest in three equal annual installments over three years. The following table includes information related to stock options for the year ended June 30, 2015:

	Number of Options	Weighted Average Exercise Price
Outstanding at June 30, 2014	2,047,484	\$27.00
Granted	674,078	\$31.92
Exercised	(55,866)) \$27.00
Forfeited	(22,618)) \$29.26
Outstanding at June 30, 2015	2,643,078	\$28.24

Outstanding and exercisable at June 30, 2015	1,309,785	\$27.01
--	-----------	---------

The aggregate intrinsic value of stock options outstanding at June 30, 2015 was \$27.0 million. The aggregate intrinsic value of stock options outstanding and exercisable at June 30, 2015 was \$15.0 million. The aggregate intrinsic value of stock options expected to vest at June 30, 2015 was \$12.0 million. The intrinsic value of stock options exercised during the year ended June 30, 2015 was \$0.5 million. There were no stock options exercised during the years ended June 30, 2014 and 2013.

At June 30, 2015, there was \$14.0 million of unrecognized stock-based compensation expense related to stock options that will be amortized over 1.55 years.

The Company estimates the fair value of each stock option on the date of grant using the Black-Scholes option pricing model, applying the following assumptions, and amortizes expense over the option's vesting period using the straight-line attribution approach:

For options granted during the year ended:	June 30, 2015	June 30, 2014	
Expected life ⁽¹⁾	6 years	6 years	
Expected dividend ⁽²⁾	—	—	
Expected volatility ⁽³⁾	34.8% - 39.5%	42.00	%
Risk-free interest rate ⁽⁴⁾	1.66% - 1.89%	1.71	%
Weighted average option grant date fair value	\$12.82 - \$14.15	\$11.46	

(1) The six-year expected life (estimated period of time outstanding) of stock options granted was estimated using the "Simplified Method" which utilizes the midpoint between the vesting date and the end of the contractual term. This method was utilized for the stock options due to the lack of historical exercise behavior of Premier's employees.

(2) No dividends are expected to be paid over the contractual term of the stock options granted, resulting in the use of a zero expected dividend rate.

(3) The expected volatility rate is based on the observed historical volatilities of comparable companies.

(4) The risk-free interest rate was interpolated from the five-year and seven-year United States constant maturity market yield as of the date of the grant.

(20) PENSIONS AND OTHER POST-RETIREMENT BENEFITS

The Company has a defined contribution 401(k) retirement savings plan (the 401(k) plan) which covers employees who meet certain age and service requirements.

The Company had a defined contribution pension plan that was terminated in December 2014 and subsequently incorporated into the Company's defined contribution 401(k) plan. The pension plan provided for monthly contributions of 5% of the participant's compensation, not to exceed certain limits. Pension expense, included in selling, general and administrative expenses in the accompanying consolidated statements of income, was \$3.9 million, \$8.2 million and \$7.5 million for the years ended June 30, 2015, 2014 and 2013, respectively.

The 401 (k) plan provides for monthly employee contributions of up to 20% and matching monthly employer contributions up to 4% of the participant's compensation, not to exceed certain limits. The 401(k) expense, included in selling, general and administrative expenses in the accompanying consolidated statements of income, was \$6.6 million, \$6.8 million and \$6.2 million for the years ended June 30, 2015, 2014 and 2013, respectively.

The Company maintains a non-qualified deferred compensation plan for the benefit of eligible employees. This plan is designed to permit employee deferrals in excess of certain tax limits and provides for discretionary employer contributions, in excess of the tax limits applicable to the pension, which terminated on December 31, 2014, and 401(k) plans. See Note 3 - Significant Accounting Policies.

(21) INCOME TAXES

The Company's income tax expense is attributable to the activities of the Company, PHSI and PSCI, all of which are subchapter C corporations. Under the provisions of federal and state statutes, Premier LP is not subject to federal and state income taxes. For federal and state income tax purposes, income realized by Premier LP is taxable to its partners. The Company, PHSI and PSCI are subject to U.S. federal and state income taxes.

