FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2015

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 For the transition period from ____ to ____

(Exact name of registrant as specified in its charter)	Commission File Number:	(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
Questar Corporation	001-08796	Utah	87-0407509
Questar Gas Company	333-69210	Utah	87-0155877
Questar Pipeline Company	000-14147	Utah	87-0307414

333 South State Street, P.O. Box 45433, Salt Lake City, Utah 84145-0433

(Address of principal executive offices)

Registrants' telephone number, including area code (801) 324-5900

Web site <http://www.questar.com>

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Questar Corporation	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Questar Gas Company	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Questar Pipeline Company	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Questar Corporation	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Questar Gas Company	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Questar Pipeline Company	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. Do not check non-accelerated filer if a smaller reporting company (Check one).

Questar Corporation	Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>
Questar Gas Company	Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input checked="" type="checkbox"/>	Smaller reporting company <input type="checkbox"/>
Questar Pipeline Company	Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input checked="" type="checkbox"/>	Smaller reporting company <input type="checkbox"/>

Edgar Filing: QUESTAR CORP - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Questar Corporation Yes [] No [X]

Questar Gas Company Yes [] No [X]

Questar Pipeline Company Yes [] No [X]

Indicate the number of shares outstanding of each of the issuers' classes of common stock, as of March 31, 2015.

Questar Corporation without par value 175,712,882

Questar Gas Company \$2.50 per share par value 9,189,626

Questar Pipeline Company \$1.00 per share par value 6,550,843

Questar Gas Company and Questar Pipeline Company, as wholly-owned subsidiaries of a reporting company, meet the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q and are therefore filing this form with the reduced disclosure format.

Edgar Filing: QUESTAR CORP - Form 10-Q

This Quarterly Report on Form 10-Q is a combined report being filed by three separate registrants: Questar Corporation (Questar or the Company), Questar Gas Company and Questar Pipeline Company. Questar Gas Company and Questar Pipeline Company are wholly-owned subsidiaries of Questar. Separate financial statements for Wexpro Company have not been included since Wexpro is not a registrant. See Note 8 to the accompanying financial statements for a summary of operations by line of business. Information contained herein related to any individual registrant is filed by such registrant solely on its own behalf. Each registrant makes no representation as to information relating exclusively to the other registrants.

Item 1 of Part I of this Quarterly Report on Form 10-Q includes separate financial statements (i.e. statements of income, statements of comprehensive income, balance sheets and statements of cash flows, as applicable) for Questar Corporation, Questar Gas Company and Questar Pipeline Company. The notes accompanying the financial statements are presented on a combined basis for all three registrants. Management's Discussion and Analysis of Financial Condition and Results of Operations included under Item 2 of Part I is presented by line of business.

PART I—FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS.

QUESTAR CORPORATION
QUESTAR GAS COMPANY
QUESTAR PIPELINE COMPANY
NOTES ACCOMPANYING THE FINANCIAL STATEMENTS
(Unaudited)

The notes accompanying the financial statements apply to Questar Corporation, Questar Gas Company and Questar Pipeline Company unless otherwise noted.

Note 1 - Nature of Business

Questar Corporation is a Rockies-based integrated natural gas company with three principal complementary and wholly-owned lines of business:

• Questar Gas Company (Questar Gas) provides retail natural gas distribution in Utah, Wyoming and Idaho.

• Wexpro Company (Wexpro) develops and produces natural gas from cost-of-service reserves for Questar Gas customers.

• Questar Pipeline Company (Questar Pipeline) operates interstate natural gas pipelines and storage facilities in the western United States and provides other energy services.

Questar is headquartered in Salt Lake City, Utah. Shares of Questar common stock trade on the New York Stock Exchange (NYSE:STR).

Note 2 - Basis of Presentation of Interim Financial Statements

The interim financial statements contain the accounts of Questar and its wholly-owned subsidiaries. The financial statements were prepared in accordance with U.S. generally accepted accounting principles (GAAP), the instructions for Quarterly Reports on Form 10-Q and SEC Regulations S-X and S-K. All significant intercompany accounts and transactions have been eliminated in consolidation.

The financial statements reflect all normal, recurring adjustments and accruals that are, in the opinion of management, necessary for a fair presentation of financial position and results of operations for the interim periods presented. Interim financial statements do not include all of the information and notes required by GAAP for audited annual financial statements. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

The preparation of financial statements and notes in conformity with GAAP requires that management make estimates and assumptions that affect the amounts of revenues, expenses, assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from estimates. The results of operations for the three and 12 months ended March 31, 2015, are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

Certain reclassifications were made to prior year information to conform to the current year presentation.

Questar and Questar Pipeline use the equity method to account for an investment in an unconsolidated affiliate where they do not have control, but have significant influence. The investment in the unconsolidated affiliate on the Condensed Consolidated Balance Sheets equals Questar Pipeline's proportionate share of equity reported by the unconsolidated affiliate. The investment is assessed for possible impairment when events indicate that the fair value of the investment may be below the Questar Pipeline's carrying value. When such a condition is deemed to be

other-than-temporary, the carrying value of the investment is written down to its fair value, and the amount of the write-down is included in the determination of net income. White River Hub, LLC, a limited liability company and FERC-regulated transporter of natural gas, is the sole unconsolidated affiliate. Questar Pipeline owns 50% of White River Hub, LLC, and is the operator.

In March 2015, Questar Gas purchased Eagle Mountain City's municipal natural gas system for \$11.4 million. The city has over 6,500 natural gas customers and is one of Utah's fastest-growing areas.

Questar Gas obtains the majority of its gas supply from Wexpro's cost-of-service production and pays Wexpro an operator service fee based on the terms of the Wexpro Agreement and the Wexpro II Agreement (Wexpro agreements). Questar Gas also obtains transportation and storage services from Questar Pipeline. These intercompany revenues and expenses are eliminated in the Questar Consolidated Statements of Income by reducing revenues and cost of sales. The underlying costs of Wexpro's production and Questar Pipeline's transportation and storage services are disclosed in other categories in the Consolidated

Statements of Income, including operating and maintenance expense and depreciation, depletion and amortization expense. During the second and third quarters of the year, a significant portion of the natural gas from Wexpro production is injected into underground storage. This gas is withdrawn from storage as needed during the heating season in the first and fourth quarters. The cost of natural gas sold is credited with the value of natural gas as it is injected into storage and debited as it is withdrawn from storage. The reported balance in consolidated cost of sales may be a negative amount during the second and third quarters because of the entries to record injection of gas into storage and the elimination of intercompany transactions. The details of Questar's consolidated cost of sales are as follows:

	3 Months Ended March 31,		12 Months Ended March 31,	
	2015	2014	2015	2014
	(in millions)			
Questar Gas				
Gas purchases	\$41.0	\$92.7	\$84.8	\$176.0

