Chairman's
Letter to Shareholders

(PHOTO OF ROBERT P. BREMNER)

DEAR SHAREHOLDER,

The problems in the U.S. financial system and the slowdown in global economic activity continue to create a very difficult environment for the U.S. economy. The administration, the Federal Reserve System and Congress have initiated a variety of programs directed at restoring liquidity to the financial markets, providing financial support for critical financial institutions and stimulating economic activity. There are encouraging signs that these initiatives are beginning to have a constructive impact. It is not possible to predict whether the actions taken to date will be sufficient to restore more normal conditions in the financial markets or enable the economy to stabilize and set a course toward recovery. However, the speed and scope of the government's actions are very encouraging and, more importantly, reflect a commitment to act decisively to meet the economic challenges we face.

The performance information in the attached report reflects the impact of many forces at work in the equity and fixed income markets. The comments by the portfolio manager describe the strategies being used to pursue your Fund's long-term investment goals. Parts of the financial markets continue to experience serious dislocations and thorough research and strong investment disciplines have never been more important in identifying risks and opportunities. I hope you will read this information carefully.

Your Board is particularly sensitive to our shareholders' concerns in these uncertain times. We believe that frequent and thorough communication is essential in this regard and encourage you to visit the Nuveen website: www.nuveen.com, for recent developments in all Nuveen funds. We also encourage you to communicate with your financial consultant for answers to your questions and to seek advice on your long-term investment strategy in the current market environment.

Nuveen continues to work on resolving the issues related to the auction rate preferred shares situation, but the unsettled conditions in the credit markets have slowed progress. Nuveen is actively pursuing a number of solutions, all with the goal of providing liquidity for preferred shareholders while preserving the potential benefits of leverage for common shareholders. We appreciate the patience you have shown as we work through the many issues involved.

On behalf of myself and the other members of your Fund's Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Robert P. Bremner Robert P. Bremner Chairman of the Nuveen Fund Board June 19, 2009

Nuveen Investments 3

Portfolio Manager's Comments

Nuveen Investments Municipal Closed-End Funds NQJ, NNJ, NXJ, NUJ, NQP, NPY, NXM, NVY

Portfolio manager Cathryn Steeves reviews U.S. economic and municipal market conditions at the national and state levels, key investment strategies, and the

twelve-month performance of the Nuveen New Jersey and Pennsylvania Funds. Cathryn, who joined Nuveen in 1996, has managed NQJ, NNJ, NXJ, NUJ, NQP, NPY, NXM and NVY since 2006. In April 2009, she assumed portfolio management responsibility for the newly introduced Nuveen New Jersey Municipal Value (NJV) and Nuveen Pennsylvania Municipal Value Fund (NPN). These two new Funds are disclosed in a separate shareholder report for the period April 28, 2009 (commencement of operations) through April 30, 2009.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE TWELVE-MONTH PERIOD ENDED APRIL 30, 2009?

During this period, downward pressure on the economy continued and stress in the financial and credit markets led to increased price volatility for most securities, reduced liquidity and a general flight to quality. In an effort to improve overall economic conditions, the Federal Reserve (Fed) continued to cut interest rates, lowering the fed funds rate from 2.00% in May 2008 to a target range of zero to 0.25% in December 2008, its lowest level on record. In March 2009, the Fed announced that, in addition to maintaining the target rate at its current level, it would buy \$300 billion of long-term Treasury securities in an effort to support private credit markets, and up to an additional \$750 billion (for a total of \$1.25 trillion) in agency mortgage-backed securities to bolster the housing market.

The Fed's rate-cutting was in part a response to the decline in U.S. economic growth, as measured by the U.S. gross domestic product (GDP). Since posting growth of 2.8% in the second quarter of 2008, the GDP has contracted at annual rates of 0.5% in the third quarter of 2008, 6.3% in the fourth quarter of 2008, and 5.7% in the first quarter of 2009, all of which adds up to the worst recession in 50 years. The ongoing housing slump also continued to trouble the economy, with the average home price falling 19.1% nationally between March 2008 and March 2009, pushing home values to 2002 levels. In the labor markets, April 2009 marked the sixteenth consecutive month of job losses, with a total of 5.7 million jobs lost since the economic recession began in January 2008. The national unemployment rate for April 2009 was 8.9%, its highest point since 1983, up from 5.0% in April 2008. At the same time, inflation remained subdued, as the Consumer Price Index (CPI), reflecting a 25% drop in energy prices, fell 0.7% year-over-year as of April 2009, the largest 12-month decline since 1955. The core CPI (which excludes food and

### 4 Nuveen Investments

energy) rose 1.9% over this same period, within the Fed's unofficial objective of 2.0% or lower for this measure.

During this period, the nation's financial institutions and markets—including the municipal bond market—experienced significant turmoil, and reductions in demand for many types of securities decreased valuations. In the municipal market, this negative impact was felt across all credit ratings, particularly lower—rated credits, reducing the net asset values of municipal bond funds. As a result, some of the dealer firms that make markets in bonds were unwilling to

commit capital to purchase or continue serving as dealers. The reduction in dealer involvement was accompanied by significant selling pressure by investors, predominantly related to lower-rated municipal bonds. This was especially true of institutional investors, whose need to reduce the leveraging of their municipal investments forced them to remove money from the municipal market. This deleveraging was driven to some extent by the overall reduction in the amount of financing available for leverage, the increased costs of leverage financing, and the need to reduce leverage levels that had increased as municipal bond prices declined.

Municipal bond prices were further negatively impacted by concerns that the need for additional deleveraging and a supply overhang (i.e., a large backlog of new issues that had been postponed) would cause selling pressure to persist. The municipal market was also beset by conditions that contributed to greater price volatility, including wider credit spreads (i.e., lower quality bonds fell in price more than higher quality bonds); greatly reduced liquidity (i.e., the ability to sell bonds at prices close to their carrying values), particularly for lower quality bonds; and a lack of price transparency (i.e., the ability to accurately determine the price at which a bond would likely trade).

The performance of the municipal bond market was significantly impacted during this period by these events as well as by concerns about the credit markets, downgrades of municipal bond insurers, and the freeze-up of the auction rate market. The surges of selling pressure resulting from these events added to the level of illiquidity in the market, which combined with the Fed rate cuts to produce a steepening of the municipal yield curve. For the twelve-month period as a whole, bonds with shorter and intermediate maturities generally outperformed longer maturity bonds, and higher quality bonds tended to outperform lower quality credits.

After a very difficult phase, market conditions began to show some general signs of improvement in mid-December 2008, and municipal bonds were on an improving trend during the first four months of 2009. In April 2009, this was enhanced by the introduction of Build America Bonds (BABs), which were authorized by the American Recovery and Reinvestment Act of 2009. This legislation allows state and local governments to sell taxable bonds and receive a subsidy equal to 35% of the interest cost instead of the tax exemptions standard in the municipal market. The issuance of BABs has taken some of the supply out of the new issuance municipal market and reduced concerns about a supply overhang, driving up prices on tax-exempt municipal issues, especially among bonds with longer maturities.