Significant components of the consolidated expense/(benefit) for income taxes are as follows, (in thousands):

	June 30, 2015	2014	2013
Current:			
Federal	\$ 15,240	\$ 14,331	\$ 5,690
State	2,808	3,558	778
Total current expense	18,048	17,889	6,468
Deferred:			
Federal	15,770	8,832	2,858
State	2,524	988	400
Total deferred expense	18,294	9,820	3,258
Provision for income taxes	\$ 36,342	\$ 27,709	\$ 9,726

The Company's effective income tax rate differs from income taxes recorded at the statutory rate primarily due to partnership income not subject to federal income taxes, state and local taxes, and nondeductible expenses. A reconciliation of the amount at the statutory federal income tax rate to the actual tax expense is as follows, (in thousands).

	June 30, 2015	2014	2013	
Computed tax expense	\$ 94,895	\$ 126,115	\$ 134,684	
Partnership income (federal) not subject to tax to the Company	(82,751)	(109,445)	(126,703))
State taxes (net of federal benefit)	1,961	2,136	1,023	
Meals & entertainment and other permanent items	1,840	972	1,770	
Research & development credits	(2,160)	(639)	(1,725))
Uncertain tax positions	1,303	579	281	
Benefit on subsidiaries treated separately for income tax purposes	(6,323)	—	—	
Gain on intercompany sale of Premier Plans, LLC	—	11,908	—	
Change in valuation allowance	28,210	(3,150)	—)
Other	(633)	(767)	396)
Provision for income taxes	\$ 36,342	\$ 27,709	\$ 9,726	
Effective income tax rate	13.4	% 7.7	% 2.5	%

The effective tax rate has increased from the prior years as a result of the Reorganization which created additional partnership income subject to tax at the Company level and the valuation allowance recorded in the current year. Federal tax years ended June 30, 2014 and 2012 have not been examined by the Internal Revenue Service ("IRS") and remain open as of June 30, 2015. The Company is under examination by the IRS for tax year ended June 30, 2013. The Company believes it has recorded adequate taxes for positions taken which may be challenged upon IRS examination.

The Company has federal net operating loss carryforwards that will be available to offset federal taxable income of PHSI and its consolidated subsidiaries. These loss carryforwards are subject to an annual limitation under the provisions of IRC Section 382. At June 30, 2015, the Company had federal net operating loss carryforwards of \$16.4 million that will begin expiring on June 30, 2017 unless utilized. At June 30, 2015, the Company had state net operating loss carryforwards of \$9.6 million that will begin expiring on June 30, 2018, and PSCI had state net operating loss carryforwards of \$6.5 million that will begin expiring on June 30, 2017, unless utilized, based on each respective state's regulations regarding carryforward limitations.

The Company has federal research and development credit carryforwards of \$2.4 million and nominal state credit carryforwards. The federal credits will begin expiring on June 30, 2020.

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and the liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company annually assesses whether a valuation allowance is necessary against net deferred tax assets. Based on the Company's

assessment, we have concluded that it is more

130

likely than not that all of the deferred tax assets will be realized, except for certain state net operating losses as of June 30, 2014 that are expected to expire and the deferred tax assets of PHSI. Accordingly, as of June 30, 2015 and 2014, the Company has recognized net deferred tax assets of \$353.7 million and \$296.6 million, respectively. The increase in deferred tax assets is the result of intangible assets acquired in connection with the quarterly exchanges by member owners and an increase in equity compensation expense offset by the recording of the valuation allowance of \$28.4 million on PHSI deferred tax assets. The Company recorded a decrease in valuation allowance of \$0.2 million in the current year related to utilization and revaluation of the state net operating losses.