Transportation and storage	22.2	22.1	79.7	80.2
Gathering	5.4	4.9	21.5	19.1
Royalties	11.9	17.3	54.7	50.5
Storage (injection) withdrawal, net	30.9	33.0	(3.2)	3.4
Purchased-gas account adjustment	36.2	(5.6)	(4.0)	(30.3)
Other	1.2	1.1	4.9	4.8
Total Questar Gas cost of natural gas sold	233.6	254.6	583.8	614.6
Elimination of Questar Gas cost of natural gas sold - affiliated companies	(104.0)	(108.2)	(419.2)	(387.0)
Total Questar Gas cost of natural gas sold - unaffiliated parties	129.6	146.4	164.6	227.6
Questar Pipeline				
Total Questar Pipeline cost of sales	1.9	1.7	4.2	6.6
Other cost of sales	0.3	0.1	1.1	0.2
Total cost of sales	\$131.8	\$148.2	\$169.9	\$234.4

Note 3 - Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income by the weighted-average number of common shares outstanding during the reporting period, which includes vested undistributed restricted stock units (RSUs). Diluted EPS includes the potential increase in the number of outstanding shares that could result from the exercise of in-the-money stock options, the vesting of RSUs with forfeitable dividend equivalents and the distribution of performance shares that are part of the Company's Long-Term Stock Incentive Plan (LTSIP), less shares repurchased under the treasury stock method. Restricted shares and RSUs with nonforfeitable dividends or dividend equivalents are participating securities for the computation of basic EPS under the two-class method. The application of the two-class method has an insignificant impact on the calculation of Questar's basic and diluted EPS. A reconciliation of the components of basic and diluted shares used in the EPS calculation follows:

	3 Months Ended March 31,		12 Months Ended March 31,	
	2015	2014	2015	2014
	(in millions)			
Weighted-average basic common shares outstanding	176.2	175.7	176.0	175.6
Potential number of shares issuable under the Company's LTSIP	0.3	0.4	0.3	0.5
Weighted-average diluted common shares outstanding	176.5	176.1	176.3	176.1

Note 4 - Accumulated Other Comprehensive Income

Comprehensive income, as reported in Questar's Condensed Consolidated Statements of Comprehensive Income, is the sum of net income as reported in the Questar Consolidated Statements of Income and net other comprehensive income (loss) (OCI). OCI includes recognition of the under-funded position of pension and other postretirement benefit plans, interest rate cash flow hedges, changes in the fair value of long-term investment, and the related income taxes. Income or loss is recognized when the pension and other postretirement benefit (OPB) costs are accrued, as the Company records interest expense for hedged interest payments and when the long-term investment is sold.

Details of the changes in the components of consolidated accumulated other comprehensive income (loss) (AOCI), net of income taxes, as reported in Questar's Condensed Consolidated Balance Sheets, are shown in the tables below. The tables also disclose details of income taxes related to each component of OCI.

	3 Months Ended March 31, 2015 (in millions)				3 Months Ended March 31, 2014			
	Pension and OPB	Interest rate cash flow hedges	Long-term invest.	Total	Pension and OPB	Interest rate cash flow hedges	Long-term invest.	Total
AOCI at beginning of period	\$(178.9)	\$(22.5)	\$0.1	\$(201.3)	\$(119.0)	\$(22.9)	\$0.1	\$(141.8)

Income taxes								
Reclassified from AOCI ⁽²⁾	(2.3)	(0.1)	—	(2.4)	(1.7)	(0.1)	—	(1.8)
Net other comprehensive income	3.7	0.1	—	3.8	2.6	0.1	—	2.7
AOCI at end of period	\$(175.2)	\$(22.4)	\$0.1	\$(197.5)	\$(116.4)	\$(22.8)	\$0.1	\$(139.1)

	12 Months Ended March 31, 2015 (in millions)				12 Months Ended March 31, 2014			
	Pension and OPB	Interest rate cash flow hedges	Long-term invest.	Total	Pension and OPB	Interest rate cash flow hedges	Long-term invest.	Total
AOCI at beginning of period	\$(116.4)	\$(22.8)	\$0.1	\$(139.1)	\$(218.3)	\$(23.1)	\$0.1	\$(241.3)
OCI before reclassifications	(113.6)	—	—	(113.6)	135.8	—	(0.1)	135.7
Reclassified from AOCI ⁽¹⁾	18.4	0.5	—	18.9	29.5	0.5	—	30.0
Income taxes								
OCI before reclassifications	43.4	—	—	43.4	(51.9)	—	0.1	(51.8)
Reclassified from AOCI ⁽²⁾	(7.0)	(0.1)	—	(7.1)	(11.5)	(0.2)	—	(11.7)
Total income taxes	36.4	(0.1)	—	36.3	(63.4)	(0.2)	0.1	(63.5)
Net other comprehensive income (loss)	(58.8)	0.4	—	(58.4)	101.9	0.3	—	102.2
AOCI at end of period	\$(175.2)	\$(22.4)	\$0.1	\$(197.5)	\$(116.4)	\$(22.8)	\$0.1	\$(139.1)

⁽¹⁾ Interest rate cash flow hedge amounts are included in their entirety as charges to interest expense on the Consolidated Statements of Income.

(2) Income tax reclassifications related to interest rate cash flow hedge amounts are included in their entirety as credits to income taxes on the Consolidated Statements of Income.

Pension and other postretirement benefit AOCI reclassifications are included in the computation of net periodic pension and postretirement benefit costs. See Note 9 for additional details.

Comprehensive income, as reported in Questar Pipeline's Condensed Consolidated Statements of Comprehensive Income, is the sum of net income as reported in the Questar Pipeline Consolidated Statements of Income and net OCI. OCI includes interest rate cash flow hedges and the related income taxes. Income or loss is recognized as the company records interest expense for hedged interest payments. Disclosures above regarding interest rate cash flow hedges, including related income taxes and income statement reclassification effects, apply to Questar Pipeline.

Note 5 - Asset Retirement Obligations

Questar records an asset retirement obligation (ARO) along with an increase to the carrying value of the related property, plant and equipment when there is a legal obligation associated with the retirement of a tangible long-lived asset. Questar's AROs apply primarily to abandonment costs associated with gas and oil wells, production facilities and certain other properties. The Company has not recorded AROs on a majority of its long-lived transportation and distribution assets because the Company does not have a legal obligation to restore the area surrounding abandoned assets. The fair value of retirement costs is estimated by Company personnel based on abandonment costs of similar properties available to field operations and depreciated over the life of the related assets. Revisions to estimates result from material changes in the expected timing or amount of cash flows associated with AROs. Income or expense resulting from the settlement of ARO liabilities is included in net gain (loss) from asset sales on the Consolidated Statements of Income. The ARO liability is adjusted to present value each period through an accretion calculation using a credit-adjusted risk-free interest rate. Changes in Questar's AROs from the Condensed Consolidated Balance Sheets were as follows:

	3 Months Ended March 31,	
	2015	2014
	(in millions)	
AROs at beginning of year	\$69.3	\$67.7
Accretion	0.8	0.8
Liabilities incurred	0.1	0.4
Revisions in estimated cash flows	5.7	0.4
Liabilities settled	(0.9) (0.7
AROs at end of period	\$75.0	\$68.6

Wexpro collects from Questar Gas and deposits in trust certain funds related to AROs. The funds are recorded as other noncurrent assets and used to satisfy retirement obligations as the properties are abandoned. The accounting treatment of reclamation activities associated with AROs for properties administered under the Wexpro agreements is defined in a guideline letter between Wexpro and the Utah Division of Public Utilities and the staff of the Wyoming Public Service Commission.

