Chairman's
LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the most recent reporting period
your Fund continued to provide you with monthly income free from both federal
and California state income taxes, as well as with an attractive total return.
For more specific information about the performance of your Fund, please see the
Portfolio Managers' Comments and Performance Overview sections of this report.

With long-term interest rates still near historic lows, many investors have
begun to wonder whether these interest rates will rise, and whether that makes
this the time to adjust their holdings of fixed-income investments. No one knows
what the future will bring, which is why we think a well-balanced portfolio that
is structured and carefully monitored with the help of an investment
professional is an important component in achieving your long-term financial
goals. A well-diversified portfolio

"OUR MISSION CONTINUES TO BE TO ASSIST YOU AND YOUR FINANCIAL ADVISOR BY

FINANCIAL OBJECTIVES."

may actually help to reduce your overall investment risk, and we believe that a
municipal bond investment like your Nuveen California Fund can be an important
building block in a portfolio designed to perform well through a variety of
market conditions.

As in past reports, I'd also like to direct your attention to the inside front cover, which explains the quick and easy process to begin receiving these Fund reports via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering the investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

(NPC, NCL, NCU, NAC, NVX, NZH, NKL, NKX)

Portfolio Managers'
PERSPECTIVE

Portfolio managers Dan Solender and Scott Romans discuss the market environment, key investment strategies, and the annual performance of these eight Nuveen California Funds. With twelve years of investment experience, including eight at Nuveen, Dan assumed portfolio management responsibility for NPC and NCL in May 2004. Scott, who joined Nuveen in 2000, has managed NCU, NAC, NVX, NZH, NKL and NKX since January 2003

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE ANNUAL REPORTING PERIOD ENDED AUGUST 31, 2004?

Over the entire 12 months, the U.S. economy demonstrated evidence of improvement in a number of key areas, although the recovery slowed somewhat in the last five months of the period. After surging at the fastest pace in almost 20 years (7.4% annualized) during the third quarter of 2003, the U.S. gross domestic product (GDP) expanded at annualized rates of 4.2% in the fourth quarter of 2003 and 4.5% in the first quarter of 2004. However, during the second quarter of 2004 rising energy prices restrained consumer spending, which in turn impacted economic momentum and GDP growth in the second quarter moderated to 3.3% annualized.

Higher energy costs also fueled increased worries about the future rate of inflation. While rises in consumer prices were relatively tame over this fiscal year, the annualized rise of 3.7% in the Consumer Price Index for the eight months ended August 2004 was running well ahead of the 1.9% increase for all of 2003. During the second quarter of 2004 in particular, inflation concerns, combined with the general pace of economic recovery and continued geopolitical uncertainty, caused heightened volatility in the longer-term fixed-income markets.

This volatility can be seen in the yield of the Bond Buyer 25 Revenue Bond

Index, a widely followed long-term municipal bond index, over the course of this fiscal year (September 1, 2003 through August 31, 2004). At the start of the period, the index yield was 5.41%, still close to its mid-August 2003 peak of 5.50%. From there, the yield dropped steadily over the next seven months to 4.73% by mid-March 2004. As investors increasingly anticipated action by the Federal Reserve in response to a series of improved employment reports, the index yield began to climb again, rising more than 80 basis points over the next 12 weeks to 5.45%, before retreating to end August 2004 at 5.13%.

4

Between June and August 2004, the Fed moved twice to increase the short-term fed funds rate by a total of 50 basis points in an attempt to promote a sustainable economic recovery without increasing inflationary pressures. (On September 21, following the close of this reporting period, the Fed added another 25 basis points to its fed funds target rate, bringing it to 1.75%.) Historically, longer-term interest rates often have moved in the same direction when the Fed has adjusted short-term rates up or down.

Municipal supply nationwide continued to be relatively strong over the entire 12-month reporting period, with \$369.5 billion in new bonds coming to market. Looking just at 2004, new issue supply reached \$241 billion for the first eight months a decrease of 5% from January-August 2003's record \$254 billion.

