INSPERITY, INC.

PROXY STATEMENT

Solicitation

The accompanying proxy is solicited by the Board of Directors, or Board, of Insperity, Inc., a Delaware corporation, for use at the 2018 Annual Meeting of Stockholders to be held on May 23, 2018, and at any reconvened meeting after an adjournment thereof. The 2018 Annual Meeting of Stockholders will be held at 3:00 p.m. (Houston, Texas time), in the Auditorium in Centre I of our corporate headquarters at 19001 Crescent Springs Drive, Kingwood, Texas 77339.

Voting Information

If your name is registered on our stockholder records as the owner of the shares, then you are the “stockholder of record” and you may vote in one of four ways:

- by attending the meeting and voting in person;
- by mail by signing, dating and returning your proxy in the envelope provided;
- via the Internet at the address listed on your proxy card; or
- by telephone using the toll-free number listed on your proxy card.

If your shares are held by a bank, broker or other custodian (commonly referred to as shares held “in street name”), the availability of telephone and Internet voting will depend on the processes of your custodian. Therefore, if your shares are held in street name, we recommend that you follow the voting instructions on the form that you receive from your custodian. If your shares are held in street name and you do not give your custodian direction on how to vote your shares, then your custodian will not have discretion to vote your shares on matters presented at the meeting, other than Proposal 3. If you hold your shares in street name through a custodian, you are invited to attend the 2018 Annual Meeting of Stockholders, but you must obtain a signed proxy from your custodian in order to vote in person.

For stockholders of record, if you either return your signed proxy or submit your proxy using the Internet or telephone procedures available to you, your shares will be voted as you direct. If you properly execute and return the proxy without indicating a voting direction, then your shares will be voted FOR the election as directors of the nominees listed herein, and FOR Proposals 2, 3 and 4. In addition, the proxy confers discretionary authority to the persons named in the proxy authorizing those persons to vote, in their discretion, on any other matters properly presented at the 2018 Annual Meeting of Stockholders. The Board is not currently aware of any such other matters.

If you are a stockholder of record, you may change or revoke your vote by timely: (1) submitting written notice of revocation to the Secretary of the Company at the address for our corporate headquarters, provided above; (2) submitting another proxy card that is properly signed and later dated; (3) submitting a proxy again on the Internet or by telephone; or (4) voting in person at the 2018 Annual Meeting of Stockholders. If you hold your shares in street name, you may change or revoke your vote by timely (1) submitting new instructions in the manner provided by your custodian or (2) contacting your custodian to obtain a proxy to vote in person at the meeting.

We pay the expense of preparing, printing and mailing proxy materials to our stockholders. In addition to solicitation by mail, our officers or employees (none of whom will receive additional compensation) may solicit the return of proxies by telephone, email or personal interview. We will also reimburse brokerage houses and other nominees for their reasonable expenses in forwarding proxy materials to beneficial owners of our common stock.

The approximate date on which this proxy statement and the accompanying proxy card will first be sent to stockholders is April 23, 2018.

At the close of business on April 3, 2018, the record date for the determination of stockholders entitled to receive notice of, and to vote at, the 2018 Annual Meeting of Stockholders or any reconvened meeting after an adjournment thereof, 42,007,195 shares of our common stock, par value \$0.01 per share, were outstanding. Each share of our common stock is entitled to one vote upon each of the matters to be voted on at the 2018 Annual Meeting of Stockholders. The presence, in person or by proxy, of a majority of the outstanding shares of our common stock is

Table of Contents

required for a quorum. If a quorum is present at the meeting, under our Bylaws, action on a matter or to elect director nominees shall be approved if the votes cast in favor of the matter or nominee exceed the votes cast opposing the matter or such nominee, as applicable.

In determining the number of votes cast, shares abstaining from voting or not voted on a matter will not be treated as votes cast. Accordingly, although proxies containing broker non-votes (which result when a broker holding shares for a beneficial owner has not received timely voting instructions on certain matters from such beneficial owner and when the broker does not otherwise have discretionary power to vote on a particular matter) are considered “shares present” in determining whether there is a quorum present at the 2018 Annual Meeting of Stockholders, they are not treated as votes cast with respect to the election of directors, and thus will not affect the outcome of the voting on the election of directors or any of the other proposals on non-routine matters to be voted on at the 2018 Annual Meeting of Stockholders other than with respect to Proposal Number 4. Because the vote required for approval of Proposal Number 4 is a majority of the shares outstanding and entitled to vote on the record date, abstentions and broker non-votes will have the same effect as votes against the proposal.

**SECURITY OWNERSHIP**

The following table sets forth the number and the percentage of shares of our common stock that were beneficially owned as of April 3, 2018 by: (1) each person known by us to beneficially own 5% or more of our common stock; (2) all current directors and persons nominated to become directors; (3) each of our executive officers identified in the Summary Compensation Table; and (4) all of our directors, director nominees and executive officers as a group.

PROPOSAL NUMBER 1:  
ELECTION OF DIRECTORS

General

In accordance with our Certificate of Incorporation, the members of the Board are divided into three classes. Our Certificate of Incorporation also provides that such classes shall be as nearly equal in number as possible. The terms of office of the Class I, Class II and Class III directors expire at the Annual Meeting of Stockholders in 2020, 2018 and 2019, respectively. The term of office of each of Carol R. Kaufman, Paul J. Sarvadi and Norman R. Sorensen, who comprise the current Class II directors, expires at the time of the 2018 Annual Meeting of Stockholders, or as soon thereafter as their successors (if any) are elected and qualified. Mr. Sorensen, whose term expires at the 2018 Annual Meeting of Stockholders, is not standing for re-election to the Board. Accordingly, only Ms. Kaufman and Mr. Sarvadi have been nominated for re-election to the Board as described below. All nominees have consented to be named in this proxy statement and to serve as a director if elected.

Our Certificate of Incorporation and Bylaws provide that the number of directors on the Board shall be fixed from time to time by the Board but shall not be less than three nor more than 15 persons. The number of members constituting the Board is currently fixed at nine but will be reduced to eight following the 2018 Annual Meeting of Stockholders.

Voting; Approval Requirements

All proxies will be voted in favor of the nominees named below unless a stockholder has indicated otherwise. The affirmative vote of a majority of the votes cast by holders of our common stock present in person or by proxy at the 2018 Annual Meeting of Stockholders is required for election of the nominees. Abstentions and broker non-votes will be deemed votes not cast. Under our Bylaws and in accordance with Delaware law, a director's term extends until his or her successor is duly elected and qualified, or until he or she resigns or is removed from office. Thus, an incumbent director who fails to receive the required vote for re-election at our Annual Meeting of Stockholders would continue serving as a director (sometimes referred to as a "holdover director"), generally until the next Annual Meeting of Stockholders. However, as a condition to being nominated to continue to serve as a director, the incumbent director nominees have submitted an irrevocable letter of resignation that is effective upon and only in the event that (1) such nominee fails to receive the required vote; and (2) the Board accepts such resignation. In such an event, the Nominating and Corporate Governance Committee is required to make a recommendation to the Board as to whether the Board should accept the resignation, and the Board is required to decide whether to accept the resignation and to disclose its decision-making process within 90 days from the certification of the election results.

