G&K SERVICES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(Amounts in millions, except per share data)
Three and six month periods ended December 27, 2008 and December 29, 2007
(Unaudited)

1. Basis of Presentation for Interim Financial Statements

The consolidated condensed financial statements included herein, except for the June 28, 2008 balance sheet which was derived from the audited consolidated financial statements for the fiscal year ended June 28, 2008, have been prepared by us, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. In our opinion, the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly our financial position as of December 27, 2008, and the results of our operations for the three and six months ended and our cash flows for the six months ended December 27, 2008 and December 29, 2007. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although we believe that the disclosures herein are adequate to make the information presented not misleading. It is suggested that these consolidated condensed financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in our latest report on Form 10-K.

The results of operations for the three and six month periods ended December 27, 2008 and December 29, 2007 are not necessarily indicative of the results to be expected for the full year.

The accounting policies we follow are set forth in Note 1 in our Annual Report on Form 10-K for the fiscal year ended June 28, 2008.

Reclassifications

In the fourth quarter of fiscal year ended June 28, 2008, we reclassified certain amounts in the Consolidated Statements of Operations. The line items impacted were cost of rental operations, cost of direct sales, selling and administrative, and depreciation and amortization. Depreciation expense is included in the cost of rental operations, cost of direct sales, and selling and administrative line items. Amortization expense is included in selling and administrative. In addition, certain amounts related to production and manufacturing previously classified as cost of direct sales and selling and administrative expenses were reclassified to cost of rental operations.

As a result of the reclassifications implemented in the fourth quarter of fiscal year 2008, the results for the second quarter of fiscal year 2008 were reclassified to conform with the current year presentation. These reclassifications had no impact on our previously reported income from operations, net income, cash flows or the basic and diluted earnings per share amounts or beginning retained earnings.

Table of Contents

The following table summarizes the changes to originally reported amounts and subtotals in the Consolidated Condensed Statement of Operations for the three months ended December 29, 2007.

	For the Three Months Ended December 29, 2007		
	As Previously Reported	Reclassifications	As Reclassified
Operating Expenses			
Cost of rental operations	\$148.0	\$ 8.6	\$ 156.6
Cost of direct sales	16.5	(0.2)	16.3
Selling and administration	54.6	4.0	58.6
Depreciation and amortization	12.4	(12.4)	
Total operating expenses	\$231.5	\$	\$ 231.5

The following table summarizes the changes to originally reported amounts and subtotals in the Consolidated Condensed Statement of Operations for the six months ended December 29, 2007.

	For the Six Months Ended December 29, 2007		
	As Previously Reported	Reclassifications	As Reclassified
Operating Expenses			
Cost of rental operations	\$291.1	\$ 17.3	\$ 308.4
Cost of direct sales	29.2	(0.1)	29.1
Selling and administration	106.8	7.2	114.0
Depreciation and amortization	24.4	(24.4)	
Total operating expenses	\$451.5	\$	\$ 451.5

The following table summarizes the changes to originally reported amounts and subtotals in the Consolidated Condensed Statement of Cash Flows for the six months ended December 29, 2007.

	For the Six Months Ended December 29, 2007		
	As Previously Reported	Reclassifications	As Reclassified
Operating Activities:			
Depreciation and amortization	\$24.4	\$ (0.9)	\$ 23.5
Other assets and liabilities	3.3	0.9	4.2

Net cash provided by operating activities	\$43.5	\$	\$ 43.5
---	--------	----	---------

2. Contingent Liabilities

Environmental matters

We are currently involved in several environmental-related proceedings by certain governmental agencies. We have recently resolved two of these proceedings and have paid the negotiated penalties in these two actions. In addition to these proceedings, we continue to experience increased activity around the area of overall environmental compliance, including inspections by regulatory agencies. We continue to dedicate substantial operational and financial resources to environmental compliance, and we remain fully committed to operating in compliance with all environmental laws and regulations. During the first quarter of fiscal year 2009, as a result of this increased activity, we decided to enhance our oversight by engaging a recognized international environmental consulting firm to conduct reviews of all of our production facilities. By hiring experts in this complex area, we expect to gain additional assurance with

7

Table of Contents

respect to our environmental compliance. As of December 27, 2008, we have substantially completed these inspections and, where required, are undertaking appropriate corrective actions. Based on the results of the regulatory agency inspections, internal reviews and other available information, for the quarter ended December 27, 2008, we have established reserves for environmental matters of approximately \$4.2 million. Total expense for these matters was \$3.9 million and \$0.2 million in the first quarter and second quarter of fiscal 2009, respectively.

Compensation Matters

As a result of recent changes to prevailing compensation laws, we determined that it is probable that we will be required to pay additional compensation to certain affected employees for services previously rendered. While rulemaking regarding this law remains ongoing, in an effort to estimate the amount, we have conducted extensive financial analysis and have inspected available historical records. We have established a reserve of approximately \$3.3 million for this liability, which we believe is sufficient to resolve this matter. This amount was recorded in the cost of rental line of the Consolidated Condensed Statement of Operations in the first quarter of fiscal year 2009. We do not expect this change in compensation law to materially impact our ongoing operations as we are in the process of implementing operational changes to correct the issue.

3. Adoption of New Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157). This statement provides a definition of fair value, provides guidance for measuring fair value in U.S. GAAP and expands disclosures about fair value measurement. We adopted SFAS No. 157 at the beginning of the quarter ended September 27, 2008. Our adoption did not impact our consolidated financial position or results of operations. See Note 4 of the consolidated condensed financial statements for additional disclosures. In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS No. 159). This statement permits companies to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. We adopted SFAS No. 159 at the beginning of the quarter ended September 27, 2008, and did not elect the fair value option for eligible items that existed at the date of adoption.

Accounting Pronouncements Not Yet Adopted

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS No. 161). This statement establishes enhanced disclosures about derivative and hedging activities. This statement is effective for fiscal years and interim periods beginning after November 15, 2008. Adoption of SFAS No. 161 will result in enhanced disclosure regarding our derivatives.

In December 2007, the FASB issued SFAS No. 141(r), Business Combinations (SFAS No. 141 (r)). This statement replaces SFAS No. 141, Business Combinations. This statement retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (which SFAS No. 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. This statement also establishes principles and requirements

for how the acquirer: a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(r) will apply prospectively to business combinations that are consummated after June 27, 2009.

We do not believe SFAS 161 and SFAS 141(r) will have a material impact on our consolidated financial statements.

Table of Contents**4. Fair Value Measurements**

As discussed in Note 3, we adopted SFAS No. 157 at the beginning of the quarter ended September 27, 2008, subject to the deferral provisions of FSP No. 157-2, on June 29, 2008. This standard defines fair value, establishes a framework for measuring fair value and expands disclosure requirements about fair value measurements. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. We considered non-performance risk when determining fair value of our derivative financial instruments. The fair value hierarchy prescribed by SFAS No. 157 contains three levels as follows:

Level 1 Unadjusted quoted prices that are available in active markets for the identical assets or liabilities at the measurement date.

Level 2 Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in non-active markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

The following table summarizes the balances of assets and liabilities measured at fair value on a recurring basis:

	As of December 27, 2008		
	Fair Value Measurements Using Inputs Considered as		
	Level 1	Level 2	Total
Other assets:			
Non-qualified, non-contributory retirement plan assets	\$	\$ 8.6	\$ 8.6
Non-qualified deferred compensation plan assets	13.7		13.7
Total assets	\$13.7	\$ 8.6	\$22.3
Accrued expenses:			
Derivative financial instruments	\$	\$12.8	\$12.8
Total liabilities	\$	\$12.8	\$12.8

5. Exit, Disposal and Related Activities

In the first quarter of fiscal year 2009, we closed three processing plants, two branch locations, reduced selected headcount and outsourced our fleet maintenance function. We expect all payments associated with these actions to be completed by September 30, 2009.

We recorded approximately \$2.6 million of expense in the Consolidated Condensed Statement of Operations during the first quarter of fiscal year 2009. These charges principally impacted our United States operating segment. Of these amounts, approximately \$1.0 million was recorded in the cost of rental operations line item and the remaining \$1.6 million was recorded in the selling and administrative line item.

