NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. CONSOLIDATED FINANCIAL STATEMENTS -- BASIS OF PRESENTATION

The consolidated balance sheet at March 30, 2008, the related consolidated statements of income for the nine months ended March 30, 2008 and April 1, 2007, and the consolidated statements of cash flows for the three and nine months ended March 30, 2008 and April 1, 2007, have been prepared by LaBarge, Inc. (the "Company") without audit. In the opinion of management, adjustments, all of a normal and recurring nature, necessary to present fairly the financial position and the results of operations and cash flows for the aforementioned periods, have been made.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in conformity with U.S. generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended July 1, 2007.

Stock-Based Compensation

For the three months ended March 30, 2008, total stock-based compensation was \$362,000 (\$225,000 after tax), equivalent to earnings per basic and diluted shares of \$0.01. For the three months ended April 1, 2007, total stock-based compensation was \$349,000 (\$213,000 after tax), equivalent to earnings per basic and diluted shares of \$0.01. For the nine months ended March 30, 2008, total stock-based compensation was \$1.1 million (\$674,000 after tax), equivalent to earnings per basic and diluted shares of \$0.04. For the nine months ended April 1, 2007, total stock-based compensation was \$1.0 million (\$628,000 after tax), equivalent to earnings per basic and diluted shares of \$0.04.

As of March 30, 2008, the total unrecognized compensation expense related to nonvested awards for performance units was \$635,000 pretax, and the period over which it is expected to be recognized is approximately 1.1 years. At April 1, 2007, the total unrecognized compensation expense, was \$547,000 pretax, and the period over which it was expected to be recognized was one year.

No stock options were issued in the fiscal quarters ended March 30, 2008 and April 1, 2007, respectively. On August 24, 2005 and January 11, 2005, the Company entered into long-term incentive plan agreements with certain key executives tied to fiscal years 2008 and 2007 financial performance. Compensation expense related to these awards was recognized in the 2008 and 2007 third fiscal quarters, but no shares are included in the dilutive shares, as the performance conditions had not been met at March 30, 2008 and April 1, 2007.

All stock options outstanding at March 30, 2008 and April 1, 2007, were dilutive and included in the computation of diluted earnings per share. These options expire in various periods through 2014.

Recently Issued Accounting Standards

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, "Fair Value Measurements" ("SFAS No. 157"), to clarify the definition of fair value, establish a framework for measuring fair value and expand the disclosures on fair value measurements. SFAS No. 157 becomes effective for the Company in its fiscal year ending June 28, 2009. The Company does not believe that adopting the provisions of SFAS No. 157 will have a material impact on its consolidated financial statements.

Edgar Filing: LABARGE INC - Form 10-Q

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS No. 159"), to permit all entities to choose to elect, at specified election dates, to measure eligible financial instruments at fair value. An entity shall report unrealized gains and losses, on items for which the fair value option has been elected, in earnings at each subsequent reporting date, and recognize upfront costs and fees related to those items in earnings as incurred and not deferred. SFAS No. 159 applies to fiscal years beginning after November 15, 2007, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS No. 157. An entity is prohibited from retrospectively applying SFAS No. 159, unless it chooses early adoption. The Company does not believe that the adoption of the provisions of SFAS No. 159 will have a material impact on its consolidated financial statements when it becomes effective for the fiscal year ending June 28, 2009.

In September 2006, the FASB's Emerging Issues Task Force ("EITF") reached a consensus on EITF Issue No. 06-4, "Accounting for Deferred Compensation and Postretirement Benefits Aspects of Endorsement Split-Dollar Life Insurance Arrangements" ("EITF 06-4"). This addresses only endorsement split-dollar life insurance arrangements that provide a benefit to an employee that extends to postretirement periods. EITF 06-04 becomes effective for the Company in its fiscal year ending June 28, 2009. The Company does not believe that adopting the provisions of EITF 06-4 will have a material impact on its consolidated financial statements.

Recently Adopted Accounting Standards

The Company adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes as Interpretation of FASB Statement No. 109" ("FIN 48") on July 2, 2007. The implementation of FIN 48 did not result in an adjustment to the liability for unrecognized income tax benefits. At the adoption date of July 2, 2007, there was approximately \$630,000 of unrecognized tax benefits, all of which would affect the Company's effective tax rate if recognized. At March 30, 2008, there was approximately \$355,000 of unrecognized tax benefits.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of March 30, 2008, there was approximately \$150,000 of accrued interest related to uncertain tax positions, \$29,000 and \$68,000 of which was recognized in the three and nine months ended March 30, 2008, respectively.

The Company's federal income tax return for fiscal year 2007 is an open tax year. We file in numerous state jurisdictions with varying statutes of limitation open from 2003 through 2006, depending on each jurisdiction's unique tax laws. The Company's federal returns for fiscal year 2005 and fiscal year 2006 were recently examined by the Internal Revenue Service ("IRS"). During the quarter ended March 30, 2008, the IRS concluded its examination of the Company's federal returns for fiscal years 2005 and 2006. As a result of adjustments to the Company's claimed research and experimentation credits, and other issues, the Company settled with the IRS for \$304,000. The unrecognized tax benefits were decreased by \$271,000 as a result of the settlement and the expiration of certain statutes. The Company recorded \$25,000 of the additional expense related to the settlement during the quarter ended March 30, 2008.