Over the twelve months ended April 30, 2009, municipal bond issuance nationwide totaled \$430.0 billion, a drop of 5% compared with the twelve-month period ended April 30, 2008. While market conditions during this period impacted the demand for municipal

Nuveen Investments 5

bonds, investors, especially from the retail sector, continued to be attracted by the higher interest rates and yields of the municipal bond market relative to taxable bonds.

HOW WERE ECONOMIC AND MARKET CONDITIONS IN NEW JERSEY AND PENNSYLVANIA?

In 2008, New Jersey's economy grew at a rate of 0.6%, which ranked the state 31st in the nation in terms of GDP growth, just behind the national average growth rate of 0.7%. Although New Jersey continued to benefit from a highly diverse industrial base and the presence of a large number of high-tech and research companies, the state's labor market has recently deteriorated. Only the

education and health care services sector continued to post employment gains over the period, which were more than offset by major job losses in manufacturing, construction and financial services. The state's strong links to international trade, including import and export activity at New Jersey's once-bustling Newark and Camden ports, have been weakened by the deceleration in trade due to the worldwide recession. In April 2009, New Jersey's jobless rate was 8.4%, its highest level since December 1992, up from 5.0% in April 2008 but less than the national average of 8.9%.

All of these factors have led to a sharp decrease in state revenues, and New Jersey faces growing fiscal problems, including an estimated \$1.2 billion budget gap for fiscal 2010. Proposals for closing this shortfall include spending cuts and a reduction in state payrolls. New Jersey could also be forced to reduce spending on outside contracts, resulting in a negative impact on private sector businesses. As of April 30, 2009, New Jersey general obligation debt was rated Aa3/AA/AA by Moody's, Standard & Poor's (S&P) and Fitch, respectively. Moody's and Fitch listed their outlooks for the state as negative, while S&P continued to post a stable outlook. For the twelve months ended April 30, 2009, municipal issuance in New Jersey totaled \$15.1 billion.

Although still more dependent on the manufacturing sector than the nation as a whole, Pennsylvania has made aggressive efforts to diversify its economy into new industries in recent years. As a result, health and education services now comprise the largest segment of the commonwealth's economy. In conjunction with these sectors, Pennsylvania has a strong presence in biotechnology and pharmaceutical research and manufacturing, with the commonwealth's higher education institutions, including several medical schools, contributing to growth in these areas. Retail trade has served as another growth driver, although that sector is now feeling the impact of the economic slump. Even before the current recession, however, Pennsylvania's old-line manufacturing sector was in major decline, with little indication of any short-term turnaround. Growth in the service sectors also slowed. Declining home prices and the resulting layoffs in housing-related industries as well as an aging infrastructure also served as hurdles to growth. In 2008, Pennsylvania's economy grew at a rate of 1.1%, which ranked it 26th in the nation in terms of GDP growth, compared with the national average growth rate of 0.7%. As of April 2009, unemployment in Pennsylvania was 7.8%, up from 5.0% in April 2008 but less than the national average of 8.9%.

For fiscal 2009, the commonwealth's \$61.3 billion budget contained no broad-based tax increases, relying on \$375 million from the budget stabilization reserve fund to achieve balance. Current projections estimate a potential revenue shortfall of \$2.3 billion by the end of the fiscal year in June 2009, and various measures, including

#### 6 Nuveen Investments

expenditure reductions and the use of federal stimulus funds, which are estimated at \$1.9 billion for Pennsylvania, have been suggested to close the gap. In March 2009, Moody's and S&P confirmed their ratings on Pennsylvania general obligation debt at Aa2 and AA, respectively, while Fitch maintained its rating at AA. Moody's listed its outlook for Pennsylvania as negative, while S&P's outlook remained positive. During the twelve months ended April 30, 2009, municipal issuance in the commonwealth totaled \$18.4 billion.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THIS REPORTING PERIOD?

During this time, as the municipal market remained under pressure from price volatility, reduced liquidity and fundamental economic concerns, we continued to

focus on finding bonds that offered relative value, while seeking to manage liquidity and invest for the long term.

Much of our investment activity during this period was driven by opportunities created by market conditions. We sought to capitalize on this environment by continuing to take a bottom-up approach to finding undervalued sectors and individual credits with the potential to perform well over the long term. Overall, our emphasis was on purchasing higher coupon bonds with longer maturities, i.e., 20 to 30 years, to take advantage of the spreads offered by the extremely steep yield curve. Among the credits we added, especially in the Pennsylvania Funds, were higher education and housing bonds. We also were able to purchase lower-rated health care bonds at discounted prices as the result of selling by some municipal market participants, particularly during the last part of 2008.

Some of the cash for new purchases was generated by bond calls. In addition, we monitored the types of credits and bond structures that were attractive to the retail market and took advantage of strong bids to sell bonds into relatively consistent retail demand. In view of tighter liquidity, we positioned the Funds somewhat more defensively by retaining slightly more cash than usual in order to improve the Funds' liquidity profiles and have the capital we needed to reinvest at opportune times.

During this period, we used inverse floating rate securities1 in seven of the eight Funds (NUJ did not use inverse floaters). We employed inverse floaters for a variety of reasons, including duration2 management, income enhancement, and as a form of leverage. NNJ and NVY also invested in additional types of derivatives3 intended to help manage duration and common share net asset value (NAV) volatility without having a negative impact on income streams or common share dividends over the short term. As of April 30, 2009, the inverse floaters remained in place in the seven Funds, while we had removed the derivative positions from NNJ and NVY.

- (1) An inverse floating rate security, also known as inverse floaters, is a financial instrument designed to pay long-term tax-exempt interest at a rate that varies inversely with a short-term tax-exempt interest rate index. For the Nuveen Funds, the index typically used is the Securities Industry and Financial Markets (SIFM) Municipal Swap Index (previously referred to as the Bond Market Association Index or BMA). Inverse floaters, including those inverse floating rate securities in which the Funds invested during the reporting period, are further defined within the Notes to Financial Statements and Glossary of Terms Used in this Report sections of this report.
- (2) Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.
- (3) Each Fund may invest in derivative instruments such as forwards, futures, options, and swap transactions. For additional information on the derivative instruments in which each Fund was invested during and at the end of the reporting period, see the Portfolio of Investments, Financial Statements, and Notes to Financial Statements sections of this report.

Nuveen Investments 7

#### HOW DID THE FUNDS PERFORM?

Individual results for these Nuveen New Jersey and Pennsylvania Funds, as well as relevant index and peer group information, are presented in the accompanying

table.

