PART I.

ITEM 1. BUSINESS

General Overview

Perfumania Holdings, Inc. and subsidiaries (“the Company”) is an independent, national, vertically integrated wholesale distributor and specialty retailer of perfumes and fragrances that does business through six primary operating subsidiaries, Perfumania, Inc. (“Perfumania”), Quality King Fragrance, Inc. (“QFG”), Scents of Worth, Inc. (“SOW”), Perfumania.com, Inc. (“Perfumania.com”), Five Star Fragrance Company, Inc. (“Five Star”) and Parlux Fragrances, LLC (“Parlux”). We operate in two industry segments, wholesale distribution and specialty retail sales of designer fragrance and related products. See discussion on acquisition of Parlux below.

Our wholesale business includes QFG, Parlux and Five Star. QFG distributes designer fragrances to mass market retailers, drug and other chain stores, retail wholesale clubs, traditional wholesalers, and other distributors throughout the United States. For reporting purposes, the wholesale business also includes the Company’s manufacturing divisions, Parlux and Five Star, which own and license designer and other fragrance brands, that are sold to national department stores, international distributors, through QFG, SOW’s consignment business and Perfumania’s retail stores, paying royalties to the licensors based on a percentage of sales. All manufacturing operations are outsourced to third party manufacturers.

Our retail business is conducted through three subsidiaries:

- Perfumania, a specialty retailer of fragrances and related products,
- SOW, which sells fragrances in retail stores on a consignment basis, and
- Perfumania.com an Internet retailer of fragrances and other specialty items.

During fiscal 2013 and 2012, approximately 61.2% and 68.2% of our net sales and 63.9% and 74.1% of our gross profit were provided by our retail division, and approximately 38.8% and 31.8% and 36.1% and 25.9%, respectively, by our wholesale division. Further information for each of the industry segments in which we operate is provided in Note 15 to our Consolidated Financial Statements included in Item 8 of this Form 10-K.

Our executive offices are located at 35 Sawgrass Drive, Suite 2, Bellport, New York 11713, our telephone number is (631) 866-4100, our retail internet address is www.perfumania.com and our business internet address is www.perfumaniaholdingsinc.com. Through our business website, we make available, free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports as soon as is reasonably practicable after we electronically file them with, or furnish them to, the Securities and Exchange Commission (the “SEC”). The public may read and copy materials we file with the SEC at the SEC’s Public Reference Room at 100 F Street, NE, Washington D.C. 20549. The public may obtain information on the operations of the Public Reference Room by calling the SEC at 1-800-SEC-0330. These reports and amendments are also available at www.sec.gov. In addition, we have made our Code of Business Conduct and Ethics available through our business website under “About us – Corporate Compliance.” The reference to our website does not constitute incorporation by reference of the information contained on our website and the information contained on the website is not part of this Form 10-K.

The Company’s fiscal year ends on the Saturday closest to January 31. In this Form 10-K, we refer to the fiscal year beginning February 3, 2013 and ending February 1, 2014 as “fiscal 2013” and the fiscal year beginning January 29, 2012 and ending February 2, 2013 as “fiscal 2012”. Fiscal 2013 contained 52 weeks while fiscal 2012 contained 53 weeks, with the additional week occurring in the fourth quarter.

Acquisition of Parlux

On April 18, 2012, the Company acquired all of the outstanding shares of Parlux Fragrances, Inc. (“Parlux Inc.”) common stock. Parlux Inc. was engaged in the business of creating, designing, manufacturing, distributing and selling prestige fragrances and beauty related products marketed primarily through specialty stores, national department stores and perfumeries on a worldwide basis. The Company issued approximately 6.014 million shares of its common stock and paid approximately \$62.1 million in cash to the former Parlux Inc. shareholders in the merger. The Company’s shares issued to Parlux Inc.’s shareholders represented approximately 40% of the Company’s issued and

outstanding common stock after the merger. The acquisition's impact on our business is described under "Strategy" below.

See further discussion at Note 2 of the Notes to Consolidated Financial Statements.

Wholesale Business

QFG distributes designer fragrances to mass market retailers, drug and other chain stores, retail wholesale clubs, traditional wholesalers, and other distributors throughout the United States. It buys designer fragrances principally from the

Table of Contents

brand owners/manufacturers. QFG strives to increase its selection of brands, sizes and price points in order to be a one stop shop for its customers. QFG's sales are principally to retailers such as CVS, Kohl's, Marshalls, Nordstrom Rack, Ross Stores, Sears, Target, Wal-Mart and Walgreens. QFG also operates a direct sales department that services over 10,000 pharmacies and specialty stores, through partnerships with AmerisourceBergen and Cardinal Health, throughout the United States.

Parlux engages in the manufacture (through sub-contractors), distribution and sale of Kenneth Cole®, Shawn Carter, professionally known as Jay-Z®, Paris Hilton®, Jessica Simpson®, Rihanna®, Marc Ecko®, Vince Camuto®, Donald Trump® and Ivanka Trump® fragrances and related beauty products on an exclusive basis as a licensee or sublicensee. The products are distributed in a variety of sizes and packaging. Beauty related products such as body lotions, creams, shower gels, deodorants, soaps and dusting powders complement the fragrance line. Parlux designs and creates fragrances using its own staff and independent contractors. Parlux supervises the design of its packaging by independent contractors to create products appealing to the intended customer base. The creation and marketing of each product line is closely linked with the applicable brand name, its positioning and market trends for the prestige fragrance industry. This development process usually takes twelve to eighteen months to complete. Parlux's fragrances generally retail at prices ranging from \$25 to \$85 per item, and are sold in the United States in national and regional department stores, including Belk, Bon Ton, Boscovs, Dillards, Macy's, Nordstrom and Stage Stores, on military bases throughout the United States, at Perfumania's retail stores, through SOW's consignment business and at selected other cosmetic retailers. In international markets, distributors sell Parlux's products to local department stores as well as to numerous perfumeries in the local markets. Selected Parlux products are also sold by QFG. We also fulfill a selection of fragrances for several online retailers, shipping directly to their customers and billing the retailers.

Five Star's owned and licensed brands include Tommy Baham®, Bijan®, Gayle Hayman®, Michael Jordan®, Pierre Cardin®, Royal Copenhagen®, Royal Secret®, Vicky Tiel®, XOXO® and Snookie® and are sold principally through QFG, SOW's consignment business and Perfumania's retail stores. Five Star handles the manufacturing, on behalf of Perfumania, of the Jerome Privee® product line, which includes bath and body products, and which is sold exclusively in Perfumania's retail stores.

There were no customers who accounted for more than 10% of revenues in fiscal 2013 or 2012.

Retail Business

Perfumania is a leading specialty retailer and distributor of a wide range of brand name and designer fragrances. At February 1, 2014, Perfumania operated a chain of 329 "full service" retail stores, specializing in the sale of fragrances and related products at discounted prices up to 75% below the manufacturers' suggested retail prices. Each of Perfumania's retail stores generally offers approximately 2,000 different fragrance items for women, men and children. These stores stock brand name and designer brands such as Estee Lauder®, Cartier®, Issey Miyake®, Bvlgari®, Yves Saint Laurent®, Calvin Klein®, Giorgio Armani®, Hugo Boss®, Ralph Lauren/Polo®, Perry Ellis®, Escada®, Christian Dior®, Lacoste®, Burberry®, Azzaro®, Guess® and Donna Karan¹, as well as Parlux and Five Star brands.

Perfumania also exclusively carries a private label line of bath and body products under the name Jerome Privee®. The retail business is principally operated through Magnifique Parfumes and Cosmetics, Inc., a subsidiary of Perfumania, although the stores are generally operated under the name "Perfumania." Perfumania's retail stores are generally located in regional malls, manufacturers' outlet malls, lifestyle centers, airports and suburban strip shopping centers.

Perfumania.com, our Company-owned website, offers a selection of our more popular products for sale online. We benefit from our ability to reach a large group of customers from a central site. This also enables us to display a larger number of products than traditional store-based or catalog sellers, and the ability to frequently adjust featured selections and edit content and pricing provides significant merchandising flexibility.

SOW operates the largest national designer fragrance consignment program, with contractual relationships to sell products on a consignment basis in approximately 2,100 stores, including more than 1,100 Kmart locations nationwide, as well as through customers such as Burlington Coat Factory, Steinmart and K&G. SOW determines the pricing and the products displayed in each of its retail consignment locations and pays a percentage of the sales proceeds to the retailer for its profit and overhead applicable to these sales. Overhead includes sales associate payroll and benefits, rental of fragrance space and, in some instances, an inventory shrink allowance. Consignment fees vary

depending in part on whether SOW or the retailer absorbs inventory shrinkage.

Table of Contents

The retail segment's overall profitability depends principally on our ability to purchase a wide assortment of merchandise at favorable prices, attract customers and successfully conclude retail sales. Other factors affecting our profitability include general economic conditions, competition, availability of volume discounts, number of stores in operation, timing of store openings and closings and the effects of special promotions.

Seasonality and Quarterly Results

The Company's business is highly seasonal, with the most significant activity occurring from September through December each year. Wholesale sales are stronger during the months of September through November, since retailers need to receive merchandise well before the holiday season begins, with approximately 37.4% and 41.8% of total wholesale revenues being generated during these three months in fiscal 2013 and 2012, respectively. Retail revenues are the greatest in December, with approximately 21.8% and 22.6% of retail revenues being generated this month in fiscal 2013 and 2012, respectively, as is typical for a retail operation.

Strategy

The Company will continue to use its experience in the fragrance industry, knowledge of the fragrance market, and business relationships to procure products, enabling it to sell its products to customers at competitive prices. It seeks to increase the portfolio of brands for both wholesale distribution and retail sale by presenting a diverse sales opportunity for a designer's brand, thereby enhancing its purchasing opportunities.

The acquisition of Parlux created a larger, national, vertically integrated manufacturer, wholesale distributor and specialty retailer of fragrances and related products that is better positioned to compete in the market place and drive growth, as well as to benefit from increased operating scale. The Company has realized increased margins by taking advantage of Parlux's reduced cost on fragrances licensed by Parlux and sold through the QFG, Perfumania and SOW divisions. The increased size and distribution capabilities of the Company are also expected to attract more and higher profile licenses, which will broaden the Company's product offerings to wholesale customers while also growing the retail business. The Company anticipates it will continue to realize certain synergies as a result of the Parlux acquisition, including reduced aggregate costs in distribution, promotional activities, administration and operations. Perfumania's current business strategy focuses on maximizing sales and store productivity by raising the average dollar sale per transaction, increasing transactions per hour, controlling expenses at existing stores, selectively opening new stores in proven geographic markets and closing under-performing stores. When opening new stores, Perfumania seeks locations primarily in high traffic manufacturers' outlet malls, regional malls and, selectively, on a stand-alone basis in suburban shopping centers in metropolitan areas. To achieve economies of scale with respect to advertising and management costs, Perfumania evaluates whether to open additional stores in markets where it already has a presence or whether to expand into additional markets that it believes have a population density and demographics to support a cluster of stores.

As of February 1, 2014, we operated 329 Perfumania stores in the United States, Puerto Rico and the United States Virgin Islands. The following chart shows the number of Perfumania stores operated in each state in which those stores are located.

In fiscal 2013 and 2012, Perfumania opened 14 and 20 stores, respectively, excluding seasonal locations. Perfumania continuously monitors store performance and from time to time closes under-performing stores, which typically have been older stores in less trafficked locations. Perfumania closed 27 stores during fiscal 2013 and 21 stores during fiscal 2012, respectively, excluding seasonal locations. For fiscal 2014, Perfumania intends to continue to focus on improving the profitability of its existing stores and management currently expects to open a minimum of 15 new stores and expects to close approximately 10 stores.

Supply Chain and Manufacturing

Excluding owned and licensed brands of Parlux and Five Star, the Company purchases approximately 80% of its fragrances directly from brand owners/manufacturers and the balance from distributors and wholesalers. Its suppliers include a majority of the largest fragrance manufacturers in the United States. The distributors represent, for the most part, long-standing relationships, some of which are also customers of the Company. The Company maintains a regular dialogue with all designer fragrance brand manufacturers directed toward broadening its product offerings to its customers. The Company believes that having both wholesale and retail customers is desirable to most designer fragrance brand manufacturers and enhances its opportunities to further expand these relationships. As is customary in the fragrance industry, the Company has no long-term or exclusive contracts with these suppliers.

Raw materials and components (“raw materials”) for Parlux's and Five Star's fragrance products are available from sources in the United States, Europe and the Far East. We source the raw materials, which are delivered from independent suppliers directly to third party contract manufacturers who produce and package the finished products based on our estimated anticipated needs. Our fragrance products are manufactured primarily in plants located in New Jersey and neighboring states. As is customary in our industry, we do not have long-term agreements with our contract manufacturers. Management believes it has good relationships with its manufacturers and there are alternative sources available should one or more of these manufacturers be unable to produce at competitive prices.

To date, we have not had difficulty obtaining raw materials at competitive prices. We know of no reason to believe that this situation will change in the near future, but there can be no assurance that this will continue. The lead time for certain of our raw materials inventory (up to 180 days) requires us to maintain at least a three to six month supply of some items in order to ensure production schedules. These lead times are most affected for glass and plastic component orders, as many of our unique designs require the production of molds in addition to the normal production process. This may take 180 to 240 days, or longer, to receive in stock.

Marketing and Sales

For SOW, the Company works with consignment retailers to develop in-store promotions employing signage, displays or unique packaging to merchandise and promote products in addition to developing ad campaigns for specific events as required by the retailers, e.g., mailers, inserts and national print advertising. The cornerstone of our marketing philosophy for our Perfumania stores is to develop customer awareness that the stores offer an extensive assortment of brand name and designer fragrances at discount prices.

For QFG, wholesale sales representatives maintain regular dialogue with customers to generate selling opportunities and to assist them in sourcing products at low prices. All sales personnel have access to current inventory information that is generally updated with each order, allowing immediate order confirmation to customers and ensuring that ordered products are in stock for prompt shipment.

Parlux maintains its own fragrance sales and marketing staff, and sells directly to retailers, primarily national and regional department stores, who we believe will maintain the image of our owned and licensed products as prestige fragrances. Parlux products are currently sold in over 3,000 retail outlets in the United States and on a global basis throughout a network of international distributors. Selected Parlux products are also sold in our Perfumania stores, SOW consignment retail outlets and by QFG. For our licensed brands, we employ traditional vehicles, such as magazine print advertising, and are increasingly leveraging new media such as social networking, mobile, and digital applications.

Intellectual Property Rights

The Company's portfolio of fragrance brands is of great importance to its business. Parlux holds the exclusive worldwide distribution rights for the following licenses: Kenneth Cole, Shawn Carter, professionally known as Jay-Z,

Paris Hilton, Jessica Simpson, Rihanna, Marc Ecko, Vince Camuto, Donald Trump and Ivanka Trump. Five Star owns the Lutece, Norell, Pavlova, Realm, Raffinee and Royal Secret brands, among others. It licenses designer and other fragrance brands, such as Tommy Bahama, Bijan, Gale Hayman, Michael Jordan, Pierre Cardin, Royal Copenhagen, Vicky Tiel, XOXO and Snookie, often acquiring exclusive worldwide distribution rights. Current expiration dates for these licenses (whereupon automatic or discretionary renewal periods may commence) range from June 30, 2014 to December 31, 2022, excluding the Gayle Hayman

Table of Contents

license which expires December 2093. Many of our license agreements are subject to our obligation to make required minimum royalty payments, minimum advertising and promotional expenditures and/or, in some cases, meet minimum sales requirements. In addition to the trade name and service mark Perfumania, Perfumania operates one store under the trade name Perfumania Plus.

We primarily rely on trademark laws to protect our intellectual property rights. In addition to using registered trademarks covering licensed brands, we have a large proprietary portfolio of U.S. and foreign registered trademarks and applications. U.S. trademark ownership depends on use and remains effective as long as the trademark is used. Trademark registration provides certain additional protections. U.S. trademark registrations are generally renewable for as long as the trademark is used. Trademark ownership in foreign countries applying common law also depends on continued use, with registration providing certain additional protections. In the European Union and other foreign countries, ownership rights are based on registration. Terms of registrations in such countries range from seven to fifteen years and are generally renewable. We occasionally register the copyright to packaging materials, and we also rely on trade secret and other contractual restrictions to protect the commercial terms of our licenses. From time to time, we bring litigation against those who, in our opinion, infringe our proprietary rights, but there can be no assurance that either such efforts, or any contractual restrictions used, will be adequate or effective. Also, owners of other brands may, from time to time, allege that we have violated their intellectual property rights, which may lead to litigation and material legal expense.