Table of Contents**6. Income Taxes**

Our fiscal 2009 year to date effective tax rate increased to 48.9% for the first six months of fiscal year 2009 from 37.4% in the same period of fiscal year 2008. The current year tax rate is significantly higher than our statutory rate primarily due to the non-deductibility of certain environmental related charges and the write-off of deferred tax assets associated with certain expiring stock options in the first quarter of fiscal 2009. Together, these two items increased the current year to date effective tax rate by 9.0%.

7. Per Share Data

Basic earnings per common share was computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share was computed similarly to the computation of basic earnings per share, except that the denominator is increased for the assumed exercise of dilutive options and other dilutive securities, including non-vested restricted stock, using the treasury stock method.

	Three Months Ended		Six Months Ended	
	December	December	December	December
	27,	29,	27,	29,
	2008	2007	2008	2007
Weighted average number of common shares outstanding used in computation of basic earnings per share	18.5	20.6	18.6	20.9
Weighted average effect of non-vested restricted stock grants and assumed exercise of options		0.2		0.2
Shares used in computation of diluted earnings per share	18.5	20.8	18.6	21.1

Potential common shares related to our outstanding stock options and restricted stock grants of 2.1 million and 1.0 million for the three months ended December 27, 2008 and December 29, 2007, respectively, and 1.6 million and 0.7 million for the six months ended December 27, 2008 and December 29, 2007, respectively, were excluded from the computation of diluted earnings per share. Inclusion of these shares would have been anti-dilutive as the exercise price of these shares exceeded their market value.

8. Comprehensive Income

For the three and six month periods ended December 27, 2008 and December 29, 2007, the components of comprehensive income were as follows:

	Three Months Ended		Six Months Ended	
	December	December	December	December
	27,	29,	27,	29,
	2008	2007	2008	2007
Net income	\$ 9.5	\$ 12.4	\$ 11.0	\$ 24.8

Edgar Filing: G&K SERVICES INC - Form 10-Q

Other comprehensive income:

Foreign currency translation adjustments, net of tax	(22.3)	2.6	(25.6)	12.6
Net unrealized holding gain (loss) on derivative financial instruments, net of tax	(7.1)	(0.8)	(8.2)	(2.0)
Comprehensive (loss) income	\$ (19.9)	\$ 14.2	\$ (22.8)	\$ 35.4

10

Table of Contents**9. Inventories**

The components of inventory as of December 27, 2008 and June 28, 2008 are as follows:

	December 27, 2008	June 28, 2008
Raw Materials	\$ 7.7	\$ 5.3
Work in Process	6.1	4.7
Finished Goods	64.1	50.9
New Goods	\$ 77.9	\$ 60.9
Merchandise in Service	\$ 74.2	\$ 81.4
Total Inventories	\$ 152.1	\$ 142.3

10. Goodwill and Intangible Assets

The carrying value of goodwill is evaluated on an annual basis and also when events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit to which goodwill is assigned below its carrying amount. When evaluating whether goodwill is impaired, the fair value of the reporting unit to which goodwill is assigned is compared to its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds its fair value, then the amount of the impairment loss must be measured. The impairment loss would be calculated by comparing the implied fair value of the goodwill with its carrying amount. In calculating the implied fair value of goodwill, the fair value of the reporting unit is allocated to all of the other assets and liabilities of that unit based on their fair values. The excess of the fair value of a reporting unit over the amount assigned to its other assets and liabilities is the implied fair value of goodwill. Our last annual impairment analysis was performed in the fourth quarter of fiscal year 2008, which indicated that the estimated fair value of each reporting unit exceeded its carrying amount, including recorded goodwill. As a result, no impairment existed at that time.

During the second quarter of fiscal year 2009, there was a significant deterioration in general economic conditions and in the market value of our stock. The resulting decline in our market capitalization prompted us to conduct a goodwill analysis to determine if an impairment of goodwill existed as of December 27, 2008. Our analysis evaluated the estimated fair value of each reporting unit relative to the net book value. We prepared a discounted cash flow model to estimate fair value, which validated the reasonableness of the estimated market value plus a control premium. As a result of this analysis no impairment was recorded as of December 27, 2008.

While we cannot predict the impact of future economic conditions or the market value of our stock, continued depressed economic conditions and/or a sustained decline in our market capitalization could negatively and materially impact our assumptions and assessment of the fair value of our business. If general economic conditions or our financial performance do not improve we may be required to record a goodwill impairment charge in the future which may materially impact our financial results. We do not believe a future goodwill impairment charge, if any, will impact compliance with the debt covenants associated with our various credit facilities.

Goodwill includes the following:

	United States	Canada	Total
Balance as of June 28, 2008	\$ 367.5	\$ 67.4	\$ 434.9
Acquisitions, net of purchase accounting adjustments	(0.2)		(0.2)
Foreign currency translation and other	(0.2)	(10.5)	(10.7)
Balance as of December 27, 2008	\$ 367.1	\$ 56.9	\$ 424.0

11

Table of Contents

Our other intangible assets, which are included in other assets on the consolidated condensed balance sheet, are as follows:

	December 27, 2008	June 28, 2008
Other Intangible Assets:		
Customer Contracts	\$ 116.5	\$ 119.4
Accumulated Amortization	(81.2)	(79.5)
Net	\$ 35.3	\$ 39.9
Non-Competition Agreements	\$ 11.0	\$ 11.1
Accumulated Amortization	(10.1)	(10.0)
Net	\$ 0.9	\$ 1.1

The customer contracts include the combined value of the written service agreements and the related customer relationship.

Amortization expense was \$3.8 million and \$5.6 million for the six months ended December 27, 2008 and December 29, 2007, respectively. Estimated amortization expense for each of the next five fiscal years based on the intangible assets as of December 27, 2008 is as follows:

2009 remaining	\$3.6
2010	7.3
2011	6.6
2012	5.8
2013	4.3
2014	2.9

11. Long-Term Debt

We maintain a revolving credit facility of \$325.0 million expiring August 31, 2010. As of December 27, 2008, borrowings outstanding under the revolving credit facility were \$170.2 million at rates ranging from 0.55% to 1.50% over the London Interbank Offered Rate (LIBOR). Borrowings under this facility are unsecured. The unused portion of the revolver may be used for general corporate purposes, acquisitions, share repurchases, working capital needs and to provide up to \$50.0 million in letters of credit. As of December 27, 2008, letters of credit outstanding against the revolver were \$20.8 million and primarily relate to our property and casualty insurance programs. No amounts have been drawn upon these letters of credit.

Borrowings under the revolving credit facility bear interest at 0.55% to 1.50% over the LIBOR, or the Canadian prime rate for Canadian borrowings, based on a leverage ratio calculated on a quarterly basis. Advances outstanding as of December 27, 2008 bear interest at an all-in rate of 3.86% (LIBOR plus 0.88%) for the Eurodollar loans and an all-in rate of 3.25% (Lender Prime Rate) for overnight Swing-Line loans. We also pay a fee on the unused daily balance of the revolving credit facility based on a leverage ratio calculated on a quarterly

basis.

We have \$75.0 million of variable rate unsecured private placement notes. The notes bear interest at 0.60% over LIBOR and are scheduled to mature on June 30, 2015. The notes do not require principal payments until maturity. Interest payments are reset and paid on a quarterly basis. As of December 27, 2008, the outstanding balance of the notes was \$75.0 million at an all-in rate of 4.36% (LIBOR plus 0.60%).

12

Table of Contents

We maintain a loan agreement whereby the lender will make loans to us on a revolving basis up to a maximum of \$60.0 million. The amount of funds available under the loan agreement as of December 27, 2008 was \$53.1 million, which was the amount of eligible receivables less a reserve requirement. The agreement was originally scheduled to terminate October 21, 2010 but was renegotiated in October 2008 and is now scheduled to terminate on September 27, 2011. We are required to pay interest on outstanding loan balances at a rate per annum of one month LIBOR plus a margin or, if the lender is funding the loan through the issuance of commercial paper to third parties, at a rate per annum equal to a margin plus the average annual interest rate for such commercial paper. In connection with the loan agreement, we granted a first priority security interest in certain of our U.S. based receivables. At December 27, 2008, the outstanding balance under this loan agreement was \$25.0 million at an all-in rate of 1.10% (commercial paper plus 0.85%). We are also required to pay a fee on the unused balance of the facility.

