October 9, 2002

SOLICITATION

This Proxy Statement and the enclosed proxy card were mailed to stockholders on or about August 28, 2002, in connection with the solicitation of proxies by the Board of Directors of the Company to be used at the 2002 Annual Meeting ("Annual Meeting").

If you are a stockholder of record (i.e., you hold your shares in your own name other than through a broker, bank or other nominee), you are encouraged to submit your proxy vote electronically either by telephone or the Internet. This will eliminate the need to sign, date and return your proxy card. To submit your proxy by telephone or the Internet you will be required to enter the control number assigned to you and imprinted on your proxy card accompanying this Proxy Statement. The vote by telephone and vote by Internet can be accessed 24 hours a day, seven days a week until the day prior to the Annual Meeting.

To submit your proxy vote by telephone:

- using a touch-tone phone, call 1-877-PRX-VOTE (1-877-779-8683) toll-free and follow the voice prompts

To submit your proxy vote by internet:

- Log onto internet website at <http://www.eproxyvote.com/air> and enter your voter control number on your proxy card and mark the appropriate boxes to enter voting instructions

If you are a street-name stockholder (i.e., you hold your shares through a broker, bank or other nominee), you will receive instructions from your broker, bank or other nominee describing how you may vote your shares.

You may change your vote at any time before your proxy is exercised, but only by voting in person at the Annual Meeting, or by submitting another proxy by telephone, the Internet, or delivering a later dated, signed proxy to the Secretary of the Company.

Proxies will be voted in accordance with instructions on the proxy. If no instructions are specified, the named proxy holders will vote FOR the election of the nominees for Class III director designated by the Board, FOR approval of the AAR CORP. Section 162(m) Performance-Based Annual Cash Bonus program, and upon any other matter that may properly come before the Annual Meeting in their discretion and best judgment. The Board may nominate another person if any nominee becomes unavailable for election for any reason prior to the Annual Meeting vote. In that event, the named proxy holders will vote for that other person.

The cost of the solicitation of proxies will be paid by the Company. The Company has engaged D. F. King & Co., 77 Water Street, New York, New York, to aid in the solicitation of proxies at a total estimated cost of \$8,000, plus reasonable out-of-pocket expenses. D. F. King & Co. may solicit

RECORD DATE AND VOTING AT THE ANNUAL MEETING

Stockholders owning common stock of the Company ("Common Stock") outstanding at the close of business on the record date, August 14, 2002, may vote at the Annual Meeting. On that date, 31,865,498 shares of Common Stock were outstanding. Stockholders will have one vote on each matter to be voted on for each share held on the record date. Shares cannot be voted unless the owner is present at the Annual Meeting in person or by proxy. A majority of the outstanding shares of Common Stock entitled to vote, present in person or represented by proxy, will constitute a quorum. Votes cast in person or by proxy will be tabulated by the inspectors of election appointed for the Annual Meeting. The inspectors of election will treat directions to withhold authority, abstentions and broker non-votes as shares that are present and entitled to vote for purposes of determining a quorum. Directions to withhold authority will have no effect on the election of directors, because directors are elected by a plurality of votes cast. Abstentions and broker non-votes will be disregarded for purposes of determining whether a matter has been approved, because they are not considered votes cast.

BOARD OF DIRECTORS

The Restated Certificate of Incorporation and By-Laws of the Company provide that the Board shall consist of between three and fifteen directors. The exact number of directors is set from time to time by the Board. The number of directors is presently set at nine. The members of the Board are divided into three classes: Class I (three directors), Class II (three directors) and Class III (three directors). One class is elected each year for a three-year term.