Competition

Competition varies among the markets in which the Company competes. As a retailer, the Company competes with a wide range of chains and large and small stores, as well as manufacturers, including some of the Company's suppliers. In the wholesale business, the Company competes with many distributors, of which Elizabeth Arden is the largest. Generally, the basis of competition is brand recognition, quality and price. The Company believes that the most important reasons for its competitive success in the wholesale business include its established relationships with manufacturers and large customers, popular recognition of its proprietary and licensed brands, and its efficient, low-cost sourcing strategy and ability to deliver products to consumers at competitive prices. Perfumania's retail competitors include department stores, regional and national retail chains, drug stores, supermarkets, duty-free shops and other specialty retail stores. Some of its competitors sell fragrances at discount prices and some are part of large national or regional chains that have substantially greater resources and name recognition than Perfumania. Perfumania's stores compete on the basis of selling price, promotions, customer service, merchandise variety, store location and ambiance. Internet fragrance sales are highly competitive and Perfumania.com competes on the basis of selling price, merchandise variety, ease of selection and cost of delivery. Some of the Company's competitors may enjoy competitive advantages, including greater financial resources that can be devoted to competitive activities, such as sales and marketing, brand development and strategic acquisitions.

Employees

At February 1, 2014, the Company had 2,287 employees, of whom 217 were involved in warehousing, 1,776 were employed in Perfumania's retail stores, 247 in marketing, sales and operations, and 47 in finance and administration. We use temporary warehouse personnel to assist with seasonal requirements, and temporary and part-time retail employees are added shortly before the Thanksgiving holiday weekend. Some of our warehouse employees are represented by a union. The Company has never experienced a work stoppage, strike or other interruption in business as a result of a labor dispute.

Distribution

The Company utilizes independent national trucking companies, primarily UPS, to deliver merchandise to its stores and some of its wholesale customers. Other wholesale customers are responsible for their own shipping arrangements. Retail store deliveries are generally made weekly, with more frequent deliveries during the holiday season. Such deliveries permit the stores to minimize inventory storage space and increase the space available for display and sale of merchandise. Sales by Perfumania.com are shipped via UPS and are delivered within a few days of being ordered.

Forward Looking Statements

Some of the statements in this report, including those that contain the words “anticipate,” “believe,” “plan,” “estimate,” “expect,” “should,” “intend,” and other similar expressions, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by those forward-looking statements. Among the factors that could cause actual results, performance or achievement to differ materially from those described or implied in the forward-looking statements are our ability to service our obligations, our ability to comply with the covenants in our senior credit facility, a U.S

Table of Contents

or global economic downturn, including any weakness in discretionary spending by consumers, competition, the ability to raise any additional capital necessary to finance our expansion, and the matters discussed in “Risk Factors” below.

ITEM 1A. RISK FACTORS

The following sets forth certain risk factors known to us that may materially adversely affect the Company and its results of operations or our shareholders’ investment.

We are more leveraged following the Parlux merger than we have been historically

In order to complete our acquisition of Parlux, we incurred an additional \$62.1 million of debt. Borrowings under our senior credit facility and our subordinated debt now total approximately \$193.3 million. We and our subsidiaries must comply with various restrictive covenants in our credit facility. Among other things, these covenants limit our ability to:

- pay dividends;
- make distributions; and
- take other actions, such as making advances to suppliers.

Our substantial debt could have important consequences such as:

- increasing our vulnerability to general adverse economic and industry conditions; limit our ability to fund future working capital and capital expenditures, engage in future acquisitions or development activities, or otherwise fully realize the value of our assets and opportunities because of the need to dedicate a substantial portion of our cash flow from operations to payments on the debt or to comply with any restrictive terms of the debt;
- limit our flexibility in planning for, or reacting to, changes in our industry; or
- place us at a competitive disadvantage as compared to competitors that have less debt.

Realization of any of these factors could adversely affect Perfumania’s financial condition.

We could face liquidity and working capital constraints if we are unable to generate sufficient cash flows from operations

If we are unable to generate sufficient cash flows from operations to service our obligations, we could face liquidity and working capital constraints, which could adversely impact our future operations and growth. If we need to raise additional funds to support our operations, we may not be able to do so on favorable terms, or at all. Without such funding, we may need to modify or abandon our growth strategy or eliminate product offerings, any of which could negatively impact our financial position.

We may have problems raising money needed in the future, which could adversely impact operations or existing stockholders

Our growth strategy includes selectively opening and operating new Perfumania retail locations and increasing the average retail sales per store. We may need to obtain funding to achieve our growth strategy. In part due to our existing debt, additional financing may not be available on acceptable terms, if at all, which would adversely affect our operations. In order to obtain additional liquidity, we might issue additional common stock which could dilute our existing shareholders’ ownership interest or we may be required to issue securities with greater rights than those currently possessed by holders of our common stock. We may also be required to take other actions which may lessen the value of our common stock, including borrowing money on terms that are not favorable.

The beauty industry is highly competitive and if we cannot effectively compete our business and results of operations will suffer

The beauty industry is highly competitive and can change rapidly due to consumer preferences and industry trends. Some of our competitors sell fragrances at discount prices and some are part of large national or regional chains that have substantially greater resources and name recognition than ours. Many of our competitors are global prestige beauty companies and multi national consumer product companies who have greater financial, technical, operational, and marketing resources than we have and brands with greater name recognition than our brands. We may not be able to compete successfully against these competitors in developing our products and services. These factors, as well as

demographic trends, economic conditions and discount pricing strategies by competitors, could result in increased competition and could have a material adverse effect on our profitability, operating cash flow, and many other aspects of our business, prospects, results of operations and financial condition.

8

Table of Contents

If we are unable to acquire or license additional brands, our business may not grow as we expect. Our business strategy contemplates growing our portfolio of licensed brands. We may be unsuccessful in identifying, negotiating, financing and consummating desirable licensing arrangements on commercially acceptable terms, or at all, which could hinder our ability to increase revenues. Additionally, even if we are able to consummate such licensing arrangements, we may not be able to successfully integrate them with our existing operations and portfolio of licenses or generate the expected levels of increased revenue as a result.

Any new product we develop may not generate sufficient consumer interest and sales to become a profitable brand or even to cover the costs of its development and subsequent promotions.

Our success with new fragrance products depends on our products' appeal to a broad range of consumers, whose preferences are subject to change, and on our ability to anticipate and respond to market trends through product innovation. In addition, a number of the new launches are with celebrities (either entertainers or athletes) who require substantial royalty commitments and whose careers and/or public appeal could diminish dramatically with no warning. Net revenues and margins on beauty products sometimes decline as they advance in their life cycles, so our revenues and margins could suffer if we do not successfully develop new products. Creating new products may place a strain on our resources. We may incur expenses in creating and developing new products that are not subsequently supported by a sufficient level of sales. If any of our new product introductions are unsuccessful, or if the appeal of the celebrity related to a product diminishes, it could materially impact our results of operations.

Parlux's business has historically depended on department store sales, which present special risks.

Parlux historically launched its new fragrances through U.S. department stores. Department stores tend to lose sales to the mass market as a product matures. To counter this effect, Parlux needed to introduce new products quickly, which requires additional spending for development, advertising and promotional expenses. In addition, U.S. department stores have experienced a significant amount of consolidation in recent years. This has resulted in Parlux's increasing dependence on a smaller number of key retailers, enhancing their bargaining strength and resulting in increased risk. Continued department store consolidation could have a material adverse effect on our financial condition and results of operations.

Our retail business is sensitive to and may be adversely affected by general economic conditions and overall consumer confidence.

Our business is sensitive to a number of factors that influence the levels of consumer spending, including political and economic conditions such as recessionary environments, the levels of disposable consumer income, consumer debt, interest rates, fuel and energy prices, the level of unemployment and consumer confidence. During periods of economic uncertainty or volatility in financial markets where consumer confidence is affected, consumer spending levels and customer traffic could decline, which would have an adverse effect on our business and our results of operations.

Adverse U.S. and global economic conditions could affect our wholesale business.

A U.S. or global economic downturn could reduce the availability of credit for businesses. Some of our wholesale customers could experience a decline in financial performance. These conditions affect their ability to pay amounts owed to us on a timely basis or at all. There can be no assurance that government responses to potential economic disruptions would increase liquidity and the availability of credit, and as a result, our wholesale customers may be unable to borrow funds on acceptable terms. We extend credit to some of our wholesale customers based on an evaluation of their financial condition. Financial difficulties experienced by our wholesale customers could cause us to curtail or eliminate business with that customer. Any economic decline affecting our wholesale customers would adversely affect our business and results of operations.

If Perfumania cannot successfully manage its growth, our business will be adversely affected.

We may not be able to sustain growth in Perfumania's revenues. Perfumania's growth has been somewhat dependent upon opening and operating new retail stores on a profitable basis, which in turn is subject to, among other things, securing suitable store sites on satisfactory terms, hiring, training and retaining qualified management and other personnel, having adequate capital resources and successfully integrating new stores into existing operations.

Circumstances outside our control could negatively affect these anticipated store openings. Perfumania's new stores

may take up to three years to reach planned operating levels. It is possible that Perfumania's new stores might not achieve sales and profitability comparable to existing stores, and it is possible that the opening of new locations might adversely affect sales at existing locations. The failure to expand by successfully opening new stores as planned, or the failure of a significant number of these stores to perform as planned, could have a material adverse effect on our business and our results of operations.

The market for real estate is competitive, which could adversely impact our results

Our ability to effectively obtain real estate to open new stores depends upon the availability of real estate that meets our criteria, including traffic, square footage, co-tenancies, lease economics, demographics, and other factors, and our ability to

Table of Contents

negotiate terms that meet our financial targets. In addition, we must be able to effectively renew our existing store leases. Failure to secure real estate locations adequate to meet annual targets, as well as effectively managing the profitability of our existing stores, could have a material adverse effect on our business and our results of operations. If we are unable to effectively manage our inventory, we will not achieve our expected results

We are exposed to inventory risks that may adversely affect our operating results as a result of seasonality, new product launches, changes in customer preferences or demand, and consumer spending patterns. We must carry a significant amount of inventory, especially before the holiday season selling period. Demand for product can change between the time inventory is ordered and the date of sale, especially with new products. In particular, our business includes a significant portion of consigned sales, and our revenue recognition policy defers recognition of revenue for this type of sale. Consignment sales remain in inventory until the products are sold to end users and, if not sold, the inventory may be returned to us upon termination of the consignment relationships. The turnover frequency of our inventory on consignment is critical to generating regular cash flow in amounts necessary to keep financing costs to targeted levels and to purchase additional inventory. If this turnover is not sufficiently frequent, our financing costs may exceed targeted levels and we may be unable to generate regular cash flow in amounts necessary to purchase additional inventory to meet the demand for other products. In addition, slow inventory turnover may force us to reduce prices and accept lower margins to sell consigned products. Any of these situations may impact our results of operations.

Our business is subject to seasonal fluctuations, which could lead to fluctuations in our stock price

We have historically experienced and expect to continue experiencing higher sales in the fourth fiscal quarter than in any of the first three fiscal quarters. Purchases of fragrances as gift items increase during the holiday season, which results in significantly higher fourth fiscal quarter retail sales. Sales levels of new and existing stores are affected by a variety of factors, including the retail sales environment, the level of competition, the effect of marketing and promotional programs, acceptance of new product introductions, adverse weather conditions, general economic conditions and other factors beyond our control.

Our quarterly results may also vary as a result of the timing of new store openings and store closings, net sales contributed by new stores and fluctuations in comparable sales of existing stores. If our quarterly operating results are below expectations, our stock price might decline.

We may experience shortages of merchandise because we do not rely on long-term agreements with suppliers

Our success depends to a large degree on our ability to provide an extensive assortment of brand name and designer fragrances. We do not rely on long-term purchase contracts or other contractual assurance of continued supply, pricing or access to new products. Suppliers of distributed brands generally may choose to reduce or eliminate the volume of their products we distribute, including supplying products to our wholesale customers directly or through another distributor. Our suppliers are generally able to cancel orders or delay the delivery of products on short notice. If we are unable to obtain merchandise from one or more key suppliers on a timely basis or acceptable terms, or if there is a material change in our ability to obtain necessary merchandise, our results of operations could be adversely affected.

We rely on third-party manufacturers and component suppliers for all of our owned and licensed product

We do not own or operate any manufacturing facilities. We use third-party manufacturers and component suppliers to manufacture all of our owned and licensed products. Our business, prospects, results of operations, financial condition or cash flows could be materially adversely affected if our manufacturers or component suppliers were to experience problems with product quality, credit or liquidity issues, or disruptions or delays in the manufacturing process or delivery of the finished products or the raw materials or components used to make such products.

We could be subject to litigation because of the merchandising aspect of our business

Some of the merchandise we purchase from suppliers might be manufactured by entities that are not the owners of the trademarks or copyrights for the merchandise. The owner of a particular trademark or copyright may challenge us to demonstrate that the specific merchandise was produced and sold with the proper authority, and if we are unable to demonstrate this, we could, among other things, be restricted from reselling the particular merchandise or be subjected to other liabilities. This type of restriction could adversely affect our business and results of operations.

Our stock price volatility could result in litigation, substantial cost, and diversion of management's attention

The price of our common stock has been and likely will continue to be subject to wide fluctuations in response to a number of events, such as:

- quarterly variations in operating results;
- acquisitions, capital commitments or strategic alliances by us or our competitors;
- legal and regulatory matters that are applicable to our business;
- the operating and stock price performances of other companies that investors may deem comparable to us;

Table of Contents

- news reports relating to trends in our markets; and
- the amount of shares constituting our public float.

In addition, the stock market in general has experienced significant price and volume fluctuations that often have been unrelated to the performance of specific companies. The broad market fluctuations may adversely affect the market price of our common stock, regardless of our operating performance. Our stock price volatility could result in litigation, including class action lawsuits, which would require substantial monetary cost to defend, as well as the diversion of management attention from day-to-day activities which could negatively affect operating performance. Such litigation could also have a negative impact on the price of our common stock due to the uncertainty and negative publicity associated with litigation.

Future growth may place strains on our managerial, operational and financial resources

If we grow as we anticipate, a significant strain on our managerial, operational and financial resources may occur. Future growth or increase in the number of our strategic relationships could strain our managerial, operational and financial resources, inhibiting our ability to achieve the execution necessary to successfully implement our business plan.

The loss of or disruption in our distribution facilities could have a material adverse effect on our business

We currently have two distribution facilities located in Bellport, New York and Keasbey, New Jersey. In addition we use third-party fulfillment centers in New York and New Jersey. Any significant interruption to any of these facilities, due to natural disasters, severe weather accidents, system failures, or other unforeseen causes, as well as the loss or damage to the inventory stored therein, could adversely affect our business, prospects, results of operations, financial condition or cash flows.

Expanding our business through acquisitions of and investments in other businesses and technologies presents special risks that may disrupt our business

We have in the past and may in the future continue to expand through the acquisition of and investment in other businesses. Acquisitions involve a number of special problems, including:

- difficulty integrating acquired technologies, operations, and personnel with our existing business;
- diversion of management's attention in connection with both negotiating the acquisitions and integrating the assets;
- the need for additional financing;
- strain on managerial, operational and financial resources as management tries to oversee larger operations; and
- exposure to unforeseen liabilities of acquired companies.

We may not be able to successfully address these problems. Moreover, our future operating results will depend to a significant degree on our ability to successfully manage growth or integrate acquisitions.

Any weakness in internal control over financial reporting or disclosure controls and procedures could result in a loss of investor confidence in our financial reports and lead to a stock price decline

We are required to maintain effective internal control over financial reporting, as well as effective disclosure controls and procedures, complying with SEC rules and covering all our business operations. Any failure to have effective internal control over financial reporting or disclosure controls and procedures covering our business could cause investors to lose confidence in the accuracy and completeness of our financial reports, limit our ability to raise financing or lead to regulatory sanctions, any of which could result in a material adverse effect on our business or a decline in the market price of our common stock.

Disruptions of our computer systems could adversely affect our operations

We rely heavily on computer systems to process transactions, manage our inventory and supply-chain and to summarize and analyze our business. If our systems are damaged or fail to function properly, or, if we do not replace or upgrade certain systems, we may incur substantial costs to repair or replace them and may experience an interruption of our normal business activities or loss of critical data. Starting in fiscal 2014, we are undertaking significant multi-year system enhancements and conversions to increase productivity and efficiency, that, if not done properly, could divert the attention of our workforce and constrain for some time our ability to provide the level of service our customers demand. Also, once implemented, the new systems and technology may not provide the intended efficiencies or anticipated benefits and could add costs and complications to our ongoing operations.