Note 6 - Fair Value Measurements

Questar complies with the accounting standards for fair value measurements and disclosures. The standards establish a fair value hierarchy. Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. The Company had no assets or liabilities measured using Level 3 inputs at March 31, 2015, March 31, 2014 or December 31, 2014. Fair value accounting standards also apply to certain nonfinancial assets and liabilities that are measured at fair value on a nonrecurring basis. Questar did not have any such assets or liabilities at March 31, 2015, March 31, 2014 or December 31, 2014.

Questar

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar's financial statements in this Quarterly Report:

	Hierarchy Level of Fair Value Estimates	Carrying	Estimated	Carrying	Estimated	Carrying	Estimated
		Amount	Fair Value	Amount	Fair Value	Amount	Fair Value
		Mar. 31, 2015		Mar. 31, 2014		Dec. 31, 2014	
		(in millions)					
Financial assets							
Cash and cash equivalents	1	\$4.8	\$4.8	\$5.6	\$5.6	\$32.0	\$32.0
Long-term investment	1	16.2	16.2	15.3	15.3	15.7	15.7
Financial liabilities							
Short-term debt	1	214.0	214.0	157.0	157.0	347.0	347.0
Long-term debt, including current portion	2	1,244.8	1,396.3	1,246.6	1,357.5	1,245.2	1,356.1

The long-term investment is recorded at fair value and consists of money market and short-term bond index mutual funds held in Wexpro's trust (see Note 5). The fair value of the long-term investment is based on quoted prices for the underlying funds. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using the Company's current credit risk-adjusted borrowing rates.

Questar Gas

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar Gas's financial statements in this Quarterly Report:

	Hierarchy Level of Fair Value Estimates	Carrying	Estimated	Carrying	Estimated	Carrying	Estimated
		Amount	Fair Value	Amount	Fair Value	Amount	Fair Value
		Mar. 31, 2015		Mar. 31, 2014		Dec. 31, 2014	
		(in millions)					
Financial assets							
Cash and cash equivalents	1	\$—	\$—	\$1.4	\$1.4	\$19.8	\$19.8
Notes receivable from Questar	1	—	—	30.6	30.6	—	—
Financial liabilities							
Checks outstanding in excess of cash balances	1	0.4	0.4	—	—	—	—
Notes payable to Questar	1	35.8	35.8	—	—	119.3	119.3
Long-term debt	2	534.5	629.0	534.5	588.9	534.5	607.2

The carrying amounts of notes receivable from and notes payable to Questar approximate fair value because of their short maturities and market-based interest rates. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using Questar Gas's current credit risk-adjusted borrowing rates.

Questar Pipeline

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar Pipeline's financial statements in this Quarterly Report:

	Hierarchy Level of Fair Value Estimates	Carrying	Estimated	Carrying	Estimated	Carrying	Estimated
		Amount	Fair Value	Amount	Fair Value	Amount	Fair Value
		Mar. 31, 2015		Mar. 31, 2014		Dec. 31, 2014	
		(in millions)					
Financial assets							
Cash and cash equivalents	1	\$6.1	\$6.1	\$4.9	\$4.9	\$7.4	\$7.4
Notes receivable from Questar	1	35.9	35.9	46.6	46.6	40.1	40.1
Financial liabilities							
Long-term debt, including current portion	2	458.8	515.1	458.8	509.4	458.8	495.5

The carrying amounts of notes receivable from Questar approximate fair value because of their short maturities and market-based interest rates. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using Questar Pipeline's current credit risk-adjusted borrowing rates.

Note 7 - Derivatives and Hedging

Questar and its subsidiaries may enter into derivative instruments to manage exposure to changes in current and future market interest rates. Questar Pipeline entered into forward starting swaps totaling \$150.0 million in the second and third quarters of 2011 in anticipation of issuing \$180.0 million of notes in December 2011. Settlement of these swaps required payments of \$37.3 million in the fourth quarter of 2011 because of declines in interest rates. These swaps qualified as cash flow hedges and the settlement payments are being amortized to interest expense over the 30-year life of the debt. See the Condensed Consolidated Statements of Comprehensive Income and Note 4 for details regarding reclassifications of AOCI related to deferred interest rate cash flow hedge losses to interest expense for the three and 12 months ended March 31, 2015 and March 31, 2014.

Reclassifications into earnings of amounts reported in AOCI will continue while interest expense is recorded for the hedged interest payments through maturity in 2041. Pre-tax net losses of \$0.6 million are expected to be reclassified from AOCI to the Consolidated Statements of Income in the next 12 months. As of March 31, 2015, the Company was not hedging any exposure to variability in future cash flows of forecasted transactions. There were no derivative assets or liabilities outstanding at March 31, 2015, March 31, 2014 or December 31, 2014.

Note 8 - Operations by Line of Business

Questar's three principal complementary lines of business include Questar Gas, which provides retail natural gas distribution in Utah, Wyoming and Idaho; Wexpro, which develops and produces natural gas from cost-of-service reserves for Questar Gas customers; and Questar Pipeline, which operates interstate natural gas pipelines and storage facilities and provides other energy services. Line-of-business information is presented according to senior management's basis for evaluating performance and considering differences in the nature of products, services and regulation, among other factors.

Edgar Filing: QUESTAR CORP - Form 10-Q

Following is a summary of operations by line of business:

	3 Months Ended March 31,		12 Months Ended March 31,	
	2015	2014	2015	2014
	(in millions)

Questar Gas	\$374.8	\$396.3	\$939.4	\$963.2
Wexpro	6.3	12.3	29.6	47.1
Questar Pipeline	46.8	48.0	189.0	189.2
Other	0.7	0.3	3.0	0.5
Total	\$428.6	\$456.9	\$1,161.0	\$1,200.0
Revenues from Affiliated Companies				
Questar Gas	\$—	\$—	\$—	\$0.3
Wexpro	84.8	89.1	346.0	311.1
Questar Pipeline	19.4	19.3	73.8	76.5
Total	\$104.2	\$108.4	\$419.8	\$387.9
Operating Income (Loss)				
Questar Gas	\$76.6	\$69.8	\$116.3	\$107.4
Wexpro	41.7	48.5	176.5	176.4
Questar Pipeline	27.4	30.1	114.9	35.4
Corporate and other	1.3	(0.1)	(3.6)	3.5
Total	\$147.0	\$148.3	\$404.1	\$322.7
Net Income (Loss)				
Questar Gas	\$43.8	\$39.6	\$59.4	\$55.4
Wexpro	27.7	31.8	118.7	116.1
Questar Pipeline	13.9	15.7	58.8	8.1
Corporate and other	(0.8)	(2.0)	(10.9)	(6.2)
Total	\$84.6	\$85.1	\$226.0	\$173.4

Note 9 - Employee Benefits

The Company has a noncontributory defined benefit pension plan covering a majority of its employees and postretirement medical and life insurance plans providing coverage to less than half of its employees. Employees hired or rehired after June 30, 2010, are not eligible for the noncontributory defined benefit pension plan and employees hired or rehired after December 31, 1996, are not eligible for the postretirement medical plan and are not eligible to receive basic life insurance once they retire.