The Nominating Committee will consider director candidates recommended by stockholders. Stockholders may submit a recommendation to the Nominating Committee for consideration with respect to the Annual Meeting of Stockholders for the year 2003 by writing to the Secretary, AAR CORP., One AAR Place, 1100 N. Wood Dale Road, Wood Dale, Illinois 60191. To be considered, recommendations must be received prior to March 19, 2003, must state the reasons for the recommendation and contain the full name and address of each proposed nominee, as well as a brief biographical history setting forth past and present directorships, employment and occupations, and any other qualifications. The AAR CORP. Directors' Retirement Plan was terminated effective April 10, 2001. Any eligible non-employee director who was a director on the plan's effective date of termination or a retired director then receiving benefits under the plan will continue to receive benefits pursuant to the terms of the plan as the plan was in effect and applicable to such participant on the earlier of the date of plan termination or date of retirement. Benefits are paid upon retirement from the Board on or after age 65 if such director has completed at least five years of service as a director. Benefits are paid quarterly in cash in an amount equal to 25% of the annual retainer payable to an active eligible director and are paid for a period equal to the total number of years of service as a director to a maximum of ten years or until death. The AAR CORP. Directors' Retirement Plan is unfunded. As of May 31, 2002, five former directors were receiving retirement benefits under the plan.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

COMPENSATION COMMITTEE'S REPORT ON EXECUTIVE COMPENSATION

General

The Company's executive compensation program is structured and administered by the Compensation Committee of the Board of Directors. The Compensation Committee is comprised of the four individuals listed below, all of whom are independent directors of the Company.

The executive compensation program is designed to enable the Company to attract, motivate and retain talented executives capable of achieving strategic business initiatives and to reward them for their achievement. It is designed to complement the Company's short-term and long-term business objectives and to focus executives' efforts on fulfilling these objectives. The program consists of three elements: (i) base salaries which are generally set between the median and third quartile salary level of comparable positions in similar companies, adjusted up or down to reflect individual responsibilities, performance and other relevant factors; (ii) annual variable incentive opportunities paid in cash and stock based on individual contribution and performance; and (iii) long-term incentive opportunities, in the form of stock option/restricted stock awards.

Total compensation opportunities for each executive are intended to be competitive with those offered by other companies competing for talent in the Company's employment market. In designing and administering the individual elements of the executive compensation program for each executive, the Compensation Committee strives to balance short- and long-term incentive objectives and employ prudent judgment in establishing base salary levels and performance criteria, evaluating performance and determining actual incentive payments. To ensure competitiveness and reasonableness of the Compensation Committee's compensation decisions, independent compensation consulting firms are retained periodically to advise the Compensation Committee in connection with both the design and implementation of the various elements of the program and the level of individual executive participation. The Company uses competitive compensation analyses by independent consultants to ensure that the President and Chief Executive Officer's and other executive officers' base salaries and total compensation are at an appropriate competitive level relative to compensation for such positions at other companies in the relevant employment market. Generally, as an executive's level of responsibility increases, a greater percentage of total compensation is based on performance, and the mix of total compensation shifts toward stock, thereby aligning the long-term interest of senior executives with those of stockholders.

9

Base Salaries

Base salary levels of all elected corporate officers, including the President and Chief Executive Officer, are reviewed annually by the Compensation Committee and may be adjusted depending upon the executive's qualifications, responsibilities, assessed performance contribution, tenure in the Company and in the position held, and competitive salary considerations relative to similar positions at other companies competing for talent in the Company's employment market. Effective October 1, 2001, as part of a Company-wide cost reduction effort following the terrorists attacks of September 11, 2001, and the resulting adverse impact on the aviation industry, the salaries of all elected officers of the Company were temporarily reduced by 5-10% based on salary level. The salary level for the President and Chief Executive Officer and the Executive Vice President and Chief Operating Officer were each reduced 10%. Effective April 29, 2002, salary reductions were reinstated up to 5% of salary. The base salaries of the President and Chief Executive Officer and other executive officers named in the Summary Compensation Table in Fiscal 2002 reflect the factors referred to above.

