(Registrant's telephone number, including area code)
(Former name, former address and former fiscal year, if changed since last report)
Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Name of each exchange on which registered

Common Stock, \$.01 par value

NASDAQ Stock Exchange Global Select Market®

Securities registered pursuant to Section 12(g) of the Act:

NONE

Indicate by checkmark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes ☐ No ☒.

Indicate by checkmark if the registrant is not required to file report pursuant to Section 13 or Section 15(d) of the Act.
Yes ☐ No ☒.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐.

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of the Form 10-K or any amendment to this Form 10-K. ☐

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of (accelerated filer and large accelerated filer), an accelerated filer, or a non-accelerated filer in Rule 12b-2 of the Exchange Act.

Edgar Filing: GIBALTAR INDUSTRIES, INC. - Form 10-K

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☐

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☐

The aggregate market value of the Common Stock outstanding and held by non-affiliates (as defined in Rule 405 under the Securities Act of 1933) of the registrant, based upon the closing sale price of the Common Stock on the NASDAQ Stock Exchange Global Select Market® on June 30, 2006, the last business day of the registrant's most recently completed second quarter, was approximately \$706.7 million.

As of February 23, 2007, the number of common shares outstanding was: 29,841,195.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's definitive Proxy Statement for the Annual Meeting of Shareholders are incorporated by reference into Part III of this report.

PART I

Item 1. Description of Business

General

We are a leading manufacturer, processor and distributor of residential and commercial building products and processed metal products for industrial applications. Our building products are used by homeowners and builders to provide structural and architectural enhancements for residential and commercial building projects. Our processed metal products are comprised primarily of steel shaped to specific widths and hardened to certain tolerances as required by our customers. We serve over 10,000 customers in a variety of industries in all 50 states, Canada, Mexico, Europe, Asia, and Central and South America. We operate 81 facilities in 27 states, Canada, England, Germany, Poland and China, giving us a broad platform for just-in-time delivery and support to our customers.

We sell our products both domestically and internationally. We operate in the following two business segments:

Building Products Through acquisitions and organic growth, we have created a building products business that now offers more than 5,000 products, many of which are market leaders and are sold to more than 9,100 customers. Our building products segment operates 66 facilities in 24 states, Canada, England, Germany and Poland.

Processed Metal Products Our processed metal products segment focuses on value-added precision sizing and treating of steel for a variety of uses, the manufacture of non-ferrous metal powders for use in several industries and other activities. We sell processed metal products to more than 1,700 customers. Our processed metal products segment operates 15 facilities in 8 states and China.

Table of Contents

The following table sets forth the selected products, industries served and customers for each segment.

	Building products	Processed metal
Selected products/ services	Mailboxes Ventilation products Expanded metal Structural connectors Bar grating Metal building accessories Metal lath	Cold-rolled strip steel Coated steel products Non-ferrous metals powder
Selected industries served	Retail home market Lumber Building materials Residential, commercial and industrial construction	Power and hand tool hardware Aerospace Electronics Automotive Automotive supply Consumer products Commercial and residential metal building
Selected customers	The Home Depot Lowe's Companies Menard Cashway Lumber ABC Supply Prime Source	Chrysler General Motors BorgWarner Ford Motor Company 3M Arrowhead Industries

Note 16 of the Company's consolidated financial statements included in Item 8 herein provides information related to the Company's business segments in accordance with accounting principles generally accepted in the United States of America.

Recent Developments

In April 2003, the Company acquired Construction Metals, Inc. (Construction Metals). As part of the purchase agreement between the Company and the former owners of Construction Metals, the Company was required to pay additional consideration if certain net sales levels as defined in the purchase agreement were achieved during the period from acquisition through and including March 31, 2006. During the second quarter of 2006, a payment of \$1,754,000 was made as additional consideration pursuant to the purchase agreement, and was recorded as additional goodwill.

On June 8, 2006, the Company acquired Home Impressions, Inc. (Home Impressions) for approximately \$12.5 million, subject to adjustment for operating results through May 2009. Home Impressions markets and distributes mailboxes and postal accessories. Note 4 of the Company's consolidated financial statements included in Item 8 herein contain additional information regarding the acquisition of Home Impressions.

On June 16, 2006, the Company sold certain assets and liabilities of its strapping business for approximately \$15.2 million. The results of this business for the current and prior periods have been classified as discontinued operations in our consolidated financial statements included in Item 8 herein.

Table of Contents

On June 30, 2006, the Company sold certain assets and liabilities of its thermal processing business for approximately \$136.3 million. The results of this business for the current and prior periods have been classified as discontinued operations in our consolidated financial statements included in Item 8 herein.

On June 30, 2006, the Company acquired certain assets of Steel City Hardware, LLC (Steel City) for approximately \$4.9 million. The assets acquired from Steel City are used to manufacture mailboxes and postal accessories. Note 4 of the Company's consolidated financial statements included in Item 8 herein contains additional information regarding the acquisition of assets from Steel City.

On November 1, 2006, the Company acquired all of the outstanding stock of The Expanded Metal Company Limited and Sorst Streckmetell GmbH (EMC) for approximately \$44.6 million. EMC has locations in England, Germany and Poland and manufactures, markets and distributes a diverse line of products used in the commercial and industrial sectors of the building products market. Note 4 of the Company's consolidated financial statements included in Item 8 herein contains additional information regarding the acquisition of the outstanding stock of EMC.

During December 2006, the Company determined that its partnership interest in Gibraltar DFC Strip Steel LLC was impaired. Consequently, the Company recorded a pre-tax impairment charge of approximately \$12.9 million.

Industry overview

Building products manufacturers occupy an intermediate market between the primary steel, metal and other material producers and the nationwide wholesale and retail building supply industry. The primary producers typically focus on producing high volumes of their product. We purchase raw materials from these producers and, through various production processes, convert these steel raw materials into specialized products for use in the construction or repair of residential and commercial buildings. We distribute our products through both wholesale distributors, which focus their efforts on contractors, and large retail chains, which have captured the majority of the retail building products market.

Steel and metal processors occupy a market niche that exists between the primary steel and metal producers and end-users and others. Primary steel and metal producers typically focus on the sale of standard size and tolerance of steel and other metals to large volume purchasers, including steel and metal processors. End-users require steel with closer tolerances and with shorter lead times than the primary steel and metal producers can provide efficiently. Steel processors like our company, through the application of various higher value-added processes such as cold-rolling and specialized heat-treating methods, process steel to a precise grade, temper, tolerance and finish. End product manufacturers incorporate this processed steel into finished goods.

Products and services

Building Products segment

The Building Products segment is composed of 16 businesses acquired over the last ten years that are primarily, but not exclusively, manufacturers of metal products used in the residential and light commercial building markets. As a result, we operate 66 facilities in 24 states, Canada, England, Germany and Poland, giving us a national base of operations to provide customer support, delivery, service and quality to a number of regional and national customers, and providing us with manufacturing and distribution efficiencies in North America, as well as a presence in the European market.

We manufacture an extensive variety of products that are sold to lumber and building material wholesalers, buying groups, discount and major retail home centers, major home builders, HVAC and roofing distributors and residential, industrial and commercial contractors. Our product offerings include a full line of ventilation products and accessories; mailboxes; roof edging, underlayment and flashing; soffit; drywall corner bead; structural support products; coated coil stock; metal roofing and accessories; steel framing; rain-carrying systems, including gutters and accessories; bath cabinets; access doors; roof hatches and smoke vents; builders' hardware, shelving and closet rods; diffusers; and fasteners, each of which can be sold separately or as an integral part of a package or program sale.

Table of Contents

Our principal focus in the recent past has been to penetrate and continue to build on our success in the residential building products market. We have been able to develop a strong customer base in the light commercial building market through acquisitions and market penetration. With our recent acquisitions of AMICO and EMC, we have entered the commercial and industrial building markets in a more significant way and have further diversified our product offerings to residential building products customers. The acquisitions of AMICO and EMC expand our product line to include bar grating used in walkways, platforms, safety barriers, drainage covers, and ventilation grates; expanded metal used in walkways, shelving, barriers, patio furniture, and other applications where both visibility and security are necessary; perforated metal used in industrial, home and office settings; fiberglass grating, used in areas where high strength, light weight, low maintenance and corrosion resistance are required; and safety/plank grating, used to provide a walking surface with excellent slip resistance. These products are used in industrial and commercial buildings. AMICO also produces metal lath, used as a structural base for stucco, tile or stone, and vinyl drywall and stucco products, used to complete drywall or stucco projects. These products are used in industrial/commercial and residential buildings.

The acquisition of AMICO also advances our strategy of obtaining, developing and sustaining shelf space with major improvement centers, major merchandisers and leading building material wholesalers. At the regional and even national level, certain of these customers have designated us as category managers in many of their stores. To capitalize on this opportunity and to increase our product sales in each category we manage, we offer a comprehensive range of quality building products. With the addition of the products manufactured by AMICO we are able to offer a greater variety of products to these customers across a number of building products categories. By maintaining our role as category managers, we are better able to manage shelf space where our building products are sold and increase our sales.

We update our building products by launching new products, enhancing existing products and adjusting product specifications to respond to building code and regulatory changes. In 2006, our subsidiary, United Steel Products (USP), broadened its selection of connector products by developing a high performance corrosion protection coating for outdoor use with pressure treated wood. USP and another subsidiary, SEMCO, offer numerous finished parts, including an assortment of metal structural connectors for the residential and commercial building industries. Also in 2006, another subsidiary, Air Vent, obtained GreenSpec listing for its solar powered attic ventilator. In addition, USP and its in-house engineers have been active in the development of building codes nationwide. In particular, USP professionals are recognized for their work and expertise in the field of storm resistant construction, including being called upon by FEMA to assist with hurricane response and damage assessment efforts. As a result of our involvement in the development of building codes, we are able to enhance our products and act first to bring the latest code-compliant building products to the market including USP's Hurricane Anchor. As building codes continue to tighten, in part in response to hurricanes and other natural events, we have been able to grow our customer base, especially in coastal regions.

Many of our building products are used by home owners and builders to provide structural and architectural enhancements for residential and commercial building projects, including in geographic locations subject to severe weather or seismic activity, and facilitate compliance with increasingly stringent building codes and insurance company requirements. Our building products are manufactured primarily from galvanized, galvalume and painted steel, anodized and painted aluminum, copper, brass, zinc and various plastic compounds. These additional metal purchases, when added to our existing Processed Metal Products segment purchases, enhance our purchasing position due to the increased total volume and value-added component of these purchases.

Our production capabilities allow us to process the wide range of metals and plastics necessary for manufacturing building products. Our equipment includes automatic roll forming machines, stamping presses, shears, press brakes, paint lines, milling, welding, injection molding and numerous automated assembly machines. We maintain our equipment through a thorough preventive maintenance program, including in-house tool and die shops, allowing us to meet the demanding service requirements of many of our customers.

Processed Metal Products segment

We manufacture cold-rolled strip steel, metal powders and coated steel products. In addition, we provide materials management and, through a joint venture, steel pickling. We operate through 15 locations in 8 states and in China.

Table of Contents

Our cold-rolled strip steel is used in applications that demand more precise widths, improved surface conditions and tighter gauge tolerances than are supplied by primary producers of flat-rolled steel products. Consistent with our strategy of focusing on value-added products and services, we produce a broad range of fully processed cold-rolled strip steel products. We buy wide sheet steel in coils from primary producers and process it to specific customer orders by performing computer-aided processes such as cold reduction, annealing, edge rolling and slitting. Cold reduction is the rolling of steel to a specified thickness, tolerance and finish. Annealing is a thermal process that changes hardness and certain metallurgical characteristics of steel. Edge rolling involves conditioning edges of processed steel into square, full round or partially round shapes. Slitting is the cutting of steel to specified widths. Depending on customer specifications, we use one or more of these processes to produce steel strip of a precise grade, temper, tolerance and finish. Customers for our strip steel products include manufacturers in the automotive, automotive supply, power and hand tool, hardware and other industries.

We have the capability to process coils up to a maximum outside diameter of 72 inches and roll widths of up to 50 inches. Our rolling mills include automatic gauge control systems with hydraulic screw downs allowing for micro-second adjustments during processing. Our computerized mills enable us to satisfy an industry demand for a wide range of steel from heavier gauge and special alloy steels to low carbon and light gauge steels, in each case having a high quality finish and precision gauge tolerance.

Our rolling facilities are further complemented by 17 high convection annealing furnaces, which allow for shorter annealing times than conventional annealers. Fourteen of our furnaces and bases employ advanced technology that incorporates the use of a hydrogen atmosphere for the production of cleaner and more uniform steel. As a result of our annealing capabilities, we are able to produce cold-rolled strip steel with improved consistency in terms of thickness, hardness, and molecular grain structure and surface.

We can produce certain strip steel products on oscillated coils, which wind strip steel similar to the way fishing line is wound on a reel. Oscillating the strip steel enables us to put at least six times greater volume of finished product on a coil than standard ribbon winding, allowing customers to achieve longer production runs by reducing the number of equipment shut-downs to change coils. Customers are thus able to increase productivity, reduce downtime, improve yield and lengthen die life. These benefits to customers allow us to achieve higher margins on oscillated products. To our knowledge, only a few other steel producers are able to produce oscillated coils, and we are not aware of any competitor that can produce 12,000-pound oscillated coils, the maximum size we produce.

In addition, we operate a manufacturing facility in Research Triangle Park, North Carolina that manufactures, markets and distributes nonferrous metal powder for use in brazing paste, bearings and other products in a number of industries, including the automotive, aerospace, electronics and consumer products industries. Our 2005 acquisition of SCM Asia, a metal powder producer in China, expands the geographic reach of our capability to serve these customers and markets.

Our coated steel products are used primarily in the building products and construction markets and include galvanized and galvalume, pre-painted cold rolled galvanized and galvalume, acrylic coated galvanized and galvalume and PVC coatings for spiral pipe. Materials are available in a wide array of colors and coating qualities. Our cold-rolled low carbon drawing steels and high strength low alloy steels are used primarily in the automotive market and are supplied to second and third tier automotive-stamping manufacturers.

We also operate an advanced materials management facility in Michigan that links primary steel producers and end-user manufacturers by integrating the inventory purchasing, receiving, inspection, billing, storage and shipping functions and producing just-in-time delivery of materials.

We have a 31% interest in Samuel Steel Pickling Company, a joint venture with Samuel Manu-Tech, Inc. that has two steel pickling operations in Ohio. After the hot rolling process, the surface of sheet steel is left with a residue known as scale, which must be removed prior to further processing by a cleaning process known as pickling. This joint venture pickles steel on a toll basis, receiving fees for pickling services without acquiring ownership of the steel.

Table of Contents

Quality assurance

We place great importance on providing our customers with high-quality products for use in critical applications. We carefully select our raw material vendors and use computerized inspection and analysis to maintain our quality standards so that our products will meet critical customer specifications. To meet customer specifications, we use documented procedures utilizing statistical process control systems linked directly to processing equipment to monitor all stages of production. Physical, chemical and metallographic analyses are performed during the production process to verify that mechanical and dimensional properties, cleanliness, surface characteristics and chemical content are within specification. In addition, all of our facilities that provide services or products to the automotive industry are QS-9000 registered, and ten of our building products facilities are ISO 9001-2000 registered.

Technical services

We employ a staff of engineers, metallurgists and other technical personnel and maintain fully-equipped, modern laboratories to support our operations. These laboratories enable us to verify, analyze and document the physical, chemical, metallurgical and mechanical properties of our raw materials and products. In addition, our engineering staff also employs a range of CAD/CAM programs to design highly specialized and technically precise products. Technical service personnel also work in conjunction with our sales force to determine the types of products and services required for the particular needs of our customers.

We have over 140 technical service employees spread throughout our businesses. In each segment the technical staff monitors our operations to satisfy customer specifications for the product being produced.

Suppliers and raw materials

Steel and metal processing companies are required to maintain substantial inventories of raw material in order to accommodate the short lead times and just-in-time delivery requirements of their customers. Accordingly, we generally maintain our inventory of raw materials at levels that we believe are sufficient to satisfy the anticipated needs of our customers. We manage our inventory levels through improved forecasting; increasingly efficient supply chain management, including the establishment of extended terms and inventory hold programs with our suppliers; and our ongoing assessment of market conditions.

The primary raw material we purchase is flat-rolled steel which is used in our Building Products and Processed Metal Products segments. To a lesser extent, we purchase aluminum for the Building Products segment and copper for use in our Processed Metal Products segment.

We purchase flat-rolled steel at regular intervals on an as-needed basis, primarily from the major North American suppliers, as well as a limited amount from foreign steel producers. Because of our strategy to develop longstanding relationships in our supply chain we have been able to maintain an adequate supply of flat-rolled steel.

In early 2004, we experienced temporary supply shortages in the aluminum market. In response, we implemented a commodity sourcing strategy for purchasing aluminum in order to improve consistency. In 2006, we purchased our aluminum from several domestic mills and supplemented that supply by purchasing approximately 37% of our aluminum requirements from foreign producers. We purchase copper scrap from various domestic sources and, if scrap is not available in sufficient supply, we purchase cathode. Supply has been adequate from these sources.

We purchase natural gas and electricity from suppliers in proximity to our operations. While there has been upward pressure on pricing, we have not experienced interruptions due to gas or power constraints, and we have not entered into contracts that permit an interruptible supply.

We have no long-term contractual commitments with our suppliers. In September 2004, we hired a Vice President of Supply Chain Management to reexamine and improve our purchasing practices across our geographically dispersed facilities in order to streamline purchasing across like commodities.

Table of Contents

Intellectual property

Although we protect our intellectual property by trademark, copyright and patent registrations, and use some of this intellectual property in some of our activities in each of our operating segments, we do not believe any of this intellectual property is material to our operations. While not material, we do believe our patents related to roof vents sold in our Building Products segment, scheduled to expire in March 2009 and June 2009, give us a competitive advantage with regard to that product line.

Sales and marketing

Our products and services are sold primarily by our sales personnel and outside sales representatives located throughout the United States, Canada and Mexico. We had approximately 250 sales personnel as of December 31, 2006. We have organized sales teams to focus on specific customers and national accounts to allow us to provide enhanced supply solutions, and enhance our ability to increase the number of products that we provide to those customers and accounts. Our sales staff works with certain retail customers to manage shelf space which allows us to increase sales at these locations.

Customers and distribution

We have over 10,000 customers located throughout the United States, Canada, Mexico, Europe, Asia, and Central and South America principally in the building and construction, general manufacturing, automotive, automotive supply, steel and machinery industries. Major customers include building product distributors, automobile manufacturers and suppliers and commercial and residential contractors.

During 2004 and 2005, one of our customers (The Home Depot), accounted for approximately 12.8% and 13.7%, respectively, of our consolidated gross sales. No other customer represented 10% or more of our consolidated gross sales for these periods, and no customer represented 10% or more of our consolidated gross sales for 2006.