Questar is subject to and complies with minimum-required and maximum-allowed annual contribution levels for its qualified pension plan, as determined by the Employee Retirement Income Security Act and the Internal Revenue Code. The 2015 estimated net cost for the qualified pension plan is \$18.9 million.

The Company also has a nonqualified pension plan that covers a group of management employees in addition to the noncontributory qualified pension plan. The nonqualified pension plan provides for defined benefit payments upon retirement of the management employee, or to the spouse upon death of the management employee, above the benefit limit defined by the Internal Revenue Service (IRS) for the qualified plan. The nonqualified pension plan is unfunded; benefits are paid from the Company's general funds. The 2015 estimated net cost for the nonqualified pension plan is

\$3.4 million.

Components of the qualified and nonqualified net periodic pension cost are listed in the table below:

	3 Months Ended March 31,		12 Months Ended March 31,	
	2015	2014	2015	2014
	(in millions)			
Service cost	\$3.4	\$3.0	\$12.2	\$13.4
Interest cost	8.1	8.4	33.1	31.2
Expected return on plan assets	(11.6)	(10.6)	(44.6)	(39.2)
Prior service cost	—	0.1	0.5	0.9
Recognized net actuarial loss	5.7	3.9	17.2	26.0
Net pension cost	\$5.6	\$4.8	\$18.4	\$32.3

The Company currently estimates a \$2.2 million net cost for postretirement benefits other than pensions in 2015, before accretion of a regulatory liability. Net periodic postretirement benefit cost components are listed in the table below:

	3 Months Ended March 31,		12 Months Ended March 31,	
	2015	2014	2015	2014
	(in millions)			
Service cost	\$0.2	\$0.2	\$0.6	\$0.7
Interest cost	0.9	1.0	3.7	3.7
Expected return on plan assets	(0.8)	(0.8)	(3.0)	(2.7)
Recognized net actuarial loss (gain)	0.3	0.3	0.7	2.6
Accretion of regulatory liability	0.2	0.2	0.8	0.5
Net postretirement benefit cost	\$0.8	\$0.9	\$2.8	\$4.8

Note 10 - Contingencies

Questar and each of its subsidiaries are involved in various commercial, environmental, and regulatory claims. Litigation and other legal proceedings arise in the ordinary course of business. Except as stated below concerning the QEP lawsuit, management does not believe any litigation or other legal proceedings individually or in the aggregate will have a material adverse effect on Questar's, Questar Gas's or Questar Pipeline's financial position, results of operations or cash flows.

A liability is recorded for a loss contingency when its occurrence is probable and its amount can be reasonably estimated. If some amount within a range of possible outcomes appears to be a better estimate than any other amount within the range, that amount is recorded. Otherwise, the minimum amount in the range is recorded. Disclosures are provided for contingencies reasonably likely to occur, which would have a material adverse effect on Questar's, Questar Gas's or Questar Pipeline's financial position, results of operations or cash flows. Some of the claims involve highly complex issues relating to liability, damages and other matters subject to substantial uncertainties and, therefore, the probability of liability or an estimate of loss cannot be reasonably determined.

Litigation

On May 1, 2012, Questar Gas Company filed a legal action against QEP Field Services Company, a subsidiary of QEP Resources, Inc. The case, entitled Questar Gas Company v. QEP Field Services Company, was filed in the Third District Court in Salt Lake County, Utah. Questar Gas believes certain charges of QEP Field Services Company for gathering services exceed the amounts contemplated under a Gas Gathering Agreement, effective September 1, 1993, pertaining to certain gas produced by Wexpro Company under the Wexpro Agreement. Questar Gas is alleging breach of contract by QEP Field Services Company and is seeking an accounting, damages and a declaratory judgment

relating to the services and charges under the Gas Gathering Agreement. The charges under the Gas Gathering Agreement are included in Questar Gas's rates as part of its purchased-gas costs. QEP Field Services Company filed an answer and counterclaim alleging that Questar Gas breached the Agreement by failing to allow QEP Field Services to gather and process gas from certain wells located in two fields in the state of Wyoming.

On August 13, 2013, QEP Field Services Company assigned its interest in the Gas Gathering Agreement to QEPM Gathering I, LLC, a subsidiary of the general partner of the master limited partnership QEP Midstream Partners. Plaintiffs have filed an amended complaint naming QEP Midstream Partners, LP; QEP Midstream Partners GP, LLC; QEP Midstream Partners Operating, LLC; and QEPM Gathering I, LLC (QEP MLP Entities). QEP Field Services and Tesoro Logistics LP (Tesoro) entered into a Membership Interest Purchase Agreement dated October 19, 2014, to transfer QEP Field Services' interest in the QEP MLP Entities and related assets and liabilities of QEP Field Services to Tesoro, including control of this legal action. Tesoro closed on the transaction for QEP's midstream business on December 2, 2014.

On December 2, 2014, the court issued a memorandum decision granting two motions for partial summary judgment for breach of contract filed by Questar Gas. The court found QEP Field Services Company breached the Gas Gathering Agreement by overcharging Questar Gas in its gathering rates. The court also denied two motions for partial summary judgment filed by QEP Field Services to reduce or limit contract damages. The court also denied cross-motions for partial summary judgment filed by both parties relating to another claim of breach of contract. The issues raised by the cross-motions, QEP Field Services' counterclaim and damages on all claims are currently reserved for trial. Trial has been scheduled for September 8 through 18, 2015.

While Questar Gas intends to vigorously pursue its legal rights, the claims and counterclaims involve complex legal issues and uncertainties that make it difficult to predict the outcome of the case and therefore management cannot determine at this time whether this litigation may have a material adverse effect on its financial position, results of operations or cash flows.

In February 2015, a trial was held in the case of Rocky Mountain Resources and Robert N. Floyd v. QEP Energy Company and Wexpro Company, Ninth Judicial District, County of Sublette, State of Wyoming, Case No. 2011-7816. Plaintiffs allege they are entitled to a 4% overriding royalty interest (ORRI) in a so-called replacement state oil and gas lease ultimately assigned to Wexpro and QEP Energy Company (QEP) in the Pinedale Field. Wexpro and QEP believe the former state leases subject to the ORRI expired and a new lease was issued by the State of Wyoming unburdened by the 4% ORRI. A jury decision was reached on February 13, 2015, that awarded the Plaintiffs \$14.1 million from Wexpro and \$16.2 million from QEP. Wexpro and QEP plan to file an appeal of the case to the Wyoming Supreme Court. Wexpro has accrued its estimate of liability in the case. Any additional royalties will be recovered from Questar Gas's customers.

Note 11 - Asset Impairments

During the second quarter of 2014, Wexpro recorded a pre-tax abandonment and impairment charge of \$2.0 million for its share of the remaining investment in the Brady field. Wexpro concluded that the field had reached the end of its productive life because it was no longer economical to produce natural gas and oil.

