EXPLANATORY NOTE

Cash America International, Inc. (the Company) is filing this Amendment No. 1 to its Quarterly Report on Form 10-Q for the quarter ended March 31, 2004, which was originally filed on April 23, 2004. This Amendment No. 1 is being filed to address comments from the staff of the Securities and Exchange Commission in connection with the staff's review of the 2003 Form 10-K. This Amendment No. 1 amends: (i) Part I, Item 1, Financial Statements to add a restatement paragraph in Note 1 of Notes to Consolidated Financial Statements, to reclassify certain items between operating activities cash flows and investing activities cash flows in the Consolidated Statements of Cash Flows to eliminate certain non-cash transactions, and to include certain non-cash item disclosures; (ii) Item 2, Liquidity and Capital Resources under Management's Discussion and Analysis of Financial Condition and Results of Operations to reflect the amendment made to the Consolidated Statements of Cash Flows as described in (i); and (iii) certifications to be currently dated as required by Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended.

The changes related to the above items reflect solely a reclassification in the Consolidated Statements of Cash Flows to eliminate the amounts of forfeited pawn loans during the applicable period, previously reported when the pawn loan amount was fully satisfied through a forfeiture of the pledged goods which were then transferred to goods available for disposition, to reporting the principal amount collected on those loans in the period when the forfeited collateral is sold. Any proceeds received in excess of the principal amount loaned are reported as operating cash flows. In addition, pawn loans renewed and cash advances renewed are no longer included in the Consolidated Statements of Cash Flows. See Note 1 of Notes to Consolidated Financial Statements for specific details.

This Amendment No. 1 does not result in a change in the Company's previously reported earnings shown in its Consolidated Statements of Operations or on any amounts previously reported in its Consolidated Balance Sheets. Further, this Amendment No. 1 does not reflect events occurring after the filing of the 2004 first quarter Form 10-Q, and does not modify or update the disclosures therein in any way other than as required to reflect the amendments described above.

CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Basis of Presentation

The consolidated financial statements include the accounts of Cash America International, Inc. and its majority-owned subsidiaries (the Company). All significant intercompany accounts and transactions have been eliminated in consolidation.

The financial statements as of March 31, 2004 and 2003, and for the three month periods then ended, are unaudited but, in management's opinion, include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for such interim periods. Operating results for the three month periods are not necessarily indicative of the results that may be expected for the full fiscal year.

Certain amounts in the consolidated financial statements for the three month period ended March 31, 2003, have been reclassified to conform to the presentation format adopted in 2004. These reclassifications have no effect on the net income previously reported.

These financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2003 Annual Report to Stockholders.

In addressing comments from the staff of the Securities and Exchange Commission, the Company restated its Consolidated Statements of Cash Flows to eliminate certain non-cash items and reclassify certain items between operating cash flows and investing cash flows. The restated amounts reflect solely a reclassification in the Consolidated Statements of Cash Flows to eliminate the amounts of forfeited pawn loans during the applicable period, previously reported when the pawn loan amount was fully satisfied through forfeiture of the pledged goods which were then transferred to goods available for disposition, to reporting the principal amount collected on those loans in the period when the forfeited collateral is sold. Any proceeds received in excess of the principal amount loaned are reported as operating cash flows. In addition, pawn loans renewed and cash advances renewed are no longer included in the Consolidated Statements of Cash Flows.

Table of Contents

Following is a summary of the effect of the restatement on the Company's Consolidated Statements of Cash Flows (in thousands):

	Three Months Ended March 31,			
	2004		2003

Net cash provided (used) by investing activities	(84)	4,703	(5,034)	(768)
Net cash used by financing activities	(27,698)	(27,698)	(15,610)	(15,610)
Net (decrease) increase in cash	(3,437)	(3,437)	1,305	1,305
Cash and cash equivalents at beginning of year	14,547	14,547	3,951	3,951
Cash and cash equivalents at end of period	11,110	11,110	5,256	5,256

2. Revenue Recognition

Pawn Lending Pawn loans (loans) are made on the pledge of tangible personal property. The Company accrues finance and service charges revenue only on those loans that the Company deems collectible, based on historical loan redemption statistics. For loans not repaid, the carrying value of the forfeited collateral (merchandise held for disposition) is stated at the lower of cost (cash amount loaned) or market. Revenue is recognized at the time that merchandise is sold. Interim customer payments for layaway sales are recorded as customer deposits and subsequently recognized as revenue during the period in which final payment is received.

Cash Advances Cash advances provide customers with cash in exchange for a promissory note or other repayment agreement supported by that customer's personal check for the aggregate amount of the cash advanced plus a service fee. To repay the cash advance, customers may redeem their check by paying cash or they may allow the check to be presented for collection. The Company accrues fees and interest on cash advances on a constant yield basis ratably over their terms. For those locations that offer cash advances from a third-party bank, the Company receives administrative service fees for services provided on the bank's behalf. These fees are recorded in revenue when earned.

Check Cashing The Company records fees derived from its owned check cashing locations and consumer finance centers in the period in which the service is provided. Royalties derived from franchise locations are recorded on the accrual basis.

Table of Contents

3. Stock-Based Compensation

Under various equity compensation plans (the Plans) it sponsors, the Company is authorized to issue 8,300,000 shares of common stock pursuant to the grant of Awards including incentive stock options (intended to qualify under Section 422 of the Internal Revenue Code of 1986, as amended), nonqualified stock options, restricted stock and restricted stock units.

In January 2004, the Company changed its approach to annual equity based compensation awards by granting 103,175 restricted stock units to its officers under the provisions of the 1994 Long-term Incentive Plan instead of stock options. Each vested restricted stock unit entitles the holder to receive a share of the common stock of the Company to be issued upon vesting. The aggregate market value of these restricted stock units at the date of grant of \$2,357,000 is being amortized to expense over the vesting periods of 4 years. Compensation expense for this grant along with compensation expense associated with the restricted stock units granted in December 2003 in conjunction with the adoption of the Supplemental Executive Retirement Plan totaling \$155,000 (net of related tax of \$84,000) was recognized in the three month period ended March 31, 2004.