During 2004, 2005 and 2006, one customer (The Home Depot) of our Building Products segment accounted for approximately 21.8%, 22.5% and 13.8%, respectively, of this segment's gross sales. No other customer accounted for more than 10% of our Building Products segment gross sales during these periods.

No customer of our Processed Metal Products segment represented 10% or more of this segment's gross sales for 2004, 2005 or 2006.

Although we negotiate annual sales orders with the majority of our customers, these orders are subject to customer confirmation as to product amounts and delivery dates. We do not have long-term contracts with any of our customers.

Backlog

Because of the nature of our products and the short lead time order cycle, backlog is not a significant factor in our business. We believe that substantially all of our firm orders existing on December 31, 2006 will be shipped prior to the end of the first quarter of 2007.

Competition

All of the segments we operate in are highly competitive. In general, we compete in the building products and processed metal products markets with several domestic suppliers and, in the case of processed metal products, some foreign manufacturers. A few of our competitors in the processed metals and building products segments may be larger, have greater financial resources or have less financial leverage than we do. As a result, these competitors may be better positioned to respond to any downward pricing pressure or other adverse economic or industry conditions or to identify and acquire companies or product lines compatible with their business. The basis of our competition in each segment differs according to unique characteristics of each segment and are discussed in more detail below.

Table of Contents

Building Products

We compete with numerous suppliers of building products in the building products market based on the range of products offered, quality, price and delivery. Although some of these competing suppliers are large companies, the majority are small to medium-sized and do not offer the range of building products we do.

The prices for the raw materials we use in our Building Products operations, primarily steel, aluminum and plastic, are volatile due to a number of factors beyond our control, including supply shortages, general industry and economic conditions, labor costs, import duties, tariffs and currency exchange rates. Although we have strategies to deal with volatility in raw material costs such as increasing our inventories to protect against price increases and shortages, other competitors in this segment who do not have to maintain inventories as large as ours may be better able to mitigate the effects of this volatility and thereby compete effectively against us on product price.

We believe our broad range of products, product quality and ability to meet exacting customer delivery requirements gives us a competitive advantage over many competitors in this segment.

Processed Metal Products

The metal processing market is highly competitive. We compete with a small number of other metal processors, including Worthington Industries and Steel Technologies. Some of these processors, like Worthington, also focus on fully processed, high value-added metal products like we do. We compete in this market on the basis of precision and range of achievable tolerances, quality, price and the ability to meet delivery schedules dictated by customers.

The prices for the raw materials we use in our Processed Metal Products operations, primarily steel, are volatile due to the same factors described above with respect to our Building Products segment. Although we have strategies to deal with volatility in raw material costs such as increasing our inventories to protect against price increases and shortages, other competitors in this segment which do not have to maintain inventories as large as ours may be better able to mitigate the effects of this volatility and thereby compete effectively against us on product price during times of price volatility.

We believe our ability to meet stringent process specifications and the quality of our processed metals give us a competitive advantage over some competitors in this segment.

Employees

At December 31, 2006, we employed approximately 3,460 people, of which approximately 9.3% were represented by unions through various collective bargaining agreements, one of which expired on October 17, 2006 and others that expire between January 31, 2008 and June 30, 2009. The employees covered under the agreement that expired on October 17, 2006 were notified on February 23, 2007 that the plant they work at will be closed as part of a restructuring. Note 22 of the Company's Consolidated Financial Statements included in Item 8 contains additional information regarding the closure.

We have historically had good relationships with our unions. We expect the current and future negotiations with our unions to result in contracts that provide benefits that are consistent with those provided in our current agreements.

Seasonality

Our net sales are generally lower in the first and fourth quarters primarily due to customer plant shutdowns in the automotive industry due to holidays and model changeovers, as well as reduced activity in the building and construction industry due to inclement weather.

Table of Contents**Governmental Regulation**

Our processing centers and manufacturing facilities are subject to many federal, state and local requirements relating to the protection of the environment and we use environmentally sensitive materials in our production processes. For example, we lubricate our machines with oil and use oil baths to treat some of our products. We believe that we operate our business in material compliance with all environmental laws and regulations, do not anticipate any material expenditures in order to meet environmental requirements and do not believe that future compliance with such laws and regulations will have a material adverse effect on our financial condition or results of operations. However, we could incur operating costs or capital expenditures in complying with more stringent environmental requirements in the future or with current requirements if they are applied to our facilities in a way we do not anticipate.

Our operations are also governed by many other laws and regulations covering our labor relationships, the zoning of our facilities, our general business practices and other matters. We believe that we are in material compliance with these laws and regulations and do not believe that future compliance with such laws and regulations will have a material adverse effect on our financial condition or results of operations.

Internet Information

Copies of the Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available free of charge through the Company's Web site (www.gibraltar1.com) as soon as reasonably practicable after the Company electronically files the material with, or furnishes it to, the Securities and Exchange Commission.

Item 1a. Risk Factors

Our level of indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry and prevent us from meeting our obligations.

We are significantly leveraged with total indebtedness of approximately \$403.8 million as of December 31, 2006. The following chart shows our level of indebtedness and certain other information as of December 31, 2006:

	as of December 31, 2006	
(Dollars in millions)		
Senior credit facility:		
Revolving credit facility	\$	74.6
Institutional term loan		123.9
Senior subordinated notes (1)		204.0
Other		1.3
 Total debt	 \$	 403.8
 Shareholders' equity	 \$	 550.2
 Ratio of earnings to fixed charges (2)		 4.0x

Table of Contents

We may not be able to generate sufficient cash to service all of our indebtedness and we could be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments or to refinance our debt obligations depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot assure you that we will maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay capital expenditures, sell assets or operations, seek additional capital or restructure or refinance our indebtedness. We cannot assure you that we would be able to take any of these actions, that these actions would be successful and permit us to meet our scheduled debt service obligations or that these actions would be permitted under the terms of our existing or future debt agreements. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. Our senior credit facility and our indenture agreement for our senior subordinated notes restrict our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or to obtain the proceeds which we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due.

If we cannot make scheduled payments on our debt, we will be in default and, as a result:

- our debt holders could declare all outstanding principal and interest to be due and payable;

- the lenders under our senior credit facility could terminate their commitments to lend us money and foreclose against the assets securing their borrowings; and

- we could be forced into bankruptcy or liquidation.

Despite current indebtedness levels, we may still be able to incur substantially more debt. This could further exacerbate the risks described above.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future. The terms of the indenture for our senior subordinated notes do not fully prohibit us or our subsidiaries from doing so. Additionally, our senior credit facility provides commitments of up to \$530.0 million in the aggregate, including a revolving credit facility of up to \$300.0 million. At December 31, 2006, outstanding borrowings under the revolving credit facility were \$74.6 million, \$17.2 million of letters of credit were outstanding and \$208.2 million was available to be borrowed. In addition, our senior credit facility permits us to enter into agreements with the administrative agents and any willing lenders to increase the revolving commitments of those lenders or add new term loans from those lenders up to an aggregate amount of \$75.0 million without obtaining the consent of the majority lenders. Our principal operating subsidiary, Gibraltar Steel Corporation of New York, is also a borrower under our senior credit facility and the full amount of our commitments under the revolving credit facility may be borrowed by that subsidiary.

In addition our substantial degree of indebtedness could have other important consequences, including the following:

- it may limit our ability to obtain additional equity financing for working capital, capital expenditures, product development, debt service requirements, acquisitions and general corporate or other purposes;

- a substantial portion of our cash flows from operations are dedicated to the payment of principal and interest on our indebtedness and may not be available for other purposes, including our operations, capital expenditures and future business opportunities;

Table of Contents

certain of our borrowings, including borrowings under our senior credit facility, are at variable rates of interest, exposing us to the risk of increased interest rates; it may limit our ability to adjust to changing market conditions and place us at a competitive disadvantage compared to our competitors that have less debt; and we may be vulnerable in a downturn in general economic conditions or in our business, or we may be unable to carry out capital spending that is important to our growth.

Our future operating results may be affected by fluctuations in raw material prices. We may not be able to pass on increases in raw material costs to our customers.

Our principal raw material is flat-rolled steel, which we purchase from multiple primary steel producers. The steel industry as a whole is very cyclical, and at times availability and pricing can be volatile due to a number of factors beyond our control, including general economic conditions, domestic and worldwide demand, labor costs, competition, import duties, tariffs and currency exchange rates. This volatility can significantly affect our steel costs. Other significant raw materials we use include aluminum and plastics, which are also subject to volatility. Demand for steel increased during 2004, for example, especially in China, and steel producers experienced a shortage of steel scrap and coke, two key materials used in the manufacture of steel. The shortage of these raw materials resulted in significant increases in both steel demand and steel pricing in 2004 and early 2005. To hedge against further price increases and potential shortages, we purchased significant quantities of steel. When steel prices began to decline in mid-2005, our gross profit margins suffered a decline from the corresponding period in 2004 partly because we were selling inventory produced with this high-cost steel, and, contrary to 2004, we were operating under pricing pressure from our customers in our Processed Metal Products segment.

We are required to maintain substantial inventories to accommodate the short lead times and just-in-time delivery requirements of our customers. Accordingly, we purchase raw materials on a regular basis in an effort to maintain our inventory at levels that we believe are sufficient to satisfy the anticipated needs of our customers based upon historic buying practices and market conditions. In an environment of increasing raw material prices, competitive conditions will impact how much of the steel price increases we can pass on to our customers. To the extent we are unable to pass on future price increases in our raw materials to our customers, the profitability of our business could be adversely affected.

The building and construction industry and the automotive industry account for a significant portion of our sales, and reduced demand from these industries is likely to adversely affect our profitability and cash flow.

Net sales of our Building Products segment, which sells products for use in the building and construction industry, accounted for approximately 57.0%, 59.4% and 67.0% of our net sales in 2004, 2005 and 2006, respectively. These sales were made primarily to retail home centers and wholesale distributors. We also sell some products in our Processed Metal Products segment to customers in the building and construction industry. For 2006, The Home Depot accounted for approximately 9.2% of our gross sales. A loss of sales to the building and construction industry, or to the specified customer, would adversely affect our profitability and cash flow. For example, our sales of building products decreased in the fourth quarter of 2006 due to a decline in demand in the new build residential building industry, causing a decrease in net sales in our Building Products segment and contributing to a decrease in our operating margins in that segment compared to the prior year. This industry is cyclical, with product demand based on numerous factors such as interest rates, general economic conditions, consumer confidence and other factors beyond our control.

Table of Contents

A portion of our business is highly dependent on automotive manufacturers, many of which have publicly announced plans to reduce production levels and eliminate excess manufacturing capacity including plans to eliminate jobs and reduce costs. The financial difficulties of certain customers and the efforts under way by our customers to improve their overall financial condition could result in numerous changes that are beyond our control, including additional unannounced customer plant closings, decreased production, changes in the product mix or distribution patterns, volume reductions, labor disruptions, mandatory reductions other unfavorable changes in our pricing, terms or service conditions or market share losses, as well as other changes we may not accurately anticipate. These events could adversely impact our financial results.

We estimate that net sales of our products for use in the automotive industry accounted for approximately 19.2%, 27.4% and 20.2% of our net sales in 2004, 2005 and 2006, respectively. Such sales include sales directly to auto manufacturers and to manufacturers of automotive components and parts. The automotive industry experiences significant fluctuations in demand based on numerous factors such as general economic conditions, consumer confidence and other factors beyond our control. In 2006, for example, our sales of processed steel products to the Big Three automotive manufacturers decreased in comparison to 2005, contributing to a decrease in our operating margins in the Processed Metals Products segment compared to the same quarter in the prior year. The domestic auto industry is currently experiencing a difficult operating environment that may result in lower levels of vehicle production and decreased demand for our products.

Downturns in demand from the building and construction industry, the automotive industry or any of the other industries we serve, or a decrease in the prices that we can realize from sales of our products to customers in any of these industries, would adversely affect our profitability and cash flows.

We may not be able to identify, manage and integrate future acquisitions successfully, and if we are unable to do so, we are unlikely to sustain our historical growth rates and our ability to repay the notes may decline.

Historically, we have grown through a combination of internal growth and external expansion through acquisitions. Although we intend to actively pursue our growth strategy in the future, we cannot provide any assurance that we will be able to identify appropriate acquisition candidates or, if we do, that we will be able to negotiate successfully the terms of an acquisition, finance the acquisition or integrate the acquired business effectively and profitably into our existing operations. Integration of an acquired business could disrupt our business by diverting management away from day-to-day operations and could result in contingent liabilities that were not anticipated. Further, failure to integrate successfully any acquisition may cause significant operating inefficiencies and could adversely affect our profitability and our ability to repay the notes. Consummating an acquisition could require us to raise additional funds through additional equity or debt financing. Additional debt financing would increase our interest expense and reduce our cash flows otherwise available to reinvest in our business and may not be available on satisfactory terms when required.

Lead time and the cost of our products could increase if we were to lose one of our primary suppliers.

If, for any reason, our primary suppliers of flat-rolled steel, aluminum or other metals should curtail or discontinue deliveries to us in quantities we need and at prices that are competitive, our business could suffer. The number of available suppliers has been reduced in recent years due to industry consolidation and bankruptcies affecting steel and metal producers, and this trend may continue. Our top ten suppliers accounted for 35.9% of our purchases during 2005. We could be significantly and adversely affected if delivery were disrupted from a major supplier or several suppliers. In addition, we do not have long-term contracts with any of our suppliers. In early 2004, we experienced temporary supply shortages in the aluminum market. If, in the future, we were unable to obtain sufficient amounts of the necessary metals at competitive prices and on a timely basis from our traditional suppliers, we may not be able to obtain such metals from alternative sources at competitive prices to meet our delivery schedules, which would have a material adverse effect on our results, profitability and cash flow.

Table of Contents

Increases in energy and freight prices will increase our operating costs, and we may be unable to pass all these increases on to our customers in the form of higher prices for our products.

We use energy to manufacture and transport our products. In particular, our building products and processed metal products plants use considerable electricity. Our operating costs increase if energy costs rise, which occurred in 2006. During periods of higher freight and energy costs, we may not be able to recover our operating cost increases through price increases without reducing demand for our products. In addition, we do not hedge our exposure to higher prices via energy futures contracts. Increases in energy prices will increase our operating costs and may reduce our profitability and cash flows if we are unable to pass all the increases on to our customers. For example, we estimate that increases in energy costs have increased our cost of sales and, to a lesser degree, selling, general and administrative expense by approximately \$2.4 million in 2006 compared to 2005.

We rely on a few customers for a significant portion of our gross sales, and the loss of those customers would adversely affect us.

Some of our customers are material to our business and results of operations. In 2006, ten of our largest customers accounted for approximately 26.2% of our gross sales. Our percentage of gross sales to our major customers may increase if we are successful in pursuing our strategy of broadening the range of products we sell to existing customers. In such an event, or in the event of any consolidation in the industries we serve, including the retail and automotive industries, our gross sales may be increasingly sensitive to deterioration in the financial condition of, or other adverse developments with, one or more of our top customers. These customers are also able to exert pricing and other influence on us, requiring us to market, deliver and promote our products in a manner that may be more costly to us. Moreover, we generally do not have long-term contracts with our customers, as is typical in the industries we serve. As a result, although our customers periodically provide indications of their product needs and purchases, they generally purchase our products on an order-by-order basis, and the relationship, as well as particular orders, can be terminated at any time. The loss or significant decrease in business from any of our major customers would have a material adverse effect on our business, results of operations and cash flow.

Our business is highly competitive, and increased competition could reduce our gross profit and net income.

The principal markets that we serve are highly competitive. Competition is based primarily on the precision and range of achievable tolerances, quality, price, raw materials and inventory availability and the ability to meet delivery schedules dictated by customers. Our competition in the markets in which we participate comes from companies of various sizes, some of which have greater financial and other resources than we do and some of which have more established brand names in the markets we serve. Increased competition could force us to lower our prices or to offer additional services at a higher cost to us, which could reduce our gross profit, net income and cash flow and cause us to lose market share.

Our principal stockholders have the ability to exert significant control in matters requiring a stockholder vote and could delay, deter or prevent a change in control of the Company.

Approximately 18.3% of our outstanding common stock, including shares of common stock issuable under options granted which are exercisable within 60 days, are owned by Brian J. Lipke, who is the Chairman and Chief Executive Officer of our Company and Eric R. Lipke, Neil E. Lipke, Meredith A. Lipke and Curtis W. Lipke, all of whom are siblings, and certain trusts for the benefit of each of them. As a result, the Lipke family has significant influence over all actions requiring stockholder approval, including the election of our board of directors. Through their concentration of voting power, the Lipke family could delay, deter or prevent a change in control of our Company or other business combinations that might otherwise be beneficial to our Company. In deciding how to vote on such matters, the Lipke family may be influenced by interests that conflict with other stakeholders. In addition, the Lipke family may have an interest in pursuing transactions that, in their judgment, enhance the value of their equity investment in the Company, even though those transactions may involve risks to our other stakeholders.

Table of Contents

We depend on our senior management team, and the loss of any member could adversely affect our operations.

Our success is dependent on the management and leadership skills of our senior management team. The loss of any of these individuals or an inability to attract, retain and maintain additional personnel could prevent us from implementing our business strategy. We cannot assure you that we will be able to retain our existing senior management personnel or to attract additional qualified personnel when needed. We have not entered into employment agreements with any of our senior management personnel other than Brian J. Lipke, our Chairman of the Board and Chief Executive Officer.

We could incur substantial costs in order to comply with, or to address any violations of, environmental laws.

Our operations and facilities are subject to a variety of federal, state, local and foreign laws and regulations relating to the protection of the environment and human health and safety. Failure to maintain or achieve compliance with these laws and regulations or with the permits required for our operations could result in substantial operating costs and capital expenditures, in addition to fines and civil or criminal sanctions, third-party claims for property damage or personal injury, cleanup costs or temporary or permanent discontinuance of operations. Certain of our facilities have been in operation for many years and, over time, we and other predecessor operators of these facilities have generated, used, handled and disposed of hazardous and other regulated wastes. Environmental liabilities could exist, including cleanup obligations at these facilities or at off-site locations where materials from our operations were disposed of or at facilities we divested, which could result in future expenditures that cannot be currently quantified and which could reduce our profits and cash flow. We may be held strictly liable for the contamination of these sites, and the amount of that liability could be material. Under the joint and several liability principle of certain environmental laws, we may be held liable for all remediation costs at a particular site. Changes in environmental laws, regulations or enforcement policies could have a material adverse effect on our business, financial condition or results of operations.

Labor disruptions at any of our major customers or at our own manufacturing facilities could adversely affect our results of operations and cash flow.