During the third quarter of 2013, Questar Pipeline updated its five-year forecast for the eastern segment of Southern Trails Pipeline, which resulted in revised projections of higher operating expenses, including right-of-way and pipeline safety costs. Current and projected market rates for natural gas transportation between the San Juan Basin and California markets did not cover these increasing operating expenses. Because of changes in expected cash flows in the third quarter of 2013 and the lack of progress in selling or recontracting this pipeline, Questar Pipeline recorded a noncash impairment of its entire investment in the eastern segment of Southern Trails Pipeline of \$80.6 million, or \$52.4 million after income taxes. Questar Pipeline used a probability-weighted discounted cash flow analysis that included significant inputs such as Questar Pipeline's cost of capital and assumptions regarding future transportation rates and operating costs.

Note 12 - Recent Accounting Developments

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-03, Interest - Imputation of Interest (Subtopic 835-30). The ASU simplifies the presentation of debt issuance costs by requiring that the debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The guidance will be effective beginning January 1, 2016. Early adoption is permitted. The new guidance must be applied retrospectively to each prior period presented. The Company is currently evaluating the ASU's effect on its financial position.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). The ASU replaces most of the existing revenue guidance with a single set of principles, including changes in recognition and disclosure requirements. The guidance will be effective beginning January 1, 2017. Early adoption is not permitted. The new guidance must be applied retrospectively to each prior period presented or via a cumulative effect upon the date of initial application. The Company is currently evaluating the ASU's effect on its financial position, results of operations or cash flows, as well as which transition approach it will take.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following information updates the discussion of Questar's financial condition provided in its 2014 Form 10-K and analyzes the changes in the results of operations between the three and 12 months ended March 31, 2015 and 2014. For definitions of commonly used terms found in this Quarterly Report, please refer to the "Glossary of Commonly Used Terms" provided in Questar's 2014 Form 10-K.

RESULTS OF OPERATIONS

Following are comparisons of net income by line of business:

	3 Months Ended Mar. 31,			12 Months Ended Mar. 31,		
	2015	2014	Change	2015	2014	Change
	(in millions, except per-share amounts)					
Questar Gas	\$43.8	\$39.6	\$4.2	\$59.4	\$55.4	\$4.0
Wexpro	27.7	31.8	(4.1)	118.7	116.1	2.6
Questar Pipeline ⁽¹⁾	13.9	15.7	(1.8)	58.8	8.1	50.7
Corporate and other	(0.8)	(2.0)	1.2	(10.9)	(6.2)	(4.7)
Net income	\$84.6	\$85.1	\$(0.5)	\$226.0	\$173.4	\$52.6
Add: after-tax asset impairment charge ⁽¹⁾	—	—	—	—	52.4	(52.4)
Adjusted earnings	\$84.6	\$85.1	\$(0.5)	\$226.0	\$225.8	\$0.2
Earnings per share - diluted	\$0.48	\$0.48	\$—	\$1.28	\$0.98	\$0.30
Add: diluted loss per share attributable to impairment ⁽¹⁾	—	—	—	—	0.29	(0.29)
Adjusted earnings per share - diluted	\$0.48	\$0.48	\$—	\$1.28	\$1.27	\$0.01
Weighted-average diluted shares	176.5	176.1	0.4	176.3	176.1	0.2

⁽¹⁾ Third quarter 2013 impairment of the eastern segment of Questar Pipeline's Southern Trails Pipeline.

Management believes that the above non-GAAP financial measures, indicated by the word "Adjusted" in their captions, provide an indication of the Company's ongoing results of operations because of the impairment charge's infrequent and nonrecurring nature (see Note 11).

QUESTAR GAS

Questar Gas reported net income of \$43.8 million in the first quarter of 2015 compared to net income of \$39.6 million in the first quarter of 2014. Net income was \$59.4 million in the 12 months ended March 31, 2015, compared to \$55.4 million in the year-earlier period. Questar Gas, because of the seasonal nature of its business, typically reports income in the first and fourth quarters of the year and losses in the second and third quarters of the year.

Edgar Filing: QUESTAR CORP - Form 10-Q

Following is a summary of Questar Gas financial and operating results:

	3 Months Ended Mar. 31,			12 Months Ended Mar. 31,		
	2015	2014	Change	2015	2014	Change

Customers at March 31, (in thousands)	975	953	22			

Margin Analysis

Questar Gas margin (revenues minus gas costs) decreased \$0.5 million in the first quarter of 2015 compared to the first quarter of 2014, and increased \$6.7 million in the 12 months ended March 31, 2015, compared to the 12 months ended March 31, 2014. Following is a summary of major changes in Questar Gas margin:

	3 Months 2015 vs. 2014 (in millions)	12 Months 2015 vs. 2014
Customer growth	\$2.2	\$5.0
Transportation	1.2	4.7
Change in general-service rates	10.9	20.5
Infrastructure-replacement cost recovery	(6.0) (16.3
Demand-side management cost recovery	(8.7) (8.4
Recovery of gas-cost portion of bad-debt costs	—	1.1
Other	(0.1) 0.1
Increase (decrease)	\$(0.5) \$6.7

At March 31, 2015, Questar Gas served 975,155 customers, up 2.4% from 952,516 at March 31, 2014. The increase includes the purchase of Eagle Mountain City's natural gas system for \$11.4 million on March 5, 2015. The acquisition added over 6,500 natural gas customers. The customer growth rate without the acquisition was 1.7%. Customer growth increased the margin by \$2.2 million in the first quarter of 2015 and \$5.0 million in the 12 months ended March 31, 2015.

Transportation service revenues increased the margin during the three- and 12-month periods ended March 31, 2015, due to higher deliveries for electric generation and new transportation rates.

Effective March 1, 2014, Questar Gas increased its rates in Utah by \$7.6 million annually as a result of a general rate case filed in Utah in July 2013. The order in this rate case authorized an allowed return on equity of 9.85%. Questar Gas has an infrastructure cost-tracking mechanism that allows the company to place into rate base and earn on capital expenditures associated with a multi-year natural gas infrastructure-replacement program upon the completion of each project. The Utah general rate case reset the recovery of costs under the infrastructure-replacement program into general rates until Questar Gas invested \$84 million in new pipelines. This dollar threshold was met in November 2014. Thereafter, Questar Gas was able to recover program capital expenditures through the infrastructure-replacement mechanism. Questar Gas margin from the infrastructure-replacement program was \$6.0 million lower in the first quarter of 2015 than the first quarter of 2014, and \$16.3 million lower in the 12 months ended March 31, 2015 compared to the 12 months ended March 31, 2014. The change in general service rates, excluding the infrastructure-replacement program, increased the margin by \$10.9 million in the first quarter of 2015 and \$20.5 million in the 12 months ended March 31, 2015.

In December 2014, Questar Gas held hearings on a general rate case in Wyoming. The Wyoming Public Service Commission (PSCW) ordered an increase in annualized revenues of \$1.5 million and an authorized return on equity of 9.5%. The change in rates was effective March 1, 2015.

Lower recovery of demand-side management (DSM) costs decreased Questar Gas margin during the three- and 12-month periods ended March 31, 2015. DSM costs are incurred to promote energy conservation by customers. Changes in the margin contribution from DSM recovery revenues are offset by equivalent changes in program expenses.