AVERAGE ANNUAL TOTAL RETURNS ON COMMON SHARE NET ASSET VALUE FOR PERIODS ENDED 4/30/09

	1-YEAR	5-YEAR	10-YEAR
NEW JERSEY FUNDS			
NQJ	-3.41%	3.23%	4.47%
NNJ	-0.40%	3.62%	4.84%
NXJ	-3.63%	3.16%	N/A
NUJ	-4.36%	3.38%	N/A
PENNSYLVANIA FUNDS			
NQP	-1.01%	3.11%	4.34%
NPY	-2.65%	2.53%	4.37%
NXM	-4.57%	2.82%	N/A
NVY	-2.33%	3.32%	N/A
Lipper Other States Municipal			
Debt Funds Average(4)	-2.30%	3.12%	4.26%
Barclays Capital Municipal			
Bond Index(5)	3.11%	4.11%	4.78%
S&P New Jersey Municipal			
Bond Index(6)	1.14%	3.84%	4.61%
S&P Pennsylvania Municipal			
Bond Index(6)	1.85%	4.01%	4.70%

For the twelve months ended April 30, 2009, the total returns on common share NAV for NNJ and NQP exceeded the average return for the Lipper Other States Municipal Debt Funds Average, NVY performed in line with the Lipper group, and NQJ, NXJ, NUJ, NPY and NXM trailed the Lipper benchmark. All of the New Jersey and Pennsylvania Funds underperformed the returns on the national Barclays Capital Municipal Bond Index and their respective Standard & Poor's (S&P) New Jersey or Pennsylvania Municipal Bond Index for the period. Shareholders should note that some of the benchmarks shown in the accompanying table include bonds from states in addition to New Jersey and Pennsylvania, which may make direct comparisons between the Funds and these benchmarks less meaningful.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, the use of derivatives, credit exposure and sector allocations, and individual security selection. In addition, the use of leverage was an important factor affecting the Funds' performances over this period. The impact of leverage is discussed in more detail on page 10.

Over the course of this twelve-month period, the municipal bond yield curve remained steep. Bonds in the Barclays Capital Municipal Bond Index with maturities of three to ten

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.

(4) The Lipper Other States Municipal Debt Funds Average is calculated using

the returns of all closed-end funds in this category for each period as follows: 1-year, 46 funds; 5-year, 46 funds; and 10-year, 18 funds. Fund and Lipper returns assume reinvestment of dividends.

- (5) The Barclays Capital (formerly Lehman Brothers) Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Barclays Capital index do not reflect any expenses.
- (6) The Standard & Poor's (S&P) New Jersey and Pennsylvania Municipal Bond Indexes are unleveraged, market value-weighted indexes designed to measure the performance of the municipal bond market, in these states.

#### 8 Nuveen Investments

years, especially those maturing in approximately four to six years, benefited the most from the interest rate environment. Although the New Jersey Funds were generally underweighted in the shorter part of the yield curve and overweighted in the longest part, these Funds had good allocations to the intermediate parts of the curve that performed well. This made their duration and yield curve positioning a net positive for performance during this period, except in NXJ, which had the highest exposure to longer bonds among these four Funds. Among the Pennsylvania Funds, duration positioning was neutral for performance except in NXM, which was penalized by heavier exposure to the longer part of the yield curve.

As mentioned earlier, seven of the eight Funds used inverse floating rate securities. During this period, the impact of the inverse floaters varied, with inverse floaters based on higher credit quality bonds outperforming those that used lower-quality credits. In general, the inverse floaters had a positive impact on performance in the Pennsylvania Funds and a neutral impact in the New Jersey Funds. At the same time, the inverse floaters also benefited all of the Funds by helping to support their income streams. In addition, NNJ and NVY, which had durations that were shorter than our strategic target, used derivative positions during part of this period to synthetically extend duration and move the Funds closer to the target. These derivative positions, which boosted the Funds' interest rate sensitivity, performed well and made positive contributions to NNJ and NVY's total return performance.

Credit quality exposure was also a major factor in performance during this period, as contributions from duration and yield curve positioning and the use of derivatives were offset to varying degrees by the Funds' exposures to lower-rated credits. During a difficult economic environment and disruptions in the financial markets, risk-averse investors put a priority on higher quality investments, and bonds with higher credit quality typically performed very well. Bonds rated BBB or below and non-rated bonds generally posted poorer returns. Pre-refunded7 bonds, which are backed by U.S. Treasury securities, were one of the top performing segments of the market, due primarily to their shorter effective maturities, higher credit quality, and perceived safety. Among the Pennsylvania Funds, NQP and NVY had significantly larger exposures to pre-refunded bonds, while NXM had the smallest allocation of these bonds. Additional sectors of the market that generally contributed positively to the Funds' returns included general obligation and other tax-backed bonds, water and sewer, education, and housing credits. The performances of all of these Funds were hampered by their underweighting in tax-backed bonds relative to the market indexes. The New Jersey Funds were also relatively underexposed to education bonds, while the Pennsylvania Funds benefited from good allocations of education credits.

Holdings that generally detracted from the Funds' performances included

industrial development revenue (IDR) bonds, which performed very poorly during this period. The health care revenue sector also underperformed the overall municipal market. All of these Funds, especially NXM and NVY, had larger allocations to the IDR sector than the market as a whole, and the New Jersey Funds were also heavily weighted in health care, particularly NUJ. Zero coupon bonds also performed poorly, as did lower-rated tobacco bonds.

(7) Pre-refundings, also known as advance refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.

Nuveen Investments 9

Individual security selection was also a factor in the Funds' performances during this period. In particular, the Funds were impacted to varying degrees by the downgrades of municipal bond issuers, and the subsequent impact on the returns and values of insured bonds. See below for more information on municipal bond insurers.

IMPACT OF THE FUNDS' CAPITAL STRUCTURES AND LEVERAGE STRATEGIES ON PERFORMANCE

In this generally unfavorable investment environment, a significant factor impacting the returns of these Funds relative to the comparative indexes was the Funds' use of financial leverage. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total returns for common shareholders. However, use of leverage also can expose common shareholders to additional risk—especially when market conditions are as unfavorable as they were during much of this twelve—month period. As the prices of many securities held by these Funds declined, the negative impact of these valuation changes on common share net asset value and common shareholder total return was magnified by the use of leverage.

### RECENT DEVELOPMENTS REGARDING BOND INSURANCE COMPANIES

Another factor that had an impact on the performance of these Funds was their positions in bonds backed by municipal bond insurers that experienced downgrades in their credit ratings. At the time this report was prepared, there were no longer any bond insurers rated AAA by all three of the major rating agencies (Moody's Investor Service, S&P and Fitch) and at least one rating agency has placed each insurer on "negative credit watch," "credit watch evolving," "credit outlook developing," or "rating withdrawn," which may presage one or more rating reductions in the future. As concern increased about the balance sheets of insurers, prices on insured bonds - especially those bonds issued by weaker underlying credits - declined, detracting from the Funds' performance. By the end of this period, most insured bonds were being valued according to their fundamentals as if they were uninsured. On the whole, the holdings of these Funds continued to be well diversified, and it is important to note that municipal bonds historically have had a very low rate of default.