Many of our important customers, including in the automotive industry, have heavily unionized workforces and have sometimes experienced significant labor disruptions such as work stoppages, slow-downs and strikes. A labor disruption at one or more of our major customers could interrupt production or sales by that customer and cause the customer to halt or limit orders for our products and services. Any such reduction in the demand for our products and services would adversely affect our net sales, results of operations and cash flow.

In addition, approximately 9.3% of our own employees are represented by unions through various collective bargaining agreements, one of which expired on October 17, 2006 and others that expire between January 31, 2008 and June 30, 2009. The employees covered under the expired agreement were notified on February 23, 2007 that the plant they work at will be closed as part of a restructuring. It is likely that our employees will seek an increase in wages and benefits at the expiration of these agreements, and we may be unable to negotiate new agreements without labor disruption. In addition, labor organizing activities could occur at any of our facilities. If any labor disruption were to occur at our facilities, we could lose sales due to interruptions in production and could incur additional costs, which would adversely affect our net sales, results of operations and cash flow.

Our operations are subject to seasonal fluctuations that may impact our cash flow.

Our net sales are generally lower in the first and fourth quarters primarily due to reduced activity in the building and construction industry due to weather, as well as customer plant shutdowns in the automotive industry due to holidays and model changeovers. In addition, quarterly results may be affected by the timing of large customer orders. Therefore, our cash flow from operations may vary from quarter to quarter. If, as a result of any such

Table of Contents

fluctuation, our quarterly cash flows were significantly reduced, we may not be able to service our indebtedness. A default under any of our indebtedness would prevent us from borrowing additional funds and limit our ability to pay interest or principal, and allow our senior secured lenders to enforce their liens against our personal property.

We have not yet fully evaluated the internal control over financial reporting of EMC and its subsidiaries, and any deficiencies in EMC's internal controls that we may find would require us to spend resources to correct those deficiencies and could adversely affect market confidence in our reported consolidated financial information and the market price of our securities.

Maintaining effective internal control over financial reporting at the Company, including all our subsidiaries, is necessary for us to produce reliable financial reports and is important in helping to prevent financial fraud. We are currently subject to Sections 302, 404 and 906 of the Sarbanes-Oxley Act of 2002 and the related rules of the SEC, which require, among other things, our management to assess annually the effectiveness of our internal control over financial reporting and our independent registered public accounting firm to issue a report on the assessment of our management included in our annual report on Form 10-K. However, because EMC was a private company when we acquired it, EMC was not subject to the Sarbanes-Oxley Act of 2002, and we are continuing to evaluate the strength of EMC's internal control over financial reporting. As an independent company, EMC and its subsidiaries did not operate under a fully documented system for accounting and internal control over financial reporting, and we will need to document that control structure and may need to improve it. If we identify any significant deficiencies in EMC's internal control over financial reporting in the course of the integration process, we will be required to spend time and money to remedy those deficiencies. If we are unable to sufficiently integrate EMC's control structure into our structure or correct any deficiencies we identify in a timely manner, we may conclude that these circumstances constitute a material weakness in the internal control over financial reporting of our Company. If we were to reach such a conclusion, our management and our independent registered public accounting firm would be unable to conclude in their reports that our internal control over financial reporting was effective. Investors could lose confidence in our reported consolidated financial information as a result, and the market price of our securities could suffer.

Restrictive covenants may adversely affect our operations.

Our senior credit facility and the indenture governing our senior subordinated notes contain various covenants that limit our ability to, among other things:

incur additional debt or provide guarantees in respect of obligations of other persons;

pay dividends or distributions or redeem or repurchase capital stock;

prepay, redeem or repurchase debt;

make loans, investments and capital expenditures;

incur debt that is senior to our Senior Subordinated notes but junior to our senior credit facilities and other senior indebtedness;

incur liens;

restrict distributions from our subsidiaries;

sell assets and capital stock of our subsidiaries;

consolidate or merge with or into, or sell substantially all of our assets to, another person; and

enter into new lines of business.

Table of Contents

In addition, the restrictive covenants in our senior credit facility (which includes our \$300.0 million revolving credit facility and our \$230.0 million term loan facility) require us to maintain specified financial ratios and satisfy other financial condition tests. Our ability to meet those financial ratios and tests can be affected by events beyond our control, and we cannot assure you that we will meet those tests. A breach of any of these covenants could result in a default under our senior credit facility. Upon the occurrence of an event of default under our senior credit facility, the lenders could elect to declare all amounts outstanding under such facility to be immediately due and payable and terminate all commitments to extend further credit. If such event of default and election occur, the lenders under our senior credit facility would be entitled to be paid before current note holders receive any payment under our notes. In addition, if we were unable to repay those amounts, the lenders under our senior credit facility could proceed against the collateral granted to them to secure that indebtedness. We have pledged substantially all our assets as collateral under our senior credit facility. If the lenders under our senior credit facility accelerate the repayment of borrowings, we cannot assure you that we will have sufficient assets to repay our senior credit facility and our other indebtedness, including our senior subordinated notes, or borrow sufficient funds to refinance such indebtedness. Even if we are able to obtain new financing, it may not be on commercially reasonable terms, or terms that are acceptable to us.

We are subject to information system security risks and systems integration issues could disrupt our internal operations.

We are dependent upon information technology for the distribution of information internally and also to our customers and suppliers. This information technology is subject to damage or interruption from a variety of sources, including but not limited to computer viruses, security breaches and defects in design. Various measures have been implemented to manage our risks related to information system and network disruptions, but a system failure or failure to implement new systems properly could negatively impact our operations and financial results.

Economic, political and other risks associated with foreign operations could adversely affect our financial results.

Although the majority of our business activity takes place in the United States, we derive a portion of our revenues and earnings from operations in foreign countries, and are subject to risks associated with doing business internationally. Our sales originating outside the United States represented approximately 4.8% of our consolidated net sales in fiscal 2006. We have facilities in Canada, China, Germany, Poland and England. The risks of doing business in foreign countries include the potential for adverse changes in the local political climate, in diplomatic relations between foreign countries and the United States or in governmental policies, laws or regulations, terrorist activity that may cause social disruption, logistical and communications challenges, costs of complying with a variety of laws and regulations, difficulty in staffing and managing geographically diverse operations, deterioration of foreign economic conditions, currency rate fluctuations, foreign exchange restrictions, differing local business practices and cultural considerations, restrictions on imports and exports or sources of supply and changes in duties or taxes. We believe that our business activities outside of the United States involve a higher degree of risk than our domestic activities.

Variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Certain of our borrowings, primarily borrowings under our senior credit facility, are, and are expected to continue to be, at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness would increase even if the amount borrowed remained the same, and our net income would decrease. Assuming all revolving loans and the term loan were fully drawn or funded on December 31, 2006, as applicable, each quarter point change in interest rates would result in a \$1.2 million change in annual interest expense on our senior credit facility.

Item 3. Legal Proceedings

From time to time, the Company is named a defendant in legal actions arising out of the normal course of business. The Company is not a party to any pending legal proceeding the resolution of which the management of the Company believes will have a material adverse effect on the Company's results of operations or financial condition or to any other pending legal proceedings other than ordinary, routine litigation incidental to its business. The Company maintains liability insurance against risks arising out of the normal course of business.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the fourth quarter of the year ended December 31, 2006.

Table of Contents**PART II****Item 5. Market for Common Equity and Related Stockholder Matters**

As of December 31, 2006, there were 130 shareholders of record of the Company's common stock. However, the Company believes that it has a significantly higher number of shareholders because of the number of shares that are held by nominees.

The Company's common stock is traded in the over-the-counter market and quoted on the NASDAQ Stock Exchange Global Select Market (NASDAQ) under the symbol ROCK. The following table sets forth the high and low sale prices per share for the Company's common stock for each quarter of 2006 and 2005 as reported on the NASDAQ Stock Exchange.

	2006		2005	
	High	Low	High	Low
Fourth Quarter	\$25.48	\$20.77	\$23.75	\$18.30
Third Quarter	\$29.48	\$22.12	\$24.96	\$18.52
Second Quarter	\$32.72	\$22.91	\$22.23	\$18.10
First Quarter	\$29.83	\$22.91	\$26.70	\$20.91

The Company declared dividends of \$.05 per share in each of the first, second and third quarters of 2006 and \$.05 per share in each of the first, second, third and fourth quarters of 2005.

Cash dividends are declared at the discretion of the Company's Board of Directors. The Board of Directors reviews the dividend quarterly and establishes the dividend rate based upon such factors as the Company's earnings, financial condition, capital requirements, debt covenant requirements and/or other relevant conditions. Although the Company expects to continue to declare and pay cash dividends on its common stock in the future if earnings are available, the Company cannot assure that either cash or stock dividends will be paid in the future or that, if paid, the dividends will be paid in the same amount or at the same frequency as paid in the past.

The following table summarizes information concerning securities authorized for issuance under the Company's stock option plans:

Plan category	Number of securities to be issued upon exercise of outstanding options	Weighted-average exercise price of outstanding options	Number of securities remaining available for future issuance under equity compensation plans(1)
Equity compensation plans approved by security holders	425,832	\$ 18.32	1,540,245
Total	425,832	\$ 18.32	1,540,245

(1) Consists of the Company's 2005 Equity Incentive Plan. Note 3 of the Company's consolidated

PERFORMANCE GRAPH

The performance graph shown below compares the cumulative total shareholder return on the Company's common stock, based on the market price of the common stock, with the total return of the S&P SmallCap 600 Index and the S&P SmallCap 600 Industrials Index for the five-year period ended December 31, 2006. The comparison of total return assumes that a fixed investment of \$100 was invested on December 31, 2001 in common stock and in each of the foregoing indices and further assumes the reinvestment of dividends. The stock price performance shown on the graph is not necessarily indicative of future price performance.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among Gibraltar Industries Inc., The S & P Smallcap 600 Index
And The S & P SmallCap 600 Industrials

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's consolidated financial statements and notes thereto included in Item 8 of this Form 10-K.

Overview

The consolidated financial statements present the financial condition of the Company as of December 31, 2006 and 2005 and the consolidated results of operations and cash flows of the Company for the years ended December 31, 2006, 2005 and 2004.

We are a leading manufacturer, processor and distributor of residential and commercial building products and processed metal products for industrial applications. We serve over 10,000 customers in a variety of industries in all 50 states, Canada, Mexico, Europe, Asia, and Central and South America. We operate 81 facilities in 27 states, Canada, England, Germany, Poland and China.

Segments

We operate in two reportable segments: Building Products and Processed Metal Products.

Building Products. We process sheet steel to produce over 5,000 building and construction products, including mailboxes, ventilation products, structural connectors, bar grating, metal lath and expanded metal. We sell these products primarily to major retail home centers, such as The Home Depot, Lowe's, Menards, metal service centers, wholesalers and contractor suppliers.

Processed Metal Products. We produce a wide variety of cold-rolled strip steel products, coated sheet steel products and powdered metal products. In this segment, we primarily serve the automotive industry's leaders, such as General Motors, Ford, DaimlerChrysler and Honda, and other major manufacturers such as 3M Company, as well as the automotive supply, commercial and residential metal building, power and hand tool and other industries.

The following table sets forth our net sales from continuing operations by reportable segment for the years ended December 31, 2004, 2005 and 2006.

(Dollars in thousands)	Year ended December 31,		
	2006	2005	2004
Statement of income data:			
Net sales			
Building products	\$ 872,639	\$ 615,386	\$ 477,316
Processed metal products	430,716	421,437	359,725
Total consolidated net sales	\$ 1,303,355	\$ 1,036,823	\$ 837,041

Table of Contents

We also hold equity positions in a steel cold-rolled strip steel joint venture and a pickling joint venture, both of which are included in our Processed Metal Products segment.

Results of Operations

The following table sets forth selected results of operations data as percentages of net sales:

	Fiscal year ended December 31,		
	2006	2005	2004
Net sales	100.0%	100.0%	100.0%
Cost of sales	79.9	81.5	79.6
Gross profit	20.1	18.5	20.4
Selling, general and administrative expense	10.9	10.7	12.0
Income from operations	9.2	7.8	8.4
Interest expense	2.1	2.0	1.3
Equity in partnerships (income) loss(1)	1.0	(0.0)	(0.6)
Income before taxes	6.1	5.8	7.7
Provision for income taxes	2.3	2.2	3.0
Income from continuing operations	3.8	3.6	4.7
Discontinued operations, net of taxes(2)	0.6	0.6	1.4
Net income	4.4%	4.2%	6.1%

(1) Equity in partnerships (income) loss represents our proportional interest in the income or losses of our cold-rolled strip steel joint venture, the impairment charge to recognize the impairment of our investment in this joint venture in 2006, our steel pickling joint venture and other income.

- (2) Discontinued operations represents the income, net of income taxes, attributable to our thermal processing business, our strapping business and our Milcor subsidiary, which we sold in June 2006, June 2006 and January 2005, respectively.

Table of Contents

Year Ended December 31, 2006 Compared to Year Ended December 31, 2005

Consolidated

Net sales increased by \$266.6 million, or 25.7% to \$1,303.4 million in 2006, from \$1,036.8 million in 2005. The increase in net sales was attributable to the acquisition of AMICO in October 2005, which provided an additional \$270.1 million in net sales in 2006, and the acquisition of EMC in November 2006, which provided \$10.4 million in net sales in 2006. The decrease in net sales excluding the effect of these acquisitions was the result of sales declines in our historic building products business, the result of volume decreases due to softening in the domestic automotive and new build housing markets, along with the reduction in severe weather during 2006 as compared to 2005, which drove volumes during 2005 at certain subsidiaries.

Cost of sales increased \$196.4 million, or 23.2%, to \$1,041.5 million in 2006 from \$845.1 million in 2005. The increase was due to higher sales volumes due to acquisitions noted above. The acquisitions of AMICO in October 2005 and EMC in November 2006 added \$211.9 million to cost of sales in 2006. The \$15.5 million decrease in cost of sales for the remainder of the business was the result of product mix and lower material costs as a percentage of sales. Cost of sales as a percentage of net sales decreased to 79.9% in 2006, from 81.5% in 2005. The increase in gross margin is attributable mainly to lower material costs in the building products segment which more than offset higher material costs in the processed metals segment in 2006 compared to 2005.

Selling, general and administrative expenses increased approximately \$30.9 million, or 27.9%, to \$141.6 million in 2006, from \$110.7 million in 2005. The acquisition of AMICO in October 2005 and EMC in November 2006 caused \$22.0 million of the increase in 2006. Selling, general and administrative expense as a percentage of net sales increased 0.2%, to 10.9% in 2006 from 10.7% in 2005, due mainly to higher legal costs associated with acquisition activities, higher compensation costs and higher health insurance costs.

As a result of the above, income from operations increased by approximately \$39.2 million, to \$120.3 million in 2006 from \$81.1 million in 2005.

Interest expense increased 32.5% or \$6.7 million, to \$27.3 million in 2006 from \$20.6 million in 2005. The increase in interest was the result of higher average borrowings in 2006 and higher weighed average interest rates.

Equity in income (loss) of partnerships and other income decreased by \$13.3 million in 2006. This decline was due mainly to the impairment of our investment in Gibraltar DFC Strip Steel, LLC, a joint venture. During December 2006, the Company determined that its investment in this joint venture was other than temporarily impaired, and recognized a \$12.9 million charge related to the joint venture.

Income taxes related to continuing operations for 2006 approximated \$30.1 million based upon an effective tax rate of 37.6% versus 38.3% in 2005. The decrease in the effective tax rate during 2006 was the result of a benefit from a permanent difference and a reduction in state income taxes in Texas.

Income from discontinued operations increased \$1.4 million, to \$7.4 million in 2006, from \$6.0 million in 2005.

Segment Information

Building products. Net sales increased 41.8% or \$257.2 million, to \$872.6 million in 2006 from \$615.4 million in 2005. The increase was the result of the acquisitions of AMICO in October 2005 and EMC in November 2006, which provided an additional \$280.5 million. The decrease in net sales excluding the effect of these acquisitions was the result of the factors described under Consolidated above.

Income from operations increased \$46.8 million, or 57.5%, to \$128.1 million in 2006 from \$81.3 million in 2005.

Operating margin increased to 14.7% in 2006 from 13.2% in 2005. The increase in operating margin was mainly the result of lower material costs as a percentage of sales, partially offset by an increase in amortization expense related to intangibles.

Table of Contents

Processed metal products. Net sales increased \$9.3 million, or 2.2%, to \$430.7 million in 2006 from \$421.4 million in 2005. The increase in net sales was primarily the result of increased copper costs which resulted in higher selling prices.

Income from operations declined \$1.4 million, or 5.2%, to \$26.1 million in 2006 from \$27.5 million in 2005. Income from operations as a percentage of net sales declined to 6.1% in 2006 from 6.5% in 2005. The decrease was the result of higher material costs partially offset by lower profit sharing expenses.

Year Ended December 31, 2005 Compared to Year Ended December 31, 2004

Consolidated

Net sales increased by approximately \$199.8 million, or 23.9%, to \$1,036.8 million in 2005, from \$837.0 in 2004. The increase in sales was attributable to the acquisition of AMICO in October 2005, which provided \$77.8 million, the acquisitions of the Gutter Helmet product line (September 2005), American Wilcon (October 2005), and SCM Asia (September 2005) provided an additional \$4.6 million in sales, and a full year's results from SCM Metal Products Inc. (SCM) (acquired in June 2004), which resulted in an additional \$28.6 million. The remaining increase was the result of increases in both volume and selling prices. The volume increases were driven by our strategy of using our national manufacturing, marketing and distribution capabilities to sell products from a greater number of our product lines to both new and existing customers, especially national customers, and from offering product extensions and design enhancements to existing product lines, particularly in the Building Products segment.

Cost of sales increased by approximately \$179.1 million, or 26.9%, to \$845.1 million in 2005, from \$666.0 million in 2004. The increase was due mainly to the higher sales volumes resulting from acquisitions and expanded penetration noted above, along with the higher cost of steel and other materials used in our products. The 2005 acquisitions of AMICO, the Gutter Helmet product line, American Wilcon and SCM Asia, along with the 2004 acquisition of SCM contributed \$88.3 million of the increase in cost of sales. Cost of sales as a percentage of net sales increased to 81.5% in 2005, from 79.6% in 2004. The decrease in gross margins is attributable to higher raw material costs, and to a lesser extent, increased energy costs. In particular, we had purchased extra steel in early 2005 to build up our inventory because we were concerned that rising steel prices at that time could lead to steel shortages. These shortages did not materialize, and, when steel prices began to decline in mid-2005, our margins were compressed as we sold relatively high-cost inventory at the lower prices demanded by the market in the Processed Metal Products segment and at prices in the Building Products segment that did not fully pass on the costs of inventory. The decline in gross margins in 2005 was partially offset by better cost absorption due to higher volumes, as compared to the same period in the prior year.