If, at the time of or prior to the 2018 Annual Meeting of Stockholders, any of the nominees should be unable or decline to serve, the discretionary authority provided in the proxy may be used to vote for a substitute or substitutes designated by the Board. The Board has no reason to believe that any substitute nominee or nominees will be required. No proxy will be voted for a greater number of persons than the number of nominees named herein.

Nominees for Director

The following individuals have been nominated for re-election to the Board as Class II directors with terms expiring at the 2021 Annual Meeting of Stockholders:

**CORPORATE GOVERNANCE**

Corporate Governance Guidelines

We have adopted Corporate Governance Guidelines, which include guidelines for, among other things, director responsibilities, qualifications and independence. The Board regularly monitors developments in corporate governance practices and regulatory changes and periodically assesses the adequacy of and modifies our Corporate Governance Guidelines and committee charters as warranted in light of such developments. You can access our Corporate Governance Guidelines in their entirety on our website at [www.insperity.com](http://www.insperity.com) in the Corporate Governance section under the Investor Relations tab. The information on our website is not, and shall not be deemed to be, a part of this proxy statement.

On an annual basis, each director and named executive officer is obligated to complete a questionnaire that requires disclosure of any transactions with the Company in which the director or executive officer, or any member of his or her immediate family, has a direct or indirect material interest. Directors are also required to promptly advise us of any changes to the information previously provided.

Director Independence

Under the rules of the NYSE, a majority of our directors must be independent. No director qualifies as independent unless the Board affirmatively determines that the director has no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company). In evaluating each director's independence, the Board considered all relevant facts and circumstances, and relationships and transactions between each director, her or his family members or any business, charity or other entity in which the director has an interest on the one hand, and the Company, its affiliates, or our senior management on the other. As a result of this review, at its meeting held on February 21, 2018, the Board affirmatively determined that all of the Company's directors are independent, with the exception of Messrs. Sarvadi and Rawson, both of whom are members of our senior management.

The Board has considered what types of disclosure should be made relating to the process of determining director independence. To assist the Board in making disclosures regarding its determinations of independence, the Board has adopted categorical standards as contemplated under the listing standards of the NYSE then in effect. Under the rules then in effect, relationships that were within the categorical standards were not required to be disclosed and their impact on independence was not required to be separately discussed, although the categorical standards, by themselves, did not determine the independence of a particular director. The Board considers all relevant facts and circumstances in determining whether a director is independent. A relationship satisfies the categorical standards adopted by the Board if it:

- is not a relationship that would preclude a determination of independence under Section 303A.02(b) of the NYSE Listed Company Manual;

## Table of Contents

- consists of charitable contributions made by us to an organization where a director is an executive officer and does not exceed the greater of \$1 million or 2% of the organization's gross revenue in any of the last three years; and
- is not required to be, and it is not otherwise, disclosed in this proxy statement.

In the course of the Board's determination regarding the independence of directors other than Messrs. Sarvadi and Rawson, it considered all transactions, relationships and arrangements in which such directors and the Company were participants.

### Selection of Nominees for the Board of Directors

#### Identifying Candidates

The Nominating and Corporate Governance Committee solicits ideas for potential candidates for membership on the Board from a number of sources including members of the Board, our executive officers, individuals personally known to the members of the Board, research and search firms. The Nominating and Corporate Governance Committee also has sole authority to select and compensate a third-party executive search firm to help identify candidates, if it deems advisable. In addition, the Nominating and Corporate Governance Committee will consider candidates for the Board submitted by stockholders. Any such submissions should include the candidate's name and qualifications for Board membership and should be directed to our Corporate Secretary at 19001 Crescent Springs Drive, Kingwood, Texas 77339. Although the Nominating and Corporate Governance Committee does not require the stockholder to submit any particular information regarding the qualifications of the stockholder's candidate, the level of consideration that the Nominating and Corporate Governance Committee will give to the stockholder's candidate will be commensurate with the quality and quantity of information about the candidate that the stockholder makes available to the Committee. The Nominating and Corporate Governance Committee will consider all candidates identified through the processes described above, and will evaluate each of them on the same basis.

In addition, our Bylaws permit our stockholders to nominate directors for election at an annual stockholders meeting whether or not such nominee is submitted to and evaluated by the Nominating and Corporate Governance Committee. To nominate a director using this process, the stockholder must follow the procedures described under "Additional Information — Stockholder Director Nominations for 2019 Annual Meeting of Stockholders."

#### Evaluating Candidates

Each candidate must meet certain minimum qualifications, including:

- the ability to represent the interests of all of our stockholders and not just one particular constituency;
- independence of thought and judgment;
- the ability to dedicate sufficient time, energy and attention to the performance of her or his duties, taking into consideration the prospective nominee's service on other public company boards; and
- skills and expertise that are complementary to the existing Board members' skills; in this regard, the Board will consider the Board's need for operational, sales, management, financial, governmental or other relevant expertise.

In addition, the Nominating and Corporate Governance Committee considers other qualities that it may deem to be desirable from time to time, such as the extent to which the prospective nominee contributes to the diversity of the Board — with diversity being construed broadly to include a variety of perspectives, opinions, experiences and backgrounds. However, diversity is just one factor that the Nominating and Corporate Governance Committee may consider, and the Board does not have any particular policy with regard to diversity. The Nominating and Corporate Governance Committee may also consider the ability of the prospective nominee to work within the then-existing interpersonal dynamics of the Board and her or his ability to contribute to the collaborative culture among Board members.

Generally, based on this initial evaluation, the chairperson of the Nominating and Corporate Governance Committee will determine whether to interview the nominee, and if warranted, will recommend that one or more members of the Nominating and Corporate Governance Committee, other members of the Board and senior management, as appropriate, interview the nominee in person or by telephone. After completing this evaluation and interview process, the Nominating and Corporate Governance Committee makes a recommendation to the entire Board as to the persons who

should be nominated by the Board, and the Board determines the nominees after considering the recommendation of the Nominating and Corporate Governance Committee.

### Board of Directors Leadership

We do not have a policy with respect to whether the positions of Chairman of the Board and chief executive officer (“CEO”) should be held by the same person or two separate individuals, and believe that it is in the best interest of the Company to consider that question from time to time in the context of succession planning. At this time, the Board believes that it is in the best interest of the Company, and is an appropriate leadership structure, to have the CEO also serve as Chairman of the Board. Combining the CEO and Chairman of the Board roles provides an efficient and effective leadership model that promotes unambiguous accountability and alignment on corporate strategy. Mr. Sarvadi co-founded the Company in 1986 and has served as Chairman of the Board and CEO since 1989. The Board believes that Mr. Sarvadi’s intimate knowledge of the daily operations of, and familiarity with, the Company and industry put him in the best position to provide leadership to the Board on setting the agenda, emerging issues facing the Company and the PEO industry, and strategic opportunities. Additionally, Mr. Sarvadi’s substantial financial stake in the Company creates a strong alignment of interests with other stockholders. Mr. Sarvadi’s combined roles also ensure that a unified message is conveyed to stockholders, employees and clients.