#### RECENT DEVELOPMENTS IN THE AUCTION RATE PREFERRED SECURITIES MARKETS

As noted in previous shareholder reports, beginning in February 2008, more shares were submitted for sale in the regularly scheduled auctions for the auction rate preferred shares issued by these Funds than there were offers to buy. This meant that these auctions "failed to clear," and that many, or all, of the Funds' auction rate preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction rate preferred shares did not lower the credit quality of these shares, and auction rate preferred shareholders unable to sell their shares received

distributions at the "maximum rate" applicable to failed auctions, as calculated in accordance with the pre-established terms of the auction rate preferred shares.

#### 10 Nuveen Investments

These developments generally have not affected the portfolio management or investment policies of these Funds. However, one continuing implication for common shareholders of these auction failures is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future common share earnings may be lower than they otherwise might have been.

As noted in the last shareholder report, the Funds' Board of Directors/Trustees authorized a plan to use tender option bonds (TOBs), also known as floating rate securities, to refinance a portion of the Funds' outstanding auction rate preferred shares. As of April 30, 2009, the amount of auction rate preferred securities redeemed by the Funds are as shown in the accompanying table.

FUND	PRE	AUCTION RATE FERRED SHARES REDEEMED	% OF ORIGINAL AUCTION RATE PREFERRED SHARES
NQJ	\$	12,175,000	7.5%
NNJ	\$		0.0%
NXJ	\$	975 <b>,</b> 000	2.0%
NUJ	\$	1,900,000	5.5%
NQP	\$	20,250,000	15.3%
NPY	\$	18,825,000	15.9%
NXM	\$	2,500,000	10.0%
NVY	\$	5,500,000	19.3%

Subsequent to the reporting period, NQJ, NNJ, NXJ and NUJ noticed for redemption an additional \$3,525,000, \$2,075,000, \$1,100,000 and \$775,000 auction rate preferred securities, respectively.

While the Funds' Board of Directors/Trustees and management continue to work to resolve this situation, the Funds cannot provide any assurance on when the remaining outstanding auction rate preferred shares might be redeemed.

As of April 30, 2009, sixty-seven Nuveen closed-end municipal funds have redeemed and/or noticed for redemption at par a portion of their outstanding auction rate preferred shares. These redemptions bring the total amount of Nuveen's municipal closed-end funds' auction rate preferred share redemptions to approximately \$2.1 billion of the original \$11 billion outstanding.

For up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at:

http://www.nuveen.com/ResourceCenter/AuctionRatePreferred.aspx.

Nuveen Investments 11

Common Share Dividend and Share Price Information

During the twelve-month reporting period ended April 30, 2009, NQP, NPY and NVY each had two monthly dividend increases, NXM had one monthly dividend increase,

and the dividends of NQJ, NXJ and NUJ remained stable throughout the period. NNJ had one dividend cut in October 2008.

Due to normal portfolio activity, common shareholders of the following Funds received capital gains and/or net ordinary income distributions at the end of December 2008 as follows:

			CA	SHORT-TERM PITAL GAINS
				AND/OR
		LONG-TERM		ORDINARY
	CAP	ITAL GAINS		INCOME
		(PER SHARE)		(PER SHARE)
NQJ	\$	0.0465	\$	0.0431
NNJ	\$	0.0533	\$	0.0311
NXJ	\$	0.0390	\$	0.0379
NUJ	\$	0.0443	\$	0.0291
NPY			\$	0.0017
NVY	\$	0.0040		

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of April 30, 2009, all of the Funds in this report had positive UNII balances for both tax and financial statement purposes.

#### COMMON SHARE REPURCHASES AND SHARE PRICE INFORMATION

The Funds' Board of Directors/Trustees approved an open-market share repurchase program on July 10, 2007, for NQP and NPY and on July 30, 2008, for NQJ, NNJ, NXJ, NUJ, NXM and NVY under which each Fund may repurchase an aggregate of up to 10% of its outstanding common shares. Since the inception of this program, NVY has not repurchased any of its outstanding common shares.

### 12 Nuveen Investments

As of April 30, 2009, the Funds repurchased common shares as shown in the accompanying table.

		% OF
	COMMON	OUTSTANDING
	SHARES	COMMON
FUND	REPURCHASED	SHARES
NO T	20.600	0.00
NQJ	30,600	0.2%
NNJ	12,900	0.1%
NXJ	7,200	0.1%
NUJ	2,800	0.1%
NQP	167,400	1.0%
NPY	207,900	1.3%
NXM	2,000	0.1%

-----

During the twelve-month reporting period, common shares were repurchased at a weighted average price and a weighted average discount per common share as shown in the accompanying table.

		WEIGHTED	WEIGHTED
		AVERAGE	AVERAGE
		PRICE	DISCOUNT
		PER SHARE	PER SHARE
FUND		REPURCHASED	REPURCHASED
NQJ	 \$	10.34	18.29%
	·		
NNJ	\$	11.07	17.90%
NXJ	\$	10.14	18.93%
NUJ	\$	10.41	17.27%
NQP	\$	10.80	18.20%
NPY	\$	10.01	18.84%
NXM	\$	10.49	17.12%

As of April 30, 2009, the Funds' common share prices were trading at discounts to their common share NAVs as shown in the accompanying table.