Selling, general and administrative expenses increased approximately \$10.0 million, or 10.0%, to \$110.7 million in 2005, from \$100.7 million in 2004. The primary reason for the increase was due to the acquisition of AMICO in October 2005 and a full year of expense at SCM which contributed \$8.3 million of the increase. Excluding the effect of the acquisitions, selling, general and administrative costs were relatively flat as increases in salaries were more than offset by the decline in bonuses. As a result, selling, general and administrative expense as a percentage of sales decreased to 10.7% in 2005, from 12.0% in 2004.

As a result of the above, income from operations increased to approximately \$81.1 million in 2005, from \$70.4 million in 2004.

Interest expense increased \$10.1 million, or 96.2%, to \$20.6 million in 2005 from \$10.5 million in 2004. The increase was the result of prepayment penalties of \$6.8 million incurred in connection with the repayment of certain senior secured and private placement notes, with the remaining increase the result of higher average borrowings during 2005, and higher weighted average interest rates.

Equity in income of partnerships and other income decreased \$4.5 million to \$0.3 million in 2005 from \$4.8 million in 2004. The decrease was primarily due to our share of the losses incurred during 2005 from our equity interest in

Table of Contents

Gibraltar DFC Strip Steel LLC, a joint venture. The losses were incurred as the joint venture lost significant volume to a competitor that reduced selling prices and relatively high inventory costs at the joint venture.

Income taxes related to continuing operations for 2005 approximated \$23.3 million based upon an effective tax rate of 38.3% versus a 39% effective tax rate in 2004. The qualified production activities deduction under the American Jobs Creation Act of 2004 did not have a material impact on our effective tax rate.

Income from discontinued operations for 2005 was \$6.0 million compared to \$11.3 million in 2004.

Segment information

Building products. Net sales increased by approximately \$138.1 million, or 28.9%, to \$615.4 million in 2005, from \$477.3 million in 2004. The increase in net sales was due primarily to the acquisition of AMICO in October 2005, which accounted for \$77.8 million in sales. The remaining increase in net sales was the result of expanded sales penetration due to the factors described under Consolidated above and price increases.

Income from operations increased \$22.2 million, or 37.7%, to \$81.3 million in 2005 from \$59.1 million in 2004.

Operating margin increased to 13.2% in 2005 from 12.4% in 2004. The increase was driven by the acquisition of AMICO, which has slightly higher margins than the pre-existing building products businesses, and a reduction in selling, general and administrative costs as a percentage of sales, mainly a function of increased sales.

Processed Metal Products. Net sales increased by approximately \$61.7 million, or 17.2%, to \$421.4 million in 2005, from \$359.7 million in 2004. The increase in net sales was primarily a function of higher average selling prices in 2005 driven by the rise in steel prices that occurred throughout 2004, as well as the acquisition of SCM in June 2004, which accounted for \$28.6 million of the increase. Although steel prices declined in 2005, our selling prices were still higher on average than our selling prices in 2004.

Income from operations as a percentage of net sales decreased to 6.5% in 2005 from 10.6% in 2004. The decrease in operating margin was primarily the result of increased material costs partially offset by lower labor costs as percentage of net sales and a full year of operations of SCM which has slightly higher operating margins than the remainder of our Processed Metals Products business. The reduction in margins was most notable in our service center business.

Critical Accounting Policies

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make decisions based upon estimates, assumptions, and factors it considers relevant to the circumstances. Such decisions include the selection of applicable principles and the use of judgment in their application, the results of which could differ from those anticipated.

A summary of the Company's significant accounting policies are described in Note 1 of the Company's consolidated financial statements included in Item 8 of this Form 10-K.

Our most critical accounting policies include:

valuation of accounts receivable, which impacts selling, general and administrative expense;

valuation of inventory, which impacts cost of sales and gross margin;

revenue recognition, which impacts net sales, gross margin and net income;

the allocation of the purchase price of our acquisition-related assets and liabilities, which affects our depreciation and amortization costs; and

Table of Contents

the assessment of recoverability of goodwill and other intangible and long-lived assets, which impacts write-offs of goodwill, intangibles and long-lived assets.

Management reviews the estimates, including the allowance for doubtful accounts and inventory reserves on a regular basis and makes adjustments based on historical experience, current conditions and future expectations. Management believes these estimates are reasonable, but actual results could differ from these estimates.

Valuation of accounts receivable. Our accounts receivable represent those amounts that have been billed to our customers but not yet collected. We record an allowance for doubtful accounts based on the portion of those accounts receivable that we believe are potentially uncollectible based on various factors, including historical experience, creditworthiness of customers and current market and economic conditions. If the financial condition of customers were to deteriorate, resulting in impairment of their ability to make payments, additional allowances may be required. Changes in judgments on these factors could impact the timing of costs recognized.

Valuation of inventories. We state our inventories at the lower of cost or market. We determine the cost basis of our inventory on a first-in-first-out basis using either actual costs or a standard cost methodology that approximates actual cost. We regularly review inventory on hand and record provisions for obsolete and slow-moving inventory based on historical and current sales trends. Changes in product demand and our customer base may affect the value of inventory on hand, which may require higher provisions for obsolete inventory.

Revenue recognition. We recognize revenue when all of the following have occurred: products are shipped or service is provided, the customer takes ownership and assumes the risk of loss, collection of the relevant receivable is probable, persuasive evidence of an arrangement exists and the sales price is fixed or determinable. We treat sales returns, allowances and customer incentives as reductions to sales, and we accrue for those items based on historical experience and current estimates of future sales, revising our estimates throughout the year when necessary.

Allocation to purchase price of acquired assets and liabilities. When we acquire a new business, we must allocate the purchase price to the assets acquired and the liabilities assumed in the transaction at their respective estimated fair market values. We record any premium over the fair market value of the net assets acquired as goodwill. The allocation of the purchase price involves judgments and estimates both in characterizing the assets and in determining their fair market value. The way we characterize the assets has important implications, as long-lived assets, for example, are depreciated or amortized, whereas goodwill is tested annually for impairment, as explained below. With respect to determining the fair market value of assets, the most difficult estimations of individual fair market values are those involving long-lived assets, such as property, plant and equipment and identified intangible assets. We use all available information to make these fair market value determinations and, for major business acquisitions, engage an independent valuation specialist to assist in the fair market value determination of the acquired long-lived assets. Due to the subjectivity inherent in determining the estimated fair market value of long-lived assets and the significant number of business acquisitions that we have completed, we believe that the recording of acquired assets and liabilities is a critical accounting policy.

Depreciation, amortization and impairment testing of long-lived assets. We depreciate long-lived assets with estimated useful lives over those useful lives. We amortize intangible assets with estimable useful lives (which consist primarily of acquired customer lists, non-competition agreements and unpatented technology) over those estimated useful lives. The specific lives are disclosed in the notes to the consolidated financial statements included in Item 8 herein.

We test long-lived assets for impairment when events or changes in circumstances indicate that the carrying amount of those assets may not be recoverable and exceeds their fair market value. This circumstance exists if the carrying amount of the asset in question exceeds the sum of the undiscounted cash flows expected to result from the use of the asset. The impairment loss would be measured as the amount by which the carrying amount of a long-lived asset exceeds its fair market value as determined by discounted cash flow method or in the case of negative cash flow, an independent market appraisal of the asset.

Goodwill and other indefinite-lived intangible asset impairment testing. We test goodwill annually for impairment (or more often if indicators of impairment exist) at the reporting unit level by comparing the fair market value of the reporting unit with its carrying value. A reporting unit is either the same as, or one level below, an operating segment. We have

Table of Contents

more reporting units than operating segments, and our reporting units may change over time. The primary valuation method for determining the fair market value of the reporting unit is a discounted cash flow analysis. If the goodwill is indicated as being impaired (i.e., the fair market value of the reporting unit is less than the carrying amount), the fair market value of the reporting unit is then allocated to its assets and liabilities in a manner similar to a purchase price allocation in order to determine the implied fair value of the reporting unit goodwill. This implied fair value of the reporting unit goodwill is then compared with the carrying amount of the reporting unit goodwill, and, if it is less, we then recognize an impairment loss.

The Company tests its indefinite-lived assets from impairment on an annual basis during the fourth quarter, or more frequently if an event occurs or circumstances change that indicate that the fair value of an indefinite-lived intangible asset could be below its carrying amount. The impairment test consists of comparing the fair value of the indefinite-lived intangible asset, determined using discounted cash flows, with its carrying amount. An impairment loss would be recognized for the carrying amount in excess of its fair value.

Liquidity and Capital Resources

The Company's principal capital requirements are to fund its operations, including working capital; to purchase new facilities and fund improvements to its existing facilities; to purchase new and maintain existing machinery and equipment; and to fund acquisitions.

We regularly consider various strategic business opportunities including acquisitions. We evaluate such potential acquisitions on the basis of our ability to enhance our existing products, operations, or capabilities, as well as provide access to new products, markets and customers. If we enter into any future acquisition transaction, we may finance that acquisition through a number of sources, including internally available cash resources, new debt financing, the issuance of equity securities or any combination of the above.

Working capital

During 2006, our Company's working capital (inclusive of the impact of working capital acquired from acquisitions of EMC, Home Impressions and Steel City) increased by approximately \$64.6 million, or 24.2%, to approximately \$331.4 million at December 31, 2006 from \$266.8 million at December 31, 2005. This increase in working capital was primarily the result of an increase in inventories of \$65.0 million, a decrease in accounts payable and accrued expenses of \$20.5 million, a decrease of \$12.4 million in other liabilities and increases in accounts receivable of \$6.9 million, partially offset by a \$23.5 million decrease in assets from discontinued operations and a \$15.1 million reduction in cash and cash equivalents.

Our working capital also typically undergoes seasonal variations. Our net sales are generally lower in the fourth quarter than in the third quarter, and we usually begin the fourth quarter with lower inventory and higher accounts payable. To address these fluctuations, we generally increase working capital in the second and third quarters, and working capital then generally decreases in the fourth quarter. At December 31, 2006, our working capital was higher than normal due to a reduction in sales during the fourth quarter that reduced the rate of liquidation of our inventories that we would normally expect.

Cash flows

Operating activities. Net cash used in continuing operations for the year ended December 31, 2006 was approximately \$20.9 million compared to net cash provided by continuing operations of approximately \$116.6 million for the year ended December 31, 2005. Net cash used in continuing operations for the year ended December 31, 2006 was primarily the result of increases in inventories of \$55.1 million, decreases in accounts payable and accrued expenses of \$31.7 million, and decreases of deferred taxes of \$29.0 million, partially offset by net income from continuing operations of \$49.9 million, depreciation and amortization of \$27.5 million, and equity in partnerships' loss of \$13.9 million. Net cash provided by continuing operations in 2005 resulted primarily from net income from continuing operations of \$37.5 million, depreciation and amortization of \$20.5 million, decreases in inventories of \$42.2 million and decreases in accounts receivable and other assets of \$16.3 million.

Table of Contents

Investing activities. Net cash provided by investing activities from continuing operations for the year ended December 31, 2006 was approximately \$72.5 million, consisting primarily the net proceeds of the sale of our thermal processing and steel strapping businesses of \$ 151.5 million, partially offset by the acquisitions of EMC, Home Impressions and the assets of Steel City in the amount of \$57.4 million, and capital expenditures of \$21.9 million. Net cash used in investing activities from continuing operations for the year ended December 31, 2005 was approximately \$245.3 million, consisting primarily of the acquisitions of AMICO, the Gutter Helmet product line, the assets of American Wilcon, and SCM Asia in the amount of \$271.0 million, and capital expenditures of \$17.5 million, partially offset by net proceeds from the sale of Milcor of \$42.6 million.

Financing activities. Net cash used in financing activities for the year ended December 31, 2006 was \$69.2 million, consisting primarily of repayments of long-term debt under our senior term facility of \$106.2 million and dividend payments of \$6.0 million, partially offset by proceeds of \$50.8 million under our revolving credit facility. Net cash provided by financing activities for the year ended December 31, 2005 was \$137.3 million, consisting primarily of borrowings of long-term debt under our senior term facility of \$230.0 million and the proceeds of \$200.6 million from the issuance of senior subordinated notes, partially offset by payments of \$132.6 million under our revolving credit facility, \$114.6 in senior secured and private placement notes, the repayment of \$39.6 million in acquisition notes, the payment of \$10.8 million in deferred financing costs and dividend payments of \$5.9 million.

Senior credit facility and senior subordinated notes

We and our wholly-owned subsidiary Gibraltar Steel Corporation of New York are co-borrowers under an amended and restated credit agreement with a syndicate of lenders providing for (i) a revolving credit facility with aggregate commitments of up to \$300.0 million including a \$25.0 million sub-limit for letters of credit and a swing line loan sub-limit of \$20.0 million and (ii) a term loan in the original principal amount of \$230 million. At December 31, 2006, outstanding borrowings under the revolving credit facility were \$74.6 million, \$17.2 million of letters of credit were outstanding and \$208.2 million was available to be borrowed. During 2006, we repaid \$106.2 million of the term loan and at December 31, 2006, we had \$123.8 million outstanding on the term loan. The amended and restated credit agreement will permit the borrowers to enter into agreements with the administrative agents and any willing lenders to increase the revolving commitments of those lenders or add new term loans from those lenders up to an aggregate amount of \$75.0 million without obtaining the consent of the majority lenders.

The senior credit facility is guaranteed by each of our material domestic subsidiaries other than Gibraltar Steel Corporation of New York, which is a co-borrower. The senior credit facility and the related guarantees are secured by a first priority security interest (subject to permitted liens, as defined in the credit agreement) in substantially all the tangible and intangible assets of our Company and our material domestic subsidiaries and one of our foreign subsidiaries, subject to certain exceptions, and a pledge of 65% of the voting stock of our other foreign subsidiaries. The senior subordinated notes are guaranteed by each of our material domestic subsidiaries.

The credit agreement contains various affirmative and negative covenants customary for similar working capital facilities, including, but not limited to, several financial covenants. We must maintain a total funded debt to consolidated Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA, as defined in the credit agreement) ratio not to exceed 4.25 to 1.00 through September 29, 2006, 4.00 to 1.00 from September 30, 2006 through September 29, 2007 and 3.75 to 1.00 thereafter. We must also maintain a senior funded debt to consolidated EBITDA ratio not to exceed 3.25 to 1.00 through September 29, 2006, 3.00 to 1.00 from September 30, 2006 through September 29, 2007 and 2.75 to 1.00 thereafter. Our interest coverage ratio, defined as the ratio of consolidated Earnings Before Interest and Taxes (EBIT, as defined in the credit agreement) to consolidated interest expense, must not be less than 2.75 to 1.00, and our net worth must be at least \$325.0 million plus 50% of cumulative net income in each fiscal quarter after September 30, 2005. Consolidated EBITDA, as defined under our credit agreement, is not calculated in the same manner as under the senior subordinated notes.

The Company believes that availability of funds under its existing credit facility, together with the cash generated from operations, will be sufficient to provide it with the liquidity and capital resources necessary to support its principal capital requirements, including operating activities, capital expenditures, dividends and future acquisitions.

Table of Contents**Contractual Obligations**

The following table summarizes our company's contractual obligations at December 31, 2006:

(Dollars in thousands)

		Payments due by period			
		Less than 1 year	1-3 years	3-5 years	More than 5 Years
Contractual obligations	Total				
Variable rate debt	\$ 199,679	\$ 2,300	\$ 4,600	\$ 80,429	\$ 112,350
Interest on variable rate debt (1)	64,884	12,426	24,852	20,422	7,184
Fixed rate debt	200,874	36	13		200,825
Interest on fixed rate debt	147,732	16,569	33,136	33,136	64,891
Operating lease obligations	54,190	12,176	18,755	11,814	11,445
Pension and other post-retirement obligations	4,844	193	535	898	3,218
Employment agreement	500	500			
Total (2)	\$ 672,703	\$ 44,200	\$ 81,891	\$ 146,699	\$ 399,913

(1) Calculated using the interest rate in effect at December 31, 2006, assuming no payments were made to reduce the revolving credit facility until its maturity date.

(2) Excludes contingent consideration relating to our acquisitions of Construction Metals and Home Impressions. In 2006 we paid \$2.2 million pursuant to these obligations.

Related Party Transactions

In connection with the acquisition of Construction Metals in April 2003, the Company entered into two unsecured subordinated notes payable, each in the amount of \$8.75 million (aggregate total of \$17.5 million). These notes were payable to the former owners of Construction Metals and are considered related party in nature due to the former

owners' current employment relationship with the Company. These notes were payable in three equal annual principal installments of approximately \$2.9 million per note, beginning on April 1, 2004, and the final principal payment was paid on April 1, 2006. These notes required quarterly interest payments at an interest rate of 5.0% per annum. Interest expense related to these notes payable aggregated approximately \$72,000, \$364,000 and \$658,000 in 2006, 2005 and 2004, respectively. At December 31, 2005, the current portion of these notes payable aggregated approximately \$5.8 million and accrued interest aggregated approximately \$74,000.

The Company has certain operating lease agreements related to operating locations and facilities with the former owners of Construction Metals (related parties) or companies controlled by these parties. Rental expense associated with these related party operating leases aggregated approximately \$1,353,000, \$1,418,000 and \$1,304,000 in 2006, 2005 and 2004, respectively.

Two members of our Board of Directors are partners in law firms that provide legal services to the Company. During 2006 and 2005, we incurred \$1,869,000 and \$2,114,000 for legal services from these firms, respectively. Of the amount incurred, \$1,567,000 and \$1,024,000 was expensed and \$302,000 and \$1,090,000 was capitalized as acquisition costs and deferred financing issuance costs in 2006 and 2005, respectively.

Recent Accounting Pronouncements

The Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) No. 123 (Revised 2004) (SFAS No. 123R), Share-Based Payment, in December 2004. SFAS No. 123R is a revision of FASB Statement 123, Accounting for Stock-Based Compensation and supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. The Statement focuses

Table of Contents

primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123R requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award. This statement was effective as of the beginning of the first annual reporting period that began after June 15, 2005 and the Company adopted the standard in the first quarter of 2006. Implementation of this statement caused expense of approximately \$296,000 as the Company recognized expense related to unvested stock options.

In November 2004, the FASB issued SFAS No. 151, Inventory Costs, an amendment of ARB No. 43, Chapter 4, (SFAS 151) which clarifies the types of costs that should be expensed rather than capitalized as inventory. This statement also clarifies the circumstances under which fixed overhead costs associated with operating facilities involved in inventory processing should be capitalized. The provisions of SFAS No. 151 were effective for fiscal years beginning after June 15, 2005 and the Company adopted this standard in the first quarter of 2006. Implementation of this statement did not have a material effect on our consolidated financial position or results of operations.