Annual Incentive Opportunities

The President and Chief Executive Officer has an annual performance-based incentive bonus opportunity of up to 150% of his base salary. Twenty percent of his incentive bonus is payable in restricted stock that vests ratably in equal amounts over a three year period. The percentage incentive bonus opportunity for other executive positions varies depending on their responsibility level.

Each fiscal year the Compensation Committee establishes specific annual cash bonus performance goals, within guidelines approved by stockholders in 1997 (those guidelines are being submitted for shareholder re-approval at the 2002 Annual Meeting) and intended to meet the requirements of Section 162(m) of the Internal Revenue Code ("IRC"), for certain executive officers of the Company. These goals focus on two categories: income and balance sheet management. The importance and weighting of these two categories is established each year by the Compensation Committee. Under the category of balance sheet management, the goals include one or several of the following criteria: shareholder equity, long-term debt to capital ratio, investment rating, debt coverage, cash flow and return on invested capital. Under the category of income, the goals include one or several of the following: pre-tax income, earnings per share and net income. A participant may be eligible to earn up to 100% of such participant's salary for meeting target goals and up to an additional 50% of salary for exceeding target goals. The amount actually earned depends on each participant's position, bonus opportunity and actual performance versus the pre-established goals.

Long-Term Incentive Opportunities

The long-term incentive program consists of stock options and/or restricted stock awards granted under the AAR CORP. Stock Benefit Plan.

Stock option awards typically expire ten years from the date of grant or earlier upon termination of employment, become exercisable in equal increments over a period of three to five years on successive grant anniversary dates at the NYSE closing stock price on the date of grant, and are accompanied by reload features. Fiscal 2003 stock option grants vest in 20% increments ratably on the grant date anniversary over a five year period subject to accelerated vesting based on the Company's stock price appreciating above specified amounts determined by the Compensation Committee at the time of the grant, subject to a minimum vesting waiting period of six months. Restrictions imposed on restricted stock awards vary and are designed, among other things, to encourage executives to stay with the Company and to maintain a focus on long-term objectives of the Company. Restricted stock grants vest over three to ten years, depending on the grant; restrictions on restricted stock used in lieu of cash to pay earned bonuses vests ratably over a three year period. Typically, awards are subject to forfeiture if the employee terminates employment for any reason other than death, retirement or disability or the Company terminates employment for cause,

during the award cycle. During the award cycle the participant receives dividends on the restricted shares and also has the right to vote the restricted shares. Effective July, 2002, restrictive stock grants are determined based on reaching specified performance goals relating to the Company's return on capital and share price performance.

In determining stock option and restricted stock awards, the Committee considers the recipient's position and responsibilities in the Company, performance and contributions made during the preceding year, capabilities and potential for future contribution to the Company, the number of options and awards previously granted to the recipient and, for senior management, their progress toward achieving the Company's guidelines for stock ownership by senior management.

The Board believes that Mr. Storch, as the President and Chief Executive Officer, should have the opportunity, based on performance, to become a significant stockholder and that the performance measures that govern his opportunities should be both economic and stockholder value related. Such measures should also be related to the Company's industry and investor communities and reflect business objectives of the Company over the coming years.

Edgar Filing: AAR CORP - Form DEF 14A

Under a long-term incentive plan approved by the Board and approved by the stockholders with respect to performance restricted stock grants under this plan, commencing on June 1, 2001 and ending on May 31, 2005, Mr. Storch has the opportunity to receive annually under the AAR CORP. Stock Benefit Plan, at the discretion of the Compensation Committee, (i) options in an amount determined by a fraction, the numerator of which is equal to 1.25 times his then current base salary and the denominator of which is equal to the fair market value of the common stock on the date of grant divided by three, and (ii) performance restricted stock up to .9375 times his then current base salary based on the Company's return on capital during the performance period as compared to the S&P 500 Composite average return on capital and up to .9375 times his then current base salary based on the Company's common stock share price performance during the period as compared to the common stock share price performance of the Company's peer group.