Questar Gas benefits from a conservation enabling (revenue decoupling) tariff. Under this tariff, Questar Gas is allowed to earn a specified revenue for each general service customer per month. Differences between the allowed revenue and the amount billed to customers are recovered from customers or refunded to customers through future rate changes. Because of this tariff, changes in usage per customer do not impact the company's margin. In addition, a weather-normalization adjustment of customer bills offsets the revenue impact of temperature variations.

Cost of Natural Gas Sold

Cost of natural gas sold decreased 8% in the first quarter of 2015, and decreased 5% in the 12 months ended March 31, 2015, compared to the same periods of 2014. The decreases in the three and 12 months ended March 31, 2015 were primarily due to lower volumes resulting from warmer weather. Questar Gas accounts for purchased-gas costs in accordance with procedures authorized by the Public Service Commission of Utah (PSCU) and the PSCW. Purchased-gas costs that are different from those provided for in present rates are accumulated and recovered or credited through future rate changes. As of March 31, 2015, Questar Gas had a \$3.0 million under-collected balance in the purchased-gas adjustment account representing costs incurred in excess of amounts recovered from customers.

Other Expenses

Operating and maintenance expenses decreased 17% in the first quarter of 2015, and decreased 3% in the 12 months ended March 31, 2015, compared to the same periods of 2014. These decreases included lower DSM costs of \$8.7 million and \$8.4 million for the three- and 12-month periods, respectively. The DSM costs are for the company's energy efficiency program and are recovered from customers through periodic rate changes. Excluding DSM charges, operating and maintenance expenses increased 9% in the first quarter of 2015 compared to the first quarter of 2014 and increased 6% in the 12 months ended March 31, 2015, compared to the prior year period. The first quarter increase was primarily due to higher employee-related costs. The 12 month increase was due to higher system integrity management costs and higher bad debt expense.

General and administrative expenses decreased 3% in the first quarter of 2015, and decreased 2% in the 12 months ended March 31, 2015, compared to the prior year period. The decreases were due to lower employee-related costs. Operating, maintenance, general and administrative expenses per customer, exclusive of DSM costs, were \$143 in the 12 months ended March 31, 2015, compared to \$142 in the 12 months ended March 31, 2014.

Other taxes were 10% lower in the first quarter and 3% lower in the 12 months ended March 31, 2015, compared to year-earlier periods. The variances were due primarily to changes in estimated property tax assessments.

Depreciation and amortization expense increased 2% in the first quarter and increased 6% in the 12 months ended March 31, 2015, compared to the 2014 periods. The higher expense was caused by plant additions driven by customer growth and infrastructure replacements.

WEXPRO

Wexpro reported net income of \$27.7 million in the first quarter of 2015 compared to \$31.8 million in the first quarter of 2014, a 13% decrease. Wexpro earned \$118.7 million for the 12 months ended March 31, 2015, compared to \$116.1 million for the year-earlier period.

Investment base at Mar. 31, (in millions)	\$634.6	\$687.7	\$(53.1)			

Revenues

Wexpro earned a 17.7% after-tax return on its average investment base for the 12 months ended March 31, 2015, compared to a return of 19.3% for the 12 months ended March 31, 2014. The decline in return was due to the addition of the Wexpro II investment, which earns a lower return on the acquisition cost. Pursuant to the Wexpro agreements, Wexpro recovers its costs and receives an after-tax return on its investment base. Wexpro's investment base includes its costs of acquired properties and commercial wells and related facilities, adjusted for working capital, deferred income taxes and accumulated depreciation, depletion and amortization. Property acquisition costs only pertain to properties that have been approved under the Wexpro II Agreement by the PSCU and PSCW (the Commissions). The investment base decreased by 8% in the 12 months ended March 31, 2015. The decrease was due to depreciation, depletion and amortization recorded during the period, offset by deferred income taxes and investment in commercial wells.

Because of significantly lower market prices for natural gas, Wexpro has scaled back its gas development drilling program in 2015 and limited its investment to the completion of wells drilled in 2014. Wexpro has agreed to generally design its annual drilling program to provide cost-of-service production that is, on average, at or below the current 5-year Rockies-adjusted NYMEX price. Following is a summary of changes in the Wexpro investment base:

	12 Months Ended Mar. 31,	
	2015	2014
	(in millions)	
Beginning investment base	\$687.7	\$526.8
Property acquisitions	—	103.7
Successful development wells and related equipment	32.4	161.8
Depreciation, depletion and amortization	(93.5) (86.1
Change in deferred income taxes	8.0	(18.5
Ending investment base	\$634.6	\$687.7

Wexpro produced 15.0 Bcf of cost-of-service natural gas for Questar Gas during the first quarter of 2015, down 19% from the first quarter of 2014. Wexpro produced 60.0 Bcf of cost-of-service gas in the 12 months ended March 31, 2015, compared to 62.3 Bcf in the 12 months ended March 31, 2014. The decline in production is a result of fewer wells completed in 2015. Wexpro natural gas production currently provides the majority of Questar Gas's annual supply requirements.

Revenues from oil and natural gas liquids (NGL) sales decreased 72% in the first quarter of 2015 and decreased 43% in the 12 months ended March 31, 2015, compared to the year-earlier periods. Volumes decreased because Wexpro sold certain oil properties and shut down production in the Brady field in 2014 (see Note 11). Market prices for oil and NGL were also significantly lower in the 2015 periods.

Expenses

Operating and maintenance expenses were up 14% in the first quarter and increased 9% for the 12-month period ended March 31, 2015, compared to prior year periods. The increases were due largely to higher workover and labor costs. Increased costs and declining natural gas production resulted in lease operating expense per Mcfe of \$0.49 in the first quarter of 2015 compared to \$0.37 in the first quarter of 2014.

General and administrative expenses were higher in the three- and 12-month periods ended March 31, 2015, compared to prior year periods. The increases were due to higher employee and corporate allocated costs.

Production and other taxes were lower in the first quarter and increased for the 12 months ended March 31, 2015, compared to prior year periods. The variability in production and other taxes is due to changes in the production volumes and the prices of natural gas, oil and NGL.

Depreciation, depletion and amortization expense decreased 8% in the first quarter of 2015 and increased 7% in the 12 months ended March 31, 2015, compared to the 2014 periods. The decrease in the first quarter was due to lower production volumes and lower investment in natural gas properties, wells and facilities. The increase for the 12 months ended was due to higher investment in natural gas properties, wells and facilities.

In the third quarter of 2014, Wexpro sold its investment in the Spearhead Ranch and Powell Pressure Maintenance oil fields in central Wyoming. Wexpro recorded a gain of \$1.5 million on this sale and credited \$1.8 million back to Questar Gas customers through a reduction in the operator service fee, for a total gain of \$3.3 million.

Acquisition of Producing Properties and Inclusion in Wexpro II

In December 2014, Wexpro acquired an additional interest in its existing Wexpro-operated assets in the Canyon Creek Unit of southwestern Wyoming's Vermillion Basin for approximately \$52.4 million. Essentially, this is a "bolt-on" acquisition to the company's current Canyon Creek assets, which are governed by the 1981 Wexpro Agreement. Under the terms of the Wexpro II Agreement, this property must be submitted to the Commissions to be considered for cost-of-service treatment for the benefit of Questar Gas customers.