HOW ABOUT MARKET AND ECONOMIC CONDITIONS IN CALIFORNIA?

The biggest story in California over this 12-month period was voters' approval of \$15 billion in economic recovery bonds (ERBs) in March 2004 and the state's subsequent issuance of \$11 billion of ERBs in May and June. This essentially resolved the cash flow crisis that was facing California on June 30 when the state's fiscal year ended. While many observers believe work remains to address the state's longer-term deficit problems, the ERBs improved the state's balance sheet liquidity and, combined with California's steadily recovering economy, led all three major credit rating agencies to upgrade the state's \$33 billion of outstanding general obligation debt. In May 2004, Moody's revised its rating of California GOs to A3 from Baal, followed in August 2004 by Standard & Poor's upgrade to A from BBB. S&P also removed California from its credit watch. (On September 7, following the end of this reporting period, Fitch moved its rating for California to A- from BBB.)

During the 12-month reporting period ended August 2004, issuers in California sold \$58.6 billion in new municipal bonds, down 8% from the previous 12-month period. For the first eight months of 2004, supply was slightly more plentiful, due in part to the ERBs, with issuance totaling \$42.7 billion, on par with January-August 2003 levels.

On July 31, 2004, the state enacted its \$105 billion fiscal 2005 budget, closing a \$14 billion structural gap through a combination of expenditure cuts, borrowing and fund transfers, but no new tax increases. While we believe this represents meaningful

5

progress toward fiscal balance in California, the potential still exists for smaller, but significant, deficits to re-emerge in fiscal 2006 and 2007 if no further action is taken by that time. This is partially the result of budget

compromises--which offered future concessions for current spending cuts--negotiated with various constituents, including education groups, unions representing state workers, and Native Americans. These deals could limit the state's ability to address future gaps. On a positive note, in July 2004, the state controller's office reported that fiscal 2004 general fund revenues totaled \$75.5 billion, an increase of 10% from fiscal 2003, and current economic data suggest that revenue growth assumptions in the 2005 budget are reasonable.

California continued to benefit from the stability provided by a diverse state economy. Overall, the general economic downturn of the past several years has had a limited impact, despite severe weakness in the Silicon Valley area which skewed economic and job performance statistics for the entire state. Recent indicators suggest that the employment picture in Silicon Valley is stabilizing, while the jobless rate in California as a whole dropped to 5.8% in August 2004, compared with 6.8% in August 2003. The national average in August 2004 was 5.4%. Personal income growth in California consistently has outpaced the national average over the past two years, which benefits the state budget since personal income taxes represent approximately 50% of the state's general fund revenues. California's housing market also continued to be very strong, both in the Bay area and Southern California, with tight inventories of homes for sale and foreclosure rates at the lowest level in 10 years.

IN THIS ENVIRONMENT, WHAT KEY STRATEGIES WERE USED TO MANAGE THE NUVEEN CALIFORNIA FUNDS DURING THE 12 MONTHS ENDED AUGUST 31, 2004?

As the market continued to anticipate increased interest rates, our major focus during this reporting period remained on efforts to find bonds that we thought represented good value or that we judged would have attractive total return potential under a variety of market scenarios. With the yield curve relatively steep during this period, our purchase activity focused on finding attractive securities in the long-intermediate part of the curve (i.e., bonds that mature in 15 to 20 years). In many cases, these bonds offered yields similar to those of longer-term bonds with less inherent interest rate risk and greater

6

total return prospects. We believe this yield curve positioning also may help the Funds produce more consistent returns over time as interest rates rise and fall.