Performance Units and Restricted Stock

The Company entered into performance unit award agreements with certain key executives under the LTIP in August 2005, August 2006 and August 2007. These agreements provide for the issuance of performance units, to be settled in stock, subject to the achievement of the Company's financial goals. Settlements are made pursuant to a range of opportunities relative to net earnings. No settlement occurs for results below the minimum threshold and additional shares shall be issued if the performance exceeds the target goals. The compensation cost of performance units is subject to adjustment based upon the attainability of the target goals.

Upon achievement of the performance goals, restricted shares are awarded in the employee's name but are still subject to a two-year vesting condition. If employment is terminated (other than due to death or disability) prior to completion of the vesting period, the shares are forfeited. Compensation expense is recognized over the performance period plus vesting period. The awards are treated as a liability award during the performance period and as an equity award once the performance period ends and the restricted shares are awarded.

During the nine months ended March 30, 2008, the Company issued 108,084 shares of restricted stock, associated with the fiscal 2007 award, which are subject to the two-year vesting condition. During the nine months ended April 1, 2007, the Company issued 79,693 shares of restricted stock associated with the fiscal 2006 award, which are subject to the two-year vesting condition.

During the three and nine months ended March 30, 2008, the compensation expense related to the LTIP was \$352,000 and \$1.0 million, respectively. During the three and nine months ended April 1, 2007, the compensation expense related to the LTIP was \$326,000 and \$893,000,

respectively.

The grant date fair value of the restricted stock issued during the nine months ended March 30, 2008 was \$12.29. The grant date fair value of the restricted stock issued during the nine months ended April 1, 2007 was \$13.27.

The Company's operations provided \$5.1 million of net cash in the nine months ended March 30, 2008.

The Company's net cash flow from operations was negatively impacted by a customer's decision during the Company's second fiscal quarter to stop taking early payment discounts and pay invoices in normal contract terms. The impact on net cash from operations for the nine months ended March 30, 2008, was a decrease of approximately \$6.0 million. Additionally, net cash flow from operations has been negatively impacted by a certain customer's lack of payment within contract terms. Subsequent to March 30, 2008, the Company and this customer have agreed on a payment plan that is designed to bring the outstanding accounts receivable current to terms by fiscal year-end.

Senior Lender:

The Company entered into a senior secured loan agreement with a group of banks on February 17, 2004. The following is a summary of the agreement:

- A revolving credit facility, up to \$30.0 million, available for direct borrowings or letters of credit. The facility is based on a borrowing base formula equal to the sum of 85% of eligible receivables and 35% of eligible inventories. As of March 30, 2008, outstanding loans under the revolving credit facility were \$19.0 million; letters of credit issued were \$1.2 million; and an aggregate of \$9.8 million was available under the revolving credit facility. This credit facility matures on February 17, 2009.
- A \$25.0 million term loan amortized beginning May 2004, at a quarterly rate of \$1.0 million, increased to \$1.25 million in May 2006 and increased to \$1.5 million in May 2007. Final maturity is February 17, 2009. As of March 30, 2008, the amount outstanding was \$6.0 million.
- Interest on both loans is calculated at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the three- and nine-month periods ended March 30, 2008, the average rates were approximately 5.81% and 6.43%, respectively.
- Both loans are secured by substantially all the assets of the Company other than real estate.
- Covenants and performance criteria consist of Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") in relation to debt, EBITDA in relation to fixed charges and minimum net worth. The Company was in compliance with its borrowing agreement covenants as of March 30, 2008.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying consolidated financial statements. In preparing these financial statements, management has made its best estimates and judgment of certain amounts included in the financial statements. The Company believes there is a likelihood that materially different amounts would be reported under different conditions or using different assumptions related to the accounting policies described below. Application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Company's senior management discusses the accounting policies described below with the Audit Committee of the Company's Board of Directors on a periodic basis.

Edgar Filing: LABARGE INC - Form 10-Q

The following discussion of critical accounting policies is intended to bring to the attention of readers those accounting policies that management believes are critical to the Company's consolidated financial statements and other financial disclosures. It is not intended to be a comprehensive list of all of our significant accounting policies that are more fully described in the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended July 1, 2007.

Revenue Recognition and Cost of Sales

Revenue is generally recognized when title transfers, which is usually upon shipment. On a very limited number of contracts, the Company will recognize revenue prior to shipment if certain criteria have been met. As of March 30, 2008 and April 1, 2007, the Company has recognized revenue under these arrangements of \$2.5 million and \$2.2 million, respectively. The Company recognizes revenue for storage and other related services as the services are provided.

As a contract manufacturer engaging in long-term contracts, the majority of the Company's business is derived from long-term production type contracts that are accounted for using units-of-delivery measures of the percentage-of-completion method of accounting. The percentage-of-completion method gives effect to the most recent contract value and estimates of cost at completion. Management's estimates of material, labor and overhead costs on long-term contracts are critical to the Company. Since some contracts extend over a long period of time, revisions in cost during the progress of work have the effect of adjusting current period earnings and inventories applicable to performance in prior periods. When the current contract cost estimate indicates a loss, provision is made for the total anticipated loss in the period the loss becomes evident.