We have \$50.0 million, 8.4% unsecured fixed rate private placement notes with certain institutional investors. The 10-year notes have a nine-year average life with a final maturity on July 20, 2010. Beginning on July 20, 2004, and annually thereafter to maturity, we will repay \$7.1 million of the principal amount at par. As of December 27, 2008, there was \$14.3 million outstanding under the notes.

12. Share-Based Compensation

We grant share-based awards, including restricted stock and options to purchase our common stock. Stock option grants are for a fixed number of shares to employees and directors with an exercise price equal to the fair value of the shares at the date of grant. Share-based compensation for awards is recognized in the Consolidated Condensed Statements of Operations on a straight-line basis over the requisite service period. The amortization of share-based compensation reflects estimated forfeitures adjusted for actual forfeiture experiences. We review our estimated forfeiture rates on an annual basis. As share-based compensation expense is recognized, a deferred tax asset is recorded that represents an estimate of the future tax deduction from the exercise of stock options or release of restrictions on the restricted stock. At the time share-based awards are exercised, cancelled, expire or restrictions lapse, we recognize adjustments to income tax expense. Total compensation expense related to share-based awards was \$1.7 million and \$1.5 million for the three months ended and \$3.3 million and \$2.6 million for the six months ended December 27, 2008 and December 29, 2007. The number of options that have been exercised and restricted stock that vested since June 28, 2008, was 0.1 million shares.

13. Employee Benefit Plans

On December 31, 2006, we froze our pension and supplemental executive retirement plans. The net periodic pension cost for these plans for the three and six months ended December 27, 2008 was \$0.1 million and \$0.3 million, respectively. The net periodic pension income for these plans for the three months ended December 29, 2007, was \$0.1 million and the net periodic pension cost for these plans for the six months ended December 29, 2007, was \$0.2 million. In addition, the components of net periodic pension cost for these plans are immaterial for the three and six months ended December 27, 2008 and December 29, 2007.

14. Segment Information

We have two operating segments, United States (includes the Dominican Republic and Ireland Operations) and Canada, which have been identified as components of our organization that are reviewed by our Chief Executive Officer to determine resource allocation and evaluate performance. Each operating segment derives revenues from the branded identity apparel and facility services industry, which includes rental of garments, direct purchase items and non-apparel items such as floor mats, dust mops, wiping towels, selected linen items and restroom products. No single customer's transactions accounted for more than 1.5% of our revenues. Substantially

all of our customers are in the United States or Canada.

Income from operations includes the impact of an intercompany management fee which is self-eliminated in the total income from operations below. As a result of a formal transfer pricing study conducted at the end of fiscal year 2008, this intercompany management fee was increased to 5.4% of Canadian revenue. The management fee was 5.4% for the three and six months ended December 27, 2008 and 1.1% for the same periods in the prior fiscal year.

13

Table of Contents

We evaluate performance based on income from operations. Financial information by segment for the three and six month periods ended December 27, 2008 and December 29, 2007 is as follows:

For the Three Months Ended	United States	Canada	Total
Second Quarter Fiscal Year 2009:			
Revenues	\$ 205.4	\$ 36.4	\$ 241.8
Income from operations	15.4	4.1	19.5
Depreciation and amortization expense	9.9	1.4	11.3
Second Quarter Fiscal Year 2008:			
Revenues	\$ 208.3	\$ 47.0	\$ 255.3
Income from operations	15.9	7.8	23.7
Depreciation and amortization expense	10.1	1.9	12.0
For the Six Months Ended	United States	Canada	Total
Fiscal Year 2009:			
Revenues	\$ 408.8	\$ 78.2	\$ 487.0
Income from operations	21.0	7.9	28.9
Depreciation and amortization expense	19.7	3.0	22.7
Fiscal Year 2008:			
Revenues	\$ 408.6	\$ 90.5	\$ 499.1
Income from operations	30.4	17.2	47.6
Depreciation and amortization expense	19.9	3.6	23.5

For the three months ended December 29, 2007, the Canada segment results were negatively impacted by \$0.9 million, resulting from a fire at a production facility. These expenses included our insurance deductible, estimated unrecoverable expenses incurred and associated partial impairment of our customer intangible assets.

For the six months ended December 29, 2007, the Canada segment results were positively impacted by \$0.7 million, resulting from the net effect of a gain on the sale of property, offset by the expenses associated with the fire noted above. The net Canadian impact was offset by expenses in our United States segment during the six months ended December 29, 2007, which included severance associated with the realignment of our manufacturing operations and certain management positions, an increase in our inventory reserves and expenses associated with certain legal matters all of which occurred in the first quarter of fiscal 2008. The net effect of these items on the United States segment was approximately \$1.7 million of expense for the six months ended December 29, 2007.

15. Stock Repurchase

In May 2008, we announced the authorization to expand our share repurchase program from \$100.0 million to \$175.0 million, which increased the share repurchase program previously approved by our Board of Directors in May 2007. For the three months ended December 27, 2008, we repurchased 454,168 shares totaling \$10.0 million and for the three months ended December 29, 2007, we repurchased 913,185 shares totaling \$36.0 million. For the six months ended December 27, 2008, we repurchased 650,387 shares totaling \$16.1 million and for the six months ended December 29, 2007, we repurchased 1,170,485 shares totaling \$46.2 million. As of December 27,

2008, we had \$57.8 million remaining under this authorization.

Restricted Stock Unit Withholdings

14

Table of Contents

We issue restricted stock units as part of our equity incentive plans. For the majority of the restricted stock units granted, the number of shares issued on vesting date is net of the minimum statutory withholding requirements that we pay in cash to the appropriate taxing authorities on behalf of our employees. Although shares withheld are not issued, they are treated as common stock repurchases in our financial statements, as they reduce the number of shares that would have been issued upon vesting.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Unaudited)

Overview

G&K Services, Inc., founded in 1902 and headquartered in Minnetonka, Minnesota, is a market leader in providing branded identity apparel and facility services programs that enhance image and safety in the workplace. We serve a wide variety of North American industrial, service and high-technology companies providing them with rented uniforms and facility services products such as floor mats, dust mops, wiping towels, restroom supplies and selected linen items. We also sell uniforms and other apparel items to customers in our direct sale programs. The North American rental market is approximately \$7.0 billion, while the portion of the direct sale market targeted by us is approximately \$5.0 billion.

Our industry continues to consolidate from many family owned and small local providers to several large providers. We are participating in this industry consolidation. Our rental acquisition strategy is focused on acquisitions in the rental and direct purchase businesses that expand our geographic presence and/or expand our local market share and further leverage our existing production facilities.

In the second quarter of fiscal 2009, there was a significant deterioration in economic conditions, continuing turmoil in the credit markets and a significant decrease in the employment levels of our customers which had a negative impact on our business. We believe we are taking appropriate steps to adapt to the changing economic conditions. However, if these economic trends continue, or if we fail to execute our plan, our financial performance could be materially impacted.

Critical Accounting Policies

The discussion of the financial condition and results of operations are based upon the consolidated condensed financial statements, which have been prepared in conformity with United States generally accepted accounting principles. As such, management is required to make certain estimates, judgments and assumptions that are believed to be reasonable based on the information available. These estimates and assumptions affect the reported amount of assets and liabilities, revenues and expenses, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates under different assumptions or conditions. Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, the most important and pervasive accounting policies used and areas most sensitive to material changes from external factors. See Note 1 to the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended June 28, 2008 for additional discussion of the application of these and other accounting policies.

Goodwill and Other Intangibles Assets

The carrying value of goodwill is evaluated on an annual basis and also when events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit to which goodwill is assigned below its carrying amount. When evaluating whether goodwill is impaired, the fair value of the reporting unit to which goodwill is assigned is compared to its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds its fair value, then the amount of the impairment loss must be measured. The impairment loss would be calculated by comparing the implied fair value of the goodwill with its carrying amount. In calculating the implied fair value of goodwill, the fair value of the reporting unit is allocated to all of the other assets and liabilities of that unit based on their fair values. The excess of the fair value of a reporting unit over the amount assigned to its other assets and liabilities is the implied fair value of goodwill. Our last annual impairment analysis was performed in the fourth quarter of fiscal year 2008, which indicated that the estimated fair value of each reporting unit exceeded its carrying amount, including recorded goodwill. As a result, no impairment existed at that time.