If we fail to protect the security of personal information about our retail customers, our reputation could suffer and we could suffer financial harm

Through our sales, marketing activities, and use of third party information, we collect and store certain personally identifiable information that our customers provide to purchase products or services, enroll in promotional programs, register

on our website, or otherwise communicate and interact with us. This may include but is not limited to names, addresses, phone numbers, e-mail addresses, contact preferences and payment account information, including credit and debit card information. We may share information about such persons with vendors that assist with certain aspects of our business. In addition, our online operations depend upon the secure transmission of confidential information over public networks, such as information permitting cashless payments. The regulatory environment for information security is increasingly demanding, and our customers have a high expectation that we will protect their personal information. We have instituted safeguards for the protection of such information. These security measures may be compromised as a result of third party security breaches, burglaries, cyber attack, errors by employees or employees of third parties, faulty password management, misappropriation of data by employees, vendors or unaffiliated third-parties, or other irregularity, and result in persons obtaining unauthorized access to our data or accounts. Despite instituted safeguards for the protection of such information, we cannot be certain that all of our systems and those of our vendors and unaffiliated third-parties are entirely free from vulnerability to attack or compromise. We may experience a breach of our systems and may be unable to protect sensitive data and integrity of our systems or prevent fraudulent purchases. If we experience a data security breach, we could be exposed to costly government enforcement actions and private litigation. In addition, this could damage our reputation and our customers could lose confidence in us, which could cause them to stop using credit cards to purchase our products or stop shopping at our stores altogether. Such events could lead to lost future sales, fines or lawsuits, which would adversely affect our results of operations.

The risks of e-commerce retailing could hurt our results of operations

Business risks related to our Perfumania.com e-commerce business include our ability to keep pace with rapid technological change, any failure in our or any third-party processor's security procedures and operational controls, failure or inadequacy in our or any third-party processor's systems or ability to process customer orders, and any significant or unanticipated increase in shipping costs, reduction in service, or slow-down in delivery by our third-party shipping vendors. If any of these risks materializes, it could have an adverse effect on our results of operations.

If we are unable to protect our intellectual property rights, specifically trademarks and trade names, our ability to compete would be negatively affected

The market for our products depends to a significant extent upon the value associated with our trademarks and trade names. We own, or have licenses or other rights to use, the material trademark and trade name rights used in connection with the packaging, marketing and distribution of our major products both in the United States and in other countries where such products are principally sold; therefore, trademark and trade name protection is very important to our business. Although most of our brand names are registered in the United States and in certain foreign countries in which we operate, we may not be successful in asserting trademark or trade name protection. In addition, the laws of certain foreign countries may not protect our intellectual property rights to the same extent as the laws of the United States, especially in the product class that includes fragrance products. The costs required to protect our trademarks and trade names may be substantial.

If other parties infringe on our intellectual property rights or the intellectual property rights that we license, the value of our brands in the marketplace may be diluted. Any infringement of our intellectual property rights would also likely result in a commitment of our time and resources to protect these rights through litigation or otherwise. Additionally, we may infringe or be accused of infringing on others' intellectual property rights and one or more adverse judgments with respect to these intellectual property rights could negatively impact our ability to compete and could materially adversely affect our business, prospects, results of operations, financial condition or cash flows.

We may experience impairment of the goodwill or value of long-lived assets that resulted from the Parlux merger. In connection with the Parlux merger, we recorded a substantial amount of goodwill in our financial statements and also acquired long-lived assets resulting from the acquisition or development of license brands and sublicensing opportunities. Both goodwill and the value of these long-lived assets can become impaired, as indicated by factors such as changes in our stock price, book value or market capitalization, and the past and anticipated operating performance and cash flows of our retail and wholesale segments. We test goodwill and indefinite-lived intangible

assets for impairment annually, but the fair value estimates involved require a significant amount of difficult judgment and assumptions by management. Our actual results may differ materially from our projections, which may result in the need to recognize impairment of some or all of the goodwill we recorded and/or to write down the value of our long-lived assets, including brand licenses and trademarks.

Our success depends, in part, on the quality and safety of our fragrance and related products

Our success depends, in part, on the quality and safety of our fragrance and related products. If our products are found to be unsafe or defective, or if they otherwise fail to meet customers or consumers' standards and expectations, our reputation could be adversely affected, our relationships with customers or consumers could suffer, the appeal of one or more of our brands could be diminished, our sales could be adversely affected and/or we may become subject to liability claims, any of which could result in a material adverse effect on our business, results of operations and financial condition.

We are subject to risks related to our international operations

We operate on a global basis. The Company's products are sold in approximately 90 countries through a network of international distributors. Our international operations could be adversely affected by:

- import and export license requirements;
- trade restrictions;
- changes in tariffs and taxes;
- product registration, permitting and regulatory compliance;
- restrictions on repatriating foreign profits back to the United States;
- the imposition of foreign and domestic governmental controls;
- changes in, or our unfamiliarity with, foreign laws and regulations;
- difficulties in staffing and managing international operations;
- changes in economic, social, legal and other conditions, including, without limitation, the continuing turmoil in the Eurozone;
- the volatility of the U.S. dollar against other currencies;
- greater difficulty enforcing intellectual property rights and weaker laws protecting such rights; and
- geo-political conditions, such as terrorist attacks, war or other military action, public health problems and natural disasters.

Reductions in worldwide travel could hurt sales volumes in our duty-free related business

We depend on consumer travel for sales to our "duty free" customers in airports and other locations throughout the world. Any reductions in travel, including as a result of general economic downturns, natural disasters, or acts of war or terrorism, or disease epidemics, could result in a material decline in sales and profitability for this channel of distribution, which could negatively affect our operating results, financial condition, and operating cash flow.

Control of our management and policies is with our principal shareholders, who could take actions that are not in the best interest of the other shareholders

Members of the Nussdorf family beneficially own an aggregate of approximately 57% of our outstanding common stock, assuming exercise of warrants they hold. As a result, if they acted together, they would be able to direct our corporate policies and could act unilaterally to approve most actions requiring shareholder approval under law or our governing documents. The Nussdorfs' collective stock ownership may have the effect of delaying or preventing policies or actions deemed desirable by our Board of Directors, such as a business combination that might be in the interests of our other shareholders, which in turn could materially and adversely affect the market price of our common stock. Conversely, such ownership may cause us to implement policies that are not in the best interests of our other shareholders.

We also have a material amount of indebtedness to the Nussdorfs and their affiliates. As significant creditors, the Nussdorfs may refuse consent to actions our Board may consider necessary.

Furthermore, we have agreed that, in certain circumstances, we will register with the SEC the resale of certain shares of our common stock held by the Nussdorfs. They may require that, in the event of any marketing limitation on the number of shares included in an applicable registration statement, their shares be registered on a pro rata basis with shares being registered for parties that have obtained registration rights, in connection with providing financing to us. This may limit our ability to obtain financing in the future.

ITEM 2. PROPERTIES

The Company's principal executive offices and distribution center are located in Bellport, New York. The Company subleases 272,000 square feet of this 560,000 square foot facility and began using this space in December 2007. This warehouse houses goods for both the wholesale and retail segments. The space is leased through September 2027. As a result of the Parlux acquisition, we assumed a lease on a 199,000 square foot distribution center in Keasby, New Jersey that is leased through August 2015. This facility is currently used primarily for warehousing and distribution of owned and licensed brands.

We lease approximately 10,000 square feet of general office space, primarily for our marketing operations, in New York City under a lease that expires in February 2021. Also as a result of the Parlux acquisition, we assumed a lease on approximately 19,000 square feet of administrative office space in Ft. Lauderdale, Florida that is leased through January 2016. An additional administrative office located in Sunrise, Florida is leased through December 2017 and is currently being subleased.

All of Perfumania's retail stores are located in leased premises. As of February 1, 2014, the Company had a total of approximately 471,000 leased store square feet with an average store size of 1,433 square feet. Most of the store leases provide for the payment of a fixed amount of base rent plus a percentage of sales, ranging from 3% to 15%, over certain minimum sales levels. Store leases typically require Perfumania to pay its proportionate share of common area expenses, real estate taxes, utility charges, insurance premiums and certain other costs. Some of Perfumania's leases permit the termination of the lease if specified minimum sales levels are not met. See Note 14 to our consolidated financial statements for additional information with respect to our store leases.

DIVIDEND POLICY

We have not declared or paid any dividends on our common stock and do not currently intend to declare or pay cash dividends in the foreseeable future. Payment of dividends, if any, will be at the discretion of the Board of Directors after taking into account various factors, including our financial condition, results of operations, current and anticipated cash needs and plans for expansion.

Our bank credit facility permits the payment of dividends to shareholders providing that no default or event of default has occurred or will occur as a result of such payment. The aggregate amount of dividends paid cannot exceed \$2.5 million in any fiscal year.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

Management Overview

During fiscal 2013, the Company continued focusing on the integration of Parlux's operations, managing expenses, improving inventory turns at its retail stores and consignment locations and maximizing working capital. Management also continued to close underperforming Perfumania retail stores, while selectively opening new locations.

As discussed in Note 2 to the consolidated financial statements, for U.S. GAAP reporting, the accompanying results of operations and cash flows for fiscal 2012 contain Parlux's results beginning on April 18, 2012, the date of the acquisition.

Net sales increased 7.7% from \$534.8 million in fiscal 2012 to \$575.9 million in fiscal 2013, due to an increase in wholesale sales offset by a decrease in retail sales. Wholesale sales increased by 31.0% from the prior year. Retail sales decreased 3.2% compared to the prior year as a result of decreases in sales for both Perfumania and SOW. The increase in wholesale sales is due to Parlux's results being included for a full year in fiscal 2013 and higher customer demand and additional brand distribution by QFG. The decrease in retail sales is due to a lower store count and lower mall traffic during the 2013 holiday season for Perfumania and the loss of consignment customers for SOW.

Total gross profit increased 18.1% from \$213.6 million in fiscal 2012 to \$252.2 million in fiscal 2013, largely due to the wholesale division.

Operating expenses decreased 3.2% from \$261.8 million in fiscal 2012 to \$253.5 million in fiscal 2013. Included in operating expenses for fiscal 2012 are \$4.8 million of expenses related to the merger with Parlux. Also included in operating expenses are asset impairment and share-based compensation expense of \$0.5 million and \$0.6 million, respectively, in fiscal 2013 and \$8.1 million and \$4.5 million, respectively, in fiscal 2012.

Including \$10.3 million of interest expense in fiscal 2013 and \$9.4 million in fiscal 2012, we realized a net loss of approximately \$12.5 million in fiscal 2013 compared with a net loss of \$56.0 million in fiscal 2012.

The following table sets forth selected items from our consolidated statements of operations expressed as a percentage of total net sales for the periods indicated:

CRITICAL ACCOUNTING ESTIMATES

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Preparation of these statements requires management to make judgments and estimates that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, management evaluates its estimates, including those related to bad debts, inventories, asset impairments, sales returns and allowances, deferred taxes and other contingent assets and liabilities. As such, some accounting policies have a significant impact on amounts reported in these consolidated financial statements. The judgments and estimates made can significantly affect results. Materially different amounts might be reported under different conditions or by using different assumptions. We consider an accounting policy to be critical if it is both important to the portrayal of our financial condition and results of operations, and requires significant judgment and estimates by management in its application. We have identified certain critical accounting policies that affect the significant estimates and judgments used in the preparation of our consolidated financial statements.

Accounts Receivable, Net of Allowances

In the normal course of business, we extend credit to wholesale customers that satisfy pre-determined credit criteria. Accounts receivable, net of allowances, as shown on the consolidated balance sheets, is net of allowances for doubtful accounts. An allowance for doubtful accounts is determined through the analysis of the aging of accounts receivable at the date of the financial statements, assessments of collectability based on an evaluation of historical and anticipated trends, the financial condition of our customers and an evaluation of the impact of economic conditions. Should circumstances change or economic conditions deteriorate significantly, we may need to increase our provisions.

Inventory Adjustments and Write-offs

Inventories are stated at the lower of cost or market, with cost being determined on a weighted average cost basis. We review our inventory on a regular basis for excess and potentially slow moving inventory based on prior sales, forecasted demand and historical experience and through specific identification of obsolete or damaged merchandise and we record adjustments to reduce the carrying value of inventory to the lower of cost or market in accordance with our assessment. If actual sales are less than our forecasts, additional write-offs could be necessary. Inventory shrinkage is estimated and accrued between physical inventory counts. Significant differences between future experience and that which was projected (for either the shrinkage or inventory reserves) could affect the recorded amounts of inventory and cost of sales.

Impairment of Long-Lived Assets

When events or changes in circumstances indicate that the carrying values of long-lived assets may be impaired, an evaluation of recoverability is performed by comparing the carrying value of the assets to projected future undiscounted cash

Table of Contents

flows in addition to other quantitative and qualitative analysis. Inherent in this process is significant management judgment as to the projected cash flows. Upon indication that the carrying value of such assets may not be recoverable, the Company recognizes an impairment loss as a charge against current operations. Property and equipment assets are grouped at the lowest level for which there are identifiable cash flows when assessing impairment. Cash flows for Perfumania retail assets are identified at the individual store level. Factors that could trigger an impairment review include a significant underperformance relative to expected historical or projected future operating results, a history of operating losses combined with negative future outlook, or a significant negative industry or economic trend. Judgments are also made as to whether future lease-renewal options will be exercised, lease-exit clauses will be exercised, negotiations for rent reductions with landlords will be successful and under-performing stores should be closed. Even if a decision has been made not to close an under-performing store, the assets at that store may be impaired.

Perfumania store asset impairment charges of approximately \$0.5 million and \$2.8 million for fiscal 2013 and 2012, respectively, and impairment charges on a building under a capital lease of approximately \$5.3 million for fiscal 2012 are included in asset impairment on the accompanying consolidated statements of operations.

As the projection of future cash flows and economic conditions requires the use of judgments and estimates, if actual results are materially different than these judgments or estimates, additional charges could be necessary. Significant deterioration in the performance of the Company's stores compared to projections could result in significant additional asset impairments.

Accounting For Acquisitions, Intangible Assets and Goodwill

Under the accounting for business combinations, consideration paid in an acquisition is allocated to the underlying assets and liabilities, based on their respective estimated fair values. The excess of the consideration paid at the acquisition date over the fair values of the identifiable assets acquired or liabilities assumed is recorded as goodwill. Determining the fair value of certain assets and liabilities acquired is judgmental in nature and often involves the use of significant estimates and assumptions. One area that requires more judgment is determining the fair value and useful lives of intangible assets. Because the fair value and the estimated useful life of an intangible asset is a subjective estimate, it is reasonably likely that circumstances may cause the estimate to change. For example, if we discontinue or experience a decline in the profitability of one or more of our brands, the value of the intangible assets associated with those brands or their useful lives may decline.

Our intangible assets consist of exclusive brand licenses, trademarks, tradenames, customer relationships, favorable leases and goodwill. The value of these assets is exposed to future adverse changes if we experience declines in operating results or experience significant negative industry or economic trends. Goodwill and intangible assets with indefinite lives such as our Perfumania tradename are not amortized but rather assessed for impairment at least annually. We typically perform our annual impairment assessment during the fourth quarter of our fiscal year or more frequently if events or changes in circumstances indicate the carrying value of goodwill may not fully be recoverable. During the fourth quarter ended February 1, 2014, we completed our annual impairment assessment of the Perfumania tradename, brand licenses and goodwill with the assistance of a third party valuation firm. In assessing the fair value of this tradename, we utilized the income approach, based on the relief from royalty methodology. For goodwill, we elected to quantitatively test for impairment by comparing the book value of goodwill with the fair value of the reporting unit where our goodwill resides. We estimate the fair value of the reporting units using discounted cash flow and certain market value data. We also reviewed our other intangible assets with finite lives for impairment using the income approach.

We base our fair value estimates on assumptions we believe to be reasonable, but which are unpredictable and inherently uncertain. Actual results may differ from these estimates. The analysis and assessments of these assets and goodwill indicated that no impairment adjustment was required in fiscal 2013 as the estimated fair value exceeded the recorded carrying values.

We will continue to monitor and evaluate the expected future cash flows of our reporting units and the long-term trends of our market capitalization for the purposes of assessing the carrying value of our goodwill and indefinite-lived Perfumania tradename, other trademarks and intangible assets. If market and economic conditions

deteriorate, this could increase the likelihood of future material noncash impairment charges to our results of operations related to our goodwill, indefinite-lived Perfumania tradename, or other trademarks and intangible assets.

