Portfolio Manager's  
COMMENTS

Portfolio manager Paul Brennan examines economic and municipal market conditions at both the national and state levels, key investment strategies, and the annual performance of these seven Nuveen Funds. Paul, who has 15 years of investment experience, has managed NMY and NPV since 1999; NFM, NZR, NGB, and NNB since 2001; and NWI since 2002.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE ANNUAL REPORTING PERIOD ENDED MAY 31, 2006?

During this reporting period, we saw a general increase in interest rates across the yield curve, although rates at the long end of the curve remained more stable than short-term rates during much of the period. Between June 1, 2005 and May 31, 2006, the Federal Reserve announced eight increases of 0.25% each in the fed funds rate, raising this short-term target by 200 basis points from 3% to 5%. By comparison, the yield on the benchmark 10-year U.S. Treasury note ended May 2006 at 5.11%, up from 4.01% 12 months earlier, while the yield on the Bond Buyer 25 Revenue Bond Index, a widely followed measure of longer-term municipal market rates, was 5.22% at the end of May 2006, an increase of 44 basis points from the beginning of June 2005. As interest rates increased, bond valuations generally declined, and the yield curve flattened as shorter-term rates

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

approached the levels of longer-term rates.

Even with rising interest rates, increased energy prices, and indications of slowing momentum in the manufacturing sector, the economy remained resilient, with a healthy pattern of growth. After expanding at a rate of 3.3% in the second quarter of 2005, the U.S. gross domestic product (GDP) grew by 4.1% in the third quarter before slowing to 1.7% in the fourth quarter (all GDP numbers annualized). In the first quarter of 2006, the GDP rebounded sharply to 5.6%, fueled by upturns in consumer and federal spending and accelerated business investment in equipment. The overall employment picture remained positive, with national unemployment at 4.6% in May 2006, down from 5.1% in May 2005. Despite an increase in inflation expectations, the year-over-year increase in the Consumer Price Index as of May 2006 was 4.2%. However, during the first five months of 2006, the pace of inflation picked up noticeably, rising at a rate of 5.2% annualized, compared with 3.4% for all of 2005.

Over the 12 months ended May 2006, municipal bond supply nationwide remained strong, as \$403.6 billion in new securities came to market, up 6% from the previous 12 months. However, following record levels of issuance in calendar year 2005, we saw a sharp decline in supply during the first five months of 2006, when municipal issuance totaled \$133.8 billion, off 19% from the same period in 2005. A major factor in 2006's decline in supply was the substantial reduction in pre-refunding volume, which dropped 56% from

4

last year's levels as rising interest rates made advance refundings less economically attractive to issuers. Overall, demand for municipal bonds, especially those offering higher yields, continued to be strong and broad-based, with retail investors, property and casualty insurance companies, and hedge funds--all participating in the market.

HOW WERE THE ECONOMIC AND MARKET ENVIRONMENTS IN MARYLAND AND VIRGINIA DURING THIS PERIOD?

The Maryland economy continued to exhibit healthy growth during this reporting period, driven by the government sector and professional and business services, education, and healthcare. Due to the proximity of Washington D.C., the federal government continued to play a dominant role in the state's economy. Maryland also relied heavily on the healthcare and higher education sectors, with Johns Hopkins Hospital, Johns Hopkins University, and the University of Maryland Health System ranking among the state's largest employers. Maryland has below-median exposure to the manufacturing sector, which has been a positive factor over the past few years as manufacturing continued to struggle. In May 2006, Maryland's jobless rate was 3.8%, down from 4.2% in May 2005, putting unemployment in the state close to its pre-recession level of 3.6% in 2000. As was the case in many states and municipalities, an improving economy resulted in tax revenues that are exceeding projections. By the end of fiscal 2006, Maryland's general fund surplus was expected to total \$1.2 billion. The \$12.8 billion fiscal 2007 state budget, which provided additional funding for schools, healthcare, and higher education, represented a conservative 5% increase over fiscal 2006. As of May 2006, Moody's and Standard & Poor's maintained their ratings on Maryland general obligation (GO) debt at Aaa/AAA. During the 12 months ended May 31, 2006, issuance in the state totaled \$6.8 billion, an increase of 30% over the previous 12-month period. For January-May 2006, contrary to national trends, Maryland saw \$2.4 billion in new municipal paper, up 10% from the first five months of 2005. Plans call for Maryland to issue an additional \$690 million in long-term GO debt in fiscal 2007. Overall, Maryland's

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

debt levels were above the national medians. According to Moody's, Maryland ranked 15th among the 50 states in tax-supported debt and 17th in terms of debt per capita.

With a strong and diverse economic base, highly skilled work force, and relatively low business costs, Virginia's economy continued to perform well during this period, led by the government sector and professional and business services. In 2005, Virginia ranked as the seventh fastest growing state in the nation, with a gross state product of \$5.6 billion compared with the national average of \$3.5 billion. As in Maryland, Virginia's proximity to Washington D.C. meant that federal spending, especially in the defense sector, continued to be an important factor in the commonwealth's economy, with the Hampton Roads area

5

serving as home to the nation's largest concentration of military installations. Technology also played an increasing role in Virginia's economy as manufacturing, especially in the south and southwestern portions of the commonwealth, continued to decline. In May 2006, Virginia's unemployment rate was the second lowest in the nation at 3.0%, down from 3.5% in May 2005. The commonwealth's biennium budget for 2005-2006 restored structural balance using a variety of actions, including sales and cigarette tax increases as well as expenditure reductions. Revenues for fiscal 2006 were projected to come in \$124 million ahead of plan, and Virginia's rainy day fund has been restored to \$664 million. In February 2006, Moody's reconfirmed its rating on Virginia GO debt at Aaa with a stable outlook, and S&P confirmed its AAA rating with a stable outlook. During the 12 months ended May 31, 2006, issuance in Virginia totaled \$9.9 billion, an increase of 26% over the previous 12 months. However, the first five months of 2006 saw issuance fall off sharply to \$1.7 billion, down 63% from the first five months of 2005. Some of this decline was due to the fact that 2005's numbers included a large tobacco deal issued by Virginia in May 2005. According to Moody's, Virginia's per capita debt was lower than the national median.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THIS REPORTING PERIOD?