Table of Contents

During the second quarter of fiscal year 2009, there was a significant deterioration in general economic conditions and in the market value of our stock. The resulting decline in our market capitalization prompted us to conduct a goodwill analysis to determine if an impairment of goodwill existed as of December 27, 2008. Our analysis evaluated the estimated fair value of each reporting unit relative to the net book value. We prepared a discounted cash flow model to estimate fair value, which validated the reasonableness of the estimated market value plus a control premium. As a result of this analysis no impairment was recorded as of December 27, 2008.

While we cannot predict the impact of future economic conditions or the market value of our stock, continued depressed economic conditions and/or a sustained decline in our market capitalization could negatively and materially impact our assumptions and assessment of the fair value of our business. If general economic conditions or our financial performance do not improve we may be required to record a goodwill impairment charge in the future which may materially impact our financial results. We do not believe a future goodwill impairment charge, if any, will impact compliance with the debt covenants associated with our various credit facilities.

Results of Operations

The percentage relationships to revenues of certain income and expense items for the three and six month periods ended December 27, 2008 and December 29, 2007, and the percentage changes in these income and expense items between periods are presented in the following table:

	Three Months Ended		Six Months Ended		Percentage Change	
	December 27, 2008	December 29, 2007	December 27, 2008	December 29, 2007	Three Months FY 2009 vs. FY 2008	Six Months FY 2009 vs. FY 2008
Revenues:						
Rental operations	91.5%	91.0%	92.5%	91.8%	(4.7)%	(1.7)%
Direct sales	8.5	9.0	7.5	8.2	(10.9)	(10.1)
Total revenues	100.0	100.0	100.0	100.0	(5.3)	(2.4)
Expenses:						
Cost of rental operations	68.7	67.5	69.7	67.3	(2.9)	1.8
Cost of direct sales	74.1	70.8	74.5	71.3	(6.8)	(6.1)
Total cost of sales	69.2	67.8	70.1	67.6	(3.3)	1.1
Selling and administrative	22.7	22.9	24.0	22.9	(6.1)	2.5
Income from operations	8.1	9.3	5.9	9.5	(17.8)	(39.2)
Interest expense	1.6	1.6	1.5	1.6	(4.2)	(6.7)
Income before income taxes	6.5	7.7	4.4	7.9	(20.5)	(45.7)
Provision for income taxes	2.5	2.8	2.2	2.9	(15.8)	(29.0)
Net income	3.9%	4.9%	2.3%	5.0%	(23.3)%	(55.7)%

Three months ended December 27, 2008 compared to three months ended December 29, 2007

Revenues. Total revenue in the second quarter of fiscal 2009 decreased 5.3% to \$241.8 million from \$255.3 million in the second quarter of fiscal 2008.

Rental revenue decreased \$11.0 million, or 4.7% in the second quarter of fiscal 2009 compared to the same period of the prior fiscal year. Our organic rental revenue was approximately negative 2.0% compared to a positive 3.75% in the same period of the prior fiscal year. Our organic rental growth was negatively impacted by economic-driven customer attrition, reduced customer employment levels and lower new account sales due to difficult economic conditions. The organic rental revenue is calculated using rental revenue, adjusted for foreign currency exchange rate changes and revenue from newly acquired

Table of Contents

businesses compared to prior-period results. We believe that the organic rental revenue reflects the growth of our existing rental business and is therefore useful in analyzing our financial condition and results of operations. In addition, revenue decreased approximately 3.1% compared to the prior year due to the unfavorable impact of foreign currency translation rates with Canada. The decreases were partially offset by increased revenues driven by acquisitions.

Direct sale revenue decreased 10.9% to \$20.5 million in the second quarter of fiscal 2009 compared to \$23.1 million in the same period of fiscal 2008. The organic direct sale growth rate during the current period was a negative 9.8%. The decrease in direct sale revenue was due to the non-renewal of a contract with a major customer in the second half of fiscal year 2008 and a decrease in demand due to economic conditions, partially offset by increased revenues from the rollout of an apparel program to a major airline industry customer.

Cost of Rental. Cost of rental operations decreased 2.9% to \$152.0 million in the second quarter of fiscal 2009 from \$156.6 million in the same period of fiscal 2008. As a percentage of rental revenue, our gross margin from rental sales decreased to 31.3% in the second quarter of fiscal 2009 from 32.5% in the same period of fiscal 2008. The decrease in rental gross margin was a result of increased production, health and energy costs as well as the effect of fixed cost absorption on lower revenue levels.

Cost of Direct Sales. Cost of direct sales decreased to \$15.2 million in the second quarter of fiscal 2009 from \$16.3 million in the same period of fiscal 2008. Gross margin from direct sales decreased to 25.9% in the second quarter of fiscal 2009 from 29.2% in the second quarter of fiscal 2008. The decrease in gross margin is primarily the result of higher merchandise costs, increased benefit costs as well as a lower revenue base to absorb fixed costs.

Selling and Administrative. Selling and administrative expenses decreased 6.1% to \$55.0 million in the second quarter of fiscal 2009 from \$58.6 million in the same period of fiscal 2008. As a percentage of total revenues, selling and administrative expenses decreased to 22.7% in the second quarter of fiscal 2009 from 22.9% in the second quarter of fiscal 2008. The decrease is primarily the result of certain expense reduction initiatives and lower incentive based compensation expense, partially offset by higher bad debt expense, foreign currency transaction costs and higher benefit costs.

Interest Expense. Interest expense was \$3.8 million in the second quarter of fiscal 2009, down from \$4.0 million in the same period of fiscal 2008. The decrease in interest expense is primarily the result of lower average interest rates partially offset by higher average debt balances.

Provision for Income Taxes. Our effective tax rate increased to 39.2% in the second quarter of fiscal 2009 from 37.0% in the same period of fiscal 2008. The prior period tax rate was lower primarily due to the enactment of a federal tax rate reduction in Canada during the three months ended December 29, 2007.

Six months ended December 27, 2008 compared to six months ended December 29, 2007

Revenues. Total revenue for the first six months of fiscal 2009 decreased 2.4% to \$487.0 million compared to \$499.1 million for the same period in the prior fiscal year.

Rental revenue decreased \$7.9 million, or 1.7% in the first six months. Our organic rental revenue was negative 1.0% in 2009 compared to approximately positive 3.5% in 2008. Current year organic rental growth was negatively impacted by economic-driven customer attrition, reduced employment levels and lower new account sales due to difficult economic conditions. In addition, revenue decreased approximately 1.5% compared to the prior year due to the unfavorable impact of foreign currency translation rates with Canada. The decreases were partially offset by increased revenues driven by acquisitions.

Direct sale revenue decreased 10.1% to \$36.7 million in the first six months of fiscal 2009 compared to \$40.8 million in the same period of fiscal 2008. The organic direct sale growth rate during the current period was a negative 10.0%. The decrease in direct sale revenue was due to the non-renewal of a contract with a major customer in the second half of fiscal year 2008 and a decrease in demand due to economic conditions, partially offset by increased revenues from the rollout of an apparel program to a major airline industry customer.

Cost of Rental. Cost of rental operations increased 1.8% to \$313.9 million in the first six months of fiscal 2009 from \$308.4 million in the same period of fiscal 2008. As a percentage of rental revenue, our gross margin from rental sales decreased to 30.3% in the first six months of fiscal 2009 from 32.7% in the same period of fiscal 2008. The decrease in rental gross margin was a result of additional costs in fiscal 2009 associated with a recent change in a compensation

law of \$3.3 million, a charge

17

Table of Contents

of \$1.0 million associated with expense reduction actions in the first quarter of fiscal 2009, increased production, health and energy costs.