FUND	4/30/09 DISCOUNT	TWELVE-MONTH AVERAGE DISCOUNT
NQJ	-12.54%	-13.30%
NNJ	-13.52%	-13.83%
NXJ	-14.03%	-14.06%
NUJ	-11.37%	-11.07%
NQP	-16.19%	-15.81%
NPY	-16.67%	-16.75%
NXM	-13.60%	-12.49%
NVY	-14.68%	-13.40%

```

(1) The percentages shown in the foregoing chart may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an

expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (2) Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 32.6%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
- (3) The Fund paid shareholders capital gains and net ordinary income distributions in December 2008 of \$0.0896 per share.

- (1) The percentages shown in the foregoing chart may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
- (2) Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 32.6%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
- (3) The Fund paid shareholders capital gains and net ordinary income distributions in December 2008 of \$0.0769 per share.

Nuveen Investments 27

THE BOARD OF DIRECTORS/TRUSTEES AND SHAREHOLDERS
NUVEEN NEW JERSEY INVESTMENT QUALITY MUNICIPAL FUND, INC.
NUVEEN NEW JERSEY PREMIUM INCOME MUNICIPAL FUND, INC.
NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND
NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND 2
NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND
NUVEEN PENNSYLVANIA PREMIUM INCOME MUNICIPAL FUND 2
NUVEEN PENNSYLVANIA DIVIDEND ADVANTAGE MUNICIPAL FUND
NUVEEN PENNSYLVANIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen New Jersey Investment Quality Municipal Fund, Inc., Nuveen New Jersey Premium Income Municipal Fund, Inc., Nuveen New Jersey Dividend Advantage Municipal Fund, Nuveen New Jersey Dividend Advantage Municipal Fund 2, Nuveen Pennsylvania Investment Quality Municipal Fund, Nuveen Pennsylvania Premium Income Municipal Fund 2, Nuveen Pennsylvania Dividend Advantage Municipal Fund and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (the Funds) as of April 30, 2009, and the related statements of operations and cash flows (Nuveen Pennsylvania Investment Quality Municipal Fund only) for the year then ended, the statements of changes in net assets for each of the two years in the period than ended and financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of April 30, 2009, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen New Jersey Investment Quality Municipal Fund, Inc., Nuveen New Jersey Premium Income Municipal Fund, Inc., Nuveen New Jersey Dividend Advantage Municipal Fund, Nuveen New Jersey Dividend Advantage Municipal Fund 2, Nuveen Pennsylvania Investment Quality Municipal Fund, Nuveen Pennsylvania Premium Income Municipal Fund 2, Nuveen Pennsylvania Dividend Advantage Municipal Fund and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 at April 30, 2009, the results of their operations and cash flows (Nuveen Pennsylvania Investment Quality Municipal Fund only) for the year then ended, the changes in their net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein in conformity with US generally accepted accounting principles.

\$ 453,333	Total Investments (cost \$432,059,118) - 153.4%	
	Other Assets Less Liabilities - 2.9%	
	Preferred Shares, at Liquidation Value - (56.3)% (5)	
	Net Assets Applicable to Common Shares - 100%	

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

(3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 36.7%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.

		Preferred Shares, at Liquidation Value - (55.0)% (5)	
		Net Assets Applicable to Common Shares - 100%	

\_\_\_\_\_\_

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 36.8%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.

See accompanying notes to financial statements.

	28,090	Total Water and Sewer	
\$	151,875	Total Investments (cost \$136,432,591) - 150.1%	
===		Other Assets Less Liabilities - 5.1%	
		Preferred Shares, at Liquidation Value - (55.2)% (5)	
		Net Assets Applicable to Common Shares - 100%	

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 36.8%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.

See accompanying notes to financial statements.

	Other Assets Less Liabilities - 2.5%	
	Preferred Shares, at Liquidation Value - (55.8)% (5)	
	Net Assets Applicable to Common Shares - 100%	

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings

below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 36.4%.
- N/R Not rated.
- (ETM) Escrowed to maturity.

See accompanying notes to financial statements.

 •	Total Water and Sewer	
\$ 362,230	Total Investments (cost \$356,718,588) - 159.8%	
 	Floating Rate Obligations - (12.3)%	
	Other Assets Less Liabilities - 3.7%	
	Preferred Shares, at Liquidation Value - (51.2)% (5)	
	Net Assets Applicable to Common Shares - 100%	

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 32.0%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140. See Notes to Financial Statements, Footnote 1- Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

		Preferred Shares, at Liquidation Value - (50.0)% (5)			
		Net Assets Applicable to Common Shares - 100%			
				===	

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
  - The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 33.6%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140. See Notes to Financial Statements, Footnote 1- Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

Floating Rate Obligations - (2.9)%
Other Assets Less Liabilities - 4.5%
Preferred Shares, at Liquidation Value - (51.6)% (5)
Net Assets Applicable to Common Shares - 100%

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
  - The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 34.4%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140. See Notes to Financial Statements, Footnote 1- Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

\$	81 <b>,</b> 675	Total Investments (cost \$78,920,903) - 151.9%	
		Floating Rate Obligations - (9.0)%	
		Other Assets Less Liabilities - 3.1%	
		Preferred Shares, at Liquidation Value - (46.0)% (5)	
		Net Assets Applicable to Common Shares - 100%	

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be

below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds whose insurer has experienced downgrades as of the end of the reporting period. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.3%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140. See Notes to Financial Statements, Footnote 1- Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

#### | Notes to FINANCIAL STATEMENTS

### 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen Pennsylvania Investment Quality Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM) and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (NVY) (collectively, the "Funds"). Common shares of New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) are traded on the New York Stock Exchange while Common shares of New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) are traded on the NYSE Amex (formerly, American Stock Exchange). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within a single state or certain U.S. territories.

The following is a summary of significant accounting policies followed by the

Funds in the preparation of their financial statements in accordance with US generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. Prices of forward swap contracts are also provided by an independent pricing service approved by each Fund's Board of Directors/Trustees. Futures contracts are valued using the closing settlement price, or, in the absence of such a price, at the mean of the bid and asked prices. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service or, in the absence of a pricing service for a particular investment or derivative instrument, the Board of Directors/Trustees of the Fund, or its designee, may establish fair value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates value.

#### Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At April 30, 2009, there were no such outstanding purchase commitments in any of the Funds.

#### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

#### 92 Nuveen Investments

#### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore,

management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from US generally accepted accounting principles.

#### Preferred Shares

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. As of April 30, 2009, the number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

	NEW JERSEY INVESTMENT QUALITY (NQJ)	NEW JERSEY PREMIUM INCOME (NNJ)	NEW JERSEY DIVIDEND ADVANTAGE (NXJ)	NEW JERSEY DIVIDEND ADVANTAGE 2 (NUJ)
Number of shares:				
Series M	2,960

Series W		1,440		1,304
Series TH	1,850	1,600		
Series F	1,183			
Total	5 <b>,</b> 993	3,664	1,881	1,304

	PENNSYLVANIA INVESTMENT QUALITY (NQP)	PENNSYLVANIA PREMIUM INCOME 2 (NPY)	PENNSYLVANIA DIVIDEND ADVANTAGE (NXM)	PENNSYLVANIA DIVIDEND ADVANTAGE 2 (NVY)
Number of shares:				
Series M		710		920
Series T	744		900	
Series W	2,033			
Series TH	1,693	1,748		
Series F		1,513		

Total 4,470 3,971 900 920

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the Preferred shares issued by the Funds than there were offers to buy. This meant that these auctions "failed to clear," and that many Preferred shareholders who wanted to sell their shares in these auctions were unable to do so. Preferred shareholders unable to sell their shares received distributions at the "maximum rate" applicable to failed auctions as calculated in accordance with the pre-established terms of the Preferred shares.