Sales and Allowances for Sales Returns

Revenue from wholesale transactions is recorded when title passes. Wholesale revenue is recorded net of estimated returns, discounts and allowances. Revenue from retail sales is recorded, net of discounts, at the point of sale for Perfumania stores, and for consignment sales, when sale to the ultimate customer occurs. Revenue from Internet sales is recognized at the time products are delivered to customers. We record an estimate of returns, discounts and allowances, and review and refine these estimates on a regular basis based on current experience and trends.

Table of Contents

As is customary in the prestige beauty business, we grant certain of our U.S. department store customers, subject to our authorization and approval, the right to either return product or to receive a markdown allowance for product that does not “sell through” to customers. At the time of sale, we record a provision for estimated product returns or markdowns based on our level of sales, historical “sell through” and projected experience with product returns, current economic trends and changes in assessment of customer demand. We make detailed estimates at the product and customer level, which are then aggregated to arrive at a consolidated provision for product returns and markdowns and are reviewed periodically as facts and circumstances warrant. Such provisions and markdown allowances are recorded as a reduction of net sales. Because there is considerable judgment used in evaluating the allowance for returns and markdowns, it is reasonably likely that actual experience will differ from our estimates. If, for example, customer demand for our products is lower than estimated or a proportionately greater amount of sales are made to prestige department stores and/or specialty beauty stores, additional provisions for returns or markdowns may be required resulting in a charge to income in the period in which the determination was made. Similarly, if customer demand for our products is higher than estimated, a reduction of our provision for returns or markdowns may be required resulting in an increase to income in the period in which the determination was made. Sales returns generally follow seasonal gift-giving periods such as Mother's/Father's Day and Christmas. In addition, the global economic downturn of the past few years has also led retailers to reduce inventory levels, thereby increasing returns after the major gift-giving seasons.

Valuation of Deferred Tax Assets

Accounting guidance requires that deferred tax assets be evaluated for future realization and reduced by a valuation allowance to the extent we believe it is more likely than not that a portion of these assets will not be realized. The guidance also prescribes a comprehensive model for the financial statement recognition, presentation and disclosure of uncertain tax positions taken or expected to be taken in an income tax return and also provides guidance on various related matters such as derecognition, interest and penalties, and disclosure. We consider many factors when assessing the likelihood of future realization of our deferred tax assets including our recent cumulative earnings experience by taxing jurisdiction, expectations of future taxable income, the carryforward periods available to us for tax reporting purposes and other relevant factors. The range of possible judgments relating to the valuation of our deferred tax assets is very wide. Significant judgment is required in making these assessments and it is very difficult to predict when, if ever, our assessment may conclude that the remaining portion of our deferred tax assets is realizable. Significant differences between future experience and that which was projected in calculating deferred tax assets could result in material additional adjustments to our deferred tax assets and income tax expense.

FISCAL YEAR 2013 COMPARED TO FISCAL YEAR 2012**Net Sales:**

We recognized net sales of \$575.9 million in fiscal 2013, an increase of 7.7% from the \$534.8 million recorded in fiscal 2012. The breakdown of sales between retail and wholesale was as follows:

	Fiscal Year Ended February 1, 2014 (\$ in thousands)	Percentage of Net Sales	Fiscal Year Ended February 2, 2013	Percentage of Net Sales	Dollar Change	Percent Change	
Retail	\$352,687	61.2	% \$364,477	68.2	% \$(11,790)	(3.2	%)
Wholesale	223,170	38.8	% 170,302	31.8	% \$52,868	31.0	%
Total net sales	\$575,857	100.0	% \$534,779	100.0	% \$41,078	7.7	%

The increase in sales included an increase in wholesale sales of \$52.9 million offset by a decrease in retail sales of \$11.8 million. The fifty-third week in fiscal 2012 resulted in \$3.8 million and \$3.7 million of retail and wholesale sales, respectively. Excluding the results of Parlux, net sales increased by \$10.6 million.

Retail sales decreased by 3.2% from \$364.5 million in fiscal 2012 to \$352.7 million in fiscal 2013. The decrease included a decrease in Perfumania's retail sales of \$10.6 million and a decrease in SOW's consignment sales of \$1.2 million.

Perfumania's retail sales decreased by 3.6% from \$290.8 million in 2012 to \$280.2 million in fiscal 2013. The average number of stores operated was 336 in fiscal 2013 compared with 344 in fiscal 2012. Perfumania's comparable store sales decreased by 2.2% during fiscal 2013. Comparable store sales measure sales from stores that have been open for one year or more. We exclude stores that are closed for renovation from comparable store sales from the month during which renovation commences until the first full month after reopening. The average retail price per unit sold during fiscal 2013 was unchanged

Table of Contents

from fiscal 2012, and the total number of units sold decreased by 3.1%. The decrease in the number of units sold was due primarily to the reduction in the number of Perfumania stores in operation during fiscal 2013 and lower mall traffic during the 2013 holiday season, and also the additional week included in fiscal 2012 compared with fiscal 2013, as discussed earlier, which resulted in \$3.0 million of additional sales in fiscal 2012.

SOW's consignment sales decreased from \$73.7 million in fiscal 2012 to \$72.5 million in fiscal 2013. The decrease in SOW's net sales is due primarily to the loss of three consignment customers during fiscal 2012 and 2013 and a reduction in the number of Kmart locations.

Wholesale sales increased by 31.0% from \$170.3 million in fiscal 2012 to \$223.2 million in fiscal 2013. Parlux's sales increased by \$30.5 million partially because Parlux was acquired on April 18, 2012, and therefore fiscal 2012 does not include a full year of Parlux's operations. Excluding the results of Parlux, the increase in wholesale sales of \$22.4 million is the result of higher customer demand and additional brand distribution by QFG of owned and licensed brands as well as distributed brands during fiscal 2013 compared with fiscal 2012.

Cost of Goods Sold:

Cost of goods sold, which includes the cost of merchandise sold, inventory valuation adjustments, inventory shortages, damages and freight charges, increased 0.8% from \$321.2 million in fiscal 2012 to \$323.7 million in fiscal 2013. The breakdown between wholesale and retail was as follows:

	Fiscal Year Ended February 1, 2014 (\$ in thousands)	Fiscal Year Ended February 2, 2013	Dollar Change	Percent Change	
Retail	\$191,615	\$206,099	\$(14,484)	(7.0)	%
Wholesale	132,077	115,073	17,004	14.8	%
Total cost of goods sold	\$323,692	\$321,172	\$2,520	0.8	%

The increase in cost of goods sold was due to an increase in wholesale sales offset by a decrease in retail sales. During fiscal 2013 and 2012 cost of goods sold was increased by approximately \$10.2 million and \$4.0 million, respectively, to expense the purchase accounting adjustment to record Parlux's acquired inventory at fair market value at the acquisition date. As of February 1, 2014, the entire purchase accounting adjustment has been expensed resulting in no further impact to future quarters. Excluding the results of Parlux, the decrease in cost of goods sold was due to lower cost on fragrances licensed by Parlux and sold by QFG, Perfumania and SOW divisions and lower retail sales as discussed above.

Gross Profit:

Gross profit increased 18.1% from \$213.6 million in fiscal 2012 to \$252.2 million in fiscal 2013. Excluding the results of Parlux, gross profit increased by \$15.2 million or 7.7%.

	Fiscal Year Ended February 1, 2014 (\$ in thousands)	Fiscal Year Ended February 2, 2013	Dollar Change	Percent Change	
Retail	\$161,072	\$158,378	\$2,694	1.7	%
Wholesale	91,093	55,229	35,864	64.9	%
Total gross profit	\$252,165	\$213,607	\$38,558	18.1	%

Table of Contents

Gross profit percentages for the same periods were:

	For the year ended	
	February 1, 2014	February 2, 2013
Retail	45.7%	43.5%
Wholesale	40.8%	32.4%
Total gross profit margin	43.8%	39.9%

The increase in gross profit resulted from increases in both retail and wholesale gross profit and also the acquisition of Parlux.

Perfumania's retail gross profit for fiscal 2013 decreased by 1.0% to \$128.5 million compared with \$129.7 million in 2012. For these same periods, Perfumania's retail gross margins were 45.8% and 44.6%, respectively. The increase in gross margins is due to higher selling prices and greater margins realized on fragrances licensed by Parlux and sold by Perfumania.

Wholesale gross profit increased by 64.9% from \$55.2 million during fiscal 2012 to \$91.1 million during fiscal 2013. The increase is due to higher wholesale sales as discussed above. Wholesale gross profit percentage increased from 32.4% during fiscal 2012 to 40.8% during fiscal 2013 because Parlux sales during fiscal 2013 comprise a larger ratio of total wholesale sales than QFG and Five Star sales compared with fiscal 2012. Parlux sells primarily to department store and international customers and its sales yield a higher gross profit percentage compared with QFG and Five Star. In addition, greater margins were realized on fragrances licensed by Parlux and sold by QFG.

During fiscal 2013 and 2012, gross profit was reduced by approximately \$10.2 and \$4.0 million, respectively, to expense the purchase accounting adjustment to record Parlux's acquired inventory at fair market value at the acquisition date. As of February 1, 2014, the entire purchase accounting adjustment has been expensed resulting in no further impact to future quarters.

Operating Expenses:

Operating expenses decreased 3.2% from \$261.8 million in fiscal 2012 to \$253.5 million in fiscal 2013.

Selling, general and administrative expenses include payroll and related benefits for our distribution centers, sales, store operations, field management, purchasing and other corporate office and administrative personnel; rent, common area maintenance, real estate taxes and utilities for our stores, distribution centers and corporate office; advertising, consignment fees, sales promotion, royalties, insurance, supplies, freight out, and other administrative expenses. The breakdown of operating expenses was as follows:

	For the year ended		Percentage Increase (Decrease)
	(\$ in thousands)		
	February 1, 2014	February 2, 2013	
Selling, general and administrative	\$240,436	\$230,075	4.5%
Asset impairment	491	8,106	(93.9%)
Share-based compensation expense	556	4,547	(87.8%)
Merger related expenses	—	4,837	(100.0%)
Depreciation and amortization	11,973	14,251	(16.0%)
Total operating expenses	\$253,456	\$261,816	(3.2%)
Loss from operations	\$(1,291)	\$(48,209)	

Selling, general and administrative expenses were \$240.4 million in fiscal 2013 compared with \$230.1 million in fiscal 2012. Excluding the results of Parlux, selling, general and administrative expenses decreased by \$3.4 million. Included in selling, general and administrative expenses are expenses in connection with service agreements with Quality King Distributors, Inc. ("Quality King"), which were \$0.5 million and \$1.0 million for fiscal 2013 and fiscal

2012, respectively. These service agreements are described in Note 7 to the consolidated financial statements included in Item 8 of this Form 10-K.

Impairment charges of \$0.5 million during fiscal 2013 relate to long-lived assets at certain under-performing Perfumania retail stores. We recorded similar charges of \$2.8 million for Perfumania retail store long-lived assets and \$5.3 million for a capital lease on a building in fiscal 2012.

Share-based compensation expense of \$0.6 million and \$4.5 million during fiscal 2013 and fiscal 2012 represents the expense incurred on outstanding stock options.

Merger related expenses during fiscal 2012 consist mainly of investment banking and legal fees incurred for the Parlux acquisition which closed in April 2012.

Depreciation and amortization was approximately \$12.0 million in fiscal 2013, compared to \$14.3 million in fiscal 2012. Approximately \$5.7 million and \$6.3 million of amortization expense in fiscal 2013 and 2012, respectively, relates to amortization on identifiable intangible assets acquired as a result of the acquisition of Parlux.

As a result of the foregoing, we recognized loss from operations in fiscal 2013 of approximately \$1.3 million compared to loss from operations in fiscal 2012 of \$48.2 million.

Other Expenses:

	For the year ended		
	(\$ in thousands)		
	February 1, 2014	February 2, 2013	Percentage Increase
Interest expense	\$10,273	\$9,356	9.8%

Interest expense was approximately \$10.3 million for fiscal 2013 compared with approximately \$9.4 million in fiscal 2012. The increase in interest expense is due primarily to a higher average outstanding balance on the Company's revolving credit facility, as well as a higher overall average outstanding balance on the Company's outstanding notes payable to affiliates during fiscal 2013 compared with fiscal 2012. The cash portion of the merger consideration for the Parlux acquisition in April 2012 was financed by a net \$15.0 million borrowed under our revolving credit facility and \$30 million borrowed from family trusts of the Nussdorf family. These borrowings were outstanding for forty weeks during fiscal 2012.

Income Tax Provision (Benefit):

	For the year ended		
	(\$ in thousands)		
	February 1, 2014	February 2, 2013	Percentage Decrease
Income tax provision (benefit)	\$901	\$(1,552)) (158.1%)

Our effective tax rate for fiscal 2013 was 7.8% compared with a benefit of 2.7% for fiscal 2012. The effective tax rates differed from our Federal statutory rates primarily due to changes in our valuation allowances and net operating loss adjustments and expirations.

We recognize deferred tax assets and liabilities for the expected future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carryforwards. We recognize valuation allowances to reduce deferred tax assets to the amounts that are more likely than not to be realized. In assessing the likelihood of realization, we consider past taxable income, estimates of future taxable income and tax planning strategies.

Net Loss

As a result of the foregoing, we realized a net loss of approximately \$12.5 million in fiscal 2013, compared to a net loss of \$56.0 million in fiscal 2012.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Our principal funding requirements are for inventory purchases, financing extended terms on accounts receivable, paying down accounts payable and debt, information systems enhancements, opening new stores and renovation of existing stores. These capital requirements generally have been satisfied through cash flows from operations, borrowings under the respective revolving credit facilities and notes payable to affiliates. Our operations have historically been seasonal, with higher sales occurring from September to December each year. Wholesale sales are stronger during the months of September through November, since retailers place orders in anticipation of the holiday season, while retail sales are the greatest in December. We experience seasonality in our working capital, as our accounts receivable and inventory levels normally peak from August to November. Our working capital borrowings are also seasonal, and our borrowings under our Senior Credit Facility are normally highest in the months of October and November.

Our revolving Senior Credit Facility is a secured credit facility with a syndicate of banks, that is used for our general corporate purposes and those of our subsidiaries, including working capital and capital expenditures. Under this facility, which does not require amortization of principal, revolving loans may be drawn, repaid and reborrowed up to the amount available under a borrowing base calculated with reference to a specified percentage of the borrowers' eligible credit card receivables, trade receivables and inventory, which may be reduced by the lender in its reasonable discretion. The Senior Credit Facility which had a maximum borrowing amount of \$225 million as of February 1, 2014 also includes a sub-limit of \$25 million for letters of credit and a sub-limit of \$25 million for swing line loans (that is, same-day loans from the lead or agent bank). The Company and certain of its subsidiaries are co-borrowers under the Senior Credit Facility, and our other subsidiaries have guaranteed all of their obligations. The Company and its subsidiaries are required to maintain availability under the facility of at least the greater of 10% of the aggregate amount that may be advanced against eligible credit card receivables, trade receivables and inventory or \$10 million. At February 1, 2014, we were in compliance with all financial and operating covenants under the Senior Credit Facility and we had borrowing availability of \$50.3 million, based on the borrowing base at that date. On April 25, 2014 we amended our Senior Credit Facility with the syndicate of banks and reduced the maximum borrowing amount to \$175 million. The primary reasons for amending the Senior Credit Facility were to extend the termination date from January 2015 to April 2019 and to reduce fees and interest rates.

We also have a number of subordinated unsecured notes payable outstanding to certain family trusts of members of the Nussdorf family, Quality King and Glenn and Stephen Nussdorf, that in aggregate total \$125.4 million of principal. No payments of principal may be made on any of these notes payable to affiliates before the maturity of the Senior Credit Facility, although interest payments are permitted under certain conditions, including the Company's maintaining excess availability under the Senior Credit Facility of \$17.5 million (or 17.5% of commitment) and a fixed charge coverage ratio, as defined in the Senior Credit Facility, of 1.1:1.0. Further information about the Senior Credit Facility and these notes payable to affiliates is included in Note 9 to the consolidated financial statements included in Item 8 of this Form 10-K.