Much of the municipal bond issuance in California during this fiscal year period came from the general tax obligation sector (GOs), and we increased each Fund's allocation to this sector, except NZH where we maintained our exposure at August 2003 levels. In NPC and NCL, our purchases in this sector included several insured school district GOs with premium coupons that we believed could help to mitigate the effects on the Funds' price and NAV performance if interest rates continued to rise. In NCU, NAC, NVX, NZH, NKL and NKX, we bought and occasionally sold California GOs in an attempt to take advantage of general market moves. As the credit ratings on noninsured California GOs were upgraded in recent months, their prices improved and this helped the performance of these six Funds.

We also found several opportunities in NAC, NVX and NZH to increase our weightings in nonrated land-secured securities, an area we research very carefully. This past fiscal year saw a sizable number of small, attractively priced land-secured deals come market, and we focused in particular on purchasing bonds with relatively higher coupons. In cases where our research showed the likelihood of strengthening credit situations, we were willing to buy bonds out further on the yield curve than our targeted range, as we believed

Edgar Filing: NUVEEN INSURED CALIFORNIA TAX FREE ADVANTAGE MUNICIPAL FUND - Form N-CSR

these bonds might increase in value if their issuing entities received ratings upgrades.

Some of these purchases were financed through the sale of lower-yielding bonds and bonds with relatively short call dates. In addition, we diversified credit risk at the issuer level by reducing concentrated positions in certain lower-rated and non-rated holdings in NCU, NAC, NVX, NZH, NKL and NKX. Since lower-rated bonds generally performed well over the 12 month period, we considered it a good time to take advantage of opportunities to sell these bonds at what we thought were very attractive prices. However, we were careful to balance these efforts against the goal of building and maintaining the Funds' income streams. Even as we sold some BBB rated bonds, we continued to add other BBB and sub-investment grade securities to the portfolios.

For the 12 months ended August 31, 2004, the annual total returns on net asset value (NAV) for all four noninsured Funds outperformed the return on the Lehman Brothers CA Tax-Exempt Bond Index. All of these Funds also surpassed the average return for their Lipper California peer group for this period. Among the insured Funds, the total returns on NAV for all four Funds outperformed the Lehman Brothers Insured CA Tax-Exempt Bond Index. NPC, NKL and NKX also performed better than their insured Lipper peer group, while NCL's return trailed this measure.

- 1 The Lehman Brothers California Tax-Exempt Bond Index is an unleveraged, unmanaged index comprising a broad range of investment-grade California municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The Lipper California Municipal Debt Funds category average is calculated using the returns of all leveraged and unleveraged closed-end exchange-traded funds in this category for each period as follows: 1 year, 30 funds; 5 years, 19 funds; and 10 years, 17 funds. Fund and Lipper returns assume reinvestment of dividends.
- 3 The Lehman Brothers Insured California Tax-Exempt Bond Index is an unleveraged, unmanaged index comprising a broad range of insured California municipal bonds. Results for the Lehman index do not reflect any expenses.
- 4 The Lipper Insured California Municipal Debt Funds category average is calculated using the returns of all closed-end exchange-traded funds in this category for each period as follows: 1 year, 13 funds; 5 years, 7 funds; and 10 years, 6 funds. Fund and Lipper returns assume reinvestment of dividends.

8

One of the primary factors benefiting the 12-month performance of each of these Funds relative to that of the unleveraged Lehman indexes was their use of financial leverage. While leveraging can add volatility to the Funds' NAVs and share prices, especially when substantial shifts in interest rates occur, this strategy also can provide opportunities for additional income and total return for common shareholders when short-term interest rates remain low and long-term rates are relatively steady or falling.

While no single factor explains all of the differences in the Funds' performances relative to each other, several Funds did benefit more than others from their duration, sector or credit quality positioning over this period. For example, the performance of NZH was helped by the fact that it is the newest of the four uninsured Funds and, consequently, had a substantially lower exposure to shorter-duration bonds than the other three uninsured Funds over the 12 months - a time when shorter-duration bonds tended to underperform longer-duration bonds. NCU did well because of its relatively large sector allocations to bonds backed by revenues from the 1998 master tobacco settlement agreement and to unenhanced state general obligation bonds. Both of these

sectors were among the strongest performers for the Fund.