In September 2013, Wexpro acquired an additional interest in natural gas-producing properties in the Trail Unit of southwestern Wyoming's Vermillion Basin. In the first quarter of 2014, the Commissions approved a stipulation for inclusion of these properties in the Wexpro II Agreement, effective February 1, 2014.

QUESTAR PIPELINE

Questar Pipeline reported first quarter 2015 net income of \$13.9 million, compared with net income of \$15.7 million in the first quarter of 2014. Questar Pipeline earned \$58.8 million and \$8.1 million in the 12 months ended March 31, 2015 and 2014, respectively. The significantly lower earnings for the 12 months ended March 31, 2014 were due primarily to a \$52.4 million after-tax write-down of the eastern segment of Southern Trails Pipeline in the third quarter of 2013.

Following is a summary of Questar Pipeline financial and operating results:

	3 Months Ended Mar. 31,			12 Months Ended Mar. 31,

Revenues

As of March 31, 2015, Questar Pipeline had net firm transportation contracts of 5,244 Mdth per day, including 1,020 Mdth per day from Questar Pipeline's 50% ownership of White River Hub, compared with 5,068 Mdth per day as of March 31, 2014. Transportation contracts and revenues increased in 2015 primarily due to new volumes for electric generation. Firm contract volumes associated with these expansions were partially offset by contract terminations.

Questar Pipeline earns significant revenue from Questar Gas, with contracts for 916 Mdth per day during the heating season and 841 Mdth per day during off-peak months. The majority of Questar Gas transportation contracts extend through mid-2017. Rockies Express Pipeline has leased capacity on the Questar Overthrust Pipeline for 625 Mdth per day through 2027. Wyoming Interstate Company has contracts on Questar Overthrust Pipeline for 429 Mdth per day with a weighted-average remaining life of 6.3 years. White River Hub's contracts have a weighted-average remaining life of 11.1 years.

Questar Pipeline owns and operates the Clay Basin underground storage complex in eastern Utah. This facility is 100% subscribed under long-term contracts. In addition to Clay Basin, Questar Pipeline owns and operates three smaller aquifer gas storage facilities. Questar Gas has contracted for 26% of firm storage capacity at Clay Basin with contracts expiring in 2017, 2019 and 2020 and 100% of the firm storage capacity at the aquifer facilities with the contracts extending through 2018.

Questar Pipeline charges FERC-approved transportation and storage rates that are based on straight-fixed-variable rate design. Under this rate design, all fixed costs of providing service, including depreciation and return on investment, are recovered through the demand charge. About 95% of Questar Pipeline costs are fixed and recovered through these demand charges. Questar Pipeline's earnings are driven primarily by demand revenues from firm shippers.

Questar Pipeline has three primary sources of NGL revenue. These sources include two major regulated processing facilities and an unregulated subsidiary that provides third-party processing services.

Regulated processing facilities at Clay Basin condition gas to meet pipeline gas-quality specifications. These facilities are part of an agreement that allows Questar Pipeline to recover any shortfall between the NGL revenues and the cost of service for conditioning the gas. Other processing facilities on Questar Pipeline's transmission system are not subject to the Clay Basin gas processing agreement.

NGL sales decreased 70% in the first quarter of 2015 and decreased 37% in the 12 months ended March 31, 2015 compared to the prior year periods. The primary driver of the first quarter decrease was a 66% reduction in net realized price per barrel. For the 12 months ended March 31, 2015, volumes fell 16% primarily due to upstream processing, and the net realized price per barrel fell 24%.

Energy services revenue was 18% higher in the first quarter of 2015, and 6% higher in the 12 months ended March 31, 2015 when compared to 2014 due to higher demand for products and services.

Periodically, Questar Pipeline sells natural gas to settle gas imbalances. Generally, revenue received from the sale of natural gas approximates cost.

Other revenues increased in the three- and 12-month periods ended March 31, 2015, due to receipt of incentive payments under renegotiated processing agreements to manage gas interchangeability on Questar Pipeline's system and recovery of cost of service for conditioning gas at Clay Basin.

Expenses

Operating and maintenance expenses increased 9% in the first quarter of 2015 and increased 5% in the 12 months ended March 31, 2015, compared to the corresponding 2014 periods. The increases were largely driven by higher maintenance and employee-related costs.

General and administrative expenses increased 2% in the first quarter of 2015, and decreased 4% in the 12 months ended March 31, 2015, compared to the 2014 periods. The first quarter increase was due to higher employee-related costs. The 12-month decrease was primarily due to lower employee-related and communication expenses. Operating, maintenance, general and administrative expenses per dth transported were \$0.10 in the first quarter of 2015 compared to \$0.09 for the first quarter of 2014. Operating, maintenance, general and administrative expenses include processing and storage costs.

Depreciation and amortization expense increased 3% in the first quarter and was essentially flat in the 12 months ended March 31, 2015, compared to the 2014 periods. The slight increase for the quarter resulted from higher property, plant and equipment.

Cost of sales in the first quarter of 2015 included a \$1.4 million lower-of-cost-or-market adjustment to the value of natural gas inventory.

Questar Southern Trails Pipeline

Questar Pipeline and its partner, a unit of Spectra Energy, continue development work on the Inland California Express (ICE) project to potentially recommission the 96-mile western segment of its Southern Trails Pipeline to transport crude oil from Whitewater to Long Beach, California. Questar Pipeline is working to optimize the rail terminal design prior to finalizing the acquisition of a preferred site to offload up to 120,000 barrels per day of crude oil into the pipeline for delivery to refineries in Southern California. Once the preferred site is secured, Questar Pipeline will complete preliminary engineering and submit conditional land-use applications. The partners continue to market the project despite the recent decline in crude prices and the volatility of basis differentials between Brent and West Texas Intermediate crude prices.

During the third quarter of 2013, Questar Pipeline updated its five-year forecast for the eastern segment of Southern Trails Pipeline, which resulted in revised projections of higher operating expenses, including right-of-way and pipeline safety costs. Current and projected market rates for natural gas transportation between the San Juan Basin and California markets did not cover these increasing operating expenses over the forecast period. Because of changes in expected cash flows in the third quarter of 2013 and the lack of progress in selling or recontracting this pipeline, Questar Pipeline recorded a noncash impairment of its entire investment in the eastern segment of Southern Trails Pipeline of \$80.6 million, or \$52.4 million after income taxes.

Other Consolidated Results

Questar Fueling

Other consolidated results include losses from the start-up of Questar Fueling Company (Questar Fueling) operations. Questar Fueling builds, owns and operates compressed natural gas (CNG) fueling stations for fleet operators with medium- and heavy-duty trucks and tractors. These stations are customized to provide high-volume, high-speed CNG fueling for fleet operators and are also open to the general public. In 2014, the company had five CNG stations in operation: Houston, Desoto and Dallas, Texas; and Topeka and Kansas City, Kansas. In the first quarter of 2015, Questar Fueling opened an additional station in Salt Lake City, Utah. The company is planning and developing other stations along major transportation corridors in Arizona, California, Colorado, Nevada and Texas. Questar Fueling net losses included in other consolidated results are presented below:

	3 Months Ended March 31, 2015		12 Months Ended March 31, 2015	
	2014	2014	2014	2014
	(in millions)			
Questar Fueling net loss	\$ (0.6)	\$ (0.3)	\$ (1.5)	\$ (0.9)

Income Taxes

Questar's effective combined federal and state income tax rate was 36.6% in the first quarter of 2015 compared to 37.1% in the first quarter of 2014.