Stock options granted under the Plans have contractual terms of 5 to 15 years and have an exercise price equal to or greater than the fair market value of the stock at grant date. Stock options granted vest over periods ranging from 1 to 7 years. However, the terms of the options with the 7-year vesting periods and certain of the 4-year and 5-year vesting periods include provisions which accelerate vesting if specified share price appreciation criteria are met. During the three months ended March 31, 2004, 551,547 shares vested due to the acceleration provision. No accelerated vesting of stock options occurred during the three months ended March 31, 2003.

The Company accounts for its stock-based employee compensation plans in accordance with Accounting Principal Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25), often referred to as the intrinsic value based method, accordingly, no compensation expense has been recognized for its stock options. Had compensation expense for the Company s stock options been determined using the fair value accounting provisions of Statement of Financial Accounting Standards No. 123 *Accounting for Stock-Based Compensation* (SFAS 123), the Company s net income and related amounts per share, basic and diluted, for each of the three month periods ended March 31, 2004 and 2003 would have been reported as follows (in thousands, except per share amounts).

Table of Contents

Included in the pro forma amounts below is the effect of the accelerated vesting of the 551,547 shares, which brings the pro forma compensation expense of those options shares forward to the current period, eliminating it from future periods had scheduled vesting occurred during the remainder of 2004 through 2007.

	<u>2004</u>	<u>2003</u>
Net income as reported	\$11,390	\$6,769
Deduct: Total stock-based employee compensation expense ^(a)	<u>810</u>	<u>414</u>
Net income pro forma	<u>\$10,580</u>	<u>\$6,355</u>
Net income per share		
Basic:		
As reported	\$ 0.40	\$ 0.28
Pro forma	\$ 0.37	\$ 0.26
Diluted:		
As reported	\$ 0.39	\$ 0.27
Pro forma	\$ 0.36	\$ 0.26

^(a) Determined under fair value based method for all awards, net of related tax effects. All awards refers to options granted, modified, or settled in fiscal periods beginning after December 15, 1994, that is, options for which the fair value was required to be measured under SFAS 123. The pro-forma stock-based employee compensation expense of the 551,547 option shares that accelerated in the first three months of 2004 was \$537,000 out of the total \$810,000. Excluding this amount from the pro forma results above in the first three months of 2004 would have resulted in an expense of \$273,000 and pro forma net income per share of \$0.39 (basic) and \$0.38 (diluted).

The pro forma amounts of stock options granted were estimated on the date of grant using the Black-Scholes option-pricing model. No stock options were granted during the three months ended March 31, 2004. For options granted during the three months ended March 31, 2003, the following weighted average assumptions were used:

Expected term (year)	8.4
Risk-free interest Rate	4.13%
Expected dividend yield	0.61%
Expected volatility	50.1%

4. Recent Accounting Pronouncement

In December 2003, the Accounting Standards Executive Committee (AcSEC) issued Statement of Position 03-3 (SOP 03-3), *Accounting for Certain Loans or Debt Securities Acquired in a Transfer*. SOP 03-3 requires that the excess of contractual cash flows over cash flows expected to be collected not be recognized as an adjustment of yield, loss accrual, or valuation allowance. Subsequent increases in cash flows expected to be collected generally should be recognized prospectively through adjustment of the loan's yield over its remaining life and decreases in cash flows expected to be collected should be recognized as impairment. SOP 03-3 is effective for loans acquired in fiscal years beginning after December 15, 2004 and is not expected to have a material effect on the Company's consolidated financial position or results of operations.

Table of Contents**5. Acquisitions**

The Company's June 30, 2003 asset purchase agreement for the purchase of the assets of Cashland, Inc. through Cashland Financial Services, Inc. (Cashland), a wholly-owned subsidiary, contained a provision under which the seller could potentially have received additional consideration based upon the future earnings of the business. On February 2, 2004, the parties amended the asset purchase agreement to eliminate that provision and to provide instead for the Company to make a final payment of additional consideration in the amount of \$5,400,000. The payment consisted of \$2,900,000 in cash and a subordinated note for \$2,500,000 (see Note 9). The Company increased goodwill accordingly for the additional consideration paid (see Note 8).

The following table provides information concerning the acquisitions made during the three months ended March 31, 2004 and 2003 (\$ in thousands):

	<u>2004</u>	<u>2003</u>

6. Cash Advances and Allowance for Losses

The Company offers the cash advance product through its Cash America pawnshops, Cash America Payday Advance locations and Cashland consumer finance centers. Cash advances are generally offered for a term of 7 to 45 days, depending on the customer's next payday. The Company originates cash advances in some of its locations and markets and services cash advances made by a third-party bank in other Company locations. The Company has entered into an agreement with a second third-party bank that will begin offering cash advances in some of those locations in the second quarter of 2004.

Under the bank program, the Company purchases a participation interest in the bank originated cash advances, and receives an administrative fee for its services. In order to benefit from the use of the Company's collection resources and proficiency, all cash advances unpaid after maturity are assigned to the Company at a discount from the amount owed by the borrower. Losses on cash advances assigned to the Company that prove uncollectible are the responsibility of the Company. To the extent that the Company collects an amount owed by the customer in excess of the amount assigned by the bank, the Company is entitled to the excess and recognizes it in income when collected. Since the Company may not be successful in the collection of the assigned accounts, the Company's cash advance loss provision includes amounts estimated to be adequate to absorb credit losses from cash advances in the aggregate.

portfolio, including those expected to be assigned from the third-party bank s outstanding portfolio.

Table of Contents

Cash advances outstanding at March 31, 2004 and 2003, were as follows (\$ in thousands):

	2004	2003
<i>Originated by the Company</i>		
Active cash advances and fees receivable	\$14,912	\$1,073
Cash advances and fees in collection	2,766	238

Cash advances and fees receivable, net	\$23,935	\$7,148
Allowance for losses as a % of combined gross portfolio	9.6%	14.8%

Changes in the allowance for losses on cash advances for the three month periods ended March 31, 2004 and 2003, were as follows (\$ in thousands):

	2004	2003
Balance at beginning of period	\$ 3,448	\$ 1,748
Cash advance loss provision	3,044	1,332
Charge-offs	(5,879)	(2,463)
Recoveries	2,076	746

	—	—
Balance at end of period	\$ 2,689	\$ 1,363
	—	—
Cash advance loss provision as a % of combined advances written	2.5%	3.5%
	—	—
Charge-offs (net of recoveries) as a % of combined advances written	3.1%	4.5%
	—	—

Cash advances assigned by the bank to the Company for collection were \$9,216,000 and \$6,652,000, for the three months ended March 31, 2004 and 2003, respectively. The Company's participation interest in bank originated cash advances was \$7,142,000 and \$3,828,000 at March 31, 2004 and 2003, respectively.

