Effecting the Plan of Arrangement

The Transaction will be effected by way of a Plan of Arrangement. The Plan of Arrangement involves a court-supervised process and will be effected through concurrent proceedings under the CCAA and the CBCA. As part of the concurrent proceedings, a meeting of the Second Lien Noteholders is proposed to take place in September 2011, at which a vote on the Plan of Arrangement will occur.

To approve the Plan of Arrangement, a majority in number, representing at least 66 2/3 percent in value of the claims of the voting Second Lien Noteholders must vote in favour. The Plan of Arrangement must be subsequently approved by the Canadian Court, which will issue the Plan Sanction Order. According to the Plan of Arrangement at the date of this announcement, the following will occur after the Plan of Arrangement is approved by the Canadian Court:

the OPTI Shares will be transferred from the existing holders thereof to the Purchaser, directly or indirectly;

the Second Lien Noteholders will be paid in accordance with the Plan Sanction Order and the Second Lien Notes will be assigned or transferred to a subsidiary of the Company, directly or indirectly; and

the rights of all outstanding options, warrants and other securities of OPTI convertible or exchangeable into Shares of OPTI will be extinguished or terminated;

The Plan of Arrangement will become effective upon the grant of the Plan Sanction Order, the filing of the Articles of Arrangement and the receipt of a certificate issued to OPTI by the monitor appointed pursuant to the CCAA.

Support Agreement and Recapitalization

Certain Second Lien Noteholders, who are independent third parties of the Company and collectively hold approximately 55.2% of in value of the claims of the Second Lien Noteholders as at the date of this announcement, have on the execution date of the Arrangement Agreement each entered into a support agreement ("Support Agreement") with OPTI, the Purchaser and the Guarantor, under which they have undertaken to vote in favour of the Plan of Arrangement. The Company's purpose in obtaining such undertakings is to increase the chances of a successful Transaction. Under the terms of the Support Agreement, in the event that the Arrangement is not completed as contemplated in the Arrangement Agreement, the Second Lien Noteholders signing Support Agreements have agreed to implement the Recapitalization, which involves, amongst other things, the compromise and cancellation of the Second Lien Notes, raising of new equity from existing stakeholders of OPTI and refinancing of the First Lien Notes.

Further background

In November 2009, OPTI initiated a strategic review process which, in early 2011, was expanded to include capital structure adjustments. As part of such process, OPTI had extensive discussions with an ad hoc group of Second Lien Noteholders to negotiate the Recapitalization. On June 15, 2011, OPTI did not make scheduled interest payments totalling US\$71 million on its Second Lien Notes. The indentures governing the Second Lien Notes provided OPTI with a 30-day cure period, ending July 15, 2011 to make the interest payment. On July 13, 2011, OPTI obtained an initial order from the Canadian Court under the CCAA. Such order implemented a comprehensive stay of proceedings which stayed the enforcement by creditors of the obligations of OPTI for a 30-day period (including any potential enforcement actions of the Second Lien Noteholders related to the defaulted interest payments on the Second Lien Notes).

In addition to ongoing discussions with the Second Lien Noteholders to negotiate the Recapitalization, OPTI entered into negotiations with the Purchaser with respect to the Transaction. Such negotiations led to the execution of the Arrangement Agreement and the Support Agreements.