Cost of Direct Sales. Cost of direct sales decreased to \$27.3 million in the first six months of fiscal 2009 from \$29.1 million in the same period of fiscal 2008. Gross margin from direct sales decreased to 25.5% in the first six months of fiscal 2009 from 28.7% in the same period of fiscal 2008. The decrease in gross margin is primarily the result of increased merchandise, freight, and health costs and the impact of fixed cost absorption associated with lower direct sales volume.

Selling and Administrative. Selling and administrative expenses increased 2.5% to \$116.9 million in the first six months of fiscal 2009 from \$114.0 million in the same period of fiscal 2008. As a percentage of total revenues, selling and administrative expenses increased to 24.0% in the first six months of fiscal 2009 from 22.9% in the same period of fiscal 2008. The increase is primarily the result of \$4.5 million of expense associated with certain environmental reserves and related expenses, approximately \$1.6 million primarily related to severance, increased bad debt expense and unfavorable foreign currency transaction costs. These increases were partially offset by cost reduction efforts and lower incentive based compensation expense.

Interest Expense. Interest expense was \$7.4 million in the first six months of fiscal 2009, down from \$7.9 million in the same period of fiscal 2008. The decrease in interest expense is primarily the result of lower interest rates in fiscal year 2009 compared to prior year, offset by higher average debt balance.

Provision for Income Taxes. Our effective tax rate increased to 48.9% in the first six months of fiscal 2009 from 37.4% in the same period of fiscal 2008. The current year tax rate is significantly higher than our statutory rate primarily due to the non-deductibility of certain environmental related charges and the write-off of deferred tax assets associated with certain expiring stock options in the first quarter of fiscal 2009. Together, these items accounted for an increase in the current year to date effective tax rate of 9.0%.

Liquidity, Capital Resources and Financial Condition

Our primary sources of cash are net cash flows from operations and borrowings under our debt arrangements. Primary uses of cash are interest payments on indebtedness, capital expenditures, acquisitions, share repurchases and general corporate purposes.

Working capital at December 27, 2008 was \$153.6 million, down approximately 9.3% from \$169.3 million at June 28, 2008. The decrease in working capital was primarily due to the repurchase of company stock, repayment of long-term debt and capital expenditures.

Operating Activities. Net cash provided by operating activities was \$37.5 million in the first six months of fiscal 2009 and \$43.5 million in the same period of fiscal 2008. Cash generated from operating activities decreased primarily due to increased expenditures on inventory and lower net income, offset by an increase in collections of accounts receivable.

Investing Activities. Net cash used in investing activities was \$13.8 million in the first six months of fiscal 2009 and \$55.6 million in the same period of fiscal 2008. There were no acquisitions in fiscal year 2009, as a result, cash used in investing activities decreased when compared to the same period in the prior fiscal year. In fiscal 2009, cash was used primarily for purchases of property, plant and equipment. In fiscal 2008, cash was used primarily for acquisition of business assets and purchases of property, plant and equipment.

Financing Activities. Cash used for financing activities was \$21.8 million in the first six months of fiscal 2009 and cash provided by financing activities was \$3.8 million in the same period of fiscal 2008. Cash used for financing activities in fiscal 2009 was primarily due to lower borrowings on our revolving credit facilities partially offset by lower cash expenditures for share repurchases. Cash provided by financing activities in fiscal 2008 was principally from our credit facilities and the proceeds were partially offset by cash expenditures for our share repurchase program. We paid dividends of \$2.6 million during the first six months of fiscal 2009, compared to \$2.1 million in fiscal 2008. We maintain a revolving credit facility of \$325.0 million expiring August 31, 2010. As of December 27, 2008, borrowings outstanding under the revolving credit facility were \$170.2 million at rates ranging from 0.55% to 1.50% over the London Interbank Offered Rate (LIBOR). Borrowings under this facility are unsecured. The unused portion of the revolver may be used for general corporate purposes, acquisitions, share repurchases, working capital needs and to provide up to \$50.0 million

Table of Contents

in letters of credit. As of December 27, 2008, letters of credit outstanding against the revolver were \$20.8 million and primarily relate to our property and casualty insurance programs. No amounts have been drawn upon these letters of credit.

Borrowings under the revolving credit facility bear interest at 0.55% to 1.50% over the LIBOR, or the Canadian prime rate for Canadian borrowings, based on a leverage ratio calculated on a quarterly basis. Advances outstanding as of December 27, 2008 bear interest at an all-in rate of 3.86% (LIBOR plus 0.88%) for the Eurodollar loans and an all-in rate of 3.25% (Lender Prime Rate) for overnight Swing-Line loans. We also pay a fee on the unused daily balance of the revolving credit facility based on a leverage ratio calculated on a quarterly basis.

We have \$75.0 million of variable rate unsecured private placement notes. The notes bear interest at 0.60% over LIBOR and are scheduled to mature on June 30, 2015. The notes do not require principal payments until maturity. Interest payments are reset and paid on a quarterly basis. As of December 27, 2008, the outstanding balance of the notes was \$75.0 million at an all-in rate of 4.36% (LIBOR plus 0.60%).

We maintain a loan agreement whereby the lender will make loans to us on a revolving basis up to a maximum of \$60.0 million. The amount of funds available under the loan agreement as of December 27, 2008 was \$53.1 million, which was the amount of eligible receivables less a reserve requirement. The agreement was originally scheduled to terminate October 21, 2010 but was renegotiated in October 2008 and is now scheduled to terminate on September 27, 2011. We are required to pay interest on outstanding loan balances at a rate per annum of one month LIBOR plus a margin or, if the lender is funding the loan through the issuance of commercial paper to third parties, at a rate per annum equal to a margin plus the average annual interest rate for such commercial paper. In connection with the loan agreement, we granted a first priority security interest in certain of our U.S. based receivables. At December 27, 2008, the outstanding balance under this loan agreement was \$25.0 million at an all-in rate of 1.10% (commercial paper plus 0.85%). We are also required to pay a fee on the unused balance of the facility.

We have \$50.0 million, 8.4% unsecured fixed rate private placement notes with certain institutional investors. The 10-year notes have a nine-year average life with a final maturity on July 20, 2010. Beginning on July 20, 2004, and annually thereafter to maturity, we will repay \$7.1 million of the principal amount at par. As of December 27, 2008, there was \$14.3 million outstanding under the notes.

Cash Obligations. Under various agreements, we are obligated to make future cash payments in fixed amounts. These include payments under the variable rate term loan and revolving credit facility, the fixed rate term loan, capital lease obligations and rent payments required under non-cancelable operating leases with initial or remaining terms in excess of one year and the payments in settlement of certain matters discussed in Part II Item 1. Legal Proceedings of this report.

At December 27, 2008, we had available cash on hand of \$13.4 million and approximately \$162.1 million of available capacity under our credit facilities (\$134.0 million under the revolving credit facility and \$28.1 million available under our asset securitization facility). We anticipate that we will generate sufficient cash flows from operations to satisfy our cash commitments and capital requirements for fiscal 2009 and to reduce the amounts outstanding under the revolving credit facility; however, we may utilize borrowings under the revolving credit facility to supplement our cash requirements from time to time. We estimate that capital expenditures in fiscal 2009 will be approximately \$25.0-\$30.0 million.

Cash generated from operations could be affected by a number of risks and uncertainties. In fiscal 2009, we may actively seek and consider acquisitions of business assets. The consummation of any acquisition could affect our liquidity profile and level of outstanding debt. We believe that our earnings and cash flows from operations, existing credit facilities and our ability to obtain additional debt or equity capital, if necessary, will be adequate to finance acquisition opportunities.

Off Balance Sheet Arrangements

We rely upon access to the capital markets, including bank financing, to provide sources of liquidity for general corporate purposes, including share repurchases. Although we believe that we will be able to maintain sufficient access to the capital markets, changes in current market conditions, deterioration in our business performance, or adverse changes in the economy could limit our access to these markets. We may access the capital markets during the remainder of fiscal 2009 dependent on our requirements and market conditions. Although we cannot predict the

availability of future funding, we do not believe that the overall credit concerns in the markets will impede our ability to access the capital markets because of our financial position.