Significant components of the Company's deferred tax assets and liabilities are as follows, (in thousands):

	June 30, 2015	2014
Deferred tax assets, current		
Accrued expenses and other	\$10,679	\$6,617
Accrued vacation	3,692	3,030
Total current deferred tax assets	14,371	9,647
Valuation allowance for deferred tax assets	(6,366)	—
Net current deferred tax assets	8,005	9,647
Deferred tax asset, noncurrent		
Partnership basis differences in Premier LP	337,889	271,404
Stock compensation	18,079	7,449
Accrued expenses	23,602	13,690
Net operating losses and credits	8,791	3,929
Other	3,609	2,728
Total deferred tax assets	391,970	299,200
Valuation allowance for deferred tax assets	(22,313)	(470)
Net noncurrent deferred tax assets	369,657	298,730
Deferred tax liability, noncurrent		
Purchased intangible assets and depreciation	(23,939)	(11,794)
Total net noncurrent deferred tax assets	345,718	286,936
Net deferred tax asset	\$353,723	\$296,583

On October 1, 2013, the Company recorded deferred tax assets of \$283.0 million associated with basis differences in assets upon acquiring an interest in Premier LP and making a Section 754 election in connection with the Reorganization and IPO. The Company also recorded \$186.1 million in tax receivable agreement liabilities representing 85% of the tax savings that the Company expects to receive in connection with the Section 754 election. In June 2014, Premier LP received approval for a tax accounting method change that resulted in deferred tax assets increasing by \$2.4 million to \$285.4 million. The Company also recorded an additional \$6.2 million in tax receivable agreement liabilities, with an offset to selling, general and administrative expense, to the existing \$186.1 million which results in \$192.3 million in tax receivable agreement liabilities as of June 30, 2014. Both resulted from additional basis differences due to the accounting method change. The original recording of deferred tax assets was offset by the tax receivable liabilities with the resulting difference recorded to paid-in-capital. The adjustment to deferred tax assets and liabilities resulted in a \$2.4 million reduction to tax expense that is not anticipated to occur in the future.

The Company recorded \$78.2 million in deferred tax assets and \$57.2 million in tax receivable agreement liabilities related to quarterly exchanges by member owners during the year ended June 30, 2015. The Company also made tax receivable agreement liability payments of \$11.5 million and reduced the liability by \$2.0 million through an adjustment to additional paid-in capital in connection with departed member owners, which resulted in \$235.9 million in total tax receivable agreement liabilities as of June 30, 2015.

A reconciliation of the beginning and ending gross amounts of the Company's uncertain tax position reserves for the fiscal years ended June 30, 2015, 2014, and 2013 are as follows:

	June 30,		
	2015	2014	2013
Beginning of year balance	\$1,438	\$759	\$478
Increases in prior period tax positions	1,185	353	—
Decreases due to lapse in statute of limitations	(225)	(253)	—
Increases in current period tax positions	1,038	579	281
End of year balance	\$3,436	\$1,438	\$759

Unrecognized tax benefits at June 30, 2015 include \$3.2 million for tax positions that, if recognized, would impact the effective tax rate. The unrecognized tax benefits differ from the amount that would affect the Company's effective tax rate primarily because the unrecognized tax benefits were included on a gross basis and did not reflect the secondary impacts of the federal deduction for state taxes. It is expected that the reserves will change in the next twelve months; however, the Company does not expect the changes in its reserve to have a material impact on its consolidated financial statements. The amount of accrued interest and penalties was negligible at June 30, 2015 and 2014.

The Company made cash tax payments of \$10.3 million during the year ended June 30, 2015.

(22) RELATED PARTY TRANSACTIONS

GNYHA Services, Inc. ("GNYHA") converted from a non owner member to a member owner effective January 1, 2013. GNYHA and its member organizations owned approximately 11% of the outstanding partnership interests in Premier LP as of June 30, 2015. Net administrative fees revenue recorded with GNYHA and its member organizations was \$60.9 million, \$62.0 million and \$47.4 million for the years ended June 30, 2015, 2014 and 2013, respectively. As a result of the Reorganization and IPO, the Company has a contractual requirement under the GPO participation agreement to pay each member owner revenue share from Premier LP equal to 30% of all gross administrative fees collected by Premier LP based upon purchasing by such member owner's facilities through Premier LP's GPO supplier contracts. As GNYHA also remits all gross administrative fees collected by GNYHA based on purchases by its member organizations through GNYHA's own GPO supplier contracts, it also receives revenue share from Premier LP equal to 30% of such gross administrative fees remitted to the Company. Approximately \$7.1 million and \$6.8 million of revenue share obligations in the accompanying consolidated balance sheets relate to revenue share obligations to GNYHA and its member organizations at June 30, 2015 and 2014, respectively. The Company also maintains a group purchasing agreement with GNYHA Alternate Care Purchasing Corporation, d/b/a Essensa, under which Essensa utilizes the Company's GPO supplier contracts. Net administrative fees revenue recorded with Essensa was \$2.4 million, \$2.0 million and \$1.9 million for the years ended June 30, 2015, 2014 and 2013. At June 30, 2015 and 2014, the Company had revenue share obligations to Essensa of \$0.2 million.

