IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS AND PROXY VOTING

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer s account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Privacy Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy applies only to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer s account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser s privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance s Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio(s) (if applicable) will file a schedule of portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website at www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC s website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC s public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds and Portfolios Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC s website at www.sec.gov.

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE Economic and Market Conditions

Scott H. Page, CFA Co-Portfolio Manager

Peter M. Campo, CFA Co-Portfolio Manager

During the year ending October 31, 2009, global credit markets experienced unprecedented volatility in the early months of the period but staged a remarkable turnaround beginning in January 2009. In the first two months of the period, there was little doubt that a recession would bring higher default rates; but it was difficult to reconcile bank loan and high-yield bond prices with market fundamentals. By the turn of the New Year, however, the markets began to rebound as credit spreads tightened from record levels and investors returned to the credit markets.

The loan market, as measured by the S&P/LSTA Leveraged Loan Index (the Index), returned 30.44% during the year ending October 31, 2009, and 46.90% for the first 10 months of the year the highest 10-month performance in the history of the asset class. Performance was driven by a combination of technical factors, which improved the market supply and demand picture. On the supply side, limited new loan issuance and a contraction of the existing supply through loan repayments reduced the available universe of purchasable loans. Matched with little selling activity and modest, steady inflows, loan prices improved significantly. More significant investor flows into the high-yield bond market also contributed to the improvement in bank loans. Increased high-yield bond issuance contributed to meaningful bank loan repayments, which lowered the available supply of loans and provided cash to bank loan managers. In addition, direct crossover buying into the asset class by high-yield bond managers bolstered demand.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or market price (as applicable) with all distributions reinvested. The Trust s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Trust, market conditions, fluctuations in supply and demand for the Trust s shares, or changes in Trust distributions. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Trust s current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to www.eatonvance.com.

Trust shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

Management Discussion

Craig P. Russ

Co-Portfolio Manager

The Trust is a closed-end fund and trades on the New York Stock Exchange (NYSE) under the symbol EFR. The Trust investment objective is to provide a high level of current income. As a secondary objective, it may also seek preservation of capital to the extent consistent with its primary goal of high current income. Under normal market conditions, the Trust invests at least 80% of its total assets in senior, secured floating-rate loans (senior loans). In managing the Trust, the investment adviser seeks to invest in a portfolio of senior loans that it believes will be less volatile over time than the general loan market. The Trust may also invest in second lien loans and high-yield bonds, and, as discussed below, employs leverage, which may increase risk.

As of October 31, 2009, the Trust s investments included senior loans to 377 borrowers spanning 39 industries, with an average loan size of 0.25% of total investments, and no industry constituting more than 11% of total investments. Health care, cable and satellite television, and business equipment and services were among the top industry weightings.

The Trust outperformed the Index during the past fiscal year. Its larger, higher-quality loans helped perfor-**Total Return Performance 10/31/08** 10/31/09

NYSE Symbol		EFR

	At Market Price	6.75%

See page 3 for more performance information.

1

3

It is not possible to invest directly in an Index. The Index s total return reflects changes in value of the loans constituting the Index and accrual of interest and does not reflect the commissions or expenses that would have been incurred if an investor individually purchased or sold the loans represented in the Index. Unlike the Trust, the Index s return does not reflect the effect of leverage.

Performance results reflect the effects of leverage.

The Distribution Rate is based on the Trust s most recent monthly distribution per share (annualized) divided by the Trust s NAV or market price at the end of the period. The Trust s monthly distributions

may be comprised of ordinary income, net realized capital gains and return of capital.

1

Table of Contents

Eaton Vance Senior Floating-Rate Trust as of October 31, 2009

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

mance in the earlier part of 2009 as these loans were the first to benefit from price recovery. Management s use of leverage was also a significant factor in the Trust s outperformance, as its borrowings were bolstered by the strong credit market rally. The past six months witnessed a junk rally, with the market s lowest-quality loans skyrocketing back to life. As a result, our relative underweight to the lowest-quality loans, including second-lien loans and those rated below CCC, hampered relative performance.

The Trust had a 6.5% exposure to European loans as of October 31, 2009. The Trust s involvement in the European leveraged loan market represented further opportunity for diversification, and while this market was affected slightly more than the U.S. bank loan market by the credit market turmoil, we believed it offered an attractive appreciation opportunity at then-current price levels.

In terms of industries, a relative overweight to the cable and satellite television; leisure goods, activities and movies; and business equipment and services industries benefited performance relative to the Index. Detractors included underweights to the automotive and lodging and casino industries. The Trust s diversification was an important risk mitigator during the fiscal year.

As concerns about inflation and the uncertainty of the potential interest-rate impact of historic stimulus financing persists, we believe the floating-rate asset class remains attractive, especially relative to duration-exposed fixed-income alternatives. We continue to believe the Trust is well-positioned to weather this difficult economic environment, and our view is that our credit selection and portfolio-construction process combine for an approach to the asset class that may be appropriate for many investors.

As of October 31, 2009, the Trust employed leverage of 37.9% of total assets 17.7% auction preferred shares (APS)¹ and 20.2% borrowings. Use of leverage creates an opportunity for income, but at the same time creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares). The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Trust s current or future investments and may change due to active management.

APS percentage represents the liquidation value of the Trust s APS outstanding at 10/31/09 as a percentage of the Trust s net assets applicable to common shares plus APS and borrowings

outstanding. In the event of a rise in long-term interest rates, the value of the Trust s investment portfolio could decline, which would reduce the asset coverage for its APS and borrowings.

Non-Rated ⁵	9.7

Credit Quality ratings are those provided by Moody s Investor Services, Inc., a nationally recognized bond rating service. Reflects the Trust s total loan investments as of 10/31/09. Although the investment adviser considers ratings when making investment decisions, it

performs its

own credit and investment analysis and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security.

Certain loans in which the Trust invests are not rated by a rating agency. In management s opinion, such securities are comparable to securities rated by a rating agency in the categories listed above.
