GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with research offices in over 25 countries, they offer investors the broadest global reach in the industry.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among undervalued stocks, arbitrage situations and distressed companies.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to distinctly different investment approaches, Franklin, Templeton and Mutual Series funds typically have a low overlap of securities. That's why our funds can be used to build truly diversified portfolios covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable account services that have helped us become one of the most trusted names in financial services.

Templeton Emerging Markets
Income Fund

YOUR FUND'S GOAL AND MAIN INVESTMENTS: Templeton Emerging Markets Income Fund seeks high, current income, with a secondary goal of capital appreciation, by investing, under normal market conditions, at least 80% of its total net assets in income-producing securities of sovereign or sovereign-related entities and private sector companies in emerging market countries.

Dear Shareholder:

We are pleased to bring you Templeton Emerging Markets Income Fund's semiannual report for the period ended February 28, 2005.

THE DOLLAR VALUE, NUMBER OF SHARES OR PRINCIPAL AMOUNT, AND NAMES OF ALL PORTFOLIO HOLDINGS ARE LISTED IN THE FUND'S STATEMENT OF INVESTMENTS (SOI). THE SOI BEGINS ON PAGE 10.

WHAT IS BALANCE OF PAYMENTS?

Balance of payments is a record of all of a country's exports and imports of goods and services, borrowing and lending with the rest of the world during a particular time period. It helps a country evaluate its competitive strengths and weaknesses and forecast the strength of its currency.

WHAT IS A CURRENT ACCOUNT?

A current account is that part of the balance of payments where all of one country's international transactions in goods and services are recorded.

PERFORMANCE OVERVIEW

For the six months under review, Templeton Emerging Markets Income Fund posted cumulative total returns of 15.98% based on market price and 11.84% based on net asset value. The Fund outperformed the J.P. Morgan (JPM) Emerging Markets Bond Index Global (EMBIG), which posted an 8.01% cumulative total return in U.S. dollar terms for the same period. 1 You can find the Fund's long-term performance data in the Performance Summary on page 7.

ECONOMIC AND MARKET OVERVIEW

During the six months under review, overall global growth conditions remained robust, particularly in the U.S. and Asia. Although there was some increase in inflationary pressures regionally, inflation generally remained historically low, and global treasury yield curves flattened over the period.

The U.S. economy experienced improved growth amid employment gains and strong investment spending. The core Consumer Price Index moved higher, rising to 2.4% at period-end from 1.7% at the beginning of the reporting period. In an effort to ease inflationary pressures, the Federal Reserve Board raised the federal funds target rate 100 basis points (100 basis points equal one percent) from 1.50% to 2.50%. Economic growth indicators were generally quite positive; however, measures of the U.S. balance of payment position sharply deteriorated. The U.S. trade deficit reached record levels, hitting a \$61 billion monthly deficit level in February 2005 and a current account deficit of 6.3% of gross domestic product (GDP) in fourth quarter 2004. 2 Although financing of the current account deficit through foreign purchases of U.S. securities continued to rise over the reporting period, the increase was not enough to prevent a decline in the U.S. dollar's value against the euro and other major trading partners' currencies, and it depreciated 6.96% on a trade-weighted basis.

Economic growth in Europe generally moderated in the second half of 2004, with the slowdown most apparent in the euro zone. During fourth quarter 2004, real GDP growth in the euro zone slowed to 1.6% annualized. Soft labor markets contributed to weak domestic demand conditions. Additionally, the export sector's contributions to growth eased largely due to the euro's sustained strength, which weighed on exports. Because of the weaker growth

dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans and Eurobonds. Local bond market returns are from country subindexes of the JPM EMBIG. The index is unmanaged and includes reinvested interest. conditions, underlying inflationary pressures were limited, and the European Central Bank left interest rates unchanged at 2.00%. During the reporting period, the euro rose 8.97% against the U.S. dollar.

Asia's economic performance was divided between mixed developments in Japan, which experienced weakening growth indicators and continued deflationary concerns, and generally strong economic performance elsewhere in Asia. In fourth quarter 2004, Japan's GDP growth slowed to 0.5% compared with a year earlier, while GDP grew 9.5% in China, 5.1% in Thailand and 3.3% in South Korea. 3 Asia generally continued to produce current account surpluses, facilitating further buildup of foreign currency reserves in the region. While Japan's foreign currency accumulation slowed relative to prior periods given less government intervention in currency markets, China's reserve accumulation accelerated. For the six months under review, Japan's reserves rose \$12 billion. From September through December 2004, China's increased \$114 billion.