In addition, of the \$22.4 million limited partners' distribution payable in the accompanying consolidated balance sheets at June 30, 2015 and 2014, \$3.0 million and \$3.2 million, respectively, are payable to GNYHA and its member organizations at June 30, 2015 and 2014, respectively. In addition, \$32.6 million, \$14.1 million and \$8.9 million were recorded during the years ended June 30, 2015, 2014 and 2013, respectively, for services and support revenue earned from GNYHA and its member organizations. The increase in services and support revenue is primarily attributable to the increased participation by GNYHA and its member organizations in the Company's specialty pharmacy program. Receivables from GNYHA and its member organizations, included in due from related party in the accompanying consolidated balance sheets, were \$3.0 million and \$0.6 million at June 30, 2015 and 2014, respectively.

The Company's 50% ownership share of Innovatix's net income included in other income (expense), net, in the accompanying consolidated statements of income is \$21.3 million, \$17.0 million and \$12.0 million for the years ended June 30, 2015, 2014 and 2013, respectively. The Company maintains a group purchasing agreement with Innovatix under which Innovatix members are permitted to utilize Premier LP's GPO supplier contracts. Gross administrative fees revenue and a corresponding revenue share recorded under the arrangement were \$38.7 million, \$35.0 million and \$31.9 million for the years ended June 30, 2015, 2014 and 2013, respectively. At June 30, 2015 and 2014, the Company had revenue share obligations to Innovatix of \$3.7 million and \$3.7 million, respectively, in the

accompanying consolidated balance sheets.

The Company conducts all operational activities for American Excess Insurance Exchange Risk Retention Group ("AEIX"), a reciprocal risk retention group that provides excess and umbrella healthcare professional and general liability insurance to certain

hospital and healthcare system members. The Company is reimbursed by AEIX for actual costs, plus an annual incentive management fee not to exceed \$500,000 per calendar year. The Company received cost reimbursement of \$4.7 million, \$4.9 million and \$4.6 million for the years ended June 30, 2015, 2014 and 2013, respectively, and annual incentive management fees of \$0.5 million, \$0.4 million and \$0.4 million for the years ended June 30, 2015, 2014 and 2013, respectively. As of June 30, 2015 and June 30, 2014, \$0.4 million and \$0.6 million, respectively, in amounts payable by AEIX are included in due from related party in the accompanying consolidated balance sheets.

(23) COMMITMENTS AND CONTINGENCIES

The Company leases office space under operating leases. The office space leases provide for escalating rent payments during the lease terms. The Company recognizes rent expense on a straight-line basis over the lease term. Rent and associated operating expenses totaled \$11.4 million, \$9.1 million, and \$8.5 million for the years ended June 30, 2015, 2014 and 2013, respectively.

Future minimum lease payments under noncancelable operating leases (with initial lease terms in excess of one year) are as follows (in thousands):

Year ending June 30:

2016	\$9,268
2017	9,294
2018	8,445
2019	9,297
2020	8,799
Thereafter	53,105
Total minimum lease payments	\$98,208

The Company is not currently involved in any significant litigation. However, the Company is periodically involved in litigation, arising in the ordinary course of business or otherwise, which from time to time may include claims relating to commercial, product liability, employment, antitrust, intellectual property or other regulatory matters, among others. If current or future government regulations are interpreted or enforced in a manner adverse to the Company or its business, specifically those with respect to antitrust or healthcare laws, the Company may be subject to enforcement actions, penalties and other material limitations which could have a material adverse effect on the Company's business, financial condition and results of operations.