Nuveen Investments 93

#### | Notes to FINANCIAL STATEMENTS (continued)

These developments have generally not affected the portfolio management or investment policies of the Funds. However, one implication of these auction failures for Common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future Common share earnings may be lower than they otherwise would have been. As of April 30, 2009, the aggregate amount of outstanding Preferred shares redeemed by each Fund is as follows:

	NEW JERSEY	NEW JERSEY	NEW JERSE
	INVESTMENT	PREMIUM	DIVIDEN
	QUALITY	INCOME	ADVANTAG
	(NQJ)	(NNJ)	(NX
Preferred shares redeemed, at liquidation value	\$ 12,175,000 	\$	\$ 975 <b>,</b> 00

	(NQP)	(NPY)	(NX
Preferred shares redeemed, at liquidation value	\$ 20,250,000	\$ 18,825,000	\$ 2,500,00

### Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received

by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) - Inverse floating rate investment." An investment in a self-deposited inverse floater is accounted for as a financing transaction in accordance with Statement of Financial Accounting Standards No. 140 (SFAS No. 140) "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities." In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) - Underlying bond of an inverse floating rate trust," with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates is recognized as "Interest expense on floating rate obligations" on the Statement of Operations.

#### 94 Nuveen Investments

During the fiscal year ended April 30, 2009, New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), New Jersey Dividend Advantage (NXJ), Pennsylvania Investment Quality (NQP), Pennsylvania Premium Income 2 (NPY), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) invested in externally-deposited inverse floaters and/or self-deposited inverse floaters. New Jersey Dividend Advantage 2 (NUJ) did not invest in any such instruments during the fiscal year ended April 30, 2009.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") (such agreements referred to herein as "Recourse Trusts") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is included as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

At April 30, 2009, the Funds were not invested in externally-deposited Recourse Trusts.

NEW JERSEY INVESTMENT QUALITY (NQJ)	PREMIUM INCOME	DIVIDEN ADVANTAG

INVESTMENT	PENNSYLVANIA PREMIUM INCOME 2	DIVIDEN
(NQP)	(NPY)	) (N>
\$ 	INVESTMENT QUALITY (NQJ)  \$  PENNSYLVANIA INVESTMENT	QUALITY INCOME (NQJ) (NNJ)  \$ \$  PENNSYLVANIA PENNSYLVANIA INVESTMENT PREMIUM

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the fiscal year ended April 30, 2009, were as follows:

	1	PENNSYLVANIA	PENNSYLVANIA	PENNSYLVANI
		INVESTMENT	PREMIUM	DIVIDEN
		QUALITY	INCOME 2	ADVANTAG
		(NQP)	(NPY)	(NX
Average floating rate obligations	\$	22,135,849	\$ 3,963,301	\$ 149,61
Average annual interest rate and fees		1.81%	2.35%	1.1

#### Forward Swap Transactions

Each Fund is authorized to invest in forward interest rate swap transactions. Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Fund's interest rate sensitivity with that of the broader municipal market. Forward interest rate swap transactions involve each Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increases or decreases. The Funds may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated, to

terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. The Funds did not invest in forward interest rate swap transactions during the fiscal year ended April 30, 2009.

Nuveen Investments 95

| Notes to FINANCIAL STATEMENTS (continued)

Futures Contracts

Each Fund is authorized to invest in futures contracts. Upon entering into a futures contract, a Fund is required to deposit with the broker an amount of cash or liquid securities equal to a specified percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by a Fund each day, depending on the daily fluctuation of the value of the contract.

During the period the futures contract is open, changes in the value of the contract are recognized as an unrealized gain or loss by "marking-to-market" on a daily basis to reflect the changes in market value of the contract. When the contract is closed or expired, a Fund records a realized gain or loss equal to the difference between the value of the contract on the closing date and value of the contract when originally entered into. Cash held by the broker to cover initial margin requirements on open futures contracts, if any, is recognized on the Statement of Assets and Liabilities. Additionally, the Statement of Assets and Liabilities reflects a receivable or payable for the variation margin, when applicable. New Jersey Premium Income (NNJ) and Pennsylvania Dividend Advantage 2 (NVY) invested in futures contracts during the fiscal year ended April 30, 2009.

Risks of investments in futures contracts include the possible adverse movement of the securities or indices underlying the contracts, the possibility that there may not be a liquid secondary market for the contracts and/or that a change in the value of the contract may not correlate with a change in the value of the underlying securities or indices.

Market and Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (credit risk). Similar to credit risk, each Fund may be exposed to counterparty risk, or the risk that an institution or other entity with which the Fund has unsettled or open transactions will default. The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to credit risk, consist principally of cash due from counterparties on forward, option and swap transactions. The extent of each Fund's exposure to credit and counterparty risks in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Each Fund helps manage credit risk by entering into agreements only with counterparties Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments Inc. ("Nuveen"), believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the

financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the predetermined threshold amount.

#### Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. Such securities are included in the Portfolios of Investments with a 0.000% coupon rate in their description. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

#### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

#### 96 Nuveen Investments

#### Indemnifications

Under the Funds' organizational documents, their Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

#### Use of Estimates

The preparation of financial statements in conformity with US generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

#### 2. FAIR VALUE MEASUREMENTS

During the current fiscal period, the Funds adopted the provisions of Statement of Financial Accounting Standards No. 157 (SFAS No. 157) "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements. In determining the value of each Fund's investments various inputs are used. These inputs are summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of each Fund's fair value measurements as of April 30, 2009:

 ==== 3 	 ===:	 :==

#### 5. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate transactions subject to SFAS No.140, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At April 30, 2009, the cost of investments was as follows:

			NEW JERSEY INVESTMENT QUALITY (NQJ)		_		NEW JERSEY DIVIDEND ADVANTAGE 2 (NUJ)
Cost o	of investments	\$	432,010,326	\$ 255,351,414 	\$ 136,405,667	\$	95,732,578

The following Fund has elected to defer net realized losses from investments incurred from November 1, 2008 through April 30, 2009, the Fund's tax year end, ("post-October losses") in accordance with federal income tax regulations. Post-October losses are treated as having arisen on the first day of the following fiscal year:

	NE	EW JERSEY
	IN	NVESTMENT
		QUALITY
		(NQJ)
Post-October capital losses	\$	133,482

#### 6. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the

Adviser, and a specific fund-level component, based only on the amount of assets within each individual Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (1)	NEW JERSEY INVESTMENT QUALITY (NQJ)  NEW JERSEY PREMIUM INCOME (NNJ)  PENNSYLVANIA INVESTMENT QUALITY (NQP)  PENNSYLVANIA PREMIUM INCOME 2 (NPY)  FUND-LEVEL FEE RATE
For the first \$125 million	.4500%
For the next \$125 million	.4375
For the next \$250 million	.4250
For the next \$500 million	.4125
For the next \$1 billion	.4000
For the next \$3 billion	.3875
For net assets over \$5 billion	.3750

For the first \$125 million For the next \$125 million For the next \$250 million For the next \$500 million	NEW JERSEY DIVIDEND ADVANTAGE 2 (NUJ) PENNSYLVANIA DIVIDEND ADVANTAGE (NXM) PENNSYLVANIA DIVIDEND ADVANTAGE 2 (NVY) FUND-LEVEL FEE RATE  . 4500% . 4375 . 4250 . 4125
For the first \$125 million For the next \$125 million For the next \$250 million	NEW JERSEY DIVIDEND ADVANTAGE 2 (NUJ) PENNSYLVANIA DIVIDEND ADVANTAGE (NXM) PENNSYLVANIA DIVIDEND ADVANTAGE 2 (NVY) FUND-LEVEL FEE RATE  . 4500% . 4375 . 4250

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund net assets managed as stated in the following table. As of April 30, 2009, the complex-level fee rate was .1998%.

\_\_\_\_\_\_

Nuveen Investments 103