The position of lead independent director is established by our Corporate Governance Guidelines. Mr. Young is currently the lead independent director. The Board reevaluates the lead independent director position annually. The lead independent director has the following responsibilities in addition to the regular duties of a director:

- prepare and set the agenda for and chair executive sessions of the outside directors;
- call or convene executive sessions of the outside directors;
- authority to set the agenda for meetings of the Board;
- preside at all meetings of the Board where the Chairman of the Board is not present or has a potential conflict of interest;
- serve as liaison and facilitate communications between the independent directors and the Chairman of the Board and CEO;
- consult with the Chairman of the Board and CEO on matters relating to corporate governance and performance of the Board; and
- collaborate with the rest of the Nominating and Corporate Governance Committee on possible director conflicts of interest or breaches of the Corporate Governance Guidelines.

### Board of Directors’ Role in Risk Oversight

The Board is responsible for overseeing the Company’s overall risk profile and assisting management in addressing specific risks. Our Enterprise Risk Management Steering Committee (the “ERM Steering Committee”) is responsible for formally identifying and evaluating risks that may affect our ability to execute our corporate strategy and fulfill our business objectives. The ERM Steering Committee employs a disciplined approach to identifying, documenting, evaluating, communicating, and monitoring enterprise risk management within the Company. The ERM Steering Committee is chaired by the Company’s chief financial officer and includes the Company’s general counsel, internal audit director and other members of management. The ERM Steering Committee reports to the Board and the CEO. The ERM Steering Committee is charged with periodically reviewing our overall risk profile, as well as any significant identified risks, with both the Finance, Risk Management and Audit Committee and the entire Board. During 2017, the ERM Steering Committee completed a comprehensive review and update of the Company’s risks, including strategic, operational, financial, legal, regulatory and reputational risks. The ERM Steering Committee further reviewed and updated the mitigating factors associated with such risks, and prioritized the identified risks based upon the subjectively determined likelihood of the occurrence and the estimated resulting impact on the Company if the risk occurred.

The Board executes its risk oversight function both directly and through its standing committees, each of which assists the Board in overseeing a part of the Company’s overall risk management. Throughout the year, the Board and each such committee spend a portion of their time reviewing and discussing specific risk factors, and risk assessments are part of all major decision making. The Board is kept informed of each committee’s risk oversight and related activities

through regular reports from such committees. The Finance, Risk Management and Audit Committee is assigned primary responsibility for oversight of risk assessment with financial implications. In its periodic meetings with management,

internal auditors and independent auditors, the Finance, Risk Management and Audit Committee reviews and monitors many factors relating to enterprise risk, including:

- the financial affairs of the Company;
- the integrity of the Company's financial statements and internal controls;
- the Company's compliance with legal and regulatory requirements;
- the independent auditor's qualifications, independence and performance;
- the performance of the personnel responsible for the Company's internal audit function and independent auditors; and
- the Company's policies and procedures with respect to risk management.

The Compensation Committee has the primary responsibility to consider material risk factors relating to the Company's compensation policies and practices. The Nominating and Corporate Governance Committee monitors governance and succession risks. As part of its review and approval of our capital budget, major acquisitions, material contracts, compensation and other similar matters, the Board retains ultimate authority over assessing the risks and their impacts on our business.

### Prohibition on Hedging and Pledging of Our Common Stock

We have established strict standards regarding the speculative trading of our common stock. In February 2013, we amended our internal policies to prohibit employees from engaging in hedging transactions involving our common stock. The Board also adopted a formal policy prohibiting employees and directors from engaging in the significant pledging of shares of our common stock. All pledging requests will be reviewed by the Board, which will consider the facts and circumstances and other information the Board deems relevant.

As of April 3, 2018, Mr. Sarvadi had 200,000 shares of our common stock pledged, which includes the shares issued in connection with our stock split. After a thorough review, the Board previously determined that the shares pledged by him were not significant. In making this determination, the Board considered that the pledged shares did not represent a material portion of the total shares beneficially owned by him and less than 1% of our total shares outstanding and market capitalization. The pledged shares represent approximately 7.1% of the shares of our common stock Mr. Sarvadi beneficially owned as of April 3, 2018. The Board also considered Mr. Sarvadi's significant number of founder's shares that were not earned as compensation from the Company, and his compliance with our stock ownership guidelines, disregarding the pledged shares.

### Code of Business Conduct and Ethics

The Board has adopted a Code of Business Conduct and Ethics (the "Code") governing the conduct of our directors, officers and employees. The Code, which meets the requirements of Rule 303A.10 of the NYSE Listed Company Manual and Item 406 of Regulation S-K, is intended to promote honest and ethical conduct, full, fair, accurate, timely and understandable disclosure in our public filings, compliance with laws and the prompt internal reporting of violations of the Code. You can access the Code on our website at [www.insperity.com](http://www.insperity.com) in the Corporate Governance section under the Investor Relations tab. Changes in and waivers to the Code for our directors, executive officers and certain senior financial officers will be posted on our Internet website within four business days of being approved and will be maintained for at least 12 months. If you wish to raise a question or concern or report a violation, including anonymously, to the Finance, Risk Management and Audit Committee, you should visit [www.ethicspoint.com](http://www.ethicspoint.com) or call the Ethicspoint toll-free hotline at 1-866-384-4277.

### Stockholder Communications

Stockholders and other interested parties may communicate directly with the entire Board or the non-management directors as a group by sending an email to [directors@insperity.com](mailto:directors@insperity.com). Alternatively, you may mail your correspondence to the Board or non-management directors in care of the Corporate Secretary, 19001 Crescent Springs Drive, Kingwood, Texas 77339. In the subject line of the email or on the envelope, please specify whether the communication is addressed to the entire Board or to the non-management directors.

Unless any director directs otherwise, communications received (via U.S. mail or email) will be reviewed by our Corporate Secretary who will exercise his discretion not to forward to the Board correspondence that is inappropriate such

as business solicitations, frivolous communications and advertising, routine business matters (i.e. business inquiries, complaints, or suggestions), and personal grievances.

### MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS

#### The Board of Directors

Directors are expected to attend all or substantially all Board meetings and meetings of the Committees of the Board on which they serve. Directors are also expected to spend the necessary time to discharge their responsibilities appropriately (including advance review of meeting materials) and to ensure that other existing or future commitments do not materially interfere with their responsibilities as members of the Board. The Board met 10 times in 2017. All of the members of the Board participated in more than 75% of the meetings of the Board and Committees of which they were members during the fiscal year ended December 31, 2017. The Board encourages its members to attend the Annual Meeting of Stockholders. Last year, six of our directors attended the Annual Meeting of Stockholders.

#### Executive Sessions of the Board of Directors and the Lead Independent or Presiding Director

Our independent directors hold executive sessions at which our management is not in attendance at regularly scheduled Board meetings. The lead independent director establishes the agenda and serves as presiding director at the executive sessions. In the absence of a lead independent director, the chairperson of the Nominating and Corporate Governance Committee (if different from the lead independent director) or an independent director designated by the outside directors shall preside at meetings of non-management directors. Currently, Mr. Young serves as both the lead independent director and the chairperson of the Nominating and Corporate Governance Committee.