Relative to the other uninsured Funds, NAC had a higher weighting in bonds with shorter durations, and this hurt the Fund relative to the three other uninsured Funds. NAC also had a more modest exposure to tobacco settlement bonds, which also affected its relative performance. NVX had a relatively lower exposure to state general obligation bonds and a relatively higher weighting in multifamily housing bonds, which generally were weaker performers over the period. The returns of NAC, NVX and NZH were also boosted by the strong performance of their nonrated land-secured holdings.

Looking at the four insured Funds, NKX and NKL were helped by the fact that they can maintain an exposure of up to 20% in non-insured bond, because lower-rated bonds tended to significantly outperform AAA-rated insured bonds over this fiscal year period. In addition, NCL had a number of housing bond calls, which slightly impacted its performance.

9

HOW ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at or near historically low levels throughout this reporting period, the leveraged structures of these eight Funds continued to support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. (The Fund's leverage themselves by issuing MuniPreferred shares, which pay dividends based on current short-term notes and do not bear the risk of principal loss or gain.) During periods of low short-term rates, the Funds generally pay relatively lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. During this reporting period, this strategy enabled us to increase the dividends of NPC and NAC, while helping to maintain the dividends of NCL, NCU, NVX, NZH, NKL and NKX throughout the period.

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of August 31, 2004, all of the Funds in this report had positive UNII balances except NKX, which had a negative UNII balance.

As of August 31, 2004, NCL was trading at a slight premium to its net asset value, while the other seven Funds were trading at share prices below their NAVs. In each case, the Funds were trading roughly in line with their average discount across the entire 12-month period.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF AUGUST 31, 2004?

Given the current geopolitical and economic climate, we continued to believe that maintaining strong credit quality was an important requirement. As of August 31, 2004, the four uninsured Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 70% in NVX to 67% in NCU, 63% in

10

NZH and 62% in NAC. NPC and NCL continued to be 100% invested in insured and/or U.S. guaranteed securities. NKL and NKX, which are allowed to invest up to 20% in uninsured investment-grade quality securities, held 80% and 82% of their portfolios, respectively, in insured bonds as of August 31, 2004.

At the end of August 2004, potential call exposure for these Funds during 2004-2005 ranged from 17% in NCU, 7% in NCL, 5% in NPC, 2% in NZH and NAC, 1% in NVX, and 0% in NKL and NKX. For all of the Funds, the number of actual bond calls depends largely on market interest rates.

All of the bonds in the portfolio are either covered by Original Issue Insurance, Secondary Market Insurance or Portfolio Insurance, or are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, any of which ensure the timely payment of principal and interest.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares.

* Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.

** Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's or Moody's rating.

*** Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.

(WI) Security purchased on a when-issued basis.

+ Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.

At least 80% of the Fund's net assets (including net assets applicable to Preferred shares) are invested in municipal securities that are either covered by Original Issue Insurance, Secondary Market Insurance or Portfolio Insurance