(24) SEGMENTS

The Company delivers its solutions and manages its business through two reportable business segments, the supply chain services segment and the performance services segment. The supply chain services segment includes the Company's group purchasing organization ("GPO"), integrated pharmacy offerings and direct sourcing activities. The performance services segment includes the Company's informatics, collaborative, advisory services and insurance services businesses.

The Company uses Segment Adjusted EBITDA (as defined herein) as its primary measure of profit or loss to assess segment performance and to determine the allocation of resources. The Company also uses Segment Adjusted EBITDA to facilitate the comparison of the segment operating performance on a consistent basis from period to period. The Company defines Segment Adjusted EBITDA as the segment's net revenue less operating expenses directly attributable to the segment excluding depreciation and amortization, amortization of purchased intangible assets, merger and acquisition related expenses and non-recurring or non-cash items, and including equity in net income of unconsolidated affiliates. Non-recurring items are expenses that have not been incurred within the prior two years and are not expected to recur within the next two years. Operating expenses directly attributable to the segment include expenses associated with sales and marketing, general and administrative and product development activities specific to the operation of each segment. General and administrative corporate expenses that are not specific to a particular segment are not included in the calculation of Segment Adjusted EBITDA.

All reportable segment revenues are presented net of inter-segment eliminations and represent revenues from external customers.

The following tables present net revenue and Segment Adjusted EBITDA (in thousands):

	Year Ended June 30,		
	2015	2014	2013
Net Revenue:			
Supply Chain Services:			
Net administrative fees	\$457,020	\$464,837	\$519,219
Other services and support	1,977	778	471

Loss on disposal of long-lived assets	(15,243)—	—
Other (expense) income, net	(823)(1,907	(788
Income before income taxes	\$271,127	\$360,326	\$384,812

(a) Represents legal, accounting and other expenses related to acquisition activities.

(b) Represents legal, accounting and other expenses directly related to strategic and financial restructuring expenses.

(c) Represents adjustment to tax receivable agreement liability for the change in accounting method with the Internal Revenue Service related to a change in accounting method from previous years.

- Represents non-cash adjustment to deferred revenue of acquired entities. Business combination accounting rules require us to account for the fair values of software license updates and product support contracts and hardware systems support contracts assumed in connection with our acquisitions. Because these support contracts are (d) typically one year in duration, our GAAP revenues for the one year period subsequent to our acquisition of a business do not reflect the full amount of support revenues on these assumed support contracts that would have otherwise been recorded by the acquired entity. The non-GAAP adjustment to our software license updates and product support revenues is intended to include, and thus reflect, the full amount of such revenues.
- (e) Represents equity in net income from unconsolidated affiliates generated by the Company's 50% ownership interest in Innovatix, all of which is included in the supply chain services segment.

The following tables present capital expenditures, total assets and depreciation and amortization expense (in thousands):

	Year Ended June 30,		
	2015	2014	2013
Capital Expenditures:			
Supply Chain Services	\$1,815	\$2,719	\$1,560

Total	\$54,322	\$39,823	\$29,220

(a) Includes amortization of purchased intangible assets.

(25) SUBSEQUENT EVENTS

Healthcare Insights, LLC

On July 31, 2015, the Company's indirect wholly-owned subsidiary, PHSI acquired all of the limited liability company membership interests of Healthcare Insights, LLC ("HI") for \$65.0 million in cash, subject to adjustment based on HI's actual (i) indebtedness, (ii) transaction expenses and (iii) net working capital at closing. The acquisition also provides selling members an earn-out opportunity based on HI's future revenues.

CECity.com, Inc.

On August 20, 2015, PHSI purchased all the outstanding shares of capital stock of CECity.com, Inc. ("CECity") for \$400.0 million, subject to adjustment based on CECity's actual (i) working capital, (ii) cash and cash equivalents and (iii) indebtedness at closing. The Company funded the acquisition with \$250.0 million of cash and \$150.0 million of borrowings under the Company's revolving credit facility. See Note 13 - Lines of Credit. Due to the timing of the CECity acquisition, the Company has not yet completed its initial accounting and analysis. Therefore, it is impractical to provide pro forma information at this time. The Company

will file pro forma financial statements on Form 8-K/A within 75 days of the acquisition date of August 20, 2015 in accordance with Rule 3-05 of Regulation S-X.