#### Committees of the Board of Directors

The Board has appointed three standing committees: the Finance, Risk Management and Audit Committee; the Compensation Committee; and the Nominating and Corporate Governance Committee. The charters for each of the three standing committees, which have been adopted by the Board, contain a detailed description of the respective standing committee's duties and responsibilities and are available on our website at [www.insperity.com](http://www.insperity.com) in the Corporate Governance section under the Investor Relations tab. The Board has reviewed the applicable legal and NYSE standards for independence for members of each of Finance, Risk Management and Audit Committee; the Compensation Committee; and the Nominating and Corporate Governance Committee as well as our independence standards for such Committees and has determined that the members of each of those Committees of the Board is "independent" under such requirements.

#### Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee met thirteen times in 2017. The members of the Nominating and Corporate Governance Committee currently are: Mr. Young, who serves as chairperson, and Mr. Clifford, Ms. Kaufman and Mr. Sorensen. The Nominating and Corporate Governance Committee: (1) identifies individuals qualified to become Board members, consistent with the criteria for selection approved by the Board; (2) recommends to the Board a slate of director nominees to be elected by the stockholders at the next Annual Meeting of Stockholders and, when appropriate, director appointees to take office between Annual Meetings of Stockholders; (3) develops and recommends to the Board a set of corporate governance guidelines for the Company; and (4) oversees the evaluation of the Board.

#### Finance, Risk Management and Audit Committee

The Finance, Risk Management and Audit Committee met eight times in 2017. The members of this Committee currently are Mr. Young, who serves as chairperson, Ms. Masterson, Mr. Mehl and Mr. Morphy. The Board has determined that Mr. Young is an "audit committee financial expert" as such term is defined in Item 401(h) of Regulation S-K promulgated by the SEC. The Finance, Risk Management and Audit Committee assists the Board in fulfilling its responsibility to oversee the financial affairs, risk management, accounting and financial reporting processes, and audits of financial statements of the Company by reviewing and monitoring: (1) the financial affairs of the Company; (2) the integrity of the Company's financial statements and internal controls; (3) the Company's compliance with legal and regulatory requirements; (4) the independent auditor's qualifications, independence and performance; (5) the performance of the personnel responsible for our internal audit function and the independent auditors; and (6) our policies and procedures with respect to risk management, as well as other matters that may come before it as directed

by the Board.

Performance Highlights

For 2017, we continued to execute on our strategy to accelerate unit growth in the number of paid worksite employees (“WSEE”), achieving double-digit growth of 10.2% on a year-over-year basis. We believe that growth in the number of paid WSEE is a key metric for measuring our sales success and client retention efforts.

For 2017, our adjusted EBITDA was \$177.7 million, representing a 25.9% increase compared to 2016. Adjusted EBITDA represents EBITDA (earnings before interest, taxes, depreciation and amortization) plus stockholder advisory expenses, charitable donations related to Hurricane Harvey relief efforts and stock-based compensation. We believe that this overall increase in adjusted EBITDA demonstrates the effectiveness of our plan to grow sales, retain existing clients, manage our pricing and direct costs and control operating costs.

---

Adjusted EBITDA is a non-GAAP financial measure used by management to analyze the Company’s performance. Please read Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures” in our annual report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 12, 2018 for a reconciliation of this non-GAAP financial measure to the most directly comparable financial measure calculated and presented in accordance with GAAP.

On May 1, 2017, we announced a 20% increase to our quarterly cash dividend from \$0.125 per share (\$0.50 annualized) to \$0.15 per share (\$0.60 annualized), reflecting our continued confidence in our strategy and the increase in adjusted EBITDA generated by our business. This is the fourth increase to our quarterly dividend since 2013, in addition to the \$1.00 per share special dividend that we paid in both December 2017 and 2014.

\*Excludes a special dividend of \$1.00 per share paid in the fourth quarter of 2017.

The average base salary increase for our NEOs in 2017 was 4.6%. The increases in base salary were based on the annual performance reviews, the findings of a compensation study conducted in the Fall of 2016 (“Study”) by the Compensation Committee’s former independent compensation consultant, Meridian Compensation Partners, LLC and other factors deemed relevant by the Compensation Committee, such as Company performance and general economic conditions.

**Variable Cash Compensation**

Variable cash compensation places a significant portion of executive compensation at risk and is tied to corporate, departmental and individual performance. Variable compensation for all executive officers is paid through the Insperty Annual Incentive Program (“Cash Incentive Program”), a cash incentive program under the stockholder-approved 2012 Incentive Plan. The Cash Incentive Program embodies our pay-for-performance philosophy and helps align executive officers’ compensation to the Company’s overall performance, as well as to their respective individual performance and the performance of the departments under their respective supervision.

**Cash Incentive Program Target Bonus Percentage**

The Compensation Committee approved the target bonus percentage for each executive officer (other than the CEO) based on the CEO’s recommendations. His recommendations took into account the executive officer’s level of responsibility, market conditions and internal equity considerations. The Compensation Committee also evaluated the foregoing factors in determining the CEO’s target bonus percentage. Because executive officers are in a position to directly influence the overall performance of the Company, and in alignment with our pay-for-performance philosophy, we believe that a significant portion of their total cash compensation should be at risk.

The CEO, the individual with the greatest overall responsibility for Company performance, was granted a larger incentive opportunity in comparison to his base salary in order to weight his overall pay mix more heavily towards performance-based compensation than the overall pay mix of the other executive officers. The CFO, who had less responsibility for overall Company operating performance relative to other NEOs, was granted a smaller incentive opportunity in comparison to his base salary in order to weight his overall pay mix less heavily towards performance-based compensation than the overall pay mix of the other NEOs. For 2017, the Compensation Committee set the annual incentive targets as a percentage of each NEO’s base salary as follows:

	Target Bonus Percentage under Cash Incentive Program
Chief Executive Officer and Chairman of the Board	130%
Chief Financial Officer, Senior Vice President of Finance and Treasurer President	90% 100%
Chief Operating Officer and Executive Vice President of Client Services	100%
Executive Vice President of Sales & Marketing	100%

**Calculation and Weighting of Performance Components**

For 2017, the target variable compensation under the Cash Incentive Program for the CEO was based on corporate and individual performance components and for all other NEOs was based on corporate, departmental and individual performance components. Corporate performance goals for 2017 were based on adjusted EBITDA (“Adjusted EBITDA”), year-over-year growth in the number of paid worksite employees (“PWEE Growth”) and gross profit contribution from mark-up and business performance solutions per worksite employee per month (“GPC per WEE per Month”). For the CEO, variable compensation was heavily weighted toward corporate performance to align his Cash Incentive Program bonus opportunity with Company-wide performance.

Each performance component is determined separately and is not dependent on the other components, except that if an executive officer’s individual performance rating is below the threshold, then that executive officer would receive no Cash Incentive Program bonus, regardless of corporate and departmental performance. Each executive officer’s Cash Incentive Program bonus is the sum of the result of each performance component.