which ensures the timely payment of principal and interest. Up to 20% of the Fund's net assets (including net assets applicable to Preferred shares) may be invested in municipal securities that are (i) either backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities (also ensuring the timely payment of principal and interest), or (ii) municipal bonds that are rated, at the time of investment, within the four highest grades (Baa or BBB or better by Moody's, S&P or Fitch) or unrated but judged to be of comparable quality by the Adviser.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares.
- (2) Effective date represents the date on which both the Fund and counterparty commence interest payments on each forward swap contract.
- * Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.
- ** Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's or Moody's rating.
- *** Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.
- (PLG) Portion of security, with an aggregate market value of \$420,520, has been pledged to collateralize the net payment obligations under forward swap contracts.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The California Funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Insured California Premium Income Municipal Fund, Inc. (NPC), Nuveen Insured California Premium Income Municipal Fund 2, Inc. (NCL), Nuveen California Premium Income Municipal Fund (NCU), Nuveen California Dividend Advantage Municipal Fund (NAC), Nuveen California Dividend Advantage Municipal Fund 2 (NVX), Nuveen California Dividend Advantage Municipal Fund 3 (NZH), Nuveen Insured California Dividend Advantage Municipal Fund (NKL) and Nuveen Insured California Tax-Free Advantage Municipal Fund (NKX). Common shares of Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL) and California Dividend Advantage (NAC) are traded on the New York Stock Exchange while Common shares of California Premium Income (NCU), California Dividend Advantage 2 (NVX), California Dividend Advantage 3 (NZH), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Prior to the commencement of operations of Insured California Tax-Free Advantage (NKX), the Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and the recording of the organization expenses (\$11,500) and its reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide current income exempt from both regular federal and California state income taxes, and in the case of Insured California Tax-Free Advantage (NKX) the alternative minimum tax applicable to individuals, by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within the state of California.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At August 31, 2004, Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL), California Dividend Advantage 2 (NVX), and California Dividend Advantage 3 (NZH) had outstanding when-issued purchase commitments of \$1,285,608, \$2,090,420, \$2,796,034 and \$2,106,240, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

60

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and California state income taxes, and in the case of Insured California Tax-Free Advantage (NKX) the alternative minimum tax applicable to individuals, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt

income dividends paid during the fiscal year ended August 31, 2004, have been designated Exempt Interest Dividends. Net realized capital gains and ordinary income distributions made by the Funds are subject to federal taxation.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

Insured California Tax-Free Advantage (NKX) issued the Preferred shares listed above on January 17, 2003.

Insurance

Insured California Premium Income (NPC) and Insured California Premium Income 2 (NCL) invest in municipal securities which are either covered by insurance or are backed by an escrow or trust account containing sufficient U.S. Government or U.S. Government agency securities, both of which ensure the timely payment of principal and interest.

Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) invest at least 80% of their net assets (including net assets applicable to Preferred shares) in municipal securities that are covered by insurance. Each Fund may also invest up to 20% of its net assets (including net assets applicable to Preferred shares) in municipal securities which are either (i) backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, or (ii) municipal bonds that are rated, at the time of investment, within the four highest grades (Baa or BBB or better by Moody's, S&P or Fitch) or unrated but judged to be of comparable quality by the Adviser.

61

Notes to
FINANCIAL STATEMENTS (continued)

Each insured municipal security is covered by Original Issue Insurance, Secondary Market Insurance or Portfolio Insurance. Such insurance does not guarantee the market value of the municipal securities or the value of the Funds' Common shares. Original Issue Insurance and Secondary Market Insurance remain in effect as long as the municipal securities covered thereby remain outstanding and the insurer remains in business, regardless of whether the Funds ultimately dispose of such municipal securities. Consequently, the market value of the municipal securities covered by Original Issue Insurance or Secondary Market Insurance may reflect value attributable to the insurance. Portfolio Insurance, in contrast, is effective only while the municipal securities are held by the Funds. Accordingly, neither the prices used in determining the market value of the underlying municipal securities nor the Common share net asset value of the Funds include value, if any, attributable to the Portfolio Insurance. Each policy of the Portfolio Insurance does, however, give the Funds the right to obtain permanent insurance with respect to the municipal security covered by the Portfolio Insurance policy at the time of its sale.