Cash used in operating activities primarily represents loss before depreciation and other noncash charges and after changes in working capital. Working capital is significantly impacted by changes in accounts receivable, inventory and accounts payable. The \$5.9 million increase in cash flows from operations in fiscal 2013 as compared to fiscal 2012 was primarily due to the reduction in the net loss for fiscal 2013 compared with the net loss in fiscal 2012 and changes in working capital. Our accounts receivable increased in fiscal 2013 due to higher wholesale sales in fiscal 2013 compared to fiscal 2012. Inventory levels increased in fiscal 2013 due to higher inventory purchases to support increased sales volume and brand launches and accounts payable fluctuations are generally determined by the timing of merchandise purchases and payments.

Our purchases from related parties (described in detail in Note 7 to our consolidated financial statements) are generally payable in 90 days.

Net cash used in investing activities was approximately \$5.5 million in fiscal 2013, compared to \$52.0 million in fiscal 2012. Fiscal 2012 investing activities primarily related to the payment of \$62.1 million to acquire Parlux, net of Parlux's \$17.1 million cash on hand. During fiscal 2013, we renovated 10 existing Perfumania stores, opened 14 new

stores and relocated 1 store. At February 1, 2014, Perfumania operated 329 stores. We plan to open a minimum of 15 stores in fiscal 2014 and plan to close approximately 10 stores. We anticipate spending approximately \$14.0 million in fiscal 2014 on capital expenditures, which will be used primarily for information technology enhancements, including the planned purchase and implementation of a new fully integrated computer system, and also Perfumania new store construction and remodels. The deployment of the new computer system is anticipated to occur in phases over a multi-year schedule, and the scope of the project and timing of the phases is subject to change based on various factors. We continuously evaluate the appropriate new store growth rate in light of economic conditions and may adjust the growth rate as conditions change.

Net cash provided by financing activities was approximately \$6.1 million compared to \$60.2 million in fiscal 2012. Fiscal 2012 financing activities included \$15.0 million borrowed under our Senior Credit Facility, net of cash and cash equivalents acquired from Parlux and \$30.0 million borrowed from affiliates to fund the cash paid for Parlux.

Table of Contents

A summary of our cash flows for fiscal 2013 and fiscal 2012 is as follows (in thousands):

	Fiscal Year Ended February 1, 2014	Fiscal Year Ended February 2, 2013
Summary Cash Flow Information:		
Cash used in operating activities	\$(1,471) \$(7,368
Cash used in investing activities	(5,500) (52,037
Cash provided by financing activities	6,077	60,170
(Decrease) increase in cash	(894) 765
Cash and cash equivalents at beginning of year	2,447	1,682
Cash and cash equivalents at end of year	\$1,553	\$2,447

Based on past performance and current expectations, we believe that our cash balances and the available borrowing capacity under our revolving credit facility, our affiliated borrowings and our projected future operating results will generate sufficient liquidity to support the Company's working capital needs, capital expenditures and debt service in the short and long-term. However, as discussed above, the amount of availability under the Senior Credit Facility depends on our eligible receivables and inventory at any given time, and may be further reduced by our bankers, which could have a material adverse effect on our financial condition and results of operations. Our bankers also would have the right to terminate our Senior Credit Facility if we default on our covenants, which would require us to seek alternative financing. Furthermore, the state of the national economy may worsen, which would further restrict customers' ability to purchase fragrance products. Any of these circumstances, as well as any of the matters discussed in "Risk Factors" above, could have a materially adverse effect on our business operations and financial condition, so there can be no assurance that management's plans and expectations will be successful.

SIGNIFICANT CONTRACTUAL OBLIGATIONS

The following table summarizes the Company's significant contractual obligations at February 1, 2014. Certain of these contractual obligations are reflected in our consolidated balance sheet at February 1, 2014, while others are disclosed as future obligations.

	Payments due by periods				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Revolving credit facility (1)	\$67,902	\$—	\$67,902	\$—	\$—
Notes payable-affiliates (1)	125,366	—	125,366	—	—
Capital lease obligations	5,271	1,401	2,654	1,216	—
Operating lease obligations (2)	164,874	31,129	52,651	35,031	46,063
Minimum royalty obligations (3)	54,829	13,308	25,550	15,971	—
Minimum advertising and promotional spending obligations (3)	89,952	27,317	39,924	22,711	—
	\$508,194	\$73,155	\$314,047	\$74,929	\$46,063

This balance represents principal only as the interest rate is variable and accrues on outstanding balances which vary throughout the year. On April 25, 2014, the revolving credit facility was amended and the termination date (1) was extended from April 2015 to April 2019. In conjunction with this amendment, the notes payable-affiliates were also amended and no principal payments may be made on these notes until three months after the revolving credit facility's new termination date of April 2019.

(2) Excludes any amounts related to maintenance, taxes, insurance and other charges payable under operating lease agreements due to the future variability of these amounts.

(3) Obligations under license agreements require royalty payments and required advertising and promotional spending levels for our products bearing the licensed trademark. Royalty payments are typically made based on contractually

defined net sales. However, certain licenses require minimum guaranteed royalty payments regardless of sales levels. Minimum guaranteed royalty payments and required minimums for advertising and promotional spending have been included in the table above. Actual royalty payments and advertising and promotional spending could be higher.

Furthermore, early termination of any of these license agreements could result in potential cash outflows that have not been reflected above.

We have no off-balance sheet arrangements as defined by Item 303 (a) (4) of Regulation S-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Perfumania Holdings, Inc.

We have audited the accompanying consolidated balance sheets of Perfumania Holdings, Inc. and subsidiaries as of February 1, 2014 and February 2, 2013, and the related consolidated statements of operations, shareholders' equity, and cash flows for the years then ended. Perfumania Holdings, Inc.'s management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Perfumania Holdings, Inc. and subsidiaries as of February 1, 2014 and February 2, 2013 and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

PERFUMANIA HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF BUSINESS

Perfumania Holdings, Inc. ("the Company") a Florida corporation, is an independent, national vertically integrated wholesale distributor and specialty retailer of perfumes and fragrances that does business through six wholly-owned operating subsidiaries, Perfumania, Inc. ("Perfumania"), Quality King Fragrances, Inc. ("QFG"), Scents of Worth, Inc. ("SOW"), Perfumania.com, Inc. ("Perfumania.com"), Parlux Fragrances, LLC ("Parlux") and Five Star Fragrances, Inc. ("Five Star"). See Note 2 of these consolidated financial statements for discussion on the acquisition of Parlux.

The Company's wholesale business includes QFG, Parlux and Five Star. QFG distributes designer fragrances to mass market retailers, drug and other chain stores, retail wholesale clubs, traditional wholesalers, and other distributors throughout the United States. It sells principally to retailers such as CVS, Kohl's, Marshalls, Nordstrom Rack, Ross Stores, Sears, Target, Wal-Mart and Walgreens. The Company's manufacturing divisions include Parlux and Five Star, and the results of operations of both divisions are included in the Company's wholesale business. Parlux and Five Star both own and license designer and other fragrance brands that are sold to national and regional department stores, including Belk, Bon Ton, Boscovs, Dillards, Macy's, Nordstrom and Stage Stores, international distributors, on military bases throughout the United States, by QFG and through the Company's retail business which is discussed below. Parlux also fulfills a selection of fragrances for several online retailers, shipping directly to their customers and billing the retailers. Five Star also manufactures, on behalf of Perfumania, the Jerome Privee product line, which includes bath and body products and which is sold exclusively in Perfumania's retail stores. All manufacturing operations of Parlux and Five Star are outsourced.

The Company's retail business is conducted through its subsidiaries, 1) Perfumania, a specialty retailer of fragrances and related products, 2) Perfumania.com, an Internet retailer of fragrances and other specialty items and 3) SOW, which sells fragrances in retail stores on a consignment basis. Perfumania is a leading specialty retailer and distributor of a wide range of brand name and designer fragrances. As of February 1, 2014, Perfumania operated a chain of 329 retail stores, specializing in the sale of fragrances and related products at discounted prices up to 75% below the manufacturers' suggested retail prices. Perfumania's retail stores are located in regional malls, manufacturers' outlet malls, lifestyle centers, airports and on a stand-alone basis in suburban strip shopping centers, throughout the United States, Puerto Rico and the United States Virgin Islands. Perfumania.com offers a selection of our more popular products for sale over the Internet and serves as an alternative shopping experience to the Perfumania retail stores. SOW operates the largest national designer fragrance consignment program, with contractual relationships to sell products on a consignment basis in approximately 2,100 stores, including more than 1,100 Kmart locations nationwide. Its other retail customers include Burlington Coat Factory, Steinmart and K&G.

There were no customers who accounted for more than 10% of net sales in fiscal 2013 or 2012.

NOTE 2 - ACQUISITION OF PARLUX

On April 18, 2012, pursuant to the Agreement and Plan of Merger, dated as of December 23, 2011 (the "Merger Agreement"), by and among Perfumania, Parlux Fragrances, Inc., a Delaware corporation ("Parlux Inc."), and PFI Merger Corp., a Delaware corporation and wholly owned subsidiary of Perfumania ("Merger Sub"), Perfumania acquired all of the outstanding shares of Parlux Inc. common stock via a merger of Parlux Inc. with Merger Sub, with Parlux Inc. surviving the merger. Parlux Inc. was then merged into PFI Merger Sub I, LLC, which survived this second merger as a wholly owned subsidiary of Perfumania and changed its name to Parlux Fragrances, LLC ("Parlux"). We refer to these two transactions as the "merger." The merger was consummated following the approval and adoption of the Merger Agreement by Parlux Inc.'s shareholders and the approval by Perfumania shareholders of the issuance of shares of Perfumania common stock to the Parlux Inc.'s shareholders pursuant to the Merger Agreement. Trading in Parlux Inc.'s common stock on the Nasdaq Stock Market terminated after market close on April 18, 2012.

The accompanying consolidated financial statements include the results of operations and cash flows for Parlux beginning on April 18, 2012. Parlux is not considered a separate segment for financial reporting purposes. Total net sales of \$39.9 million excluding \$38.1 million of inter-company sales at cost are attributable to Parlux and are included in the Company's consolidated statement of operations for the fiscal year ended February 2, 2013. Under the terms of the Merger Agreement, each share of Parlux Inc.'s common stock issued and outstanding immediately before the merger was cancelled and converted into the right to receive either (i) 0.533333 shares of Perfumania common stock or (ii) 0.20 shares of Perfumania common stock plus \$4.00 in cash, depending on the elections made by Parlux Inc.'s shareholders, without proration or other adjustments. Parlux Inc.'s shareholders received cash for any fractional shares of Perfumania common stock which they might otherwise have received in the merger. As a result, Perfumania issued approximately 6.014 million shares of its common stock and paid approximately \$62.1 million in cash to the former Parlux Inc.

Table of Contents

shareholders in the merger. The Perfumania shares issued to Parlux Inc.'s shareholders represented approximately 40% of Perfumania's issued and outstanding common stock after the merger.

The cash portion of the merger consideration was financed through a combination of \$32.1 million that Perfumania borrowed under Perfumania's Senior Credit Facility and \$30 million that a Perfumania subsidiary borrowed from family trusts of the Nussdorf family, its principal shareholders, each on April 18, 2012. These borrowings, the Senior Credit Facility and the Nussdorf Trusts are described in greater detail in Note 9.

Pursuant to various licensing arrangements entered into by Parlux Inc., in connection with the closing of the merger, Perfumania issued 300,000 shares of common stock and warrants for the purchase of an aggregate of 4,799,971 shares of Perfumania common stock at \$8.00 per share.

The merger has been accounted for using the acquisition method of accounting, which requires, among other things, that the assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. No material assets or liabilities arose from contingencies recognized at the acquisition date. A single estimate of fair value results from a complex series of judgments about future events and uncertainties and relies heavily on estimates and assumptions. The Company's judgments used to determine the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact its results of operations. The following tables summarize the purchase price and the assets acquired and liabilities assumed as of the acquisition date at estimated fair value:

Identifiable intangibles were acquired as a result of the acquisition of Parlux Inc., which are being amortized as follows:

- Customer relationships: amortized on a straight-line basis based on the expected period of benefit.

Table of Contents

License agreements: amortized on a straight-line basis over their useful lives based on the terms of the respective license agreements.

Goodwill in the amount of \$38.8 million was recorded as a result of the acquisition of Parlux Inc. Goodwill is calculated as the excess of the consideration transferred over the net assets recognized and represents the estimated future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. Goodwill will not be amortized, but will be tested for impairment at least annually. None of the goodwill is deductible for tax purposes.

The unaudited pro forma results presented below include the effects of the Parlux Inc. acquisition as if it had been consummated as of January 28, 2012. The pro forma results include the amortization associated with the acquired intangible assets. In addition, the pro forma results do not include any anticipated synergies, operating efficiencies or cost savings or other expected benefits of the acquisition or any integration costs. Accordingly, the unaudited pro forma financial information below is not necessarily indicative of either future results of operations or results that might have been achieved had the acquisition been consummated as of January 28, 2012.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies and practices used by the Company in the preparation of the accompanying consolidated financial statements are as follows:

FISCAL YEAR END

The Company's fiscal year end ends on the Saturday closest to January 31 to enable the Company's operations to be reported in a manner consistent with general retail reporting practices and the financial reporting needs of the Company. In the accompanying Notes, fiscal 2013 refers to the fiscal year beginning February 3, 2013 and ending February 1, 2014 and fiscal 2012 refers to the fiscal year beginning January 29, 2012 and ending February 2, 2013. Fiscal 2013 contained 52 weeks, while fiscal 2012 contained 53 weeks, with the additional week occurring in the fourth quarter.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include accounts of the Company and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

MANAGEMENT ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates made by management in the accompanying consolidated financial statements relate to the valuation of accounts receivable and inventory balances, self-insured health care accruals, long-lived asset impairments, estimated useful lives of property and equipment and deferred tax assets and sublease rentals on a capital lease. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

All highly liquid investments with original maturities of three months or less are classified as cash and cash equivalents. The fair value of cash and cash equivalents approximates the amounts shown on the financial statements.

Cash and cash equivalents consist of unrestricted cash in accounts maintained with major financial institutions. Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. The Company reduces credit risk by placing its cash and cash equivalents with major financial institutions with high credit ratings. At times, such amounts may exceed federally insured limits.

Table of Contents

ACCOUNTS RECEIVABLE

The Company's accounts receivable consist primarily of trade receivables due from wholesale sales. Also included are credit card receivables and receivables due from consignment sales relating to the Company's retail business segment. Generally, there are three to four days of retail sales transactions outstanding with third-party credit card vendors and approximately one to two weeks of consignment retail sales at any point in time. An allowance for doubtful accounts is determined through analysis of the aging of accounts receivable at the date of the financial statements, assessments of collectability based on an evaluation of historical and anticipated trends, the financial condition of the Company's customers and an evaluation of the impact of economic conditions.

INVENTORIES

Inventories, principally consisting of finished goods, are stated at the lower of cost or market with cost being determined on a weighted average basis. The cost of inventory includes product cost and certain freight charges. Write-offs of potentially slow moving or damaged inventory are recorded based on management's analysis of inventory levels, future sales forecasts and through specific identification of obsolete or damaged merchandise.

PROPERTY AND EQUIPMENT

Property and equipment is carried at cost, less accumulated depreciation and amortization. Depreciation for property and equipment, which includes assets under capital leases, is calculated using the straight-line method over the estimated useful lives of the related assets. Leasehold improvements are amortized over the shorter of the term of the lease including one stated renewal period that is reasonably assured, or the estimated useful lives of the improvements, generally ten years, with the exception of the improvements on the corporate office and warehouse in Bellport, New York which has a lease term of 20 years. Costs of major additions and improvements are capitalized and expenditures for maintenance and repairs which do not extend the useful life of the asset are expensed when incurred. Gains or losses arising from sales or retirements are reflected in operations. See Note 6.

GOODWILL AND INTANGIBLE ASSETS

Goodwill is calculated as the excess of the cost of purchased businesses over the fair value of their underlying net assets. Other intangible assets principally consist of license agreements, tradenames and customer relationships. Goodwill is allocated and evaluated at the reporting unit level, which is at the Company's operating segment level. All goodwill has been allocated to the Company's wholesale segment.

Goodwill and other intangible assets with indefinite lives are not amortized, but rather are evaluated for impairment annually during the Company's fourth quarter or whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Impairment testing for goodwill is performed in two steps: (i) the determination of possible impairment, based upon the fair value of a reporting unit as compared to its carrying value; and (ii) if there is a possible impairment indicated, this step measures the amount of impairment loss, if any, by comparing the implied fair value of goodwill with the carrying amount of that goodwill. The fair values of indefinite-lived intangible assets are estimated and compared to their respective carrying values.