For all executive officers, 20% of the Cash Incentive Program target was weighted toward individual performance to reflect their individual performance during the year. A departmental component was included in the Cash Incentive

Program bonus of each executive officer (other than the CEO) to encourage him or her to provide effective leadership to the departments under his or her supervision, as well as to align the interests of the executive with those of the employees that he or she supervises.

Each performance component was weighted for each NEO as follows:

	Corporate Performance	Adjusted EBITDA	WEE Growth	GPC per WEE Department per Month	Individual	Total of All Components
Chief Executive Officer and Chairman of the Board	32%	32%	16%	0%	20%	100%
Chief Financial Officer, Senior Vice President of Finance and Treasurer	20%	20%	10%	30%	20%	100%

Executive Vice President of Sales & Marketing	24%	24%	12%	20%	20%	100%

**Annual Bonus Metrics Support Strong Returns to Stockholders**

The Compensation Committee has historically established a variety of annual performance goals designed to create a strong alignment between executive and stockholder interests. The Compensation Committee selects corporate performance goals that are aligned with the Company's business strategy and objectives. When achieved, the corporate performance goals contribute to the overall success of the Company and enhance stockholder value. The Compensation Committee sets each corporate performance goal to be challenging and rigorous, requiring the attainment of predetermined achievement levels before triggering a payout to the executives.

Annual Bonus Metric	Definition	Rationale
Adjusted EBITDA <sup>1</sup>	<p>In setting our Adjusted EBITDA performance goal, the Compensation Committee chose to exclude the following items from EBITDA (earnings before interest, taxes, depreciation, and amortization), to the extent applicable:</p> <p>(1) non-cash impairment charges;</p> <p>(2) stock-based and incentive compensation;</p> <p>(3) professional advisory fees and outside costs related to stockholder matters; and</p> <p>(4) other extraordinary, unusual or infrequent items.</p>	<p>We have included Adjusted EBITDA as one of our corporate performance goals because we believe it is a key indicator of our overall productivity; effective management of pricing, direct costs and operating expenses; and ability to grow the business while favorably balancing profitability.</p>
Paid Worksite Employee (PWEE) Growth	<p>The PWEE Growth corporate component of Cash Incentive Program bonuses was determined by calculating the year-over-year growth in the number of paid worksite employees for calendar year 2017 and year-over-year growth as of January 2018 compared to January 2017, with the final payout amount being based upon the period that produced the greatest percentage payout of the target bonus. We included the number of paid worksite employees for January 2018 in the performance period to reflect the results of our annual Fall Sales Campaign and significant year-end client renewal period.</p>	<p>We included PWEE Growth as a component in order to focus our NEOs on growing our business. Increasing the number of paid worksite employees is a key metric for measuring the success of our sales operations and client retention efforts and is a significant driver in our overall growth and performance.</p>
Gross Profit Contribution per WEE per Month	<p>Gross profit from our service fee and other products and services offerings expressed on a per worksite employee per month basis.</p>	<p>We included this component as a corporate performance goal because the margin on our service fee and other contributing products and services is an important driver of our overall profitability.</p>
Departmental Component	<p>The specific departmental goals for each Named Executive Officer have been outlined in the section below labeled “Departmental Component Performance”</p>	<p>Departmental goals were developed by each department and were designed to encourage employees to work together to continue making business improvements and to increase efficiency, productivity and collaboration across the organization. All departmental goals were approved by the CEO.</p>
Individual Performance	<p>The annual performance of each Named Executive Officer is evaluated based on pre-established competencies and the achievement of specific individual performance goals. Competencies for executive officers include business ethics, continuous learning, integrity, managing customer focus, strategic thinking and visionary leadership.</p>	<p>Individual performance is included to further individual development and to encourage and measure the executive’s effectiveness in supporting the Company’s commitment to be an industry leader and an employer of choice.</p>

2017. Under our Cash Incentive Program, we also adjusted our Adjusted EBITDA for incentive compensation expense.

## 2017 Performance Results

## Corporate Component

The table below shows our corporate component results versus the Company's 2017 bonus targets.

Metric	Performance Goals				Actual Results	Performance Modifier
	Threshold (50% Payout)	Target (100% Payout)	Stretch (150% Payout)	Maximum (200% Payout)		
Adjusted EBITDA	\$181.3 M	\$190.6M	\$198.65M	\$206.7	\$208.9 <sup>1</sup>	200%
PWEE Growth	11.5%	12.5%	13.25%	14.0%	11.5%	50%
GPC per WSEE per Month	\$174	\$176	\$178	\$180	\$176	100%

<sup>1</sup> Adjusted EBITDA excludes \$2 million in hurricane relief expenses and a gain of \$0.2 million in legal settlement proceeds.

For all of the metrics above, if actual performance exceeded threshold, but fell in between two performance levels, the performance modifier would be determined by interpolation between the applicable performance levels. Based on the Corporate Performance Modifier results, the payout percentage on the corporate component was 120%.

## Departmental Component

The Departmental Performance Modifier for all executive officers can range from 0% to 150% based on the achievement of departmental goals. If departmental performance was below the threshold, the Departmental Performance Modifier would be 0%, resulting in a departmental component payout of \$0. The nature of the departmental goals and objectives for each NEO was as follows:

	Nature of Departmental Goals and Objectives
Chief Financial Officer, Senior Vice President of Finance and Treasurer	Effective management of operating expenses; implementation of Company real estate strategy including effective and efficient management of Company occupancy, development, budgeting and scheduling of additional corporate campus facility; timely due diligence and integration of new products and acquisitions; successful completion of internal audit projects; quality of internal controls; and successful implementation of regulatory initiatives.
President	Effective client pricing and renewal activities; effective operating expense management; successful negotiation of certain insurance policies and third party contracts; achievement of strategic business unit financial metrics; effective process and technology enhancements; and successful implementation of certain pricing initiatives.
Chief Operating Officer and Executive Vice President of Client Services	Effective client satisfaction and retention; achievement of strategic business unit initiatives and financial metrics; and successful new sales results.
Executive Vice President of Sales & Marketing	Achievement of sales lead generation metrics; successful new sales results; expansion of our sales force; and expansion in the number of sales offices.

In light of the CEO's assessment of the other NEOs' performance against the achievement of their departmental goals, the average Departmental Performance Modifier for the other NEOs in 2017 was 137.0%.

## Individual Component

The Individual Performance Modifier for all executive officers can range from 0% to 150% based on the executive officer's individual performance rating resulting from the annual performance appraisal process, as described under "— Variable Cash Compensation — Annual Bonus Metrics Support Strong Returns to Stockholders." Based on the NEOs' individual performance ratings, the average Individual Performance Modifier for the NEOs was 144.0%.

