INFORMATION REQUIRED IN REGISTRATION STATEMENT

Item 1. Description of Registrant's Securities to Be Registered.

The following description of the Registrant’s Common Stock and the provisions of its charter documents are summaries and are qualified by reference to the Registrant’s certificate of incorporation and its bylaws listed as exhibits to this registration statement. The Registrant and its Common Stock are also governed by the general corporation laws of the State of Delaware.

Description of Our Common Stock

We are authorized to issue up to an aggregate of 100,000,000 shares of our common stock, par value \$0.005 per share. As of February 28, 2014, an aggregate of 32,188,269 shares of our common stock were issued and outstanding. Our certificate of incorporation does not provide for cumulative voting. The holders of our common stock are entitled to receive ratably such dividends, if any, as may be declared by our board of directors out of legally available funds. However, the current policy of our board of directors is to retain earnings, if any, for our operations and expansion. Upon any liquidation, dissolution or winding-up of our company, the holders of our common stock are entitled to share ratably in all of our assets which are legally available for distribution, after payment of or provision for all liabilities and the preferences of any then outstanding shares of preferred stock. The holders of our common stock have no preemptive, subscription, redemption or conversion rights. All issued and outstanding shares of our common stock are fully paid and non-assessable.

Description of the Preferred Stock

We are authorized to issue up to an aggregate of 10,000,000 shares of preferred stock, par value \$0.005 per share, in one or more series as may be determined by our board of directors, which may establish from time to time the number

of shares to be included in such series, and fix the designations, powers, preferences and relative, participating, optional or other special rights, and qualifications, limitations, or restrictions thereof, including without limitation, the dividend rate, conversion rights, redemption price and liquidation preference thereof. As of February 28, 2014 we did not have any shares of preferred stock issued and outstanding. Any preferred stock established and designated by our board of directors may rank senior to our common stock with respect to the payment of dividends or amounts upon liquidation, dissolution or winding up of us, or both. The issuance of shares of preferred stock, the existence of unissued preferred stock, or the issuance of rights to purchase such shares of preferred stock, may have the effect of delaying or deterring an unsolicited merger or other change of control transaction.

Registration Rights

In connection with a private placement completed in November 2012, we entered into a registration rights agreement with the certain of the selling security holders that required us to file the registration statement on Form S-1, amended June 12, 2013. Further, the Company is required to maintain the effectiveness of the registration statement on Form S-1 until the earlier of (i) all of the securities underlying the registration statement have been sold, or (ii) two (2) years from the date the registration statement becomes effective. In addition, if we fail to timely file or maintain the effectiveness of the registration statement, we may be required to pay additional liquidated damages to affected holders.

Anti-Takeover Effects of our Amended and Restated Certificate of Incorporation, Bylaws and Delaware Law

We currently have authorized but unissued shares of our common stock which will be available for future issuance without any further vote or action by our stockholders. In addition, pursuant to the terms of our certificate of incorporation, we are authorized to issue, without stockholder approval, up to an aggregate of 10,000,000 shares of preferred stock, par value \$0.005 per share, in one or more series as may be determined by our board of directors, which may establish from time to time the number of shares to be included in such series, and fix the designations, powers, preferences and relative, participating, optional or other special rights, and qualifications, limitations, or restrictions thereof, including without limitation, the dividend rate, conversion rights, redemption price and liquidation preference thereof. Any preferred stock so established and designated by our board of directors may rank senior to our common stock with respect to the payment of dividends or amounts upon liquidation, dissolution or winding up of us, or both.

These shares of common stock and preferred stock may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of our common stock and our preferred stock, and our ability to fix the designations, powers, preferences and rights of shares of our preferred stock, could render more difficult or discourage an attempt to obtain control over us by means of a proxy contest, tender offer or merger, or otherwise.