During fiscal year 2007, the Company entered into a significant new agreement with an industrial customer to manufacture certain assemblies and supply certain parts. Revenue related to the manufactured assemblies is recognized as gross revenue when the product is shipped. However, on the supplies parts, under the Financial Accounting Standards Board's ("FASB") Emerging Issues Task Force ("EITF") No. 99-19, "Reporting Revenue Gross as a Principle versus Net as an Agent," the cost of the supplied parts will be netted against the invoice price to determine net sales when the part is shipped. During the nine months ended March 30, 2008, net revenues under this contract were \$7.7 million related to the manufactured assemblies and \$368,000 related to the supplied parts.

Inventories

Inventories, which consist of materials, labor and manufacturing overhead, are carried at the lower of cost or market value. In addition, management regularly reviews inventory for obsolescence to determine whether any additional write-down is necessary. Various factors are considered in making this determination, including expected program life, recent sales history, predicted trends and market conditions. If actual demand or market conditions are less favorable than those projected by management, additional inventory write-downs may be required. For the quarters ended March 30, 2008 and April 1, 2007, expense for obsolete or slow-moving inventory charged to income before income taxes was \$287,000 and \$396,000, respectively.

Goodwill and Other Intangibles

In accordance with Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets," intangible assets deemed to have indefinite lives and goodwill are not subject to amortization. All other intangible assets are amortized over their estimated useful lives. Goodwill and other intangible assets not subject to amortization are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. This testing requires comparison of carrying values to fair values, and when appropriate, the carrying value of impaired assets is reduced to fair value. During the fourth quarter of fiscal year 2007, the Company completed its annual impairment test and determined that the carrying value is reasonable. Different assumptions regarding such factors as sales levels and price changes, labor and material cost changes, interest rates and productivity could affect such valuations. There have been no changes in circumstances since the annual impairment test that would indicate possible impairment.

Recently Adopted Accounting Standards

The Company adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes as Interpretation of FASB Statement No. 109" ("FIN 48") on July 2, 2007. The implementation of FIN 48 did not result in an adjustment to the liability for unrecognized income tax benefits. At the adoption date of July 2, 2007, there was approximately \$630,000 of unrecognized tax benefits, all of which would affect the Company's effective tax rate if recognized. At March 30, 2008, there was approximately \$355,000 of unrecognized tax benefits.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of March 30, 2008, there was approximately \$150,000 of accrued interest related to uncertain tax positions, \$28,871 and \$68,000 of which was recognized in the three and nine months ended March 30, 2008, respectively.

Edgar Filing: LABARGE INC - Form 10-Q

The Company's federal income tax return for fiscal year 2007 is an open tax year. We file in numerous state jurisdictions with varying statutes of limitation open from 2003 through 2006, depending on each jurisdiction's unique tax laws. The Company's federal returns for fiscal year 2005 and fiscal year 2006 were recently examined by the Internal Revenue Service ("IRS"). During the quarter ended March 30, 2008, the IRS concluded its examination of the Company's federal returns for fiscal years 2005 and 2006. As a result of adjustments to the Company's claimed research and experimentation credits, and other issues, the Company settled with the IRS for \$304,000. The unrecognized tax benefits were decreased by \$271,000 as a result of the settlement. The Company recorded \$25,000 of the additional expense related to the settlement during the quarter ended March 30, 2008.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

No information has been included hereunder because the Company's foreign sales in each of fiscal quarters ended March 30, 2008, and April 1, 2007, were less than 10% of total Company revenue. All foreign contracts are paid in U.S. dollars and the Company is not significantly exposed to foreign currency translation. However, if the significance of foreign sales grows, management will continue to monitor whether it would be appropriate to use foreign currency risk management instruments to mitigate any exposures.

Interest Rate Risk

As of March 30, 2008, the Company had \$25.7 million in total debt. Of the total debt, \$707,000 has a fixed rate and is not subject interest rate risk. The interest rate on the remaining \$25.0 million is subject to fluctuation. If interest rates increased 1%, the additional interest cost to the Company would be approximately \$183,000 for one year.

ITEM 4. Controls and Procedures

Evaluation Of Disclosure Controls And Procedures

The Company's Chief Executive Officer and President, and the Company's Vice President and Chief Financial Officer, have conducted an evaluation of the design and effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report.

The Chief Executive Officer and Chief Financial Officer have concluded that as of the end of the period covered by this report, the Company's disclosure controls and procedures are functioning adequately and effectively to provide reasonable assurance that the Company can meet its disclosure obligations. The Company's disclosure controls and procedures are based upon a chain of financial and general business reporting lines that converge in the headquarters of the Company in St. Louis, Missouri. The reporting process is designed to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files with or submits to the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms.

Changes In Internal Controls

During our third fiscal quarter of 2008, there were no changes in internal control over financial reporting identified in connection with Management's evaluation that have materially affected or that are reasonably likely to materially affect these controls.