## Long-Term Equity Incentive Compensation

Long-term equity incentives align the interests of our executive officers with those of our stockholders. We believe that long-term incentives enhance retention while rewarding executive officers for achieving long-term performance goals and enhancing stockholder value. Long-term equity incentive awards are made under the stockholder-approved 2012 Incentive Plan. The objectives of the 2012 Incentive Plan are to:

- provide incentives to attract and retain persons with training, experience and ability to serve as an executive officer;
- promote the interests of the Company by encouraging executive officers to acquire or increase their equity interest in the Company;
- incent executive officers to achieve long-term performance goals and increase stockholder value;
- provide a means by which executive officers may develop a sense of proprietorship and personal involvement in the development and financial success of the Company; and
- encourage executive officers to remain with, and devote their best efforts to the business of, the Company, thereby advancing the interests of the Company and our stockholders.

The 2012 Incentive Plan generally requires all awards of time vested restricted stock be granted with a minimum vesting period of three years (with limited exceptions for death, disability or change in control), though pro-rata vesting is permissible.

## Equity Awards Granted in 2017

In February 2017, the CEO presented to the Compensation Committee his recommendations for long term incentive awards for the other executive officers. His recommendations as to the amount of awards to be granted were

based on a number of factors, including, the importance of each executive officer's role in the Company's future business operations, equity pay practices of competitor companies, annual expense to the Company of equity awards and the Company's own past practices in granting equity awards. The Compensation Committee then determined and approved the awards for our executive officers, including the CEO, based upon the above noted factors.

<sup>1</sup> The post-split fair value of restricted stock was \$42.275 on the grant date.

The LTIP performance shares are comprised of an adjusted EBITDA performance metric, which represents 70% of the 2017 LTIP Awards, with a post-split fair value of \$42.275 and a relative TSR performance metric, which represents 30% of the 2017 LTIP Awards, with a post-split fair value of \$61.55. The grant date fair value of the

<sup>2</sup> 2017 LTIP Awards assuming achievement of the maximum level of performance are: Mr. Sarvadi - \$4,087,732; Mr. Sharp - \$742,008; Mr. Rawson - \$1,318,698; Mr. Arizpe - \$1,318,698; and Mr. Mincks - \$1,318,698. Please read Note 10. "Incentive Plans" in our annual report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 12, 2018 for information regarding fair value of performance awards.

Awards granted to NEOs under the 2012 Incentive Plan include a "double trigger" requirement in the case of a "change in control" of the Company as defined under the 2012 Incentive Plan. The imposition of a double trigger means that awards granted to NEOs do not immediately vest following a change in control. Under the double trigger, the conditions and/or restrictions that must be met with respect to vesting or exercisability of future awards granted to NEOs will lapse only after a "qualifying termination" within a prescribed number of months following a change in control. All outstanding equity awards held by NEOs include the double trigger requirement.

Generally, all equity grants to executive officers are approved solely by the Compensation Committee. If an award is made at a meeting of the Compensation Committee, the grant date is the meeting date or a fixed, future date specified at the time of the grant. Restricted stock and performance awards are valued in accordance with Accounting Standards Codification Topic 718, Compensation-Stock Compensation.

#### 2017 Restricted Stock Awards

The restricted stock awards are all subject to a three-year ratable annual vesting schedule and all NEO grants include a "double trigger" requirement in the case of a "change in control" of the Company. Following passage of the Tax Cuts and Jobs Act of 2017 ("2017 Tax Act"), the Compensation Committee determined it was in the best interest of the Company and stockholders to accelerate the vesting of restricted stock awards for tranches of the annual grants otherwise scheduled to vest in February or March of 2018, for all employees. All other tranches of the annual restricted stock grants will continue to vest in accordance with the underlying vesting schedule.

## 2017 Performance Share Awards

The table below outlines the metrics used in our 2017 performance share awards, or LTIP, and the rationale for each metric.

Performance Share Metric	Definition	Rationale
Adjusted EBITDA (70% weighting)	EBITDA is adjusted for non-cash impairment charges, stock-based compensation expense, professional advisory fees for stockholder matters, litigation settlements and the associated legal fees, executive severance arrangements and changes in statutory tax rates and assessments. EBITDA is also adjusted to exclude the impact of any divestitures, acquisitions or change in accounting pronouncement that occurs during the performance period. Performance for this metric is assessed for each year within the three-year performance period. RTSR will be measured over the entire 2017-2019 performance period against the performance of 21 peer companies that the Compensation Committee designated as the Company's 2017 compensation peer group. The EBITDA portion of the 2017 LTIP Awards are subject to a three-year performance period, 2017-2019, with each year being equally weighted for one-third of the target opportunity.	The Compensation Committee elected to use adjusted EBITDA as a performance metric because it is a key indicator of our: (1) overall productivity; (2) effective management of pricing, direct costs and operating expenses; and (3) ability to grow the business while favorably balancing profitability.
Relative TSR (30% weighting)	RTSR will be measured over the entire 2017-2019 performance period against the performance of 21 peer companies that the Compensation Committee designated as the Company's 2017 compensation peer group. The EBITDA portion of the 2017 LTIP Awards are subject to a three-year performance period, 2017-2019, with each year being equally weighted for one-third of the target opportunity.	The Compensation Committee elected to use RTSR as a performance metric to further align the long-term financial interests of the executive officers and the Company's stockholders.

Recipients can earn 50% of the target number of performance shares if the threshold performance level is achieved and can earn up to 200% of the target number of performance shares if the maximum performance level is achieved. If the performance metric for a performance period falls below the threshold level, no performance shares will be credited for the performance period. If actual performance results fall between the threshold, target and maximum performance levels, the number of performance shares earned will be determined by interpolation between the applicable performance levels.

Except in the case of a qualifying termination in connection with a change in control, or a termination due to death or disability, a participant in the LTIP must be continuously employed by the Company or its subsidiaries throughout the entire three-year performance period and on the date such award is paid after the conclusion of the performance period to receive a payout of an award. The LTIP awards are payable in shares of our common stock and include dividend equivalents, payable in additional shares of our common stock, with respect to the number of performance shares actually earned pursuant to the LTIP Awards if and to the extent dividends are paid on our common stock during the performance period.

The performance objectives and payout percentages for the portion of the first year of the 2017 LTIP Awards subject to the achievement of the adjusted EBITDA performance metric was as follows:

Performance Level	2017 Adjusted EBITDA	
	Performance Objective	Payout Percentage
	(in millions)	
Below Threshold	Less Than \$162	0%
Threshold	\$162	50%
Target	\$167	100%
Maximum	\$175	200%

Table of Contents

For purposes of the 2017 LTIP Awards, the Compensation Committee certified adjusted EBITDA of \$177.7 million for the 2017 performance period. The Compensation Committee determined the LTIP performance modifier to be 200% for the first one-third tranche of the 2017 LTIP Award attributed to adjusted EBITDA.

**2016 LTIP Awards**

The performance objectives and payout percentages for the portion of the second year of the 2016 LTIP Awards subject to the achievement of the adjusted EBITDA performance metric was as follows:

Performance Level	2017 Adjusted EBITDA	
	Performance Objective (in millions)	Payout Percentage
Below Threshold	Less Than \$149	0%
Threshold	\$149	50%
Target	\$166	100%
Maximum	\$190	200%

For purposes of the 2016 LTIP Awards, the Compensation Committee certified adjusted EBITDA of \$177.7 million for the 2017 performance period. The Compensation Committee determined the LTIP performance modifier to be 149.4% for the second one-third tranche of the 2016 LTIP Award attributed to adjusted EBITDA.