Forward Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net earnings. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment. The amount of the payment obligation is based on the notional or nominal amount of the forward swap contract. The Funds may close out a contract prior to the effective date. When a forward swap is terminated, it does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash. The fund intends to, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment. To minimize such credit risk, all counterparties are required to segregate collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain. Reciprocally, when any

of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to segregate assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss. The Funds help reduce the credit risks associated with forward swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the swap counterparties.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments, LLC has agreed to pay all Common share offering costs (other than the sales load) that exceed \$.03 per Common share for Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX). Insured California Dividend Advantage's (NKL) and Insured California Tax-Free Advantage (NKX) share of Common share offering costs (\$449,461 and \$176,250, respectively) were recorded as a reduction of the proceeds from the sale of Common shares.

Costs incurred by Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) in connection with their offering of Preferred shares (\$1,372,225 and \$1,044,953, respectively) were recorded as a reduction to paid-in surplus.

Indemnifications

Under the Funds' organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

Insured California Tax-Free Advantage (NKX) elected to defer net realized losses from investments incurred from November 1, 2003 through August 31, 2004 ("post-October") losses in accordance with Federal income tax regulations. Post-October losses of \$59,857 were treated as having arisen on the first day of the following fiscal year.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Directors/Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all funds assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .006% as of September 30, 2004.

Edgar Filing: NUVEEN INSURED CALIFORNIA TAX FREE ADVANTAGE MUNICIPAL FUND - Form N-CSR

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

For Managed Assets over \$91 billion (2)	.1400

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means

the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

Each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

FINANCIAL STATEMENTS (continued)

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of

Edgar Filing: NUVEEN INSURED CALIFORNIA TAX FREE ADVANTAGE MUNICIPAL FUND - Form N-CSR

Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first ten years of California Dividend Advantage's (NAC) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts and for the time periods set forth below:

Reinvest Automatically
 EASILY AND CONVENIENTLY

SIDEBAR TEXT: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS
 DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on the dividends or distributions awaiting reinvestment. Because the market price may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public References Section at 450 Fifth Street NW, Washington, D.C. 20549.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

LEVERAGE-ADJUSTED DURATION: Duration is a measure of the sensitivity of a bond or bond fund's value to changes when interest rates change. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at www.nuveen.com/etf.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors determined that the registrant had at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert was William E. Bennett, who was "independent" for purposes of Item 3 of Form N-CSR.

Although Mr. Bennett served as the audit committee financial expert during the reporting period, he unexpectedly resigned from the Board effective April 30, 2004. Since that time, the Audit Committee determined that Jack B. Evans, the Chairman of the Audit Committee, qualifies as an audit committee financial expert and recommended to the full Board that he be designated as such. On July 26, 2004, the full Board voted to so designate Mr. Evans. Accordingly for this reporting period, the registrant did not have a designated "audit committee financial expert" from April 30, 2004 to July 26, 2004. Mr. Evans, who is independent for purposes of Item 3 of Form N-CSR, served as the registrant's audit committee financial expert from July 26, 2004 to the end of the reporting period on August 31, 2004.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer of First Chicago Corporation and its principal subsidiary, The First National Bank of Chicago. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set the level of reserves against the credit portfolio; and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients. Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

Mr. Evans was formerly President and Chief Operating Office of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer,

Edgar Filing: NUVEEN INSURED CALIFORNIA TAX FREE ADVANTAGE MUNICIPAL FUND - Form N-CSR

Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

NUVEEN INSURED CALIFORNIA TAX-FREE ADVANTAGE MUNICIPAL FUND

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

August 31, 2003	\$10,500	\$ 0	\$
Percentage approved pursuant to pre-approval exception	N/A	0%	

The above "Tax Fees" were billed for professional services for tax advice, tax

compliance and tax planning.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE
ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Advisory Corp. ("NAC" or the "Adviser"), and any entity controlling, controlled by or under common control with NAC ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to

the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable at this time.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Schedule I in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In the event of a vacancy on the Board, the nominating and governance committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Vice President for Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The nominating and governance committee sets appropriate standards and requirements for nominations for new directors and reserves the right to interview all candidates and to make the final selection of any new directors.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because posted on registrant's website at www.nuveen.com/etf.

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR

240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