Table of Contents**7. Earnings Per Share Computation**

The following table sets forth the reconciliation of numerators and denominators for the basic and diluted earnings per share computation for the three month periods ended March 31, 2004 and 2003 (in thousands):

	<u>2004</u>	<u>2003</u>
Basic earnings per share computation		
Numerator: Net income available to common stockholders	\$ 11,390	\$ 6,769
Denominator: Weighted average common shares outstanding	28,241	24,242
Diluted earnings per share computation		
Numerator: Net income available to common stockholders	\$ 11,390	\$ 6,769
Denominator:		
Weighted average common shares outstanding	28,241	24,242
Effect of shares applicable to stock option plans	832	475
Effect of other stock-based compensation plans	314	
Effect of shares applicable to nonqualified savings plan	66	67
Total diluted shares	29,453	24,784

8. Goodwill and Other Intangible Assets

Goodwill and other intangible assets having an indefinite useful life are tested for impairment annually at June 30, or more frequently if events or changes in circumstances indicate that the assets might be impaired. The Company amortizes intangible assets with an expected useful life on the basis of their expected periods of benefit.

Goodwill The changes in the carrying value of goodwill for the three month periods ended March 31, 2004 and 2003, were as follows (in thousands):

Table of Contents

Acquired Intangible Assets Acquired intangible assets that are subject to amortization as of March 31, 2004 and 2003, were as follows (in thousands):

	2004			2003		
	Cost	Accumulated Amortization	Net	Cost	Accumulated Amortization	Net
Non-competition agreements	\$ 1,800	\$ (450)	\$ 1,350	\$ 1,197	\$ (758)	\$ 439
Customer relationships	2,530	(534)	1,996			
Other	170	(59)	111	130	(73)	57
Total	\$4,500	\$(1,043)	\$3,457	\$ 1,327	\$ (831)	\$ 496

Non-competition agreements are amortized over the applicable terms of the contracts. Net acquired intangible assets are included in Other assets in the accompanying consolidated balance sheets. Tradenames of \$1,000,000 at March 31, 2004 are not subject to amortization.

9. Long-Term Debt

The Company's long-term debt instruments and balances outstanding at March 31, 2004 and 2003, were as follows (in thousands):

	2004	2003
U.S. Line of Credit up to \$130,000 due July 31, 2006	\$ 44,035	\$ 31,401
Multi-currency Line of Credit up to £20,000 due April 30, 2006	13,478	14,720
Swedish Line of Credit up to SEK 15,000 due May 30, 2004	163	
8.33% senior unsecured notes due 2003		4,286
8.14% senior unsecured notes due 2007	16,000	20,000
7.10% senior unsecured notes due 2008	17,143	21,428
7.20% senior unsecured notes due 2009	42,500	42,500
12.00% subordinated note due 2014	2,500	
Total debt	135,819	134,335
Less current portion	8,286	12,571
Total long-term debt	\$ 127,533	\$ 121,764

As of March 31, 2004, the Company reduced its U.S. line of credit agreement to \$130,000,000 from \$135,000,000 and this line of credit will be further reduced to \$125,000,000 at March 31, 2005 and to \$115,000,000 at March 31, 2006.

Pursuant to the amended Cashland asset purchase agreement, the Company issued a subordinated note for \$2,500,000 as a part of the final payment. Interest on this note accrues at 12% per annum and is payable semi-annually. The note principal is payable in nine equal annual installments beginning in February 2006. The final payment is due in February 2014. However, the note may be prepaid after February 1, 2006.

10. Operating Segment Information

During the quarter ended March 31, 2004, the Company realigned its segment reporting to reflect the business mix and management reporting structure. The Company has two reportable operating segments in the pawn lending industry (United States pawn lending and foreign pawn lending); one in the cash advance industry which includes Cashland and Cash America Payday Advance locations; and one in the check cashing industry (Mr. Payroll). While the United States and foreign pawn lending segments offer the same services, each is managed separately due to the different operational strategies required. Cash advance and check cashing are managed separately due to the different operational strategies required and, therefore, are reported as separate segments.

Table of Contents

(b) Mr. Payroll only.

Table of Contents

11. Litigation

The Company is a defendant in certain lawsuits encountered in the ordinary course of its business. Certain of these matters are covered to an extent by insurance. In the opinion of management, the resolution of these matters will not have a material adverse effect on the Company's financial position, results of operations or liquidity.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
GENERAL

The Company is a provider of specialty financial services to individuals in the United States, United Kingdom and Sweden. The Company offers secured non-recourse loans, commonly referred to as pawn loans, to individuals through its pawn lending operations. The pawn loan portfolio generates finance and service charges revenue. A related activity of the pawn lending operations is the disposition of merchandise, primarily collateral from unredeemed pawn loans. As an alternative to a pawn loan, the Company offers unsecured cash advances in selected lending locations and on behalf of a third-party bank in other locations. The Company also provides check cashing and related money services through its consumer finance centers and its franchised and company-owned check cashing centers.

As of March 31, 2004, the Company's pawn lending operations consisted of 471 pawnshops, including 396 owned units and 6 unconsolidated franchised units in 17 states in the United States, 57 units in the United Kingdom, and 12 units in Sweden. The foreign operations consist primarily of jewelry-only lending units. During the 15 months ended March 31, 2004, the Company acquired 15 operating units, established 4 locations, and combined or closed 9 locations for a net increase in pawn lending units of 10. In addition, the Company terminated 6 franchises and purchased 1 for its company-owned operations.

As of March 31, 2004, the Company's cash advance operations consisted of 164 cash advance locations, including 143 locations through Cashland Financial Services, Inc. (Cashland), a wholly-owned subsidiary, and 21 Cash America Payday Advance locations. The Cashland consumer finance centers offer cash advances, check cashing and related money services in 2 states, including 22 locations that Cashland established during the 8 months since its acquisition on August 1, 2003. The Cash America Payday Advance locations offer the cash advance product in Texas, and were established beginning in December 2002.