#### | Notes to FINANCIAL STATEMENTS (continued)

The complex-level fee schedule is as follows:

COMPLEX-LEVEL NET ASSET BREAKPOINT LEVEL (1) EFFECTIVE RATE AT BREAKPOINT LEVEL \$55 billion .2000% \$56 billion .1996 \$57 billion .1989 \$60 billion .1961 \$63 billion . 1931 \$66 billion .1900 \$71 billion .1851 \$76 billion .1806 \$80 billion .1773

\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate daily managed net assets of all Nuveen funds, with such daily managed net assets defined separately for each fund in its management agreement, but excluding assets attributable to investments in other Nuveen funds. For the complex-level and fund-level fee components, daily managed net assets includes assets managed by the Adviser that are attributable to each fund's use of financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by the TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser to limit the amount of such assets for determining managed net assets in certain circumstances.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

For the first ten years of New Jersey Dividend Advantage's (NXJ) and Pennsylvania Dividend Advantage's (NXM) operations, the Adviser has agreed to reimburse the Funds, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING MARCH 31,		YEAR ENDING MARCH 31,	
2001*	.30%	2007	.25%
2002	.30	2008	.20
2003	.30	2009	.15
2004	.30	2010	.10
2005	.30	2011	.05
2006	.30		

<sup>\*</sup> From the commencement of operations.

104 Nuveen Investments

The Adviser has not agreed to reimburse New Jersey Dividend Advantage (NXJ) and Pennsylvania Dividend Advantage (NXM) for any portion of their fees and expenses beyond March 31, 2011.

For the first ten years of New Jersey Dividend Advantage 2's (NUJ) and

Pennsylvania Dividend Advantage 2's (NVY) operations, the Adviser has agreed to reimburse the Funds, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING MARCH 31,		YEAR ENDING MARCH 31,	
2002*	.30%	2008	.25%
2003	.30	2009	.20
2004	.30	2010	.15
2005	.30	2011	.10
2006	.30	2012	.05
2007	.30		

#### \* From the commencement of operations.

The Adviser has not agreed to reimburse New Jersey Dividend Advantage 2 (NUJ) and Pennsylvania Dividend Advantage 2 (NVY) for any portion of their fees and expenses beyond March 31, 2012.

#### 7. NEW ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161 (SFAS No. 161)

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities." This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. As of April 30, 2009, management does not believe the adoption of SFAS No. 161 will impact the financial statement amounts; however, additional footnote disclosures may be required about the use of derivative instruments and hedging items.

Financial Accounting Standards Board Staff Position No. 157-4 (FSP No. 157-4)

On April 9, 2009, the Financial Accounting Standards Board issued FSP No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly." FSP No. 157-4 provides additional guidance for estimating fair value in accordance with SFAS No. 157, "Fair Value Measurements," when the volume and level of activity for the asset or liability have significantly decreased. FSP No. 157-4 also requires additional disaggregation of the current SFAS No. 157 required disclosures. FSP No. 157-4 is effective for interim and annual reporting periods ending after June 15, 2009, and shall be applied prospectively. At this time, management is evaluating the implications of FSP No. 157-4 and the impact it will have on the financial statement disclosures.

#### 8. SUBSEQUENT EVENTS

Distributions to Common Shareholders

The Funds declared Common share dividend distributions from their tax-exempt net investment income which were paid on June 1, 2009, to shareholders of record on May 15, 2009, as follows:

<sup>\*</sup> Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- \*\* After custodian fee credit and expense reimbursement, where applicable.
- \*\*\* Rounds to less than \$.01 per share.
- \*\*\*\* Annualized.
- + The amounts shown are based on Common share equivalents.
- ++ Ratios do not reflect the effect of dividend payments to Preferred shareholders; income ratios reflect income earned on assets attributable to Preferred shares.
- (a) Interest expense arises from the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully described in Footnote 1 Inverse Floating Rate Securities.
- (b) For the ten months ended April 30, 2007.

\* Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- \*\* After custodian fee credit and expense reimbursement, where applicable.
- \*\*\* During the fiscal year ended June 30, 2006, Pennsylvania Premium Income 2 (NPY) received a payment from the Adviser of \$27,169, to offset losses realized on the disposal of investments purchased in violation of the Fund's investment restrictions. This reimbursement did not have an impact on the Fund's Total Return on Common Share Net Asset Value.
- \*\*\*\* Annualized.
- + The amounts shown are based on Common share equivalents.
- ++ Ratios do not reflect the effect of dividend payments to Preferred shareholders; income ratios reflect income earned on assets attributable to Preferred shares.
- (a) Interest expense arises from the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully described in Footnote 1 - Inverse Floating Rate Securities.
- (b) For the ten months ended April 30, 2007.

See accompanying notes to financial statements.

\* Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- \*\* After custodian fee credit and expense reimbursement, where applicable.
- \*\*\* Rounds to less than \$.01 per share.
- \*\*\*\* Annualized.
- + The amounts shown are based on Common share equivalents.
- ++ Ratios do not reflect the effect of dividend payments to Preferred shareholders; income ratios reflect income earned on assets attributable to Preferred shares.
- (a) Interest expense arises from the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully described in Footnote 1 Inverse Floating Rate Securities.
- (b) For the ten months ended April 30, 2007.

See accompanying notes to financial statements.

#### Board Members & Officers

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board Members of the Funds. The number of board members of the Fund is currently set at nine. None of the board members who are not "interested" persons of the Funds (referred to herein as "independent board members") has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

<sup>(1)</sup> Board Members serve three year terms, except for two board members who are elected by the holders of Preferred Shares. The Board of Trustees is divided into three classes, Class I, Class II, and Class III, with each being elected to serve until the third succeeding annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed, except two board members are elected by the holders of Preferred Shares to serve until the

next annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. The first year elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.

- (2) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (3) Nuveen Advisory Corp. and Nuveen Institutional Advisory Corp. were reorganized into Nuveen Asset Management, effective January 1, 2005.
- (4) Officers serve one year terms through July of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

120 Nuveen Investments

Reinvest Automatically Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

NUVEEN CLOSED-END FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

#### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

#### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions

awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued

Nuveen Investments 121

Reinvest Automatically Easily and Conveniently (continued)

by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

#### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

CALL TODAY TO START REINVESTING DIVIDENDS AND/OR DISTRIBUTIONS

Glossary of Terms Used in this Report

- O AUCTION RATE BOND: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have "failed", with current holders receiving a formula-based interest rate until the next scheduled auction.
- o AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the invest- ment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- o AVERAGE EFFECTIVE MATURITY: The average of the number of years to maturity of the bonds in a Fund's portfolio, computed by weighting each bond's time

to maturity (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions unless an escrow account has been established to redeem the bond before maturity. The market value weighting for an investment in an inverse floating rate security is the value of the portfolio's residual interest in the inverse floating rate trust, and does not include the value of the floating rate securities issued by the trust.

INVERSE FLOATERS: Inverse floating rate securities are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short- term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater typically also benefits disproportion- ately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

Nuveen Investments 123

Glossary of Terms Used in this Report (continued)

- O LEVERAGE-ADJUSTED DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.
- o MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.
- o NET ASSET VALUE (NAV): A Fund's NAV per common share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of common shares outstanding. Fund NAVs are calculated at the end of each business day.