As interest rates rose and the yield curve flattened during this 12-month period, we continued to emphasize careful duration management, part of which included efforts to more closely align the duration and yield curve positioning of these Funds. Strategically, our purchase activity focused on attractively priced bonds maturing in 10 to 20 years. As the curve continued to flatten and the incremental yield on bonds with longer maturities decreased, we believed that bonds in the 10-year to 20-year range of the curve generally offered reward opportunities more commensurate with their risk levels. However, at various times during this 12-month period, we found that bonds available in longer parts of the yield curve offered more favorable characteristics, and we actively pursued these opportunities.

To help us maintain the Funds' durations within our preferred strategic range, we were also selectively selling holdings with shorter durations, such as bonds priced to short call dates, bonds that were currently callable, and short-dated pre-refunded bonds. Selling these shorter duration bonds and reinvesting further out in the 10-year to 20-year part of the yield curve also helped to improve the Funds' overall call protection profile.

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

- 1 Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.

6

With yields rising during this period, we also found some opportunities to sell a few of our holdings that were purchased when yields were lower and replace them with similar, newer credits that yielded comparatively more. This process allowed us to maintain the Funds' current portfolio characteristics while strengthening their income potential.

In looking for potential purchase candidates, we kept an opportunistic eye toward all types of issuance that we believed could add value to the Funds' portfolios. Overall, portfolio activity was relatively light. As previously mentioned, while supply in Maryland remained strong over the period, Virginia saw a sharp decline in municipal issuance during the first five months of 2006. Since both Maryland and Virginia are high-quality states, much of the new supply was highly rated and/or insured, and the majority of our new purchases were higher-rated credits. During the latter part of this period, we took advantage of opportunities to add housing bonds across all of these Funds, which benefited their performance for the period.

We also continued to emphasize maintaining the Funds' weightings of bonds rated BBB or lower and non-rated bonds. However, tighter supply in Virginia during 2006 meant fewer interesting lower-rated credit opportunities than usual in that market. While we did find some attractive lower-rated issues to add to the Maryland Funds, the Virginia Funds' allocations of lower quality bonds generally remained stable over this period. Overall, both the Maryland and Virginia Funds continued to have good exposure to this market segment.

Over the past 12 months, our duration management strategies also included the use of forward interest rate swaps, a type of derivative financial instrument, in NFM, NZR, NWI, and NNB. As discussed in our last shareholder report, we began using these swaps in late 2004 in an effort to reduce the interest rate risk in these four Funds. These hedges were not an attempt to profit from correctly predicting the timing and direction of interest rate movements. Instead, our sole objective was to reduce the durations (and resulting pricing sensitivity) of these Funds without having a negative impact on their income streams or common share dividends over the short term. The hedging strategy was effective in helping to reduce the net asset value (NAV) volatility of NFM, NZR, and NNB, and we removed the hedges from NFM in June 2005 and from NZR and NNB during the first quarter of 2006. During this period, the hedges performed as expected.

For additional information, see the individual Performance Overview for your Fund in this report.

For the 12 months ended May 31, 2006, the total return on NAV for NFM exceeded the return on the Lehman Brothers Municipal Bond Index. The remaining six Funds underperformed this benchmark. NFM and NGB outperformed and matched, respectively, the average return for the Lipper Other States peer group, while the other five funds trailed the Lipper average. Shareholders should note that the performance of the Lipper Other States category represents the overall average of returns for funds from 10 different states with a wide variety of municipal market conditions, making direct comparisons less meaningful.

One factor that affected the annual performance of these Funds, especially in relation to that of the unleveraged Lehman Brothers Municipal Bond Index, was the use of financial leverage. Although leveraging provides opportunities for additional income and total returns for common shareholders when interest rates fall or remain consistently low, this benefit is reduced when interest rates rise. With the increases in interest rates during this period, the decline in value of the bonds in the underlying portfolios of these Funds was exacerbated by the effects of leveraging. During periods of low short-term rates, these Funds generally pay lower dividends to their MuniPreferred shareholders, which

8

can leave more earnings to support common share dividends. Conversely, when short-term interest rates rise, as they did during this reporting period, the Funds' borrowing costs also rise, impacting the Funds' income streams and total returns. However, we remain convinced that, over the long term, the use of financial leverage should work to the benefit of the Funds. This is demonstrated by the five-year and ten-year return performance--both absolute and relative--of NMY, NFM, NPV, and NGB.

Other influences on the Funds' total returns for this period included market factors such as rising interest rates and credit spread tightening as well as fund-specific factors such as yield curve and duration positioning, allocations to lower-rated credits, sector weightings, and pre-refunding activity.

As the yield curve continued to flatten over the course of this period, yield curve and duration positioning played important roles in the Funds' performances. On the whole, bonds in the Lehman Brothers Municipal Bond Index with maturities between 6 and 8 years were the most adversely impacted by recent changes in the yield curve, and they underperformed longer bonds (those with maturities of at least 22 years) by more than 200 basis points. Yield curve positioning or, more specifically, greater exposure to the longer parts of the yield curve that performed well helped the performance of these Funds during this period. However, NPV had less exposure to the longest part of the curve, which hurt its performance relative to the other Funds.