As of March 31, 2004, Mr. Payroll Corporation (Mr. Payroll), a wholly-owned subsidiary, operated 131 franchised and 6 company-owned check cashing centers in 20 states.

OVERVIEW

Components of Consolidated Net Revenue. Consolidated net revenue is total revenue reduced by the cost of merchandise sold in the period. It represents the income available to satisfy expenses and is the measure management uses to evaluate top line performance. The growth in cash advance fees due to higher balances and the addition of new units, including the acquisition of Cashland in August 2003, has increased the comparative contribution from this product to the consolidated net revenue of the Company in the first quarter of 2004 compared to the first quarter of 2003. Pawn related net revenue of aggregate finance and service charges plus profit on the disposition of merchandise remain the dominant source of net revenue at 72.7% of consolidated net revenue for the three months ended March 31, 2004. The following graphs show consolidated net revenue and depict the mix of the components of net revenue for the quarter ended March 31, 2004 and 2003:

Table of Contents

Contribution to Increase in Net Revenue. In conjunction with the increase in cash advance fees as a percent of net revenue, the relative percentage contribution from cash advance fees to the quarter over quarter increase in net revenue has also increased significantly due to the inclusion of Cashland, greater cash advance balances and additional units. Pawn related net revenue in the aggregate, combined finance and service charges and profit from the disposition of merchandise, declined from 56.9% to 31.2% of the increase in net revenue for the first quarter of 2004 compared to 2003. Check cashing royalties and fees increased to 11.2% of the increase in net revenue in the current period. This trend is depicted in the following graphs:

Quarter Ended March 31, 2004 Compared To Quarter Ended March 31, 2003

Consolidated Net Revenue. Consolidated net revenue increased \$22.9 million, or 35.8%, to \$86.8 million during the first quarter ended March 31, 2004 (the current quarter) from \$63.9 million during the first quarter ended March 31, 2003 (the prior year quarter). The following table sets forth net revenue results by operating segment for the three month periods ended March 31 (\$ in millions):

	2004	2003	Increase	
	_____	_____	_____	_____
Domestic pawn lending operations	\$60.2	\$54.6	\$ 5.6	10.3%
Foreign pawn lending operations	10.7	8.1	2.6	32.1
Cash advance operations	14.8	0.1	14.7	
Check cashing operations	1.1	1.1	—	—
	_____	_____	_____	_____
Consolidated net revenue	\$86.8	\$63.9	\$22.9	35.8%
	_____	_____	_____	_____

The increase in consolidated net revenue was primarily due to the consolidation of the operating results of Cashland. Excluding the impact of Cashland, net revenue for the three month period was up \$9.1 million, or 14.2%, compared to the prior year quarter. The Company's domestic pawn lending operations contributed the majority of the increase in consolidated net revenue excluding Cashland. Higher revenue from the Company's cash advance product, higher finance and service charges from pawn loans, and higher profit from the disposition of merchandise accounted for the increase in net revenue. The Company's foreign operations also contributed to the increase in consolidated net revenue primarily due to the favorable impact of currency translation, increased average pawn loan balance and the number of pawn loans outstanding.

Table of Contents

The components of net revenue are finance and service charges from pawn loans, which increased \$4.1 million; profit from the disposition of merchandise, which increased \$3.0 million; cash advance fees, which increased \$13.2 million; and check cashing royalties and fees, which increased \$2.6 million. Management believes that the trend of higher cash advance fees and higher finance and service charges on pawn loans will continue during the remainder of 2004 as a result of the expected continuation of increased demand for these products, due to the higher balances of cash advances and pawn loans at the end of the first quarter of 2004 compared to the prior year quarter and the addition of new lending locations in 2004.

Finance and Service Charges. The following is a summary of finance and service charges related to pawn loans by operating segment for the three months ended March 31, 2004 and 2003 (\$ in millions):

	<u>2004</u>	<u>2003</u>	<u>Increase</u>	
Domestic pawn lending operations	\$26.9	\$24.7	\$2.2	8.9%
Foreign pawn lending operations	<u>8.6</u>	<u>6.7</u>	<u>1.9</u>	<u>28.4</u>
Total finance and service charges	<u>\$35.5</u>	<u>\$31.4</u>	<u>\$4.1</u>	<u>13.1%</u>

Variations in finance and service charges on pawn loans are caused by changes in the average balance of pawn loans outstanding, the annualized yield of the pawn loan portfolio, and the effects of translation of foreign currency amounts into United States dollars. The following table demonstrates how each of these factors affected the total change in finance and service charges on pawn loans for the current quarter as compared to the prior year quarter (in millions):

	<u>Average Balance Outstanding</u>	<u>Loan Yield</u>	<u>Total Before Foreign Translation</u>	<u>Foreign Translation</u>	<u>Total</u>
Domestic pawn lending operations	\$ 0.9	\$1.3	\$ 2.2	\$	\$2.2
Foreign pawn lending operations	<u>0.4</u>	<u>0.4</u>	<u>0.8</u>	<u>1.1</u>	<u>1.9</u>
Total	<u>\$ 1.3</u>	<u>\$1.7</u>	<u>\$ 3.0</u>	<u>\$ 1.1</u>	<u>\$4.1</u>