Mr. Storch and other named executive officers in the Summary Compensation Table below received the stock options and restricted stock awards reflected in the tables below. The number of shares covered by each grant reflects individual contributions and performance, as well as competitive industry practices, in the view of the Compensation Committee. The grant levels also continue the Board's emphasis on executive stock ownership and further the Company's objectives of tying incentive compensation to performance and aligning executive's interests with the interests of the Company's stockholders.

Chief Executive Officer Compensation

In Fiscal 2002, Mr. Storch's annual base salary was temporarily reduced effective October 1, 2001, by 10%, or \$69,628, as part of a Company-wide cost reduction effort. Effective May 2, 2002, the Company reinstated half of the salary reduction, or \$34,814, as part of a Company-wide salary reinstatement action. Mr. Storch's present annual base salary is \$661,466.

The tables which follow this report and accompanying footnotes and narrative reflect the decisions covered by the above discussion.

Federal Income Tax Considerations

IRC Section 162(m) generally prevents any public company from claiming a deduction for compensation in excess of \$1 million for the Chief Executive Officer or any of the four highest compensated executive officers. This deduction limitation, however, does not apply to performance-based compensation that satisfies certain requirements under Section 162(m). The Compensation Committee has determined that it is in the best interests of the Company and its stockholders to structure compensation of executive officers so that compensation will not be subject to the deduction limit to the extent that it can reasonably do so in a manner that provides adequate incentives and allows the Company to attract and retain qualified executives. However, the Compensation Committee has

11

previously and may in the future structure compensation arrangements that under certain circumstances may be subject to the deduction limit. None of the compensation paid by the Company in Fiscal 2002 was subject to the deduction limit.

STOCKHOLDER RETURN PERFORMANCE GRAPH

In prior years, the Company used a line-of-business peer group index comprised of companies engaged in engine, airframe and/or manufacturing activities in support of the aerospace/aviation aftermarket similar to those conducted by the Company. Several companies included in the Company's peer group index in prior years are no longer listed on stock exchanges, are no longer in business, or have changed their business activities to an extent that they are no longer sufficiently similar to the business activities of the Company to warrant being included in the Company's peer group index. Accordingly, the Company has selected the S&P 600 Aerospace/Defense Index, a published industry index, to replace its line-of-business peer group index used in prior years.

The S&P 500 Index is comprised of domestic industry leaders in four major sectors: Industrials, Financials, Utilities and Transportation, and serves as a broad indicator of the performance of the U.S. equity market. The S&P 600 Aerospace/Defense Index is comprised of smallcap companies engaged in aerospace/defense business activities presently including: AAR CORP., Aeroflex Inc., Alliant Techsystems, Armor Holdings, BE Aerospace, Curtiss-Wright, DRS Technologies, Edo Corp., Engineered Support Systems, Inc., Gencorp Inc., Kaman Corp CTA',

Edgar Filing: AAR CORP - Form DEF 14A

Mercury Computer, and Triumph Group. The Company's prior year peer group index is comprised of Aviall, Inc., BFGoodrich Aerospace, Sequa Corp., SPS Technologies, Inc., and Willis Lease Finance Corp. (Aviation Sales Company and Kellstrom Industries, Inc. have been excluded because they are no longer exchange traded companies).

These indices relate only to stock prices and dividends; they do not purport to provide a direct comparison of the business or financial performance of the companies comprising such indices with the Company or with each other.

The following graph compares the five-year cumulative total stockholder return (including reinvestment of dividends) of the Company, the S&P 500 Index, the S&P 600 Aerospace/Defense Index, and the Company's prior year peer group index.

STOCK OPTIONS

Options generally become exercisable 20% each year over a five-year period. Unexercised options expire ten years after the date of grant. The stock option exercise price is equal to the fair market value (NYSE closing price) of a share of stock on the date of grant. The options have no value unless the stock price appreciates and the holder satisfies the applicable vesting requirements.