With bonds rated BBB or lower and nonrated bonds generally outperforming other credit quality sectors during this period, all of these Funds benefited from their allocations of lower-quality credits. The performance of this sector was largely the result of investor demand for the higher yields typically associated with lower-quality bonds, which drove up their value and tightened credit spreads. As of May 31, 2006, the Maryland Funds had weightings of BBB, sub-investment grade and nonrated bonds ranging from 16% in NMY to 17% in NZR and 19% in NFM and NWI, while the Virginia Funds had allocations of 10% in NPV, 11% in NNB, and 14% in NGB. NPV's lighter exposure to bonds in this market segment, especially to bonds rated BB and lower, detracted from its 12-month performance.

Among the lower-rated holdings making contributions to the Funds' total returns for this period were industrial development revenue and resource recovery bonds, healthcare (including hospitals), and tobacco, all of which ranked among the top performing revenue sectors in the Lehman Brothers Municipal Bond Index.

Housing bonds were also among some of the best performing credits in the Funds' portfolios, as rising interest rates lessened the incidence and impact of prepayments and bond

9

calls. Both multifamily and single-family housing bonds were positive contributors across all of these Funds. With a weighting of 16%, NFM, which took advantage of the ample opportunities to purchase housing bonds during the Fund's initial investment period in 2001, had the highest exposure to these credits,

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

while NPV had the lowest, at 5%.

During this period, we continued to see a number of advance refundings<sup>4</sup>, which benefit the Funds through price appreciation and enhanced credit quality. As the yield curve flattened, more lower coupon bonds were being pre-refunded, which meant that, in general, the positive impact from refinancings was less than in the previous reporting period.

While advance refundings generally enhanced performance for this 12-month period, the rising interest rate environment--especially at the short end of the yield curve--meant that the Funds' holdings of older, previously pre-refunded bonds tended to underperform the general municipal market, due primarily to the shorter effective maturities of these bonds. This was especially true in NMY and NZR. Other sectors that tended to underperform the general municipal market included general obligation bonds and special tax-backed issues.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF MAY 31, 2006?

We continued to believe that maintaining overall strong credit quality was an important technique. As of May 31, 2006, all seven of these Funds continued to offer excellent overall credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 67% in NFM to 73% in NMY, 74% in NZR and NWI, and 78% in NGB to 82% in NNB and 83% in NPV.

As of May 31, 2006, potential call exposure for the period from June 2006 through the end of 2007 ranged from zero in NNB, 2% in NFM, NZR, NWI, and NGB, and 4% in NPV to 15% in NMY. In general, NMY continued to hold many of these callable bonds during the period, in part due to their performance potential. The number of actual bond calls in all of these Funds depends largely on future market interest rates.

4 Advance refundings, also known as pre-refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.

10

### Dividend and Share Price INFORMATION

As previously noted, all of the Funds in this report use leverage to potentially enhance opportunities for additional income for common shareholders. During periods of rising short-term interest rates, as was the case during this reporting period, the Funds' borrowing costs also rise, reducing the extent of the benefits of leveraging. The Funds' income streams were also impacted as the proceeds from older, higher-yielding bonds that matured or were called were reinvested into bonds generally offering lower yields, especially in the older Funds. These factors resulted in one monthly dividend reduction in NFM, NGB, and NNB and two in NMY, NZR, and NPV over the 12-month period ended May 31, 2006. The dividend of NWI remained stable throughout this reporting period, due in part to the hedging strategy in place in this Fund.

Due to capital gains generated by normal portfolio activity, common shareholders of the following Funds received capital gains and net ordinary income distributions at the end of December 2005, as follows:

Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

	LONG-TERM CAPITAL GAINS (PER SHARE)	ORDINARY INCOME (PER SHARE)
NMY	\$0.0245	\$0.0069
NZR	\$0.0275	\$0.0001
NPV	\$0.2431	--
NNB	\$0.0666	--

These distributions, which represented an important part of the total returns of these four Funds for this period, were generated by bond calls and sales of appreciated securities. This had a slight negative impact on the earning power per common share of these Funds and was a minor factor in the common share dividend reductions noted above.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of May 31, 2006, all of the Funds in this report except NWI had a positive UNII balance for both financial statement and tax purposes. NWI had a positive UNII balance for tax purposes, and a negative UNII balance for financial statement purposes.

At the end of the reporting period, the Funds' share prices were trading at premiums or discounts to their NAVs as shown in the accompanying chart:

	5/31/06 PREMIUM/DISCOUNT	12-MONTH AVERAGE PREMIUM/DISCOUNT
NMY	+0.35%	+2.31%

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Maryland Premium Income Municipal Fund, Nuveen Maryland Dividend Advantage Municipal Fund, Nuveen Maryland Dividend Advantage Municipal Fund 2, Nuveen Maryland Dividend Advantage Municipal Fund 3, Nuveen Virginia Premium Income Municipal Fund, Nuveen Virginia Dividend Advantage Municipal Fund and Nuveen Virginia Dividend Advantage Municipal Fund 2 (the Funds) as of May 31, 2006, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of May 31, 2006, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Maryland Premium Income Municipal Fund, Nuveen Maryland Dividend Advantage Municipal Fund, Nuveen Maryland Dividend Advantage Municipal Fund 2, Nuveen Maryland Dividend Advantage Municipal Fund 3, Nuveen Virginia Premium