Excluding the favorable impact of foreign currency translation, the company-wide average balance of pawn loans outstanding was 4.8% higher during the current quarter than the prior year quarter. On a segment basis, the average balances of pawn loans were 3.6% and 6.5% higher for the domestic and foreign pawn lending operations, respectively. The increase in the average balance of domestic pawn loans outstanding was driven by a 1.1% increase in the average number of pawn loans outstanding during the current quarter coupled with a 2.5% increase in the

average amount per loan. Aggregate pawn loan balances at the beginning of the current quarter were \$14.5 million higher than at the beginning of the prior year quarter. Domestic pawn loan balances at March 31, 2004 decreased \$8.1 million or 10.0%, from December 31, 2003 balances. The decrease for the comparable period of the preceding year was \$8.7 million, or 11.1%. The Company historically experiences a decrease in domestic pawn loan balances during the first quarter of each year when the Internal Revenue Service processes federal income tax refunds. Management believes that customers may have used these proceeds to repay loans and/or reduce demand for loans in the quarter, although pawn loan balances finished the quarter higher than the prior year. Domestic pawn loan balances at March 31, 2004, were \$73.0 million, or 4.4%, higher than at March 31, 2003. Management believes the higher average domestic loan balance outstanding is partially attributable to the current economic environment affecting the Company's customers, which was conducive to an increase in loan demand, and expects this trend of higher demand for pawn loans to continue throughout the remainder of 2004. In the Company's foreign operations, the average balances of pawn loans outstanding denominated in their local currencies increased 11.4% and decreased 1.3% in the United Kingdom and Sweden, respectively. The average number of pawn loans outstanding in the United Kingdom and Sweden increased 6.4% and decreased 4.5%, respectively. Average

Table of Contents

amounts per loan denominated in their local currencies were higher for both the United Kingdom and Sweden by 2.4% and 3.3%, respectively.

Excluding the favorable impact of foreign currency translation, the consolidated annualized loan yield, which represents the blended result derived from the distinctive loan yields realized from operations in the three countries, was 106.7% in the current year quarter, compared to 103.2% in the prior year quarter. Domestic annualized loan yield increased to 143.1% for the current year quarter, compared to 137.5% for the prior year quarter. Improved performance of the pawn loan portfolio, including higher redemption rates and a slightly higher concentration of extended or renewed loans in the portfolio, contributed to the higher domestic yield. The blended yield on average foreign pawn loans outstanding increased to 55.7% in the current year quarter compared to 53.9% in the prior year quarter. The increase in the blended foreign yield was principally caused by increases in the blended interest rates charged to customers in the United Kingdom.

Favorable currency translation adjustments contributed \$1.1 million to the increase in foreign source finance and service charges in the current quarter as compared to the prior year quarter, as the British pound and Swedish kronor were stronger relative to the United States dollar. The weighted average exchange rates used to translate local currency earnings into dollars for the pound and kronor were 14.6% and 16.2% higher, respectively, during the current quarter compared to the prior year quarter.

Profit from Disposition of Merchandise. Profit from disposition of merchandise represents the proceeds received from disposition of merchandise in excess of the cost of disposed merchandise. The following table summarizes, by operating segment, the proceeds from disposition of merchandise and the related profit for the current quarter compared to the prior year quarter (\$ in millions):

	Three Months Ended March 31,					
	2004			2003		
	Merch- andise	Refined Gold	Total	Merch- andise	Refined Gold	Total
Proceeds from disposition:						
Domestic	\$56.7	\$10.4	\$67.1	\$55.6	\$ 7.4	\$63.0
Foreign	3.6	2.0	5.6	2.6	0.5	3.1
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Total proceeds	\$60.3	\$12.4	\$72.7	\$58.2	\$ 7.9	\$66.1
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Profit on disposition	\$23.8	\$ 3.8	\$27.6	\$22.6	\$ 2.0	\$24.6
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Consolidated profit margin	39.6%	30.5%	38.0%	38.8%	24.8%	37.2%
Profit margin Domestic	39.7%	36.1%	39.1%	39.0%	25.4%	37.4%
Profit margin Foreign	38.1%	1.6%	25.2%	36.3%	14.4%	32.9%

Profit from the disposition of merchandise increased \$3.0 million, or 12.2%, due to higher profit margins on the disposition of merchandise (to 38.0% in the in the current quarter from 37.2% in the prior year quarter) and a 10.0% increase in total proceeds from the disposition of merchandise. Excluding the effect of the disposition of refined gold, the profit margin on the disposition of merchandise increased to 39.6% in the current quarter from 38.8% in the prior year quarter due predominately to lower levels of aged merchandise and the lower average cost of merchandise sold. The profit margin on the disposition of refined gold was 30.5% in the current quarter compared to 24.8% in the prior year quarter due to the prevailing higher market prices of refined gold in the quarter than in the prior year quarter. Proceeds from disposition of merchandise, excluding refined gold, increased \$2.1 million, or 3.6%, in the current quarter due to lower average balances of merchandise available for disposition. Proceeds from disposition of refined gold increased \$4.5 million, or 57.0%, due to higher market prices for gold and an increase in the volume of refined gold sold. The consolidated merchandise turnover rate increased to 3.4 times during the current quarter compared to 3.3 times during the prior year quarter.

Table of Contents

Management anticipates that profit margin on disposition of merchandise in the near term is likely to improve slightly, due to the low level of merchandise available for disposition and the expectation that a significantly deterioration in the prevailing market price of gold is unlikely.

Cash Advance Fees. Cash advance fees increased \$13.2 million, or 203.1%, to \$19.7 million in the current quarter as compared to \$6.5 million in the prior year quarter. The increase was primarily due to the addition of the operating results of Cashland. Higher average cash advance balances outstanding during the current quarter resulting from higher demand for the cash advance product also contributed to the increase in cash advance fees. Average cash advance balances were \$28.1 million during the current quarter compared to \$4.8 million during the prior year quarter. However, the Company only began purchasing the participation interest in the bank originated loans at the end of March 2003. The cash advance product was available in 552 U.S. lending locations, which includes 388 Cash America pawnshops, 21 Cash America cash advance centers and 143 Cashland consumer finance centers at March 31, 2004. This includes 306 units that offer the product on behalf of a third-party bank for which the Company performs administrative services. The Company has entered into an agreement with a second third-party bank that will begin offering cash advances in some of those units in the second quarter of 2004. Cash advance fees include revenue from the cash advance portfolio owned by the Company and fees for administrative services performed for the bank. (Although cash advance transactions may take the form of loans or deferred check deposit transactions, the transactions are referred to throughout this discussion as cash advances for convenience.)