Trademarks, including tradenames and owned licenses having finite lives are recorded at cost and are amortized over their respective lives to their estimated residual values and are also reviewed for impairment when changes in circumstances indicate the assets' value may be impaired. Impairment testing is based on a review of forecasted operating cash flows and the profitability of the related brand.

GIFT CARDS

Upon the purchase of a gift card by a retail customer, a liability is established for the cash value of the gift card. The liability is included in accrued expenses and other liabilities. The liability is relieved and revenue is recognized at the time of the redemption of the gift card. Over time, some portion of gift cards issued is not redeemed. If this amount is determined to be material to the Company's consolidated financial statements, it will be recorded as a reduction of selling, general and administrative expenses, when it can be determined that the likelihood of the gift card being redeemed is remote and there is no legal obligation to remit the unredeemed gift cards to relevant jurisdictions (often referred to as gift card breakage). No gift card breakage has been recorded in the consolidated statements of operations for any year presented in these consolidated financial statements. Gift cards issued by the Company do not have expiration dates.

Table of Contents

LOYALTY REWARDS PROGRAM

Perfumania and Perfumania.com offer a customer loyalty rewards program which allows members to earn points for each qualifying purchase. Points earned enable members to receive a certificate that may be redeemed on future purchases at our Perfumania stores or Perfumania.com website. Certificates expire sixty days from the date of issuance. The value of points earned by our loyalty rewards program members is included in accrued liabilities and recorded as a reduction of revenue at the time the points are earned. Revenue is recognized when a certificate is redeemed by the customer or a certificate expires. The value of points accrued as of February 1, 2014 was not material.

ACCRUED EXPENSES

Accrued expenses for self-insured employee medical benefits, contracted advertising, sales allowances, professional fees and other outstanding obligations are assessed based on claims experience and statistical trends, open contractual obligations and estimates based on projections and current requirements. If these trends change significantly, then actual results would likely be impacted.

REVENUE RECOGNITION

Revenue from wholesale transactions is recognized when title passes, which occurs either upon shipment of products or delivery to the customer. Revenue from retail sales is recorded, net of discounts, at the point of sale for Perfumania stores, and for consignment sales, when sale to the ultimate customer occurs. Revenue from Internet sales is recognized at the time products are delivered to customers. Shipping and handling revenue from our Internet sales is included as a component of net sales. Revenues are presented net of any taxes collected from customers and remitted to government agencies. Revenue from gift cards is recognized at the time of redemption. Returns of store and Internet sales are allowed within 30 days of purchase.

SALES AND ALLOWANCES

Allowances for sales returns are estimated and recorded as a reduction of sales based on our historical and projected return patterns and considering current external factors and market conditions. Allowances provided for advertising, marketing and tradeshows are recorded as selling expenses since they are costs for services received from the customer which are separable from the customer's purchase of the Company's products. Accruals and allowances are estimated based on available information including third party and historical data.

COST OF GOODS SOLD

Cost of goods sold include the cost of merchandise sold, inventory valuation writedowns, inventory shortages, damages and freight charges.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses include payroll and related benefits for the Company's store operations, field management, distribution center, purchasing and other corporate office and administrative personnel; rent, common area maintenance, real estate taxes and utilities for the Company's stores, distribution centers and corporate office; advertising, consignment fees, sales promotion, royalties, insurance, supplies, professional fees and other administrative expenses.

INCOME TAXES

Deferred tax assets and liabilities are recognized for the differences between the financial reporting carrying values and the tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is recognized to reduce net deferred tax assets to amounts that management believes are more likely than not expected to be realized. Significant judgment is required in determining the provision for income taxes. Changes in estimates may create volatility in the Company's effective tax rate in future periods for various reasons including, but not limited to: changes in tax laws/rates, forecasted amounts and mix of pre-tax income/loss, settlements with various tax authorities, the expiration of the statute of limitations on some tax positions and obtaining new information about particular tax positions that may cause management to change its estimates. In the ordinary course of business, the ultimate tax outcome is uncertain for many transactions. It is the Company's policy to recognize, at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant taxing authority, the impact of an uncertain income tax position on its income tax

return. The tax provisions are analyzed at least quarterly and adjustments are made as events occur that warrant adjustments to those provisions. The Company records interest expense and penalties payable to relevant tax authorities as income tax expense.

Table of Contents

GAAP prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in an income tax return. The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. See further discussion at Note 10.

BASIC AND DILUTED NET LOSS PER COMMON SHARE

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share includes, in periods in which they are dilutive, the dilutive effect of those common stock equivalents where the average market price of the common shares exceeds the exercise prices for the respective years.

Basic and diluted net loss per common share are computed as follows:

	Fiscal Year Ended February 1, 2014	Fiscal Year Ended February 2, 2013
	(\$ in thousands, except share and per share amounts)	
Net loss - basic and diluted	\$(12,465) \$(56,013
Denominator:		
Weighted average number of common shares for basic and dilutive net loss per share	15,355,516	13,941,075
Basic and diluted loss per common share	\$(0.81) \$(4.02

In fiscal 2013 and 2012, 7,508,246 and 7,548,978 potential shares of common stock, respectively, relating to stock option awards and warrants were excluded from the diluted loss per share calculation, as the effect of including these potential shares was antidilutive due to the net losses reported in each year.

ACCOUNTING FOR THE IMPAIRMENT OF LONG-LIVED ASSETS

The carrying value of long-lived assets is evaluated whenever events or changes in circumstances indicate that the carrying values of such assets may be impaired. An evaluation of recoverability is performed by comparing the carrying values of the assets to projected undiscounted future cash flows in addition to other quantitative and qualitative analysis, including management's strategic plans and market trends. Upon indication that the carrying values of such assets may not be recoverable, the Company recognizes an impairment loss. The impairment loss is determined based on the difference between the net book value and the fair value of the assets. The estimated fair value is based on anticipated discounted future cash flows. Any impairment is charged to operations in the period in which it is identified. Property and equipment assets are grouped at the lowest level for which there are identifiable cash flows when assessing impairment. Cash flows for retail assets are identified at the individual store level. See Note 6 for a discussion of impairment charges for long-lived assets recorded in fiscal 2013 and 2012.

SHARE-BASED COMPENSATION

Share-based compensation expense is recognized on a straight-line basis over the requisite service period. The Company estimates the fair value of stock options granted using the Black-Scholes option valuation model. See further discussion at Note 12.

PRE-OPENING EXPENSES

Pre-opening expenses related to new stores are expensed as incurred.

SHIPPING AND HANDLING FEES AND COSTS

The cost related to shipping and handling for wholesale sales is classified as freight out, which is included in selling, general and administrative expenses. Income generated by retail sales from shipping and handling fees is classified as revenues and the costs related to shipping and handling are classified as cost of goods sold.

ADVERTISING AND PROMOTIONAL COSTS

Advertising and promotional costs for fiscal 2013 and fiscal 2012 was approximately \$60.3 million and \$53.0 million, respectively, and is charged to expense when incurred.

Table of Contents**RENT EXPENSE**

The Company leases retail stores as well as offices and distribution centers under operating leases. Minimum rental expenses are recognized over the term of the lease on a straight-line basis. For purposes of recognizing minimum rental expenses, the Company uses the date when possession of the leased space is taken from the landlord, which includes a construction period of approximately two months prior to store opening. For tenant improvement allowances and rent holidays, the Company records a deferred rent liability in accrued expenses on the consolidated balance sheets and amortizes the deferred rent over the terms of the leases as reductions to rent expense on the consolidated statements of operations. For scheduled rent escalation clauses during the lease terms or for rental payments commencing at a date other than the date of initial occupancy, the Company records minimum rental expenses on a straight-line basis over the terms of the leases on the consolidated statements of operations. The difference between the rental expense recognized and the amount payable under the lease is included in other long-term liabilities on the accompanying consolidated balance sheets.

Certain leases provide for contingent rents, which are primarily determined as a percentage of gross sales in excess of specified levels and are not measurable at inception. The Company records a liability in accrued expenses on the consolidated balance sheets and the corresponding rent expense when specified levels have been achieved.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair values of the Company's assets and liabilities that qualify as financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, short-term debt, and accrued expenses, are carried at cost, which approximates fair value due to the short-term maturity of these instruments. The reported amounts of long-term obligations approximate fair value, given management's evaluation of the instruments' current rates compared to market rates of interest and other factors.

CONCENTRATIONS OF CREDIT RISK

The Company is potentially subject to a concentration of credit risk with respect to its trade receivables, the majority of which are due from retailers and wholesale distributors. Credit risks also relate to the seasonal nature of the business. The Company's sales are concentrated in November and December for the holiday season. The Company performs ongoing credit evaluations of its customers and generally does not require collateral. The Company maintains allowances to cover potential or anticipated losses for uncollectible accounts. The Company maintains credit insurance on certain receivables, which minimizes the financial impact of uncollectible accounts.

RECENT ACCOUNTING PRONOUNCEMENTS

In July 2013, the FASB issued updated guidance to clarify the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This guidance is effective prospectively for fiscal years and interim periods within those years beginning after December 15, 2013. We do not expect the adoption of this guidance to have a material impact on the Company's consolidated results of operations, financial position or cash flows.

In accordance with GAAP, goodwill and intangible assets with indefinite lives are not amortized, but rather tested for impairment at least annually by comparing the estimated fair values to their carrying values.

Trademarks, including tradenames and owned licenses having finite lives, are amortized over their respective lives to their estimated residual values and are also reviewed for impairment in accordance with accounting standards when changes in circumstances indicate the assets' values may be impaired. Customer relationships are amortized over the expected period of benefit and license agreements are amortized over the remaining contractual term. Impairment testing is based on a review of forecasted operating cash flows and the profitability of the related brand.

Amortization expense associated with intangible assets subject to amortization is included in depreciation and amortization on the accompanying consolidated statements of operations. Amortization expense for intangible assets subject to amortization was \$6.2 million and \$6.7 million for fiscal years 2013 and 2012, respectively. The estimated future amortization expense associated with intangible assets subject to amortization is as follows (in thousands):

Depreciation and amortization expense on property and equipment for fiscal 2013 and fiscal 2012 was \$5.8 million and \$7.6 million, respectively which included depreciation expense relating to building and equipment under capital leases of \$0.1 million and \$0.5 million for fiscal 2013 and 2012, respectively. Accumulated depreciation for building and equipment under capital leases was \$0.3 million as of February 1, 2014 and \$0.2 million at February 2, 2013. Net assets under capital leases were \$0.1 million and \$0.2 million at February 1, 2014 and February 2, 2013, respectively. During fiscal 2013 and 2012, the Company recorded noncash impairment charges of approximately \$0.5 million and \$2.8 million, respectively, to reduce the net carrying value of certain retail store assets (primarily leasehold improvements) to their estimated fair value, which was determined based on discounted expected future cash flows. Lower than expected operating cash flow performance relative to the affected assets and the impact of the current economic environment on their projected future results of operations indicated that the carrying value of the related long-lived assets were not recoverable. The Company also recorded a noncash impairment charge of \$5.3 million on a building under a capital lease during the fourth quarter of fiscal 2012 due to changes in anticipated sublease revenue. These asset impairment charges are included in asset impairment in the accompanying consolidated statements of operations. See Note 14 for further discussion of capital leases.

NOTE 7 - RELATED-PARTY TRANSACTIONS

Glenn, Stephen and Arlene Nussdorf owned an aggregate 7,742,282 shares or approximately 50.4%, of the total number of shares of the Company's common stock as of February 1, 2014, excluding shares issuable upon conversion of certain warrants and not assuming the exercise of any outstanding options. Stephen Nussdorf has served as the Chairman of the Company's Board of Directors since February 2004 and Executive Chairman of the Board since April 2011.

The Nussdorfs are officers and principals of Quality King, which distributes pharmaceuticals and health and beauty care products, and the Company's President and Chief Executive Officer, Michael W. Katz is also an executive of Quality King.

See Note 9 for a discussion of notes payable to affiliates.

Transactions With Affiliated Companies

Prior to the acquisition of Parlux Inc., Glenn Nussdorf beneficially owned approximately 9.9% of the outstanding common stock of Parlux Inc. Perfumania had purchased merchandise from Parlux Inc. for about 20 years and was one of Parlux Inc.'s largest customers. Perfumania primarily purchased certain brands, for which Parlux Inc. is the exclusive licensee, for distribution through the Company's wholesale and retail segments.

Glenn Nussdorf has an ownership interest in Lighthouse Beauty Marketing, LLC, Lighthouse Beauty, LLC and Lighthouse Beauty KLO, LLC (collectively "Lighthouse Companies"), all of which are manufacturers and distributors of prestige fragrances. He also has an ownership interest in Cloudbreak Holdings, LLC, ("Cloudbreak") a manufacturer and distributor of prestige fragrances. In fiscal 2010 and 2012, the Company began purchasing merchandise from the Lighthouse Companies and Cloudbreak, respectively.

Our wholly owned subsidiary, Parlux, sold a number of its products to Jacavi Beauty Supply, LLC ("Jacavi"), a fragrance distributor. Jacavi's managing member is Rene Garcia. Rene Garcia, his family trusts and related entities are members of a group that owned an aggregate 2,211,269 shares, or approximately 14.4%, of the total number of shares of the Company's common stock as of February 1, 2014, excluding shares issuable upon conversion of certain warrants. There were no sales to Jacavi from April 18, 2012, the date Parlux was acquired, through February 1, 2014. There was no accounts receivable balance from Jacavi as of February 1, 2014. During fiscal 2013 and 2012, Perfumania purchased merchandise from Jacavi. See disclosure of merchandise purchases in the table below.

The amounts due to these related companies are non-interest bearing and are included in accounts payable-affiliates in the accompanying consolidated balance sheets. Transactions for merchandise purchases with these related companies during fiscal 2013 and 2012 were as follows:

(2) Since the Company acquired Parlux on April 18, 2012, the balance due to Parlux was eliminated in consolidation as of February 2, 2013.

Included in prepaid expenses and other current assets on the accompanying consolidated balance sheet as of February 1, 2014 is a receivable from Lighthouse Companies of \$0.6 million resulting primarily from the return of merchandise to Lighthouse Companies which had previously been purchased and paid for by the Company.

Glenn, Stephen and Arlene Nussdorf own GSN Trucking, Inc. (“GSN”) which provides general transportation and freight services. The Company periodically utilizes GSN to transport both inbound purchases of merchandise and outbound shipments to wholesale customers. During fiscal 2013 and 2012, total payments to GSN for transportation services provided were less than \$0.1 million. There was no balance due to GSN at February 1, 2014 or February 2, 2013.

Quality King occupies a leased 560,000 square foot facility in Bellport, New York. The Company began occupying approximately half of this facility in December 2007 under a sublease that terminates on September 30, 2027 and this location serves as the Company’s principal offices. As of February 1, 2014, the monthly current sublease payments are approximately \$220,000 and increase by 3% annually. Total payments by the Company to Quality King for this sublease were approximately \$2.6 million and \$2.5 million during fiscal 2013 and 2012, respectively.

The Company and Quality King are parties to a Services Agreement providing for the Company’s participation in certain third party arrangements at the Company’s respective share of Quality King’s cost, including allocated overhead, plus a 2% administrative fee, and the provision of legal services. The Company also shares with Quality King the economic benefit of the bulk rate contract that the Company has with UPS to ship Quality King’s merchandise and related items. The Services Agreement will terminate on thirty days’ written notice from either party. During fiscal 2013 and 2012, the expenses charged under these arrangements to the Company were \$0.5 million and \$0.7 million, respectively. The balance due to Quality King for expenses charged under the Services Agreement was less than \$0.1 million and \$0.1 million at February 1, 2014 and February 2, 2013, respectively.

On December 23, 2011, the Company, Parlux Inc., Artistic Brands Development LLC (“Artistic Brands”) (a company controlled by Rene Garcia) and Rene Garcia entered into a Letter Agreement (the “Proposal Agreement”) providing for, among other things, the issuance to Artistic Brands or its designee of 300,000 shares of the Company’s common stock at the effective time of the Parlux merger as consideration for certain licensing transactions contemplated in the Proposal Agreement. Perfumania issued the shares to Artistic Brands’ designee, Shawn Carter, on April 18, 2012.