In June 2006, the FASB issued Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48 or the Interpretation) which defines the threshold for recognizing the benefits of tax return positions in the financial statements as more-likely-than-not to be sustained by the taxing authority. Uncertainty in income taxes, as used in the title of the new Interpretation, refers to uncertainty about how some transactions will be treated under the tax law. This uncertainty leads to questions about whether tax positions taken or to be taken on tax returns should be reflected in the financial statements before they are finally resolved with the taxing authorities. FIN 48 applies to all tax positions, regardless of their level of uncertainty or the nature of the position. However, the Interpretation's recognition and measurement requirements are likely to have the most impact on positions for which current or future deductions may be disallowed or reduced in a tax examination. The Interpretation applies to situations where the uncertainty is about the timing of the deduction, the amount of the deduction, or the validity of the deduction. FIN 48 is effective for fiscal years beginning after December 15, 2006 and we will adopt this Interpretation during the first quarter of 2007. We do not expect that this Interpretation will have a material impact on our consolidated financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurements (SFAS 157), which establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. SFAS 157 applies only to fair-value measurements that are already required or permitted by other accounting standards and is expected to increase the consistency of those measurements. SFAS 157 is effective for fair-value measures already required or permitted by other standards for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We have not yet evaluated the effect that this standard may have upon our consolidated financial position or results of operations.

In September 2006, the FASB issued SFAS No. 158 Employers Accounting for Defined Benefit Pension and Other Postretirement Plans (SFAS 158), which requires employers to recognize on their balance sheets the funded status of pension and other postretirement benefit plans. SFAS No. 158 also requires companies to recognize actuarial gains and losses, prior service cost, and any remaining transition amounts from the initial application of Statements 87 and 106 when recognizing a plan's funded status, with the offset to accumulated other comprehensive income. The provisions of SFAS 158 are effective for fiscal years ending after December 15, 2006 and we have adopted this standard effective December 31, 2006. Adoption of this standard resulted in a \$1.6 million increase in other non-current liabilities, a \$1.0 million decrease in other comprehensive income, and a \$.6 million increase in deferred tax assets.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159), which allows measurement of specified financial instruments, warranty and insurance contracts at fair value on a contract by contract basis, with changes in fair value recognized in earnings in each period. SFAS 159 is effective at the beginning of the fiscal year that begins after November 15, 2007, and will be effective for the Company in fiscal 2008. The Company has not yet determined the effect that the implementation of this standard will have on its consolidated financial position or results of operations.

Table of Contents**Item 7A. Quantitative and Qualitative Disclosures about Market Risk**

In the ordinary course of business, the Company is exposed to various market risk factors, including changes in general economic conditions, competition and raw materials pricing and availability. In addition, the Company is exposed to market risk, primarily related to its long-term debt. To manage interest rate risk, the Company uses both fixed and variable interest rate debt. The Company also entered into interest rate swap agreements that converted a portion of its variable rate debt to fixed rate debt. At December 31, 2006, the Company had \$115 million of revolving credit borrowings that was fixed rate debt pursuant to these agreements.

The following table summarizes the principal cash flows and related interest rates of the Company's long-term debt at December 31, 2006 by expected maturity dates. The weighted average interest rates are based on the actual rates that existed at December 31, 2006. The variable rate debt consists primarily of the revolving credit facility and term loan, of which \$198.4 million is outstanding at December 31, 2006. A hypothetical 1% increase or decrease in interest rates would have changed the 2006 interest expense by approximately \$2.0 million.

	2007	2008	2009	(in thousands) 2010	2011	Thereafter	Total
Long-term debt (fixed)	\$ 36	\$ 13				\$200,825	\$200,874
Weighted average interest rate	8.25%	8.25%	8.25%	8.25%	8.25%	8.25%	
Long-term debt (variable)	\$ 2,300	\$2,300	\$2,300	\$78,129	\$2,300	\$112,350	\$199,679
Weighted average interest rate	6.82%	6.82%	6.82%	6.82%	7.13%	7.13%	
Interest rate swaps (notional amounts)	\$57,500			\$57,500			\$115,000
Interest pay rate	4.99%	5.03%	5.03%	5.03%			
Interest receive rate	5.37%	5.37%	5.37%	5.37%			

The fair value of the Company's debt was \$401.7 million at December 31, 2006.

Safe Harbor Statement

The Company wishes to take advantage of the Safe Harbor provisions included in the Private Securities Litigation Reform Act of 1995 (the "Act"). Certain information set forth herein contains forward-looking statements that are based on current expectations, estimates, forecasts and projections about the Company's business, and management's beliefs about future operations, results and financial position. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions. Statements by the Company, other than historical information, constitute forward looking statements within the meaning of the Act and may be subject to a number of risk factors. Factors that could affect these statements include, but are not limited to, the following: the impact of changing steel prices on the Company's results of operations; changing demand for the Company's products and services; and changes in interest or tax rates. In addition, such forward-looking statements could also be affected by general industry and market conditions, as well as general economic and political conditions.

Report of Ernst & Young LLP, Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of Gibraltar Industries, Inc.

We have audited the accompanying consolidated balance sheets of Gibraltar Industries, Inc. as of December 31, 2006 and 2005, and the related consolidated statements of income, shareholders' equity and comprehensive income, and cash flows for each of the two years in the period ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Gibraltar Industries, Inc. at December 31, 2006 and 2005 and the consolidated results of its operations and its cash flows for each of the two years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the consolidated financial statements, on January 1, 2006 the Company changed its method of accounting for stock-based compensation and on December 31, 2006 the Company changed its method of accounting for defined benefit pension and other postretirement benefits.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Gibraltar Industries, Inc.'s internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 1, 2007 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of Gibraltar Industries, Inc.:

In our opinion, the consolidated statements of income, of cash flows, and of shareholders' equity and comprehensive income for the year ended December 31, 2004 present fairly, in all material respects, the results of operations and cash flows of Gibraltar Industries, Inc. and its subsidiaries for the year ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Gibraltar Industries, Inc.
Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Principles of consolidation

The consolidated financial statements include the accounts of Gibraltar Industries, Inc. and subsidiaries (the Company). The financial position and results of operations of SCM Asia, our Chinese subsidiary, are consolidated for the appropriate periods based on its fiscal year ended November 30. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Revenue recognition

Revenue is recognized when products are shipped or service is provided, the customer takes ownership and assumes the risk of loss, collection of the relevant receivable is probable, persuasive evidence of an arrangement exists and the sales price is fixed or determinable. Sales returns, allowances and customer incentives are treated as reductions to sales and are provided for based on historical experience and current estimates.

Promotional allowances

The Company promotes its branded products through cooperative advertising programs with retailers. Retailers also are offered in-store promotional allowances and rebates based on sales volumes. Promotion costs (including allowances and rebates) incurred during the year are expensed to interim periods in relation to revenues and is recorded as a reduction of net sales.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, checking accounts and all highly liquid investments with a maturity of three months or less.

Accounts receivable

Accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable. The Company determines the allowance based on a number of factors, including historical experience, credit worthiness of customers and current market and economic conditions. The Company reviews the allowance for doubtful accounts on a regular basis. Account balances are charged against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

Accounts receivable are expected to be collected within one year and are net of the allowance for doubtful accounts of \$2,894,000 and \$4,022,000 at December 31, 2006 and 2005, respectively. Amounts charged to bad debt expense and recorded as increases to the allowance during 2006 and 2005 totaled \$1,475,000 and \$1,355,000, respectively, acquired reserves related to the acquisition of EMC in 2006 totaled \$439,000, and deductions to the allowance recorded during 2006 and 2005 for uncollectible accounts written off, net of recoveries and other adjustments, totaled \$3,042,000 and \$408,000, respectively.

Table of Contents

Concentrations of credit risk on accounts receivable are limited to those from significant customers that are believed to be financially sound. Accounts receivable from The Home Depot were 13.6% and 16.0% of consolidated accounts receivable at December 31, 2006 and 2005.

Inventories

Inventories are valued at the lower of cost or market. The cost basis of the inventory is determined on a first-in, first-out basis using either actual costs or a standard cost methodology which approximates actual cost.

Property, plant and equipment

Property, plant and equipment are stated at cost and depreciated over their estimated useful lives using the straight-line method. Expenditures that extend the useful lives of assets are capitalized, while repair and maintenance costs are expensed as incurred. The estimated useful lives of land improvements and buildings and building improvements is 15 to 40 years, while machinery and equipment is 3 to 20 years. Accelerated methods are used for income tax purposes. Depreciation expense aggregated \$22,586,000, \$17,748,000 and \$15,711,000 in 2006, 2005 and 2004, respectively.

Interest is capitalized in connection with construction of qualified assets. Interest of \$535,000, \$451,000 and \$95,000 was capitalized in 2006, 2005 and 2004, respectively.

Acquisition related assets and liabilities

Accounting for the acquisition of a business as a purchase transaction requires an allocation of the purchase price to the assets acquired and the liabilities assumed in the transaction at their respective estimated fair values. The most difficult estimations of individual fair values are those involving long-lived assets, such as property, plant and equipment and intangible assets. The Company uses all available information to make these fair value determinations and, for major business acquisitions, engages an independent valuation specialist to assist in the fair value determination of the acquired long-lived assets.

Goodwill and other intangible assets

The Company tests goodwill for impairment at the reporting unit level on an annual basis during the fourth quarter or more frequently if an event occurs or circumstances change that indicate that the fair value of a reporting unit could be below its carrying amount. The impairment test consists of comparing the fair value of a reporting unit, determined using discounted cash flows, with its carrying amount including goodwill, and, if the carrying amount of the reporting unit exceeds its fair value, comparing the implied fair value of goodwill with its carrying amount. An impairment loss would be recognized for the carrying amount of goodwill in excess of its implied fair value.

The Company tests its indefinite-lived intangible assets for impairment on an annual basis during the fourth quarter, or more frequently if an event occurs or circumstances change that indicate that the fair value of an indefinite-lived intangible asset could be below its carrying amount. The impairment test consists of comparing the fair value of the indefinite-lived intangible asset, determined using discounted cash flows, with its carrying amount. An impairment loss would be recognized for the carrying amount in excess of its fair value.

Acquired identifiable intangible assets are recorded at estimated cost. Identifiable intangible assets with finite useful lives are amortized over their estimated useful lives.

Deferred charges

Deferred charges associated with costs incurred to enter into new debt arrangements are included in other assets and are amortized over the terms of the associated debt agreements.

Table of Contents

Impairment of long-lived assets

Long-lived assets, including acquired identifiable intangible assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of those assets may not be recoverable. The Company uses undiscounted cash flows to determine whether impairment exists and measures any impairment loss using discounted cash flows.

Investments in partnerships

The Company's investments in partnerships are accounted for using the equity method of accounting, under which the Company's share of the earnings of the partnership is recognized in income as earned, and distributions are credited against the investment when received.

Equity method goodwill arises when the Company's investment in the partnership exceeds its applicable share of the fair market value of the partnership's net assets at the date the partnership was formed. In accordance with Statement of Financial Accounting Standard SFAS No. 142, *Goodwill and Other Intangible Assets*, equity method goodwill is not amortized or tested for impairment in accordance with this standard. The Company reviews the equity method goodwill in accordance with Accounting Principles Board Opinion No. 18, *The Equity Method of Accounting for Investments in Common Stock* (APB Opinion No. 18), under which the Company would recognize an impairment loss when there is a loss in the value of the equity method investment which is deemed to be other than a temporary decline. An impairment of \$12,875,000 was recognized in the year ended December 31, 2006. No impairments were recognized in the years ended December 31, 2005 and 2004.

Interest rate exchange agreements

Interest rate swap agreements are used by the Company in the management of interest rate risk. The interest rate swaps are not used for trading purposes and are accounted for as cash flow hedges under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*. The fair values of interest rate swap agreements are recognized as other assets or (liabilities) and aggregated \$88,000 and (\$873,000) at December 31, 2006 and 2005, respectively. Gains or losses from changes in the fair value of the swap agreements are recorded, net of taxes, as components of Accumulated Other Comprehensive Income or Loss, except to the extent the interest rate swaps are not perfectly effective, as the ineffective portion is recorded to earnings immediately. There was no ineffectiveness in 2006 or 2004. Ineffectiveness was not material in 2005. The deferred gains and losses are amortized into interest expense during the period in which the related interest payments on variable rate debt are recorded as expense.

Translation of foreign currency

The assets and liabilities of the Company's foreign subsidiaries are translated into U.S. dollars at the rate of exchange in effect at the balance sheet date. Income and expense items are translated at the average exchange rates prevailing during the period. Gains and losses resulting from foreign currency transactions are recognized currently in income and those resulting from the translation of financial statements are accumulated as a separate component of comprehensive income net of related taxes.

Shareholders' equity

During 2006, 2005 and 2004, the Company declared dividends of \$4,465,000, \$5,941,000 and \$4,335,000, respectively, of which \$1,487,000 and \$1,484,000 were accrued at December 31, 2005 and 2004, respectively. There were no dividends accrued at December 31, 2006.

The Company reacquired 1,500 shares and 600 shares of forfeited restricted common stock in 2006 and 2005 respectively. These reacquired shares and related cost are reflected as treasury stock in the consolidated balance sheets at December 31, 2006 and 2005.

Table of Contents

Comprehensive income

Comprehensive income includes net income as well as accumulated other comprehensive income (loss). The Company's accumulated other comprehensive income (loss) consists of unrealized gains and losses on interest rate swaps, minimum pension liability and foreign currency translation adjustments, which are recorded net of related taxes.

Net income per share

Share and per share data for all periods presented have been adjusted for the three-for-two stock split further discussed at Note 14.

Basic net income per share equals net income divided by the weighted average shares outstanding during the year. The computation of diluted net income per share includes all dilutive common stock equivalents in the weighted average shares outstanding. A reconciliation between basic net income per share and diluted net income per share for the years ended December 31, 2006, 2005 and 2004 is displayed in Note 15.

Income taxes

The consolidated financial statements of the Company have been prepared using the asset and liability approach in accounting for income taxes which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of other assets and liabilities.

Fair market value disclosures

SFAS 107, *Disclosures About Fair Market Value of Financial Instruments*, defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties. The Company's cash and cash equivalents, accounts receivable and accounts payable are stated at cost which approximates fair value at December 31, 2006. The fair value of the Company's debt approximated \$401,718,000 at December 31, 2006. The fair value of interest rate swaps was an asset of \$88,000 at December 31, 2006.

Fair market value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

Equity based compensation

Stock options

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard No. 123 (Revised 2004) (SFAS 123R) *Share-Based Payment*. SFAS 123R, which became effective for the Company on January 1, 2006, requires the Company to measure the cost of equity-based compensation based on grant date fair value, and to recognize the cost over the period in which the employee is required to provide service in exchange for the award. The Company's consolidated financial statements for the year ended December 31, 2006 reflect the cost of equity-based compensation that was earned during 2006. In the years ended December 31, 2005 and 2004, the Company followed the disclosure guidance in SFAS No. 123, but measured the cost of stock options under the guidance provided in APB Opinion No. 25, which allowed an intrinsic value-based method for recognizing compensation expense for stock options, and, as the options were issued with an exercise price equal to market value on the dates of grant, no expense related to stock options was recorded in either of these years.

Table of Contents

Restricted stock and restricted stock units

The Company grants restricted stock and restricted stock unit awards to employees and non-employee directors. Prior to the adoption of SFAS 123R, upon issuance of the restricted shares or restricted stock units, a charge equivalent to the market value of the shares on the date of grant was charged to shareholders' equity, as unearned compensation (a contra equity account) and was amortized on a straight-line basis over the related share restriction period. Upon the adoption of SFAS 123R, the balance of unearned compensation was reclassified to additional paid-in capital. Expense related to restricted shares and restricted stock units is recognized on a straight line basis over the period of required service.

The Company's equity-based compensation plans are discussed in more detail in Note 3.

Recent accounting pronouncements

The FASB issued Statement of Financial Accounting Standard (SFAS) No. 123 (Revised 2004) (SFAS No. 123R), *Share-Based Payment*, in December 2004. SFAS No. 123R is a revision of FASB Statement 123, *Accounting for Stock-Based Compensation* and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. The Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123R requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award. This statement was effective as of the beginning of the first annual reporting period that began after June 15, 2005 and the Company adopted the standard in the first quarter of 2006. Implementation of this statement resulted in expense of approximately \$296,000 as the Company recognized expense related to unvested stock options.

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs*, an amendment of ARB No. 43, Chapter 4, (SFAS 151) which clarifies the types of costs that should be expensed rather than capitalized as inventory. This statement also clarifies the circumstances under which fixed overhead costs associated with operating facilities involved in inventory processing should be capitalized. The provisions of SFAS 151 were effective for fiscal years beginning after June 15, 2005 and the Company adopted this standard in the first quarter of 2006. Implementation of this statement did not have a material effect on our consolidated financial position or results of operations.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48 or the *Interpretation*) which defines the threshold for recognizing the benefits of tax return positions in the financial statements as *more-likely-than-not* to be sustained by the taxing authority. Uncertainty in income taxes, as used in the title of the new Interpretation, refers to uncertainty about how some transactions will be treated under the tax law. This uncertainty leads to questions about whether tax positions taken or to be taken on tax returns should be reflected in the financial statements before they are finally resolved with the taxing authorities. FIN 48 applies to all tax positions, regardless of their level of uncertainty or the nature of the position. However, the Interpretation's recognition and measurement requirements are likely to have the most impact on positions for which current or future deductions may be disallowed or reduced in a tax examination. The Interpretation applies to situations where the uncertainty is about the timing of the deduction, the amount of the deduction, or the validity of the deduction. FIN 48 is effective for fiscal years beginning after December 15, 2006 and we will adopt this Interpretation during the first quarter of 2007. We do not expect that this Interpretation will have a material impact on our consolidated financial position and results of operations.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157), which establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. SFAS 157 applies only to fair-value measurements that are already required or permitted by other accounting standards and is expected to increase the consistency of those measurements. SFAS 157 is effective for fair-value measures already required or permitted by other standards for financial statements issued

Table of Contents

for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We have not yet evaluated the effect that this standard may have upon our consolidated financial position or results of operations. In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS 158), which requires employers to recognize on their balance sheets the funded status of pension and other postretirement benefit plans. SFAS 158 also requires companies to recognize actuarial gains and losses, prior service cost, and any remaining transition amounts from the initial application of Statements 87 and 106 when recognizing a plan's funded status, with the offset to accumulated other comprehensive income. The provisions of SFAS 158 are effective for fiscal years ending after December 15, 2006 and we have adopted this standard effective December 31, 2006. Adoption of this standard resulted in a \$1.6 million increase in other non-current liabilities, a \$1 million decrease in other comprehensive income, and a \$.6 million increase in deferred tax assets. In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159), which allows measurement of specified financial instruments, warranty and insurance contracts at fair value on a contract by contract basis, with changes in fair value recognized in earnings in each period. SFAS 159 is effective at the beginning of the fiscal year that begins after November 15, 2007, and will be effective for the Company in fiscal 2008. The Company has not yet determined the effect that the implementation of this standard will have on its consolidated financial position or results of operations.