- o TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
- O ZERO COUPON BOND: A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/CEF/Info/Shareholder. (To view the code, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees ("Board") determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

#### ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

FISCAL YEAR ENDED	AUDIT FEES BILLED TO FUND (1)	AUDIT-RELATED FEES BILLED TO FUND (2)	TAX BILLED T
April 30, 2009	\$ 18,743	\$ 0	
Percentage approved pursuant to pre-approval exception	0%	0%	
April 30, 2008	\$ 18,476	\$ 0	
Percentage approved pursuant to pre-approval exception	0%	0%	

(1) "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

- (2) "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees."
- (3) "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.
- (4) "All Other Fees" are the aggregate fees billed for products and services other than "Audit Fees," "Audit Related Fees," and "Tax Fees."

# SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

FISCAL YEAR ENDED	AUDIT-RELATED FEES BILLED TO ADVISER AND AFFILIATED FUND SERVICE PROVIDERS	TAX FEES BILLE ADVISER AN AFFILIATED F SERVICE PROVI

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the pre-approval exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

"Non-Audit Fees billed to Adviser" for both fiscal year ends represent "Tax Fees" billed to Adviser in their respective amounts from the previous table.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Jack B. Evans, Terence J. Toth, William J. Schneider and David J. Kundert.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant invests its assets primarily in municipal bonds and cash management securities. On rare occasions the registrant may acquire, directly or through a special purpose vehicle, equity securities of a municipal bond issuer whose bonds the registrant already owns when such bonds have deteriorated or are expected shortly to deteriorate significantly in credit quality. The purpose of acquiring equity securities generally will be to acquire control of the municipal bond issuer and to seek to prevent the credit deterioration or facilitate the liquidation or other workout of the distressed issuer's credit problem. In the course of exercising control of a distressed municipal issuer, NAM may pursue the registrant's interests in a variety of ways, which may entail negotiating and executing consents, agreements and other arrangements, and otherwise influencing the management of the issuer. NAM does not consider such activities proxy voting for purposes of Rule 206(4)-6 under the 1940 Act, but nevertheless provides reports to the registrant's Board on its control activities on a quarterly basis.

In the rare event that a municipal issuer were to issue a proxy or that the registrant were to receive a proxy issued by a cash management security, NAM would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the registrant's Board or its representative. A member of NAM's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 206(4)-6, reports were filed with the SEC on Form N-PX, and the results provided to the registrant's Board and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

#### THE PORTFOLIO MANAGER

The following individual has primary responsibility for the day-to-day implementation of the registrant's investment strategies:

NAME FUND

Cathryn P. Steeves Nuveen Pennsylvania Investment Quality Municipal Fund

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

PORTFOLIO MANAGER	TYPE OF ACCOUNT MANAGED	NUMBER OF ACCOUNTS	ASSETS
Cathryn P. Steeves	Registered Investment Company Other Pooled Investment Vehicles	45 0	\$7.37 billion \$0
	Other Accounts	0	\$0

\* Assets are as of April 30, 2009. None of the assets in these accounts are subject to an advisory fee based on performance.

Compensation. Each portfolio manager's compensation consists of three basic elements—base salary, cash bonus and long—term incentive compensation. The compensation strategy is to annually compare overall compensation to the market in order to create a compensation structure that is competitive and consistent with similar financial services companies. As discussed below, several factors are considered in determining each portfolio manager's total compensation. In any year these factors may include, among others, the effectiveness of the investment strategies recommended by the portfolio manager's investment team, the investment performance of the accounts managed by the portfolio manager, and the overall performance of Nuveen Investments, Inc. (the parent company of NAM). Although investment performance is a factor in determining the portfolio manager's compensation, it is not necessarily a decisive factor. The portfolio

manager's performance is evaluated in part by comparing manager's performance against a specified investment benchmark. This fund-specific benchmark is a customized subset (limited to bonds in each Fund's specific state and with certain maturity parameters) of the S&P/Investortools Municipal Bond index, an index comprised of bonds held by managed municipal bond fund customers of Standard & Poor's Securities Pricing, Inc. that are priced daily and whose fund holdings aggregate at least \$2 million. As of April 30, 2009, the S&P/Investortools Municipal Bond index was comprised of 52,532 securities with an aggregate current market value of \$1,047 billion.

Base salary. Each portfolio manager is paid a base salary that is set at a level determined by NAM in accordance with its overall compensation strategy discussed above. NAM is not under any current contractual obligation to increase a portfolio manager's base salary.

Cash bonus. Each portfolio manager is also eligible to receive an annual cash bonus. The level of this bonus is based upon evaluations and determinations made by each portfolio manager's supervisors, along with reviews submitted by his peers. These reviews and evaluations often take into account a number of factors, including the effectiveness of the investment strategies recommended to the NAM's investment team, the performance of the accounts for which he serves as portfolio manager relative to any benchmarks established for those accounts, his effectiveness in communicating investment performance to stockholders and their representatives, and his contribution to the NAM's investment process and to the execution of investment strategies. The cash bonus component is also impacted by the overall performance of Nuveen Investments, Inc. in achieving its business objectives.

Long-term incentive compensation. In connection with the acquisition of Nuveen Investments, Inc., by a group of investors led by Madison Dearborn Partners in November 2007, certain employees, including portfolio managers, received profit interests in Nuveen's parent. These profit interests entitle the holders to participate in the appreciation in the value of Nuveen beyond the issue date and vest over five to seven years, or earlier in the case of a liquidity event.

Material Conflicts of Interest. Each portfolio manager's simultaneous management of the registrant and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the registrant and the other account. NAM, however, believes that such potential conflicts are mitigated by the fact that the NAM has adopted several policies that address potential conflicts of interest, including best execution and trade allocation policies that are designed to ensure (1) that portfolio management is seeking the best price for portfolio securities under the circumstances, (2) fair and equitable allocation of investment opportunities among accounts over time and (3) compliance with applicable regulatory requirements. All accounts are to be treated in a non-preferential manner, such that allocations are not based upon account performance, fee structure or preference of the portfolio manager, although the allocation procedures may provide allocation preferences to funds with special characteristics (such as favoring state funds versus national funds for allocations of in-state bonds). In addition, NAM has adopted a Code of Conduct that sets forth policies regarding conflicts of interest.

Beneficial Ownership of Securities. As of the April 30, 2009, the portfolio manager beneficially owned the following dollar range of equity securities issued by the registrant and other Nuveen Funds managed by NAM's municipal investment team.

TOTAL	27,500			

<sup>\*</sup> The registrant's first repurchase program, which authorized the repurchase of 1,600,000 shares, was announced on July 10, 2007 and expired on July 9, 2008. A second repurchase program, which authorized the repurchase of 1,615,000 shares, was announced on August 7, 2008. Any repurchases made by the registrant pursuant to the program were made through open-market

transactions.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this item.

#### ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

#### ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/CEF/Info/Shareholder and there were no amendments during the period covered by this report. (To view the code, click on Fund Governance and then Code of Conduct.)
- (a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.
- (a) (3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.

#### SIGNATURES
