Section 1.01 - Entry into a Material Definitive Agreement

Bravo! Foods International Corp. has signed a multi-year distribution agreement, effective January 1, 2006, with Jasper Products, L.L.C. of Joplin Missouri, one of three dairy processors in the United States that has approval of the United States Food and Drug Administration to produce aseptic shelf stable milk in bottles. Bravo! has contracted with Jasper,

which has produced its flavored milks, including the Company's Slammers(r) line since 2001, for the continued production of Bravo!'s products through September 2010.

Under the terms of the agreement, the parties have agreed to annual volume commitments for the ordering and production of Bravo!'s various lines of shelf stable single serve flavored milk beverages. The scheduled production commitments with Jasper will be realized on a ramp up basis, commencing in April 2006, with the installation of additional processing equipment at Jasper's Joplin plant. These production commitments will satisfy the agreed upon supply obligation of Bravo! to Coca-Cola Enterprises, Inc. (CCE), under Bravo!'s Master Distribution Agreement with CCE by the summer of 2006.

To secure the production commitments, as well as the right of first refusal for Jasper's additional production capacity going forward, Bravo! has paid a one time equipment mobilization payment of \$2.7 million to Jasper. The agreement incorporates per unit monetary penalties for both unused capacity by Bravo! and any production shortfall by Jasper.