**2015 LTIP Awards**

In March 2015, the Compensation Committee granted awards under the LTIP (the “2015 LTIP Awards”) to the NEOs and certain other officers. The 2015 LTIP Awards are subject to a three-year performance period, 2015-2017, with each year being equally weighted for one-third of the target opportunity.

For the 2015 LTIP Awards, the Compensation Committee elected to use increasing levels of EBITDA, with certain pre-defined adjustments, as the performance metric, because it is a key indicator of our: (1) overall productivity; (2) effective management of pricing, direct costs and operating expenses; and (3) ability to grow the business while favorably balancing profitability. For the 2017 performance period, adjusted EBITDA for the 2015 LTIP Awards was generally subject to the same adjustments as the 2017 LTIP Awards. Adjusted EBITDA is a non-GAAP financial measure (for additional information, please see the discussion of Adjusted EBITDA under “— Long-Term Equity Incentive Compensation — Equity Award Granted in 2017”).

The 2015 LTIP Awards are payable in shares of our common stock and include dividend equivalents, payable in additional shares of our common stock, with respect to the number of performance shares actually earned pursuant to the 2015 LTIP Awards if and to the extent dividends are paid on our common stock during the performance period.

The table below outlines performance achieved for each of the three performance periods within the 2015 LTIP:

Performance Period	Adjusted EBITDA Goals			Actual Results	Vesting Percentage
	Threshold	Target	Maximum		
2015	\$101M	\$103M	\$118M	\$110.0M	145.3%
2016	\$106M	\$118M	\$136M	\$141.2M	200.0%
2017	\$111M	\$136M	\$157M	\$177.7M	200.0%

## Other Compensation Elements

## Retirement Benefits

We do not provide pension arrangements or nonqualified defined contribution or other deferred compensation plans for our executive officers. Our executive officers are eligible to participate in the Company's corporate 401(k) plan. Each payroll period, we contribute on behalf of each eligible participant a matching contribution equal to 100% of the first 6% of compensation contributed to the 401(k) plan by the participant (subject to applicable limitations under the Internal Revenue Code).

## Supplemental Benefits, Including Management Perquisites

Executive compensation also includes supplemental benefits and a limited number of perquisites that enhance our ability to attract and retain talented executive officers. We believe that perquisites assist in the operation of business, allowing executive officers more time to focus on business objectives. Supplemental benefits and perquisites include the following: (1) an automobile for business and personal use (executive officers are taxed on their personal use); (2) a supplemental executive disability income program that provides disability income of 75% of an executive officer's total cash compensation up to \$23,333 per month; and (3) an executive wellness program.

In addition to the foregoing perquisites, our executive officers participate in the annual Chairman's Trip. The annual Chairman's Trip is provided for sales representatives meeting a certain sales target and the spouses of those sales representatives. We believe that our executive officers should be part of the trip to recognize these outstanding employees of the Company. We strongly encourage our executive officers to bring their spouses to further our vision of being an employer of choice and to build relationships that contribute to retention. We pay the associated income taxes related to the trip on behalf of our employees and executive officers.

## Compensation Governance

## Stockholder Advisory Votes

At the 2017 Annual Meeting of Stockholders, the stockholders approved, in a non-binding advisory vote, the compensation of our NEOs, with over 98% of the votes cast in favor of such compensation. The Compensation Committee values the opinions expressed by our stockholders and considered input from stockholders, including the vote outcome, when it made compensation decisions for our executive officers for fiscal year 2018.

## Role of Management in Setting Compensation

The recommendations of the CEO play a significant role in the Compensation Committee's determination of compensation matters related to the other NEOs, each of whom report directly to the CEO. On an annual basis, the CEO makes recommendations to the Compensation Committee regarding such components as salary adjustments, target annual incentive opportunities and the value of long-term incentive awards. In making his recommendations, the CEO reviews the performance of each of the other NEOs based upon the core competencies of business ethics, continuous learning, integrity, managing customer focus, strategic thinking and visionary leadership, market data for similar positions and other factors deemed relevant in reviewing each executive officer's performance. The Compensation Committee takes the CEO's recommendation under advisement, but makes all final decisions regarding each NEO's compensation. The CEO does not make a recommendation with respect to his own compensation. The CEO typically attends Compensation Committee meetings, but he is excused from any meeting when the Compensation Committee deems it

advisable to meet in executive session or when the Compensation Committee meets to discuss items that would impact the CEO's compensation. The CEO's compensation is reviewed and discussed by the Compensation Committee and his performance is evaluated at least annually. The Compensation Committee makes all final compensation decisions for each of our NEOs, including the CEO.

### Role of the Compensation Committee in Setting Compensation

The Compensation Committee is responsible for designing, implementing and administering our executive compensation programs and, in doing so, the Compensation Committee is guided by the compensation philosophy stated above. The Compensation Committee reviews and approves total compensation for our NEOs through a comprehensive process that includes:

- selecting and engaging an external, independent consultant;
- reviewing and selecting companies to be included in our peer group;
- reviewing market data on all major elements of executive compensation;
- reviewing alignment of executive compensation and incentive goals with stockholder value; and
- reviewing performance results against corporate, departmental and individual goals.

A complete listing of our Compensation Committee's responsibilities is included in the Compensation Committee's charter, which is available for review on our corporate website at [www.insperity.com](http://www.insperity.com) in the Corporate Governance section under the Investor Relations tab.

### Role of the Compensation Consultants in the Compensation Process

The Compensation Committee's charter provides that it has the sole authority to retain and terminate any compensation consultant to assist in maintaining compensation practices in alignment with our compensation goals. The Compensation Committee believes that outside consultants are an efficient way to keep current on executive compensation trends and stay abreast of competitive compensation practices. In 2017, the Compensation Committee engaged FW Cook to replace its former outside consultant. FW Cook had not been previously retained by the Compensation Committee or the Company, and has not received any remuneration from the Company, directly or indirectly, other than for advisory services rendered to, or at the direction of, the Compensation Committee or the Board. The Compensation Committee has reviewed FW Cook's independence and determined that FW Cook is an independent advisor with no conflicts of interest with us (as determined under Rule 10C-1(b)(4)(i) of the Exchange Act).

### Assessing External Market Compensation Practices

At the direction of the Compensation Committee, we periodically conduct an executive compensation study that compares each executive officer's compensation to market data for similar positions. While the Compensation Committee does not target our executive officers' pay to any particular level (such as a target percentile) of comparative market data contained in executive compensation studies, such data help to inform and influence pay decisions and are considered by the Compensation Committee in meeting our compensation program objectives as described above.