INVESTMENT STRATEGY

We invest selectively in bonds around the world to generate income for the Fund, seeking opportunities while monitoring changes in interest rates, currency rates and credit risk.

MANAGER'S DISCUSSION

During the six months under review, global growth conditions remained favorable for emerging market economies, particularly as strong growth in the U.S. and Asia supported consumption demand for imports of goods and commodities from emerging market countries. Sovereign interest rate spreads declined from 425 basis points (100 basis points equal one percentage point) greater than the U.S. Treasury market at the beginning of the reporting period to 333 basis points at period-end. Regionally, Latin American sovereign debt rose 8.70%, central and eastern Europe's increased 9.51% and Asia's appreciated 4.08%. 1 Similarly, the JPM Euro EMBIG rose 6.27% in euro terms and 15.80% in U.S. dollar terms during the period. 4 The Fund benefited from selective sovereign debt exposure and from diversification away from U.S. dollar-denominated sovereign bonds into local currency debt markets.

Semiannual Report | 3

We sought this positioning given potential risk to sovereign yields from rising U.S. interest rates, as well as currency risk to the U.S. dollar stemming from weak balance of payment conditions.

LATIN AMERICA

With close economic ties to the U.S., Latin America experienced firmer economic growth over the period, and the region also generated stronger current account surpluses. The Fund's Latin American holdings were predominantly U.S. dollar-denominated sovereign bonds. The JPM EMBIG's Venezuelan, Brazilian and Argentine subindexes increased 12.08%, 11.00% and 10.30%, respectively, for the six-month period. 1 Venezuela, as a large oil exporter, benefited from continued strength in oil prices, which helped the country's credit fundamentals. In Brazil, inflationary pressures accompanied solid economic growth during the period, and largely as a result, Brazil's central bank raised interest rates 275 basis points. 5 Although Brazil remained the Fund's largest weighting at period-end, the Fund trimmed overall exposure, moving to a slight underweighting in Brazil relative to the JPM EMBIG. During the period, the Fund increased exposure to performing Argentine bonds as economic stability along with progress on debt restructuring supported Argentine bond performance.

EASTERN AND CENTRAL EUROPE

Ukraine and Russia were among the Fund's U.S. dollar-denominated eastern European holdings during the period. Ukrainian sovereign bonds returned 8.71%, helped by the landmark election of the presidential candidate many perceived as market friendly. 1 In addition to a strong economic environment with 12% GDP growth in 2004, such political developments seemed to provide a positive backdrop for progress on previously stalled structural reform initiatives, which has the potential to enhance Ukraine's credit standing. 6 Russia's sovereign

bonds appreciated in value 11.58%, benefiting from an investment grade sovereign credit rating from Standard & Poor's and Moody's Investors Service, two independent credit rating agencies. 1

4 | Semiannual Report

Among the Fund's local currency holdings in central Europe, Polish bonds rose 38.74% in U.S. dollar terms and Hungarian bonds increased 28.29% during the period, as measured by the JPM Global Bond Index (GBI) Broad's country-specific subindexes. 7 Following strong economic growth in the lead-up to European Union accession, as well as slowing growth in the euro zone, growth in central Europe began to moderate during the period. Additionally, favorable inflation developments in central Europe facilitated interest rate cuts in Hungary of 275 basis points and prompted Poland's central bank to move to an easing bias. 8 In addition to interest rate cuts supporting some bonds' performance, higher interest rate levels relative to the euro zone supported the region's currency performance, and central European currencies were among the top performing during the period.

ASIA

Asia generally experienced strong economic growth during the period while maintaining large current account surpluses. The Fund's local currency Asian bond market exposure benefited performance relative to the JPM EMBIG, supported by local currency strength against the U.S. dollar. For example, Indonesia's bond market returned 12.08% in U.S. dollar terms, as measured by the HSBC Asian Local Bond Index (ALBI), supported by favorable economic conditions in Indonesia, such as slowing inflation and robust growth, as well as political stability and attractive yields. 9 Additionally, the country's economy benefited from greater investment spending, which rose 18.3% annualized in fourth quarter 2004. Elsewhere in Asia, the HSBC ALBI's South Korea and Thailand subindexes returned 14.95% and 11.72% in U.S. dollar terms. 9 The Fund's Philippine sovereign debt exposure underperformed the broader market during the reporting period.