Reclassifications

Certain 2005 and 2004 amounts have been reclassified to conform with the 2006 presentation.

2. Discontinued Operations

As part of its continuing evaluation of its businesses, the Company determined that its thermal processing and strapping businesses no longer provided a strategic fit with its long-term growth and operational objectives. On June 16, 2006 and June 30, 2006, in separate transactions, the Company sold certain assets and liabilities of both its strapping and thermal processing businesses, respectively. The strapping business was previously included in the processed metals products segment and the thermal processing business previously was reported as a segment. The proceeds from the sale of the strapping assets were \$15,193,000, subject to an adjustment for working capital, and resulted in a pre-tax gain of \$5,355,000. The proceeds from the sale of the thermal processing assets were \$136,294,000 and resulted in a pre-tax loss of \$2,613,000.

In January 2005, the Company determined that Milcor was not positioned to obtain a leadership position in its marketplace. We were approached by a market leader from Milcor's marketplace and on January 27, 2005, the Company sold the net assets of its Milcor subsidiary, which included Portals Plus, for approximately \$42,594,000. Milcor was previously included in the building products segment.

In accordance with the provisions of Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS 144), the results of operations for the thermal processing business, strapping business and Milcor have been classified as discontinued operations in the consolidated balance sheets, consolidated statements of income and cash flows for all periods presented. This reclassification has been reflected in Notes 1, 3, 4, 5, 6, 7, 9, 10, 12, 15, 16, 17, 18, 19 and 21.

The Company allocates interest to its discontinued operations in accordance with the provisions of the Financial Accounting Standards Board's Emerging Issues Task Force item 87-24, *Allocation of Interest to Discontinued Operations*. Interest expense of \$2,699,000, \$4,975,000 and \$3,771,000 was allocated to discontinued operations during the years ended December 31, 2006, 2005 and 2004, respectively.

Table of Contents

Components of income from discontinued operations are as follows (in thousands):

		December 31,	
	2006	2005	2004
Net sales	\$ 80,520	\$ 144,864	\$ 177,623
Expenses	71,247	135,069	159,155
Income from discontinued operations before taxes	9,273	9,795	18,468
Income taxes	1,858	3,820	7,203
Income from discontinued operations	\$ 7,415	\$ 5,975	\$ 11,265

3. Equity-based Compensation

During the first quarter of 2006, the Company adopted SFAS 123(R), *Share-Based Payment*, applying the modified prospective method. This statement requires all equity-based payments to employees, including grants of stock options, to be recognized in the statement of income based on the grant date fair value of the award. Under the modified prospective method, the Company is required to record equity-based compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards outstanding as of the date of adoption. The Company uses the straight-line method of attributing the value of stock-based compensation expense based on vesting.

Stock compensation expense recognized during the period is based on the value of the portion of equity-based awards that is ultimately expected to vest during the period. Vesting requirements vary for directors and executives and key employees.

On May 19, 2005, the Gibraltar Industries, Inc. 2005 Equity Incentive Plan (the "2005 Equity Incentive Plan") was approved by the Company's stockholders. The 2005 Equity Incentive Plan is an incentive compensation plan that allows the Company to grant equity-based incentive compensation awards to eligible participants to provide them an additional incentive to promote the business of the Company, to increase their proprietary interest in the success of the Company and to encourage them to remain in the Company's employ. Awards under the plan may be in the form of options, restricted shares, restricted units, performance shares, performance units and rights. The 2005 Equity Incentive Plan provides for the issuance of up to 2,250,000 shares of common stock. Of the total number of shares of common stock issuable under the plan, the aggregate number of shares that may be issued in connection with grants of restricted stock or restricted units cannot exceed 1,350,000 shares, and the aggregate number of shares which may be issued in connection with grants of incentive stock options and rights cannot exceed 900,000 shares. Vesting terms and award life are governed by the award document.

The Management Stock Purchase Plan (MSPP) was approved by the shareholders in conjunction with the adoption of the 2005 Equity Incentive Plan. The MSPP provides participants the ability to defer up to 50% of their annual bonus under the Management Incentive Compensation Plan. The deferral is converted to restricted stock units and credited to an account along with a match equal to the deferral amount. The account is converted to cash at the current value of the Company's stock and payable to the participants upon their termination from employment with the Company. The matching portion is payable only if the participant has reached their sixtieth birthday. If a participant terminates prior to age 60, the match is forfeited. Upon termination, the account is converted to a cash account that accrues interest at 2% over the rate of the then current 10 year U. S. Treasury note. The account is then paid out in five equal annual cash installments.

During the year ended December 31, 2006, the Company issued 6,000 restricted shares, 167,125 restricted stock units, and granted 174,025 non-qualified stock options. At December 31, 2006, 1,540,254 shares were available for issuance under this plan. Of this amount, 899,839 are available for restricted units and 900,000 are available for incentive stock options. The Company recognized compensation expense in connection with the vesting of stock options and the lapse of restrictions on restricted shares and restricted units issued under the 2005 Equity Incentive Plan in the amounts of \$2,506,000 and \$1,305,000 in the years ended December 31, 2006 and 2005, respectively.

In 1993, the Company adopted an incentive stock option plan, whereby the Company may grant incentive stock options to officers and other key employees. Under this plan, 2,437,500 shares of common stock were reserved for the granting of stock options at an exercise price not less than the fair market value of the shares at the date of grant.

Options granted

Table of Contents

under this plan vest ratably over a four-year period from the grant date and expire ten years after the date of grant. In September 2003, this plan expired. The expiration of this plan did not modify, amend or otherwise affect the terms of any outstanding options on the date of the plan's expiration.

In 2003, the Company's Board of Directors approved the adoption of an incentive stock option plan, whereby the Company may grant incentive stock options to officers and other key employees. This plan was approved by the shareholders in 2004. Under this plan, 2,250,000 shares of common stock were reserved for the granting of stock options. These options are granted at an exercise price not less than the fair market value of the shares at the date of grant. Options granted under this plan vest ratably over a four-year period from the grant date and expire ten years after the date of grant. On May 22, 2006, the Company terminated this plan. The termination of this plan did not modify, amend or otherwise affect the terms of any outstanding awards on the date of the plan's termination.

The Company had a non-qualified stock option plan, whereby the Company could grant non-qualified stock options to officers, employees, non-employee directors and advisers. Under the non-qualified stock option plan, 600,000 shares of common stock were reserved for the granting of options. Options were granted under this plan at an exercise price not less than the fair market value of the shares at the date of grant. These options vested ratably over a four-year period from the grant date and expire ten years after the date of grant. On May 22, 2006, the Company terminated this plan. The termination of this plan did not modify, amend or otherwise affect the terms of any outstanding awards on the date of the plan's termination.

The Company had a restricted stock plan and had reserved for issuance 375,000 common shares for the grant of restricted stock awards to employees and non-employee directors at a purchase price of \$.01 per share. Shares of restricted stock issued under this plan vested on a straight-line basis over a period of 5 to 10 years. No shares were issued under this Plan in 2006, 2005 or 2004. On May 22, 2006, the Company terminated this plan. The termination of this plan did not modify, amend or otherwise affect the terms of any outstanding awards on the date of the plan's termination. The Company recognized compensation expense of \$166,000 and \$199,000 and \$153,000, respectively in connection with the lapse of restrictions on restricted stock issued under this plan in the years ended December 31, 2006, 2005 and 2004, respectively.

The tax benefit recognized related to equity compensation expense in the year ended December 31, 2006 was \$1,007,000.

The fair value of stock options granted was estimated on the date of grant using the Black-Scholes option pricing model. The weighted average fair value of the options was \$10.15 for options granted during the year ended December 31, 2006. The weighted average fair value of the options issued during the year ended December 31, 2005 was \$8.24. The following table provides the weighted average assumptions used to value stock options vesting during the years ended December 31, 2006, 2005 and 2004:

	Fair value	Expected life	Stock Volatility	Risk-free interest rate	Dividend yield
		6.25 Years			
2006 Grants	\$ 10.15	Years	39.3%	4.7%	0.8%
2005 Grants	\$ 8.24	5.0 Years	43.7%	3.9%	1.0%
2000 Grants	\$ 4.21	5.0 Years	43.7%	6.3%	0.7%

The fair value of restricted stock units granted was based on the grant date market price. During the year ended December 31, 2006, 97,027 restricted stock units were granted with a weighted average grant date fair value of \$25.55 per share. These awards vest ratably over three to four years.

The fair value of restricted stock units held in the MSPP equals the market value of our common stock on the last day of the period. During the year ended December 31, 2006, 70,098 restricted stock units were credited to participant accounts. At December 31, 2006, the market value of the Company's common stock was \$23.51 per share.

Table of Contents

The table below reflects income from continuing operations and income per share from continuing operations for the year ended December 31, 2006 compared with the pro forma information for the years ended December 31, 2005 and 2004 as follows:

	Year Ended December 31,		
	2006	2005	2004
Income from continuing operations, as reported(1)	\$ N/A	\$ 37,497	\$ 39,517
Equity-based compensation expense, net of tax included in income as reported (2)	N/A	917	153
Equity-based compensation expense, net of tax(3)	(1,667)	(945)	(344)
Income from continuing operations including the effect of equity-based compensation expense(4)	\$ 49,854	\$ 37,469	\$ 39,326
Income from continuing operations per share:			
Basic as reported (1)	\$ 1.68	\$ 1.27	\$ 1.35
Basic including the effect of equity-based compensation expense(4)	\$ 1.68	\$ 1.27	\$ 1.34
Diluted as reported (1)	\$ 1.66	\$ 1.26	\$ 1.34
Diluted including the effect of equity- based compensation expense(4)	\$ 1.66	\$ 1.26	\$ 1.33

(1) Income from continuing operations and income from continuing operations per share prior to 2006 did not include equity-based compensation expense for stock options.

(2) Income from continuing operations and income from continuing operations per share prior to 2006 included

equity-based
compensation
expense for
restricted shares
and restricted
share units.

Table of Contents

The following table summarizes the ranges of outstanding and exercisable options at December 31, 2006:

Range of	Options	Weighted average remaining contractual life in years	Weighted average exercise price	Options	Weighted average exercise price
Exercise prices	outstanding			exercisable	
\$ 9.38-\$10.42	73,622	3.1	\$ 9.76	73,622	\$ 9.76
\$ 14.50-\$15.00	118,625	1.2	\$ 14.82	118,625	\$ 14.82
\$ 20.52-\$23.78	233,585	9.7	\$ 22.79	14,890	\$ 20.54
	425,832			207,137	

The following table summarizes information about stock option transactions:

	Options	Weighted average exercise price	Weighted average remaining life	Aggregate intrinsic value
Balance at January 1, 2004	857,734	\$ 11.31		
Exercised	(432,124)	10.52		
Forfeited	(28,595)	12.91		
Balance at December 31, 2004	397,015	\$ 12.06		
Granted	75,508	20.54		
Exercised	(69,206)	11.81		
Forfeited	(19,891)	13.43		
Balance at December 31, 2005	383,426	\$ 13.70		
Granted	174,025	23.57		
Exercised	(120,655)	11.02		
Forfeited	(10,964)	20.52		
Balance at December 31, 2006	425,832	\$ 18.32	5.93	\$ 2,210,825

The aggregate intrinsic value in the preceding table represents the total pretax intrinsic value, based on the \$23.51 per share market price of the Company's common stock as of December 31, 2006, which would have been received by the option holders had all option holders exercised their options as of that date. The aggregate intrinsic value of exercisable options as of December 31, 2006 was \$2,087,740.

The aggregate intrinsic value of options exercised during the year ended December 31, 2006 was \$1,863,000. The aggregate intrinsic value of restricted shares that vested during the year ended December 31, 2006 was \$284,175. The aggregate intrinsic value of restricted stock units converted under the MSPP during the year ended December 31, 2006 was \$180,000.

The following table summarizes information about restricted stock:

**Weighted
Average
Grant Date Fair**

	Restricted Stock	Value
Balance at January 1, 2006	77,000	\$ 16.27
Granted	6,000	22.26
Vested	(14,500)	16.38
Forfeited	(1,500)	15.22
Balance at December 31, 2006	67,000	\$ 16.81

Table of Contents

The following table summarizes information about restricted stock units:

	Restricted Stock	Weighted Average Grant Date Fair Value
Balance at January 1, 2006	280,882	\$ 20.01
Granted	97,027	25.55
Vested		
Forfeited	(10,401)	21.86
Balance at December 31, 2006	367,508	\$ 21.42

The following table summarizes information about restricted share units that will convert to cash upon vesting:

	Restricted Stock Units	Weighted Average Grant Date Fair Value
Balance at January 1, 2006		\$
Granted	70,098	22.94
Converted	(7,174)	22.94
Forfeited		
Balance at December 31, 2006	62,924	\$ 22.94

As of December 31, 2006, there was \$7,673,000 of total unrecognized compensation cost related to non-vested options, restricted shares, and restricted share units. That cost is expected to be recognized over a weighted average period of 1.85 years.

4. Acquisitions

On April 1, 2003, the Company acquired all of the outstanding stock of Construction Metals, Inc. (Construction Metals). Construction Metals is headquartered in Ontario, California and is a manufacturer of a wide array of building and construction products that are sold to retail and wholesale customers throughout the western United States. As part of the purchase agreement between the Company and the former owners of Construction Metals, the Company was required to pay additional consideration if certain net sales levels as defined in the purchase agreement were achieved during the period from acquisition up to March 31, 2006. During the second quarter of 2006, 2005 and 2004, payments of \$1,754,000, \$1,332,000 and \$345,000, respectively, were made as a result of the net sales achieved. These payments were recorded as additional goodwill.

On January 6, 2004, the Company acquired all of the outstanding stock of Renown Specialties Company Ltd. (Renown). Renown is headquartered in Thornhill, Ontario, Canada and is a designer, manufacturer and distributor of construction hardware products in Canada. The acquisition of Renown served to broaden the Company's product lines and strengthen its existing position in the building products market. The results of operations of Renown (included in the Company's Building Products segment) have been included in the Company's consolidated financial statements since the date of acquisition.

The aggregate purchase consideration for the acquisition of Renown was approximately \$6,370,000 which was comprised solely of cash, including direct acquisition costs. The purchase price was allocated to the assets acquired and liabilities assumed based upon respective fair market values. The fair market values of the property, plant and

equipment and identifiable intangible assets were determined with the assistance of an independent valuation. The identifiable intangible assets consisted of non-competition agreements with an aggregate fair market value of \$35,000 (5-year weighted average useful life), trademarks/trade names with an aggregate fair market value of \$100,000 (2-year weighted average useful life), and customer relationships with an aggregate fair market value of \$80,000 (5-year weighted average useful life).

Table of Contents

The excess consideration over such fair value was recorded as goodwill and aggregated approximately \$3,701,000, none of which is deductible for tax purposes. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 1,504
Property, plant and equipment	950
Intangible assets	215
Goodwill	3,701
	\$ 6,370

On February 16, 2004, the Company acquired the net assets of Covert Operations, Inc. (Covert), a manufacturer of epoxies and crack injection systems for concrete and masonry. The aggregate purchase consideration of Covert was approximately \$1,336,000, including direct acquisition costs. The acquisition of Covert resulted in approximately \$640,000 in goodwill, which is fully deductible for tax purposes. The acquisition of Covert is not considered to be material to the Company's consolidated results of operations.

On June 1, 2004, the Company acquired the net assets of SCM Metal Products, Inc. (SCM). SCM is headquartered in Research Triangle Park, North Carolina and manufactures, markets and distributes non-ferrous metal powder products to customers in a number of different industries, including the automotive, aerospace, electronics and consumer products industries. The results of operations of SCM (included in the Company's Processed Metal Products segment) have been included in the Company's consolidated financial statements since the date of acquisition.

The aggregate purchase consideration for the acquisition of SCM was approximately \$42,882,000 in cash and acquisition costs. The purchase price was allocated to the assets acquired and liabilities assumed based upon respective fair market values. The fair market values of the property, plant and equipment and identifiable intangible assets were determined with the assistance of an independent valuation. The identifiable intangible assets consisted of trademarks/trade names with an aggregate value of \$440,000 (indefinite useful life), unpatented technology with a value of \$900,000 (10-year weighted average useful life) and customer relationships with a value of \$5,560,000 (15-year weighted average useful life). The excess consideration over such fair value was recorded as goodwill and aggregated approximately \$4,238,000, which is fully deductible for tax purposes. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 15,863
Property, plant and equipment	15,881
Intangible assets	6,900
Goodwill	4,238
	\$ 42,882

On August 13, 2004, the Company acquired all of the outstanding stock of Portals Plus Incorporated and its affiliated companies, Roofing Products & Systems Corporation and J.L.R. Services, Inc. (Portals Plus). Portals Plus is headquartered in Chicago, Illinois, and manufactures a diverse line of roofing products. The acquisition of Portals Plus served to strengthen the Company's position in the roofing products markets. The results of operations of Portals Plus (included in the Company's Building Products segment) have been included in the Company's consolidated financial statements since the date of acquisition.

The aggregate purchase consideration of Portals Plus was approximately \$15,167,000 and was comprised solely of cash, including direct acquisition costs. The purchase price was allocated to the assets acquired and liabilities assumed based upon respective fair values. The fair market values of the property, plant and equipment and identifiable intangible assets were determined with the assistance of an independent valuation. The identifiable intangible assets consisted of customer relationships with a value of \$1,830,000 (10-year weighted average useful life), and patents

with a value of \$21,000 (18-

Table of Contents

year weighted average useful life). The excess consideration over such fair value was recorded as goodwill and aggregated approximately \$10,853,000. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 1,448
Property, plant and equipment	1,015
Intangible assets	1,851
Goodwill	10,853
	\$ 15,167

The Company and the former owner of Portals Plus have made a joint election under Internal Revenue Code (IRC) Section 338(h) (10) which allowed the Company to treat the stock purchase as an asset purchase for tax purposes. As a result of the 338(h) (10) election, goodwill in the amount of \$10,853,000 is fully deductible for tax purposes.

On January 27, 2005, the Company disposed of the operations of Portals Plus as discussed Note 2.

On September 15, 2005, the Company acquired all of the outstanding stock of Curie International (Suzhou) Co., Ltd. (SCM Asia). SCM Asia is located in Suzhou, China and manufactures, markets and distributes non-ferrous metal powder products to customers in a number of different industries, including the powder metallurgy and thermal processing markets. The acquisition of SCM Asia provided the Company with an on-the-ground presence in the rapidly growing Chinese industrial market, which strengthens our ability to grow our business in this market. The results of SCM Asia (included in the Company's Processed Metal Products segment) are included in the Company's consolidated financial results from the date of acquisition on a one month lag. The acquisition of SCM Asia is not considered significant to the Company's consolidated results of operations.