The following table shows certain information with respect to stock options granted in Fiscal 2002 to the named executive officers. It also shows how much the named executive officers potentially may realize under two hypothetical situations: if the stock gains 5% or 10% in value per year compounded over the ten-year life of the options. These are assumed hypothetical rates of appreciation required to be shown by Securities

PENSION BENEFITS

Qualified Plan Benefits

The Company provides benefits to all domestic employees including the named executive officers under a qualified retirement program that includes defined benefits (The AAR CORP. Retirement Plan, a cash balance type plan) and 401(k)/profit sharing plan (The AAR CORP. Retirement Savings Plan). The defined benefits are based upon the present value of a participant's benefit as of December 31, 1999 and a formula for benefits earned from and after January 1, 2000 which takes into consideration the participant's age, years of credited service, a percentage of the participant's compensation for the year and certain interest credits. Compensation includes cash compensation shown as income on an employee's Form W-2, reduced by certain items specified in the plans, plus amounts voluntarily contributed under the AAR CORP. Retirement Savings Plan and the AAR CORP. Supplemental Key Employee Retirement Plan ("SKERP"). Compensation for purposes of the qualified plans cannot exceed an annual compensation limitation of \$170,000 as adjusted from time to time by the Commissioner of Internal Revenue in accordance with applicable provisions of the IRC.

The aggregate salary and bonus compensation shown for the named executive officers in the Summary Compensation Table above is the compensation currently included for purposes of determining benefits under qualified plans, subject to applicable IRC compensation limits for qualified plans. Profit sharing and 401(k) benefits are based on voluntary contributions by employees with a Company match of up to 1 percentage point of the first 5 percentage points voluntarily contributed under the plan, and a profit sharing contribution by the Company based on the individual employee's voluntary contributions and the economic performance of the individual employee's operating unit. The Company's profit sharing contribution can be up to 3% of cash compensation.

Non-Qualified Plan Benefits

The Company provides supplemental retirement benefits to certain executives and key employees under the SKERP. Four of the named executive officers are participants in the SKERP. The SKERP is designed to restore the approximate amount of employer-provided benefits under the Company's qualified retirement savings plan lost as a result of IRC limitations, including those limiting compensation for purposes of benefit calculations. The SKERP also provides for aggregate retirement benefits (including qualified plan benefits) at 60% and 50% of final average compensation (as defined in plan documents), respectively, for the President and Chief Executive Officer and for certain other executive officers designated by the Board, including four of the named executive officers, reduced

16

by certain items specified in plan documents. SKERP benefits are unfunded and Company contributions and Supplemental Retirement benefits payable by the Company are forfeited if the participant violates a covenant not to compete set forth in the plan document or if employment is terminated for cause (except that a forfeiture will not occur under certain circumstances in the event of a change in control as defined in the plan document).

Table of Pension Benefits

The following table shows the estimated aggregate annual benefits payable upon retirement at normal retirement age (65) and years of service for each of the named executive officers under the AAR CORP. Retirement Plan and SKERP.

EMPLOYMENT AND OTHER AGREEMENTS

David P. Storch

The Company has an employment agreement with Mr. Storch designed to assure his continued services with the Company at a base compensation of \$661,466 per year or such increased amount as the Board may determine. Mr. Storch's term of employment is continuously extended so as to have a remaining term of three years, but shall expire upon death, disability, retirement or other termination of employment.