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Emerging Markets Income Fund (the Fund) is registered under the Investment Company Act of 1940 as a non-diversified, closed-end investment company. Effective June 1, 2004, the Fund was reorganized from a Maryland corporation into a Delaware statutory trust. The Fund seeks high current income, with a secondary goal of capital appreciation, by investing, under normal conditions, at least 80% of its total net assets in income-producing securities of sovereign or sovereign-related entities and private sector companies in emerging market countries. The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

Corporate debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Some methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

The Fund does not separately report the effect of changes in foreign exchange

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts.

D. INCOME TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income. Fund distributions to shareholders are determined on an income tax basis and may differ from net investment income and realized gains for financial reporting purposes.

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Discounts and premiums on securities purchased are amortized over the lives of the respective securities. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

A. MANAGEMENT FEE

The Fund pays an investment management fee to Advisers based on the Fund's average daily net assets as follows:

ANNUALIZED FEE RATE	NET ASSETS
0.850%	Up to and including \$1 billion
0.830%	Over \$1 billion, up to and including \$5 billion
0.810%	Over \$5 billion, up to and including \$10 billion
0.790%	Over \$10 billion, up to and including \$15 billion
0.770%	Over \$15 billion, up to and including \$20 billion
0.750%	Over \$20 billion

B. ADMINISTRATIVE FEES

The Fund pays an administrative fee to FT Services of 0.15% per year based on the Fund's average daily net assets.

4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended February 28, 2005, the custodian fees were reduced as noted in the Statement of Operations.

5. INCOME TAXES

At August 31, 2004, the Fund had tax basis capital losses which may be carried over to offset future capital gains. Such losses expire as follows:

Capital loss carryovers expiring in:	
2009	\$ 4,205,169
2010	22,453,289
2011	24,484,014

	\$51,142,472
	=====

Net investment income differs for financial statement and tax purposes primarily

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

due to differing treatments of accrual of interest on defaulted bonds, foreign currency transactions, and bond discounts and premiums.

Net realized gains differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, and bond discounts and premiums.

At February 28, 2005, the net unrealized appreciation (depreciation) based on the cost of investments for income tax purposes were as follows:

Cost of investments	\$593,969,054
	=====
Unrealized appreciation	\$ 88,719,998
Unrealized depreciation	(23,447,484)

Net unrealized appreciation (depreciation)	\$ 65,272,514
	=====

6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short-term securities) for the period ended February 28, 2005 aggregated \$92,430,137 and \$93,326,273, respectively.

7. CREDIT RISK AND DEFAULTED SECURITIES

The Fund has 63.10% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions than higher rated securities. The risk of loss due to default by the issuer may be significantly greater for the holders of high yielding securities because such securities are generally unsecured and are often subordinated to other creditors of the issuer.

The Fund held defaulted securities and/or other securities for which the income has been deemed uncollectible. At February 28, 2005, the value of these securities was \$10,724,741, representing 1.59% of the Fund's net assets. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. For information as to specific securities, see the accompanying Statement of Investments.

8. CONCENTRATION OF RISK

Investing in securities of emerging market issuers includes certain risks not typically associated with investing in countries with more developed securities markets, such as political, economic and legal uncertainties, delays in settling

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

portfolio transactions, currency fluctuations, and the risk of loss from underdeveloped systems of securities registration and transfer.

9. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund.

10. REGULATORY MATTERS

INVESTIGATIONS

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, including the Securities and Exchange Commission ("SEC"), the California Attorney General's Office ("CAGO"), and the National Association of Securities Dealers, Inc. ("NASD"), relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (as used in this section, together, the "Company"), as well as certain current or former executives and employees of the Company, received subpoenas and/or requests for documents, information and/or testimony. The Company and its current employees provided documents and information in response to those requests and subpoenas.

SETTLEMENTS

Beginning in August 2004, the Company entered into settlements with certain regulators investigating the mutual fund industry practices noted above. The Company believes that settlement of each of the matters described in this section is in the best interest of the Company and shareholders of the Franklin, Templeton, and Mutual Series mutual funds (the "funds").