The aggregate purchase consideration for the acquisition of SCM Asia was approximately \$7,631,000 in cash, a seller note, and acquisition costs. The seller note of \$1,465,000 was satisfied on September 15, 2006, and bore no interest. The purchase price was allocated to the assets acquired and liabilities assumed based upon respective fair market values. The

identifiable intangible assets consisted of a non-compete agreement with a value of \$645,000 (7 year estimated useful life) and unpatented technology with a value of \$715,000 (5 year estimated useful life). The excess consideration over fair value was recorded as goodwill and aggregated approximately \$3,524,000, none of which is deductible for tax purposes. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 681
Property, plant and equipment	1,892
Other assets	374
Other liabilities	(200)
Intangibles	1,360
Goodwill	3,524
	\$ 7,631

On September 16, 2005, the Company acquired the net assets of the Gutter Helmet product line (Gutter Helmet). Gutter Helmet manufactures a protection system that is installed over existing full size gutters by professional installers nationwide. The acquisition of Gutter Helmet broadened the Company's range of rain carrying products and accessories, which is expected to allow the Company to realize manufacturing and distribution efficiencies. The results of Gutter Helmet (included in the Company's Building Products segment) have been included in the Company's consolidated financial results from the date of acquisition. The acquisition of Gutter Helmet is not considered to be

significant to the Company's consolidated results of operations.

The aggregate purchase consideration for the acquisition of Gutter Helmet was approximately \$21,436,000 in cash and acquisition costs. The purchase price was allocated to the assets acquired and liabilities assumed based upon respective fair market values. The identifiable intangible assets identified during the allocation of purchase price consisted of

Table of Contents

trademarks with a value of \$540,000 (10 year estimated useful life), customer relationships with a value of \$400,000 (5 year estimated useful life), and unpatented technology with a value of \$365,000 (20 year estimated useful life). The excess consideration over fair value was recorded as goodwill and aggregated approximately \$15,740,000 which is deductible for tax purposes. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 3,229
Property, plant and equipment	1,162
Intangible assets	1,305
Goodwill	15,740
	\$ 21,436

On October 3, 2005, the Company acquired all the outstanding shares of Alabama Metal Industries Corporation (AMICO). AMICO is headquartered in Birmingham, Alabama, and manufactures, markets and distributes a diverse line of products used in the commercial and industrial sectors of the building products market. The acquisition of AMICO increased the Company's participation in the industrial and commercial sectors of the building products market and increased our product offerings in the residential sector of the building products market. The results of operations of AMICO (included in the Company's Building Products segment) have been included in the Company's consolidated results of operations from the date of acquisition.

Table of Contents

The aggregate purchase consideration for the acquisition of AMICO was approximately \$240,871,000 in cash and acquisition costs. The purchase price was allocated to the assets acquired and liabilities assumed based upon respective fair market values. The identifiable intangible assets identified during the allocation of purchase price consisted of trade name with a value of \$24,300,000 (indefinite useful life), trademarks with a value of \$700,000 (indefinite useful life) customer relationships with a value of \$11,300,000 (13 year estimated useful life), and unpatented technology with a value of \$2,400,000 (10 year estimated useful life). The excess consideration over fair value was recorded as goodwill and aggregated approximately \$110,313,000, none of which is deductible for tax purposes. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 66,250
Property, plant and equipment	55,151
Other long term liabilities, net	(29,543)
Intangible assets	38,700
Goodwill	110,313
	\$ 240,871

On October 4, 2005, the Company acquired the assets of American Wilcon Plastics, Inc. (American Wilcon), a privately owned manufacturer of custom injected plastic molded products. American Wilcon, founded in 1975, currently operates a manufacturing facility in Orrick, Missouri and a distribution facility in Richmond, Missouri. The acquisition of American Wilcon served to vertically integrate an important supplier, allowing the Company to reduce costs and improve efficiency. The Company buys a significant portion of American Wilcon's products, and it acquired American Wilcon to vertically integrate one of its suppliers, expand its manufacturing capabilities and lower its costs. The acquisition of American Wilcon is not considered to be significant to the Company's consolidated results of operations.

The aggregate purchase consideration for the acquisition of American Wilcon was approximately \$4,514,000 in cash and acquisition costs. The purchase price was allocated to the assets acquired and liabilities assumed based upon respective fair market values. The excess consideration over fair value was recorded as goodwill and aggregated approximately \$22,000 which is deductible for tax purposes. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 1,462
Property, plant and equipment	3,030
Goodwill	22
	\$ 4,514

Table of Contents

On June 8, 2006, the Company acquired all of the outstanding stock of Home Impressions, Inc. (Home Impressions). Home Impressions is based in Hickory, North Carolina and markets and distributes mailboxes and postal accessories. The acquisition of Home Impressions served to strengthen the Company's position in the mailbox and storage systems markets, and is expected to provide marketing, manufacturing and distribution synergies with our existing operations. The results of Home Impressions (included in the Company's Building Products segment) have been included in the Company's consolidated financial results from the date of acquisition. The acquisition of Home Impressions is not considered significant to the Company's consolidated results of operations.

The aggregate initial consideration was approximately \$12,473,000 which consisted of \$9,612,000 in cash and the assumption of \$2,861,000 notes payable, including direct acquisition costs, with the final purchase price subject to adjustment for operating results through May 2009. The initial purchase price has been allocated to the assets acquired and liabilities assumed based upon a preliminary valuation of respective fair market values. The identifiable intangible assets consisted of a non-compete agreement with a value of \$530,000 (8 year estimated useful life), trademarks with a value of \$1,340,000 (15 year estimated useful life), patents with a value of \$535,000 (20 year estimated useful life) and customer relationships with a value of \$1,570,000 (10 year estimated useful life). A final valuation is expected to be completed during the first quarter of 2007. The excess consideration over fair value was recorded as goodwill and aggregated approximately \$6,930,000, none of which is deductible for tax purposes. The allocation of purchase consideration to the assets and liabilities assumed is as follows (in thousands):

Working capital	\$ 1,826
Property, plant and equipment	1,660
Other long term liabilities	(1,918)
Intangibles	3,975
Goodwill	6,930
	\$ 12,473

As part of the purchase agreement with the former owners of Home Impressions, the Company is required to pay additional consideration through May 2009 based upon the operating results of Home Impressions. The Company paid \$407,000 of such additional consideration during 2006. These payments were recorded as additional goodwill.

On June 30, 2006, the Company acquired certain assets of Steel City Hardware, LLC (Steel City). The assets the Company acquired from Steel City are used to manufacture mailboxes and postal accessories. The acquisition of the assets of Steel City served to vertically integrate Home Impressions' major domestic supplier and expanded our manufacturing competency in the storage market. The results of Steel City (included in the Company's Building Products segment) are included in the Company's consolidated financial results from the date of acquisition. The acquisition of Steel City is not considered significant to the Company's consolidated results of operations.

The aggregate initial consideration was approximately \$4,879,000, in cash and direct acquisition costs. The purchase price has been allocated to the assets acquired based upon a preliminary valuation of respective fair market values. A final valuation is expected to be completed during the first quarter of 2007. The excess consideration over fair value was recorded as goodwill and aggregated approximately \$2,566,000, which is deductible for tax purposes. The allocation of purchase consideration to the assets and liabilities assumed is as follows (in thousands):

Working capital	\$ 1,736
Property, plant and equipment	577
Goodwill	2,566
	\$ 4,879

On November 1, 2006, the Company acquired all of the outstanding stock of The Expanded Metal Company Limited and Sorst Streckmetall GmbH (EMC). EMC has locations in England, Germany and Poland and manufactures,

markets and distributes a diverse line of products used in the commercial and industrial sectors of the building products markets. The acquisition of EMC is expected to strengthen the Company's position in the expanded metal market and provide expanded market exposure for both EMC products and certain products currently manufactured by the Company. The

Table of Contents

results of operations of EMC (included in the Company's Building Products segment) have been included in the Company's consolidated results of operations from the date of acquisition.

The aggregate purchase consideration for the acquisition of EMC was approximately \$44,629,000 in cash and acquisition costs. The purchase price was allocated to the assets acquired and liabilities assumed based upon a preliminary valuation of respective fair values. The identifiable intangible assets consisted of a trademark with a value of \$4,771,000 (indefinite useful life) and customer relationships with a value of \$7,443,000 (7 year estimated useful life). A final valuation is expected to be completed during the first half of 2007. The excess consideration over fair value was recorded as goodwill and aggregated approximately \$20,244,000, none of which is deductible for tax purposes. The allocation of purchase consideration to the assets acquired and liabilities assumed is as follows (in thousands):

Working capital	\$ 5,790
Property, plant and equipment	11,338
Other long term liabilities, net	(4,957)
Intangible assets	12,214
Goodwill	20,244
	\$ 44,629

The following unaudited pro forma financial information presents the combined results of operations as if the acquisition of AMICO had occurred as of January 1, 2005. The pro forma information includes certain adjustments, including depreciation expense, interest expense and certain other adjustments, together with related income tax effects. The pro forma amounts may not be indicative of the results that actually would have been achieved had the acquisitions occurred as of January 1, 2005 and are not necessarily indicative of future results of the combined companies (in thousands, except per share data):

	December 31, 2005
Net sales	\$ 1,276,638
Income from continuing operations	\$ 55,282
Income from continuing operations per share Basic	\$ 1.87
Income from continuing operations per share Diluted	\$ 1.85

5. Goodwill and Related Intangible Assets**Goodwill**

The changes in the carrying amount of goodwill by reportable segment for the years ended December 31, 2006 and 2005 are as follows (in thousands):

	Building Products segment	Processed Metal Products segment	Total
Balance at January 1, 2005	\$ 197,446	\$ 23,617	\$ 221,063

Balance at December 31, 2006	\$	358,856	\$	15,965	\$ 374,821
------------------------------	----	---------	----	--------	------------

As described in Note 8, the Company entered into a joint venture with Duferco Farrell Corporation in 2003, in which the

58

Table of Contents

Company acquired a 50% partnership interest in Gibraltar DFC Strip Steel, LLC. The Company's investment in Gibraltar DFC Strip Steel, LLC (included in the Company's Processed Metals Products segment) exceeded its applicable share of the fair market value of the partnership's net assets at the date the partnership was formed and resulted in equity method goodwill of approximately \$11,320,000. During 2006, the Company determined that the investment was impaired and recognized an impairment charge of \$12.9 million (\$11.3 million related to the goodwill) (see Note 8).

Intangible Assets

Intangible assets related to the Company's acquisitions are included as part of the total other assets on the Company's consolidated balance sheet. Intangible assets subject to amortization at December 31 are as follows (in thousands):

	2006		2005		
	Gross carrying amount	Accumulated amortization	Gross Carrying amount	Accumulated amortization	Estimated Life
Trademark	\$ 2,000	\$ (231)	\$ 1,660	\$ (143)	2 15 years
Unpatented technology/patent	5,090	(774)	3,440	(225)	5 20 years
Customer relationships	26,353	(2,456)	13,040	(809)	5 15 years
Non-competition agreements	3,540	(1,367)	2,365	(885)	5 10 years
	\$ 36,983	\$ (4,828)	\$ 20,505	\$ (2,062)	

Intangible assets with indefinite useful lives not subject to amortization consist of trade names and a trademark valued at \$30,211,000 and \$21,440,000 at December 31, 2006 and 2005, respectively.

Intangible asset amortization expense for the years ended December 31, 2006, 2005 and 2004 aggregated approximately \$2,766,000, \$1,175,000 and \$680,000, respectively.

Amortization expense related to intangible assets subject to amortization at December 31, 2006 for the next five years is estimated as follows (in thousands):

Year Ended December 31,	
2007	\$ 3,725
2008	\$ 3,596
2009	\$ 3,518
2010	\$ 3,446
2011	\$ 3,289

6. Inventories

Inventories at December 31 consist of the following:

(in thousands)	2006	2005
Raw material	\$ 122,181	\$ 89,798
Work-in-process	41,164	30,341
Finished goods	91,646	69,849
Total inventory	\$ 254,991	\$ 189,988

Table of Contents**7. Property, Plant and Equipment**

Components of property, plant and equipment at December 31 consisted of the following:

(in thousands)	2006	2005
Land and land improvements	\$ 12,405	\$ 10,509
Building and improvements	79,327	71,900
Machinery and equipment	281,798	258,055

8. Investments in Partnerships

The Company has a 31% partnership interest in a steel pickling joint venture with Samuel Manu-Tech, Inc. The partnership provides a steel cleaning process called pickling to steel mills and steel processors. The investment is included in the Company's Processed Metal Products segment and is accounted for using the equity method of accounting. The Company's investment in the partnership was approximately \$2,440,000 and \$2,720,000 at December 31, 2006 and 2005, respectively.

In December 2003, the Company entered into a joint venture with Duferco Farrell Corporation, in which the Company acquired a 50% partnership interest in Gibraltar DFC Strip Steel, LLC. The joint venture was formed for the purpose of manufacturing and distributing cold-rolled strip steel products. The investment is accounted for using the equity method of accounting. The Company's proportionate share in the net assets of the joint venture was approximately \$3,431,000 at December 31, 2005. In December 2006, the Company determined its investment in the joint venture was other than temporarily impaired and wrote off its proportional share in the net assets of the joint venture, which was approximately \$1,555,000. The determination that the investment was other than temporarily impaired also resulted in the write-off of approximately \$11,320,000 of goodwill as discussed in Note 5.

Table of Contents**9. Debt**

Long-term debt at December 31 consists of the following:

(in thousands)	2006	2005
Revolving credit facility	\$ 74,589	\$ 25,000
Term loan	123,850	230,000
8% Senior Subordinated Notes due December 1, 2015 with interest payable in semiannual installments at 8.25% effective rate, recorded net of unamortized discount of \$3,175 and \$3,400 at December 31, 2006 and 2005, respectively	200,825	200,600
Acquisition notes payable related party		5,833
Other debt	1,289	80
	400,553	461,513
Less current maturities	2,336	8,164
Total long-term debt	\$ 398,217	\$ 453,349

The Company's amended and restated credit agreement dated October 30, 2006 provides a revolving credit facility and a term loan. The revolving credit facility of \$300,000,000 and term loan of \$230,000,000 are collateralized by the Company's accounts receivable, inventories, and personal property and equipment. The revolving credit facility is committed through December 8, 2010 and the term loan is due December 8, 2012.

The revolving credit facility carries a facility fee of between 17.5 and 65 basis points which is payable quarterly. This facility has various interest rate options, which are no greater than the bank's prime rate (8.25% at December 31, 2006). At December 31, 2006, the Company had \$65,000,000 outstanding at LIBOR plus a margin equal to 6.35% and additional borrowings of \$9,589,000 outstanding at 6.29%. At December 31, 2005, the Company had \$25,000,000 outstanding with interest at LIBOR plus a margin equal to 5.52%. \$17,163,000 of standby letters of credit have been issued under the revolving credit agreement to third parties on behalf of the Company at December 31, 2006. These letters of credit reduce the amount otherwise available. \$208,248,000 was available under the revolving credit facility at December 31, 2006.

The term loan carries interest at various rates, including a base rate which is the greater of the bank's prime rate (8.25% at December 31, 2006) or the federal funds rate plus 50 basis points, or LIBOR plus 175 basis points. At December 31, 2006 and 2005, the Company had interest rate swap agreements (to manage interest costs and exposure to changing interest rates) outstanding which expire in 2007 and 2010 and effectively converted \$115,000,000 of floating rate debt to fixed rates ranging from 6.70% to 6.78%. Additional borrowings under the term loan of \$8,850,000 had an interest rate of LIBOR plus a fixed rate of 7.13% at December 31, 2006. Additional borrowings under the term loan of \$115,000,000 had an interest rate of LIBOR plus a fixed rate at December 31, 2005. The weighted average interest rate of these borrowings was 6.77% and 6.51% at December 31, 2006 and 2005, respectively.

On December 8, 2005, the Company issued \$204,000,000 of 8% senior subordinated notes, due December 1, 2015, at a discount to yield 8.25%. Provisions of the 8% notes include, without limitation, restrictions on indebtedness liens, distributions from restricted subsidiaries, asset sales, affiliate transactions, dividends and other restricted payments. Prior to December 1, 2008, up to 35% of the 8% notes are redeemable at the option of the Company from the proceeds of an equity offering at a premium of 108% of the face value, plus accrued and unpaid interest. After December 1, 2010, the notes are redeemable at the option of the Company, in whole or in part, at the redemption price (as defined in the notes agreement), which declines annually from 104% to 100% on and after December 1, 2013. In the event of a Change of Control (as defined in the indenture for such notes), each holder of the 8% notes may require the Company to repurchase all or a portion of such holder's 8% Notes at a purchase price equal to 101% of the principal amount thereof. The 8% notes are guaranteed by certain existing and future domestic subsidiaries and are not subject to any sinking fund requirements.

Table of Contents

The borrowings under the term loan and 8% senior subordinated notes were used to pay down the interim financing facility described below and revolving line of credit and pay financing costs.

On October 3, 2005, the Company entered into a term loan agreement with a consortium of banks pursuant to which the lenders made a senior secured term loan of \$300,000,000 due October 4, 2006. This loan and the Company's revolving credit facility were used to fund the acquisition of AMICO and satisfy the (i) the Senior Secured Note with The Prudential Insurance Company of America dated July 3, 2002, as amended; (ii) the Subordinated Note with The Prudential Insurance Company of America dated July 3, 2002, as amended; (iii) the Senior Secured Note Purchase Agreement with The Prudential Life Insurance Company of America and Pruco Life Insurance Company dated June 18, 2004, as amended; and (iv) the \$42,295,000 subordinated promissory note, dated May 1, 2003, payable to CertainTeed Corporation. The satisfaction of the notes in (i), (ii), and (iii) above required the Company to provide make whole payments aggregating \$6,753,000 which were expensed as interest in 2005.

The Company's acquisition notes payable consisted of debt incurred in connection with the 2003 acquisitions of Construction Metals and Air Vent. In connection with the acquisition of Construction Metals, the Company entered into two unsecured subordinated notes payable each in the amount of \$8,750,000 (aggregate total of \$17,500,000). These notes were payable to the two former owners of Construction Metals were considered related party in nature due to the former owners' current employment relationship with the Company. These notes were payable in equal annual principal installments of \$2,917,000 per note on April 1, and the final principal payment was paid on April 1, 2006. These notes required quarterly interest payments at an interest rate of 5.0% per annum. Interest expense related to these notes payable aggregated approximately \$72,000, \$364,000 and \$658,000 in 2006, 2005 and 2004, respectively. At December 31, 2005, the current portion of these notes aggregated approximately \$5,833,000 and accrued interest aggregated approximately \$74,000.

In connection with the acquisition of Air Vent, the Company entered into an unsecured subordinated note payable to the former owner of Air Vent, in the amount of \$42,295,000. The note was payable in annual principal installments of \$8,459,000 on May 1, with the final principal payment due on May 1, 2008. The note was paid on October 3, 2005, as described above. The principal and interest paid on October 3, 2005 related to this note equaled \$25,920,000.