Table of Contents

At December 27, 2008, we had \$20.8 million of stand-by letters of credit that were issued and outstanding, primarily in connection with our property and casualty insurance programs. No amounts have been drawn upon these letters of credit.

Pension Obligations

We account for our defined benefit pension plan using SFAS No. 87 Employer's Accounting for Pensions (SFAS 87) and SFAS No. 158 Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans . Under SFAS 87, pension expense is recognized on an accrual basis over employees' approximate service periods. Pension expense calculated under SFAS 87 is generally independent of funding decisions or requirements. The income we recognized for our defined benefit pension plan was \$0.1 million in the second quarter of fiscal 2009 and \$0.3 million in the same period of fiscal 2008. At June 28, 2008, the fair value of our pension plan assets totaled \$44.2 million.

Effective January 1, 2007 we have frozen our defined benefit pension plan and related supplemental executive retirement plan. Future growth in benefits will no longer occur beyond December 31, 2006.

The calculation of pension expense and the corresponding liability requires the use of a number of critical assumptions, including the expected long-term rate of return on plan assets and the assumed discount rate. Changes in these assumptions can result in different expense and liability amounts, and future actual experience can differ from these assumptions. Pension expense increases as the expected rate of return on pension plan assets decreases. At June 28, 2008, we estimated that the pension plan assets will generate a long-term rate of return of 8.0%. This rate was developed by evaluating input from our outside actuary as well as long-term inflation assumptions. The expected long-term rate of return on plan assets at June 28, 2008 is based on an allocation of equity and fixed income securities. Decreasing the expected long-term rate of return by 0.5% (from 8.0% to 7.5%) would increase our estimated 2009 pension expense by approximately \$0.2 million. Pension liability and future pension expense increase as the discount rate is reduced. We discounted future pension obligations using a rate of 7.20% at June 28, 2008. Our outside actuary determines the discount rate by creating a yield curve based on high quality bonds. Decreasing the discount rate by 0.5% (from 7.20% to 6.70%) would increase our accumulated benefit obligation at June 28, 2008 by approximately \$4.0 million.

Future changes in plan asset returns, assumed discount rates and various other factors related to the participants in our pension plan will impact our future pension expense and liabilities. We cannot predict with certainty what these factors will be in the future.

Reclassifications

In the fourth quarter of fiscal year ended June 28, 2008, we reclassified certain amounts in the Consolidated Statements of Operations. The line items impacted were cost of rental operations, cost of direct sales, selling and administrative, and depreciation and amortization. Depreciation expense is included in the cost of rental operations, cost of direct sales, and selling and administrative line items. Amortization expense is included in selling and administrative. In addition, certain amounts related to production and manufacturing previously classified as cost of direct sales and selling and administrative expenses were reclassified to cost of rental operations.

As a result of the reclassifications implemented in the fourth quarter of fiscal year 2008, the results for the second quarter of fiscal year 2008 were reclassified to conform with the current year presentation. These reclassifications had no impact on our previously reported income from operations, net income, cash flows or the basic and diluted earnings per share amounts or beginning retained earnings.

The following table summarizes the changes to originally reported amounts and subtotals in the Consolidated Condensed Statement of Operations for the three months ended December 29, 2007.

	For the Three Months Ended December 29, 2007		
	As Previously Reported	Reclassifications	As Reclassified
Operating Expenses			

Edgar Filing: G&K SERVICES INC - Form 10-Q

Cost of rental operations	\$148.0	\$ 8.6	\$ 156.6
Cost of direct sales	16.5	(0.2)	16.3
Selling and administration	54.6	4.0	58.6
Depreciation and amortization	12.4	(12.4)	
 Total operating expenses	 \$231.5	 \$	 \$ 231.5

Depreciation and amortization	\$24.4	\$ (0.9)	\$ 23.5
Other assets and liabilities	3.3	0.9	4.2
Net cash provided by operating activities	\$43.5	\$	\$ 43.5

Exit, Disposal and Related Activities

In the first quarter of fiscal year 2009, we closed three processing plants, two branch locations, reduced selected headcount and outsourced our fleet maintenance function. We expect all payments associated with these actions to be completed by September 30, 2009.

We recorded approximately \$2.6 million of expense in the Consolidated Condensed Statement of Operations during the first quarter of fiscal year 2009. These charges principally impacted our United States operating segment. Of these amounts, approximately \$1.0 million was recorded in the cost of rental operations line item and the remaining \$1.6 million was recorded in the selling and administrative line item.

Litigation

We are involved in a variety of legal actions relating to personal injury, employment, environmental and other legal matters that arise in the normal course of business. These legal actions include lawsuits that challenge the practice of charging for certain environmental services on invoices. This lawsuit was settled in fiscal year 2006 and is presently being administered. We are party to certain additional legal matters described in Part II Item 1. Legal Proceedings of this report.

While we cannot predict the outcome of these matters, currently, none of these legal actions are expected to have a material adverse effect on our results of operations or financial position.

Table of Contents***Environmental Matters***

We are currently involved in several environmental-related proceedings by certain governmental agencies. We have recently resolved two of these proceedings and have paid the negotiated penalties in these two actions. In addition to these proceedings, we continue to experience increased activity around the area of overall environmental compliance, including inspections by regulatory agencies. We continue to dedicate substantial operational and financial resources to environmental compliance, and we remain fully committed to operating in compliance with all environmental laws and regulations. During the first quarter of fiscal year 2009, as a result of this increased activity, we decided to enhance our oversight by engaging a recognized international environmental consulting firm to conduct reviews of all of our production facilities. By hiring experts in this complex area, we expect to gain additional assurance with respect to our environmental compliance. As of December 27, 2008, we have substantially completed these inspections and, where required, are undertaking appropriate corrective actions. Based on the results of the regulatory agency inspections, internal reviews and other available information, for the quarter ended December 27, 2008, we have established reserves for environmental matters of approximately \$4.2 million. Total expense for these matters was \$3.9 million and \$0.2 million in the first quarter and second quarter of fiscal 2009, respectively.

Compensation Matters

As a result of recent changes to prevailing compensation laws, we determined that it is probable that we will be required to pay additional compensation to certain affected employees for services previously rendered. While rulemaking regarding this law remains ongoing, in an effort to estimate the amount, we have conducted extensive financial analysis and have inspected available historical records. We have established a reserve of approximately \$3.3 million for this liability, which we believe is sufficient to resolve this matter. This amount was recorded in cost of rental in the Consolidated Condensed Statement of Operations in the first quarter of fiscal year 2009. We do not expect this change in compensation law to materially impact our ongoing operations as we are in the process of implementing operational changes to correct the issue.

Share-Based Compensation

We grant share-based awards, including restricted stock and options to purchase our common stock. Stock option grants are for a fixed number of shares to employees and directors with an exercise price equal to the fair value of the shares at the date of grant. Share-based compensation for awards is recognized in the Consolidated Condensed Statements of Operations on a straight-line basis over the requisite service period. The amortization of share-based compensation reflects estimated forfeitures adjusted for actual forfeiture experiences. We review our estimated forfeiture rates on an annual basis. As share-based compensation expense is recognized, a deferred tax asset is recorded that represents an estimate of the future tax deduction from the exercise of stock options or release of restrictions on the restricted stock. At the time share-based awards are exercised, cancelled, expire or restrictions lapse, we recognize adjustments to income tax expense. Total compensation expense related to share-based awards was \$1.7 million and \$1.5 million for the three months ended and \$3.3 million and \$2.6 million for the six months ended December 27, 2008 and December 29, 2007, respectively. The number of options that have been exercised and restricted stock that vested since June 28, 2008, was 0.1 million shares.

Adoption of New Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). This statement provides a definition of fair value, provides guidance for measuring fair value in U.S. GAAP and expands disclosures about fair value measurement. We adopted SFAS No. 157 at the beginning of the quarter ended September 27, 2008. Our adoption did not impact our consolidated financial position or results of operations. See Note 4 of the consolidated condensed financial statements for additional disclosures.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159). This statement permits companies to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. We adopted SFAS No. 159 at the beginning of the quarter ended September 27, 2008, and did not elect the fair value option for eligible items that existed at the date of adoption.