Mr. Storch's employment agreement also includes: confidentiality and non-compete provisions; participation in the Company's benefit plans; a severance payment upon termination of employment by the Company for other than cause prior to a change in control of the Company equal to two times base salary then in effect; a severance payment equal to three times his average cash compensation (base salary plus cash bonus) for the last two fiscal years of employment upon termination of employment under certain circumstances in the event of a change in control of the Company; an incentive bonus opportunity of up to 150% of base salary subject to annual financial targets approved by the Compensation Committee (20% of any bonus is payable in three year restricted stock); an annual long-term incentive stock compensation plan consisting of (i) an annual option grant opportunity of an amount determined by a fraction, the numerator of which is equal to 1.25 times his base salary and the denominator of which is equal to the fair market value of the stock on the grant date divided by three, and (ii) performance restricted stock up to .9375 times his then current salary based on the Company's return on capital during the performance period as compared to the S&P 500 Composite average return on capital and up to .9375 times his then current base salary based on the Company's common stock share price performance during the period as compared to the common stock share price performance of the Company's peer group; a supplemental cash payment to the extent necessary to preserve the level of benefits provided for in the employment agreement in the event of imposition of excise taxes in respect of "excess parachute payments" under the IRC and, in the event of a change in control of the Company as defined in the employment agreement, accelerated vesting of awards outstanding under the Company's Stock Benefit Plan and continuation of certain other benefits for a period of three years.

Other Agreements

The Company has entered into severance agreements with certain key employees, including the named executive officers other than Mr. Storch. The severance agreements are substantially identical, include confidentiality and non-compete covenants, and provide for payment of compensation and certain benefits in the event of termination of employment for other than cause, including a

17

change in control of the Company as defined in the severance agreements. Severance equal to base salary plus any earned incentive cash bonus will be paid upon termination of employment by the Company for other than cause as defined in the severance agreements prior to a change in control of the Company. Under certain circumstances, upon termination of employment following a change in control, the employee will receive severance equal to three times total compensation (base salary plus annual cash bonus) for the most recently ended fiscal year or the preceding fiscal year, whichever is greater, accelerated vesting of awards outstanding under the Company's Stock Benefit Plan, special supplemental retirement benefits determined as if the employee had three additional years of service under the Company's retirement plans, continuation of certain other benefits for a period of three years, and a supplemental cash payment to the extent necessary to preserve the level of benefits provided for in the severance agreement in the event of imposition on such employee of excise taxes payable in respect of "excess parachute payments" under the IRC.

The Company has also entered into split dollar life insurance agreements with certain key employees, including three of the named executive officers. Under the agreements, the Company will fund the annual insurance premiums for the policies subject to reimbursement from the cash value or death benefit proceeds of the policies.

AUDIT COMMITTEE REPORT

The Audit Committee is comprised of four independent directors and carries out its responsibilities pursuant to a written charter (a copy of which is attached to this proxy statement as Exhibit 1) adopted by the Board of Directors. Among other things, the Audit Committee oversees the Company's financial reporting process and reviews and makes recommendations to the Board concerning the reliability and integrity of the Company's financial reporting process and legal compliance and the independence and performance of the Company's internal and independent auditors. The Company's management is primarily responsible for the Company's financial statements and the quality and integrity of the reporting process and systems of internal control. The Company's independent auditors are responsible for auditing the Company's financial statements and for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles.

In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended May 31, 2002, with the Company's management and representatives of the independent auditors. The Audit Committee discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended. In addition, the Audit Committee discussed with the independent auditors their independence from the Company and its management, including the matters in the written disclosures required by Independence Standards Board Standard No. 1, *Independence*

Discussions with Audit Committees, and considered the compatibility of non-audit services with the auditors' independence.

In reliance on its review of the audited financial statements and the discussions referred to above and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the charter, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended May 31, 2002, for filing with the Securities and Exchange Commission.

PROPOSAL 2

Approval of the AAR CORP. Section 162(m) Performance-Based Annual Cash Bonus Program

Background

Section 162(m) of the IRC generally precludes a publicly traded company from taking a tax deduction for compensation in excess of \$1 million paid to a company's chief executive officer or any of the company's four next highest paid executive officers, subject to several exceptions, including an exception for compensation paid under a stockholder-approved plan that is "performance-based" within the meaning of Section 162(m).

The Company's Board of Directors and the Compensation Committee believe that, as a matter of general policy, the Company's incentive compensation plans should be structured to ensure the full deductibility of compensation under Section 162(m), but that the Compensation Committee should reserve the right to establish separate incentive compensation arrangements for otherwise covered executive officers that may not meet Section 162(m) deductibility requirements if it determines, in its sole discretion, that doing so would be in the Company's best interests.