The aggregate maturities of long-term debt for the next five years and thereafter are as follows: 2007-\$2,336,000; 2008-\$2,313,000; 2009-\$2,300,000; 2010-\$78,129,000; 2011-\$2,300,000; and \$313,175,000, thereafter.

The various loan agreements, which do not require compensating balances, contain provisions that limit additional borrowings and require maintenance of minimum net worth and financial ratios. The Company is in compliance with the terms and provisions of all its financing agreements.

Total cash paid for interest in the years ended December 31, 2006, 2005 and 2004 was \$30,333,000, \$26,190,000 and \$14,620,000, respectively.

Table of Contents**10. Employee Retirement Plans**

The Company has an unfunded supplemental pension plan which provides defined pension benefits to certain salaried employees upon retirement. Benefits under the plan are based on the salaries of individual plan participants in the year they were admitted into the plan. The Company is accruing for these benefit payments based upon an independent actuarial calculation. The following table presents the changes in the plan's projected benefit obligation, fair value of plan assets and funded status for the years ended December 31:

(in thousands)	2006	2005	2004
Change in projected benefit obligation:			
Projected benefit obligation at beginning of year	\$ 2,253	\$ 2,154	\$ 1,791
Service cost	160	176	171
Interest cost	123	123	107
Actuarial (gain) loss	(52)	(155)	110
Benefits paid	(45)	(45)	(25)
Projected benefit obligation at end of year	2,439	2,253	2,154
Fair value of plan assets			
Funded status:	(2,439)	(2,253)	(2,154)
Unrecognized (gain) loss	(3)	51	206
Net amount recognized	\$ (2,442)	\$ (2,202)	\$ (1,948)
Amounts recognized in the consolidated financial statements consist of:			
Accrued pension liability	\$ (2,439)	\$ (2,253)	\$ (2,154)
Accumulated other comprehensive (income) loss-additional minimum pension liability (pre-tax)	(3)	51	206
Net amount recognized	\$ (2,442)	\$ (2,202)	\$ (1,948)

The plan's accumulated benefit obligation was \$2,439,000, \$2,253,000 and \$2,154,000 at December 31, 2006, 2005 and 2004, respectively.

The measurement date used to determine pension benefit measures is December 31.

Components of net periodic pension cost for the years ended December 31 are as follows:

(in thousands)	2006	2005	2004
Service cost	\$ 160	\$ 176	\$ 171
Interest cost	123	123	107
Net periodic pension cost	\$ 283	\$ 299	\$ 278
Weighted average assumptions:			
Discount rate	5.75%	5.50%	5.75%
Employer contributions to the plan for 2007 are expected to be \$44,500.			

Year Ended December 31,	
2007	\$ 44
2008	\$ 53

2009	\$ 128
2010	\$ 196
2011	\$ 255
Years 2012 - 2016	\$1,741

Certain subsidiaries participate in the Company's 401(k) Plan. In addition, certain subsidiaries have multi-employer non-contributory retirement plans providing for defined contributions to union retirement funds.

Table of Contents

Total expense for all retirement plans was \$3,465,000, \$2,662,000 and \$2,344,000 for the years ended December 31, 2006, 2005 and 2004 respectively.

11. Other Postretirement Benefits

Certain subsidiaries of the Company provide health and life insurance to substantially all of their employees and to a number of retirees and their spouses.

The following table presents the changes in the accumulated postretirement benefit obligation related to the Company's unfunded postretirement healthcare benefits at December 31:

(in thousands)	2006	2005	2004
Benefit obligation at beginning of year	\$ 4,277	\$ 4,046	\$ 3,404
Service cost	115	104	92
Interest cost	232	223	214
Amendments			(57)
Actuarial loss	103	67	465
Benefits paid	(176)	(163)	(72)
Medicare Part D subsidy	7		
Benefit obligation at end of year	4,558	4,277	4,046
Fair value of plan assets			
Under funded status	(4,558)	(4,277)	(4,046)
Unrecognized prior service costs	(100)	(121)	(142)
Unrecognized loss	1,657	1,677	1,721
Accumulated postretirement benefit obligation	\$ (3,001)	\$ (2,721)	\$ (2,467)

Amounts recognized in the consolidated financial statements consist of:

(in thousands)	2006	2005	2004
Accrued post retirement benefit liability	\$ (4,558)	\$ (2,721)	\$ (2,467)
Accumulated other comprehensive loss-additional post retirement benefit cost (pre-tax)	1,557		
Net amount recognized	\$ (3,001)	\$ (2,721)	\$ (2,467)

Components of net periodic postretirement benefit cost charged to expense for the years ended December 31 are as follows:

(in thousands)	2006	2005	2004
Service cost	\$ 115	\$ 104	\$ 92
Interest cost	232	223	214
Amortization of unrecognized prior service cost	(21)	(21)	(21)
Loss amortization	123	110	107
Net periodic post retirement benefit cost	\$ 449	\$ 416	\$ 392
Weighted average assumptions:			
Discount rate	5.75%	5.50%	5.75%

Table of Contents

For measurement purposes, a 9%, 7% and 10% annual rate of increase in the per capita cost of medical costs before age 65, medical costs after age 65 and drug costs, respectively, were assumed for 2006, gradually decreasing to 5.0% in 2014. The effect of a 1% increase or decrease in the annual medical inflation rate would increase or decrease the accumulated postretirement benefit obligation at December 31, 2006, by approximately \$726,000 and \$630,000, respectively and increase or decrease the annual service and interest costs by approximately \$61,000 and \$52,000, respectively.

The measurement date used to determine postretirement benefit obligation measures is December 31.

Expected benefit payments from the plan are as follows (in thousands):

Year ended December 31,	
2007	\$ 149
2008	\$ 168
2009	\$ 186
2010	\$ 207
2011	\$ 240
Years 2011 - 2015	\$1,477

The Company adopted SFAS 158 effective December 31, 2006. Adoption of this standard resulted in a \$1,557,000 increase in other non-current liabilities, a \$969,000 decrease in equity and a \$587,000 increase in deferred tax assets as we recognized additional post retirement benefit costs.

Table of Contents**12. Income Taxes**

The provision for income taxes for the years ending December 31 consisted of the following:

(in thousands)	2006	2005	2004
Income tax expense (benefit) from continuing operations			
Current:			
U.S. federal	\$ 26,752	\$ 21,213	\$ 18,953
State and foreign	6,367	4,248	2,916
Total current	33,119	25,461	21,869
Deferred:			
U.S. federal	(3,041)	(2,018)	2,741
State and foreign	3	(190)	654
Total deferred	(3,038)	(2,208)	3,395
Total	\$ 30,081	\$ 23,253	\$ 25,264

Income tax (benefit) expense from discontinued operations:

(in thousands)	2006	2005	2004
Current:			
U.S. federal	\$ 21,664	\$ 4,692	\$ 3,257
State and foreign	6,109	279	569
Total current	27,773	4,971	3,826
Deferred:			
U.S. federal	(20,941)	(598)	2,963
State and foreign	(4,974)	(553)	414
Total deferred	(25,915)	(1,151)	3,377
Total	\$ 1,858	\$ 3,820	\$ 7,203

The provision for income taxes from continuing operations differs from the federal statutory rate of 35% due to the following:

(in thousands)	2006	2005	2004
Statutory rate	\$ 27,977	\$ 21,263	\$ 22,673
State income taxes, less federal effect	3,057	2,307	2,228
Other	(953)	(317)	363
	\$ 30,081	\$ 23,253	\$ 25,264

Deferred tax liabilities (assets) at December 31, consist of the following:

Edgar Filing: GIBRALTAR INDUSTRIES, INC. - Form 10-K

(in thousands)	2006	2005
Depreciation	\$ 42,618	\$ 41,391
Goodwill	17,070	16,287
Intangible assets	19,913	11,725
Other	1,527	2,604
Gross deferred tax liabilities	81,128	72,007
Equity compensation	(3,959)	(1,985)
Other	(12,072)	(11,597)
Gross deferred tax assets	(16,031)	(13,582)
Net deferred tax liabilities	\$ 65,097	\$ 58,425

Net current deferred tax assets of \$5,884,000 and \$7,813,000 are included in other current assets in the consolidated balance sheet at December 31, 2006 and 2005, respectively.

Table of Contents

Cash paid for income taxes, net of tax refunds, in the years ended December 31, 2006, 2005 and 2004 was \$63,621,000, \$31,941,000 and \$17,584,000, respectively.

Provision has not been made for U.S. taxes on \$9,094,000 of undistributed earnings of foreign subsidiaries. Those earnings have been and will continue to be reinvested. Determination of the amount of unrecognized deferred U.S. income tax liability is not practicable due to the complexities associated with its hypothetical calculation.

The Company has a subsidiary in China that will be eligible for a tax holiday for five years beginning with the first year the taxable income exceeds the net operating loss carry forwards. During 2006, taxable income exceeded the net operating loss carry forwards and the tax holiday began.

At December 31, 2005, the Company has net operating loss carry forwards of \$2,718,000, all of which were utilized in 2006.

13. Common Stock

In December 2003, the Company completed an offering of 4,500,000 shares of common stock at a price of \$16.50 per share. Net proceeds to the Company aggregated approximately \$70,000,000. In connection with this common stock offering, the Company granted the underwriters an option to purchase additional shares of common stock to cover over-allotments. In January 2004, the underwriters exercised this option and purchased an additional 321,938 shares of the Company's common stock at a price of \$16.50 per share. Net proceeds to the Company associated with the purchase of these additional shares aggregated approximately \$5,000,000, and was used to reduce outstanding debt.

14. Stock Split

On October 5, 2004, the Company's Board of Directors authorized a 3 for 2 stock split in the form of a stock dividend that was distributed on October 29, 2004 to shareholders of record on October 15, 2004. The remittance of \$1,000 in lieu of fractional shares has been reflected as a cash dividend and charged to retained earnings during fiscal 2004. All share and per share data in these consolidated financial statements and footnotes have been retroactively restated as if the stock split had occurred as of the earliest period presented.

15. Net Income per Share

Basic income per share is based on the weighted average number of common shares outstanding. Diluted income per share is based on the weighted average number of common shares outstanding, as well as dilutive potential common shares which, in the Company's case, comprise shares issuable under the stock option and restricted stock plans described in Note 3. The treasury stock method is used to calculate dilutive shares, which reduces the gross number of dilutive shares by the number of shares purchasable from the proceeds of the options assumed to be exercised.

The following table sets forth the computation of basic and diluted earnings per share as of December 31:

	2006	2005	2004
Numerator:			
Income from continuing operations	\$ 49,854,000	\$ 37,497,000	\$ 39,517,000
Income from discontinued operations	7,415,000	5,975,000	11,265,000
Income available to common stockholders	\$ 57,269,000	\$ 43,472,000	\$ 50,782,000
Denominator:			
Denominator for basic income per share:			
Weighted average shares outstanding	29,711,902	29,608,418	29,362,122
Denominator for diluted income per share:			
Weighted average shares outstanding	29,711,902	29,608,418	29,362,122
Common stock options and restricted stock	293,619	201,724	233,472
Weighted average shares and conversions	30,005,521	29,810,142	29,595,594

Table of Contents**16. Segment Information**

The Company is organized into two reportable segments on the basis of the production process and products and services provided by each segment, identified as follows:

- (i) Building products, which primarily includes the processing of sheet steel to produce a wide variety of building and construction products.
- (ii) Processed metal products, which primarily includes the intermediate processing of wide, open tolerance flat-rolled sheet steel and other metals through the application of several different processes to produce high-quality, value-added coiled steel and other metal products to be further processed by customers.

The following table illustrates certain measurements used by management to assess the performance of the segments described above as of and for the years ended December 31, 2006, 2005 and 2004:

(in thousands)	2006	2005	2004
Net sales			
Building products	\$ 872,639	\$ 615,386	\$ 477,316
Processed metal products	430,716	421,437	359,725
	\$ 1,303,355	\$ 1,036,823	\$ 837,041
Income from operations

Corporate	2,247	2,585	4,670
	\$ 21,901	\$ 17,481	\$ 19,949

17. Other Assets

Other assets at December 31 consist of the following:

	2006	2005
Intangible Assets	\$ 63,119	\$ 40,127
Deferred financing costs	9,876	10,882
Other	3,694	4,090
	\$ 76,689	\$ 55,099

Table of Contents**18. Accrued Expenses**

Accrued expenses at December 31 consist of the following:

	2006	2005
Compensation	\$ 14,873	\$ 17,124
Insurance	11,122	12,144
Customer rebates	8,034	9,959
Other	16,742	20,062
	\$ 50,771	\$ 59,289

19. Commitments and Contingencies

The Company leases certain facilities and equipment under operating leases. Rent expense under operating leases for the years ended December 31, 2006, 2005 and 2004 aggregated \$13,382,000, \$9,234,000 and \$7,483,000, respectively. Future minimum lease payments under these noncancelable operating leases at December 31, 2006 are as follows: 2007-\$12,176,000; 2008-\$10,483,000; 2009-\$8,272,000; 2010-\$6,433,000; 2011-\$5,381,000; and \$11,445,000 thereafter.

The Company entered into certain operating lease agreements, related to acquired operating locations and facilities, with the former owners of Construction Metals. These operating leases are considered to be related party in nature. Rental expense associated with these related party operating leases aggregated approximately \$1,353,000 and \$1,418,000 in 2006 and 2005, respectively.

The Company is a party to certain claims and legal actions generally incidental to its business. Management does not believe that the outcome of these actions, which are not clearly determinable at the present time, would significantly affect the Company's financial condition or results of operations.

Two members of our Board of Directors are partners in law firms that provide legal services to the Company. During 2006 and 2005, we incurred \$1,869,000 and \$2,114,000 for legal services from these firms, respectively. Of the amount incurred, \$1,567,000 and \$1,024,000 was expensed, and \$302,000 and \$1,090,000 was capitalized as acquisition costs and deferred debt issuance costs in 2006 and 2005, respectively. At December 31, 2006 and 2005, the Company had \$171,000 and \$787,000, respectively recorded in accounts payable for these law firms.

The Company offers various product warranties to its customers concerning the quality of its products and services. Based upon the short duration of warranty periods and favorable historical warranty experience, the Company determined that a related warranty accrual at December 31, 2006 and 2005 is not required.

Table of Contents**20. Accumulated Other Comprehensive Income (loss)**

The cumulative balance of each component of accumulated other comprehensive income (loss) is as follows (in thousands):

	Foreign currency translation adjustment	Minimum pension liability adjustment	Unamortized post retirement health care costs	Unrealized gain (loss) on interest rate swaps	Accumulated other comprehensive income
Balance at January 1, 2006	\$ 2,435	\$ (30)	\$	\$ (538)	\$ 1,867
Cumulative effect of adoption of SFAS 158			(969)		(969)
Current period change	(458)	33		592	167
Balance at December 31, 2006	\$ 1,977	\$ 3	\$ (969)	\$ 54	\$ 1,065

21. Supplemental Financial Information

The following information sets forth the consolidating financial statements of the issuer (Gibraltar Industries, Inc.) and other guarantors, which guarantee the 8% senior subordinated notes due December 1, 2015, and the non-guarantors. The guarantors are wholly owned subsidiaries of the issuer and the guarantees are full, unconditional, joint and several.

Investments in subsidiaries are accounted for by the parent using the equity method of accounting. The guarantor subsidiaries and non-guarantor subsidiaries are presented on a combined basis. The principal elimination entries eliminate investments in subsidiaries and intercompany balances and transactions.

(1) Net sales decreased \$8.1 million, or 2.7%, to \$291.8 million in the fourth quarter

of 2006, from \$299.7 million in the fourth quarter of 2005. The decrease is the result of weakness in the new build housing market, which was partially offset by an increase in net sales of \$10.4 million due to the acquisition of EMC in November 2006. During the fourth quarter of 2006, the Company aligned its vacation policy at its subsidiaries, and recorded a benefit in income from operations due to this alignment of approximately \$3.7 million and recognized an impairment of approximately \$12.9 million in its investment in a joint venture.

Table of Contents

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

The Company filed an 8-K/A dated June 6, 2005 reporting a change in its certifying accountant to Ernst & Young LLP from PricewaterhouseCoopers LLP.

Item 9A. Controls and Procedures

Evaluation of Disclosure Control and Procedures

The Company maintains a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). The Company's Chief Executive Officer and Chairman of the Board, President and Chief Operating Officer, and Executive Vice President, Chief Financial Officer and Treasurer evaluated the effectiveness of the Company's disclosure controls as of the end of the period covered in this report. Based upon that evaluation, the Company's Chief Executive Officer and Chairman of the Board, President and Chief Operating Officer and Executive Vice President, Chief Financial Officer and Treasurer, have concluded that as of the end of such period, the Company's disclosure controls and procedures are effective.

Management's Annual Report on Internal Control Over Financial Reporting

Gibraltar's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of management, including Gibraltar's Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, Gibraltar conducted an evaluation of the effectiveness of internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on Gibraltar's evaluation, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2006.

The Company completed an acquisition during 2006 that was excluded from the Company's Management's Annual Report on Internal Controls Over Financial Reporting as of December 31, 2006. On November 1, 2006, the Company acquired The Expanded Metal Company Limited and Sorst Streckmetell GmbH, which is included in the Company's consolidated financial statements and constituted \$63.7 million and \$47.0 million of total and net assets, respectively, as of December 31, 2006 and \$10.4 million and \$0.2 million of revenue and net income, respectively, for the year then ended.

Management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2006 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is included in Item 9A herein.

Report of Ernst & Young LLP, Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of Gibraltar Industries, Inc.

We have audited management's assessment, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting, that Gibraltar Industries, Inc. maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Gibraltar Industries Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Management's Annual Report on Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of The Expanded Metal Company Limited acquired on November 1, 2006 and Sorst Streckmetall GmbH acquired on November 1, 2006, which are included in the 2006 consolidated financial statements of Gibraltar Industries, Inc. and constituted (in 000's) \$63,658 and \$46,964 of total and net assets, respectively, as of December 31, 2006 and \$10,355 and \$226 of net sales and net income, respectively, for the year then ended. Our audit of internal control over financial reporting of Gibraltar Industries, Inc. also did not include an evaluation of the internal control over financial reporting of The Expanded Metal Company Limited acquired on November 1, 2006 and Sorst Streckmetall GmbH acquired on November 1, 2006.

In our opinion, management's assessment that Gibraltar Industries, Inc. maintained effective internal control over financial reporting as of December 31, 2006 is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, Gibraltar Industries, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on the COSO criteria.

Table of Contents

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Gibraltar Industries, Inc. as of December 31, 2006 and 2005, and the related consolidated statements of income, shareholders' equity and comprehensive income, and cash flows for each of the two years in the period ended December 31, 2006 of Gibraltar Industries, Inc. and our report dated March 1, 2007 expressed an unqualified opinion thereon.