=====

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's or Moody's rating. Ratings below BBB by Standard & Poor's Group or Baa by Moody's Investor Service, Inc. are considered to be below investment grade.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) The issuer has received a preliminary adverse determination from the Internal Revenue Service (the "IRS") regarding the tax-exempt status of the bonds' coupon payments. The Fund will continue to treat coupon payments as tax-exempt income until such time that it is formally determined that the interest on the bonds should be treated as taxable.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's or Moody's rating. Ratings below BBB by Standard & Poor's Group or Baa by Moody's Investor Service, Inc. are considered to be below investment grade.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) The issuer has received a preliminary adverse determination from the Internal Revenue Service (the "IRS") regarding the tax-exempt status of the bonds' coupon payments. The Fund will continue to treat coupon payments as tax-exempt income until such time that it is formally determined that the interest on the bonds should be treated as taxable.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Maryland Premium Income Municipal Fund (NMY), Nuveen Maryland Dividend Advantage Municipal Fund (NFM), Nuveen Maryland Dividend Advantage Municipal Fund 2 (NZR), Nuveen Maryland Dividend Advantage Municipal Fund 3 (NWI), Nuveen Virginia Premium Income Municipal Fund (NPV), Nuveen Virginia Dividend Advantage Municipal Fund (NGB) and Nuveen Virginia Dividend Advantage Municipal Fund 2 (NNB). Common shares of Maryland Premium Income (NMY) and Virginia Premium Income (NPV) are traded on the New York Stock

Exchange while Common shares of Maryland Dividend Advantage (NFM), Maryland Dividend Advantage 2 (NZR), Maryland Dividend Advantage 3 (NWI), Virginia Dividend Advantage (NGB) and Virginia Dividend Advantage 2 (NNE) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

### Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Trustees. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. Prices of forward swap contracts are also provided by an independent pricing service approved by each Fund's Board of Trustees. If the pricing service is unable to supply a price for a municipal bond or a forward swap contract, each Fund may use a market price or fair market value quote provided by a major broker/dealer in such investments. If it is determined that the market price or fair market value for an investment is unavailable or inappropriate, the Board of Trustees of the Funds, or its designee, may establish a fair value for the investment. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.

### Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At May 31, 2006, there were no such outstanding purchase commitments in any of the Funds.

### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended May 31, 2006, have been designated Exempt Interest Dividends. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

65

Notes to

FINANCIAL STATEMENTS (continued)

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

Forward Swap Transactions

The Funds are authorized to invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net asset value. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and would increase or decrease in value based primarily on the extent to which long-term interest rates for bonds having a maturity of the swaps' termination date were to increase or decrease. The Funds may close out a contract prior to the effective date, at which point a realized gain or loss would be recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To minimize such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the

Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the predetermined threshold amount.

Futures Contracts

The Funds may invest in futures contracts for the purposes of hedging against changes in values of a Fund's securities or changes in the prevailing levels of interest rates. Upon entering into a futures contract, a Fund is required to deposit with the broker an amount of cash or liquid securities equal to a specified percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by a Fund each day, depending on the daily fluctuation of the value of the contract.

During the period the futures contract is open, changes in the value of the contract are recognized as an unrealized gain or loss by "marking-to-market" on a daily basis to reflect the changes in market value of the contract. When the contract is closed, a Fund records realized gains or losses equal to the difference between the value of the contract on the closing date and value of the contract when originally entered into. As of May 31, 2006, there were no outstanding futures contracts in any of the Funds.

Risks of investments in futures contracts including the possible adverse movement of the securities or indices underlying the contracts, the possibility that there may not be a liquid secondary market for the contracts and/or that a

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

change in the value of the contract may not correlate with a change in the value of the underlying securities.

### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

### Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

## 5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., ("Nuveen"), and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MARYLAND PREMIUM INCOME (NMY) VIRGINIA PREMIUM INCOME (NPV) FUND-LEVEL FEE RATE
For the first \$125 million	.4500%
For the next \$125 million	.4375
For the next \$250 million	.4250
For the next \$500 million	.4125
For the next \$1 billion	.4000
For the next \$3 billion	.3875
For net assets over \$5 billion	.3750

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MARYLAND DIVIDEND ADVANTAGE (NFM) MARYLAND DIVIDEND ADVANTAGE 2 (NZR) MARYLAND DIVIDEND ADVANTAGE 3 (NWI) VIRGINIA DIVIDEND ADVANTAGE (NGB) VIRGINIA DIVIDEND ADVANTAGE 2 (NNB) FUND-LEVEL FEE RATE

For the next \$1 billion	.4000
For net assets over \$2 billion	.3750

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of May 31, 2006, the complex-level fee rate was .1886%.

For Managed Assets over \$91 billion (2) .1400

- =====
- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
  - (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to their Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

ANNUAL INVESTMENT  
MANAGEMENT AGREEMENT  
APPROVAL PROCESS

The Board of Trustees is responsible for overseeing the performance of the investment adviser to the Funds and determining whether to continue the advisory arrangements. At a meeting held on May 23-25, 2006 (the "May Meeting"), the Board of Trustees of the Funds, including the independent Trustees, unanimously approved the continuance of the Investment Management Agreement between each Fund and NAM (the "Fund Adviser").