To come within the Section 162(m) exception for "performance-based" plans, the Compensation Committee established a Section 162(m) Performance Based Annual Cash Bonus program ("Section 162(m) Bonus Program") for certain Company officers in 1997 which was approved by the Company's stockholders at the 1997 annual meeting. To qualify under Section 162(m), such plans must have been approved by stockholders within the prior five years. To continue to come within the Section 162(m) exception, the Company's Section 162(m) Bonus Program is again being submitted for stockholder approval at the 2002 Annual Meeting.

The purpose of the Section 162(m) Bonus Program is (i) to retain and motivate key senior executives of the Company who have been designated as participants in the Section 162(m) Bonus Program for a given fiscal year, by providing them with the opportunity to earn annual bonus awards that are based on the extent to which specified performance goals for such year have been achieved or exceeded, and (ii) to structure annual bonus opportunities in a way that will qualify the awards made as "performance-based" for purposes of Section 162(m) so that the Company will be entitled to a tax deduction on the payment of such incentive awards to such employees.

Bonus eligible officers and other key employees not designated as participants in the Section 162(m) Bonus Program for any given year will generally be eligible for coverage under one of the Company's other annual bonus plans and arrangements.

The Compensation Committee believes that annual cash bonuses serve as an incentive to focus on the annual goals that are necessary to preserve and grow shareholder wealth. As part of its pay for performance policy and its long history of maintaining the strong balance sheet necessary to survive and thrive in our industry, the Compensation Committee establishes explicit goals for key members of management that will provide competitive opportunities upon the achievement of the pre-established goals. If this proposal is not approved by the stockholders, the Company's officers and key employees may receive annual cash bonus awards at the discretion of the Compensation Committee under alternative compensation arrangements approved by the Compensation Committee.

Section 162(m) Bonus Program Opportunities and Awards

Within the first 90 days of each fiscal year, the Compensation Committee will establish specific goals for the Chairman and Chief Executive Officer and certain other executive officers of the Company (as appropriate in the Compensation Committee's discretion) that will govern the payment of their annual cash bonuses for that fiscal year. These goals will focus on two categories: income and balance sheet management. The importance and weighting of these two categories will

be established each year by the Compensation Committee. Under the category of balance sheet management, the Compensation Committee will establish goals that will include one or several of the following criteria: shareholder equity, long-term debt to capital ratio, investment rating, debt coverage, cash flow or return on invested capital. Under the category of income, the Compensation Committee will establish goals that will include one or several of the following: pre-tax income, earnings per share and net income. Upon achievement of target goals, a participant may earn up to 100% of such participant's salary (not to exceed \$4 million in any year). The President and Chief Executive Officer may earn up to an additional 50% of his salary for extraordinary performance exceeding target. The amount actually earned will depend on each participant's position and actual performance versus pre-established target goals. After the acceptance of audited financial statements by the Board, the Compensation Committee will certify the degree of achievement for each criteria and the corresponding bonus payment for each Section 162(m) Bonus Program participant.

Program Administration

The Section 162(m) Bonus Program is administered by the Compensation Committee, consisting of members, each of whom is intended to qualify as an "outside director" within the meaning of Section 162(m) of the IRC. As administrator of the Section 162(m) Bonus Program, the Compensation Committee will, among other things, designate participants, establish performance goals, and interpret and administer the Section 162(m) Bonus Program as it deems necessary or advisable.

Plan Benefits

Mr. Storch, President and Chief Executive Officer, and Mr. Gullion, Executive Vice President and Chief Operating Officer, of the Company, are currently the only individuals designated by the Compensation Committee as participants in the Section 162(m) Bonus Program. Cash bonuses under the plan are determined retrospectively based on past performance against annual goals set by the Compensation Committee and, therefore, future plan benefits are indeterminable. No cash bonus was paid under the Section 162(m) Bonus Program in Fiscal 2002.