(26) QUARTERLY FINANCIAL DATA (UNAUDITED)

Unaudited summarized financial data by quarter for the years ended June 30, 2015 and 2014 (in thousands, except per share data):

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not Applicable

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, an evaluation was carried out by our management, including our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Our disclosure controls and procedures are designed to ensure that information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosures. Based on our evaluation, our chief executive officer and chief financial officer concluded that, as of June 30, 2015, our disclosure controls and procedures were effective.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on its financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we conducted an assessment of the effectiveness of our internal control over financial reporting as of June 30, 2015. In making this assessment, management used the criteria set forth in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, the COSO framework. Based on our evaluation, our chief executive officer and chief financial officer concluded that, as of June 30, 2015, our internal control over financial reporting was effective.

Management's annual report on internal control over financial reporting did not include an assessment of and conclusion on the effectiveness of internal control over financial reporting of Aperek, Inc. ("Aperk") and TheraDoc, Inc. ("TheraDoc") which were acquired during the year ended June 30, 2015 and are included in the Company's consolidated financial statements as of June 30, 2015 and for the period from their respective acquisition dates through June 30, 2015. The assets of Aperek and TheraDoc represented approximately 3% and 8%, respectively, of the Company's total assets as of June 30, 2015, and Aperek and TheraDoc net revenue represented less than 1% and 2%, respectively, of the Company's net revenue for the year ended June 30, 2015.

The effectiveness of the Company's internal control over financial reporting as of June 30, 2015 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information

None.

139

PART III

We expect to file a definitive proxy statement relating to our 2015 Annual Meeting of Stockholders with the SEC pursuant to Regulation 14A, not later than 120 days after the end of our most recent fiscal year. Accordingly, certain information required by Part III of this Annual Report has been omitted under General Instruction G(3) to Form 10-K. Only the information from the definitive proxy statement that specifically addresses disclosure requirements of Items 10-14 below is incorporated by reference.

Item 10. Directors, Executive Officers and Corporate Governance

We will provide information that is responsive to this Item 10 in our definitive proxy statement for our 2015 Annual Meeting of Stockholders or in an amendment to this Annual Report not later than 120 days after the end of the fiscal year covered by this Annual Report, in either case under the captions “Item 1 - Election of Directors,” “Corporate Governance and Board Structure” and “Section 16(a) Beneficial Ownership Reporting Compliance,” and possibly elsewhere therein. That information is incorporated in this Item 10 by reference.

Item 11. Executive Compensation

We will provide information that is responsive to this Item 11 in our definitive proxy statement for our 2015 Annual Meeting of Stockholders or in an amendment to this Annual Report not later than 120 days after the end of the fiscal year covered by this Annual Report, in either case under the captions “Executive Compensation,” and “Corporate Governance and Board Structure,” and possibly elsewhere therein. That information is incorporated in this Item 11 by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

We will provide information that is responsive to this Item 12 in our definitive proxy statement for our 2015 Annual Meeting of Stockholders or in an amendment to this Annual Report not later than 120 days after the end of the fiscal year covered by this Annual Report, in either case under the captions “Security Ownership of Certain Beneficial Owners and Management,” and “Equity Compensation Plan Information,” and possibly elsewhere therein. That information is incorporated in this Item 12 by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

We will provide information that is responsive to this Item 13 in our definitive proxy statement for our 2015 Annual Meeting of Stockholders or in an amendment to this Annual Report not later than 120 days after the end of the fiscal year covered by this Annual Report, in either case under the captions “Related Person Transactions,” and “Corporate Governance and Board Structure,” and possibly elsewhere therein. That information is incorporated in this Item 13 by reference.

Item 14. Principal Accounting Fees and Services

We will provide information that is responsive to this Item 14 in our definitive proxy statement for our 2015 Annual Meeting of Stockholders or in an amendment to this Annual Report not later than 120 days after the end of the fiscal year covered by this Annual Report, in either case under the caption “Item 2 - Ratification of Appointment of Independent Registered Public Accounting Firm,” and possibly elsewhere therein. That information is incorporated in this Item 14 by reference.

PART IV