Table of Contents

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS No. 161). This statement establishes enhanced disclosures about derivative and hedging activities. This statement is effective for fiscal years and interim periods beginning after November 15, 2008. Adoption of SFAS No. 161 will result in enhanced disclosure regarding our derivatives.

In December 2007, the FASB issued SFAS No. 141(r), Business Combinations (SFAS No. 141 (r)). This statement replaces SFAS No. 141, Business Combinations. This statement retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (which SFAS No. 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. This statement also establishes principles and requirements for how the acquirer: a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(r) will apply prospectively to business combinations for which the acquisition date is after June 27, 2009.

We believe SFAS 161 and SFAS 141(r) will not have a material impact on our consolidated financial statements.

Cautionary Statements Regarding Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a safe harbor from civil litigation for forward-looking statements. Forward-looking statements may be identified by words such as estimates, anticipates, projects, plans, expects, intends, believes, seeks, could, should, may and will or the negative versions thereof and similar words and by the context in which they are used. Such statements are based upon our current expectations and speak only as of the date made. These statements are subject to various risks, uncertainties and other factors that could cause actual results to differ from those set forth in or implied by this quarterly report on Form 10-Q. Factors that might cause such a difference include, but are not limited to, the possibility of greater than anticipated operating costs, including energy costs, lower sales volumes, the performance and costs of integration of acquisitions or assumption of unknown liabilities in connection with acquisitions, fluctuations in costs of materials and labor, costs and possible effects of union organizing activities, loss of key management, uncertainties regarding any existing or newly-discovered expenses and liabilities related to environmental compliance and remediation, failure to achieve and maintain effective internal controls for financial reporting required by the Sarbanes-Oxley Act of 2002, the initiation or outcome of litigation or government investigation, higher assumed sourcing or distribution costs of products, the disruption of operations from catastrophic events, disruptions in capital markets, the liquidity of counterparties in financial transactions, changes in federal and state tax laws, economic uncertainties caused by the current recession and the reactions of competitors in terms of price and service. We undertake no obligation to update any forward-looking statements to reflect events or circumstances arising after the date on which they are made except as required by law. Additional information concerning potential factors that could effect future financial results is included in the Company's Annual Report on Form 10-K for the fiscal year ended June 28, 2008.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Interest Rate Risk

We are subject to market risk exposure related to changes in interest rates. We use financial instruments, including fixed and variable rate debt, as well as interest rate swaps to manage interest rate risk. Interest rate swap agreements are entered into for periods consistent with related underlying exposures and do not constitute positions independent of those exposures. Assuming the current level of borrowings, a one percentage point increase in interest rates under these borrowings would have increased our interest expense for the second quarter of fiscal 2009 by approximately \$0.2 million. This estimated exposure considers the mitigating effects of interest rate swap agreements outstanding at December 27, 2008 on the change in the cost of variable rate debt. The current fair market value of all outstanding contracts at December 27, 2008 is an unrealized loss of \$11.0 million.

Energy Cost Risk

We use derivative financial instruments to manage the risk that changes in energy costs will have on our future financial results. We purchase futures contracts to effectively hedge a portion of anticipated energy purchases. The futures contracts are reflected at fair value in the consolidated balance sheet and the related gains or losses on these contracts are deferred in stockholders' equity (as a component of other comprehensive income) for contracts that cash flow hedge accounting is achieved or in the statements of operations depending on the effectiveness of the hedge. Upon settlement of each contract, the actual gain or loss is reflected in cost of rental operations. The current fair market value of all outstanding contracts at December 27, 2008 is an unrealized loss of \$1.8 million.

Foreign Currency Exchange Risk

Our material foreign subsidiaries are located in Canada. The assets and liabilities of these subsidiaries are denominated in the Canadian dollar and as such are translated into U.S. dollars at the exchange rate in effect at the balance sheet date. Results of operations are translated using the average exchange rates throughout the period. The effect of exchange rate fluctuations on translation of assets and liabilities are recorded as a component of stockholders' equity. Gains and losses from foreign currency transactions are included in results of operations.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) or Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this Form 10-Q. Based on their evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective.

There have been no changes in our internal controls over financial reporting that occurred during the period covered by this Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

**PART II
OTHER INFORMATION**

ITEM 1. LEGAL PROCEEDINGS

On April 9, 2008, pursuant to a complaint filed in Superior Court, Judicial District of Hartford in the State of Connecticut on April 8, 2008 by the Commissioner of Environmental Protection of the State of Connecticut against us (the Complaint), the Commissioner of Environmental Protection of the State of Connecticut secured a temporary injunction in Superior Court in the State of Connecticut against us, prohibiting us from laundering shop or printer towels at our Waterbury, Connecticut facility, requiring us to cease use of certain related equipment, and requiring us to comply with certain throughput limits prescribed in permits previously issued to us by the State of Connecticut relative to this facility. The Commissioner alleges that our operations at this facility violate certain previously issued permits and/or that we are operating this facility in the absence of certain required permits. In addition, on August 4, 2008, the Commissioner filed a request for leave to file an amended complaint in this matter (Proposed Amended Complaint). In the Proposed Amended Complaint, the Commissioner alleges two additional counts with respect to our Waterbury, Connecticut facility and one additional count regarding our East Hartford, Connecticut facility. All three counts allege that our operations in the two facilities violate certain hazardous waste rules. Any violation of the temporary injunction by us would subject us to monetary penalties. We are and will continue to conduct our Waterbury, Connecticut facility in strict accordance with the terms of the temporary injunction, and we will continue to work in good faith with the Connecticut Department of Environmental Protection to resolve these matters, including with respect to any amounts which may be payable.

We became aware that our Des Moines, Iowa facility violated the facility's wastewater treatment permit. In addition, we became aware that this facility incorrectly reported its wastewater sampling results to the City of Des Moines. We promptly brought this matter to the attention of the City of Des Moines Attorney's office and the water reclamation authority. We also immediately launched our own investigation. As part of our investigation, we learned, among other things, that the City of Des Moines water reclamation authority was aware of the situation and had referred this matter to the U.S. Environmental Protection Agency (U.S. EPA). We also understand that the U.S. EPA has referred this matter to the U.S. Attorney's office in Des Moines, Iowa. On November 25, 2008, the U.S. Attorney served a Grand Jury subpoena requesting various documents, correspondence, e-mails and electronic documents related to the wastewater treatment system at the Des Moines facility. We are in the process of compiling the documentation to be submitted in response to the subpoena. Further, on November 18, 2008, G&K paid the Des Moines Metropolitan Wastewater Reclamation Authority \$0.1 million in surcharges toward resolving this matter with the city.

On July 24, 2008, the U.S. EPA inspected our facility in South Chicago, Illinois and on July 31, 2008, the U.S. EPA inspected our facility in Manchester, New Hampshire. As part of its inspections, the U.S. EPA identified certain alleged deficiencies with respect to the operations at these facilities, including potential recordkeeping violations and opportunities to improve the overall environmental compliance and permitting of the facilities. The U.S. EPA has not yet provided a written record of its findings. Since the U.S. EPA's inspection, we have had an independent environmental consulting firm audit these facilities. This firm identified certain operational deficiencies at these facilities, and we are currently undertaking corrective actions.

On August 23, 2007, the Wisconsin Department of Natural Resources (WDNR) issued a Notice of Violation (NOV) for alleged air permit violations at our Green Bay facility. The NOV alleged violations generally pertaining to washing and drying practices, the height of exhaust stacks, and recordkeeping requirements. We entered into a stipulation and order for judgment with WDNR that settles their allegations in this matter. Under the stipulation, we did not admit any liability. Pursuant to the stipulation, we paid \$0.3 million in forfeitures, penalties and surcharges and received a Satisfaction of Judgment, dated November 20, 2008.

By letter, dated June 25, 2008, the U.S. EPA notified us that it was preparing to bring an administrative enforcement action against us in connection with alleged violations of the Resource Conservation and Recovery Act at our facilities in Pittsburg, California and Santa Fe Springs, California. The alleged violations generally pertained to two tanks used to store recovered solvent, and to various training, reporting and contingency-planning requirements. The U.S. EPA also provided us with its letter containing: (a) a list of alleged violations of California's hazardous waste management requirements at the Pittsburg facility, and (b) hazardous-waste management recommendations made by Contra Costa

Health Services following a March 27, 2008 inspection of the Pittsburgh facility. We entered into a consent agreement and final order (the EPA Agreement) with the U.S. EPA that settles their allegations in this matter. Pursuant to the EPA Agreement, we paid a penalty of \$0.4 million, but we did not admit or deny any of the allegations made by the U.S. EPA.