10. REGULATORY MATTERS (CONTINUED)

SETTLEMENTS (CONTINUED)

On August 2, 2004, Franklin Resources, Inc. announced that its subsidiary, Franklin Advisers, Inc., reached an agreement with the SEC that resolved the issues resulting from the SEC investigation into market timing activity. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940 and Sections 9(b) and 9(f) of the Investment Company Act of 1940, Making Findings and Imposing Remedial Sanctions and a Cease-and-Desist Order" (the "Order"). The SEC's Order concerned the activities of a limited number of third parties that ended in 2000 and those

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

that were the subject of the first Massachusetts administrative complaint described below.

Under the terms of the SEC's Order, pursuant to which Franklin Advisers, Inc. neither admitted nor denied any of the findings contained therein, Franklin Advisers, Inc. agreed to pay \$50 million, of which \$20 million is a civil penalty, to be distributed to shareholders of certain funds in accordance with a plan to be developed by an independent distribution consultant. At this time, it is unclear which funds or which shareholders of any particular fund will receive distributions. The Order also required Franklin Advisers, Inc. to, among other things, enhance and periodically review compliance policies and procedures.

On September 20, 2004, Franklin Resources, Inc. announced that two of its subsidiaries, Franklin Advisers, Inc. and Franklin Templeton Alternative Strategies, Inc. ("FTAS"), reached an agreement with the Securities Division of the Office of the Secretary of the Commonwealth of Massachusetts (the "State of Massachusetts") related to its administrative complaint filed on February 4, 2004, concerning one instance of market timing that was also a subject of the August 2, 2004 settlement that Franklin Advisers, Inc. reached with the SEC, as described above.

Under the terms of the settlement consent order issued by the State of Massachusetts, Franklin Advisers, Inc. and FTAS consented to the entry of a cease-and-desist order and agreed to pay a \$5 million administrative fine to the State of Massachusetts (the "Massachusetts Consent Order"). The Massachusetts Consent Order included two different sections: "Statements of Fact" and "Violations of Massachusetts Securities Laws." Franklin Advisers, Inc. and FTAS admitted the facts in the Statements of Fact.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

10. REGULATORY MATTERS (CONTINUED)

SETTLEMENTS (CONTINUED)

On October 25, 2004, the State of Massachusetts filed a second administrative complaint, alleging that Franklin Resources, Inc.'s Form 8-K filing (in which it described the Massachusetts Consent Order and stated that "Franklin did not admit or deny engaging in any wrongdoing") failed to state that Franklin Advisers, Inc. and FTAS admitted the Statements of Fact portion of the Massachusetts Consent Order (the "Second Complaint"). Franklin Resources, Inc. reached a second agreement with the State of Massachusetts on November 19, 2004, resolving the Second Complaint. As a result of the November 19, 2004 settlement, Franklin Resources, Inc. filed a new Form 8-K. The terms of the Massachusetts Consent Order did not change and there was no monetary fine associated with this second settlement.

On November 17, 2004, Franklin Resources, Inc. announced that Franklin Templeton Distributors, Inc. ("FTDI") reached an agreement with the CAGO, resolving the issues resulting from the CAGO's investigation concerning sales and marketing support payments. Under the terms of the settlement, FTDI neither admitted nor

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

denied the allegations in the CAGO's complaint and agreed to pay \$2 million to the State of California as a civil penalty, \$14 million to the funds, to be allocated by an independent distribution consultant to be paid for by FTDI, and \$2 million to the CAGO for its investigative costs.

On December 13, 2004, Franklin Resources, Inc. announced that its subsidiaries FTDI and Franklin Advisers, Inc. reached an agreement with the SEC, resolving the issues resulting from the SEC's investigation concerning marketing support payments to securities dealers who sell fund shares. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings, Making Findings, and Imposing Remedial Sanctions Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940, Sections 9(b) and 9(f) of the Investment Company Act of 1940, and Section 15(b) of the Securities Exchange Act of 1934" (the "Second Order").

Under the terms of the Second Order, in which FTDI and Franklin Advisers, Inc. neither admitted nor denied the findings contained therein, they agreed to pay the funds a penalty of \$20 million and disgorgement of \$1 (one dollar). FTDI and Franklin Advisers, Inc. also agreed to implement certain measures and undertakings relating to marketing support payments to broker-dealers for the promotion or sale of fund shares, including making additional disclosures in the funds' Prospectuses and Statements of Additional Information. The Second Order further requires the appointment of an independent distribution consultant, at the Company's expense, who shall develop a plan for the distribution of the penalty and disgorgement to the funds.