The amount of cash advances written increased \$84.2 million, or 220.4%, to \$122.4 million in the current quarter from \$38.2 million in the prior year quarter. Included in the amount of cash advances written in the current quarter and prior year quarter were \$43.8 million and \$33.3 million, respectively, extended to customers by the bank. The average amount per cash advance increased to \$333 from \$295 partly as a result of Cashland's higher average amount per cash advance. The combined Company and bank portfolios of cash advances generated \$20.7 million in revenue during the current quarter compared to \$7.1 million in the prior year quarter. The outstanding combined portfolio balance of cash advances increased \$18.8 million to \$28.0 million at March 31, 2004, from \$9.2 million at March 31, 2003. Included in these amounts are \$26.6 million and \$8.5 million for 2004 and 2003, respectively, that are included in the Company's consolidated balance sheets. An allowance for losses of \$2.7 million and \$1.4 million has been provided in the consolidated financial statements as of March 31, 2004 and 2003, respectively, which offsets the outstanding cash advance amounts.

Management anticipates continued growth in cash advance fees for the remainder of 2004 due to increased consumer awareness and demand for the cash advance product, higher outstanding balances at March 31, 2004 compared to March 31, 2003, and the growth of balances from new units opened in 2003 and in the first quarter of 2004, and expected to be opened during the remainder of 2004.

Check Cashing Royalties and Fees. Check cashing fees for the United Kingdom operations increased 56.3% to \$0.6 million, in the current quarter, while check cashing revenue for Mr. Payroll remained unchanged at \$1.1 million. Check cashing revenue for Cashland in the current quarter was \$2.3 million.

Operations and Administration Expenses. Consolidated operations and administration expenses, as a percentage of total revenue, were 44.9% in the current quarter compared to 43.5% in the prior year quarter. These expenses increased \$13.2 million, or 28.8%, in the current quarter compared to the prior year quarter. Domestic pawn lending and the Cash America Payday Advance operations expenses increased \$3.4 million, or 8.5%, as a result of slightly higher staffing levels, higher benefit costs and higher expenses, related to the cash advance product, including advertising and the establishment of 16 new pawnshop locations and 16 new Cash America Payday Advance locations. The addition of Cashland contributed \$8.0 million of the increase. Foreign lending operating expenses increased \$1.8 million, or 38.5%, primarily due to an increase in the number of locations in the United Kingdom and Sweden during 2003.

Table of Contents

As a multi-unit operator in the consumer finance industry, the Company's operations and administration expenses are predominately for personnel and occupancy expenses. Personnel expenses include base salary and wages, performance incentives, and benefits. Occupancy expenses include rent, property taxes and insurance, utilities, and maintenance. The combination of personnel and occupancy expenses represents 83.1% of total operations and administration expenses in the current quarter and 85.1% in the prior year quarter. The comparison is as follows (\$ in millions):

	Three Months Ended March 31,			
	2004		2003	
	Amount	% of Revenue	Amount	% of Revenue
Personnel	\$36.4	27.6%	\$28.6	27.1%
Occupancy	12.8	9.7	10.6	10.0
Other	10.0	7.6	6.8	6.4
Total	\$59.2	44.9%	\$46.0	43.5%

Of the \$7.8 million, or 27.3%, increase in personnel expense, \$4.5 million is attributable to the addition of Cashland. The balance of the increase is due to unit additions during 2003, an increase in staffing levels, and normal recurring salary adjustments. Of the \$2.2 million, or 20.8%, increase in occupancy expenses, \$1.6 million is due to the addition of Cashland.

Cash Advance Loss Provision. The Company maintains an allowance for losses on cash advances at a level projected to be adequate to absorb credit losses inherent in the outstanding combined cash advance portfolio. The cash advance loss provision is utilized to increase the allowance carried against the outstanding combined cash advance portfolio. The cash advance loss provision increased \$1.7 million to \$3.0 million in the current quarter as compared to \$1.3 million in the prior year quarter principally due to the acquisition of Cashland and the significant increase in the size of the portfolio. The loss provision as a percentage of cash advance fees decreased to 15.5% in the current quarter as compared to 20.6% in the prior year quarter. The decrease in the loss provision as a percentage of cash advance fees is due to lower loss rates experienced by the Company in the current quarter compared to the prior year quarter. The Company continued to improve its collection performance in the current quarter.

Depreciation and Amortization. Depreciation and amortization expense as a percentage of total revenue remained at 3.5% for both periods. Total depreciation and amortization expense increased \$1.0 million, or 26.1%, primarily due to the addition of Cashland.

Interest Expense. Net interest expense as a percentage of total revenue was 1.7% for the current quarter as compared to 2.1% for the prior year quarter. Interest expense increased \$0.1 million to \$2.3 million (net of interest income of \$41,000) in the current quarter as compared to \$2.2 million (net of interest income of \$100,000) in the prior year quarter. The increase was due to an increase in debt levels for the acquisition of Cashland on August 1, 2003, and was partially offset by the effect of lower interest rates on floating rate debt. The effective blended borrowing cost

decreased to 5.8% in the current quarter compared to 6.2% in the prior year quarter. The slight decrease in blended borrowing cost was due to a year over year decline in interest rates on floating rate debt which was partially offset by the elimination of interest income from a note receivable repaid in the prior year quarter. The average amount of debt outstanding increased during the current quarter to \$156.5 million from \$142.5 million during the prior year quarter.

Income Taxes. The Company's effective tax rate for the current quarter was 35.6% as compared to 37.3% for the prior year quarter. The decrease in the current quarter is primarily attributable to lower state and local income taxes.

Table of Contents

Other Data. The following table sets forth certain selected financial and operating data for the Company's domestic and foreign lending operations, presented in U.S. dollars, as of March 31, 2004 and 2003, and for the three months then ended (\$ in thousands).

	2004	2003
DOMESTIC PAWN LENDING OPERATIONS:		
Annualized yield on pawn loans	143.1%	137.5%
Total amount of pawn loans written	\$ 76,564	\$ 72,023
Average pawn loan balance outstanding	\$ 75,507	\$ 72,883
Average pawn loan balance per average location in operation	\$ 190	\$ 185
Average pawn loan amount at end of period (not in thousands)	\$ 85	\$ 83
Profit margin on disposition of merchandise as a percentage of proceeds from disposition of merchandise	39.1%	37.4%

Statements of operations data average rate for the period	0.135772	0.116876

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

In addressing comments from the staff of the Securities and Exchange Commission, the Company restated its Consolidated Statements of Cash Flows to eliminate certain non-cash items and reclassify certain items between operating cash flows and investing cash flows relating to the forfeited pawn loans and cash advance renewals. The net effect of the reclassification is to decrease operating cash flows by \$4.8 million and \$4.3 million with a corresponding increase in investing cash flows for the three months ended March 31, 2004 and 2003, respectively. See Note 1 of Notes to Consolidated Financial Statements.