Table of Contents

While we cannot predict the outcome of these matters, currently, none of these legal actions are expected to have a material adverse effect on our results of operations or financial position.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended June 28, 2008, which could materially affect our business, financial condition or future results. Except as set forth below there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended June 28, 2008. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial also may materially adversely affect our business, financial condition and/or operating results.

Compliance with environmental laws and regulations could result in significant costs that adversely affect our operating results.

Our operating locations are subject to stringent environmental laws and regulations relating to the protection of the environment and health and safety matters, including those governing discharges or pollutants to the air and water, the management and disposal of hazardous substances and wastes and the clean-up of contaminated sites. The operation of our businesses entails risks under environmental laws and regulations. We could incur significant costs, including clean-up costs, fines and sanctions and claims by regulators or third parties for property damage and personal injury, as a result of violations or liabilities under these laws and regulations. We could also be required as a result of violations of these laws and regulations to reduce or cease use of certain equipment and limit or stop production at certain facilities. These consequences could materially and adversely affect our results of operations and financial condition and disrupt customer relationships. We are currently involved in a limited number of legal matters and remedial investigations and actions at various locations. While it is impossible to ascertain the ultimate legal and financial liability with respect to contingent liabilities, including lawsuits, legal matters and environmental contingencies, based on information currently available and our best assessment of the ultimate amount and timing of environmental-related events, we believe that the cost of these environmental-related matters are not reasonably likely to have a material adverse effect on our results of operations or financial position. It is possible, however, that our future financial position or results of operations for any particular future period could be materially affected by changes in our assumptions or strategies related to these contingencies, the imposition of additional clean-up obligations, the discovery of additional alleged contamination or changes out of our control. In addition, potentially significant expenditures could be required to comply with environmental laws and regulations, including requirements that may be adopted or imposed in the future.

Under environmental laws, an owner or operator of real estate may be required to pay the costs of removing or remediating hazardous materials located on or emanating from property, whether or not the owner or operator knew of or was responsible for the presence of such hazardous materials. While we regularly engage in environmental due diligence in connection with acquisitions, we can give no assurance that locations that have been acquired or leased have been operated in compliance with environmental laws and regulations during prior periods or that future uses or conditions will not make us liable under these laws or expose us to third-party actions, including tort suits.

At each reporting period, we assess our operations to determine whether the costs of resolution of legal matters or of investigation and remediation of environmental conditions are probable and can be reasonably estimated as well as the adequacy of our reserves with respect to such costs. In fiscal year 2009, we increased our reserves for environmental matters to approximately \$4.2 million. We cannot guarantee that our reserves with respect to environmental matters will be sufficient or that the costs of resolution of legal matters or of remediation and investigation will not substantially exceed our reserves as new facts, circumstance or estimates arise.

Volatility in the global economy could adversely affect results.

Global financial markets have been experiencing an extreme disruption in recent months, including, among other things, volatility in security prices, diminished liquidity and credit availability, rating downgrades of certain investments and declining valuations of others. However, there can be no assurance that there will not be further change, which could lead to challenges in our business and negatively impact our financial results. The current tightening of credit in financial markets adversely affects the ability of our customers and suppliers to obtain financing

for significant purchases and operations and could result in a decrease in orders and spending for our products and services. We are unable to predict the likely duration and severity of

Table of Contents

the current disruption in financial markets and adverse economic conditions and the effects they may have on our business and financial condition.

Fluctuations in demand for our products and services may harm our financial results and are difficult to forecast.

Current uncertainty in global economic conditions poses a risk to the overall economy as consumers and businesses may defer purchases in response to tighter credit and negative financial news, which could negatively impact our customers which could consequently have a negative impact on our financial performance. If demand for our products and services fluctuates as a result of economic conditions or otherwise, our revenue and operating margin could be negatively impacted. Important factors that could cause demand for our products and services to fluctuate include:

changes in business and economic conditions, including a further downturn in the automobile industry and/or the overall economy;

changes in consumer confidence caused by changes in market conditions, including changes in the credit market, expectations for inflation, and energy prices;

competitive pressures, including pricing pressures, from companies that have competing products and services;

changes in customer needs;

changes in the employment levels at our customers which impacts the number of users of our products and services;

strategic actions taken by our competitors; and

market acceptance of our products and services.

If our customers demand for our products and services decreases, our plant and manufacturing capacity could be underutilized, and we may be required to record an impairment on our long-lived assets including facilities and equipment, as well as intangible assets, which would increase our expenses. The change in demand for our products and services, and changes in our customers needs, could have a variety of negative effects on our competitive position and our financial results, and, in certain cases, may reduce our revenue, increase our costs, lower our gross margin percentage, or require us to recognize impairments of our assets.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table includes information about repurchases we made of our common stock during the periods indicated:

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit) \$	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number
				(or Approximate Dollar Value) of Shares (or Units) that May Yet be Purchased Under the Plans or Programs
Month #1				\$ 67,822,146

(Fiscal month beginning September 28,

2008 and ending November 1, 2008)

Month #2

(Fiscal month beginning November 2,

2008 and ending November 29, 2008)	339,568	\$21.92	339,568	\$ 60,367,118
---	---------	---------	---------	---------------

Month #3

(Fiscal month beginning November 30,

2008 and ending December 27, 2008)	114,600	\$22.05	114,600	\$ 57,836,737
---	---------	---------	---------	---------------

In May 2008, we announced the authorization to expand our share repurchase program from \$100.0 million to \$175.0 million, which increases the share repurchase program previously approved by our Board of Directors in May 2007. For the three months ended December 27, 2008, we repurchased 454,168 shares totaling \$10.0 million and for the three months ended December 29, 2007, we repurchased 913,185 shares totaling \$36.0 million. For the six months ended December 27, 2008, we repurchased 650,387 shares totaling \$16.1 million and for the six months ended December 29, 2007, we repurchased 1,170,485 shares totaling \$46.2 million. Cash spent on the repurchase of shares totaled approximately \$10.0 million and \$36.0 million during the three months ended December 27, 2008 and December 29, 2007, respectively and approximately \$16.1 million and \$47.2 million during the six months ended December 27, 2008 and December 29, 2007, respectively. The amount of cash

27

Table of Contents

expended during the six month period ending December 29, 2007 included \$1.0 million for shares repurchased in the fourth quarter of fiscal year 2007 but not paid until July 2, 2007. As of December 27, 2008, we had \$57.8 million remaining under this authorization.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

- a. The Company held its Annual Meeting of Shareholders on November 13, 2008.
- b. The following three persons were elected as directors: Lynn Crump-Caine, J. Patrick Doyle and M. Lenny Pippin. The following six persons comprise the other directors whose terms of office continued after the Annual Meeting of Shareholders: Paul Baszucki, John S. Bronson, Wayne M. Fortun, Richard L. Marcantonio, Ernest J. Mrozek and Alice M. Richter.
- c. 1. Each director nominee received the following votes:

	In Favor	Shares Withhold Authority	Broker Non-Votes
Ms. Crump-Caine	16,819,068	258,279	0
Mr. Doyle	9,140,229	7,937,118	0
Mr. Pippin	16,824,918	252,429	0

2. Shareholders ratified the appointment of Ernst & Young LLP, Independent Registered Public Accounting Firm, as the Company's independent auditors for fiscal 2009: 16,957,457 shares in favor, 104,676 shares voting against and 15,214 shares abstaining. There were no broker non-votes.

ITEM 6. EXHIBITS

- a. Exhibits

31.1 Certification of Chief Executive Officer pursuant to Securities Exchange Act Rule 13a-14(a)/15d-14(a) as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification of Chief Financial Officer pursuant to Securities Exchange Act Rule 13a-14(a)/15d-14(a) as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