THE APPROVAL PROCESS

During the course of the year, the Board received a wide variety of materials relating the services provided by the Fund Adviser and the performance of the Fund. To assist the Board in its evaluation of the advisory contract with the Fund Adviser at the May Meeting, the independent Trustees received extensive materials in advance of their meeting which outlined, among other things:

- o the nature, extent and quality of services provided by the Fund Adviser;
- o the organization and business operations of the Fund Adviser, including the responsibilities of various departments and key personnel;
- o the Fund's past performance, the Fund's performance compared to funds of similar investment objectives compiled by an independent third party and to customized benchmarks;
- o the profitability of the Fund Adviser and certain industry profitability analyses for unaffiliated advisers;
- o the expenses of the Fund Adviser in providing the various services;
- o the advisory fees (gross and net management fees) and total expense ratios of the Fund, including comparisons of such fees and expenses with those of comparable, unaffiliated funds based on information and data provided by Lipper (the "Peer Universe") as well as compared to a subset of funds within the Peer Universe (the "Peer Group") to the respective Fund (as applicable);
- o the advisory fees the Fund Adviser assesses to other types of investment products or clients;

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

- o the soft dollar practices of the Fund Adviser, if any;
- o from independent legal counsel, a legal memorandum describing, among other things, the duties of the Trustees under the Investment Company Act of 1940 (the "1940 Act") as well as the general principles of relevant state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; an adviser's fiduciary duty with respect to advisory agreements and compensation; the standards used by courts in determining whether investment company boards of directors have fulfilled their duties and factors to be considered by the board in voting on advisory agreements.

At the May Meeting, the Fund Adviser made a presentation to and responded to questions from the Board. After the presentations and after reviewing the written materials, the independent Trustees met privately with their legal counsel to review the Board's duties in reviewing advisory contracts and consider the renewal of the advisory contracts. It is with this background that the Trustees considered the advisory contract with the Fund Adviser. The independent Trustees, in consultation with independent counsel, reviewed the factors set out in judicial decisions and SEC directives relating to the renewal of advisory contracts. As outlined in more detail below, the Trustees considered all factors they believed relevant with respect to each Fund, including the following: (a) the nature, extent and quality of the services to be provided by the Fund Adviser; (b) the investment performance of the Fund and the Fund Adviser; (c) the costs of the services to be provided and profits to be realized by the Fund Adviser and its affiliates from the relationship with the Fund; (d) the extent to which economies of scale would be realized as the Fund grows; and (e) whether fee levels reflect these economies of scale for the benefit of Fund investors.

### A. NATURE, EXTENT AND QUALITY OF SERVICES

In reviewing the Fund Adviser, the Trustees considered the nature, extent and quality of the Fund Adviser's services. The Trustees reviewed materials outlining, among other things, the Fund Adviser's organization and business; the types of services that the Fund Adviser or its affiliates provide and are expected to provide to the Funds; the performance record of the applicable Fund (as described in further detail below) and any initiatives and enhancements Nuveen has taken for its municipal fund product line. In connection with their continued service as Trustees, the Trustees also have a good understanding of each Fund Adviser's organization, operations and personnel. In this regard, the Trustees are familiar with and have evaluated the professional experience, qualifications and credentials of the Fund Adviser's personnel. The Trustees further reviewed materials describing, among other things, the teams and per-

sonnel involved in the investment, research, risk-management and operational processes involved in managing municipal funds and their respective functions. Given the Trustees' experience with the Funds and Fund Adviser, the Trustees recognized the demonstrated history of care and depth of experience of the respective personnel in managing these Funds. In this regard, the Trustees considered the continued quality of the Fund Adviser's investment process in making portfolio management decisions as well as additional refinements and improvements adopted to the portfolio management processes noted below. With respect to the services provided to municipal funds, including the Funds, the Trustees noted that the Fund Adviser continues to make refinements to its portfolio management process including, among other things, the increased use of derivatives to enhance management of risk, additional analytical software for

research staff and improved municipal pricing processes.

In addition to advisory services, the independent Trustees considered the quality of any administrative or non-advisory services provided. The Fund Adviser provides the Funds with such administrative and other services (exclusive of, and in addition to, any such services provided by others for the Funds) and officers and other personnel as are necessary for the operations of the respective Fund. In connection with the review of the Investment Management Agreement, the Trustees considered the extent and quality of these other services which include, among other things, providing: product management (e.g., product positioning, performance benchmarking, risk management); fund administration (e.g., daily net asset value pricing and reconciliation, tax reporting, fulfilling regulatory filing requirements); oversight of third party service providers; administration of board relations (e.g., organizing board meetings and preparing related materials); compliance (e.g., monitoring compliance with investment policies and guidelines and regulatory requirements); and legal support (e.g., helping prepare and file registration statements, amendments thereto, proxy statements and responding to regulatory requests and/or inquiries). As the Funds operate in a highly regulated industry and given the importance of compliance, the Trustees considered, in particular, the additions of experienced personnel to the compliance teams and the enhancements to technology and related systems to support the compliance activities for the Funds (including a new reporting system for quarterly portfolio holdings).

In addition to the foregoing, the Trustees also noted the additional services that the Fund Adviser or its affiliates provide to closed-end funds, including, in particular, secondary market support activities. The Trustees recognized Nuveen's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a variety of initiatives designed to raise investor and analyst awareness and understanding of closed-end funds. These efforts include providing advertising and other media relations programs, continued contact with analysts, maintaining and enhancing its website for closed-end funds, and targeted advisor communication programs. With respect to funds that utilize leverage through the issuance of preferred shares, the Trustees noted Nuveen's continued support for the preferred shares by maintaining, among other things, an in-house preferred trading desk; designating a product manager whose responsibilities include creating and disseminating product information and managing relations in connection with the preferred share auction; and maintaining systems necessary to test compliance with rating agency requirements.

Based on their review, the Trustees found that, overall, the nature, extent and quality of services provided (and expected to be provided) to the respective Funds under the Investment Management Agreement were of a high level and were satisfactory.