The Company's cash flows and other key indicators of liquidity are summarized as follows (\$ in millions):

	Three Months Ended March 31,	
	2004	2003
	(Restated)	(Restated)
Operating activities cash flows	\$ 19.5	\$ 17.7
Investing activities cash flows:		
Pawn loans	11.5	10.5
Cash advances	1.2	(6.1)
Acquisitions	(2.9)	(1.9)
Other investing activities	(5.1)	(3.3)
Financing activities cash flows	(27.7)	(15.6)
Working capital	\$215.2	\$172.8
Current ratio	5.7x	5.1x
Merchandise turnover	3.4x	3.3x

Cash flows from operating activities. Net cash provided by operating activities was \$19.5 million for the current period. Net cash generated from (or used by) the Company's domestic pawn lending operations, foreign pawn lending operations, cash advance operations and check cashing operations were \$16.6 million, \$(0.9) million, \$3.4 million and \$0.4 million, respectively.

Cash flows from investing activities. The seasonal decline in balances due to redemptions related to customer receipt of federal tax refunds led to decreases in the Company's investment in pawn loans and cash advances during the current period that generated cash of \$10.5 million and \$1.2 million, respectively. The Company invested \$5.1 million in property and equipment during the current period for the establishment of 10 cash advance units (2 Cash America cash advance centers and 8 Cashland consumer finance centers), the remodeling of selected operating units and ongoing enhancements to the information technology infrastructure, and other property additions. During the current period, the Company amended the Cashland asset purchase agreement and made a final payment of additional consideration in the amount of \$5.4 million consisting of \$2.9 million in cash and a subordinated note for \$2.5 million (see Notes 5 and 9 of Notes to Consolidated Financial Statements.)

Management currently anticipates that capital expenditures for the remainder of 2004 will be approximately \$12 to \$17 million. These expenditures will primarily relate to the addition of up to 60 new lending locations, through the establishment of both new pawnshops and cash advance-only locations and; the acquisition of both pawnshops and cash advance-only locations; the remodeling of selected operating units and enhancements to communications and

information systems.

Table of Contents

Cash flows from financing activities. During the current period, the Company made net repayments of \$23.2 million on bank lines of credit. Additional uses of cash included \$0.5 million for dividends and \$0.8 million for the purchase of treasury shares. On July 25, 2002, the Company's Board of Directors authorized management to purchase up to one million shares of its common stock in the open market and terminated the open market purchase authorization established in 2000. During the current period, the Company purchased 28,500 shares for an aggregate amount of \$0.6 million under this authorization. Additional purchases may be made from time to time in the open market, and it is expected that funding will come from operating cash flow. See Part II, Item 2(e).

As of March 31, 2004, the Company reduced its U.S. line of credit agreement to \$130.0 million from \$135.0 million. This line of credit will be further reduced to \$125.0 million at March 31, 2005 and to \$115.0 million at March 31, 2006. At March 31, 2004, \$44.0 million was outstanding on this line of credit. Amounts outstanding under the Company's multi-currency lines of credit at March 31, 2004, were £5.8 million (approximately \$10.7 million) and SEK 21.0 million (approximately \$2.8 million) for an aggregate \$13.5 million.

The credit agreements and the senior unsecured notes require the Company to maintain certain financial ratios. The Company is in compliance with all covenants and other requirements set forth in its debt agreements. A significant decline in demand for the Company's products and services may cause the Company to reduce its planned level of capital expenditures and lower its working capital needs in order to maintain compliance with the financial ratios in those agreements. A violation of the credit agreements could result in an acceleration of the Company's debt and increase the Company's borrowing costs and could even adversely affect the Company's ability to renew existing credit facilities, or obtain access to new credit facilities in the future. The Company does not anticipate a significant decline in demand for its services and has historically been successful in maintaining compliance with and renewing its debt agreements.

During the current period, the Company received equity totaling \$1.1 million upon the exercise of 115,801 stock options by its officers and employees.

Management believes that borrowings available under the credit facilities, cash generated from operations and current working capital of \$215.2 million should be sufficient to meet the Company's anticipated future capital requirements.

CAUTIONARY STATEMENT REGARDING RISKS AND UNCERTAINTIES THAT MAY AFFECT FUTURE RESULTS

This quarterly report, including Management's Discussion and Analysis of Financial Condition and Results of Operations, contains statements that are forward-looking, as that term is defined by the Private Securities Litigation Reform Act of 1995 or by the Securities and Exchange Commission in its rules. The Company intends that all forward-looking statements be subject to the safe harbors created by these laws and rules. When used in this quarterly report on Form 10-Q, the words believes, estimates, plans, expects, anticipates, and similar expressions as they apply to the Company or its management are intended to identify forward-looking statements. All forward-looking statements are based on current expectations regarding important risk factors. These risks and uncertainties are beyond the ability of the Company to control, and, in many cases, the Company cannot predict all of the risks and uncertainties that could cause its actual results to differ materially from those expressed in the forward-looking statements. Accordingly, actual results may differ materially from those expressed in the forward-looking statements, and such statements should not be regarded as a representation by the Company or any other person that the results expressed in the statements will be achieved. Important risk factors that could cause results or events to differ from current expectations are described below. These factors are not intended to be an all-encompassing list of risks and uncertainties that may affect the operations, performance, development and results of the Company's business.

Table of Contents

Risk Factors

Changes in customer demand for the Company's products and specialty financial services. Although the Company's products and services are a staple of its customer base, a significant change in the needs or wants of customers and the Company's failure to adapt to those needs or wants could result in a significant decrease in the revenues of the Company.

The actions of third-parties who offer products and services at the Company's locations. The Company makes products and services available to its customers through various third parties. A failure of a third-party provider to provide its product or service or to maintain the quality and consistency of its product or service could result in a loss of customers and a related loss in revenue from those products or services.