In connection with the Parlux merger, on April 18, 2012, Parlux, Artistic Brands, Shawn Carter and S. Carter Enterprises, LLC entered into a sublicense agreement and Artistic Brands, Shawn Carter and S. Carter Enterprises, LLC entered into a license agreement pursuant to the Proposal Agreement. In connection with these agreements, the Company issued to Artistic Brands and its designees, including Shawn Carter, warrants for the purchase of an aggregate of 1,599,999 shares of the Company’s common stock at an exercise price of \$8.00 per share. Pursuant to the license agreement, Artistic Brands obtained the exclusive right and license to manufacture, promote, distribute, and sell prestige fragrances and related products under the Jay-Z trademark. The initial term of the license agreement expires at the earlier of (i) five years following the first date on which licensed products are shipped and (ii) December 31, 2018. Artistic Brands has the right to renew the license agreement, so long as certain financial conditions are met and it has not otherwise breached the agreement. Pursuant to the license agreement, Artistic Brands agreed to make certain royalty payments, including certain guaranteed minimum royalties. Pursuant to the sublicense agreement, Artistic Brands sublicensed all rights granted under the license agreement to the Company, and in return the Company assumed all of the Artistic Brands’ obligations under the license agreement, including making all royalty payments and certain guaranteed minimum royalties owed to S. Carter Enterprises, LLC. The Company paid \$0.8 million of guaranteed minimum royalties pursuant to the sublicense agreement during fiscal 2013. Also, in connection with the Parlux merger, the Company issued warrants to purchase 3,199,972 shares of the Company’s common stock to the Garcia Group and Artistic Brands, and warrants to purchase 5,333 shares of common stock to Glenn H. Gopman, a director of the Company, in exchange for warrants to purchase Parlux Inc. stock previously held by those parties.

Glenn H. Gopman exercised his warrants during fiscal 2013.

The Company has a revolving Senior Credit Facility with a syndicate of banks that is used for the Company's general corporate purposes and those of its subsidiaries, including working capital and capital expenditures. Under this facility, which does not require amortization of principal, revolving loans may be drawn, repaid and reborrowed up to the amount available under a borrowing base calculated with reference to specified percentages of the Company's eligible credit card, trade receivables and inventory, which may be reduced by the lender in its reasonable discretion. The Company must maintain availability under the facility of at least the greater of 10% of the aggregate amount that may be advanced against eligible credit card receivables, trade receivables and inventory or \$10 million. As of February 1, 2014, the Company had a borrowing availability of \$50.3 million, which includes \$25 million for letters of credit. On April 25, 2014, the Senior Credit Facility was amended and the then current maximum borrowing amount was reduced from \$225 million to \$175 million. The primary reasons for amending the Senior Credit Facility were to extend the termination date from January 2015 to April 2019 and to reduce fees and interest rates.

On April 18, 2012, pursuant to Amendment No. 1 to the Senior Credit Facility dated December 23, 2011, Perfumania borrowed \$32.1 million to fund a portion of the Parlux cash merger consideration and approximately \$3.5 million to fund costs of the merger and related transactions. At the closing of the merger, Perfumania applied the cash and cash equivalents held by Parlux to repayment of the Senior Credit Facility and terminated Parlux's existing bank credit facility.

Interest under the Senior Credit Facility is at variable rates plus specified margins that are determined based upon the Company's excess availability from time to time. The Company is also required to pay monthly commitment fees based on the unused amount of the Senior Credit Facility and a monthly fee with respect to outstanding letters of credit. As of February 1, 2014, the interest rate on LIBOR Rate borrowings was 2.94% and the interest rate on base rate borrowings was 5.0%.

All obligations of the Company related to the Senior Credit Facility are secured by first priority perfected security interests in all personal and real property owned by the Company, including without limitation 100% (or, in the case of excluded foreign subsidiaries, 66%) of the outstanding equity interests in the subsidiaries. The Company is subject

to customary limitations on its ability to, among other things, pay dividends and make distributions, make investments and enter into joint ventures, and dispose of assets. The Company was in compliance with all financial and operating covenants as of February 1, 2014.

In addition, the Company has outstanding unsecured debt obligations as follows:

(i) a promissory note in the principal amount of \$35 million, (the "QKD Note") held by Quality King Distributors, Inc. ("Quality King"), which provides for payment of principal in quarterly installments between April 30, 2015 and July 31,

Table of Contents

2018 and payment of interest in quarterly installments commencing on January 31, 2011 at the then current senior debt rate, as defined in the Senior Credit Facility, plus 1% per annum;

(ii) promissory notes in the aggregate principal amount of approximately \$85.4 million held by six estate trusts established by Glenn, Stephen and Arlene Nussdorf (the “Nussdorf Trust Notes”), which provide for payment of the principal in full on April 30, 2015 and payments of interest in quarterly installments commencing on July 31, 2012 at the then current senior debt rate plus 2% per annum. These notes were in the original principal amount of \$55.4 million, but were replaced by amended and restated notes reflecting the additional \$30 million loaned by the trusts on April 18, 2012, the date of the Parlux merger; and

(iii) a promissory note in the principal amount of \$5 million held by Glenn and Stephen Nussdorf (the “2004 Note”), which provided for payment in January 2009 and is currently in default because of the restrictions on payment described below, resulting in an increase of 2% in the nominal interest rate, which is the prime rate plus 1%. These notes are subordinated to the Senior Credit Facility. No principal may be paid on any of them until three months after the Senior Credit Facility terminates and is paid in full, and payment of interest is subject to satisfaction of certain conditions, including the Company’s maintaining excess availability under the Senior Credit Facility of the greater of \$17.5 million or 17.5% of the borrowing base certificate after giving effect to the payment, and a fixed charge coverage ratio, as defined in the credit agreement, of 1.1:1.0. As a result of the April 2014 amendment to the Senior Credit Facility discussed above, these notes were amended and no principal payments may be made on any of these notes until three months after the Senior Credit Facility's new termination date of April 25, 2019. Interest expense on these notes was approximately \$6.2 million for both fiscal 2013 and 2012, and is included in interest expense on the accompanying consolidated statements of operations. No payments of principal or interest have been made on the QKD Note or the Nussdorf Trust Notes. On the 2004 Note, no payments of principal have been made and no interest payments have been made since October 2008. Accrued interest payable due at February 1, 2014 and February 2, 2013 on the Nussdorf Trust Notes, the Quality King Note, and the 2004 Note was approximately \$33.7 million and \$27.5 million, respectively, and is included in other long-term liabilities on the accompanying consolidated balance sheets as of February 1, 2014 and February 2, 2013, respectively.

Management evaluates the Company's deferred income tax assets and liabilities to determine whether or not a valuation allowance is necessary. Deferred tax assets are reduced by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Realization of future tax benefits related to the deferred tax assets is dependent on many factors, including the Company's ability to generate future taxable income during those periods in which temporary differences become deductible and/or credits can be utilized. Based on the difficult retail and wholesale environment resulting from the decline in general economic conditions and consumer confidence, and the uncertainty as to when conditions will improve enough to enable the Company to utilize its deferred tax assets, the Company recorded a full valuation allowance against its deferred tax assets. The lack of practical tax-planning strategies available in the short-term and the lack of other objectively verifiable positive evidence supported the conclusion that a full valuation allowance against the Company's Federal and state net deferred tax assets was necessary. In fiscal 2013, the valuation allowance

increased by \$5.8 million and in fiscal 2012, the valuation allowance increased by approximately \$20.3 million, respectively. The pre-tax operating loss of \$11.6 million resulted in the Company incurring additional Foreign tax operating losses during fiscal 2013, which resulted in the recording of additional valuation allowance. For U.S. Federal and State income

Table of Contents

tax purposes, the Company generated taxable income and utilized net operating losses, but also increased other deferred tax assets due to the reversal of certain temporary differences. Overall, the Company's deferred tax assets net with deferred tax liabilities, and before being reduced by the valuation allowance, increased.

As of February 1, 2014 and February 2, 2013, the Company had a deferred tax liability of approximately \$3.4 million related to a tradename. Due to the uncertainty of when this deferred tax liability will be recognized, the Company was not able to offset its total deferred tax assets with this deferred tax liability. The deferred tax liability is included in other long-term liabilities on the accompanying consolidated balance sheets as of February 1, 2014 and February 2, 2013.

Based on available evidence, management concluded that a valuation allowance should be maintained against the Company's deferred tax assets as of February 1, 2014 and February 2, 2013. If, in the future, the Company realizes taxable income on a sustained basis of the appropriate character and within the net operating loss carryforward period, the Company would reverse some or all of this valuation allowance, resulting in an income tax benefit. Further, changes in existing tax laws could also affect valuation allowance needs in the future.

The Company was able to carryback a net operating loss from its June 30, 2009 Federal income tax return to Model Reorg's June 30, 2007 Federal tax return. The carryback resulted in a claim for refund of Federal income taxes of approximately \$2.5 million. The amount of the claim was determined based on information which became available and which was recorded as an income tax benefit during both the thirteen and thirty-nine weeks ended October 30, 2010. During the year ended January 28, 2012, the amount of the claim was reduced to approximately \$2.4 million as a result of an IRS examination. The claim for refund was collected during the first quarter of fiscal 2013.

As of February 1, 2014 and February 2, 2013, the Company's United States and Puerto Rico net operating loss carryforwards, which approximate \$32.5 million and \$37.1 million, respectively, begin to expire in fiscal years 2030 and 2018, respectively. Federal net operating losses of \$8.9 million were obtained through the acquisition of Parlux Inc. in 2012, which are subject to limitations under Section 382 of the Internal Revenue Code. Additionally, the Company and Parlux have approximately \$49.2 million of net operating loss carryforwards in various states expiring from 2014 through 2034 and may be subject to certain annual limitations.

As a result of recording the deferred tax assets and liabilities related to the Parlux acquisition discussed in Note 2, in fiscal 2012 the Company released \$2.1 million of valuation allowance resulting in a \$2.1 million deferred income tax benefit.

The Company historically has filed its Federal and state tax returns on a June 30 tax year. On April 15, 2014, the Company elected to change its tax year to coincide with its accounting year-end. The Company will file a short period Federal consolidated and State income tax returns for the period July 1, 2013 through February 1, 2014.

GAAP prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in an income tax return. The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. GAAP also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. As of February 1, 2014 and February 2, 2013, there was a liability of \$1.0 million and \$0.7 million, respectively recorded for income tax associated with unrecognized tax benefits.

The Company accrues interest related to unrecognized tax benefits as well as any related penalties in income tax expense, which is consistent with the recognition of these items in prior reporting periods. Accrued interest and penalties were \$0.6 million and \$0.5 million as of February 1, 2014 and February 2, 2013, respectively.

The balance of unrecognized tax benefits, the amount of related interest and penalties we have provided and what we believe to be the range of reasonably possible changes in the next 12 months, were (in thousands):

The Company does not expect material adjustments to the total amount of unrecognized tax benefits within the next 12 months, but the outcome of tax matters is uncertain and unforeseen results can occur.

The Company conducts business throughout the United States, Puerto Rico and the U.S. Virgin Islands, and as a result, files income tax returns in the United States Federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, the Company is subject to examination by taxing authorities. With few exceptions, the Company is no longer subject to U.S. Federal, state, local or Puerto Rico income tax examinations for fiscal years prior to 2005. State and foreign income tax returns are generally subject to examination for a period of three to five years after filing of the respective return. The state impact of any Federal changes remains subject to examination by various states for a period of up to one year after formal notification to the states. The Company is currently under examination by three jurisdictions, however management does not expect any significant liability to result.

NOTE 11 - FAIR VALUE MEASUREMENTS

The Company adopted the accounting guidance regarding fair value and disclosures, as it applies to financial and non-financial assets and liabilities. The guidance defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The new guidance does not require any new fair value measurements; rather, it applies to other accounting pronouncements that require or permit fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1: Observable inputs such as quoted prices in active markets (the fair value hierarchy gives the highest priority to Level 1 inputs);

Level 2: Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data and require the reporting entity to develop its own assumptions

As of February 1, 2014, the Company had no material financial assets or liabilities measured on a recurring basis at fair value. The Company measures certain assets at fair value on a non-recurring basis, specifically long-lived assets evaluated for impairment. We estimated the fair value of our long-lived assets using company-specific assumptions which would fall within Level 3 of the fair value hierarchy.

The following tables present the non-financial assets the Company measured at fair value on a non-recurring basis, based on the fair value hierarchy as of February 1, 2014 and February 2, 2013:

Table of Contents

	Net Carrying Value as of February 1, 2014	Fair Value Measured and Recorded at Reported Date Using			Total Impairment Losses - Year Ended February 1, 2014
		Level 1	Level 2	Level 3

	Net Carrying Value as of February 2, 2013	Fair Value Measured and Recorded at Reported Date Using			Total Impairment Losses - Year Ended February 2, 2013
		Level 1	Level 2	Level 3	
Property and Equipment (in thousands)	\$—	\$—	\$—	\$—	\$ 8,106

In fiscal 2013 and 2012, the Company recorded noncash impairment charges of approximately \$0.5 million and \$8.1 million, respectively, to reduce the net carrying value of certain retail store assets and a capital lease on a building to their estimated fair value of \$0, which was based on discounted estimated future cash flows.

The impairment charge of \$8.1 million in fiscal 2012 includes \$3.2 million of property and equipment additions during fiscal 2012.

NOTE 12 - SHAREHOLDERS' EQUITY PREFERRED STOCK

The Company's Articles of Incorporation authorize the issuance of up to 1,000,000 shares of preferred stock. The preferred stock may be issued from time to time at the discretion of the Board of Directors without shareholders' approval. The Board of Directors is authorized to issue these shares in different series and, with respect to each series, to determine the dividend rate, and provisions regarding redemption, conversion, liquidation preference and other rights and privileges. As of February 1, 2014, no preferred stock had been issued.

TREASURY STOCK

From time to time, the Company's Board of Directors has approved the repurchase of the Company's common stock. As of February 1, 2014, the Company had repurchased 898,249 shares of common stock for approximately \$8.6 million, all of which are held as treasury shares. There were no repurchases during fiscal 2013 or fiscal 2012.

WARRANTS

In connection with the Parlux acquisition, the Company issued warrants (the "Merger Warrants") for an aggregate of 4,805,304 shares of our common stock at an exercise price of \$8.00 per share. See further discussion at Note 7 of these consolidated financial statements.

In connection with the Company's merger with a predecessor company on August 11, 2008, the Company issued warrants (the "Warrants") to purchase an additional 1,500,000 shares of our common stock with an exercise price per share of \$23.94. The Warrants became exercisable effective August 11, 2011 and will be exercisable until August 11, 2018.

STOCK OPTION PLANS

The 2010 Equity Incentive Plan (the "2010 Plan") provides for equity-based awards to the Company's employees, directors and consultants. Under the 2010 Plan, the Company initially reserved 1,000,000 shares of common stock for issuance. This number automatically increases on the first trading day of each fiscal year beginning with fiscal 2011, by an amount equal to 1.5% of the shares of common stock outstanding as of the last trading day of the immediately

preceding fiscal year; accordingly, 1,499,221 shares of common stock were reserved for issuance as of February 1, 2014. The Company previously had two stock option plans which expired on October 31, 2010. No further awards will be granted under these plans, although all options previously granted and outstanding will remain outstanding until they are either exercised or forfeited. As of February 1, 2014, 785,000 stock options have been granted pursuant to the 2010 Plan.

Share-based compensation expense was \$0.6 million and \$4.5 million during fiscal 2013 and 2012, respectively. The fair value for stock options issued during fiscal 2013 was estimated at the date of grant, using the Black-Scholes option pricing model with the following weighted average assumptions:

	Fiscal Year Ended February 1, 2014
Expected life (years)	5
Expected stock price volatility	99.0%
Risk-free interest rates	1.5%
Expected dividend yield	0%

The expected life of the options represents the estimated period of time until exercise and is based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. The expected stock price volatility is estimated using the historical volatility of the Company's stock. The risk-free interest rate is based on the implied yield available on U.S. Treasury zero coupon issues with a term equal to the option's expected life. The Company has not paid dividends in the past and does not intend to in the foreseeable future.

The weighted average estimated fair values of options granted during fiscal years 2013 and 2012 were \$3.52 and \$6.32 per share, respectively. As of February 1, 2014, there was \$0.8 million of unrecognized compensation expense related to non-vested outstanding stock options. These costs are expected to be recognized over a weighted-average

period of 2.5 years. The aggregate intrinsic value of options exercised during fiscal 2013 and 2012 was \$54,000 and \$186,000, respectively. Cash received from option exercises during fiscal 2013 and 2012 was \$62,000 and \$228,000, respectively.