Selecting a peer group to benchmark compensation for our executives presents certain challenges, including the limited number of publicly-traded PEOs and the Company's unique business model. As one of the largest PEO service providers in the United States, our direct PEO service competitors include TriNet Group, Inc., a national PEO, and the PEO divisions of Automatic Data Processing, Inc. and Paychex, Inc., which are significantly larger business service companies. The delivery of our PEO services and our other business performance solutions requires a variety of professional services, human resources, information technology services and software. These areas represent important components of our overall service offerings, and we compete for talent with many companies offering similar services or products. Our peer group includes a number of these companies. Consistent with our historical position, we do not view traditional staffing companies as competitors for business or talent and have not included such companies in our compensation peer group. We do not provide leased employees or staffing employees to clients, and in 2010 incurred significant expense and undertook significant re-branding efforts to change our name to Insperty in part to avoid any confusion with traditional staffing companies.

The selection process for the Compensation Peer Group took into account multiple factors, including: industry (with an emphasis on outsourced human resources services, including our PEO competitors), comparable revenue range, comparable market capitalization, comparable business complexity and risk, and the extent to which each company may compete with Insperity for executive talent. For 2017, the Compensation Peer Group included the following companies:

In addition to the results of the compensation Study, internal factors are also an important consideration when determining each executive officer's compensation. These factors include:

- the executive officer's performance review conducted by either the Compensation Committee (for the CEO) or the CEO (for all other executive officers);
- the CEO's recommendations regarding the other executive officers;
- the executive officer's tenure with the Company, industry experience and ability to influence stockholder value; and
- the importance of the executive officer's position to the Company in relation to the other executive officer positions within the Company.

#### Stock Ownership Guidelines

To further align the interests of the CEO and non-employee directors with those of our stockholders, the Board has adopted stock ownership guidelines for the Company. The stock ownership guidelines provide that the CEO is required to own three times his annual base salary in our common stock and all non-employee directors are required to own three times their annual cash retainer in our common stock. Stock ownership includes direct stock ownership but does not include unvested stock awards or unexercised stock options. The Company annually monitors and calculates the stock ownership level of each individual, and each individual has five years to meet the applicable ownership requirements. The CEO is in compliance and each non-employee director is in compliance or is expected to be in compliance within the applicable time period.

#### Employment Agreements, Post-Employment and Change in Control Compensation

Our executive officers are employed at will and none have an employment agreement. We do not provide the executive officers with any kind of contractual severance. Equity awards granted to executive officers do not automatically

accelerate upon a change in control. Rather such awards contain a “double trigger” requiring a qualifying termination within a prescribed number of months following the change in control in order to accelerate vesting. All outstanding equity awards held by our NEOs are subject to the double trigger requirement.

### Incentive Compensation Recoupment Policy (“Clawback Policy”)

In February 2014, the Board adopted a recoupment policy for incentive compensation paid to executive officers and other employees. The Clawback Policy authorizes the Company to recover excess incentive compensation paid to an executive officer who engaged in, or was aware of and failed to report, fraud or misconduct which results in a restatement of our financial statements. Incentive compensation paid under the Cash Incentive Program and LTIP is subject to the Clawback Policy.

### Risk Assessment

The Company conducted an assessment of our compensation programs and practices for its employees and determined that there are no risks arising from such compensation programs and practices that are reasonably likely to have a material adverse effect on the Company. In arriving at this determination, some of the key risk mitigators included independent review by departments not participating in the compensation program, internal audit review, maintenance of a whistleblower line, and external auditor review.

### Deductibility of Compensation

Section 162(m) of the Internal Revenue Code imposes a \$1 million limit on the amount that a public company may deduct for compensation paid to its principal executive officer or any of its three other most highly compensated executive officers employed as of the end of the year (other than the principal executive officer or the principal financial officer). This limitation does not apply to compensation that is paid only if the executive officer’s performance meets pre-established objective goals based on performance criteria approved by stockholders. We strive to take action, where possible and considered appropriate, to preserve the deductibility of compensation paid to our executive officers. We have also awarded compensation that might not be fully tax deductible when such grants were nonetheless in the best interest of the Company and our stockholders. Subject to the requirements of Section 162(m), we generally will be entitled to take tax deductions relating to compensation that is performance-based, which may include cash incentives, stock options and other performance-based awards.

Under the 2017 Tax Act, effective for our taxable year beginning January 1, 2018, the exception under Section 162(m) for performance-based compensation will no longer be available, subject to transition relief for certain grandfathered arrangements in effect as of November 2, 2017. In addition, the covered employees will be expanded to include our CFO, and once one of our NEOs is considered a covered employee, the NEO will remain a covered employee so long as he or she receives compensation from us. Given the lack of regulatory guidance to date, the Compensation Committee is not yet able to determine the full impact of the 2017 Tax Act changes to Section 162(m) on the Company and our compensation programs.

### Compensation Committee Report

We have reviewed and discussed the Compensation Discussion and Analysis contained in this proxy statement with management. Based on such review, we recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement for filing with the SEC.

The foregoing report is provided by the following directors, who are members of the Compensation Committee:

#### COMPENSATION COMMITTEE

Timothy T. Clifford, Chairperson

Carol R. Kaufman

Norman R. Sorensen

### Compensation Committee Interlocks and Insider Participation

During 2017, among our current directors, Mr. Clifford, Ms. Kaufman and Mr. Sorensen served on the Compensation Committee. None of the members of the Compensation Committee is currently or has been at any time one of our officers or employees. None of our executive officers currently serves, or has served during the last year, as a member of the board of directors or compensation committee of any other entity that has one or more executive officers serving as a member of the Board or the Compensation Committee.

These amounts represent the threshold, target and maximum amounts payable to each executive under the Cash Incentive Program for 2017. If the threshold is not achieved, the payout is zero. The amounts earned by our NEOs under the Cash Incentive Program in 2017 are reflected in the Summary Compensation Table.

<sup>2</sup> These amounts represent the threshold, target and maximum amount of shares payable to each executive under the LTIP.

<sup>3</sup> These amounts represent the number of shares of restricted stock granted to each executive under the 2012 Incentive Plan during 2017.

<sup>4</sup> These amounts represent the aggregate grant date fair value of restricted stock and phantom stock granted to each executive during 2017. For restricted stock, fair value is calculated using the closing price of our common stock on the NYSE on the date of grant. The grant value of the 2017 LTIP Awards is shown at target. Actual 2017 LTIP Awards may range from 0% to 200% of the target number of phantom shares if below threshold level is not achieved or the maximum performance level is achieved. The grant date fair value of the 2017 LTIP Awards assuming achievement of the maximum level of performance are: Mr. Sarvadi - \$4,087,732; Mr. Sharp - \$742,008; Mr. Rawson - \$1,318,698; Mr. Arizpe - \$1,318,698; and Mr. Mincks - \$1,318,698. For the relevant assumptions used to determine the valuation of our stock awards, refer to Note 10, "Incentive Plans," in the Notes to Consolidated Financial Statements included in our annual report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 12, 2018. The terms of the restricted stock awards provide for three-year vesting and the payment of dividends on all unvested shares. The 2017 LTIP Awards are payable in shares of our common stock and include dividend equivalents, payable in additional shares of our common stock, with respect to the number of phantom shares actually earned pursuant to the 2017 LTIP Awards if and to the extent dividends are paid on our

common stock during the performance period.