The ability of the Company to open and acquire new operating units in accordance with its plans. The Company's expansion program is subject to numerous factors which cannot be predicted or controlled, such as the availability of attractive acquisition candidates and the Company's ability to attract, train and retain qualified unit management personnel. Another such factor is the availability of sites with acceptable restrictions and suitable terms and general economic conditions.

Changes in competition from various sources such as banks, savings and loans, short-term consumer lenders, and other similar financial services entities, as well as retail businesses that offer products and services offered by the Company. The Company encounters significant competition in connection with its lending and merchandise disposition operations from other pawnshops, cash advance companies and other forms of financial institutions such as consumer finance companies. Significant increases in these competitive influences could adversely affect the Company's operations through a decrease in the number of cash advances and pawn loans originated, resulting in lower levels of earning assets in these categories.

Changes in economic conditions. While the credit risk for most of the Company's consumer lending is mitigated by the collateralized nature of pawn lending, a sustained deterioration in the economic environment could adversely affect the Company's operations through a deterioration in performance of its pawn loan or cash advance portfolios, or by reducing consumer demand for the purchase of pre-owned merchandise.

Real estate market fluctuations. A significant rise in real estate prices could result in an increase in the cost of store leases as the Company opens new locations and renews leases for existing locations.

Interest rate fluctuations. Although the weakness in the U.S. economy over the past several quarters has resulted in relatively low interest rates offered by lending institutions, an eventual economic recovery could result in a rise in interest rates which would, in turn, increase the cost of borrowing to the Company.

Changes in the capital markets. The Company regularly accesses the debt capital markets to refinance existing debt obligations and to obtain capital to finance growth. Efficient access to these markets is critical to the Company's ongoing financial success; however, the Company's future access to the debt capital markets could become restricted should the Company experience deterioration of its cash flows, balance sheet quality, or overall business or industry prospects.

Changes in tax and other laws and governmental rules and regulations applicable to the specialty financial services industry. The Company's lending activities are subject to extensive regulation and supervision under various federal, state and local laws, ordinances and regulations. The Company faces the risk that new laws and regulations could be enacted that could have a negative impact on the Company's domestic or international lending activities.

Other factors discussed under Quantitative and Qualitative Disclosures about Market Risk in Item 3 of this Form 10-Q and in the Company's 2003 Annual Report to Stockholders.

Other risks indicated in the Company's filings with the Securities and Exchange Commission.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risks relating to the Company's operations result primarily from changes in interest rates, foreign exchange rates, and gold prices. The Company does not engage in speculative or leveraged

Table of Contents

transactions, nor does it hold or issue financial instruments for trading purposes. There have been no material changes to the Company's exposure to market risks since December 31, 2003.

Item 4. Controls and Procedures

The Company restated its Consolidated Statements of Cash Flows for the three months ended March 31, 2004. For a description of the restatement of the Consolidated Statements of Cash Flows and the amendment of related disclosures, see the Explanatory Note on Page 1 of this Form 10-Q/A.

Under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, management of the Company has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of March 31, 2004 (Evaluation Date).

In making this evaluation, the Chief Executive Officer and Chief Financial Officer considered matters relating to the restatement of the previously issued Consolidated Statements of Cash Flows and the amendment of related disclosures. In light of, among other things, the facts and circumstances relating to the restatement, the Chief Executive Officer and Chief Financial Officer concluded the restatement was not reflective of any material weakness in the disclosure controls and procedures. In support of this conclusion, the Chief Executive Officer and Chief Financial Officer noted that the Company's restatement of its Consolidated Statements of Cash Flows for the three months ended March 31, 2004 follows from the review of the Company's Annual Report on Form 10-K for the year ended December 31, 2003 by the staff of the Securities and Exchange Commission (SEC). The restatement is, in substance, a reclassification of certain items as well as an elimination of certain non-cash items in the Consolidated Statements of Cash Flows, all as more particularly described in Note 1 of Notes to Consolidated Financial Statements. Given the unique nature of the Company's pawnbroking business and in conjunction with other elements of the Company's formal disclosure of its business activities in Item 1 of the Company's 2003 Form 10-K, the Company has previously viewed its long standing presentation of the affected items to be an appropriate disclosure approach. Since 1987, the Company has utilized that same presentation format in its audited financial statements. Further, the other registrants in the industry have utilized the same format. Also, to management's knowledge no investors have expressed to the Company any confusion or uncertainty about the Company's disclosure approach during that period of time.

The reclassification is the result of an interpretation of the Company's business characteristics in relation to generally acceptable accounting principles pursuant to the requirements of the Financial Accounting Standard Board's Statement of Financial Accounting Standards No. 95 Statement of Cash Flows (SFAS 95). SFAS 95 calls for the exclusion of non-cash transactions from the statement of cash flows.

Notwithstanding the preceding, management will institute more rigorous reviews of the elements contained in the Statement of Cash Flows to be certain that it accurately captures only cash items consistent with SFAS 95. Management assessed the magnitude of any actual or potential misstatement resulting from the changes described above and concluded that the magnitude of any actual or potential misstatement was limited to the classification of certain items in the Cash Flows from Operating Activities and Cash Flows from Investing Activities sections of the Consolidated Statements of Cash Flows and did not affect any other part of the Consolidated Statements of Cash Flows or any of the Company's other financial statements.

Based upon the evaluation described above, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are

Table of Contents

effective in timely alerting them to the material information relating to the Company required to be included in its periodic filings with the Securities and Exchange Commission.

For the quarter ended March 31, 2004, there was no significant change in the Company's internal control over financial reporting that was identified in connection with management's evaluation described in Item 9A above and has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company's management, including its Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or internal controls will prevent all possible error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

See Note 11 of Notes to Consolidated Financial Statements.

Item 2. Changes in Securities and Use of Proceeds

(e) The following table provides the information with respect to purchases made by the Company of shares of its common stock during each of the month in the first quarter of 2004:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares that May Yet Be Purchased Under the Plan (1)
January 1 to January 31	5,705 ⁽²⁾	\$22.73		691,200
February 1 to February 29	4,126 ⁽³⁾	21.59		691,200
March 1 to March 31	28,901 ⁽⁴⁾	21.99	28,500	662,700
Total	38,732	\$22.06	28,500	

-