### B. THE INVESTMENT PERFORMANCE OF THE FUND AND FUND ADVISERS

The Board considered the investment performance for each Fund, including the Fund's historic performance as well as its performance compared to funds with similar investment objectives identified by an independent third party (the "Performance Peer Group") and portfolio level performance against customized benchmarks, as described below. In evaluating the performance information, in certain instances, the Trustees noted that the closest Performance Peer Group for a Fund still may not adequately reflect such Fund's investment objectives, strategies and portfolio duration, thereby limiting the usefulness of the comparisons of such Fund's performance with that of the Performance Peer Group. With respect to state specific municipal funds, the Trustees recognized that certain state municipal funds do not have a corresponding state specific Performance Peer Group in which case their performance is measured against a more general municipal category for various states. The closed-end state municipal funds that do not have corresponding state-specific Performance Peer

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

Groups are from Arizona, Connecticut, Georgia, Maryland, Massachusetts, Missouri, North Carolina, Ohio, Texas, and Virginia. Further, due to a lack of state-specific unleveraged categories, certain unleveraged state municipal funds are included in their leveraged state category (such as the California Select Tax-Free Fund, California Municipal Value Fund, New York Select Tax Free Fund and New York Municipal Value Fund).

In reviewing performance, the Trustees reviewed performance information including, among other things, total return information compared with the Fund's Performance Peer Group for the one-, three- and five-year periods (as applicable) ending December 31, 2005. The Trustees also reviewed the Fund's portfolio level performance (which does not reflect fund level fees and expenses) compared to customized portfolio-level benchmarks for the one- and three-year periods ending December 31, 2005 (as applicable). This analysis is designed to assess the efficacy of investment decisions against appropriate measures of risk and total return, within specific market segments. This information supplements the Fund performance information provided to the Board at each of their quarterly meetings. Based on their review, the Trustees determined that the respective Fund's absolute and relative investment performance over time had been satisfactory.

### C. FEES, EXPENSES AND PROFITABILITY

#### 1. FEES AND EXPENSES

In evaluating the management fees and expenses of a Fund, the Board reviewed, among other things, the Fund's advisory fees (net and gross management fees) and total expense ratios (before and after expense reimbursements and/or waivers) in absolute terms as well as comparisons to the gross management fees (before waivers), net management fees (after waivers) and total expense ratios (before and after waivers) of comparable funds in the Peer Universe and the Peer Group. The Trustees reviewed data regarding the construction of Peer Groups as well as the methods of measurement for the fee and expense analysis and the performance analysis. In certain cases, due to the small number of peers in the Peer Universe, the Peer Universe and Peer Group

83

#### ANNUAL INVESTMENT MANAGEMENT AGREEMENT APPROVAL PROCESS (continued)

may be the same. Further, the Trustees recognized that in certain cases the closest Peer Universe and/or Peer Group did not adequately reflect the Fund's investment objectives and strategies limiting the usefulness of comparisons. In reviewing comparisons, the Trustees also considered the size of the Peer Universe and/or Peer Group, the composition of the Peer Group (including differences in the use of leverage and insurance) as well as differing levels of fee waivers and/or expense reimbursements. In this regard, the Trustees considered the fund-level and complex-wide breakpoint schedules (described in further detail below) and any fee waivers and reimbursements provided by Nuveen (applicable, in particular, for certain Funds launched since 1999). Based on their review of the fee and expense information provided, the Trustees determined that each Fund's net total expense ratio was within an acceptable range compared to peers.

2. COMPARISONS WITH THE FEES OF OTHER CLIENTS

The Trustees further reviewed data comparing the advisory fees of the Fund Adviser with fees the Fund Adviser charges to other clients, including municipal managed accounts. In general, the fees charged for separate accounts are somewhat lower than the fees assessed to the Funds. The Trustees recognized that the differences in fees are attributable to a variety of factors, including the differences in services provided, product distribution, portfolio investment policies, investor profiles, account sizes and regulatory requirements. The Trustees noted, in particular, that the range of services provided to the Funds is more extensive than that provided to managed separate accounts. As described in further detail above, such additional services include, but are not limited to, providing: product management, fund administration, oversight of third party service providers, administration of board relations, and legal support. Funds further operate in a highly regulated industry requiring extensive compliance functions compared to the other investment products. In addition to the costs of the additional services, administrative costs may also be greater for the Funds as the average account size for separate accounts are notably larger than the retail accounts of the Funds. Given the differences in the product structures, particularly the extensive services provided to closed-end municipal funds, the Trustees believe such facts justify the different levels of fees.

3. PROFITABILITY OF FUND ADVISERS

In conjunction with its review of fees, the Trustees also considered the profitability of Nuveen Investments for advisory activities (which incorporated Nuveen's wholly-owned affiliated sub-advisers). The Trustees reviewed data comparing Nuveen's profitability with other fund sponsors prepared by three independent third party service providers as well as comparisons of the revenues, expenses and profits margins of various unaffiliated management firms with similar amounts of assets under management prepared by Nuveen. The Trustees further reviewed the 2005 Annual Report for Nuveen Investments. In considering profitability, the Trustees recognized the inherent limitations in determining profitability as well as the difficulties in comparing the profitability of other unaffiliated advisers. Profitability may be affected by numerous factors, including the methodology for allocating expenses, the advisor's business mix, the types of funds managed, the adviser's capital structure and cost of capital. Further, individual fund or product line profitability of other sponsors is generally not publicly available. Accordingly, the profitability information that is publicly available from various investment advisory or management firms may not be representative of the industry.