Amendment and Termination

The Compensation Committee may terminate the Section 162(m) Bonus Program, in whole or part, and may amend the Section 162(m) Bonus Program from time to time provided (i) that, without the participant's written consent, no such amendment or termination shall adversely affect the annual bonus rights, if any, of any already designated participant for a given fiscal year once the participant designations and performance goals for such year have been announced, and (ii) that the Compensation Committee shall be authorized to make any amendments necessary to comply with applicable regulatory requirements (including, without limitation, Section 162(m)). Section 162(m) Bonus Program amendments will require stockholder approval only if required under Section 162(m).

Federal Income Tax Consequences

Under present federal income tax law, participants will realize ordinary income equal to the amount of the award received in the year of receipt. The Company shall receive a deduction for the amount constituting ordinary income to the participant, provided that the requirements of Section 162(m) which limit the deductibility of non-performance related compensation paid to certain corporate executives are satisfied.

Vote Required

The affirmative vote of a majority of the shares of Common Stock present in person or by proxy and voting at the Annual Meeting is required to approve the Section 162(m) Bonus Program.

***THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR
APPROVAL OF THE SECTION 162(m) BONUS PROGRAM PREVIOUSLY APPROVED

AAR CORP.
Board of Directors
Audit Committee Charter

Purpose

The Audit Committee is appointed by the Board to assist the Board in fulfilling its oversight responsibilities relating to (i) corporate accounting, disclosure and reporting practices and legal compliance of the Company, (ii) the quality and integrity of the Company's financial reports and (iii) the independence and performance of the Company's internal and independent auditors.

Organization

The Audit Committee shall be comprised of not less than three directors of the Company who shall meet the independence and experience requirements of the New York Stock Exchange. The members of the Audit Committee shall be appointed by the Board on the recommendation of the Nominating Committee.

Policy and Procedure

The Audit Committee will maintain flexible policies and procedures and meeting schedules to enable the Audit Committee to best react to changing circumstances and monitor that the Company's accounting, disclosure and reporting practices are in accordance with applicable legal and regulatory requirements. The Chairman of the Audit Committee may call meetings during the year as necessary.

The Committee will provide for free and open communication between the Committee and the Company's directors, independent auditors, internal auditors and management.

Both the Company's internal auditors and independent auditor are ultimately accountable to the Board of Directors and the Audit Committee as representatives of the Company's shareholders.

The Audit Committee has authority to retain special legal, accounting or other consultants to advise the Audit Committee. The Audit Committee may request any officer or employee of the Company or the Company's legal counsel or independent auditor to attend committee meetings or to meet with any members of, or consultants to, the Audit Committee.

The Audit Committee shall make regular reports to the Board.

Review the compensation arrangements and proxy statement disclosures of fees paid to Independent Auditor.
4. Discuss with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 relating to the conduct of the audit. The Committee Chairman may represent the full committee for purposes of this review.

Among the items to be considered for discussion in these meetings are the auditors' evaluation of the Company's financial, accounting, and auditing personnel, the auditors' judgments about the Company's accounting principles as applied to its financial reporting; and the level of management cooperation that the outside auditors received during the course of the audit.
11. Review the human resources and succession planning of the accounting and financial operations within the Company.
12. Report on significant matters discussed at each Committee meeting to the Board.
13. Investigate any matter brought to its attention within the scope of its duties, with the power to retain outside counsel or a second independent accountant, at the expense of the Company, for this purpose if, in its judgment, that is appropriate.
14. Prepare a report to shareholders to be included in the Company's annual proxy statement as required by the Securities and Exchange Commission.
15. Perform any other activities consistent with this Charter, the Company's by-laws, and governing law, as the Committee or Board deems necessary or appropriate.

While the Audit Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. This is the responsibility of management and the independent auditor.