NOTE 13 - EMPLOYEE BENEFIT PLANS

The Company has a 401(k) Savings and Investment Plan (the "Plan") for its various subsidiaries. Pursuant to the Plan, the participants may make contributions to the Plan in varying amounts from 1% to 100% of total compensation, or the maximum limits allowable under the Internal Revenue Code, whichever is less. The Company, at its discretion, may match such contributions in varying amounts, as specified by the Plan, and the Company's matching contributions vest over a one to four year period. The Company did not match contributions to the Plan during fiscal 2013 and 2012.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

MEDICAL INSURANCE

The Company self-insures employees for employee medical benefits under the Company's group health plan. As of February 1, 2014, the Company maintains stop loss coverage for individual medical claims in excess of \$125,000 and for annual Company medical claims which exceed approximately \$5.2 million in the aggregate. While the ultimate amount of claims incurred are dependent on future developments, in management's opinion, recorded accruals are adequate to cover the future payment of claims incurred as of February 1, 2014. However, it is possible that recorded accruals may not be adequate to cover the future payment of claims. Adjustments, if any, to estimates recorded resulting from ultimate claim payments will be reflected in operations in the periods in which such adjustments are determined. The self-insurance accrual at February 1, 2014 and February 2, 2013 was approximately \$0.6 million and \$0.4 million, respectively, which is included in accrued expenses and other liabilities in the accompanying consolidated balance sheets.

LEASES AND RETAIL STORE RENT

Total rent expense for warehouse space and equipment charged to operations for fiscal 2013 and fiscal 2012 was \$4.4 million and \$4.3 million, respectively. This includes payments of warehouse rent to Quality King.

In January 2008, the Company began subleasing office and warehouse facility from Quality King in Bellport, New York at a rate which is currently \$2.6 million per year with an annual escalation of 3%. This sublease expires December 2027. The Company assumed leases on a warehouse facility in Keasby, New Jersey and administrative office space in Ft. Lauderdale, Florida as a result of the Parlux acquisition. These leases expire in August 2015 and January 2016, respectively. The Company also leases administrative office space in New York City. This lease expires in February 2021.

The Company leases space for its retail stores. The lease terms vary from month to month leases to ten year leases, in some cases with options to renew for longer periods. Various leases contain clauses which adjust the base rental rate by the prevailing Consumer Price Index, as well as requiring additional contingent rent based on a percentage of gross sales in excess of a specified amount.

Retail store rent expense in fiscal 2013 and 2012 were as follows (in thousands):

	Fiscal Year Ended February 1, 2014	Fiscal Year Ended February 2, 2013
Minimum rentals	\$30,040	\$29,822
Contingent rentals	1,870	1,748

The Company's capitalized leases are for a building in Sunrise, Florida, and computer hardware and software. The lease for the Florida building expires December 2017 with monthly rent of approximately \$104,000 during the remaining term of the lease. See Note 6 for a discussion of impairment charges related to this building. The following is a schedule of future minimum lease payments under capital leases together with the present value of the net minimum lease payments, at February 1, 2014 (in thousands):

(1) Minimum payments have not been reduced by minimum sublease rentals of approximately \$2.3 million due in the future under noncancelable subleases.

ADVERTISING AND ROYALTY OBLIGATIONS

The Company is party to license agreements with unaffiliated licensors. Obligations under license agreements relate to royalty payments and required advertising and promotional spending levels for the Company's products bearing the licensed trademark. Royalty payments are typically made based on contractually defined net sales. However, certain licenses require minimum guaranteed royalty payments regardless of sales levels. Minimum guaranteed royalty payments and required minimums for advertising and promotional spending have been included in the table below. Actual royalty payments and advertising and promotional spending could be higher. Furthermore, early termination of any of these license agreements could result in potential cash outflows that have not been reflected below. Royalty expense was \$15.5 million and \$12.1 million for fiscal 2013 and fiscal 2012, respectively and is included in selling, general and administrative expenses on the accompanying consolidated statements of operations. The aggregate future minimum payments under these licensing agreements at February 1, 2014 are payable as follows (in thousands):

Fiscal Year	Royalty Payments	Advertising Obligations	Total
2014	\$13,308	\$27,317	\$40,625
2015	14,749	24,582	39,331

LITIGATION

The Company is involved in legal proceedings in the ordinary course of business. Management cannot presently predict the outcome of these matters, although management believes that the ultimate resolution of these matters will not have a materially adverse effect on the Company's financial position, operations or cash flows.

NOTE 15 - SEGMENT INFORMATION

The Company operates in two industry segments, wholesale distribution and specialty retail sales of designer fragrance and related products. Management reviews segment information by segment and on a consolidated basis

each month. Retail sales include sales at Perfumania retail stores, the SOW consignment business and the Company's internet site,

Table of Contents

Perfumania.com. Transactions between QFG, Parlux and Five Star, and unrelated customers are included in our wholesale segment information. The accounting policies of the segments are the same as those described in Note 3. The Company's chief operating decision maker, who is its Chief Executive Officer, assesses segment performance by reference to gross profit. Each of the segments has its own assets, liabilities, revenues and cost of goods sold. While each segment has certain unallocated operating expenses, these expenses are not reviewed by the chief operating decision maker on a segment basis, but rather on a consolidated basis. Financial information for these segments is summarized in the following table:

NOTE 16 - SUBSEQUENT EVENT

Effective April 25, 2014, the Company amended its existing Senior Credit Facility and the maximum borrowing amount was reduced from \$225 million to \$175 million. The termination date of the Senior Credit Facility was extended from January 2015 to April 2019 and certain fees and interest rates were reduced. In addition, the QKD Note, the Nussdorf Trust Notes and the 2004 Note were amended and no principal payments may be made on any of these notes until three months after the Senior Credit Facility's new termination date of April 25, 2019.

ITEM 9A. CONTROLS AND PROCEDURES**Management's Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures, as defined in SEC Rule 13a-15(e), which our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated as of the end of the fiscal year covered by this report. Those controls and procedures are designed to ensure, among other things, that information we are required to disclose in the reports that we file with the SEC is recorded, processed, summarized and reported

within the time periods

50

Table of Contents

specified in the SEC's rules and forms and that such information is accumulated and communicated to the Company's management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures. Based on this evaluation, we concluded that our disclosure controls and procedures were effective at February 1, 2014.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in SEC Rule 13a-15(f), for the Company. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of our internal control over financial reporting as of February 1, 2014, using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework (1992). Based on this assessment and those criteria, our management concluded that, as of February 1, 2014, our internal control over financial reporting was effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the fourth quarter of fiscal 2013 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting. Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ITEM 9B. OTHER INFORMATION

Effective April 25, 2014, the Company and its subsidiaries entered into Amendment No. 2 to Credit Agreement, which amends its senior secured revolving credit facility dated as of January 7, 2011, as amended December 23, 2011, with a syndicate of banks for which Wells Fargo Bank, National Association is a Lender and serves as Administrative Agent, Collateral Agent and Swing Line Lender (the "Senior Credit Facility"). The amendment reduces the Senior Credit Facility from \$225,000,000 to \$175,000,000 and extends its maturity date from January 7, 2015 to April 25, 2019. In addition, in connection with this amendment (a) Model Reorg Acquisition LLC ("Model") and Quality King Distributions, Inc. ("QKD") executed Amendment No. 1 to the Amended and Restated Promissory Note dated January 7, 2011 issued by Model and payable to the order of QKD in the amount of \$35,000,000 ("QKD Note") to extend the maturity date of the QKD Note from July 31, 2018 to October 31, 2022; and (b) Model and the trustee of various trusts held by Stephen Nussdorf, Arlene Nussdorf and Glenn Nussdorf executed Amendment No. 1 to the Second Amended and Restated Subordinated Promissory Notes dated January 7, 2011 issued by Model and payable to the order of each of the trusts in an amount totaling \$85,365,693 ("Nussdorf Trust Notes") to extend the maturity dates of each of the Nussdorf Trust Notes from April 30, 2015 to July 31, 2019.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Mr. Mitzman brings to the Board of Directors extensive executive experience as a Chief Executive Officer, including leading an organization with global operations, experience in the human resources area managing a numerous and diverse pool of employees, and growing a business while managing the proper allocation of resources and cost structure.

Code of Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all our Directors, officers and employees and is available on our website at www.perfumaniaholdingsinc.com. This includes a "code of ethics," as defined by Securities and Exchange Commission rules, that applies to our Directors and senior financial officers, including our Chief Executive Officer and Chief Financial Officer. If we make any substantive amendment to the code of ethics or grant any waiver from any of its provisions, we will disclose the nature of such amendment or waiver in a report on Form 8-K.

Audit Committee

For the fiscal year ended February 1, 2014, Carole Ann Taylor, Joseph Bouhadana, Anthony D'Agostino and Paul Garfinkle (Chairman), all of whom are independent, as defined by Nasdaq Stock Market rules, were the members of our Audit Committee. The board of directors has determined that Mr. Garfinkle and Mr. D'Agostino are "audit committee financial experts" as defined by SEC rules.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors and executive officers and beneficial holders of more than 10% of any class of our equity securities to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of such equity securities. Based upon a review of such forms furnished to us or representations from reporting persons stating that they were not required to file these forms, we believe that during fiscal 2013, all Section 16(a) filing requirements were satisfied on a timely basis except that Shawn Carter filed a late report of one transaction.

ITEM 11. EXECUTIVE
COMPENSATION

The following sets forth information concerning compensation for fiscal 2013 and fiscal 2012 for our Executive Chairman, Chief Executive Officer, Chief Financial Officer and Vice President - Perfumania Holdings, Inc. (the "Named Executive Officers").

	2012	292,386	—	383,146	—	675,532

(1) Amounts listed represent the grant date fair value of the stock option awards in accordance with FASB ASC 718. These amounts represent the grant date fair value and do not represent the actual value that may be realized. For additional information regarding the assumptions used to calculate these amounts, see Note 12 to the consolidated financial statements included in Item 8 of our Form 10-K for the fiscal year ended February 2, 2013.

(2) All other compensation consists of a car lease for Mr. Nussdorf and a car allowance for Mr. Katz. There were no personal benefits that exceeded \$10,000 for Ms. Dellomo or Mr. Villoldo.

(3) Mr. Villoldo was appointed an executive officer in fiscal 2012 but has been employed by the Company in other capacities since 2009.

Outstanding Equity Awards at Fiscal Year-End 2013

The following table shows all outstanding equity awards held by the Named Executive Officers at the end of fiscal 2013.

Table of Contents**Retirement Benefits and Potential Payments Upon Termination or Change of Control**

No Named Executive Officer participates in any Perfumania pension plan or nonqualified defined benefit or nonqualified deferred compensation plan, and none has entered into any agreements or understandings with us that provide for payments or benefits to the Named Executive Officer in the event of the Named Executive Officer's termination of employment, including a change of control. All option awards held by the Named Executive Officers are fully vested, so there would be no acceleration of vesting upon a change of control.

Generally, upon a termination of employment for any reason, each Named Executive Officer would be entitled to receive a cash payment of the Named Executive Officer's base salary through the date of termination, to the extent not paid, any accrued but unused vacation pay and any unreimbursed business expenses. The Compensation Committee may, in its sole discretion, depending upon the circumstances of the termination of employment, pay the terminated Named Executive Officer severance in such amount as then determined by Perfumania.

Compensation of Directors

We pay each nonemployee director a \$25,000 annual retainer. In addition, the nonemployee directors earn \$10,000 per year for service as Chair of the Audit Committee, \$5,000 per year for other members of the Audit Committee, \$3,000 per year for service as Chair of each other committee of the board of directors, and \$2,500 per year for other members of each other committee. We also reimburse their expenses in connection with their activities as directors.

Nonemployee directors are eligible to receive stock options under our 2010 Equity Incentive Plan (the "2010 Plan"). They each receive a grant of options for 10,000 shares upon initial election to the board, to vest annually over three years dependent on continued board service, and a grant of options for 5,000 shares upon annual reelection to the board, vested immediately. All such options have an exercise price equal to the fair market value of a share of our common stock on the date of the grant.

Neither Mr. Nussdorf nor Mr. Katz receives any compensation for his service as a director.

The following table sets forth certain information regarding the compensation of our nonemployee directors for their service as such for fiscal 2013:

Name	Fees Earned or Paid in Cash (\$)	Options Awards (\$)(1)(2)	Total (\$)
Carole Ann Taylor	32,500	17,612	50,112
Joseph Bouhadana	33,000	17,612	50,612

Glenn H. Gopman	27,500	17,612	45,112
Robert Mitzman	25,000	17,612	42,612

(1) Amounts listed represent the grant date fair value of the stock option awards in accordance with FASB ASC 718. These amounts represent the grant date fair value and do not represent the actual value that may be realized. For additional information regarding the assumptions used to calculate these amounts, see Note 12 to the consolidated financial statements included in Item 8 of this Form 10-K.

(2) As of February 1, 2014, Perfumania's nonemployee directors held outstanding stock options in the following amounts: Carole Ann Taylor (40,000); Joseph Bouhadana (42,000); Paul Garfinkle (41,500); Frederick E. Purches (81,665); Anthony D'Agostino (43,997); Esther Egozi Choukroun (43,997); Glenn H. Gopman (43,997) and Robert Mitzman (27,999).

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth information as of February 1, 2014, with respect to our compensation plans under which our equity securities are authorized for issuance.

The 2010 Plan provides for equity-based awards to the Company's employees, directors and consultants. Under the 2010 Plan, the Company initially reserved 1,000,000 shares of common stock for issuance. This number automatically increases on the first trading day of each fiscal year, beginning with fiscal 2011, by an amount equal to 1 1/2% of the shares of common stock outstanding as of the last trading day of the immediately preceding fiscal year. The Company previously had two stock option plans which expired on October 31, 2010. No equity awards have been granted after this date under these plans, although all options previously granted and outstanding will remain outstanding until they are either exercised or forfeited or they expire.

The following table shows the amount of common stock beneficially owned as of February 1, 2014 by: (a) each of our directors, (b) each of our current executive officers, (c) all of our directors and current executive officers as a group and (d) each person known by Perfumania to beneficially own more than 5% of Perfumania's outstanding common stock. Unless otherwise provided, the address of each holder is c/o Perfumania Holdings, Inc., 35 Sawgrass Drive, Suite 2, Bellport, New York 11713.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE
 Information responsive to this item is incorporated by reference from Notes 7 and 9 to our consolidated financial statements included in Item 8.

Perfumania's Related Party Transaction Policy

It is the Company's policy that all related party transactions be disclosed to the Audit Committee of the Board of Directors for review and approval. The Committee reviews all relationships and transactions reported to it in which the Company and any of its directors, executive officers or principal stockholders, or any of their immediate family members, are participants to determine whether such persons have a direct or indirect material interest. The Company's Chief Financial Officer is primarily responsible for the development and implementation of processes and controls to obtain information from such persons with respect to related person transactions and for then determining, based on the facts and circumstances, whether the Company or a related person has a direct or indirect material interest in the transaction. In the course of its review and approval or ratification of a disclosable related party transaction, the Audit Committee considers:

57

Table of Contents

- the nature of the related person's interest in the transaction;
- the material terms of the transaction, including, without limitation, the amount and type of transaction;
- the importance of the transaction to the related person;
- the importance of the transaction to Perfumania;
- whether the transaction would impair the judgment of a director or executive officer to act in Perfumania's best interest; and
- any other matters the Committee deems appropriate.

Any member of the Audit Committee who is a related person with respect to a transaction under review may not participate in the deliberations or vote respecting approval or ratification of the transaction, provided, however, that such director may be counted in determining the presence of a quorum at a meeting of the Committee that considers the transaction.

The Company's Board of Directors has determined that Anthony D'Agostino, Joseph Bouhadana, Esther Egozi Choukroun, Paul Garfinkle, Glenn H. Gopman, Robert Mitzman and Carole Ann Taylor are independent, as defined by Nasdaq Stock Market rules.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The aggregate fees billed by CohnReznick LLP for fiscal 2013 and 2012 are as follows.

Fees	Fiscal 2013	Fiscal 2012
Audit Fees (1)	\$540,000	\$625,000
Audit-Related Fees (2)	—	26,000
Tax Fees	—	—
All Other Fees	—	—
Total Fees	\$540,000	\$651,000

- “Audit Fees” consist of fees billed for professional services rendered in connection with the audit of our
- (1) consolidated annual financial statements and the review of our interim consolidated financial statements included in quarterly reports.
 - (2) Audit-related fees consists of fees billed in connection with the Merger with Parlux.

The Audit Committee considered and determined that the provision of services as described above was compatible with maintaining CohnReznick LLP's independence. The Audit Committee pre-approved the engagement of CohnReznick LLP for all professional services. The pre-approval process generally involves the full Audit Committee's evaluating and approving the particular engagement before the commencement of services.