SETTLEMENTS (CONTINUED)

The SEC's Second Order and the CAGO settlement agreement concerning marketing support payments provide that the distribution of settlement monies are to be made to the relevant funds, not to individual shareholders. The independent distribution consultant has substantially completed preparation of these distribution plans. The CAGO has approved the distribution plan pertaining to the distribution of the monies owed under the CAGO settlement agreement and, in accordance with the terms and conditions of that settlement, the monies were disbursed to the participating funds. The Fund did not participate in the CAGO settlement. The SEC has not yet approved the distribution plan pertaining to the Second Order. When approved, disbursements of settlement monies under the SEC's Second Order will be made promptly in accordance with the terms and conditions of that order.

OTHER LEGAL PROCEEDINGS

The Company, and other funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits in different federal courts in Nevada, California, Illinois, New York and Florida, alleging violations of various federal securities laws and seeking, among other relief,

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

monetary damages, restitution, removal of fund trustees, directors, advisers, administrators, and distributors, rescission of management contracts and 12b-1 Plans, and/or attorneys' fees and costs. Specifically, the lawsuits claim breach of duty with respect to alleged arrangements to permit market timing and/or late trading activity, or breach of duty with respect to the valuation of the portfolio securities of certain Templeton funds managed by Franklin Resources, Inc. subsidiaries, resulting in alleged market timing activity. The majority of these lawsuits duplicate, in whole or in part, the allegations asserted in the February 4, 2004 Massachusetts administrative complaint and the findings in the SEC's August 2, 2004 Order, as described above. The lawsuits are styled as class actions or derivative actions on behalf of either the named funds or Franklin Resources, Inc.

In addition, the Company, as well as certain current and former officers, employees, and directors, have been named in multiple lawsuits alleging violations of various securities laws and pendent state law claims relating to the disclosure of directed brokerage payments and/or payment of allegedly excessive advisory, commission, and distribution fees, and seeking, among other relief, monetary damages, restitution, rescission of advisory contracts, including recovery of all fees paid pursuant to those contracts, an accounting of all monies paid to the named advisers, declaratory relief, injunctive relief, and/or attorneys' fees and costs. These lawsuits are styled as class actions or derivative actions brought on behalf of certain funds.

OTHER LEGAL PROCEEDINGS (CONTINUED)

The Company and fund management strongly believe that the claims made in each of the lawsuits identified above are without merit and intend to vigorously defend against them. The Company cannot predict with certainty, however, the eventual outcome of the remaining governmental investigations or private lawsuits, nor whether they will have a material negative impact on the Company. Public trust and confidence are critical to the Company's business and any material loss of investor and/or client confidence could result in a significant decline in assets under management by the Company, which would have an adverse effect on the Company's future financial results. If the Company finds that it bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate. The Company is committed to taking all appropriate actions to protect the interests of its funds' shareholders.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

If shares of the Fund are held in the shareholder's name, the shareholder will automatically be a participant in the Plan unless he elects to withdraw. If the shares are registered in the name of a broker-dealer or other nominee (i.e., in "street name"), the broker-dealer or nominee will elect to participate in the Plan on the shareholder's behalf unless the shareholder instructs them otherwise, or unless the reinvestment service is not provided by the broker-dealer or nominee.

Participants should contact Mellon Investor Services, P.O. Box 3338, South

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSRS

Hackensack, NJ 07606-1938, to receive the Plan brochure.

To receive dividends or distributions in cash, the shareholder must notify Mellon Investor Services (the "Plan Administrator") at the address above or the institution in whose name the shares are held. The Plan Administrator must receive written notice within ten business days before the record date for the distribution.

Whenever the Fund declares dividends in either cash or shares of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in shares at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional cash payments to the Plan Administrator, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Bank, N.A." and sent to Mellon Investor Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attention: Templeton Emerging Markets Income Fund. The Plan Administrator shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of the Fund's shares on the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or distributions.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested. The Plan Administrator's fees for a sale of shares through the Plan are \$15.00 per transaction plus a \$0.12 per share trading fee.