Notwithstanding the foregoing, in reviewing profitability, the Trustees reviewed Nuveen's methodology and assumptions for allocating expenses across product lines to determine profitability. In this regard, the methods of allocation used appeared reasonable. The Trustees also, to the extent available, compared Nuveen's profitability margins (including pre- and post-marketing profit margins) with the profitability of various unaffiliated management firms. The Trustees noted that Nuveen's profitability is enhanced due to its efficient internal business model. The Trustees also recognized that while a number of factors affect profitability, Nuveen's profitability may change as fee waivers and/or expense reimbursement commitments of Nuveen to various funds in the Nuveen complex expire. To keep apprised of profitability and developments that may affect profitability, the Trustees have requested profitability analysis be

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

provided periodically during the year. Based on their review, the Trustees were satisfied that the respective Fund Adviser's level of profitability from its relationship with each Fund was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Trustees also considered any other revenues paid to a Fund Adviser as well as any indirect benefits (such as soft dollar arrangements, if any) the Fund Adviser and its affiliates are expected to receive that are directly attributable to their management of the Funds, if any. See Section E below for additional information. Based on their review of the overall fee arrangements of the applicable Fund, the Trustees determined that the advisory fees and expenses of the respective Fund were reasonable.

84

### D. ECONOMIES OF SCALE AND WHETHER FEE LEVELS REFLECT THESE ECONOMIES OF SCALE

With respect to economies of scale, the Trustees recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base as a fund grows. To help ensure the shareholders share in these benefits, the Trustees have reviewed and considered the breakpoints in the advisory fee schedules that reduce advisory fees as the applicable Fund's assets grow. In addition to advisory fee breakpoints as assets in a respective Fund rise, after lengthy discussions with management, the Board also approved a complex-wide fee arrangement that was introduced on August 1, 2004. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex, including the Funds, are reduced as the assets in the fund complex reach certain levels. In evaluating the complex-wide fee arrangement, the Trustees considered, among other things, the historic and expected fee savings to shareholders as assets grow, the amount of fee reductions at various asset levels, and that the arrangement would extend to all funds in the Nuveen complex. The Trustees noted that 2005 was the first full year to reflect the fee reductions from the complex wide fee arrangement. The Trustees also considered the impact, if any, the complex-wide fee arrangement may have on the level of services provided. Based on their review, the Trustees concluded that the breakpoint schedule and complex-wide fee arrangement currently was acceptable and desirable in providing benefits from economies of scale to shareholders.

### E. INDIRECT BENEFITS

In evaluating fees, the Trustees also considered any indirect benefits or profits the Fund Adviser or its affiliates may receive as a result of its relationship with each Fund. In this regard, the Trustees considered revenues received by affiliates of the Fund Adviser for serving as agent at Nuveen's preferred trading desk and for serving as a co-manager in the initial public offering of new closed-end exchange traded funds.

In addition to the above, the Trustees considered whether the Fund Adviser received any benefits from soft dollar arrangements. With respect to NAM, the Trustees noted that NAM does not currently have any soft dollar arrangements and does not pay excess brokerage commissions (or spreads on principal transactions) in order to receive research services; however, the Fund Adviser may from time to time receive and have access to research generally provided to institutional clients.

The Trustees did not identify any single factor discussed previously as all-important or controlling. The Trustees, including a majority of independent Trustees, concluded that the terms of the Investment Management Agreements were fair and reasonable, that the Fund Adviser's fees are reasonable in light of the

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

services provided to each Fund, and that the renewal of the Investment Management Agreements should be approved.

### Reinvest Automatically EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

### NUVEEN EXCHANGE-TRADED CLOSED-END FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

#### CEO CERTIFICATION DISCLOSURE

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

#### GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**AVERAGE EFFECTIVE MATURITY:** The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**LEVERAGE-ADJUSTED DURATION:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

**MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.

**NET ASSET VALUE (NAV):** A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**TAXABLE-EQUIVALENT YIELD:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

### ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at [www.nuveen.com/etf](http://www.nuveen.com/etf). (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then click on Code of Conduct.)

### ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

### ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

#### Nuveen Maryland Premium Income Municipal Fund

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

(1) "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

(2) "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees".

(3) "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

(4) "All Other Fees" are the aggregate fees billed for products and services other than "Audit Fees", "Audit Related Fees", and "Tax Fees".

### SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of

all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

(1) The amounts reported for the Fund under the column heading "Tax Fees" represents amounts billed to the Adviser exclusively for the preparation for the Fund's tax return, the cost of which is borne by the Adviser. In the aggregate, for all Nuveen funds for which Ernst & Young LLP serves as independent registered public accounting firm, these fees amounted to \$275,000 in 2006 and \$282,575 in 2005.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans, William J. Schneider and Eugene S. Sunshine.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant invests its assets primarily in municipal bonds and cash management securities. On rare occasions the registrant may acquire, directly or through a special purpose vehicle, equity securities of a municipal bond issuer whose bonds the registrant already owns when such bonds have deteriorated or are expected shortly to deteriorate significantly in credit quality. The purpose of acquiring equity securities generally will be to acquire control of the municipal bond issuer and to seek to prevent the credit deterioration or facilitate the liquidation or other workout of the distressed issuer's credit problem. In the course of exercising control of a distressed municipal issuer, NAM may pursue the registrant's interests in a variety of ways, which may entail negotiating and executing consents, agreements and other arrangements, and otherwise influencing the management of the issuer. NAM does not consider such activities proxy voting for purposes of Rule 206(4)-6 under the 1940 Act, but nevertheless provides reports to the registrant's Board of Trustees on its control activities on a quarterly basis.

In the rare event that a municipal issuer were to issue a proxy or that the

## Edgar Filing: NUVEEN MARYLAND PREMIUM INCOME MUNICIPAL FUND - Form N-CSR

registrant were to receive a proxy issued by a cash management security, NAM would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the registrant's Board of Trustees or its representative. A member of NAM's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 206(4)-6, reports were filed with the SEC on Form N-PX, and the results provided to the registrant's Board of Trustees and made available to shareholders as required by applicable rules.

### ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

#### THE PORTFOLIO MANAGER

The following individual has primary responsibility for the day-to-day implementation of the registrant's investment strategies:

NAME	FUND
Cathryn Steeves	Nuveen Maryland Premium Income Municipal Fund

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

PORTFOLIO MANAGER	TYPE OF ACCOUNT MANAGED	NUMBER OF ACCOUNTS	ASSETS*
Cathryn Steeves	Registered Investment Company	67	\$13.099 billion
	Other Pooled Investment Vehicles	0	\$0
	Other Accounts	0	\$0

\* Assets are as of May 31, 2006. None of the assets in these accounts are subject to an advisory fee based on performance.

Compensation. Portfolio manager compensation consists of three basic elements--base salary, cash bonus and long-term incentive compensation. The compensation strategy is to annually compare overall compensation, including these three elements, to the market in order to create a compensation structure that is competitive and consistent with similar financial services companies. As discussed below, several factors are considered in determining each portfolio manager's total compensation. In any year these factors may include, among others, the effectiveness of the investment strategies recommended by the portfolio manager's investment team, the investment performance of the accounts managed by the portfolio manager, and the overall performance of Nuveen Investments, Inc. (the parent company of NAM). Although investment performance is a factor in determining the portfolio manager's compensation, it is not necessarily a decisive factor. The portfolio manager's performance is evaluated in part by comparing manager's performance against a specified investment benchmark. This fund-specific benchmark is a customized subset (limited to bonds in each Fund's specific state and with certain maturity parameters) of the S&P/Investortools Municipal Bond index, an index comprised of bonds held by managed municipal bond fund customers of Standard & Poor's Securities Pricing, Inc. that are priced daily and whose fund holdings aggregate at least \$2 million. As of May 31, 2006, the S&P/Investortools Municipal Bond index was comprised of 46.875 securities with an aggregate current market value of \$868 billion.

Base salary. Portfolio managers are paid a base salary that is set at a level determined by NAM in accordance with its overall compensation strategy discussed above. NAM is not under any current contractual obligation to increase a

portfolio manager's base salary.

Cash bonus. Portfolio managers are also eligible to receive an annual cash bonus. The level of this bonus is based upon evaluations and determinations made by each portfolio manager's supervisors, along with reviews submitted by his peers. These reviews and evaluations often take into account a number of factors, including the effectiveness of the investment strategies recommended to the NAM's investment team, the performance of the accounts for which he/she serves as portfolio manager relative to any benchmarks established for those accounts, his/her effectiveness in communicating investment performance to stockholders and their representatives, and his/her contribution to the NAM investment process and to the execution of investment strategies. The cash bonus component is also impacted by the overall performance of Nuveen Investments, Inc. in achieving its business objectives.

Long-term incentive compensation. Portfolio managers are eligible to receive bonus compensation in the form of equity-based awards issued in securities issued by Nuveen Investments, Inc. The amount of such compensation is dependent upon the same factors articulated for cash bonus awards but also factors in his long-term potential with the firm.

Material Conflicts of Interest. The portfolio manager's simultaneous management of the registrant and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the Registrant and the other account. NAM, however, believes that such potential conflicts are mitigated by the fact that the NAM has adopted several policies that address potential conflicts of interest, including best execution and trade allocation policies that are designed to ensure (1) that portfolio management is seeking the best price for portfolio securities under the circumstances, (2) fair and equitable allocation of investment opportunities among accounts over time and (3) compliance with applicable regulatory requirements. All accounts are to be treated in a non-preferential manner, such that allocations are not based upon account performance, fee structure or preference of the portfolio manager. In addition, NAM has adopted a Code of Conduct that sets forth policies regarding conflicts of interest.

Beneficial Ownership of Securities. As of the May 31, 2006, the portfolio manager beneficially owned the following dollar range of equity securities issued by the Registrant and other Nuveen Funds managed by NAM's municipal investment team.

### ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

### ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

During this reporting period, the registrant's Board of Trustees implemented a change to the procedures by which shareholders may recommend nominees to the registrant's board of trustees by amending the registrant's by-laws to include a provision specifying the date by which shareholder nominations for election as trustee at a subsequent meeting must be submitted to the registrant. Shareholders must deliver or mail notice to the registrant not less than forty-five days nor more than sixty days prior to the first anniversary date of the date on which the registrant first mailed its proxy materials for the prior year's annual meeting; provided, however, if and only if the annual meeting is not scheduled to be held within a period that commences thirty days before the first anniversary date of the annual meeting for the preceding year and ends thirty days after such anniversary date (an annual meeting date outside such period being referred to as an "Other Annual Meeting Date" hereafter), the shareholder notice must be given no later than the close of business on the date forty-five days prior to such Other Annual Meeting Date or the tenth business day following the date such Other Annual Meeting Date is first publicly announced or disclosed. The shareholder's notice must be in writing and set forth the name, age, date of birth, business address, residence address and nationality of the person(s) being nominated and the class or series, number of all shares of the registrant owned of record or beneficially by each such person(s), any other information regarding such person required by Item 401 of Regulation S-K or Item 22 of Rule 14a-101 (Schedule 14A) under the Securities Exchange Act of 1934, as amended, any other information regarding the person(s) to be nominated that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitation of proxies for election of trustees, and whether such shareholder believes any nominee is or will be an "interested person" (as that term is defined in the Investment Company Act of 1940, as amended) of the registrant or sufficient information to enable the registrant to make that determination and the written and signed consent of the person(s) to be nominated.

### ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act

(17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

### ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at [www.nuveen.com/etf](http://www.nuveen.com/etf) and there were no amendments during the period covered by this report. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then Code of Conduct.)

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