LIQUIDITY AND CAPITAL RESOURCES

Operating Activities

Net cash provided by operating activities increased 5% in the first quarter of 2015 compared to the first quarter of 2014 due primarily to cash received from customers for gas supply costs in excess of actual costs incurred. Net cash provided by operating activities is presented below:

Edgar Filing: QUESTAR CORP - Form 10-Q

	3 Months Ended		Change
	2015	2014	
Net income	\$84.6	\$85.1	\$(0.5)
Noncash adjustments to net income	56.2	59.9	(3.7)
Changes in operating assets and liabilities	82.6	67.9	14.7
Net cash provided by operating activities	\$223.4	\$212.9	\$10.5

Questar 2015 Form 10-Q 31

Investing Activities

Capital expenditures for the first quarter of 2015 and 2014 and a forecast for calendar year 2015 are presented below:

	3 Months Ended		Forecast 12 Months Ending December 31, 2015
	2015 (in millions)	2014	
Questar Gas	\$54.4	\$48.9	\$215
Wexpro	10.2	6.9	80
Questar Pipeline	8.7	8.5	50
Corporate and other	4.2	5.4	25
Total capital expenditures, including acquisitions	\$77.5	\$69.7	\$370

Questar Gas's 2015 capital-spending forecast of about \$215 million includes investments for distribution-system upgrades, expansions, infrastructure replacements and expenditures to provide service to approximately 24,000 additional customers, including about 6,500 new Eagle Mountain customers. Wexpro expects to spend about \$80 million in 2015 for developmental gas drilling and property acquisitions. Questar Pipeline's 2015 capital-spending forecast is about \$50 million, primarily for system upgrades and maintenance.

Financing Activities

In the first quarter of 2015, the Company reduced short-term debt by \$133.0 million from the excess of net cash provided by operating activities over net cash used in investing activities.

Questar issues commercial paper to meet short-term financing requirements. The commercial-paper program is supported by a revolving credit facility with various banks that provides back-up credit liquidity. Credit commitments under the revolving credit facility totaled \$750.0 million at March 31, 2015, with no amounts borrowed. Commercial paper outstanding amounted to \$214.0 million at March 31, 2015, compared with \$157.0 million a year earlier. Availability under the revolving credit facility is reduced by outstanding commercial paper amounts, resulting in net availability under the facility of \$536.0 million at March 31, 2015.

Questar Corporation has \$250.0 million of long-term notes maturing in February 2016, which Questar plans to refinance in late 2015 or early 2016. Additionally, Questar Pipeline has \$25.1 million of long-term debt maturing in October 2015.

The Company believes current credit commitments are adequate for its working capital and short-term financing requirements during 2015. The Company also believes it will have adequate access to long-term capital based on current credit markets and its investment-grade credit ratings.

At March 31, 2015, combined short-term debt, long-term debt and capital lease obligation were 54% and equity was 46% of total capital. The Company does not expect the ratio of debt in the capital structure to materially change over the next several years, except for seasonal variation in short-term debt for working capital requirements.

Questar has approval to repurchase up to 1 million shares of its common stock per year to offset share dilution from shares issued under Company incentive plans. Questar made no repurchases under this program in the first quarter of 2015 or 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Information regarding quantitative and qualitative disclosures about market risk is disclosed in Part I, Item 1A and Part II, Item 7A of the Company's Annual Report on Form 10-K for the year ended December 31, 2014. During the three months ended March 31, 2015, there were no material changes in quantitative and qualitative disclosures about market risk.

Forward-Looking Statements

This quarterly report may contain or incorporate by reference information that includes or is based upon "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements give expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They use words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," and other words and terms of similar meaning in connection with a discussion of future operating or financial performance. In particular, these include statements relating to future actions, prospective services or products, future performance or results of current and anticipated services or products, development efforts, expenses, the outcome of contingencies such as legal proceedings, trends in operations, and financial results.

Any or all forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Many such factors will be important in determining actual future results. These statements are based on current expectations and the current economic environment. They involve a number of risks and uncertainties that are difficult to predict. These statements are not guarantees of future performance. Actual results could differ materially from those expressed or implied in the forward-looking statements. Among factors that could cause actual results to differ materially are:

the risk factors discussed in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2014;

general economic conditions, including the performance of financial markets and interest rates;

changes in energy commodity prices;

changes in industry trends;

actions of regulators;

changes in laws or regulations; and

other factors, most of which are beyond the Company's control.

Questar undertakes no obligation to publicly correct or update the forward-looking statements in this quarterly report, in other documents, or on the internet site to reflect future events or circumstances. All such statements are expressly qualified by this cautionary statement.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures.

The Chief Executive Officers and Chief Financial Officer of Questar, Questar Gas and Questar Pipeline have evaluated the effectiveness of the disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of March 31, 2015. Based on such evaluation, such officers have concluded that, as of March 31, 2015, Questar's, Questar Gas's and Questar Pipeline's disclosure controls and procedures are effective.

Changes in Internal Controls.

There were no changes in Questar's, Questar Gas's and Questar Pipeline's internal controls over financial reporting that occurred during the quarter ended March 31, 2015, that have materially affected, or are reasonably likely to materially affect, Questar's, Questar Gas's and Questar Pipeline's internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Information regarding reportable legal proceedings is contained in Note 10 to the financial statements included in Item 1 of Part I of this Quarterly Report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Questar had no unregistered sales of equity securities during the first quarter of 2015. The following table sets forth the Company's purchases of common stock registered under Section 12 of the Securities Exchange Act of 1934 that occurred during the quarter ended March 31, 2015:

Period	Total number of shares purchased ⁽¹⁾	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs ⁽²⁾	Maximum number of shares that may yet be purchased under the plans or programs
Month #1 January 1, 2015 through January 31, 2015	17,765	\$26.24	—	1,000,000
Month #2 February 1, 2015 through February 28, 2015	44,356	\$25.01	—	1,000,000
Month #3 March 1, 2015 through March 31, 2015	110,010	\$23.27	—	1,000,000
Total	172,131	\$24.03	—	

⁽¹⁾ There were 17,765 shares purchased in Month #1, 44,356 shares purchased in Month #2 and 110,010 shares purchased in month #3 in conjunction with tax-payment elections under the Company's Long-term Stock Incentive Plan and rollover shares used in exercising stock options.

⁽²⁾ Questar's Board of Directors authorized Questar to acquire, or cause to be acquired after January 1, 2013, up to 1 million shares of common stock, on an annual basis, in the name and on behalf of the Company in the open market and negotiated purchases from time to time, in accordance with all applicable Security and Exchange rules.

ITEM 6. EXHIBITS.

The exhibits filed as part of this report are listed on the Exhibit Index immediately following the signatures.
